

DEMOCRAC'S STANDARD BEARER IS NOTIFIED OF NOMINATION

THE COMMITTEE WITH MANY PROMINENT MEMBERS OF THE ORGANIZATION, PROCEEDS BY BOAT SAGAMORE FROM NEW YORK TO ESOPUS IN DRIVING RAIN, ARRIVING SHORTLY AFTER THE NOON HOUR, WHERE THE FORMALITY WAS CARRIED OUT, BAD WEATHER NOT INTERFERING

CHAMP CLARK PRESENTS PARTY COMMISSION

Judge Parker Discusses the Issues as Brought Out by the Platform—Refers to His Famous Gold Standard Telegram—Tendency of One Department of Government to Usurp Powers of Another—Labor Troubles Are Spoken of—Devotes Some Time to a Discussion of Tariff and the Trusts Which Are Made Possible by the Tariff—Pledges Himself Not to Be Candidate for Re-election in the Event He Is This Time Successful

NOTIFIED
The man stood on his shady porch
Whence all but he had fled;
The sun a molten throne did sear,
That o'er his lawn had spread.

ALTON B. PARKER

Yet another and bright he stood,
As born to get the votes;
A creature of heroic blood
On which the party dotes.

The crowd increased—he would not go
Without a parting word;
And he alone wanted to and fro
A fan, and naught inferred.

He cried aloud, "I can't guess, gents,
Why you have come to me."
He knew not that they came from
whence
They name the nominee.

"I can't conceive," again he cried,
"Why you, gents, come to me."
And then the whole committee sighed
To set their secret free.

Upon his brow he felt their breath,
And on his waving hair;
He gripped his palm-leaf fan like death,
Nor guessed why they were there.

He asked them but once more aloud,
"Oh, why do you seek me?"
Then to him bawled the entire crowd,
"We know the nominee!"

The shout arose in splendor wild,
A dog went mad—"ki-yi!"
The man seemed dazed. He said, and
smiled,
"I'd like to meet the guy."

Again a burst of thunder sound,
The man—oh, what heard he?
Cried all the gang his front porch
round,
"SAY, YOU'RE THE NOMINEE!"

"I'm feeling faint. Oh, give me air!"
The man clutched at his heart.
"You're weeks in getting here from
there—
"When did you fellows start?"

NEW YORK, Aug. 10.—With flags flying and a band playing the yacht Sagamore left the Twenty-second street pier at 8:15 today carrying 525 persons to Esopus to formally notify Judge Parker he has been nominated for president by the democratic national convention. A drizzling rain was falling and the gaiety of the occasion was somewhat marred by inclement weather. The members of the party were hopeful, however, the weather would clear up by the time the boat reached Esopus, which would be about 2 o'clock. The notification committee, members of the national committee and many other prominent democrats are guests of the state committee on this occasion. Nearly every prominent democrat within reach was invited. All of them did not avail themselves of the privilege of going on the boat but many went by train as they did not care to spend so much time on the river. Some of those who went to Esopus today were: Champ Clark, Cord Meyer, Thomas Taggart, William F. Sheehan, Charles F. Murphy, Senator Joseph W. Bailey of Texas, Patrick H. McCarren, John G. Carlisle, Marcus A. Smith of Arizona, Sherman E. Mack, Charles A. Walsh of Iowa, Perry Belmont, Daniel J. Campau of Michigan, Homer S. Cummings of Connecticut, George Foster Peabody, treasurer of the national committee; Thomas F. Ryan, Timothy E. Ryan of Wisconsin, Representative Timothy D. Sullivan and a large contingent of local democratic leaders.

ESOPUS, N. Y., Aug. 10.—Notification day, the greatest day in modern history of Ulster county, arrived with a pouring rain which set in just after daylight and continued unabated for those who faithfully promised Judge Parker good weather conditions when he was to receive formal information of his selection by the democratic national convention as its nominee for president of the United States. At midnight there was no sign of anything but the finest kind of a day, but when Judge Parker arose at the usual hour rain was coming down in a steady pour from a leaden sky. The unpropitious weather and the comments of his family and guests on the subject were received by the judge, himself, with a smile and he went about the business of the day with his usual cheery spirits.

At 10:30 o'clock there was some indication of a break in the storm, though the rain continued unabated. It was announced that unless the weather cleared the notification ceremony would take place upon the steambot Sagamore. It appeared a fact that mainly for this purpose the boat had been engaged. On account of rains the ceremony was comparatively deserted. Mr. Hill's secretary brought word that the senator would leave Albany on the 10:40 train, and word was given to the engineer of Judge Parker's launch to meet him at Hyde park. The earliest visitors from a distance were Colonel O'Sullivan and his daughter, Miss Mary O'Sullivan,

who came from New Orleans to be present at the notification.

The informality of the proceedings to come was exemplified by the entire absence of any visible preparation for the ceremony about Rosemont. No request was made for police protection. Deputy Sheriff Webster of Kingston volunteered to bring up a few deputies and have them in readiness in case a press about the speaker's stance made assistance desirable. The offer was accepted with thanks by Secretary McCauslin, but there was little need even for this presence of civil authority. The only police officer or detective on the place during the morning was Chief Humphrey of the New York Central railroad detective force, who came to look after the railroad end of the affair.

At 11:30 rain had nearly ceased, turning to fine mist, but the cloudy sky showed no break.

The notification address was delivered by Champ Clark, chairman of the committee.

CHAMP CLARK'S SPEECH
Mr. Clark said: The most momentous political performance known among men is the quadrennial election of an American president. The supreme executive power of 80,000,000 free people changes hands with simple ceremony and most perfect order. While the contest for votes is waged with earnestness and enthusiasm—sometimes with much heat and bitterness—each acceptance of the result by the defeated is the surest augury of the perpetuity of our institutions.

"Presidents come and presidents go, but the great republic—freighted with the hopes of the human race for liberty—goes on forever.

All history proves that a government bottomed on popular suffrage is a government by party. Experience shows that he serves his party best who serves his country best. The names most fondly cherished are those of men who devoted their time, their energies, their talents, their fortunes and their lives to the promotion of the public weal. Stronger incentive to high and patriotic endeavor no man hath than the hope to stand through all the ages in that godly company.

"Out of the mastery debates and profound deliberation of the St. Louis convention emerged a re-united party, which goes forth conquering and to conquer. The flower of the democracy assembled there to consult on the state of the country and to take measures for restoring the government to the principles enunciated by the father, from which it has drifted far in these latter days.

"Every phase of democratic opinion was represented by brave, honest and able champions in that great conclave of free and patriotic men.

NO CUT AND DRIED PROGRAM
"The St. Louis convention carried out no cut and dried program. Its deliberations wavered and talking when the strings were pulled by one man. Speech and action were absolutely free and the great debates which took place there will constitute part of the country's political literature of the century.

"No effort was made to gag or bribe any one. If a delegate had a pet idea which he was anxious to exploit, he was given an adequate and respectful hearing before either the platform committee or the entire convention. Every man had his say. To none was opportunity as encourages lovers of liberty and of pure government everywhere.

ated by noble purposes and lofty patriotism.

"The principles of democracy are grounded in eternal truth. As formulated by the father of democracy they are not for a day but for all time and are as applicable in this hour as when he proclaimed them in his first inaugural address which has become a classic. The necessity of putting them into practice is as pressing now as it was then. To once more make them the basis of our political action is the pleasant but arduous task assigned you by the democracy of the land.

"To serve the whole American people, without discrimination, faithfully and well; to distribute the blessings of the federal government impartially among all our citizens; to lighten the burdens of government by reducing taxation to the minimum and by rigid economy in the public service; to administer the powers conferred by the constitution wisely, fearlessly, vigorously and patriotically without distinction and without usurpation; to maintain freedom of thought, freedom of speech and freedom of the press; to promote the sacred cause of human liberty everywhere by the wholesome use of our example; to vindicate and glorify the theory and practice of representative government; to secure its blessings to our posterity for all time—these always have been, are and forever must be the aims and purposes of the democracy.

SPLENDID ARRAY
"These aims and purposes have been carefully, clearly and comprehensively set forth in the declaration of principles which was unanimously reported to the St. Louis convention in July last by the platform committee after more than sixteen hours spent in its consideration, in which every great live issue is frankly, boldly and fully discussed, and which was unanimously and manfully adopted by the convention composed of delegates from every constituency under our flag.

"There was a splendid array of presidential candidates before the St. Louis convention, supported by loyal and ardent admirers. An unusually large number of men were placed in nomination for the greatly coveted honor. You were chosen with such enthusiasm as foretells success. Having, on the only ballot, received the two-thirds majority indispensable by democratic usage, your nomination was made unanimous with the heartfelt approval of your illustrious competitors.

"Absolute acquiescence in the decisions of the majority, the vital principle of republicanism, has ever been a cardinal tenet of democracy; and the signs of the times indicate that you will be supported at the polls by the democratic hosts with the same unanimity with which you were nominated.

"The hope is not too extravagant for entertainment that in this campaign our candidates will have the support not only of every democrat in the land but also of every voter, by whatever political name called, who believes that the constitution of the United States is a living reality and that it applies equally to high and low, to great and small; to public officials and to private citizens.

"They will also be supported, let us hope, by all men, without regard to political affiliations, who favor maintaining the lines of demarcation between the legislative, judicial and executive departments of the government, the separation of which has been generally regarded as the most salutary and difficult achievement of the nation's history.

"The most marked characteristics of the bulk of the American people are reverence for the constitution and obedience of law.

CAREER AS A JURIST
"Your long and conspicuous career as a jurist in one of the highest courts in the world—the period which you have spent in studying and expounding constitutions and statutes—causes your countrymen to believe that into the exalted executive office to which they are about to call you, you will carry that profound respect for the constitution and the law which with you has become a confirmed mental habit and upon which depends the perpetuity of our system of government—the best ever devised by the wit and wisdom of man.

be such a fortunate, such a happy era in our annals as to mark the beginning of a long period of democratic ascendancy, and that you will so discharge your duties as to rank in history one of our greatest and best beloved of American presidents.

"The convention, according to democratic custom, appointed a committee of which it did me the honor to make me chairman, for which I am deeply grateful to convey to you official information of your selection as the democratic candidate for president of the United States.

"Speaking for the committee, with pleasure I hand you this formal notification of your nomination together with a copy of the platform unanimously adopted by the convention.

"In its name and by its authority I have the honor to request you to accept the nomination unanimously bestowed upon you.

"I trust the nomination will find fruition in election. May the God of our fathers guide, protect and bless you, both as candidate and as chief magistrate of the republic."

HANDS A LETTER
At the conclusion of his speech, Mr. Clark handed the following to Judge Parker:

"Esopus, N. Y., Aug. 10, 1904: "To the Hon. Alton B. Parker:

"Sir—As the regularly appointed and duly accredited committee of the national committee of the democratic party, held at the city of St. Louis, on the 6th, 7th, 8th and 9th days of July, 1904, we, the undersigned, have the honor and it is our pleasure to convey to you official information of your nomination for president of the United States by the democratic party of the people, as its candidate for the exalted office of the president of the United States, at the election to be held on November 8, 1904. A nomination so manifestly wise and appropriate that already the country has indicated its approval of it, and the most convincing auguries are rapidly increasing of its formal endorsement by the American people at the polls.

"Requesting your acceptance of this nomination, we are, with assurances of our highest esteem and sincerest good wishes,

"Yours respectfully,
"CHAMP CLARK, of Missouri,
"Chairman."

It was also signed by all other members of the notification committee.

JUDGE PARKER'S REPLY
Judge Parker said: Gentlemen of the Committee: I have resigned the office of chief justice of the court of appeals of this state in order that I may accept the responsibility that the great convention you represent has placed upon me.

"I feel it an honor to belong, or to the eminent members of the judiciary of this state, of whom I may now say as a private citizen I am justly proud.

"The very threshold of this response, and before dealing with other subjects, I must, in justice to myself and to relieve my sense of gratitude, express my profound appreciation of the confidence reposed in me by the convention. After nominating me and subsequently receiving a communication declaring that I regarded the gold standard as firmly and irrevocably established, a matter concerning which I felt it incumbent upon me to make the standard of communication in the rear toward Mukden, the appearance of the Japanese on the other side of Mukden will almost pocket General Kuropatkin if he resolves to accept battle with his whole army at Liao Yang.

"Shrewd military attacks are extremely doubtful whether General Kuropatkin could now withdraw even if he so desired. Another alarming feature of the situation in connection with the Japanese western column is reported that it includes many Chinese, who are Japanese subjects from the island of Formosa, whose influence on the local Chinese and the soldiers of General Ma and Viceroy Yuanshikai is feared.

THE URAL PROCEEDS
LISBON, Aug. 10.—The Russian auxiliary cruiser Ural, which was off this port yesterday, has proceeded. It is presumed the Ural is the vessel which recently held up the British steamer Monarra off the Cape of Finisterre.

It is admitted that the besiegers have an elevated position, whence employed guns can command the fortress, and when the Russian forces withdraw from Mukden General Stoessel will be able to hold out with his comparatively small garrison against an enormous number of attackers and evident disregard of men, indicated by the reckless manner in which they stormed the outer positions, the state of affairs creates more apprehension than the war office or the admiralty care to acknowledge.

Similar misgivings exist regarding General Kuropatkin's position. The advantages of communications in the rear toward Mukden, the appearance of the Japanese on the other side of Mukden will almost pocket General Kuropatkin if he resolves to accept battle with his whole army at Liao Yang.

"Shrewd military attacks are extremely doubtful whether General Kuropatkin could now withdraw even if he so desired. Another alarming feature of the situation in connection with the Japanese western column is reported that it includes many Chinese, who are Japanese subjects from the island of Formosa, whose influence on the local Chinese and the soldiers of General Ma and Viceroy Yuanshikai is feared.

WICHITA TALKS OF THE ADVANCE IN WHEAT
At First the Grain Men Did Not Understand It, But They Have Since Heard of Rust in the Northwest

WICHITA, Kan., Aug. 10.—The sensational advance in wheat on the Chicago market has set Wichita grain men to guessing. A few weeks ago they were completely demoralized by the reports from the Kansas and Oklahoma wheat fields and had just begun to get their bearings, and organized for business, when now the news of rust damage in the northwest disrupts the Chicago market and leaves them all at sea again.

Not a man could be found among the grain dealers who would talk freely on the outlook and few would even venture any opinion at all.

"There must be good ground for the reports that come from the northwest regarding the damage caused by black rust," said R. F. Coates, "but it is still too early to form any opinion as to what effect it will have on our markets here. The margin upon which the dealer here is compelled to handle wheat renders it unsafe to follow rising eastern markets too closely. A sharp decline after a rise like this might leave a dealer in bad shape."

While Mr. Coates talks from the standpoint of a shipper, J. E. Howard who was seen this morning, looks at it from an altogether different standpoint. He expressed the opinion that wheat on the Wichita market would not fall below 80 cents a bushel this year.

"I was inclined to believe at first that the reports were unreliable, and two weeks ago I thought we would be able to buy No. 2 wheat in Wichita for 75 cents, but I have changed my mind," said Mr. Howard.

JAPANESE DRAW CLOSER ABOUT POKETED RUSSIANS

RUSSIAN WAR AND ADMIRALTY OFFICES RECEIVE ADVICES OF STRENGTHENING OF THE CORDON ABOUT THE HEADQUARTERS OF THE EUROPEANS IN MANCHURIA—THE ASIATICS ARE NORTH OF MUKDEN AND WHETHER THERE IS BATTLE OR NOT, CONDITION OF FORCES IS VERY SERIOUS

HOPE MAINTAINED THAT PORT ARTHUR IS STRONG

While It Is Insisted That the Position of General Stoessel at Besieged Garrison Is Strong, It Is Not Known How Long He Could Maintain His Position With the Japs Advancing With Utter Disregard of the Danger Before Them—Capture of the Hills Overlooking Fortress by the Japanese Gives Them a Good Position for an Attack—Long Range Guns Placed on Hill Could Do Damage to Fleet in the Harbor

ST. PETERSBURG, Aug. 10.—Nervousness over the situation at the front seems to be increasing since the occupation by the Japanese of Wolf Hills before Port Arthur.

It is admitted that the besiegers have an elevated position, whence employed guns can command the fortress, and when the Russian forces withdraw from Mukden General Stoessel will be able to hold out with his comparatively small garrison against an enormous number of attackers and evident disregard of men, indicated by the reckless manner in which they stormed the outer positions, the state of affairs creates more apprehension than the war office or the admiralty care to acknowledge.

Similar misgivings exist regarding General Kuropatkin's position. The advantages of communications in the rear toward Mukden, the appearance of the Japanese on the other side of Mukden will almost pocket General Kuropatkin if he resolves to accept battle with his whole army at Liao Yang.

"Shrewd military attacks are extremely doubtful whether General Kuropatkin could now withdraw even if he so desired. ing up or down stream the right to carry a flag, which gives immunity from attack. As may be imagined the existence of such a system of blackmail is a terrible drain on the hard-working and enterprising, and conveying is the only method by which it can be avoided. With Russia fully occupied by the war, however, there has been a great recrudescence of outlaws, and for some time past the traffic in blackmail has been absolutely at a standstill.

It might be thought that a thousand junks proceeding together without escort would be able to meet any attempt that might be made on them; and so they would, were it not for the fear shown by the sailors for the "red bars." It has been shown repeatedly of late that it is only necessary for the robbers to fire a few shots at a cargo boat to cause the captain at once to run ashore and there be quietly mulcted at leisure of the illegitimate dues. One or two Chunchuses are said to be quite sufficient to insure this result.

THERE ARE BRIGANDS IN MANCHURIA
NICHOLAS HEARS FROM KUROPATKIN

ST. PETERSBURG, Aug. 10.—Emperor Nicholas has received dispatches from General Kuropatkin, dated August 8 and 9, mentioning a few minor reconnaissances, but saying there has been no particular change in the positions on either the east or the south fronts. On the south the Japanese advance posts are nine miles north of Hai Cheng. Daily fusillades occur between the Russian and the Japanese outposts. General Kuropatkin points out the fact that the Japanese are using bullets of different caliber, some with nickel and others with copper coverings, showing that their reserve men are now in the fighting line.

AN AGED WOMAN OFFERS A PRAYER
WACO, Texas, Aug. 10.—At the meeting held yesterday afternoon and again last night of members of the First Methodist church, and other to celebrate the formal beginning of work on the addition to this historic structure, the congregation having been the first to organize in Waco, some interesting scenes were witnessed. Many of the old-time members were present, a few having held their membership nearly half a century. Grandma Sneed, who has been a member of the Methodist church a great deal over half a century, was present yesterday afternoon and delivered a really remarkable prayer, from a standpoint of spiritual fervor, vigorous mentality and intense earnestness, notwithstanding the fact that she is 56 years old. The church will be greatly improved and enlarged and will remain a downtown institution.

QUESTION OF PASSES UNDER DISCUSSION
AUSTIN, Texas, Aug. 10.—Judge T. J. Freeman, general attorney of the Texas and Pacific railway, was consulting with the railroad commission yesterday in reference to the order recently issued by the commission requiring the railroads of the state to make stated reports of all the free transportation issued. He wanted the time extended in which the reports are required to be made reports on transportation issued to employees.

On the subject of issuing free annuals, or passes, Judge Freeman said it was a matter of indifference to the Texas and Pacific people, as they would probably extend such courtesies when they saw proper to do so, and when this practice became unlawful they would discontinue it.

WASHINGTON INDICATIONS
Arkansas—Tonight and Thursday, generally fair.
Oklahoma and Indian Territories—Tonight and Thursday, generally fair.
East Texas (north)—Tonight and Thursday, increasing cloudiness and probably scattered showers.
East Texas (south)—Tonight and Thursday, increasing cloudiness and probably scattering showers. Light to fresh southeast winds on coast.

TWO NEW BATTLESHIPS
LONDON, Aug. 10.—The admiralty invited the Clyde ship builders to tender for two battleships, 16,500 tons, and high speed. It is said these vessels in matter or armament and armored protection will eclipse anything yet attempted. That the admiralty officials are in a hurry to get the vessels started is indicated by the fact the tenders must be sent in by September 5, which is unusually short notice.

POLICE NEWS

About 9 o'clock last night Meyer A. Lesser received a serious cut on the head at the hands of a negro woman whom he had ordered off his premises.
Mr. Lesser is proprietor of a jewelry store at 1200 Main street and lives on Jones street, between Fifth and Sixth.

The negro woman who assaulted him had previously worked for Mrs. Lesser. Last night Mr. Lesser had an argument with the woman and ordered her from his yard.

An altercation arose, the colored woman using a child's bicycle as a weapon, wounded Mr. Lesser about the head. The cut, however, is not serious.

The affair was reported to Officers Tom George and Jack Gaddis, who began to search for the woman.

Hearing that she was concealed in a negro house on Sixth street, near Calhoun, they attempted to search the place. Negroes living in the house refused to admit them, one negro woman drawing a butcher knife on the officers and another one making a general disturbance. The officers arrested both of the women and took them to the station. In the meantime the woman who assaulted Mr. Lesser was not located and made her escape. This morning she was still at large.

A 14-YEAR-OLD DEFENDANT
The case of a 14-year-old girl charged with fast driving was brought up in the police court this morning.

The arrest was made by Captain Witcher, who testified that the girl gave her parents as well as the officers a great deal of trouble by her actions. It appears that she runs away from home and frequents rooms over the saloon with young men of the city. The defendant's tender age somewhat softened Judge Prewett and Captain Witcher and after making the girl promise to go home and lead a better life she was discharged.

A GRAFTER
Officer Sebe Maddox appeared against

a man in the police court this morning charged with enticing young men to the knife throwing joints on lower Main street and there making them lose their money.

Mr. Maddox testified that he had seen the defendant lead a country lad to one of these places and then the lad had lost all his money.
Judge Prewett fined the grafter \$10.

DISORDERLY HOUSE CASE
A gray-haired widow was arraigned in the city court this morning, charged with keeping a disorderly house on East Second street.

Walter Scott was the defendant's attorney, while Assistant City Attorney R. E. L. Roy was the prosecuting attorney. The case lasted nearly the entire morning and a number of witnesses testified that the reputation of the house was decidedly unsavory. The neighborhood in which the house is located is a respectable one and it was through the complaints of persons living near that the case was originally brought against the occupant August 1.

For convenience a jury of five men was empaneled. The jury retired about 12:30 and returned a verdict of not guilty.

LOSSES TRAVELING BAG
Forgetting her traveling bag, Mrs. G. Moore of 150 Main street, Dallas, boarded an Interurban car at Fifth and Main streets this morning. The traveling bag she left on the sidewalk.

When the car reached the Texas and Pacific station she noticed the loss and immediately returned, only to find that the bag was gone.

In the satchel were several valuable pieces of jewelry and many other articles belonging to Mrs. Moore.

She notified the police to look out for the lost article, which is a light tan lady's dress suit case.

Having thrown buckets of cold water over his consumptive chief a Maori medicine man at Gisborne, in New Zealand, was charged with manslaughter and fined \$50.

POPS SHY FROM A MEETING OF THE MAJORITY RULE

The Third Party Leaders Do Not Look With Favor on the Proposition of Spencer's Committee

It developed this morning that there was antagonism against the efforts of those who are at the head of the majority rule movement and that an open rupture may result before the close of the present conference of farmers comes to an end.

The fact that Chairman Spencer of Waco, who is at the head of the majority rule movement, has called a meeting of the adherents of the move on two different occasions and the further fact that not a single populist has shown up at either, is a strong indication that that party will not have very much to do with the movement.

There was to have been a meeting yesterday afternoon at 2 o'clock, but when the hour rolled around there were present only the leaders in the move. Excuses were offered by Chairman Spencer that those who should be present were doubtless busy in the meeting of the farmers' union, hence were unable to be there. He announced that another meeting would be called for this morning at 8 o'clock, but this like the one of yesterday, was not attended.

"It is our belief that the populists are knitting us," said one of the prominent majority rule leaders to The Telegram this morning. "The people are objecting to the movement on the grounds that it will eventually disrupt that party, and they don't want to encourage any sort of a move that means that party's suicide. One thing is evident; if the majority rule movement prevails generally, it means principle above party, every time. The populists do not want to give up their party affiliations, and that is what they would do should they endorse the majority rule movement, for there will be no party or politics in this movement. While it will be made up of people from all political parties in the state, it will be non-political in nature."

It developed today that the objection to the majority rule idea comes from the leaders of the populist party in the state who are today in this city attending the state meeting of their party. They divide a move that will mean the disorganization of the party in Texas, and for this reason they are holding themselves aloof from the conferences of the majority rule leaders.

The same thing can also be said, in a measure, regarding the farmers' union. Very few of this faction have shown up at the majority rule headquarters in the Labor Temple. What will be done later on regarding the matter remains to be seen, but those prominent in favor of the move are anxious to state to the press what they believe is going on among the ranks of the union farmers and the populists.

A Telegram reporter saw Chairman Spencer regarding the conflict, but he did not care to discuss the matter until later on. He did state, however, that the majority rule committee of the Texas State Federation of Labor has done considerable work in the past in questioning candidates in regard to measures which organized labor desires enacted in law, which has been quite effective. He says a number of candidates have answered the questions sent them by the committee, a copy of which was printed in The Telegram yesterday, favorably, and while all the reports are not in, Chairman Spencer says there is reason to believe that a very large majority of the favorable candidates were nominated at the recent caucus. He said that he has been informed, only one candidate who answered the questions affirmatively was defeated, and this was in a district where organized labor was not strong.

Chairman Spencer today received a letter from Max Andrew of Houston, president of the State Federation of Labor, announcing his inability to attend the majority rule conference and regretted it very much. He concluded his letter with this statement: "I realize that with proper discretion and conduct of business, which I know will prevail, history will be made. The eyes of all Texas are centered upon your proceedings. That the objects of this organization, which, as it should be that of every honest toiler throughout Texas."

MEETING IS HELD
The direct legislation meeting was called to order this afternoon by President Spencer of Waco. Dr. R. Harris of Buxeville, secretary, was present. Dr. Harris plan of organization was adopted.

O. T. Dornblaser of Hillsboro was elected national committee-man. Mr. Park of Dallas was appointed to formulate questions to ask all legislative candidates.

Chairman Spencer and Dr. Harris were authorized to appoint one man in each congressional district to see that every county in each district is properly organized. These appointments will be made later.

"The name of the organization has been changed to the 'Majority Rule League of Texas.'" George H. Shibley of Washington is chairman of the national organization.

The object of this organization, in the main, is to ascertain from legislative candidates their views on direct legislation. One of the members said:

"We do not ask any special legislation in the interest of the working class or any other class. We could not do so consistently, as the fundamental principle is that legislation should be enacted by the people directly and not by legislatures controlled by party organizations."

The conference adjourned at 1:30, subject to the call of the president.

GROVE'S TASTELESS CHILL TONIC
Has stood the test twenty-five years. The first and original tasteless chill tonic. 50 cents.

MRS. DORA OSBORNE
Died, at 6 o'clock this morning, Mrs. Dora Osborne, aged 22 years, wife of Hugh Osborne.

THE POPULISTS

The populist convention was called to order at 1:30 o'clock in the Forty-eighth district court room this afternoon. Not over a hundred delegates were seated when the convention convened. State Chairman Park called the meeting to order and in a few words welcomed all and told the objects of the meeting.

Colonel J. M. Mallett of Cleburne was unanimously selected as chairman and a committee appointed to escort him to the chair.

Colonel Mallett was received with applause. He made a neat and timely responsive chord among the delegates. He told what he thought to be pertinent truths regarding the party and the other parties. He advised all to take an active interest in the coming campaign.

J. M. Adams Comanche was elected secretary by acclamation.

Committees were selected and routine business being transacted this afternoon. Tomorrow a ticket will be nominated and a platform adopted. The action of the Springfield convention will be ratified.

More delegates are expected to arrive this evening and with those delegates attending the Farmers' convention will attend the Farmers' convention.

The chair was instructed to appoint a committee on credentials.

W. H. Davis, Comanche; J. H. Davis, Tarrant; A. L. Sadler, Somervell, the committee on credentials.

J. L. Eager of Cisco, Eastland county, addressed the convention on "Duties of a Populist." Stump Ashby then made an address.

The committee on credentials retired to the ante-room to examine the credentials of the delegates. It is very probable that there will be representation from every county in the state, either by delegates or by proxy.

When the committee on credentials returned from the ante-room they reported forty-three counties represented with 159 delegates.

A committee on resolution was then appointed and the convention adjourned until tomorrow.

Milton Park of Dallas, chairman of the state executive committee, came in from Dallas early last night. As soon as it became known among the delegates that Park was in town they began to look him up. He was found at the R. Eager of Cisco, Eastland county, to prepare a ticket to be nominated. Many names were suggested and all of the possible available timber went over without the committee coming to any

decision and the caucus adjourned without making a slate.

Mr. Park was seen today by a Telegram man and asked to express himself as one of the state leaders of the party. He said:

"Some people seem to think that populism is dead, but it is not. The people of this country are beginning to think as individuals. Wherever men do some heavy thinking that is where we make converts. Our party is wide awake and we expect to make a splendid showing at the fall election."

"The ticket we will nominate will be a good one. We will have a complete state ticket in the field with perhaps the exception of judges. We are going into the fight to make the best showing possible and expect to make a hard and vigorous campaign."

A. L. Sadler of Glen Rose expressed himself thus:

"Dr. P. B. Clark, better known as Pat Clark, may be our nominee for governor. He is a good, intelligent man, but then I have no right to say who should be our nominee for majority rules in our convention proceedings. I have heard a number speak of him as a desirable man. The doctor is from the Red River county and is a man posted on populism in all its phases. For the other offices I have heard several names mentioned, but don't recall all of them now."

W. R. Cole of Dallas, one of the delegates, had nothing to say regarding the ticket. He stated that many of the farmers, and he is one as well, would probably not vote for the presidential candidates of the republican or democratic parties.

Nominee Mallett, for congressional honors, who is the publisher of the Watchman, the official organ of the party, was quizzed regarding the party's outlook and the ticket. He said:

"I was mentioned for governor, but I won't have it. They have put me in the race for congress against my wish, but I guess I will have to now make the race. I have been in the movement thirty-two years. I left the democratic party when Horace Greely was running for president and I have been out of it ever since. When the party I believe in doesn't put me up I don't vote. I just stay away. No, we don't like the Terral election law and will work against it. We believe at all times in letting the larger number rule. As to the workings of the convention I can not give you any information now. No slate was made at the caucus last night. P. B. Clark for governor and Judge T. J. McMin of San Antonio for attorney general will probably be nominated. These have not as yet said they would accept, if nominated. The convention will ratify the platform adopted at Springfield July 5."

J. M. Freeman of Johnson county, a candidate for the legislature, said:

"Our party is the party of the people, for the people and by the people. When the voters begin to think for themselves then we will make rapid gains. There is apt to be a landslide in our favor. I know nothing of the possible nominee."

Captain H. M. McCulliston of Paris, a leader of the party, spoke of the populists and the convention:

"I know we are growing stronger each day. People are joining with us. I have no line on the state ticket or what the platform will be. We would rather die fighting for what we think is right than to live with what we know is wrong."

TO SPEAK TONIGHT
Tonight Colonel E. G. Senter of Dal-

las formerly editor of the Gazette of this city, will speak at the court house. He is a Bryan free silver democrat and is a man of eloquence.

This morning the delegates of the Twelfth congressional district met in the parlors of the Richelieu and nominated Colonel J. M. Mallett of Cleburne for congress; A. L. Sadler, Glen Rose, was made congressional chairman, and George E. Smith, Comanche, secretary.

By this nomination Colonel Mallett is out of the race for the gubernatorial nomination. Colonel Mallett is to make the race against Congressman Gillespie.

WIRES CHAIRMAN PARKER
This afternoon State Chairman Milton Park of Dallas sent a wire to National Chairman Joe Parker, who is in Lincoln, Neb., today attending a meeting of the national executive committee, authorizing him to cast his (Park's) ballot during the meeting.

"The delegates are about to steal us in Nebraska, and I want to stop it if possible," said Mr. Park this afternoon when seen by The Telegram in the act of filing his dispatch.

A detailed report of the Mineola convention, at which the state organization was formed, was also read at this morning's session and adopted as the correct minutes of those proceedings.

During the session a communication was received from a committee of the joint legislative board of the Railway Brotherhoods and the State Federation of Labor, asking that the committee, composed of Walton Petet of San Antonio, E. P. Curtis of Waco and C. W. Woodman of this city, might appear before the convention during its sessions and explain to the body the work of industrial unionism with a view of ascertaining in what respects the wishes of the farmers and the trades unions were mutual and in what respects differing.

The matter was referred to a committee and it is possible the committee will be heard before the close of this afternoon's session.

The cotton warehouse system, as brought before the body by Judge Williams' address, has as yet received no action by the body, not being called before the house this morning in an official way. The plan, however, seems to be meeting with great favor and will probably be brought before the body for action in the form of a recommendation from one of the committees when their reports are made.

The afternoon session began promptly at 1:30 o'clock, with the continuation of routine business.

TO VISIT LAKE ERIE
Many of the delegates to the farmers' convention are planning to spend the evening at Lake Erie park, the city's beautiful summer resort, where they can enjoy the lake breeze, music and the various amusements as a recreation from their busy sessions during the day.

THE AFTERNOON SESSION
Yesterday afternoon's session of the farmers was taken up largely by the address of Judge Eugene Williams, outlining the cotton warehousing system, as explained in The Telegram of yesterday.

Following his address by Judge Williams, which is looked upon as bringing the most important business of the session before its notice, Oswald Wilson, local statistician of the department of agriculture, addressed the body on the gathering and compilation of statistics by the department. This address was listened to attentively by the delegates, who displayed a deep interest in the work being done along these lines.

President Murray then delivered his annual report, showing the marvelous growth of the organization, having a membership of 100,000 in the state. Several changes in the constitution and by-laws were also suggested in the address which will be taken up during the sessions of the body.

Last night was devoted to committee work.

ESCAPED AN AWFUL FATE
Mr. H. Hagbins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Matt S. Blanton & Co., Reeves Pharmacy, W. J. Fisher, druggists. Price 50¢ and \$1. Trial bottles free.

report of the committee was accepted and will be placed upon the minutes of the convention.

A detailed report of the Mineola convention, at which the state organization was formed, was also read at this morning's session and adopted as the correct minutes of those proceedings.

During the session a communication was received from a committee of the joint legislative board of the Railway Brotherhoods and the State Federation of Labor, asking that the committee, composed of Walton Petet of San Antonio, E. TRADE MARK

TRAINING FOR SUCCESS. Real happiness is based upon success in a definite aim, and as one rises in intelligence and knowledge one feels more and more acutely the misery of failure.

How important then is it in the scheme of life, which is intensely practical in these days of fierce competition, that in getting an education a boy should gather it not merely for the enlarged view it gives him, but for its adaptation to the needs of his future life and work.

Too many young men are educated to do things they are not fitted to do. Their training is not made to harmonize with their natural tastes.

Boys should rather be taught to use the tools they will be most likely to need in their life-work. This is an age of specialization, and those who confine themselves to one kind of work and become as nearly perfect in that particular line as it is possible to be are the ones who will succeed best.

And for the boy who would really succeed there are things to learn not thoroughly enough included in even the highest education. These are along the line of straightforward and economical living.

Who has not seen—does not see daily—instances of distress and suffering and disappointment that could have been avoided had the start been made right?

To be happy and successful in this life for any length of time one must, first of all, learn to live on less than he makes.

That is as true an axiom as any in the books and there is no more important one in all the world's wealth of wisdom.

It applies alike to all men, except of course those who have so little manhood that they can be content to let others support them in idleness.

If a boy or man will learn to live so economically that he will always have something left out of his income after paying all his expenses, he is sure—barring the unavoidable accidents of life which no one can foresee—to have a competence and to be happy while he is getting it.

Yes, his is sure to be as happy a lot and as successful a life as falls to any man. For success, no more than happiness, is measured in material things.

But it is not alone the work one does in the world which gives him his status; it is the way he does it, and what he does with his wages and his time after his day's work is done. Those after hours are the ones that determine very largely a man's joys or sorrows, whatever may be the grade of his daily work, or the amount of his wage, whether high or low according to the popular classification of it.

There may be much personal satisfaction in knowing more about the heavenly bodies than others do, and there may be joys in being able to delve in ancient languages for pearls of thought. For such things one needs a higher education than for sawing wood or digging fish bait.

Yet he who does the latter may be the better, happier man, for it is not the character of the labor that determines personal honor and worth, but the character which the man brings to his labor.

Judge Parker is certain to be elected, declares William J. Bryan, and it is hoped Mr. Bryan will contribute all the assistance possible to bring about that much to be desired result. Mr. Bryan can do much, and his friends say he can be depended upon. Let him quit his plans of reorganization and get to work as all democrats should work in this campaign.

Judge Parker, the democratic nominee for the presidency, has his ear to the ground and is preparing to hear something. It has been positively cruel to keep the distinguished jurist so long in suspense concerning that nomination. He should at least have had an even break with Teddy Roosevelt.

Judge George Clark is being caustically criticized for his expressions concerning Mr. Bryan, but the "Little Giant" is accustomed to it. He has been up against the jagged edge of criticism for many moons and no longer winces when there is an attempt to rub it in.

In all the suggestions that are being

printed derogatory to the packing house operatives that are concerned in the big strike, it is a little bit singular that there is no reference to the fact that the bull-headedness of the packers is calculated to ruin half the cattlemen of the country unless there is an early change. The packers can not lay claim to clean skirts in the continuance of the fight.

The republicans will meet in Fort Worth on August 23, in an effort to help save the country, and the populist party, in the person of Milton Park, of Dallas, is also to be with us this month for the self-same purpose. In the mean time, democratic prospects are continually growing brighter, and there is no necessity for the masses to feel any alarm.

The abuse that is being heaped on Chairman Taggart of the democratic national committee by the republican press, shows that there is a very ardent desire to keep as far away from the Roosevelt record as possible. But vilification and abuse will cut no ice in the impending campaign. The people want facts, and they are going to have them.

A new railroad is said to be under construction at Abilene, known as the "Sorghum Belt," but the papers of that enterprising little city are not saying much of anything about it, probably on the ground that the Orient now has the right of way in the columns of the press.

The excellent crop prospect all over the country is a positive guarantee of good times this fall and winter, in spite of the fact that it is presidential election year—a period when capital is presumed to be very timid and disposed to hunt its hole on the slightest provocation.

Texas oil production is said to show a considerable decrease, but there are many fields in the state that are yet to be developed. There may not be many more big gushers, but there is lots of oil in Texas yet, and lots of everything else that makes life worth the living.

John Sharp Williams, the great democratic leader from Mississippi, has just been renominated for congressional honors for the seventh time, and this time without any opposition. Mr. Williams is one of the brainiest men in public life, and a natural born leader.

Russia has found the sinking of neutral ships a too costly procedure and will desist from the practice. It is said that the action of France in declining to back her up in her war on English commerce is accountable for the change of front, and also averted war with England.

It is said that William R. Hearst's newspapers net him a profit of \$3,000,000 per annum, and if that is the case, the young man can well afford to spend a few dollars to gratify the promptings of ambition.

The new republic of Panama has money to loan, and is now letting it out in considerable amounts on New York real estate. Uncle Sam furnished the dough in return for the robbery of Colombia.

The independent voter will not be much in evidence this fall, for that element has almost been completely absorbed in the harmonizing of the democrat party. There is no reason for any man to play independent this year.

Republican papers in the effete east are trying to make a great deal of capital out of Governor Hogg's speech, and their action only serves to show to what desperate straits they are reduced for campaign material.

Dallas did not land the state chairman. The idea that three-fourths of a jury should be entitled to render a verdict appears to be a growing proposition. The ends of justice are often thwarted through the action of the professional jury fixer.

Charles A. Towne expresses the opinion that Indiana is safely democratic in the impending national election. The Hoosiers are fairly falling over themselves in an effort to land in the democratic bandwagon.

Senator Bailey has paid his respects to the Sage of Esopus, and gives it as his unqualified opinion that the "lock-jawed judge" is all right. He says Judge Parker is a man to tie to.

It is hardly probable that Governor James Stephen Hogg of Texas will occupy a place in the next democratic cabinet, if Parker is elected, which now seems so probable.

When the San Antonio and Aransas Pass railway is finally absorbed by the Frisco system, it is to be presumed that the former line will have no more bonds to burn.

Judge Parker has resigned his New York judgeship, and is now a plain common citizen. Next March he will be clothed with the highest office within the gift of the American people.

The story about the goat eating dynamite sticks has made its appearance. July, August and September comprise the open season for this tale.

There will be sixteen democratic congressmen returned from Texas this year. The opposition is simply engaged in the process of wasting powder.

Fort Worth is growing faster than any other city in Texas. Fact is, you can stand on any street corner and just see Fort Worth grow.

California has another flying machine that "rose to a height of five hundred feet and descended without a mishap." Well, they all descend.

TEXAS NEWS BRIEFS

The state mission board of the Baptist church is in session today at Ennis.

A Central Press Association is to be organized at Waco on the 29th inst.

All of the dance halls in El Paso have been closed by an order of the mayor.

A poultry association has been organized at Lampasas. The first show is to be given in November.

The telephone system at Hillsboro is to be improved and a flashlight board is to be installed.

Workmen have started the installation of a new telephone system at Clarksville. It is to be an up-to-date exchange.

A curfew law went into effect at Overton Saturday night. The young folk must be home at 9 o'clock.

Joe Watley, a 5-year-old negro boy, was drowned in an old well at Farmersville yesterday.

A negro in the county jail at Bonham has eaten off the heads of a number of matches. He is in a critical condition.

The Galveston Wharf Company has made its first report to the railroad and warehouse commission.

Basil Nevilles, a fireman at work near Longview, fell from a telephone pole yesterday and was quite seriously injured. He will recover.

A negro met death near Luling by being thrown from his wagon and falling under the wheels. His team had run away.

The Telephone exchange at Granbury has been sold to Walter Julliff and Earl Cogdell. The line is to be extended to Stephenville and to other nearby towns.

An excellent program has been arranged for the meeting of the county judges and commissioners on the 17th, 18th and 19th.

A new bank charter has been issued for a bank at El Paso. It is to be known as the National City bank and is to have a capital of \$100,000.

Cleburne is to have a special election for the purpose of voting \$25,000 for the improvement of her streets and sewerage system.

The Belton cotton factory at Belton is to be enlarged and new machinery is to be installed. The capacity of the plant is to be doubled.

The Brazos river at Waco has receded and there is now no danger of an overflow. The waters of the stream have fallen three feet since Monday.

A protracted meeting of the Baptists has just closed at Emma. Nine persons were baptized and a great many conversions.

At Hillsboro Hon. J. E. Clark has been invited to address the old soldiers and settlers of Johnson county at their reunion on the 17th, 18th and 19th inst.

One colored man was shot and another cut in an affray at Marlin yesterday. The two men had gotten into the argument over some trivial matter. Both have been placed under arrest.

James Gallatin, who is a brakeman on a work train hauling rock from the Granite Mountain quarry, near Marble Falls, got his right hand caught under the wheels of the engine and had it crushed.

The Epworth League convention is in session at Houston. The meeting is largely attended. Many towns of the state are trying to secure the gathering for 1904.

Hon. J. D. Woods, a member of the legislature from the Sherman district, is seriously ill at Sherman. He is a candidate to succeed himself at the fall election.

Two persons from Sherman and vicinity were victims of the terrible wreck near Pueblo, Colo. Their bodies have been recovered and identified. The parties were George Beck and his sister, Pearl.

Walt Baker, a young man of Mesquite, was knocked down and left leg by an eastbound train on the Texas and Pacific at that place yesterday. The boy is in a precarious condition.

The mayor and city marshal of Temple have ordered all the gambling joints to be closed. This is the first time in the history of Temple that the gamblers have been ordered to close up for good.

The members of the Joseph Sayers camp of the United Confederate Veterans are to hold a reunion at Smithville on the 23rd and 24th. Ex-Governor Sayers has been invited to address the veterans.

A street car conductor at Houston found a package on one of the cars yesterday that contained \$800 in money. The package was turned in by the man and now awaits a claimant.

A fire at Greenville yesterday destroyed a building and its contents, doing damage to the extent of \$2,000. The building belonged to Dr. H. T. Arvin and the contents to Bob Still.

Farmers from the vicinity of Sherman yesterday visited the experimental farm at Milk. The men saw much that interested them in the various methods of culture, as pursued by the government experts.

Harlow Taylor, a well known farmer living near Temple, received word yesterday that his son had been killed by a train at New Braunfels. The man was on his way to San Antonio to enlist in the army.

A farm sold to John McKnight by Will Witt at Denton yesterday brought \$50 acre. The farm had but few improvements on it. This is the highest price ever paid for farm land of that kind in that county.

Tignor & Mosse, one of the oldest firms in Sherman, has filed a voluntary petition in bankruptcy. They give their assets as \$2,300 and the liabilities at \$2,200. They were retail dealers and jobbers in vehicles.

People of El Paso are making arrangements for the reception of the president of Mexico to visit their city in November to attend the meeting of the National Congress of Irrigation. He will also visit the fair and northern cities.

Because a team of mules ran away in the dark with Daniel Gaines and his wife near Luling on Monday night while on their way home, the couple are not expected to live. Both are colored and were thrown from the wagon.

The revival meetings at Lillian have closed. Fifty persons were baptized, eighty-one conversions and seventy-two accessions to the church were made. The meeting was conducted by Rev. J. A. May of the Alvarado Missionary Society.

Weatherford is to have a special election for Tuesday, November 1. The purpose of the election is to determine whether or not the people want bonds issued to the amount of \$25,000 for the purpose of building new bridges.

At Elco, beginning today, is to be held a reunion and a general good times meeting, which is to continue throughout the week. Thousands of people are expected to be at the various meetings. To those who are camping on the grounds free fuel, ice water and coffee is supplied.

A team of mules that were being driven home from Springtown by William Senburn yesterday became frightened and ran away. The wagon hit a stump and in some manner threw out the maw's

Schlitz Beer Is Just This— Barley—selected by a partner in our concern—from the best barley that grows. And we malt it ourselves. Hops—brought in large part from Bohemia—selected by our buyers from the finest hops in the world. Water—from six artesian wells bored 1400 feet to rock. Just a food and a tonic—brewed with the extreme of cleanliness—cooled and filtered air—sterilized after it is sealed. Schlitz beer is pure, because our process is cleanly, and because the beer is filtered, then Pasteurized. It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed. It is a health drink without germs in it. It gives you beer without biliousness. Ask for the brewery bottling. Schlitz The Beer That Made Milwaukee Famous.

wife, who was holding her baby in her arms. The infant was instantly killed.

The American Loan and Trust Company, through their attorneys, has filed a suit in the federal court at Houston against the Brazos River Channel and Dock Company for the foreclosure of the bond lien and for the appointment of a receiver. The trust company is located in Boston and several years ago floated bonds for the concern for the building of docks on the Brazos and also for widening their channels. The case is one of more than local interest.

TWO EDITORS MUST GO TO PRISON

MANILA, Aug. 4.—F. L. Dorrard and F. O'Brien, formerly owners and editors of the Freedom, a paper published in this city, were sentenced some time ago by two Philippine courts to six months' imprisonment and to a fine of \$1,000 for libeling M. Tavera, a member of the Philippine commission. This sentence has now been confirmed by the supreme court of the United States, where an appeal was lodged and the prisoners were committed to prison.

ASKS FOR RECEIVER FOR A TRUST CONCERN

BOSTON, Aug. 4.—A petition for the appointment of a receiver and a closing up of the affairs of the North American Trust Company has been brought in the supreme court by John M. Barry and Francis C. Webster, two of the trustees. The petition is brought against the North American Trust Company and Frank E. Lewis of Lowell, Mass.

The petitioners claim that because of the various legal actions that have been brought against the company and because of the publicity it has lately received it can no longer conduct its business. Barry and Webster, the petitioners, were arrested last Thursday by deputies from the United States marshal's office, on a charge of conspiring to defraud the public.

The government officials claimed that the company's business was a lottery and was fraudulent.

NEWS NOTES FROM THE CAPITAL CITY

AUSTIN, Texas, Aug. 4.—Governor Lanham left this morning to address the old settlers' reunion at Athens tomorrow.

The board of managers of the penitentiaries will meet tomorrow. Chairman Oppenheimer left last night to attend.

As a result of a late rain the Colorado rose six feet here last night.

In the district court this morning in the case of the State vs. the Globe-Mutual Insurance Company of Waco, Scott Key was named as receiver by agreement of both parties.

THE BAPTISTS ARE TO MEET IN WACO

DALLAS, Texas, Aug. 4.—The officers of the Baptist general convention of Texas met here this morning and selected Waco as the place for holding the next convention, which takes place November 18.

If food distresses you Why not take half a teaspoonful of Horsford's Acid Phosphate in half a glass of water? It will give immediate relief; but it must be HORSFORD'S Acid Phosphate.

THE CROPS IN TEXAS

Weekly Report Issued by L. H. Murdoch, Section Director of Department of Agriculture at Galveston

RAINFALL IS BENEFICIAL

The Plant on the Whole Is in Good Condition and Well Fruited—Some Shedding Has Occurred—Worms and Weevils Are Doing Damage

GALVESTON, Texas, Aug. 10.—The following is the monthly report of the cotton crop in Texas, as issued by L. H. Murdoch, section director for Texas of the United States department of agriculture: Weather Conditions—Good showers were general on the 6th and 7th and scattered showers occurred during the rest of the week. The following are the largest weekly amounts reported: Blanco, 2.20; Brenham, 2.49; Fort Worth, 2.30; Hecarre, 4.55; Longview, 2.25; Nacogdoches, 2.92; Paris, 3.10; Taylor, 2; Temple, 2.66; and Wharton, 2.56 inches. Moderately cool weather at the close of the week made the average temperature for the week slightly below normal.

Cotton—The rainfall has been generally very beneficial to the cotton crop, except in the counties along the lower Brazos river, where the showers have been excessive. The plants are, on the whole, in very good condition and well fruited. Some shedding has occurred in all sections. The bolls have begun to open in the northern portion of the state and picking has become quite general in the southwestern and coast counties. Boll weevils are doing considerable damage in a number of central, southwestern, and coast counties. Boll worms are present over the greater portion of the cotton belt, but serious damage by this pest is still confined to limited areas.

Corn—Late corn has been much improved by the rainfall of the week. Rice—The rice crop is in good condition. The saving of hay and forage crops was somewhat delayed by the showers. Sweet potatoes are doing well and the fall crop of Irish potatoes is being planted. Much fall plowing is being done since the rains.

CORRESPONDENTS' REMARKS

Umbarger—Fine local rains; crops doing well; having active; cattle in fine condition; gardens doing well.

Mount Blanco—Rain needed; grass and stock water becoming very scarce.

Rolla—Corn good in places; cotton growing and fruiting nicely; kafir and maize heading; melons good; grass fine; cattle fat.

Esokota—All forage crops doing well; cotton fruiting well but is growing too fast; boll worms at work.

Bogota—Rain on the 5th badly needed by late corn and cotton that has been in the grass; hay good.

Scogeville—Cotton not doing well on account of showers; boll worms damaging cotton on the uplands; some boll weevils; crop will probably be an average.

Petty—Weather showery; boll worms becoming numerous but no material damage yet.

Peniel—Fair cotton crop is assured and prospects are good for a large crop; some boll weevils but very little damage so far.

Roanoke—Weather cloudy and showery; rainfall sufficient for present needs of the cotton crop and fall plowing.

Thorps—Cotton and can heading rain. Emory—Too much rain; cotton shedding; some boll worms; corn good; sweet potatoes, peas, fruit and pastures fine.

Collinsville—Cotton is growing nicely and is fruiting well but the boll worms are doing considerable damage in some fields; good crop of corn now made; much land has been prepared for fall seeding of wheat.

Laurel—Some light showers, more rain needed; cotton needs rain, has quit blooming and is beginning to open.

Grapevine—Dry weather continues, causing cotton to shed very badly; boll worms at work on what is left.

Lodi—Cotton is in fine condition; cotton shedding although the prospects are still good.

Gainesville—Good rain on the 5th; cotton crop in good condition; no boll worms yet reported.

San Saba—Light showers of the week have done some good; cotton is still growing and fruiting some.

Nubia—Good showers; cotton and forage crops in good condition.

Fort Davis—Some local rains during the week, more needed; crops languishing; early corn will mature soon; late corn doubtful; pink beans just starting to grow and need rain; fodder crops also in critical condition.

Content—Plenty of rain and all crops look fine.

Malakoff—Local rains; all crops doing well except cotton; boll weevils and boll worms are doing much damage, especially to the cotton on the uplands.

Hubbard City—Rain and cloudy weather; boll weevils still active.

Levell—Warm and dry; corn good; cotton in fine condition; some boll weevils and boll worms; gardens dried up.

Big Hill—Cotton has ceased to fruit; some damage from the boll weevils.

Corsicana—Cotton has been very much injured by the continued rains of the week and the boll weevils; boll worms are also doing some damage; corn crop good.

Oenaville—Cotton benefited in some places by the showers; much damage from boll weevils; the plant has generally ceased to bloom.

Palestine—Hot and dry; cotton not doing well; boll weevils doing much damage; other crops needing rain.

Blair—Boll worms are destroying the black land cotton; late cotton will not make anything; some few bolls opening; first bale on the 3d; thrashing completed; yield of wheat and oats good.

Hico—Good showers of very fast during cotton has deteriorated very much during the week; crop is ten days later than last year and not as good as 40 per cent; corn light.

Ferris—Good rain on the 4th; will benefit cotton which has generally ceased growing and is shedding badly; some boll worms; gardens have dried up.

Arnett—Some showers, but more rain is needed; cotton shedding; some boll weevils; early cotton beginning to open; stock water getting scarce; grass drying up very fast; forage crops all safe.

Wortham—Cotton shedding and deteriorating.

Woods—Light rains; sufficient moisture in the ground; crops doing well; cotton will be better than last year; very good crop of corn made.

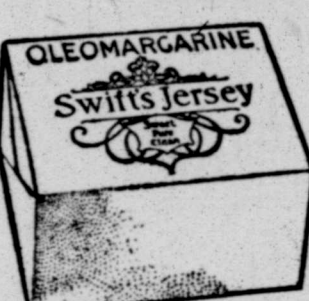

Troupe—Good crop of cotton safe, although boll worms are doing considerable damage on the bottom lands; sweet potato

St. Joseph St. Paul Ft. Worth

cotton as a result of the army worm's ravages.

Cotton near Garza has lost its forms. This is thought to have been caused by the dry weather and the light showers. Cotton that a month ago was predicted to make a bale to the acre will not now make a quarter of a bale.

The first three bales of cotton to be brought into Terrell will be bought at the prevailing market prices and premiums of \$20 will be given beside.

Cotton reports from Atascosa county state that the weevils have cleaned up the entire crop. The crop will amount to absolutely nothing.

Many of the boll weevil pest are at work on the cotton plants in Raines county. Experts for the government are investigating. These men are advising the planters to use Paris green as the only remedy so far known.

First bales have been received at Mount Calm, Seagoville, Tyler and Waxahachie. It was sold for 10c, cents up to 16 cents a pound. Prizes were given at each place for these first bales.

But very little rain fell over the state yesterday. The rains of the past week have made the crops in most localities in apple-pie order.

PICKING NEAR WACO

WACO, Texas, Aug. 10.—Almost every day now farmers are seen on the streets with great rolls of cotton duck—bought for the purpose of making sacks with which to pick the cotton crop. Some picking is going on in the county and with clear and hot weather it will soon become quite noticeable. Pickers are going to be in demand if the yield is up to what it promises to be, but as to this feature no one can tell with certainty. It is claimed by some planters and farmers that there has been a mistake made as to the injury done the bolls now on the stalk, many of which appear to be matured and ready to open. Some say that bolls which have been counted on have been badly injured, and if they open at all will only turn out a few little knots of cotton, which will be almost fiberless.

One large planter here has a great deal of cotton which looks splendidly on an ordinary examination, but bolls when examined carefully are found to have very small specks on them and inside they are ramified by something which resembles iron dust, and are ruined. This was the work of insects, just how extensive this is remains to be seen. It is claimed on the other hand that quite a good deal of cotton is already safe, and it seems difficult to arrive at a correct solution of the matter.

LOOSE CHANGE IS FOUND IN THE MAIL SACKS

List of Money and Articles Which Are Picked Up by the Railway Postal Clerks While at Work

Some idea of the innumerable and varied articles transmitted through the mails can be gathered from the articles lost in this way.

Each month the articles found by the clerks are turned in to headquarters of this division of the railway mail service and then turned over to Postmaster Burroughs. The list of articles is also given to the postoffice inspectors and compared by them with the list of articles reported missing and where possible the articles are put in the proper channel. In the meantime Postmaster Burroughs is the custodian of a queerer batch of articles than ever graded a pawn shop.

The list of such articles found by the mail clerks of this division for the month of July has just been completed. An investigation shows that during that month a total of \$23.15 has been found loose in the mails, the money found varying in amounts from a copper cent found upon one of the sorting tables in a mail car to \$2.65 found in a sack on the St. Louis and Texarkana railway postoffice.

Where damaged letters are also found is made for investigation to see if the article came from that piece of mail.

The list of articles other than money found has a wide range and included the following list of stuff: Five pocket knives, harmonica, hat pin and butter knife, casting (4116), six teaspoons, photo button, eye collar buttons, bar of lead, key, eye glasses in case, harmonica, pocket knife, stick pin, engraved plate for printing, iron wedge for setting blade in a plane, set ring, initial ring, handkerchief, razor, brass grease cup, harmonica, bottle of cologne, six pens, six ball points, pencil holder and three pencils, six teaspoons, razor and pair of scissors, block of type (Watkins, W. T.), one razor, two 2-cent postage stamps, one bead necklace, package of beads.

Nash Hardware Company to Elmer Nobles, lot 7 and north twenty-four feet lot 5, Field's Hillside addition, \$1.

TOBACCO TAGS GET SAFE FOR THEM

Grocers' and Butchers' Association Take Advantage of the Offer Made in Premium List

It was reported exclusively in The Telegram several months ago, that the members of the Retail Grocers and Butchers' Association of this city were planning to get a safe for the association by means of sending off tobacco tags.

Today the safe is on its way to Fort Worth and will soon be installed in the office of the association in the Scott-Harold building.

It required thousands of tags to get a safe in this way, but the various grocers throughout the city contributed until the required number was reached and they were sent to an eastern tobacco tag company for a safe.

The meeting of the Retail Grocers and Butchers' Association, to have been held last night, was postponed until a later date.

CHILDREN BOMP AT THE CITY PARK HALF DAY

The city park yesterday was the pleasure ground for a half hundred romping, happy children, who made merry in its sylvan delis from early in the morning till almost dark.

Park Keeper McCard had all the animals on exhibition and upon their best behaviour, for the admiration of the children, and all the swings were given an extra inspection and turned loose for one of the busiest days in their existence.

The boys and girls comprised the children of the Maccabees, who were entertained in this way by the Ladies of the Maccabees, as will be their annual custom. Mrs. A. D. Allan superintended the arrangements for the affair and, assisted by a score of others, saw that the children had plenty of fare for picnic appetites and enjoyed their outing to the full.

Several have called the attention of The Telegram to the presence of a monkey in the city, which appears to have an unusual affection for a kitten, and at first thought it appears to be a case of remarkable animal attachment, but an investigation shows that it is more a question for the humane society, recently organized, to look into.

A reporter for The Telegram yesterday investigated it. The man in charge of the two animals walks along the streets with an unconcern which is noticeable. Following him comes the monkey, dragging after it a kitten. The monkey walks a few paces, drawing the kitten with a firm grasp about the neck. It stops and the kitten makes an effort to bolt, but the monkey is there with the firm grasp again, and the kitten is once more a prisoner. The Humane Society can investigate cases of this kind and bring relief to the kitten which is thus punished.

NEARLY FORFEITS HIS LIFE
A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at Matt S. Blanton & Co., Reeves Pharmacy, W. J. Fisher's drug stores.

This Great Sale

Is Continued Until Noon Saturday, August 13

This store will be closed on Saturdays at noon through August. Please do your trading in the forenoon of Saturdays. Please do not forget this.

Sale prices prevail on all merchandise. Come here for your wants.

Lower than sale prices are made every day on many things, in order to close.

Many articles we are anxious to part company with—just what you want, no doubt—half price takes them during this month.

A Soap Store

This is a soap store in good earnest. We are often astonished at the hundreds of dollars' worth of soap we sell. We buy from the best makers in the United States and sell at close prices—often you save 2c on a 5c cake here, and nearly always 1c on 5c cake.

Did you ever hear of the "RENAISSANCE" Antiseptic Soap? It is a soap used by the United States government in all its departments. Not a cheap soap. Cake sells for 10c or 3 for 25c, and you'll say it is worth the money, and the greatest complexion soap ever made. Thursday, and all this week, if you ask, you'll have a small sample cake presented you at the "Soap Counter," two if you say so—enough to convince you it's the soap you want.

CHILDREN BOMP AT THE CITY PARK HALF DAY

RAILROAD NEWS

The meeting yesterday held in this city of the general freight agents of Texas railroads developed a condition of affairs that is to be investigated thoroughly by the companies in an effort to stop the practice which is said to exist among some railroads of substituting cars for shipments from Fort Worth on bills of lading from other parts of the state intended originally for the northern market. It is asserted, and it was demonstrated conclusively in the meeting held yesterday, that some of the roads were guilty of this practice. Cattle originating from the south part of the state are consigned on bills of lading with the privilege of stopovers in Fort Worth. If the market is good here the cattle, it is claimed, have been sold here and other cattle originating in Fort Worth have been substituted and forwarded on to the northern markets. It is the intention of the general freight agents to put a stop to this practice if possible.

GREAT ARIZONA STORMS

The El Paso and Southwestern Railroad Company has sustained severe damages as a result of a fearful cloudburst in the vicinity of Bisbee, Ariz. A great number of people were caught in the great wall of water that rushed through the streets of Bisbee and many narrow escapes are reported. All telegraph wires of the above railroad are prostrated and telegraphic communication with Bisbee has been cut off for some days.

The tracks of the El Paso and Southwestern are in bad shape. Much of the roadbed is damaged by the heavy flow of water and the tracks are practically covered for miles with great quantities of debris, which has lodged against the right of way. Forces of laborers are now at work putting the line in shape.

NEW MAN IN CHARGE

On the 8th instant A. H. Harry, late of Raton, N. M., took charge of the mechanical department of the Gulf, Colorado and Santa Fe railroad, with headquarters at Cleburne, vice W. E. Symons, having resigned to take charge of the Kansas City, Pittsburg and Gulf, with headquarters at Pittsburg, Kan.

COTTON BELT PROTESTS

The Cotton Belt, having purchased the Louisiana and Texas railroad, twenty-two miles long, and extended it four miles, besides making important improvements, applied to the railway commission for permission to issue bonds to the amount of \$500,000 on the twenty-six miles. The engineer of the commission examined the property and fixed its value at \$297,000, which, according to the commission's methods, would fix the limit of bonded indebtedness.

The company protests against this low valuation, having paid \$330,000 for this property before making the extension and improvements. The commission will, it is said, consider another application from the Cotton Belt company.

SERVICE INAUGURATED TODAY

The new steamship line between Port Arthur, Texas and Mexican ports will begin operations today, the first vessel arriving at Port Arthur. This line will carry both freight and passengers and will have regular fortnightly sailings.

Close traffic arrangements will be made with the Kansas City Southern railroad and it is said the company is assured a large cargo of staves from this source on the initial trip, and that all classes of freight will be secured as soon as the new line gets down to working order.

The new steamship line proposes to go after the passenger business and will, in order to acquaint the public with the facilities of the company, run special excursions for parties who desire to make trips to the republic of Mexico. This will be an opportunity that has not hitherto been afforded.

WANTS FOREIGN IMMIGRANTS

The Texas and Pacific company is out for business, not only in this country, but in foreign lands. General Passenger Agent E. P. Turner has just issued an official circular, announcing the appointment of J. P. Spanier as European agent for the company. His headquarters will be at Naples, Italy.

Mr. Spanier's chief business will be to encourage the immigration of Italians to territory along the line of the Texas and Pacific line.

TAKE A PLUNGE IN THE SURF!
ON SATURDAY, AUGUST 20 the excursion of the year will be operated from points north of Temple on the Santa Fe to Galveston.
This is an opportunity to enjoy the splendid bathing afforded by the surf on Galveston beach. If you enjoy fishing you can make a trip to the North Jetty and have a good day's sport—there is a comfortable pavilion out there and this year the FORT-PON and other game fish are unusually abundant.
The work of raising the grade to a level with the great sea wall is now progressing and to see this work alone will well repay you for the trip.
To make it an object to take the trip, a rate unusually low even for excursions has been put on, but there is no reason here to explain.
Ask the Santa Fe
Agent, he knows.

NORTH SIDE AND ROSEN HEIGHTS
Twixt the devil and the deep sea, dogs will soon be persona non grata in this section of the country, with no haven of refuge but in the backyard of Mayor Pritchard.
Mayor Pritchard would befriend the faithful beasts, but the city council of North Fort Worth did not share his feelings last night and passed the dog ordinance by a vote of 3 to 2 over the mayor's veto.
With this unpleasant duty done, other affairs of importance were taken up. The city attorney reported the progress being made toward the issuance of bonds and obtained from the councilmen additional data necessary to secure the attorney general's approval. The ordinance authorizing the issue is expected to be taken up at a near meeting of the council.
A proposition to cut the salary of the recently appointed street commissioner

FOR AFFILIATION

Texas Federation of Labor
Wants to Include the Railroad Organizations in Its Membership

FARMERS ARE WANTED

Committee Composed of Walton Petet, E. P. Curtis and C. W. Woodman Appeared at the Meeting of Farmers Today to Discuss the Matter

Labor leaders in this city are sanguine that an arrangement will be effected at the coming convention of the State Federation of Labor by means of which the affiliation and active co-operation of at least several branches of the railway organizations will be secured.
At present the railway men co-operate with the federation to a certain extent, the joint legislative boards, composed of the three railroad organizations, the telegraphers and the State Federation, going hand in hand. E. P. Curtis is chairman of the board. In addition to this the railroad men have always been with the federation men in sympathy and frequently in aid and although no official connection other than outlined above has existed, it is generally thought that the time is now ripe for bringing about a closer union of the bodies.
C. W. Woodman, secretary of the state federation, stated yesterday that the situation looking to closer relations was indeed favorable and that the railroad organizations would be represented by members at the convention which meets in Galveston September 19.
Among the trades unions at present federated the matter is generally looked upon with favor. The members at large and many of the delegates elected to the coming convention have expressed themselves in favor of the admission of the railroads. Such a course, they feel, would result in their mutual strengthening and with the co-operation of the farmers would enable organized labor to present a united front to capital and the trusts.
Another important step showing the movement toward mutual understanding and help upon the part of the workers at large is the fact that the legislative board of the State Federation, represented by a committee composed of Walton Petet as chairman, E. P. Curtis and C. W. Woodman, today appeared before the farmers' state convention with a view of ascertaining in detail the objects sought by each organization; in what respect they are identical or the same as that of the trades bodies, and finally in what respect they differ.
This board has also been authorized to extend to the convention an invitation to send fraternal delegates to the coming meeting of the State Federation, which invitation it is certain will be accepted. Such a system of fraternal delegates already exists between many of the county farmers' organization and the various central trades bodies and is in line with the policy heretofore adopted by the leaders and members of the farmers' organization. Such an arrangement exists between the Tarrant County Farmers' organization and the local Trades Assembly, having been found to work smoothly and to the mutual advantage of both bodies.
The tendency in the direction of general federation, as shown thus in this state and in the country at large, taken together with the recent instance in which aid was extended to the Western Federation of Miners by the American Federation, is looked upon as forecasting the gradual aligning of all forms of organized labor into one co-operating and therefore greatly strengthened body.
To many local leaders the coming convention is being looked forward to as a history-making one in labor affairs, not only of the state, but of the country at large.

NASH FURNITURE COMPANY
Twixt the devil and the deep sea, dogs will soon be persona non grata in this section of the country, with no haven of refuge but in the backyard of Mayor Pritchard.
Mayor Pritchard would befriend the faithful beasts, but the city council of North Fort Worth did not share his feelings last night and passed the dog ordinance by a vote of 3 to 2 over the mayor's veto.
With this unpleasant duty done, other affairs of importance were taken up. The city attorney reported the progress being made toward the issuance of bonds and obtained from the councilmen additional data necessary to secure the attorney general's approval. The ordinance authorizing the issue is expected to be taken up at a near meeting of the council.
A proposition to cut the salary of the recently appointed street commissioner

from \$60 to \$10 per month caused a warm discussion, not over the matter of reduction, but over the question of having such an official at all. Mayor Pritchard left the chair to express his feelings on the subject and said that in his opinion, the council could hire men to do work without employing a commissioner to do the work. He was willing to supervise in person the filling of holes in the street and save the expense to the city. Along this same line the mayor intimated that other unnecessary officials were being employed and stated it would be possible to reduce the marshal's department, dispense with a city physician and in other ways economize.
Alderman Conway said the employment of a street commissioner was needed to do the street work in an economical and thorough manner and stated that he would accept no compromise. After a sharp tilt with Alderman Lydon over committee matters, a motion was put and the reduction in salary made, the office being retained.
Permission was granted the ladies of the Cumberland Presbyterian church to use the city hall for services on Sundays. The bond of Tom Miller, city scavenger, was received and filed by the council.
Dr. Gilmore called attention to a depression needing filling along the line of the Frisco. Alderman Lydon stated that a request had been made of the road over a year ago and that no action had been taken. The secretary was instructed to send a formal notification to the company, to be followed by more active steps in the event of continued inattention.
North Side Townsite Company was also notified to fill or cover a well on their property, the same resolution instructing the street and alley committee to take similar action on a well in the city streets.
The city engineer was requested to prepare drawings and specifications and to get the levels of several possible sites for the water works and to submit them at the next meeting of the council.
People of this part of the country are a favored class of individuals. They enjoy many things that even the inhabitants of Fort Worth cannot at all times enjoy. One of these privileges is the buying of ice at prices much less than those in Fort Worth. The Texas Brewing company will deliver ice here in the near vicinity of the warehouse for 25 cents per hundred pounds, but only at several times a week and then not in any quantity less than hundred pounds. Another dealer will sell you this summer necessarily for 30 cents a hundred and you can get fifty pounds at a time. Still another goes one notch higher and charges you 25 cents and you can get any quantity that you want. One dealer is also said to charge the consumer 40 cents a hundred.

Miss Frank Carson was in Fort Worth Monday.
Miss Agnes Ochs has been visiting Mable Williams.
W. T. Chesser spent Sunday at the Burgess ranch.
Mr. and Mrs. Knight and family spent Sunday in Dallas, and family spent Sunday in Dallas.
S. C. Skidmore is sick with an attack of malarial fever.
T. M. Presley is attending Nelson-Draughon business college.
Miss Mary Nelson of Dallas is visiting with friends here.
Miss Susie Donaldson has gone to Elridgeport on a visit.
Mrs. A. C. Chase of 2,300 Market street has recovered from an illness.
Mrs. Carrie Ligon and daughter, Caravelle, have moved to Fort Worth.
Miss Lela Hindeman has returned home after a visit with her schoolmate, Miss Ethel Simpson, of North Fort Worth.
Mr. and Mrs. Brady have removed from Rosen Heights to one of Dr. Galloway's new homes.
Mrs. E. P. Reynolds and son and Mrs. W. D. Davis visited several days with their father in Roanoke.
There will be a literary and musical entertainment given in Collins Grove in Maitland Wednesday night, Aug. 10.
Mrs. F. B. Claypool, who has been sick at her home on Lake street, is much improved.
G. W. Duke of Newark was a caller among friends here Tuesday. His wife accompanied him.
Alex Spear is adding some artistic improvements to his pretty home on Farmers' Hill.
The members of the Presbyterian church are to give an entertainment on Wednesday evening.
Mrs. Bula Crowson of El Paso has returned.

turned home after a pleasant visit at the home of her parents, Mr. and Mrs. T. M. Presley.
The negro butchers are to give a barbecue at Shady park on the 12th and 13th. They expect in this way to raise some money to help the cause of the strikers.
Messrs. Robert Atkinson and Claude Stettler, two enterprising members of the Evans-Snyder-Buel Commission company, have returned from a pleasure trip to the fair at St. Louis.
An enjoyable evening was spent at the Odd Fellows' hall last night. An ice cream supper was given. A large number of people attended and enjoyed the affair to its utmost.
The strikers are to hold a meeting every night this week at Collier's grove. Good music and speaking will be had. The general public is invited to attend any or all of these meetings.
An elegant driving horse belonging to J. G. Capps dropped dead last evening. The horse was badly scalded the other night in some mysterious manner. This is the second valuable horse to die here in the last week.
A petition is being circulated by Tax Assessor and Collector Mulholland, to be presented to the council, asking that the name of Rusk street be changed to Washington. The petition is receiving quite a few signatures.
H. L. Smithson and family left last evening for Chicago to make that city their future home. Mr. Smithson has been the purchasing agent for the Armour company here, but has been transferred to the plant at Chicago.
Thirty of the strikers are to go to Cleburne this evening to work on the Santa Fe. The road is laying new steel between Cleburne and Weatherford. The company also expects to raise the grade. An argument put forth by some of these men was not willing to work in this act refused.
The wire bridge over the Trinity that the county has been repairing will not be opened until later in the week. It has been decided to place new anchors at the ends of the cables, as the old ones are not considered safe. This work is now being done. They will be concreted in as securely as possible.
The revival meetings at the Baptist church are being largely attended. The 10 o'clock meetings bring out many people that cannot attend the evening meetings. These services are expected to result in much good to the church. Rev. J. W. Gillon of Fort Worth, who is conducting the services, is an eloquent talker.
A concert is to be given this evening at Collins Grove by the ladies of the Cumberland Presbyterian church. The proceeds of the entertainment are to be toward the erection of a new church. A committee attended the council last evening and presented the members with tickets. It is expected that a large crowd will attend the meeting.

SUIT TO FORECLOSE AT MOUTH OF BRAZOS
HOUSTON, TEXAS, Aug. 9.—The American Loan and Trust Company of Houston filed suit this morning in the United States circuit court against the Brazos River Channel and Dock Company, with headquarters at Velasco, for foreclosure of mortgage and deed of trust covering a failure to pay interest coupons. This involves the docks, the jetties, wharfs and other vast improvements.
THE JAPS INSIST ON MINE SAFETY
EL PASO, TEXAS, Aug. 9.—Five hundred Japanese laborers sent to Santa Rosalia, Lower California, to work in the Rothschild's mines, have struck because they don't consider the timbering safe. They will stay out till more timbering is put in. The Japanese consul has gone there.

SSS FOR THE BLOOD

The best known and most popular blood purifier and tonic on the market to-day is S. S. S.
There is hardly a man, woman or child in America who has not heard of "S. S. S. for the blood." It is a standard remedy and specific for all blood troubles and an unequalled spring tonic and appetizer. S. S. S. is guaranteed purely vegetable, the herbs and roots of which it is composed being selected for their alterative and tonic properties, making it the ideal remedy for all blood and skin diseases, as it not only purifies and invigorates the blood, but at the same time tones up the tired nerves and strengthens the general system.
Your S. S. S., in my opinion, is as good a medicine as a remedy to employ cannot be improved upon. I have used it for years and I was run down in health, and having seen your medicine highly advertised I commenced its use. To-day my blood is in fine condition and my general health is of the best. An friend for a large concern here, and it was not in good physical condition it would be of great service to me. I don't hesitate to give it the credit it deserves. **W. M. F. VAN DYKE**
815 Fifth St., Beaver Falls, Penn.

Dr. Lyon's PERFECT Tooth Powder AN ELEGANT TOILET LUXURY

SPORTING NOTES

A cordial clapping of hands followed the announcement by the umpire of the batteries yesterday, applause that was repeated when Boles appeared on the firing line.

Boyd, first up, received the advantages of four, and on a wild pitch traveled to second. But at this point Boles settled down to work.

Corsicana's tally came in the eighth. Method singled, Boles second, then third quite spry like. Huddleston fled to Diach and Method came home on the throw-in.

Table with columns: FORT WORTH, AB. R. BH. PO. A. E. Sullivan, rf. 4 0 0 2 0 0

Table with columns: CORSIKANA, AB. R. BH. PO. A. E. Boyd, cf. 2 0 1 1 1 0

Deskin and Method had not a chance and Boyd only one. Even the hard-working, conscientious Abrogast seems to like playing with a winner.

Twenty-three of the twenty-four putouts credited to Corsicana went to the infield. Salm got sixteen of them.

Boyd tried for the third bag in the sixth, but Quessier got him.

Jarvis was among the grand standers. Before last Sunday's game between Beaumont and Galveston Weiss told Jarvis that a trip to Fort Worth would be the reward for a shut-out.

Table with columns: INDIANS LOSE, DALLAS, AB. R. BH. PO. A. E. Dallas, 2b. 4 0 1 3 4 0

Table with columns: DALLAS, AB. R. BH. PO. A. E. Dallas, 2b. 4 0 1 3 4 0

Boyd pitched the shut-out and a round trip ticket home was given him. Mrs. Jarvis will probably accompany him to Beaumont.

SUCCESS TO COME TO MARKET PLAN THIS CITY

Committee Having the Matter of Raising Funds in Hand Believes Necessary Amount Is Assured

The committee appointed by the Board of Trade some days ago to solicit subscriptions to the cotton fund has worked only a few days and covered only a part of Houston street, and reports that it has secured \$1,100 of the proposed \$2,000.

Mr. Tanner, one of the committee, said this morning that he felt certain that the sum could be easily raised, as the committee has not yet called on a single Main street merchant, none of the banks nor mill companies from whom they expect to secure the largest contributions.

Mr. Tanner says that the merchants already seen are deeply interested in the movement and are showing their interest in a substantial way—by giving their money to support the movement to make this the leading cotton market in North Texas.

The idea, as has been stated before in this column, is to induce farmers who raise cotton to market the staple here instead of taking it to other points, as has been the plan in the past few years.

Fort Worth has decided to offer farmers here for their cotton than they can get elsewhere, and will have buyers on the streets to take all cotton that is brought by wagon to this city.

The local committee has not been out soliciting for several days, but will resume their work again today.

TEMPLE PRIZES. TEMPLE, Texas, Aug. 10.—Last year the merchants of Temple put in operation a plan for attracting cotton to this market that has created widespread interest over the state and in other states and territories.

This market has thus far received five bales of the new cotton crop, four having been brought in today and sold for 10 cents straight per pound.

What you pay for extracts is important, but what you get for your money is ten times more important. Ask for Burnett's Vanilla and get the best.

H. AND T. C. SPECIAL RATES. \$10.60 to Galveston and return. Sell August 13 and 14. Limit August 21.

FIRST ANNUAL BALL. ROYAL ACHATES. W. M. Bright, Ladies' Aid, at Lake Erie, Wednesday, August 10. Music by Moeller's orchestra.

Cotton Belt Ticket Agent Talks About the Don't Worry Club and the Next Excursion of Its Members

"Say," said City Passenger Agent Adams of the Cotton Belt route, "the people read the papers. I am working over-time answering letters, phone calls and callers about the 'Don't Worry Club' and Knights of Pythias excursion next Saturday.

"The 'Don't Worry Club' is not a local matter. We have them in Dallas, Greenville, Plano, Waco, Tyler, Corsicana, Mount Pleasant and a dozen other places and they are fully organized.

Prepared for Both

Whether you're a tall ender on Summer ordering or the advance guard on Fall tailoring, we are amply prepared to receive you.

We show enough summer and medium weights to offer splendid choice for any garment.

Our advance stock of Fall woollens is in and samples of the balance are on our tables.

Orders placed now can have the special attention possible during the anti-season period.

AUGUST'S SEVENTH AND MAIN STREETS GOES TO GOVERNOR ON MISSION OF MERCY

AUSTIN, Texas, Aug. 10.—Captain William Kennedy of Groesbeck was a visitor to the state house yesterday on a mission of mercy.

In Brackettville twenty-three years ago a young German boy who had just landed in this country became involved in a personal difficulty, and killed his antagonist.

He was tried, convicted and sentenced to confinement in the penitentiary for life. The case attracted Captain Kennedy's sympathies, and he went to work immediately to secure his pardon.

Every governor and board of pardon advisers has turned down his application, still this has not discouraged him, and although the unfortunate young foreigner was to him a perfect stranger, his efforts in his behalf have been ceaseless, and his loyalty to his cause unwavering.

Captain Kennedy says the boy is not at heart a murderer, and twenty-three years of confinement at penal servitude, is sufficient punishment for an infraction of the law committed in a moment of thoughtlessness, and he intends to press his cause.

BOKARA In CLUETT BRAND QUARTER SIZE, QUARTER EACH 3 CLUETT, PEABODY & CO. MAKERS OF CLUETT AND MONARCH SHIRTS

MEN AND WOMEN. Use Big 64 for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Prevents Catarrh of the Urinary Tract, and is not astringent or poisonous.
