Uncertainty That for Weeks Has Been an Embargo on Business Has Been Broken by Action of the Pools

RATE WAR IS ENDED

Arrangement Is Made Which Will Prevent the Cutting of Prices on Fitted Material, Which Has Been Much Complained of by Members

CLEVELAND, Ohio, Sept. 8.-Relating to the condition of the iron market at large, the Iron Trade Review this week

The uncertainty that for weeks has been an embargo on the business in finished steel has been broken by the action of the beam and plate pools on Tuesday. On plates above twenty-four inches in width the reduction is \$4 a ton or to 1.40c Pittsburg and on narrow plates \$6 a ton. Beams and channels are reduced to 1.40c Pittsburg, or the lowest price that has prevailed in four years. It is understood that arrangements have been made that will prevent the cutting of prices on fitted material that has been much complained of by certain members of the beam pool in connection with contracts taken in the past few months. The co-operation of the Lackawanna Steel company is understood to have been secured at least to the extent of maintained prices.

Another reduction of the week was in wrought pipe, the leading interest taking the initiative and the cuts running from \$1 to \$4 a ton. Competition has increased in this line, some of it fortified in steel and pig iron. Under the readjustment mills buying ther own skelp have a very narrow margin to work on. Important business of the week can be readily summarized. Rail buying amounted with the leading producer to 20,000 tons or standard sections, half of which is for a new line in the far west. Pittsburg notes a 2,000 ton plate order for vessel work and a 3,000 ton nquiry for shapes for a New York elevator. The American bridge Company's new business in August was between 40,000 and 50,000 tons, a considerable im-

provement upon July. Foundry pig iron is quieter and somewhat weaker. Southern production has decreased because of the coal strike, and the end of the latter may be long deferred. The starting up of steel corporation stacks continues and the week brings the total to fifteen additions to the active list in about a fortnight. Foun-When She Gave the Alarm dry operations do not show any distinct mprovement on the whole.

CHICAGO AFTER CAR MEN

Children Are Struck by the Trolley Vehicle, and Neighbors Try to Wreak Vengeance

CHICAGO, Sept. 8 .- Fifteen hundred residents of the North Side Italian settlement have threatened to lynch the motorman and conductor of a trolley car which ran over and killed Maneio Mazello, 7 years old, and seriously injured Stephen Lascolea, 6 years old.

The children were crossing the street when they were struck. News of the accident spread rapidly and men of the district gathered. Threats were made against the motorman and conductor, but the mob was checked by Patrick Reardon, who had carried the Lascolla boy to the sidewalk. Reardon leaped on the front platform of the car and told Motorman Axel Anderson to arm himself with the controller and strike the first person who attacked him. Anderson followed directions and was guarding himself against the angry crowd when a wagon load of policemen reached the scene. Anderson and the conductor, Fred Smith, were taken to the station.

THE MIMIC WARFARE

CORPS HEADQUARTERS, Gainesville, Va., Sept. 8.—The two armies are again in the field. This time the Brown army is the aggressor. It is to strike the Blue army soon as a preliminary operation against the capitol at Washington. Owing to the postponement of hostilities by General Corbin, commanding both forces, until 9 o'clock this morning, it is a safe prediction no fighting will occur today outside of a collision of cavalry forces which are pushed to the front by both commanders. Serious fighting, it is not believed, will occur until daybreak tomorrow. The march is being conducted exactly as if it will be actual warfare and while there is nothing spectacular about the day's operations, General Corbin says the work will be a great benefit to those engaged. The health of the troops is good. There are 120 men under medical treatment at both camps, the Manassas camp having slightly the larger

ever, it is a dull market in every way. Provisions-It was also a little more active and little higher. Some of the strength and activity came from covering of local shorts but the action of the market rather indicates, we think, less selling pressure. Considering the fact that the market has had several months persistent decline and that Democratic Editors in Country there is an improving demand for both meats and lard; that scattered outside interest has been very well liquidated, and the packing interests seem a little more disposed to take on stuff, we are inclined to feel that this tendency is toward a reaction and may develop into a better market.

ings to the New York Jurist and Assures Him of the Harmony of Party Throughout the Country

NEW YORK, Sept. 8 .- Democratic editors left the Grand Central depot for Esopus promptly today. Several members of the national committee accompanied them on the trip. For the last twenty-four hours many inquiries have been made as to where the conference of editors would be held, as that is one of the objects stated in the invitation. Secretary Woodson informed the editors the conference will take place on the steamer returning from Esopus, when every editor will be given an opportunity to say what he thinks of Judge Parker. This will be the only conference and the real object of bringing the editors together was to give them an opportunity to meet the candidate of their party.

Arriving at Esopus Charles W. Knapp addressed Judge Parker as spokesman for the visitors

MR. KNAPP'S SPEECH Mr. Knapp said: Judge Parker: We bring you greetings from the democratic and independent press of the United States. TRAFFIC TO BE REGULATED

Measure Will Be Presented at Next Legislature Making a Uniform Provision Throughout the State

To the Editor of The Telegram: I take the liberty of writing you a few lines and would like for you to publish them If you think they are admissible to the lumns of The Telegram. I write to The Telegram because I believe it is for the public, and if it will take this matter up something will be done, and at once.

The other evening, coming in from Handley, or Lake Erie, there were four negroes on the car and they occupied as many seats. Several ladies got on the car, and, of course, would not sit with one of the negroes, and had to stand up. When asked to sit together, the negroes emphatically refused to move an inch. With all of the entreaties of the conductor and passengers they sat right there. The conductor said that by law they had just as much right to a seat as a white man, but that he would like to make them ride on the roof, as far as he was concerned. If the Northern Texas Traction Company is not able to furnish a separate apartment for the negroes I am sure they could make them sit together and not take up the whole car. B. C. BALDWIN.

STATE REGULATION PROPOSED

A state law regulating the carrying of negro passengers on street car systems. it is learned, will be presented at the coming session of the state legislature. General Manager Haines of the Northern Texas Traction Company, when seen in regard to the negro question as the result of the above letter written to The Telegram, detailing a happening on one of the company's cars, stated that he had given much thought to the question and had looked into the regulations in robber. other cities and had come to the conclusion that a state regulation of the matter was the only practical way to settle the matter, and making the same rules apply butt of the pistol which sent him reeling will be large from Texas. to all companies. By this regulation the construction of partitions or providing of separate compartment, which always results in the carriage of a large amount of dead space, is avoided and the same result obtained by assigning one end of the car to whites and the other to negroes. In San Antonio, where separate compartments are required and numerous rules promulgated for the conduct of negro passengers, it is said, the regulations have never been fully enforced, as the companies could not enforce the regulations by means of their conductors without laying themselves liable and the police department is not able to place a policeman for the purpose on each car.

At present but few of the large cities of the state have regulations regarding the question and the cities not passing regulations have been retarded from so doing by the unsatisfactory results obtained in the other cities. In such places even the citizens who have been most urgent in pushing the proposition have later complained at the necessarily lessened seating capacity. In Houston it resulted in a boycott of the cars by the by the revelation of the fact that the

That Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak, nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Many a woman is nervous and irritable, feels dragged down and worn out, for no reason that she can think of. She may be ever so she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In ninety nine per cent, of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear. So sure of it is the World's Dispensary Medical Association, proprietors of Dr. Pierce's Favorite Prescription, that they offer a \$500 reward for women who cannot be cured of leucorrhea, female weakness, prolapsus, or fall-ing of the womb. All they ask is a fair and reasonable trial of their means of cure Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath, they cleanse and regulate the stomach, liver and bowels and produce permanent benefit and do not re-act on the system. One is a gentle laxative.

DISSEL ADDITION

For the next 30 DAYS we are offering lots in this addition at prices marked up six months ago. We are willing to prove this.

After 30 days all unsold lots will me marked up ONE-THIRD.

You ask the reason for this: It is because a street railway is being now built on Eighth avenue, the whole eastern length of the Dissel Addition, by the N. T. T. Co., and if you doubt our word, make inquiries.

Where is Dissel Addition?

It is in the southwestern part of Fort Worth, within three blocks of Pennsylvania avenue, in the best part of the city, and has now some seven or eight choice residences already built.

The prices of the lots run from \$100 up to \$1000, according to location.

We cannot help you to build, but we can and will be glad to sell you any of these lots on the easiest kind of terms. In fact, you pick your lot and tell us how you want to pay for it; do not talk trade-if you do not want us to take you up, as we are sure to do so.

SIZE OF THE LOTS

The smallest lots are 60x107 feet to a good alley. The largest lots 92x200 feet. Think of it, one-half acre. This addition adjoins the city limits on the east, so purchasers get all the advantages of the city and no city

Distance from Court House: Now please do not think this addition is like Lonehurst, as it is only a fraction over a mile from the center of town. Ten minutes' drive

behind a slow horse. The lots lie beautifully, on a slight slope to the south,

insuring lots of flowers and fruit in the springtime. We have maps—We have two horses and buggies plenty of leisure time to show you around, and if you do not buy there is no harm done, as you can tell your friends where they can surely get a bargain and a fine

In conclusion, will say, please call early and insure a good choice. Do not phone, but come to the office.

Phoning is never satisfactory. Remember, our office is in the Victoria Building, opposite Hotel Worth.

The closed sessions of the city board of equalization of taxes are being held for the purpose of a campaign on the credits of the financial leaders of the city, the results obtained proving most beneficial o the city rolls.

When asked in regard to the matter a nember of the board admitted that the present sessions, to which many of the bankers and other prominent citizens have been summoned have the assessing

There has gone up a great protest against this action of the city board of equalization, and while the holders of such valuable paper are replying to the last report. Texas is generally clear summons from the board and are giving a list of securities held: there is much discontent. It is claimed by some that no other city in Texas is following the cus tom, and that if Fort Worth insists on such taxation that it will force men who are holders of such paper to seek another location for a home and office.

The argument is made that the possession of a vendor's lien note ought not daily from September 15 to October 15. subject the holder to a tax; that a piece of property being sold, and for instance a Lincoln, T. Messrs. Osterhout & Lockwood painted the Presbyterian parsonage; estimated 30 gallons; took 22. Messrs. Slingerland & Shutter painted the Episcopal church; estimated 40 gai-

lons; took 28.

Same painters painted the Catholic church; estimated 50 gallons; took 39. Of course, they estimated from what hey had been using. The saving in paint and work is \$4 or \$5 a gallon. Total saving on three jobs \$125 to \$150-the painting costs two or three times as much as the paint, you know.
