

LOCAL MEDICAL COLLEGE IS ALONE FREE FROM CHARGES

Only One of Fifteen Such Institutions in the Southern Association Against Which No Complaints Were Made—Clinics to Be Held Daily During Coming Session Which Opens Monday—New Course Is Established Under Dr. Chase—Faculty Meeting and Banquet Last Night

That the Fort Worth Medical College was the only one of fifteen such institutions included in the Southern Association...

Reference to this fact was made with pride by Dr. Rufus Chambers in the course of an after dinner speech...

Steps to maintain the present high standing of the institution were taken last night when a resolution was adopted...

Announcement was made at the meeting that arrangements had been perfected for a great increase in the clinical work...

Dr. Chambers also announced that the cases at the city hospital would be open at all times for clinical purposes...

A museum containing a well selected list of specimens, including several rare ones secured from foreign museums...

A thorough inspection of the building in its revised condition was made by the members of the faculty last night...

A new course will be maintained at the university during the coming session, the faculty indorsing the action of the committee...

Dean Gray discussed the "Prospects" of the institution, prophesying much from the enthusiasm marking its early career...

LOWNEY'S "None on every place." Every Sealed Package of Lowney's Chocolate Bonbons is guaranteed to be in perfect condition...

In places other than a metropolis, showed that Fort Worth had greater population than that of many university centers...

Dr. Gilmore dwelt upon the importance of thoroughness in all branches as necessary to the greatness of such a school...

President MacAdam felicitated the medical faculty upon its enthusiastic and harmonious work...

Others who spoke at the banquet were: Dr. Barber, Dr. Morton, Dr. Rigger, Dr. Stephens, Dr. W. R. Thompson and Dr. W. B. and R. B. West.

A JOINT DEBATE

Cyclone Davis Talks on Prohibition and B. F. Wilson Discusses Conditions From Socialist Party Standpoint

CITY HALL IS CROWDED

J. T. Adams of This City Announces That People of Tarrant County Need Not Be Surprised if There Is Prohibition Election Held Soon

When the debate between Cyclone Davis of Texas and B. F. Wilson of California, began last night the auditorium of the city hall was uncomfortably filled...

Mr. Wilson is national organizer for the socialist party, while Mr. Davis, who is well known all over the south, has been employed by the state...

While waiting for the big guns to open the speaking J. T. Adams mounted the platform and told the audience that he was not a "cyclone," but merely a zeppher.

Mr. Adams said he was the first man in Texas to turn the crank which started the prohibition movement in this state as far back as 1894...

The speaker said that the prohibitionists had no funds with which to conduct a campaign, and wanted the audience to "chip in" that "God speeds" didn't amount to much in waging a fight against the liquor traffic...

Mr. Davis began his address by saying that the movement was no new thing. In the United States, he said, there were several movements seeking to curb the evil of saloons...

Mr. Davis told of the many occasions he had met the anti-prohibition speakers all over the country—the Hon. Barry Miller of Dallas, Hon. Stump Ashby and others...

The speaker then related where prohibition started, and said it was adopted by Thomas Jefferson, who had passed a law to that effect...

Talk about negro equality. It never began at the White House when Teddy ate dinner with a negro...

A LETTER TO OUR READERS 53 Cottage St., Melrose, Mass. Dear Sir: Ever since I was in the army, I had more or less kidney trouble...

I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of my water today and he pronounced it all right and in splendid condition.

I know that your Swamp-Root is purely vegetable and does not contain any harmful drugs. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time.

You may have a small bottle of this wonderful remedy, Dr. Kilmer's Swamp-Root, sent absolutely free by mail, also a book telling all about Swamp-Root.

Whisky will put the brightest man in the world on an equality with the hog. Whisky never made homes happy, but it has torn them all to pieces.

Mr. Wilson began his discussion of socialistic measures as a remedy for the liquor question. He said he was glad to be permitted to discuss important issues in joint debate...

He said the supreme question of the hour was, shall the present competitive system be continued? He said that the cause he represented was one in which men, women and children were all interested.

The speaker said the socialist's idea for destroying the liquor evil is to destroy the base, which is profit. Remove the profit and there would be few men willing to continue in the saloon business.

Mr. Wilson then related an incident in the life of Frances Willard, who said on one occasion while delivering a lecture in Chicago, that she had long tried to make it plain to those who were sober, but that she believed the better plan to keep them sober was by making them comfortable.

There is not a saloonkeeper in the country who is not in the business for the profit. The working men of this country produce property valued at \$2,400 every twelve months, while his wages are less than \$500 per year.

He said conditions were deplorable over the entire country; that there has been an alarming increase in insanity; that an alarming number of children between the ages of 6 and 14 years, are laboring for \$1.50 per week...

He said that only 6 per cent of the population owned the greater part of the wealth of this country. He said there was nothing more damnable than wage slavery, and concluded his discussion by asserting the proposition that the supreme issue is not whether man shall or shall not drink, but man shall or shall not get his food and shelter for himself and family.

Mr. Davis concluded the debate in a fifteen-minute rejoinder. It was announced that Mr. Wilson would speak again at the city hall tonight and also Sunday afternoon and night.

There seems to be a general disposition on the part of Western Texas ranchmen to ship out their stuff very close this fall, and the fact that the markets are pretty badly demoralized seems to have no effect on the stream of stuff that is being rushed out from the range country.

The membership of the Cattle Raisers' Association of Texas is showing a very gratifying increase, and by the time the next annual convention is held in this city it is expected that the roll in this city is the longest in the history of the organization.

All the Texas range country has had good rains during the past week or two, and the general expression from the ranchmen is that the winter outlook could not be better.

Empire Grain Company Elevator Is Rapidly Being Completed and Will Be One of Most Complete in Country

Stated He Will Put Up an Elevator in the Next Twelve Months—Quite a Number of Transfers Reported During the Last Few Days

The 500,000 bushel grain elevator being erected for the Empire Grain Company, just west of the City park, near the Frisco tracks, is being rapidly completed.

Last week E. G. Rall, who offices in the Hoxie building, bought a strip of land along the Benbrook and Caddo road, paying for it \$26,000.

Mr. Rall is in the grain business here, and although it can not be learned definitely, as the gentleman has been out of the city a portion of the time since the transfer was made, parties in a position to know have stated that it is probably a large elevator will be erected on some of this land before the close of 1905.

KANSAS GRAIN IS BEING MOVED IN SHOOT ORDER

Is No Complaint This Year Against Railroads Because of Manner of Transportation of the Crop

KANSAS CITY, Mo., Oct. 1.—For the first time since the establishment of the transportation bureau of the Kansas City Commercial Club not a single complaint has been filed against the railroads moving the Kansas wheat crop.

The Kansas crop this year is about 60,000,000 bushels. This is somewhat above the average, but nowhere near the 90,000,000 bushel record of 1903 or the 57,000,000 bushel record of 1904.

Thousands of bushels were piled up along the tracks, either exposed to the weather or given scanty protection from the elements by coverings of canvas or make-shift sheds.
