JAPS EVACUATE

Russians Force the Yellow Fellows to Abandon a Captured Position, and in Flight Leave Munitions and Provisions

EIGHTY THOUSAND LOST

Ten Days Fighting Was a Terrible Slaughter on Both Sides—Oyama's Counter Offensive Is Checked With Heavy Loss—Armies Exhausted

MUKDEN, Friday, Oct. 21.—(Delayed transmission.) The Japanese evacuated Shakhpu, three miles east of Mukden, Thursday night in order to escape being surrounded. Under cover of Thursday's fog they tried to surprise the advance guard of one corps on the Russian right flank. The latter repulsed them in their own coin with interest by taking Shakhpu on both flanks and not leaving the Japanese any alternative except a hurried flight. They abandoned a quantity of arms and ammunition. Several Japanese came into the Russian lines and voluntarily surrendered.

The total losses during the ten days' fighting (correspondent does not mention whether they were Russian or Japanese) were 40,000.

According to information from advanced posts the night of October 20 passed quietly. No big developments are expected for several days.

The Army Messenger today announces that the Russian column eastward advanced on October 18 and occupied without resistance Wan Pun Pass, south of Kaotou Pass, and on the same parallel as Shakhpu on the road to Fushun and Bentziaputze.

The Army Messenger also confirms the reports that a detachment of the Twentieth rifle, under Captain Demosty, raided the Japanese lines during the night of October 18 and brought back two Japanese guns, minus breech locks.

Field Marshal Oyama's counter offensive was definitely checked with a loss of men, gun and munitions. General Kuropatkin's army extends along the line running over twelve and one-half miles south of Mukden, and is supported by strong fortifications on the Hun river.

The present calm is enforced by exhaustion of the armies on both sides, which lost, killed and wounded, 80,000 men during the ten days' fighting. There is every indication that battle will not resume as soon as possible, and a decisive result is expected.

ST. PETERSBURG, Oct. 22.—General Kuropatkin, in a dispatch to Emperor Nicholas, under date of October 21, says: "The Japanese retired from the village of Shakhpu at nightfall, October 20. Thursday night passed quietly along the entire front."

The lieutenant general in a dispatch to the general staff, says the enemy from Shakhpu was precipitate. We found in the village arms, munitions and provisions which had been abandoned by the Japanese, who also left behind on our old artillery position one cannon, four limbers and a wagon. The Japanese also left behind a large quantity of instruments they previously captured from us. Since the battle of October 6 we have captured altogether fourteen Japanese guns, including nine field guns, including nine field guns. We are fighting October 21 in front of the Manchurian army."

The mobilization of the reserves of certain districts of Moscow, Warsaw, Kieff and Vilna are largely for the purpose of filling gaps in the ranks of the corps now at the front. It is definitely stated that General Gripenberg's second army will be composed of the Second, Fourth, Sixth, Eighth and Sixteenth European corps, the Sixth Siberian corps and several brigades of rifles, totalling approximately 200,000 men of arms.

General Skugarevski has been appointed at General Gripenberg's recommendation to command the Sixth European corps.

General Sakharoff telegraphs that the nights of October 21 and 22 passed quietly.

ALL ARE WELL AT BESIEGED GARRISON

ST. PETERSBURG, Oct. 22.—A telegram received by the family of Naval Architect Kaulskoff, from Port Arthur, dated October 19, and sent by way of Choofoo, says:

"All well. Do not be disheartened. We are working on a Sebastopol."

The Associated Press learns that the Baltic fleet is proceeding to the far east at a low economic speed. There is no intention to have the fleet arrive there until February. The admiralty expects the garrison at Port Arthur to hold out until then.

According to calculations, if the garrison holds out another six weeks the fierce northeast gales which will then begin will sweep the Yellow sea and constitute such a danger to Japanese warships that it will compel Admiral Togo to relax the blockade and the garrison will be able to secure a fresh supply of war munitions and food.

NEW MINISTER PUTTING INTO EFFECT REFORMS

ST. PETERSBURG, Oct. 22, 1:20 p. m.—Upon recommendation of Prince Mirsky, minister of the interior, in revising peasant laws in accordance with the Imperial manifesto of 1903, draft of statute regarding trusteeship of peasant property, submitted direct to the council of the empire by the late Minister Von Plehve, has been by Imperial order sent to provincial boards, created to review the work of the drafting committee. Under M. Shtinsky, Von Plehve's assistant, who was at the head of the drafting committee and whose services Prince Mirsky, upon accession, immediately dispensed with, utterly ignored these provincial boards. Beside it is announced other reforms of the peasant laws are contemplated by the Imperial manifesto to provide energetically, the provincial boards and all classes receiving opportunity to be heard.

WATCHING FOR JAPS IN PORT ARTHUR, RUSSIAN MANCHURIA

MUKDEN, Friday, Oct. 21.—(Delayed transmission.) The Japanese evacuated Shakhpu, three miles east of Mukden, Thursday night in order to escape being surrounded. THE GREAT BATTLE FOR INDIANA'S ELECTORAL VOTE—No. 4

OCT. 22.—A Japanese torpedo boat has been sighted at Gaskovich bay, in the extreme northeastern part of Korea, not far from Poeslet bay, and a number of Japanese spies have been arrested in this neighborhood, which it is believed fore-shadows the imminence of the Japanese landing near Poeslet bay.

PRICES ARE WEAKER

BERLIN, Oct. 22.—Prices on the bourse are weaker on rumor that the Russian black sea fleet will pass the Dardanelles and accompany the Baltic fleet to the far east.

REPORT IS DENIED

ST. PETERSBURG, Oct. 22.—The Associated Press is authorized to deny the report printed by the *Sole* of Paris yesterday to the effect there was an attempt on the life of Emperor Nicholas Thursday, in which there were eleven victims.

SANTA FE OIL STRIKE IS A RICH FIND 'TIS SAID

Company Has Tried to Keep Its Good Fortune a Secret, But It Is Understood the Yield Is Paying

ARDMORE, I. T., Oct. 22.—Despite the efforts of the Santa Fe railway company to conceal their rich strike of oil in the bends west of here, it has become known that they have found the product in vast quantities.

The drill has not gone to a depth of more than 300 feet, but the oil sand is in abundance and wells that produce from six to twenty barrels per day have already been brought in. It is reported here today that a much heavier yield has been found and the railroad company's special oil expert arrived here today and left immediately for the field. No other reason can be assigned for the company's efforts to keep the find quiet except that the time in which contests may be filed for the possession of the land has not expired. In fact numbers of acres in their possession now are under contest before the Dawes commission.

Operating in the same fields is the Ardmore and Boston company, the pioneer drillers in the Ardmore oil field. This company has not been so successful, but it has possession of quite a number of acres of land and is contesting the holdings of some of the land claimed by the Santa Fe.

In addition to the rich find of oil, vast quantities of natural gas have been found and it is said to be in sufficient quantities to justify piping into this city.

Y. M. C. A. WORKERS ARE IN CONFERENCE

TEMPLE, Texas, Oct. 22.—The conference of the workers of the Young Men's Christian Associations of Texas is being held here today and on account of delayed trains the attendance so far has been light, but a large number are expected to come in tonight. Among the delegates already here are A. G. Jennings of Childress, F. W. Hopper of Waco, W. M. Lewis, state secretary, Waco; A. G. Irons of San Antonio, J. G. Reeves of Fort Worth, L. E. Jones of the state force, A. E. Hargis of Victoria and A. W. Fisher of Galveston. The published program was carried out and at night the delegates present were guests of the local Y. M. C. A. at its Star Course attraction in the high school auditorium. The convention will last until Sunday.

HARLEM DEMOCRATS VISIT JUDGE PARKER

NEW YORK, Oct. 22.—Nearly five hundred members and guests of the Harlem Democratic Club went to Esopus today to visit Judge Parker and present to him a set of engrossed resolutions recently adopted by the club. The steamboat Sagamore was used for the trip. She was decorated with the national state and club flags and on the sides long streamers with the wording "Harlem Democratic Club to Esopus." The program at Esopus includes a march to Rosemont, Judge Parker's home. Judge Hopper, the Democratic leader of the Thirty-first assembly district, will make a speech to Mr. Parker and present the resolutions.

SEVENTEEN INJURED IN COLLISION OF TRAINS

KANSAS CITY, Oct. 22.—Missouri Pacific passenger trains Nos. 50 and 45, running slowly, collided here on between Chetopa and Coffeyville, Kan., last night, causing slight injury to seventeen persons and \$1,000 damage to rolling stock. The passenger cars were not derailed.

POSITION GIVEN HIM AND HE SUICIDES

NEW YORK, Oct. 22.—On the eve of his acceptance as a violinist by the director of the Metropolitan opera house orchestra, Max Guhlik has committed suicide by shooting himself. Guhlik was 25 years old and single. He was accepted formally, Saturday, by Nathan Frank, director of the orchestra, whose pupil Guhlik had been twelve years ago. He left no writing to indicate why he had chosen to die just as he was about to find his ambitions realized after many turns of adversity.

NO OIL DELIVERED AND NO LIGHT FOR THEM

NEW YORK, Oct. 22.—The steamer Canton Callon, chartered to take oil, to Nicholaslevsk, at the mouth of the Amur river, has been unable to reach her destination owing to ice, says a Times dispatch from London. In consequence of the failure of the Canton to deliver her cargo the unfortunate inhabitants of Nicholaslevsk will, until the correspondent adds, be without light during the Siberian winter.

There are 30,000 dry goods stores in the United States.

HOLD UP MEN IN A GROCERY ARE MURDERERS

Young Man Comes to the Assistance of His Father-in-Law and the Robbers Shoot Him Down

CHICAGO, Oct. 22.—L. Herzfeld has been shot and fatally wounded while endeavoring to rout three masked highwaymen who had invaded the grocery of his father-in-law, A. M. Lubin.

Herzfeld and Lubin were alone in the store when the bandits entered. The proprietor was behind the counter, counting the day's receipts, while his son-in-law was in the rear.

The highwaymen ordered the grocer to hold up his hands. The robbers then started Lubin toward the rear just as Herzfeld came running toward them with a heavy club in his hands.

The desperadoes turned and fled toward the door, where one of them stopped and fired at its mark, but a second struck Herzfeld and he fell unconscious.

A crowd of pedestrians, who saw the robbers as they fled, took up the pursuit, but the bandits made their escape.

ONE PERSON ONLY ESCAPES HAIL OF BULLETS

Train Robbers and Detectives Are Wounded in the Fight Which Culminated the Chase for Them

ST. LOUIS, Oct. 22.—Physicians at the city hospital stated today the condition of Detective James McCluskey and William Morris, alias Blair, one of the suspected train robbers, is very critical. McCluskey was shot in the abdomen and Morris was wounded four times, two being in the vital organs, during a fight between five detectives and three men suspected of being train robbers, in which Detectives Shea and Dwyer were killed and Alfred Rose, one of the suspects, received wounds from which he died instantly.

It developed today the battle was the culmination of a chase that lasted four months, the detectives having information which led them to believe the suspects were implicated in the robbery of the Illinois Central train at Centralia, Ill., in addition to other crimes committed previous to and since the hold-up. Harry Vaughn, the only suspect who escaped the hail of bullets and who was severely injured by the detectives when he attempted to aid his companions after having been placed under arrest, is held at the four courts. Five patrolmen have been detailed to guard Morris at the hospital.

THE SYSTEM HERE COMPLEMENTED BY GERMANS

NEW YORK, Oct. 22.—Educational methods here and in other parts of the world, particularly in Germany, have been discussed at a reception given by the Society of Educational Research in honor of Drs. Von Seeborg, Duncker and Kuyper. Dr. Von Seeborg and Dr. Duncker are private consultants of the German government and members of the German ministry of commerce, while Dr. Kuyper is superintendent of schools at Dusseldorf.

In the last six weeks they have been investigating public school methods in various parts of America and will sail for home today.

EDUCATIONAL METHODS OF AMERICA PLEASE THOSE OF A COMMISSION WHO ARE ON A VISIT OF INVESTIGATION

Dr. Duncker spoke in high praise of the American system of education as he and his colleagues found it. He had discovered, he said, that our instructors teach pupils not to depend too much upon others, but to help themselves.

"I don't find in America anything like 'Kleinlichkeit' (pettiness) as we call it in Germany," observed the doctor. "Stupidness and pettiness seems to be entirely absent from your nature."

Dr. Kuyper said he was greatly impressed with the desire of American teachers to perfect themselves in their art, and especially as they would be in their profession only for a short period. He said he could not understand how so many attractive women teachers could be induced to stick to their work and thought it would be an excellent thing if they could be persuaded to marry and then to interest their husbands in educational work.

Dr. Von Seeborg complimented the American teachers for their enthusiasm and said he was glad to see that education here was regarded as a prime means of Americanizing foreigners.

Dr. Eubst, an expert in industrial training in Germany, defined education on this side of the ocean as a system of "working through work." He had found, he said, that even the most insignificant endeavor in this country was respected and honored.

SUCCESSFUL TRIAL OF DIRIGIBLE BALLOON

NEW YORK, Oct. 22.—Mr. Lebadny's dirigible balloon has had another successful ascent, making many evolutions and obeying the helm perfectly, cables the Herald's correspondent. The balloon ascended from the plain of Moisson, described a figure eight and many other evolutions, in the course of which the man in charge made experiments for a new plan to raise or lower the balloon without discharging the ballast or regulating the gas.

FILMS DEVELOPED SHOW EARTHQUAKES

BALTIMORE, Md., Oct. 22.—Fifteen earthquake films have been recorded on the seismograph or earthquake machine at the Johns Hopkins University since April last. It is shown by the films from April to October, which have just been developed, that not only has the instrument exceeded its record in number, but the longest shock ever shown on the seismograph was registered during that time. On August 27 last there was recorded an earthquake that began at 4 p. m. and lasted three hours and a half. The shock moved the register beam two-thirds of an inch.

The longest quake previously was the one which caused great damage in Guatemala March 18, 1902. It continued three hours.

NO POLITICS IN IT

ROME, Oct. 22.—The pope is now working on a circular to be addressed to the French clergy. It makes no reference to politics. The pontiff merely encourages social religious action of the clergy. The fact there will be no politics in the circular is looked upon here as ending the policy inaugurated by the late Pope Leo and Cardinal Rampolla, former papal secretary, which aimed at the transformation of French Catholics into supporters of the republic. Pope Pius' recommendation being a union of good Catholics to defend religious interests.

J. Edward Addicks Says He Had Very Little Knowledge of How to Handle Corporations

WILMINGTON, Del., Oct. 22.—The scorching denunciation of J. Edward Addicks by Thomas F. Lawson, in "Frenzied Finance," has renewed interest in the gas magnate and his methods. Testimony that he gave in legal proceedings involving the Bay State Gas Company is being discussed in the light that Lawson has thrown on the methods of "high finance."

A GRAB OF MILLIONS

He Would Have Reached for More Money Had He Known Then What He Knows Now. How Standard Oil Forced Him to Swallow Bitter Dose

WILMINGTON, Del., Oct. 22.—The scorching denunciation of J. Edward Addicks by Thomas F. Lawson, in "Frenzied Finance," has renewed interest in the gas magnate and his methods. Testimony that he gave in legal proceedings involving the Bay State Gas Company is being discussed in the light that Lawson has thrown on the methods of "high finance."

Addicks' testimony in the equity proceedings begun by George Wharton Pepper, receiver for the Bay State Gas Company of Delaware, is startling in its refreshing frankness. In the testimony taken in this suit for the recovery of the stock of the Bay State Gas Company, Addicks reveals secrets of his methods and tells why they failed. Speaking of the Bay State Gas Company Addicks said: "I was inexperienced in large corporations at that time and I was looking out unselfishly more for other people than for myself."

Apparently astounded, counsel for the receiver asked: "You think if \$10,000,000 had been issued, making \$10,000,000 in all, the \$10,000,000 outstanding would have been worth more than the \$5,000,000?" "Would have been worth as much as a share as five, worth as much," explained the gas man. "I think the market price would have sustained it."

"And the assets back of it would have had nothing at all to do with its value," pursued the lawyer.

Mark the reply of the light-hearted Addicks: "No. A mere matter of the public being used to it; that is all."

Proceeding in replies to questions concerning the affairs of "his" Bay State Gas Company, Addicks explained how he had distributed stock of the Bay State Gas Company to the men who had "risken" their money in Beacon Construction Company. He apparently was surprised that his liberality should surprise opposing counsel, who failed to see why men who assumed ordinary or extraordinary business risks should be rewarded.

Addicks was asked if the Delaware Gas Company, after issuing \$5,000,000 in stock and \$2,000,000 in bonds, could have issued sufficient stock to get additional millions to pay for the generous distribution of stock in Massachusetts. He replied: "Of course, it could."

"And having that power and ability to get in those millions of cash you failed to take advantage of the opportunity?" asked counsel.

"At that time," glibly explained the gas man, "I had less experience; I did not realize it as plainly as I do now."

"If I had had the experience I have had now, I could have had it and it could have been done."

All through his testimony, Addicks admits his part, insisting that everything was done for the best interests of the common ethies, excepting to regret any tendency to be mindful of others' interest. That, he virtually says, was due to "inexperience."

Addicks organized the Beacon Construction Company and later obtained absolute ownership of it; he formed the Bay State Gas Company of Delaware and was "IT." It was to satisfy what counsel for the receiver termed "an ancient debt" that Addicks asserted was real, that 1,500,000 shares of Bay State Gas stock issued when the concern was upon the verge of bankruptcy and of a par value of \$15,000,000, were transferred to the Beacon company.

Addicks' claim, as the Beacon company, was set forth in a letter to Addicks, as the Bay State Gas Company, of May 20, 1902. It was signed by W. B. Clark, and it demanded \$2,000,000 in cash. Clerk testified that Addicks prepared the letter.

Allee, since elected to the United States senate, Newell Ball and James G. Shaw formed the committee to "investigate" the affairs of Addicks' claim. It was agreed to cancel the obligation by issuing and transferring to Addicks, as the Beacon company, 1,500,000 shares of gas company stock. Clerk signed a receipt for the stock on July 2, 1902.

"Without knowing, in fact, that it was issued," asked counsel.

"Yes, sir," replied Clerk. He said he signed an order the same day upon C. F. Keller, transfer agent, to deliver the stock to Addicks.

"Why did you give an order, as chairman of the Beacon Construction Company, to deliver the shares to J. Edward Addicks?" he was asked.

"I can give no answer why I did."

It was asked if the committee which "investigated" the claim of the gas man took pains to inquire how the \$2,000,000 claim arose. He said: "No, sir; because the counsel have explained it to them if they had."

"Did you go there at somebody's request?"

"J. Edward Addicks'."

WILLIAM ELLIS DROWNS IN A LAKE WHILE DUCK HUNTING

William Ellis, a prominent young farmer living about three miles south of this city on the Ellis homestead, was accidentally drowned this morning while duck hunting at the International and Great Northern water tank, located near its crossing with the Houston and Texas Central road.

Mr. Ellis went out early this morning to shoot ducks on the lake adjacent to the homestead. Mrs. Ellis was at the house near home. William Lucas and Jesse McCowan were near the lake and heard the shooting for ducks. After the sound of one of the shots they heard cries for help and turning they saw Mr. Ellis struggling in the water. They ran to his assistance, but before they could reach the lake he had swum and Mr. McCowan was handicapped by being one armed. However, he went into the water and tried to swim to the assistance of the drowning man.

The impression is that Mr. Ellis fired at some ducks, while he was in the boat and that the gun kicked him into the water. As he was a good swimmer it is believed he was carried down by the weight of his hunting coat loaded with ammunition, which he wore over his regular clothing.

As soon as possible efforts were made to recover the body. Word was brought to the city of the lake tragedy and a party composed of Justice Charles T. Rowland, Fire Chief James H. Maddox, George Mulkey, C. L. Smith, Deputy Sheriff Ralph Purvis, M. G. Ellis and his son, James Ellis, Constable Rufe Isbell and Richard Bratton left for the scene of the accident.

The body was recovered about 9 o'clock.

FOR ALLEGED VIOLATIONS OF THE LOCAL OPTION LAW WERE QUASHED AND THE CASES DISMISSED.

There were twenty-eight doctors and one druggist involved and the charge against them was using imperfect prescription blanks in prescribing intoxicating liquors to patients. The violation, if there was any, was purely technical in character as the indicted parties were about equally divided between pros and antis, hence there was no significance in the affair viewed from that standpoint. Several of the cases came to trial earlier in the summer and resulted in an acquittal in each case. Seeing that there was no probability of securing a conviction from that standpoint, the committee to proper to dismiss the remainder of the cases, a step which meets with universal approval.

53 Cottage St., Melrose, Mass.
 Dear Sir: Jan. 11, 1904.

Ever since I was in the Army, I had more or less kidney trouble, and within the past year it became so severe and complicated that I suffered everything and was much alarmed—my strength and power was fast leaving me. I saw an advertisement of Swamp-Root and wrote asking for advice. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time.

I continued its use and am thankful to say that I am entirely cured and am strong. In order to be very sure about this, I had a doctor examine some of my water today and he pronounced it all right and in splendid condition.

I know that your Swamp-Root is purely vegetable and does not contain any harmful drugs. Thanking you for my complete recovery and

burned his fingers when he played with Standard Oil fire in Boston. George L. Crawford of the array of lawyers retained to defend Addicks as to the "legality" of his schemes, opened the way to the story of the Standard Oil Episode.

"Did the Delaware company have to meet competition of rivals in business in the Boston gas field?" he was asked "if so, when and how?"

Addicks explained: "The Standard Oil Company, in 1903 or 1904, purchased the Brookline Gas Light Company, and extending its pipes into the city of Boston, entered into a very bitter competition."

Replying to another question, he said:

"That continued for two and a half years with a very great loss to the company and the reduction of its earnings."

"Was any settlement finally accomplished with the Standard Oil people?"

Bitter as was the pill, Addicks "took his medicine," and admitted that a settlement was reached in May, 1906, passing over the fact that he had burned his fingers and blaming co-leadership proceedings for thwarting the success of his venture. This was the basis of settlement, according to Addicks:

"It provided for a six months' option to purchase the Brookline company by the Bay State Gas Company, and an agreement between the Brookline and the Bay State companies as to the conduct of the business in Boston."

"And the consummation of that agreement put the Delaware company

in control of the Boston situation?" Addicks was asked.

"It would have done so at the end of six months," said Addicks in reply, "if consummated; would have put us in entire control of the situation; but we would have had to raise between \$5,000,000 and \$6,000,000 in cash to have done so."

"Immediately before the expiration of the option the company was put in the hands of a receiver, although we were perfectly solvent and in most prosperous condition financially. This put an end to any hope of raising the money to buy the Brookline company."

DEATHS

JOHN MATTHEWS
 The death of John Matthews, aged 65 years of Asheville, N. C., occurred this morning at the residence of his brother-in-law, John Floyd, who lives on the south side. The deceased was an ex-Confederate soldier and had been in this city but a few days, visiting, when his death occurred.

Funeral services will be held tomorrow morning at 10 o'clock from Gause's undertaking rooms, and will be attended in a body by the members of the local Confederate camp.

LIVES DEARER THAN OUR VERY OWN

How many lives dearer to us than our very own have been placed in needless jeopardy by failure to provide against and forestall the great suffering which too frequently accompanies and follows the bearing of children? That we would do anything within our power to obviate the possibility of such an happening is too patent to admit of question; therefore—mark well this fact—a liniment,

MOTHER'S FRIEND

by name, has been devised, whose function it is to prepare in advance the muscles and tissues intimately associated with parturition.

This liniment is for external application. By its use the parts are relaxed and enabled to withstand not only the actual strain brought to bear on them during accouchement, but also to rally from that strain and speedily regain their normal proportions and tonicity. It is not irritating to the most sensitive surfaces, and is applicable to all cases. It is not enough to call it "Mother's Friend"—it is the friend of the whole family. 50c. all druggists. BRADFORD REGULATOR CO., Atlanta, Ga.

A BANQUET WILL BE HAD BY REGIMENT OFFICERS

Those of Second Texas Volunteers of the Spanish War Will Meet in This City Early Next Month

Invitations are being issued for a banquet to the officers of the Second Texas Volunteer Regiment in the Spanish-American war to be held in this city November 9.

Acceptances have already been received from fifteen officers of the regiment and it is expected that altogether fifty of the officers and invited guests, among whom will be General Hare, U. S. A.; Colonel George West and Major Robert Beckham of this city, will be present. Colonel Oppenheimer of Austin, who commanded the regiment, will also be in attendance at the banquet.

Lieutenant John Homan of this city is making the arrangements for the affair, which will be unique in the state and which will be one of the greatest interest to members of the Texas militia.

Since the war the officers of the regiment have become greatly scattered and some difficulty is being experienced in securing the addresses of all of them. In order that as many as possible may be present on the occasion to renew comradeship and take over old times, Lieutenant Homan has requested that the boys from that ward to him so that their invitations may reach them in ample time.

CITY NEWS

Mrs. Edgar Bird has returned to her home at Gainesville after a visit with Mrs. G. W. Porter in this city.

The "Jolly Boys" of the Texas and Pacific shops and their ladies last evening had a hay ride to the farm of John Shields, five miles east of town, and spent a portion of a pleasant evening in dancing. Refreshments were also served and at a late hour the town folks returned to the city.

A personally conducted excursion is to be run by the Katy on October 29. Arrangements have been made to handle a large number of people to the World's Fair. The passengers are to be in charge of Katy representatives going and coming and at the destination.

Stanley J. Clark of Grand Saline is in the city and will address the public at the opening of the socialist campaign Monday evening.

Mr. and Mrs. Robert Watkins of Waco are guests at the Metropolitan.

C. M. Cowan of Wichita Falls is in the city.

The Katy road is to have a "Katy" day at the San Antonio fair, October 27.

Mrs. Felix Z. Galtner, 104 West Annie street, is confined to her home with sickness.

A person was in Fort Worth last night and this morning, attempting to get a car load of cotton pickers to go to Greenville, Miss. The man stated that planters there were very anxious to secure all the white labor of this kind and they could, as the negroes were so independent that they would no longer go into the fields and pick cotton and the crop was apt to spoil unless white men could be secured. He offered a good price to all who would go to that point.

The socialists have postponed their meeting which had been planned to be held at the City Park Sunday afternoon, and are now arranging to open the campaign with an open-air meeting some place on Main street on Monday night. A committee has arranged matters to start the affair off with a whoop. Several speakers have been addressing crowds along the streets in the evening the past week, but these meetings were not supposed to be the official first gun of the campaign.

FEDERAL COURT SUIT
 Mrs. Ella Lyons of Fort Worth has filed with the clerk of the United States circuit court a suit against the Swift & Co. packing plant for \$40,000. The suit is based on the death of her husband, which occurred at the plant on the morning of October 3 while engaged in work in the defendant's employ by the explosion of a steam pipe.

FOURTH WARD WINS

An interesting and exciting juvenile football game, played this morning on the grounds of the Fourth ward school building, the boys from that ward defeating The Telegram newboys' eleven by a score of 5 to 0.

The two teams were evenly matched and not until the last of the third half did the Fourth warders able to score a touchdown. The remainder of the game was the line bucking of The Telegram backs and the end plays by the school boys. Sid Harrison, captain and full-back for the Fourth ward team, made the longest run, going through center for fifteen yards and a touchdown.

The population of the world is now estimated to be 1,503,300,000.

WEEKLY REPORT OF THE SCHOOLS OF THE CITY

Remarks by Superintendent Hogg on Conditions for the Past Six Days—Percentage of Attendance

In his weekly report of the schools, Superintendent Hogg states that the spirit of the students has never been better than at the present time. Room No. 6 in building No. 1 and rooms Nos. 2, 5 and 13 of the high school had neither a tardy nor an absent pupil for the week. An increase in attendance is also called to attention.

The program committee is requested to meet Monday at 4 p. m. at the high school, and the members of the examination committee will meet at the same place and hour.

The examinations for additional teachers, Saturday, October 23, and November 5, will commence at 8:30 a. m.

PLAINTIFFS WIN THE FIGHT FOR SNUG FORTUNE

In the Bell County Court There Has Been a Verdict for Those Who Contest the Will of Mrs. Woods

TEMPLE, Texas, Oct. 22.—The case of the heirs of Mrs. Joe H. Wood, which has been on trial in the county court, was yesterday decided adversely to Ellington F. and Willie Wood and the will was set aside. This is a big victory for Mrs. J. C. Black, Ammon Wood and Edward Blakey, plaintiffs in the case. Notice of appeal has been given by the defendants, however, and unless an amicable settlement is made before the time limit expires the case will be still further fought through the courts. If the decision is not reversed Mrs. Black will receive about \$2,000 instead of \$210, Edward Blakey \$5,000, instead of \$1,000, and Ammon Wood about \$800 instead of \$1,000.

MEMBER CABINET OF CUBA COMING TO TEXAS

HOUSTON, Texas, Oct. 22.—Manuel L. Diaz, Cuban secretary of public works, will be here today to visit the rice fields and the Texas oil field. He will be given a reception here. During the trip it is announced he will visit Governor Vardaman of Mississippi, Governor Fardman of Colorado and the St. Louis exposition.

NEW ORLEANS, Oct. 22.—Accompanied by Governor Blanchard, Hon. Manuel L. Diaz, the Cuban secretary of public works, left here today to visit the rice sections of Louisiana and Texas. Mr. Diaz will inspect the rice mills at Crowley today. He will look over the oil fields of Texas Sunday and then go to Houston. During the trip to the United States he will visit Governor Vardaman of Mississippi and Governor Peabody of Colorado, and will also spend some time at the St. Louis exposition.

MORE EVIDENCE
 It is Coming in Rapidly in Fort Worth. Evidence on the following subject will prove of interest to every Fort Worth reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

H. E. Mills of 1402 Main street, one of the oldest railroad men of Texas, who recently came here from Denison, says: "I am very glad to add my testimony to that of the United States citizens who have publicly endorsed Doan's Kidney Pills. The every day work done by railroad men is as everybody knows very hard on the kidneys. I was employed for years in the Denison yards on the Missouri, Kansas and Texas railroad, and about two years ago I strained my back in some way and was laid up for several days. After that I not only suffered from backache, but there were very marked symptoms of kidney trouble which told me that something ought to be done at once. A friend advised me to try Doan's Kidney Pills. I did so and a short course of the treatment made me as strong and well as ever. I consider Doan's Kidney Pills one of the best kidney medicines on the market today. No one need suffer from kidney complaint when they are so easily procured at Weaver's Pharmacy, and I advise every one to make the trial."

For sale by all dealers. Price 50 cents. Foster-McMunn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

MORRIS PARK IS TO BE CLOSED ALL SEASON

NEW YORK, Oct. 22.—Negotiations have been practically completed between A. H. and D. H. Morris and representatives of the different racing associations about New York City which will, according to the Herald, mean the end of Morris Park so far as racing is concerned.

In the complications arising from the announcement recently made by the owners of the race course that there would be racing at the "Epsom Downs of America" despite the fact that the Westchester Racing Association is to go to Belmont Park, the new track on Long Island, the other racing associations are said to have got together and formed a pool which will pay to the owners of the track the rental formerly paid to them by the Westchester Association.

This means the payment of a sum approximating \$50,000 for a year at least, and for that time the splendid race course will be closed. The duration of the agreement is unknown, but another year probably will find land values much higher at Morris Park, enabling the owners to realize handsome returns by cutting up the site into building lots. For ten years the Westchester Racing Association has had a lease of Morris Park from the proprietors to what was said to be a rental equalling 2 per cent on \$2,000,000. Its spring meeting was really the opening of the metropolitan racing season, its rich stakes and plates brought forth the best horses of the year and the attendance always included a large coterie of society leaders.

FUNERAL OF THE LADY WHO WAS BURNED

TEMPLE, Texas, Oct. 22.—The funeral of Mrs. Isabella Prater, who was burned to death yesterday, was held here today in Mount Vernon cemetery. The deceased was the mother of R. S. Prater, and J. H. Prater, all well known citizens of Temple. She made her home with her son, Tom B. Prater.

It seems that the aged lady attempted to start a fire in a charcoal burner using oil, and the flames in leaping forth communicated to her apron. Falling to disentangle this garment and to fire spreading to the rest of her clothes, she lost her presence of mind and hushed into yard, where the air stirred the flames until soon she was completely enveloped. There was no place on her body except the feet that was not burned to a crisp. Witnesses of the affair say it was the most horrible sight they have ever seen.

Japan's exports show their greatest gains in manufactured goods. In cotton it is most marked. Three cotton mill companies have ordered an aggregate of 1,555 weaving looms to meet the expected future increased demand from China for cotton manufactures.

The Japanese chambers of commerce are organized to promote their trade in China by means of commercial missions. This is not a new idea. China, as several European countries have successfully done it before, but Japan's effort will be more complete and systematic.

Cures All Stomach Troubles

THE FIRST 50-CENT BOTTLE FREE

We Want to Give Every Sufferer from Stomach Disorders of Any Kind, Constipation, Asthma, Sore Throat or Lung Afflictions, Our New and Wonderful Cure—It Shall Cost You Nothing.

Milks' Emulsion will cure you of stomach trouble in any form, constipation, asthma, throat or lung afflictions. We are so confident of this that we have decided to give one 50-cent bottle free of charge to every sufferer. If you do not know the wonderful merits of this great remedy and as a sufferer from any of these afflictions, fill out the following coupon and mail to us. We will then send you an order which will be accepted by the druggist in exchange for the remedy. There are no restrictions; no obligations beyond your promising to take the remedy as prescribed. We will pay the druggist. Your only expense will be for the stamp and envelope necessary to send the coupon to us. This is an honest offer and your acceptance of it means your early and complete recovery from any form of stomach trouble, constipation, asthma, throat or lung afflictions with which you may unfortunately be afflicted.

soothing influence over the mucous linings of the throat, bronchial tubes, stomach and intestines that cream does over the external skin.

When your throat is sore; when you have sharp, shooting pains in the chest; when your stomach is out of order, and the doctor calls it catarrh

or indigestion or any of the other common names, the afflicted parts are in the same sore, cracked and sick condition that your rough and wind-cracked hands often are in. Much depends upon the condition of your skin. When it is rough and chapped, every move of the affected parts causes suffering. The skin, or mucous lining of the internal parts, performs important functions. When it gets into the rough and sore condition these functions are improperly and painfully performed. If it is the stomach, the proper secretions are not produced, the food is poorly digested, constipation results and from this may develop any of the innumerable afflictions which beset the human body.

It all starts from the unnatural condition of the lining of the affected parts. It is useless to treat indigestion or constipation, treat the mucous lining of the stomach. Restore it to its natural and healthful condition and all the other ills will soon disappear.

Milks' Emulsion is just the thing to use when the throat is dry and sore, or when the secretions of the stomach are inadequate to digest the

food. The relief is immediate and positive. It is so deliciously pleasant to the taste that children eat it eagerly. The temperature of the body quickly dissolves the Emulsion, which is quickly absorbed by the lining of the affected parts, and thus soothing and healing the sore and unhealthy mucous membrane.

Thousands have voluntarily sent their endorsements of Milks' Emulsion to us. Don't take our word for it. Let us send you their addresses and you can ask them.

How to Get a 50c Bottle Free

We want you to take Milks' Emulsion for any affliction of the mucous membrane. We will give you the first 50-cent bottle. In accepting this free offer you do not obligate yourself to us, beyond a promise to faithfully follow out the directions printed on the bottle. Fill out and mail this coupon to us.

MILKS' EMULSION CO.

113 Fourth Street, Terre Haute, Ind. Gentlemen—I accept your generous offer to send me a free fifty-cent bottle of your remedy. I shall take the remedy myself and will follow the directions faithfully. I have never taken Milks' Emulsion.

STOCKS

NEW YORK, Oct. 22.—The stock market has broadened out this week to a volume and scope not attained before in over three years. Ease of money rates, unequalled in October for many years, and evidence of an effective industrial revival are main causes. The appearance of the public as a buyer figured largely in the animation of the week. The absorptive power of the market has proved equal to the enormous profit taking from earlier buyers and prices have rallied from all directions, moving forward to new high levels on a growing volume of business.

tory to which the cattle are destined. From November 1 to December 31, 1904, inclusive, cattle from said district may be moved to the nonquarantined area in the territory of Oklahoma after inspection and upon written permission by an inspector of the bureau of animal industry. In the absence of such inspection and permission all movement of cattle from the quarantined district to points outside of such district in the above-named states and territories is prohibited, except as provided for immediate slaughter.

All cattle from the quarantined district destined to points outside of the states and territories above named shall be shipped without inspection between November 1, 1904, and January 31, 1905, inclusive, and without restrictions other than may be enforced by local regulations at point of destination.

The shipment to any part of the states of Virginia, North Carolina, Tennessee, Texas and California, and the territory of Oklahoma, outside of the quarantined district, or to any part of the states of Missouri, Arkansas and the territories of New Mexico and Arizona, of any cattle which may have been moved under this order, except by permission of the proper authorities of the state or territory to which destination is hereby prohibited. And it is further ordered, that all stock pens which may have been reserved for the use of cattle from the quarantined district, prior to November 1, next, shall not be used for receiving or storing cattle from the quarantined district which have been inspected and passed, nor for cattle originating outside of the quarantined district, except when such cattle are intended for immediate slaughter.

SOUTH DAKOTA RANGE

Advices from the western South Dakota range are that prospects for winter grass is good, consequently cattlemen are not worrying about the stuff they must carry over. The range has been very good all summer and the cattlemen have had a better chance this year than they had for winter and it would seem through the winter and it would take something extraordinary to make any unusual loss this winter.

OF INTEREST TO THE STOCKMEN

RAILWAYS ARE RESPONSIBLE. The Third court of appeals at Austin has affirmed the case of the Houston and Texas Central Railway Company vs. J. A. Mayer, from Llano, and perpetuated judgment for \$500 damages and \$425 penalty for failure to furnish seventeen stock cars for shipment of cattle from Llano to a point in Indian Territory.

WILL QUIT SHIPPING

Thomas B. Tomb of the Lake-Tomb Cattle Company, with large ranch and cattle interests in Texas, says: "The strike hit us hard, as our cattle were fatter than they are now. We intend to quit shipping next week. It has been a hard season for the rank and file and those who fondly hoped to get rid of the cattle for which they paid fancy prices as stockers two and three years ago may as well accept the inevitable and cash their notes made requisition for the cars, depositing one-fourth of the freight charge, and the court holds that he did it in a legal way and was entitled to the amount given."

KANSAS CITY SHOW

A Kansas City dispatch says: Hereafter the American Royal will be held one week earlier than usual. Breeders will argue the change, with the object of shortening the show season. They talk of asking the management of the International Live Stock Exposition at Chicago to hold that show early in November, as they desire to get through with the show business as early in the season as possible.

WOOL IS SOARING

In view of rampant speculation as to the probable price of next year's wool a sale made at St. Paul yesterday of 2,000 fleeces just sheared, at 20 cents per pound, is interesting. The price is regarded as a 2-cent advance over last spring's figures.

JIM MADDOX NOW MAKES ANNOUNCEMENT

In this issue of the Telegram appears the announcement of Mr. J. H. Maddox of a candidate for the office of city marshal of the city of Fort Worth. There has been considerable discussion throughout the city for some time with reference to the probabilities of Jim Maddox becoming a candidate for the city's chief of police and a great many citizens have urged him to enter the race. Mr. Maddox is one of the old ad well known citizens of the city, having resided in Tarrant county since 1877. Was comparatively a young man yet, he has served the people of this city and county in many important positions of trust and honor, but his friends claim for him that he possesses and has displayed conspicuous ability as a peace officer.

TEXAS SHEEP BREEDERS

The fall meeting of the Texas Sheep and Goat Breeders' Association will be held at the sheep and goat barns on the south Antonio reservation. Fair grounds next Wednesday. President W. J. DISCARDED ARTILLERY

In Fort Worth, it is said, they have effectually solved the problem of how to break up the practice of pistol totting. They let the highwaymen take the guns away from 'em.

There was a time back in the days when Fort Worth was younger and more exuberant than she is today, when some of the citizens of that period did as the people of San Antonio do, and perambulated the streets with heavy artillery attachments.

It has been reserved for San Antonio to perpetuate the era of gun totting and indiscriminate slaughter of in-offensive citizenship.

But the San Antonio of today is a degenerate. It is not the San Antonio of glorious memories and thrilling deeds.

The Telegram, however, acknowledges the corn in the matter of that army of guns which decorates the windows of Fort Worth pawn brokers.

The matter of railroad consolidation is now, as it has been for some time, a matter of public interest; and in support of the contention that such consolidation is against public policy...

THE YELLOW HOLLY

BY FERGUS HUME, AUTHOR OF "THE MYSTERY OF A HANSON CAB," ETC. Copyright, 1903, by G. W. Dillingham Co.

(Continued from Yesterday.)

There was an evening party in London among the faded gentility, George Brendon being a participant.

Brendon and Lola quarrel. The display of love and passion by the woman and on the other side interest, Lola confesses to having a detective watch Brendon, as she was jealous of him.

"No, I only gave a bit to my daughter and she!"

"She gave it to Brendon. Yes, I know. But did Miss Ward give any of it to a third person?"

"Certainly not. To do so would have had to get it from me. But beyond the sprig which was given, and which Mr. Brendon had, no holly went out of this house."

"It is very rare, is it not?"

"Well," said Leonard, "it seems to me that the yellow holly has something to do with the crime."

Mrs. Ward drew a long breath, but said no word.

"No, no," Train started to his feet. Mrs. Ward pulled him down again and pointed with her fan toward the boudoir.

"Hush! He might come out," she whispered. "But can't you see? Brendon wore the sprig in his coat on that night. He must have been in the room and have dropped the berry. What was he doing there if it was not to—"

"No," said Train hoarsely. "I half thought of that myself, but it is quite impossible. I tell you. He could not have got out of his room unless he had come to me."

"How do you mean?"

"I locked the door of the sitting room, which was between his bedroom and mine. There was no exit from his bedroom, and to get out and down the stair he would have had to open the sitting room door. Now, the key was under my pillow, and the door was locked in the morning. No, Mrs. Ward, Brendon is innocent."

"He might have stolen the key while you slept."

Train shook his head. "Impossible. I sleep very lightly, and on that night I hardly slept at all."

"Why? Was anything wrong?"

"I can't tell you that, Mrs. Ward, without violating the confidence of my friend. Indeed, I have said too much. Promise me you will not speak of what I have told you."

"Will you answer a few questions, Mr. Bawdsey?" asked George. "Yes, Fire ahead."

"That's so. Vidocq & Co.—an attractive title, I guess."

"Well, sir, if you will shove advertisements into the paper asking about the celebration of the marriage of Percy Vane and Miss Rosina Lockwood you must expect to be dropped upon."

"Quite so. I have had you under observation for the last six months. Any more questions, sir?"

"Only one," replied George. "Will you tell me exactly what you are doing here?"

"Certainly. You shall have the whole story, Mr. Brendon, but in the first place I shall ask you a question in my turn. Do you know why I asked you to come and see me today?"

Brendon shook his head. "I have not the least idea," he confessed.

"I'll enlighten you," was the other man's reply. "To warn you that you are in danger of arrest."

"In danger of arrest?" George jumped up. "What do you mean?"

"Oh, my meaning is clear enough. There is a chance that you may be accused of having murdered Mrs. Jersey."

George dropped back into his chair with a white face. "You must be mad to say such a thing. Who accuses me?"

"Lord Derrington."

"On certain information he obtained from Mrs. Ward. She is your bitter enemy. You see, Mr. Brendon, it is not her game that you should marry the daughter. Mrs. Ward knows that you are a clever man with a will of your own and that she will not be able to twist you around her finger, which is what she wishes to do with any son-in-law who may come her way. She will stick at nothing to get you out of the way."

"But she doesn't know that I claim to be Lord Derrington's grandson?"

"Indeed, she does," replied Bawdsey quickly. "Derrington told her all about it."

"Why?"

"Now, that," said Bawdsey, shaking his head and looking puzzled, "is one of the things I can't make out."

George thought for a moment. "I was at Mrs. Ward's the other evening," he said slowly. "Lord Derrington was there. Did he know then that I was his grandson?"

"He did. He has known ever since you put the advertisement in the paper and I looked you up."

"And Mrs. Ward knew also who I was?"

Bawdsey nodded. "Yes. And after that evening she came to see Lord Derrington to suggest how you should be got rid of."

"Ah! George was now perfectly cool as he saw that Bawdsey, being as frank, was ready to be his friend. "And how did she propose to do that, Mr. Bawdsey? By having me arrested?"

"With the alternative that you should give up all attempts to prove your birth and go to Australia."

"And surrender my claim to Miss Ward's hand?"

"Of course. It's a case of threatening Mr. Brendon."

"Was Lord Derrington agreeable to this suggestion?"

"Yes. He hates you and told me to see you and put the matter to you. You have a week to think over it, and at the end of that time, Mr. Brendon, if you don't leave England you will be arrested."

"No," replied Brendon calmly. "I will not be repressed. Setting aside the fact that there is no evidence which implicates me in the crime, Lord Derrington, for his own sake, will not have his grandson arrested and his dirty lines washed in public. Whether there was a marriage or not, I am his flesh and blood. Why does he hate me?"

"I can't say, sir. He never explained, but he does hate you."

"Humph! I see no reason. A man can't help his birth, and I am quite as presentable as Walter Vane."

"Much more so," said Bawdsey quickly. "He is a fool and a miserable little beast. He sent a bracelet to Miss Velez."

UPS AND DOWNS OF J.F. DRAUGHON AN INTERESTING STORY OF \$60, HOW THE PLUCK AND TOIL OF ONE MAN CONVERTED IT INTO THE BIGGEST ENTERPRISE OF THE KIND IN THE WORLD

There is being distributed in Fort Worth by Draughon's Practical Business College, located corner Seventh and Houston, the original Draughon's College, a forty-eight page booklet containing a very interesting and unusual story entitled, "Ups and Downs of J. F. Draughon," which should be read by every one into whose hands it may fall.

It is a modest, simple little history of the ups and downs of a man who, starting sixteen years ago with practically nothing except vim, energy and hard work, and handicapped by many obstacles, built up the largest business of the kind in the world.

It is not only an entertaining booklet, but one who reads it will be convinced that any one who is in earnest may succeed in life in this generation, just as they could in the days when Abraham Lincoln rose from the position of a rail splitter to that of president.

Under the heading of "A Word to Boys" the result of cigarette smoking, how many obstacles were overcome, and the story contains considerable SIDE TALKS to young men and women about system, energy, courtesy, determination, fidelity, purpose, etc.

"Draughon's Practical Business College" has leased for a term of years the entire second and third floors of the bank building, corner Fourteenth and Main, near the depot, over Bank of Commerce, and will move in about November 1.

NEW SCHOOL HOUSES FOR FIFTH AND EIGHT WARD

City Council Orders the Preparation of Plans and Advertisement for Bids on Buildings Which Must Be Ready for Next Term—New Water Meters Adopted

When the Fort Worth schools open for the term of 1905-1906 two new school buildings will be placed in service, one for the pupils in the Fifth ward and one for the pupils in the Eighth ward.

At last night's session of the city council a resolution was passed without discussion ordering this step. The measure provides that plans and specifications be at once prepared for a twelve-room brick or stone building for the Eighth ward and that as soon as the plans are prepared bids be received for its construction and for the construction of the Fifth ward building, plans for which have already been prepared.

Work on the Eighth ward building is to begin as soon after the acceptance of bids as the contractor may desire, and must be finished by August 15. Work on the Fifth ward building is ordered to commence immediately at the close of the present session.

THE METER QUESTION

The meter question was taken up and disposed of in a way that showed previous discussion. The city secretary read the bids and the recommendation of the city engineer and secretary of the water works, which seemed perfectly clear to the councilmen last night without the explanation for which the decision was postponed at the last meeting and on motion of Alderman Moreland, seconded by Alderman Waggaman the contract for the thousand new meters was awarded to the Worthington Company, the lowest bidder.

THE CALDWELL CASE COMES BACK TO PRESBYTERY Texas Presbyterian Synod Sustains the Complainants and Instructs a Rehearing of the Matter

AUSTIN, Texas, Oct. 22.—At the meeting of the Texas Presbyterian synod yesterday afternoon the following was adopted: "That we sustain the action of the complainants in bringing this matter to the attention of the synod and return the case to Fort Worth presbytery with instructions for a new hearing."

After the reading of the record of the presbytery Rev. John V. McCall, representing the complainants, stated the case to the synod. He charged: "First—Dr. Caldwell rejected the Mosaic authorship of the Pentateuch, holding it was a compilation of Ezra's day."

"Second—That he denied the history of the earlier chapters of Genesis, holding it merely pseudicly but not objectively true."

"Third—That he denied, in part at least, the miraculous element in the Old Testament, holding these records of distinctive value denied."

"Fourth—He denied the substitutionary atonement of the priest."

Dr. Caldwell's views of the inspiration of the scripture were not those held by our church. He was not ready to say that the Bible was the word of God, but that it contained the word of God.

Mr. McCall paid a tribute to Dr. Caldwell's spirit in the chair and believed there was a large field of opportunity for him to do good in other spheres of endeavor.

Henry Austin, representing the presbytery, defended its action in receiving Dr. Caldwell. Mr. Austin presented the following points: "First—The views seemed critical and technical and such as would not be brought out except in such an examination."

"Second—Touching the questions at issue, Dr. Caldwell was not dogmatic but conservative in expression of views."

"Third—No one could tell where the miraculous and the allegorical separated."

"Fourth—He was understood to hold to the vicarious atonement of Christ. He heartily endorsed the views and willingly answered the constitutional questions."

"Fifth—His preaching seemed consistent with the Calvinistic system of the church."

PERSONAL NOTED CLAIRVOYANT HERE DR. PHILLIP BRENTANO OF BERLIN, GERMANY, VISITS FORT WORTH.

HIS WONDERFUL POWER BRINGS COMFORT AND HAPPINESS TO MANY—DUMFOUNDS THOSE WHO CALL ON HIM.

THE EXPONDER OF CLAIRVOYANCE, PSYCHIC INFLUENCES AND OCCULTISM REMAINS BUT A SHORT TIME IN FORT WORTH AT THE SPEER FLATS.

He insists on telling the truth to all callers, but comforting some with homely sophistry and others with glittering tales of fortunes in store for them.

Those who come to scoff may not remain to pray, but they go away with a puzzled look on their faces, wondering mightily. Perhaps the power to control by will when you see the rather peculiar method used by the professor in telling a fortune, but when he commences to talk and piles up fact after fact, which you know to be true, even the smallest detail, your laugh dies away and you gaze in amazement akin to awe at the mysterious man before you as though he were some uncanny being fresh from another world.

You sit chained to the chair with fascination, the power to control by will, until assured that a person is perfectly satisfied and that he believes he has received a fair return for his money.

If you are interested in the outcome of your affairs and desire advice on perplexing questions, you should not fail to improve this opportunity. If you are discouraged, unhappy, if everything seems to go wrong and you are unable to change the course of your affairs, you should see Brentano.

There are occult forces, stronger than will, ability and endeavor, that frequently cause the success of one and failure of others. Some call it luck. It may be lucky, but it is not the fact that success is not just an accident. "Luck" like every other effect, has a cause. Mr. Brentano has made a life's study of the forces and influences that rule the destiny of men and women. Magnetism, mental suggestion, the power to control by will of mind, to sway—that's luck. It's in every one. It's a power all possess, but few know how to use. Mr. Brentano develops success and happiness in love, marriage, divorce, all sorts of troubles, business, law suits, wills, deeds, investments, speculation, in fact, in a matter of human interest. It is not alone what he can tell you, it is what he can do for you, that makes a visit to him worth while.

Mr. Brentano's fees are within the reach of most people; a consultation fee of two dollars being charged. He may be seen daily from 10 to 12 and from 2 to 3 o'clock, with exception of Sunday, when the morning hours only prevail.

His specialties are given at the Speer Flats, corner of Fifth and Throckmorton streets, with entrance on Throckmorton.

SOME SUGGESTIONS WANTED ON MEAT ORDINANCE

Proposed Law Is Being Held Up for Two Weeks and Laws of Other Cities Will Be Consulted on the Matter

At the meeting of the health committee of the council yesterday to discuss the ordinance drawn up by City Attorney Orlick, on the suggestion of Dr. Chambers, city health officer, and the health inspector, C. C. McMichael, it was decided to let the matter pass over until the meeting of the council two weeks hence.

Since Rufus Chambers, the city health officer, has started to make a most thorough inspection of all the meats sold in the city he has had numerous inquiries in regard to the methods of inspecting the meats, requests from butchers to inspect their establishments and to give them information as to places where bad meats are said to have been offered for sale.

CHICAGO TAKES IT UP CHICAGO, Oct. 22.—The recommendation of the civic federation that something be done to inspect the meat sold in Chicago was taken up in earnest by the council committee on health. The investigation of the federation led it to report that while there was perfect inspection by United States inspectors of the meat intended for export, no attention at all is paid to that eaten in the city in which it is killed.

TURKEYS ARRIVING BUT SUPPLY IS SHORT

Holiday Bird Has Made His Appearance on Local Market But Farmers Report Great Scarcity This Year

Gobble, gobble, gobble. The big fat turkeys, the kind one likes to meet on the table about Thanksgiving and Christmas time, have arrived in Fort Worth. The advance guard of this year's crop, the fat tender fellows, who have reached the market places and are as scarce as hen's teeth, for the heavy rains over the country this year has thinned them out.

LAND PATENTS SIGNED AUSTIN, Texas, Oct. 22.—The commissioner of the general land office has issued and the governor has signed patents to the following tracts of land: Bailey county, 1,546 acres; Rummels county, 660 acres; Atascosa county, 691 acres; Montague county, 15 acres; Coke county, 480 acres; Fannin county, 160 acres; Kerr county, 320 acres; Gillespie county, 610 acres; Comanche county, 160 acres; Harris county, 483 acres; Polk county, 36 acres; Travis county, 117 acres; Brewster county, 72 acres; Medina county, 93 acres; Siskiyou county, 404 acres; 1,860 acres; Trinity county, 368 acres; Motley county, 821 acres; Erath county, 13 acres; Haskell county, 20 acres; Kimble county, 160 acres; Number of counties and is situated in 20; patents issued, 29; amount of land embraced, 7,726 acres.

Interesting Facts For Nearly Every Man, Woman or Child. A short time ago we published an article recommending to our readers the new medicine, the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy have been abundantly sustained by the facts.

Dr. Price's Baking Powder. Superlative in strength and purity. Improves the flavor and adds to the healthfulness of the food.

PRICE BAKING POWDER CO CHICAGO. NOTE.—There are imitation baking powders sold cheap by many grocers. They are made from alum, a poisonous drug, which renders the food injurious to health.

CHANGED THEORY SENATOR HANGER AGREES TO ENTER DEBATE

New Circulars of Life Insurance Companies Show They Are Swinging From Heredity to Contagion

QUESTION ASSOCIATION One Company Now Asks as to Business and Private Connection With Tuberculosis Sufferers—The Majority Finally Abandon Heredity Theory

MENTION was made in The Telegram last evening that Senator W. A. Hanger would probably meet Cecil Lyon in debate on the issues raised by the latter in reference to an examination of the books of the state officials. Today it is definitely stated that Mr. Hanger will take part in the discussion as well as several other democrats, among them County Attorney O. S. Lattimore.
