

WALDECK WRITES FOR THE TELEGRAM HIS IDEA OF NEW YORK, SEE PAGE 6

FERRY BOAT SINKS IN A FOG

NEW YORK, Nov. 4.—The ferry boat Columbia of the Wall Street line was run into and sunk today by the Norwich liner, City of Lowell. There was no loss of life. There was a heavy fog on the river at the time of the collision. There were about 150 passengers and seventeen teams on board the Columbia at the time of the accident. All the passengers were taken off in safety but eight or ten horses were drowned. The City of Lowell was coming down the river and in a dense fog struck the Columbia amidship just clear of the paddle wheel. The Columbia floated around for awhile and began to settle. A hoover was thrown from the City of Lowell and the Columbia made fast and all passengers so far as known were taken on board the steamboat. Later the hoover parted in some unaccountable manner and the Columbia finally sank near one of the slips of the Union Ferry Company on the Brooklyn side. The Columbia has been making trips from Montague street, Brooklyn, to Wall street, New York, for thirty years.

SOUTHERN FOLK ARE AFTER A BIG TRACT

Dallas Man Is Leading a Number of Claimants for Valuable Property on Manhattan Island

NEW YORK, Nov. 4.—Another effort is to be made by expectant heirs to reclaim a large strip of Manhattan Island. The claimants all reside in southern states and number 150. They are headed by J. T. Cowan of Dallas, Texas, and are descendants of Andrew Hartsfield, who in 1795 leased to the city of New York 100 acres west of Centre street, between Seventy-third and One hundred and twenty-sixth streets. This property is estimated today to be worth \$500,000,000. A firm of lawyers has been retained here and several well known attorneys in the south are to assist in the effort to recover the great fortune and the heavy rentals due on the property. Cowan claims to have in his possession the original lease and scores of letters written and received by his ancestors relative to the transaction.

The land was leased for a period of ninety-nine years and a day, and for a consideration of one dollar an acre. It was to be used for municipal purposes, the original idea being to convert it into a park. Shortly after the lease was given the Hartsfield family removed to Wake county, North Carolina, and now the heirs are found in six of the southern states. Among them are several judges, one United States senator, and twenty-five or thirty wealthy men. For nearly a week search has been made, but without success, through the early records of the city to find a copy of the lease or some entry showing that it was recorded. The heirs declare, however, that this will not be necessary to their case and are now trying to procure from the state records at Albany a certified copy of the original grant from Great Britain by which the original Hartsfield became the owner of the land.

THE NEW MINISTER IS NOT IN DISGRACE

ST. PETERSBURG, Nov. 4, 1 p. m.—Emperor Nicholas officially acknowledged with a message of thanks and an expression of the high satisfaction with which he received the address of Saratoff Zemstvo, conveying the deep gratification of that body at the confidence of the new minister of the interior in the Zemstvo. The address added that Zemstvo is particularly grateful for the emperor's care for the well being of his subjects amidst anxieties and pre-occupation of war. The emperor's message completely dispels the wild rumors of Minister Saratoff's disgrace because of his liberal tendencies. The minister's health is improving.

FINAL RESULT OF THE ELECTION IN CANADA

ST. JOHNS, N. F., Nov. 4.—Complete returns from Twillingate show the election as premier of Sir Robert Bond, Surveyor General Cliff and Mr. Roberts, liberals, defeating Allan Goodridge, Donald Morrison an Frederick Mews, oppositionists. Mr. Morrison is former judge of the supreme court. He resigned two years ago to re-enter politics and advocate the union of New Foundland with Canada. Mr. Morrison is grand master of the Orange Association in New Foundland, and one of five tory leaders opposing Bond. His defeat is a signal one, because Mr. Morrison was only fifth in the polling, his colleague, Mr. Goodridge, heading him. The government now has twenty-five seats and the opposition five.

POLICE SWARM A DINING HALL TO GET WAITERS

Fashionable Place Thrown Into Uproar Because of Arrest of Those Who Were Stealing From Proprietors

NEW YORK, Nov. 4.—Several hundred after-theater diners at the Marlborough Hotel Rothkeller have been thrown into a state of excitement dangerous to good digestion by the descent of a squad of police, who blocked every exit while detectives made prisoners of half a dozen waiters charged with defrauding the management. It is stated by the latter that at least \$10,000 had been stolen when the plot was discovered. There had been a long search for the leakage in the cash. It was finally learned that the checks were being tampered with and a girl whose duty it was to mark and check the waiters' tabs was found to be implicated. In order to pick out the waiters involved, a police captain and detectives spent several hours at the restaurant tables. When they had concluded observations a signal was given and men in uniform, approaching with drawn revolvers, from the outside, blocked all the doors. The guilty waiters were panic stricken and, dropping dishes filled with food, attempted to escape. The young woman checker also was arrested and is said to have confessed having received one-seventh of the profits, of which she had saved several hundred dollars. She declared one of the men had drawn her into the plot by threatening her with a revolver. A great crowd was drawn to the scene and blocked Broadway for some time.

NEGRO CLAIMS HE WAS WHIPPED IN HIS CELL

As Soon as Judge Scott Hears the Story He Orders the Jury to Return a Verdict of Not Guilty

WACO, Texas, Nov. 5.—A sensational turn was taken yesterday afternoon during the trial of Harvey Green, a negro charged with burglary. The chief evidence against Green, it is claimed, was a confession which he made while in the calaboose, and defense claimed that Green made the confession because he was whipped by an officer and to get the officer to stop.

That Green was actually whipped for some reason was testified to by one of the police officers, and Judge Scott of the Fifty-fourth district court, turning to the jury, instructed them to bring in a verdict of not guilty, the charge being peremptory. He remarked that a trial under such conditions could go no further, and that such incidents should be frowned upon by the courts. The crowd present in the court room proceeded to applaud the judge, but he stopped this at once, saying he was only doing his duty and needed no commendation for that. Green was immediately discharged from custody. One officer said yesterday afternoon that if Green received a whipping it was because he was obstreperous on some other score and not because he was asked to confess. At any rate Green was released when it was shown that he had been whipped.

CARNEGIE HAS TROUBLE IN HIS THROAT

The Scotchman Finds Conversation Difficult and Under Advice of Physician He Remains Alone

NEW YORK, Nov. 4.—Andrew Carnegie is under the care of his physician because of a recurrence of the throat trouble from which he has suffered during the past year. The relaxation of the muscles of the throat made conversation even with members of his family unadvisable, and the directions of his acting under physician he remained alone in his rooms yesterday, seeing no one but his secretary.

A NEW STEED RELIEVES THE WARHORSE

COMMISSION INVESTIGATES THE CONSOLIDATION BILLS

AUSTIN, Texas, Nov. 4.—The railroad commission of Texas is now going over every consolidation bill ever passed in Texas, and soon a statement will be issued from that tribunal giving the opinion of the commission on the constitutionality of the bills, on the "rake off" proposition as made by former Governor Hogg and on the benefits or otherwise to Texas by reason of the consolidations. Commissioner Colquitt, it is understood, is working on the report, and as soon as he has prepared it, the entire commission will go over it and it will be given out.

The sensational part of the report is that the reason for this investigation is said to be a request made by former Governor Hogg that such a statement be prepared by the commission. Former Governor Hogg has made charges against the railroads in regard to consolidation bills and in reply to these certain railroad people have replied that no bill passed

which was unconstitutional was signed and approved by Governor Hogg himself. It appears the former governor wants the matter settled by an investigation, and he has asked that this report be prepared. It is also stated that former Governor Sayers has made a similar request on the commission. The matter is not talked generally about the capital because little information has been secured. However, The Telegram correspondent finds that such is the case.

STARTS CURRENT ON TRIAL TRIP OF TROLLEY

Electric Line Between Temple and Belton Will Be Ready for Thanksgiving Day, It Is Predicted

TEMPLE, Texas, Nov. 3.—At 2 o'clock this afternoon Engineer A. C. Kretz of the Interurban traction line gave the signal which formally started operations on the new electric traction line connecting the towns of Temple and Belton, and which is expected to materially add to the prosperity of this section of country. The trip was arranged by Mr. Kretz for the benefit of a crowd of friends to whom he desired to accord the distinction of being the first passengers on the new line. In charge of two cars that were well filled the engineer gave the signal that released the current into the wires and the first train run on the new line was in operation. The run was made to the power house at Midway, and while the track is yet to be ballasted, the party secured an excellent opportunity to judge what the future operation promises to be. The distance between Midway and Belton has not yet been laid with steel, but the operation of cars will permit work trains to run and distribute the rails where wanted in much faster time than is the case. The engineer in charge still insists that Temple and Belton can celebrate in a union Thanksgiving dinner at Midway.

JUDGE PARKER HAS RETURNED FROM TOUR

NEW YORK, Nov. 4.—Judge Parker returned to New York today from his Connecticut tour. At the union station in Hartford a large crowd gathered to bid him farewell. There were a number of receptions at the stations through which the train passed coming to New York. Judge Parker will spend the day at the Hotel Seville, receiving political friends and advisers.

WEATHER FORECAST

WASHINGTON, Nov. 4.—The weather forecast for the southwest is as follows:
Arkansas—Tonight and Saturday fair; colder tonight.
Oklahoma and Indian Territory—Tonight and Saturday fair; colder in the eastern portion tonight.
East Texas (north)—Tonight and Saturday fair.
East Texas (south)—Tonight and Saturday fair; light to fresh northerly winds on the coast.

OVER ONE MILLION IS THE DEFICIT REPORTED

President of the Colorado Fuel and Iron Company Does Not Make a Good Showing for the Past Year

DENVER, Colo., Nov. 4.—The News today says: A deficit of \$1,584,857 for the fiscal year ended June 30, 1904, is shown by the annual report of President Frank J. Hearne of the Colorado Fuel and Iron Company to the stockholders of the company. A year ago the books of the company showed a profit of \$586,112. The total fixed charges (interest on bonds and debentures) of the company are placed at \$1,199,577. The net earnings amounted to \$31,211, leaving a deficit of \$1,168,366. Other charges, such as \$45,975 sinking fund, personal injury fund, \$6,000; sociological department, \$13,533; losses on Colorado and Wyoming Railway guaranteed traffic of \$300,000 per annum, or \$251,164 net, and losses on Crystal River Railroad guaranteed traffic of \$56,000 per annum, which for last year amounted to \$22,458, make a total additional deficit of \$416,491, and bring the gross from \$1,168,366 to \$1,584,857. These losses in guarantees to the two railroads come from the labor troubles cutting off almost entirely shipments of iron and fuel.

GERMAN STUDENTS IN VERY SERIOUS RIOTS

INNESBRUCK, Austria, Nov. 4.—Rioting of students at the university here, which began yesterday, grew so serious during the night that troops with fixed bayonets marched into the midst of German demonstrators. At 2 o'clock this morning the latter were besieging and wrecking hotels occupied by Italian students. An artist named Pezzey was killed by a bayonet thrust through the heart, and many persons were wounded. The building occupied by the Italian faculty of the university was wrecked.

PATHETIC CLOSE TO HER SEARCH FOR THE BOY

After Three Years Gray-haired Grandmother Finds the One She Sought Occupies an Unmarked Grave

NEW YORK, Nov. 4.—Persistent search for her grandson, which Mrs. Julia Van Alstyne of Auburn, N. Y., has carried on unremittingly for three years through the cities and towns of three states, has ended pathetically in this city. The gray haired woman learned that the body of an unidentified suicide, buried in an unmarked grave by the city, was that of her missing grandson. She has secured an order to disinter the body and bury it at the side of the boy's mother in a little cemetery near Auburn. Three years ago the boy, then 19 years old, disappeared from the asylum for the feeble minded at Rome, where his grand mother had placed him a year before. Thousands of dollars had been spent in the search and finally, having given up hope of finding him alive, the grand mother came here and, aided by her son, canvassed all the public institutions, carrying with her a photograph of the boy. Her search was rewarded at the Bronx morgue, where the keeper recognized the picture as that of a boy who had shot himself and then taken carbolic acid in Bronx Park July 21, 1904, leaving nothing behind by which he could be identified.

A HUNDRED DROWN AT SEA

BONA, Algiers, Nov. 4.—A hundred persons were drowned last night by the sinking of the French steamer Girone, after having been in collision with the French steamer A. Schiaffino, near Herbillon, 23 miles from Bona. The Girone left Bona with 110 passengers, of whom 100 were Algerian natives.

REJECTED SUITOR PEEPS INTO THE WINDOW AT HER

He Wants a Last Look at the Girl He Loves and an Officer Takes Him to Prison for So Doing

CHICAGO, Nov. 4.—While the guests to the wedding of Miss Eleanor Green and William M. Wilson were making merry last night at the residence of the bride's father, Clinton Robinson, a former admiral, struggled with a policeman to see the bride for the last time. As a result of Robinson's efforts to look upon the young woman through a window for Hot Springs on their honeymoon. The Greens are prominent in South Side society, and the wedding in St. James church was a fashionable affair. Robinson watched the bride pair leave the church, and a short time later was arrested while peeping in the window at the Green home.

THE WAR NEWS

VICE ADMIRAL MAKES A ROUND OF CALLS

TANGIER, Nov. 4.—Vice Admiral Rojestvensky paid a round of visits this morning. He called on the commander of the British cruiser Kleber, on the commander of the British cruiser Elmer, and on Mohammed El Torres, representative at Tangier of the Sultan of Morocco. The usual salutes were fired. Mohammed El Torres returned the admiral's call at the Russian legation.

OFFICERS DO NOT UNDERSTAND SIGNALS

ST. PETERSBURG, Nov. 4, 1 p. m.—The possibility that there may have been some misunderstanding of signals during the trawler incident in the North Sea is suggested by the fact made public in an order issued by Vice Admiral Choukine, commander of the Black Sea fleet, which records the fact the officers of the latter fleet are so unfamiliar with the new system adopted by the admiralty that during recent maneuvers they did not understand or obeyed the admiral's signals.

DOGS BEING USED TO LOCATE OUTPOSTS

ST. PETERSBURG, Nov. 4.—A special dispatch from Mukden says the Japanese are using dogs to locate the positions of the Russian sentinels and outposts.

NO FORMAL REPLY TO JAPANESE PROTEST

ST. PETERSBURG, Nov. 4, 1 p. m.—While no formal reply will be made to the Japanese protest regarding the use of Chinese clothes by Russian troops, it is understood Foreign Minister Lansdorff, when the protest was presented, informally but categorically denied the truth of the charge. There had been a violation of the Geneva convention. He said there might have been some isolated cases where soldiers whose winter overcoats had not arrived had donned Chinese overcoats, but not for the purpose claimed.

BRITISH VESSELS MUST NOT GIVE COAL

LONDON, Nov. 4.—Foreign Secretary Lansdowne in a letter dated November 3 informed a British firm owning ships: "It is not permissible for British owners to charter vessels for the purpose of following the Russian fleet with coal." The letter is in reply to a direct query from a firm which drew the attention of the foreign office to the British collier Roddam, which was then lying at Vigo awaiting the arrival of the Russian squadron and asked if the British owners are entitled to charter their vessels for this purpose.

W. E. Stripling THE PRICE IS THE THING

SOME NEW THINGS AND BARGAINS

Do You Want a Purse?

Two hundred and twenty-eight of them, with leather handles. Some have a flap pocket on the outside; all have the change purse on the inside; others have a card case, too. They are worth in a regular way 75c to \$1.50, but Saturday morning we place them on sale at 50c each, and the first ones to come get the best, of course.

Handkerchiefs Will be Cheap Today

And when this store says that, you know that there will be eager buyers at the ribbon counter. Beautiful Hemstitched Handkerchiefs worth 10c for... 5c. There is no limit; lay in your winter's supply. Fine Handkerchiefs with lace borders, that you never buy for less than 15c, will be sold for... 10c. The new Handkerchiefs with Mexican drawwork effects are such close imitations of the hand-work that women have already set their stamp of approval on them. Hardly enough in this first lot to last long, but while they last, only 20c, 25c and 35c each.

A Millinery Bargain

We will place on sale Saturday close onto a hundred Hats, in dress, felt, silk and velvets. Beautiful Dress Hats that we sold at \$5.00, go at... \$3.00. Velvet Hats that we sold for \$3.50, go at... \$2.50. 50 Street Hats, in felts, silks, turbans and flats, that we have been selling at \$5.00, go at... \$3.50. Children's Hats that sold for \$1.25, go at... 98c. Children's Trimmed Hats, in French felt, go at \$2.50 and... \$3.50. Baby comes in for its share today: Baby Caps that sold for \$1.50, go at... \$1.00. Baby Caps that sold for \$1.00, go at... 75c. Baby Caps that sold for 75c, go at... 50c. Baby Caps that sold for 41c, go at... 25c. Baby Caps that sold for 35c, go at... 20c. New Tourist Caps... 50c.

Shoes That Bring the Crowd

Many people are under the impression that good shoes cannot be sold cheap, but this store is demonstrating every day that good shoes can be sold for little profit in a store where no credit is given. Price brings the people to our store; the values given, hold the trade. We offer today prices that should again fill our shoe room. We have a new shoe for ladies—fashion's latest creation—a patent colt, in a button, with Cuban heel—a good \$4.00 shoe in some stores; here for... \$3.50. Ladies' Tans, in the new rich colorings for winter wear; blucher and welts, \$2.00, \$2.50 and... \$3.00. If you want a heavy extension sole—a good winter shoe, with plenty of wear in it, a C. S. or Cuban heel, we have it for... \$2.00. Misses' fair-stitch, heavy sole for wear—a patent leather tip or tip of the same leather, of box calf or vici kid (guaranteed to be the best sole leather), a wonderful bargain for \$1.75; our price... \$1.75.

Boys' School Shoes

The best that can be made, and we say it and believe it, and we guarantee them, \$1.35 and... \$1.50. Children's Button and Lace Shoes, white top; reds, tans and black; 50c, 75c and... \$1.00.

Saturday Hose Specials

Saturday is a day we bring out our Hose bargains. Tomorrow we offer bargains in fleece-lined Hose. An extra double sole, high spliced heel, silk finish, heavy fleeced; two pairs for... 25c. Our 20c special extra heavy fleece—the fashioned foot and heavy sole—a regular 25c Hose; specially priced at... 20c. The Imperial fleece lined Hose that sells for 35c, we sell over our counter for... 25c. Boys' and Misses' extra long, stainless and an extra elastic—that you will appreciate; 15c a pair, or 2 pairs for... 25c. The Bicycle 25c Hose, extra heavy ribbed; Saturday goes at 20c. Misses' and Boys' 15c Hose, we will sell 3 pairs for... 25c.

A Good Union Suit

When we first advertised the "Royal" Union Suits, they went slow. Now it is different—a little boom has started that seems as if it were going to be hard to supply the demand. The adjustable bust and the fullness around the hips speak of comfort, and they are only, per suit... 50c.

\$3.50 Skirt Bargains Priced at \$2.50

We have a hundred Skirts, tailored cloth, trimmed with straps and buttons, seven rows of stitching around the bottom; in gray mannish cloth, worth \$3.50; to be placed on sale Saturday at... \$2.50. Children's Cloaks, \$1.75, \$2.50, \$3.00, \$5.00 up to... \$10.00. Women's Flannelette Gowns, 50c to... \$1.50.

Golf Gloves at a Bargain

A dealer had a lot—some were fine samples, all kinds and styles. He offered us a third off to close them out. We give you tomorrow: 75c Lisle and Silk Gloves for... 50c. 65c Lisle Gloves for... 40c. Scotch plaids and fancy weaves, worth 25c and 35c, for... 20c.

DECEMBER PATTERNS—Patterns you can now rest assured of winter style, with a Peerless Pattern to go by; only 5c and 10c each.

DATE IS FIXED

Big Cotton Sale Will Be Held Here November 6, That Day Having Been Named by the Farmers' Union

BIGGEST OF THE SEASON

Many Hundred Bales Will Be Offered, But Light Sales Having Been Made to Meet Urgent Necessities—Farmers Holding Bulk of Supply

C. W. Woodman this morning received a letter from President McMeans of the Tarrant County Farmers' Union, stating that November 16 had been fixed upon as the date for the big cotton sale which was to have been held in this city October 26, but which was postponed because of the rainy weather. Although slight offerings like that passing through this city yesterday have been sold by some members of the unions to meet present needs, the bulk of the cotton has been held by all the farmers and the sale promises to be the largest ever held in this city.

Merchants in the city are taking a live interest in the sale, which will turn thousands of dollars loose here, and declare that it is up to the cotton men and the city at large to treat the farmers in such a way that the city may regain its old prestige as a cotton market. The original site and arrangements for the sale of October 26 will be observed and notice of the date will likely be given by the Board of Trade today. President McMeans in his communication states that the movement is making great strides among the farmers in this county and that by the time of the regular meeting in January there will be a local organized at every school house in Tarrant county.

WORKMAN HURT AT Y. M. C. A.

Negro Injured as the Work of Razing Old Structure Is Almost Completed

While engaged in the razing of the Y. M. C. A. building this morning, D. C. Thompson of 1106 East Tenth street, a colored man, about 40 years of age, was caught by the falling of the heavy doorway of the old structure, which broke his left leg and also one of the small bones in his wrist. Practically all the walls of the building had been razed and the thick doorway supported by a small portion of the wall was alone standing. In attempting to move this it got beyond the control of the men, toppling over and falling upon the negro. His limb was placed in a temporary splint by Dr. Miller and his other injuries given temporary dressing, after which he was moved in the ambulance to St. Joseph's infirmary. He was reported resting easily this afternoon.

TWO YEARS IS THE SENTENCE PETERS IS TO SERVE

Story of Case Which Commenced by Arrest of the Man in This City Some Time Ago on Serious Charge

WACO, Texas, Nov. 4.—The turn taken in the case of Melvin Peters, alias Frank McIntyre, yesterday, disposed of one of the most remarkable cases on the dockets of the courts here in some time. Peters will serve two years in the penitentiary on a plea of guilty in a case of false swearing whereby he secured money from the International and Great Northern Railway Company on a representation that he had been injured by that road's trains, and another similar charge was dismissed, as were two cases charging him with swindling in the same connection. Peters was arrested in Fort Worth and his examining trial created quite a stir here in Waco. He was bound over to await the action of the grand jury and several indictments against him were returned. He appeared yesterday and pleaded guilty as above stated in one of the cases and the others were dismissed.

REPORTS FROM PORT ARTHUR CHEFOO, Nov. 4, 9:30 p. m.—The Chinese who left Port Dalry yesterday evening report batches of wounded passing through Dalry. They report also that during the recent battle fresh Japanese troops were constantly going to the front. It is reported that the Japanese killed or wounded in front of Port Arthur during the last three months approximate 40,000. There are persistent rumors that the Japanese have occupied forts on Ethung mountain and that certain forts on the Keekwan mountain group have also been captured, but well informed Japanese here consider the rumors premature. These Japanese, however, are confident that the end of Russian occupation of Port Arthur is fast approaching.

The next chapter of the story occurred at LaGrange, Texas, in October, 1903, when Frank McIntyre was injured in a similar manner while in the employ of the Missouri, Kansas and Texas railroad. The railroad company allowed him \$2,750 in settlement. In August at Mart, Texas, a man giving his name as Melvin Peters was injured

while in the employ of the International and Great Northern. Dr. G. W. Jameson of Palestine examined the man, who claimed that his spine was injured as a result of the fall. Dr. Jameson did not notice at this time the similarity between the present case and the one in April, 1902, at Palestine. Peters was allowed \$500 and soon afterward disappeared. The fact also that he was willing to accept the small sum of \$500 in consideration of the extent of his injuries set the International and Great Northern authorities and Dr. Jameson to thinking. Referring to the case of Frank McIntyre in April, 1902, who was injured in the same way a link was established. H. G. McCauley, general claim agent for the Katy at Dallas, was conferred with and another chain of evidence was established between the three cases—two in the name of Frank McIntyre and the last in the name of Melvin Peters. After leaving Mart Peters went to Fort Worth, where he was arrested and brought to Waco on the charge of swindling. Sheriff Baker having made the arrest. While at Fort Worth he made the following statement concerning his case: "I am from Minnesota. I came to Texas a month ago and secured employment with the International and Great Northern railroad as a brakeman. Two weeks ago, while on top of a box car, I was knocked off in some manner and struck on my back, partially paralyzing me. This occurred at a little town called Italy, midway between Italy and Waco. Since that time I have been unable to walk and am compelled to use crutches. "The International company proposed a compromise and offered me \$500 cash if I would sign a release not to hold the company liable any further. I accepted the money, believing that the matter was amicably settled. I have done nothing criminal and hope to be able to prove it. "The company had three physicians to examine my injuries, which they did, and pronounced me badly hurt. The superintendent and other officials of the company assisted me on the train at Waco last night and my wife and I came on to Fort Worth. You know the rest."

JOHN SNYDER, JR., LOSES A PURSE LAST NIGHT

He Walked From Worth Hotel to Union Station and It Evidently Dropped From His Pocket on the Journey

Two hundred and eighty dollars in a black wallet was the find made by some one last night on Main street between the Worth Hotel and the Union Station, that amount having been lost by John Snyder, Jr., of Tyler in the above locality. The loser is a commercial traveler and the money lost represents collections made by him. As he went directly from the hotel to the station the purse must have either been dropped by him on the way or secured by a pickpocket. As no steps were made the matter is considered improbable, the difficulty of robbing a man in this way while he is walking being increased a hundred fold. An effort is being made to ascertain the finder, but up until this afternoon without success.

TOM RICHARDSON HERE BOOSTING EXPOSITION

Tom Richardson of Portland, Ore., formerly of Texas and New Orleans, and one of the best known promoters of enterprises in the country, is in the city in the interest of the Lewis and Clark Exposition, which begins at Portland next June 1 and closes October 15. Mr. Richardson states that not less than 10,000 people are expected to attend the exposition from Texas alone. From Portland it is planned that all visitors who desire can make interesting side trips into California, Idaho and Washington. The exposition, he says, will be on a grand scale and the exhibits and arrangements.

THIRTY YEARS' WAR

Peace Declared When Right Food Was Adopted. The right food will make a man's body over completely and cure the old ailments. A Danish man went through an experience showing that right food is. "For 30 years I had been troubled with my stomach so bad at times it made me desperately sick. I had to take pills and medicine all the time which made my stomach very weak and headaches and other ailments made life almost unendurable. Three years ago I had an attack of pain over my heart so bad my wife kept hot poultices for two nights. Took a lot more medicine and finally got so bad I could eat nothing, at least I could eat it but would throw it up again in a few minutes. I tried several doctors but got worse all the time and had to be taken home from the store at different times. I was so sick and dizzy I could not walk a step. "I tell you I know what it is to have a weak stomach and the strong medicines simply made matters worse. I kept on getting weaker and poor all the time. Living much of the time on a little toast and warm milk until I wasted away so that all the clerks in my store expected me to die. I tried everything in the way of diet without any success until two years ago when I decided to give Grape-Nuts ten days' trial. "So I started with two teaspoonfuls of Grape-Nuts and cream three times a day, increasing to three teaspoonfuls, then to four, and from the very first day I commenced to improve, gaining in weight all the time as well as strength. From that time it was nothing but progress with me for all the old ailments disappeared. I got entirely well and now weigh 190 pounds and feel as young as I did thirty years ago. "The change in my nerves and brain is wonderful because my memory was very bad before. I was so nervous that I had to keep the children still all the time, but when brain and nerves as well as stomach got exactly the nourishment they needed from Grape-Nuts they built up strong and healthy. All of my family eat Grape-Nuts now and the children are well and remarkably sturdy on it. We eat six boxes of it every week. Name given by Postum Co., Battle Creek, Mich. Look for each bag for the famous little book, "The Road to Wellville."

NO RALLY TO BE HELD HERE IS DECISION

Campaign Committee Has Been Unable to Get Outside Speakers for the Affair and It Is Abandoned

There will be no rally Saturday night. This decision was reached by the campaign committee last evening after a conference between Chairman W. R. Parker, Senator W. A. Hanger and William Capps, county chairman. This conclusion was decided on after thorough efforts to procure prominent speakers from the outside and failing. Governor Lanham was wired by the committee yesterday, but that official advised that it would be impossible for him to be in Fort Worth Saturday night. Other leading democrats in the state were communicated with, but they, like the governor, had previous engagements and were unable to accept the Fort Worth invitation. After considering the situation the committee, deeming that it had made an honest attempt to secure prominent speakers, and failing, concluded that it would be wise to make no attempt to hold a rally, and called the speaking off. This announcement is definite and is authorized after a conference between Messrs. Parker, Hanger and Capps. Judge Parker stated this morning that it was the opinion of the campaign committee that if the rally was held there would be very few people out, judging from the lack of interest that has been shown in the campaign all along.

Some REAL Clothing Bargains for Saturday

- Boys' Knee Pants 25c
Boys' Suits from \$1.00 to \$5.00

McKAY, General Passenger Agent, Terrell Texas.

FOUR CHILDREN IS THE LIMIT HE SUGGESTS

Scientist Believes That Quarter Ought to Be Born to Each Married Pair in This Country

LINCOLN, Neb., Nov. 4.—Dr. E. A. Ross, professor of sociology at the University of Nebraska, in a lecture in this city entered a vigorous protest against the growing tendency in the United States toward the rearing of small families. It was Dr. Ross who coined the phrase "race suicide," making first use of it in delivering the annual address before the American Academy of Political and Social Science, which met in Philadelphia in 1901. In his lecture he said: "Unless the point of view is changed, and things are valued at their true worth, it is quite possible that the births among those climbing the social ladder will not balance the deaths, so that every body who emerges from the mass and begins to climb in a professional or social way will move toward race extinction. "Roughly speaking, every married pair able to have children should average four; of whom one will fail to grow up, one fail to marry, and two take the place of the parents. The classes that content themselves with one, two or three children doom themselves to extinction. "Child-bearing must be presented not as an obligation, but as an ideal. If mar-

ried people can be brought to feel that children are the most precious of possessions, that, in a way, their honor is bound up with the rearing of a family, the malady of race suicide can be cured."

DIVIDES HIS TIME WITH TWO WHO ARE WIVES

Lineman Is Accused of Women With Being a Bigamist, and Says He Spent Part of Night With Each

COLUMBUS, Ohio, Nov. 4.—Mrs. William L. Painter, No. 2, whose maiden name was Carrie A. Oreams of 329 West Chapel street; Mrs. William L. Painter No. 3, who was Edith May Kipp, daughter of Leonard Kipp, who lived near Mount Carmel Cemetery, until one week ago, obtained a warrant for the arrest of the man they claim as husband. The women say that he has been married to each of them within the last year and a half, and that he has been dividing his time for the past week, living the first part of the night with one, his new wife, and spending the rest of the night with No. 2. He worked for the Columbus Railway and Light Company as lineman. Not only do they say that he is a bigamist, but that they know of another wife who is now living in Portsmouth, and whose maiden name was Zimmerman. They say they did not learn of Painter's alleged duplicity until Wife No. 2 met her husband with Wife No. 3 in a store buying goods for her.

WHITE LABEL PURE LEAF LARD THE FAVORITE BRAND OF ALL TRY IT! DISCRIMINATING HOUSEKEEPERS Armour & Co., NORTH FORT WORTH, TEXAS.

GOVERNOR GOES TO GET ORPHANS NOW PRES. SCOTT, Ariz., Nov. 4.—Attorney General Wells of Arizona received a private letter from Phoenix stating Governor Brodie has quietly left there for Clifton and Morenci under orders of President Roosevelt to gather up forty orphans recently taken away from the Sisters of Mercy and prepare at once to return them to New York. Since the Sisters were forced a few weeks ago to give up the children to Clifton and Morenci white people, they have taken the matter before the president. They allege a majority of the forty orphans are now in the custody of disreputable persons. The orphans were brought from New York to be placed with Mexican families. They were taken by force from the Mexicans by whites, the latter threatening to lynch the agent of the Sisters. The governor is said to fear trouble when he tries to take the children, and has instructed Captain Rynning of the Arizona rangers at Douglas to be ready to quell any possible disturbance. REPORTS FROM PORT ARTHUR CHEFOO, Nov. 4, 9:30 p. m.—The Chinese who left Port Dalry yesterday evening report batches of wounded passing through Dalry. They report also that during the recent battle fresh Japanese troops were constantly going to the front. It is reported that the Japanese killed or wounded in front of Port Arthur during the last three months approximate 40,000. There are persistent rumors that the Japanese have occupied forts on Ethung mountain and that certain forts on the Keekwan mountain group have also been captured, but well informed Japanese here consider the rumors premature. These Japanese, however, are confident that the end of Russian occupation of Port Arthur is fast approaching.

Market Quotations

NORTH FORT WORTH, Nov. 4.—Receipts of cattle moderated some today, about fifty shipments arrived and total receipts figured close around 2,200 head.
 Offerings of steers were light and mostly of common to medium grades. There was an active outlet to both packer and feeder buyers and selling ruled steady with yesterday.
 Butcher stock supplies were fully enough to supply all requirements of the trade and though there was no very urgent demand, cattle moved freely and selling ruled about steady with yesterday. A few cows and heifers were good enough to land at a range of from \$2.00 to \$2.25, but the bulk went at a range of from \$1.50 to \$2.00.
 Bulls sold freely, going mostly to feeders and speculators at prices that were fully steady with yesterday, the bulk going at a range of from \$1.75 to \$2.00.
 There was very little demand for calves and salesmen were a long time making a clearance of the few in sales going mostly at a range of from \$2.00 to \$2.50.
 Hog receipts with eleven loads in amounted to close around 800 head. The quality was common to medium and from the start packers were bidding lower. The general trade ruled generally 5 to 10 cents lower, with pigs quoted fully 15 cents lower than the closing yesterday.

ROSEN WANTS TO PUT A TRACK ON THROCKMORTON

He Will Ask the City Council Tonight to Allow Him to Change Route of His Line Through the City

This morning and afternoon a petition has been circulated by friends of the Rosen Heights street railroad, asking that the property holders along Throckmorton street from Fourth to Eighth streets agree to a petition to ask the city council permission to lay their tracks and operate cars on Throckmorton street to their meeting tonight to grant the company permission to lay their tracks and operate cars on Throckmorton street to Eighth and there turn the corner at the Telegram building and crossing Houston and Main streets, enter Rusk at the intersection of Eighth street, and thence down Rusk to the Texas and Pacific depot as planned.

Many have requested that this change be made, as it would benefit many more people and give them the car service which they have desired. The petition with favor wherever presented and was readily signed. No doubt the council will permit the change to be made at tonight's session, as some time ago when the company asked for a franchise to come into Fort Worth this street was selected, but the directors of the company deemed Rusk street was the better route to be used.

SCHOOL BOARD REFUSES TO PAY IT

Teacher Resigns and Does Not Give Fifteen Days' Notice and Salary Is Withheld as a Consequence

Did the city school board by its action yesterday evening in depriving a resigned teacher of fifteen days pay because of their rule requiring that length of notice of resignation, involve itself in serious difficulty? Is the question now worrying the city officials.
 Mrs. Eunice Randle, formerly a teacher in the Ninth ward school, resigned her position on October 17 to accept a more remunerative one in the Dallas postoffice. The woman, who is a widow with several children, sought to secure full pay for the time she actually taught and a motion to allow this pay was made by Trustee Sprinkle, being defeated, however, for lack of a second to the motion, the sense of the board being that the rule regarding notice be strictly enforced.

One of the leading lawyers of the city this morning declared that such action was fundamentally wrong and that under the laws of Texas the teacher was entitled to payment of the salary taught in the schools of the city. Mrs. Randle, it is understood, will push the case and unless a settlement can be made and unless a settlement of some sort is expected, the rule will receive a verdict in the courts.
 Mrs. Randle yesterday Miss Sophia C. Beer the regular substitute next in line to succeed Mrs. Randle in the schools here. The approval of the pay roll and allowance of bills were the only other matters taken up at the meeting, which will probably be in lieu of the regular one next Monday.

OF INTEREST TO THE STOCKMEN

TEXAS CATTLE DISPLAY

A part of the Texas cattle display which is to be shown at the World's Fair left here last night for St. Louis. Only a part of the Texas shipment of show cattle were started last night. Other consignments are to go in a few days. The Texas stock sanitary commission is a complete set of show cattle from this state, making a total of some fifty or more cars.
 Those who started for St. Louis last night were Green & Co. of Gregory, two cars of shorthorns; David Harrell of Liberty Hill, one car of shorthorns; J. P. Hovenkamp of Fort Worth, two cars of shorthorns; Lee Bros. of San Angelo, one car of Hereford steers and one car of graded range steers; M. Sanson Jr. of Fort Worth, one car of fat steers; H. M. Hoxie of Taylor, one car of fat steers; J. O. Herrell of San Antonio, two cars of Jerseys; W. A. Ponder of Denton, one car of Jerseys; Mrs. H. M. King of Kingsville, two cars of range steers; and John Lovelady of Colorado City, one car of graded Hereford calves.

THE OKLAHOMA SEASON

The open season in Oklahoma began Nov. 1 and will continue until Jan. 1, during which time there may be an interstate movement of cattle provided they are properly inspected. The territory guards the territorial lines; the government the federal lines.
 Secretary Tom Morris of the Oklahoma Live Stock sanitary commission is anticipating a great movement of cattle. Last year, he says, the movement into Oklahoma from Texas and other southern states was small and will not be greater this year. He believes there is plenty of feed in Texas and that, therefore, it will not be necessary to bring cattle northward to winter. Mr. Morris also believes there is plenty of forage and roughness in Oklahoma, and this will prevent any northward movement to any great extent from this territory.

BRIBES COUNCILMEN ON TELEPHONE BILL

NEW YORK, Nov. 4.—A body identified as that of E. J. Maloney, formerly of Scranton, Pa., has been found in Long Island Sound. It is supposed Maloney jumped from a steamer passing up the sound a few nights since.
 Recently he had been in the employ of a telephone company in New Jersey and his death brought to light the fact of his alleged connection a few years ago with the bribery scandal which came to light in the Scranton city council.
 Maloney occupied a responsible position with a telephone company and when bribery charges were made in connection with attempts to block ordinances granting another company privileges, Maloney was accused of handling large sums paid to members of the council. He was indicted but fled and became a wanderer. Later he was found in Chicago and taken to an asylum for the insane, from which he was discharged some time ago.

NO PROHIBITION OF SALES OF THE BIBLE

CONSTANTINOPLE, Nov. 4.—The porte has not prohibited the American Bible Society from carrying on its work in Turkey. There has been slight friction in four towns in the provinces where local authorities forbade street sales of the society's literature and arrested vendors and seized their books. Upon representation made by the Insane, from which the liberation of persons arrested and the return of books taken from them.

WANT TICKY CATTLE

The inauguration of the dipping plan, by which cattle from below the line can enter into active competition with those above the line, is resulting in a considerable demand for Southern cattle. In fact, many buyers are wanting to see ticks on the cattle at the time they are purchased. This sentiment is well reflected in the following expression from J. A. Hughes of Grayson county:
 "We have lost several head of cattle lately, with what we believe was Texas, splenic or tick fever, but none during the cold wet spell referred to. Don't think that had anything more to do with losses in Denton county than any other unfavorable circumstance would have done."
 "All we lost were free from ticks, but had just been put with other lots of ticks. Several farmers around here have lost cattle—some all they had, and in every instance it has been those free from ticks that were exposed to ticky cattle. It appears that some sections are free from ticks and others have them abundantly, and the two not far apart. Where cattle are free from ticks and do not get with herds that have them, we hear of no losses. Have not heard of any ticky cattle being sent to treatment seems to do no good with this fever. We doctored ours very carefully under directions of a veterinarian, but only one out of thirteen recovered, and we think now that this one was not really infected."

SEPTEMBER STOCK EXPORTS

Exports of cattle in September numbered 49,549 head, valued at \$3,076,941, against 41,341 ticky, valued at \$2,874,020 in September, 1903.
 For the nine months ending September, cattle exports were:
 1904 \$31,518,337
 1903 27,512,467
 1902 18,037,223
 In 1904 exports number 468,414; in 1903, 391,966, and in 1902, 249,813. Exports of sheep in September, 1904, were 24,389, valued at 160,328, against 16,070, valued at \$89,954 a year ago, and in 1903, valued at \$271,541 were exported in September, against 2,694, valued at \$166,948 a year ago.

CATTLEMAN'S RETURN PASSES

Owing to the extensive manipulation of return passes for stockmen, a meeting of passenger officials has been held in Chicago to devise means of reducing, if not doing away with the evil. It was practically decided to recommend to the executive officials a radical reform in the method of handling such passes. Now stockmen are permitted to return to their homes after their tickets have been validated by the stock yards agents of the railroads and reissued in the main office. It is now proposed to compel the stockmen to purchase a return ticket which will be stamped good for a refund providing certain conditions are observed. Upon the stockmen's return home the money will be refunded, provided the conditions have been observed.

The Telegram absolutely guarantees a much larger daily circulation in the city of Fort Worth and surrounding territory than any other daily newspaper printed.

THE LAND QUESTION

Complaint is made that, in certain counties, along and north of the western extension of the line of the Texas and Pacific railroad, the large cattle raisers are preventing homesteaders from acquiring land to the extent and in the manner contemplated by the constitution and land laws of the state. These prospective homesteaders seem to be of two classes—one composed of men who desire to secure holdings for the purpose of embarking in the cattle business on a small scale, and the other of bonus-hunters and speculators who wish to get possession of land and then force the large cattle raisers to buy it from them at a good profit. The land in dispute is now held by the large cattle raisers under leases from the state. If they could have their way, the leases would be renewed. That being denied, they are making efforts to protect their holdings by schemes that, if successful, will result in their finally obtaining fee-simple titles to the land. During the past year, a bill for retraction of a different land policy from that now in vogue was pursued, and grazing lands in Southwest Texas, and other parts of the state, were bought in large bodies by cattlemen at one dollar per acre, and no complaint was heard.

The course Land Commissioner Terrell has adopted, of putting such a maximum price on land that will come on the market by the expiration of leases as will preclude their sale, will preserve the status quo until the Twenty-ninth legislature meets. That body will probably pass some such law as the Murray bill, that was introduced and came very near enactment last session. Such a law will, at least, serve as a tub thrown to the popular whale, and may possibly pacify that animal, but it is more than doubtful whether it, or any other statute, will accomplish the end theoretically had in view. The following trunks have been demonstrated by an unbroken series of experiences in the history of land appropriation since the days of Abraham First. The large cattle raiser will always crowd out the sheep raiser and small cattle raiser. Second, Land suitable for farming purposes can not be held permanently for cattle raising, and the cowman will certainly be dispossessed of it in due time by the man of the plow.

If the land in question is only fit for grazing, the big cattlemen will probably come out in force, and under the Murray bill, that was introduced last session, they will certainly be dispossessed of it in due time by the man of the plow.

One of the greatest troubles with the railroads of Texas is that when they do a service for the people they insist it must be done on a valuation of about \$40,000 per mile, and when the people ask the railroads to stand for their just proportion of the cost of government they insist that it must be done on a basis of about \$3,000 per mile. If a railway must charge the people a freight rate that will enable them to earn good interest on a valuation of \$40,000 per mile, then the property should be valued the same way for purposes of taxation.

Mrs. M. J. Gildersleeve of New York, secretary of a leading women's organization, in a public speech in Delaware the other day, said: "Mormonism is the greatest peril threatening this country today. The Mormon church is a political organization hiding under the cloak of the church. If twenty-four hours before an election the vote of the state is to be changed, President Smith gives out the edict. The republican party of this country has made a trade with the Mormon party. The compact is that if Reed Smoot is allowed to retain his seat in the United States senate, the states of Wyoming, Utah and Idaho are to be delivered to the republicans."

William F. Ellis, the Texas negro who was accompanying F. Kent Loomis on a diplomatic mission to Abyssinia when Loomis was drowned, has returned from his mission and says he fared well at the hands of King Menelik. According to his statements, he was given an exclusive concession to develop all the diamond mines in that country, together with 200,000 acres of land to experiment on with cotton, and will establish a big bank with which to control Abyssinian finances. Ellis is well known in Texas, having been prominent in republican councils for some time, and was sent on his diplomatic mission by President Roosevelt.

Mrs. Langtry, the famous English beauty, is now living in retirement in semi-poverty. The triumphs of her earlier days have passed away, and bitterness has taken the place of the fleeting joys that once filled her butterfly life. Such is usually the end that comes to such an existence, and the faded Lily has nothing to cheer her now but the memory of what she once was when she turned the heads of half the world and the adulation of princes was laid at her dainty feet.

per acre. Knowledge of this fact reaching the ears of the officials at Austin, there was a determined effort made to raise the lease price of the state's land to the same basis, and as a result of the state's determination to take advantage of the cattlemen's necessities, thousands of acres under lease were surrendered on account of the inability of the lessees to comply with the new requirements. Much of this land has been thrown on the commons by the removal of the fences that enclosed it while it was under lease, and it is being grazed without money and without price.

The development of this feature of the situation has afforded the authorities at Austin opportunity to say that the cattlemen are taking advantage of the situation to beat the state out of the revenue she is entitled to from the use and occupancy of the land, when as a matter of fact the state is responsible for the condition of affairs herself, as it was induced by her own efforts of extortion, and at a time when the great cattle industry was laboring under the heaviest burden that has ever been placed upon it. The cattlemen want nothing at the hands of the state that they are unwilling to pay for. In what they have done out west they have simply tried to make the best they could of a bad situation, and the inspiration in almost every instance has been to only obtain time to adjust their affairs to fit the new order or status that has been developed through the state's mistaken land policy.

On such of the land the cattlemen have erected and constructed valuable improvements, and it is but natural in the final adjustment of the situation they should seek to protect those investments in every legitimate manner possible, and this is what has given rise to the assumption that they are trying to hog the universe. The general land office at Austin is far too prone to listen to the whisperings of some interest with an ax to grind in its consideration of the land problem in west Texas, and there is a consequent lack of justice in dealing with the cattlemen. These men are entitled to fair and just treatment for what they have done in developing that section. They are not engaged in any effort to retard settlement and development, and the action of the land commissioner in arbitrarily raising both the sale and lease price of the land is doing the state more injury than the cattlemen.

The crying need of the hour with reference to land matters in West Texas is a firm and stable policy that will result in vesting titles in purchaser, that will enable the lands to be sold without indulging in the land rushes developed under the present law. A policy that will recognize the cattlemen as having some right to exist in that section, and that will further result in selling all the land and retiring the state from the land business. Let's have a decent land law that will mean what it says, and then sell the land under its provisions.

One of the greatest troubles with the railroads of Texas is that when they do a service for the people they insist it must be done on a valuation of about \$40,000 per mile, and when the people ask the railroads to stand for their just proportion of the cost of government they insist that it must be done on a basis of about \$3,000 per mile. If a railway must charge the people a freight rate that will enable them to earn good interest on a valuation of \$40,000 per mile, then the property should be valued the same way for purposes of taxation.

Mrs. M. J. Gildersleeve of New York, secretary of a leading women's organization, in a public speech in Delaware the other day, said: "Mormonism is the greatest peril threatening this country today. The Mormon church is a political organization hiding under the cloak of the church. If twenty-four hours before an election the vote of the state is to be changed, President Smith gives out the edict. The republican party of this country has made a trade with the Mormon party. The compact is that if Reed Smoot is allowed to retain his seat in the United States senate, the states of Wyoming, Utah and Idaho are to be delivered to the republicans."

William F. Ellis, the Texas negro who was accompanying F. Kent Loomis on a diplomatic mission to Abyssinia when Loomis was drowned, has returned from his mission and says he fared well at the hands of King Menelik. According to his statements, he was given an exclusive concession to develop all the diamond mines in that country, together with 200,000 acres of land to experiment on with cotton, and will establish a big bank with which to control Abyssinian finances. Ellis is well known in Texas, having been prominent in republican councils for some time, and was sent on his diplomatic mission by President Roosevelt.

Mrs. Langtry, the famous English beauty, is now living in retirement in semi-poverty. The triumphs of her earlier days have passed away, and bitterness has taken the place of the fleeting joys that once filled her butterfly life. Such is usually the end that comes to such an existence, and the faded Lily has nothing to cheer her now but the memory of what she once was when she turned the heads of half the world and the adulation of princes was laid at her dainty feet.

Governor Hogz says he is opposed to the repeal of the occupation tax, but that fact will not prevent the people who are bearing this burden from laboring for its abrogation. It is a relic of reconstruction days that is out of place in this progressive time.

Gleanings From the ...Exchanges...

"The production of oil at Spindle Top has dwindled to about 4,000 barrels a day," says the Lake Charles American, "and yet the people of the north generally do not know the name of a single southern oil field except Beaumont. And why should they? Does any town hereabouts desire to share with Beaumont the reputation it has with the people of the north—Beaumont Journal.

People can say what they please about the Beaumont oil field now, but it was a stem-winder at one time, and attracted the attention of the civilized world.

The awful slaughter at the Far East has only let up long enough to allow the combatants to get more ammunition to the front and to repair their wastes in order to make a more terrible onslaught upon each other. Death is reaping a harvest there that should keep him fat for a month of festivity by which time it is to be hoped his appetite will be sated and the horrible struggle for Manchuria ended. There is nothing in sight now to tell who will finally win, but the advantage is with the Japs if with either. —Orange Tribune.

The whole civilized world is aghast over the horrors of the Manchurian campaign, where blood has truly flowed as water, but that fact does not put a stop to the fighting. Russia is inflamed by the lust of greed, and the Japanese believe they are fighting for their very existence. There seems nothing else to do but fight until both combatants are satisfied to desist.

The Lantern intimates that Hon. C. K. Bell will make the race for governor on a platform that the trusts should be destroyed. Really, Mr. E. G. Senter is developing into a rare humorist. They do say at Austin that General Bell wouldn't know a trust if he met one in the public road. —Dallas Times-Herald.

No danger of Judge Bell meeting a trust in the public road. They have monopolized the entire right of way and the common people have to take to the bush.

Ex-Governor James Stephen Hogz made a speech at Lampasas Saturday in which he praised Judge Parker as a great and good man, and praised his speeches as having the truest ring of any he has ever read. He was very complimentary in regard to Judge Parker's anti-trust utterances. That's right, governor—shake! —Denison Herald.

The esteemed Herald is to be congratulated on having arrived at one point in its career where it can stop and shake hands with the big ex-governor.

A Missourian who swallowed a five-dollar gold piece forty years ago has just coughed up the money. Counting what he has lost in the way of interest on the investment, he would have to have a regular consumptive's cough to get even. —Austin Statesman.

If the Missouri grafter had known this man had a \$5 gold piece thus concealed within his person they would have devised some method to make him cough it up long years ago.

Fears are expressed in railroad circles of a crusade against them in the legislature this winter. This impression is gaining ground in the minds of press circles also, judging from the utterances of some of the papers. There is no one object to proper regulation of the carrying companies, but to single them out as victims for some special smashing tactics is not only unnecessary, but it would be positively hurtful. The present state laws bear sufficiently hard upon the railroads that they will not be legislated under the spur of ambitious office seekers, endeavoring to make capital for the future, adding more burdens and handicapping the companies now doing business in the state. A legislature with liberal ideas will not do this. —San Antonio Light.

If there is an impending crusade against the railroads in Texas they only have themselves to blame for the situation. When they began to manifest a pernicious activity in political affairs they but invited the storm of wrath that may be launched upon them.

A New York hitisroom who weighs 160 pounds is suffering this somewhat unpleasant experience of being carried away from home every few days by a 220-pound negro who claims he is her common-law husband. If his bride is wise, she will tell her lawyer to sue the man. Then she won't want him. —San Antonio Gazette.

Any white man who will place himself in that kind of attitude is not worth having. In fact, he is too contemptible to be allowed to carry sausage casing to a pet bear. He is not worth even a passing thought.

Secretary Morton, in his eulogy of President Roosevelt in the Independent, insists that his chief earnestly believes that "no man is above the law and no man below the law." How about the 439 unimpeached lawbreaking trusts and the unpunished postoffice rascals? —Austin Tribune.

That's dead easy. They are simply standing in with the law as it is administered by the national administration.

"Under the best of circumstances a colony is in a false position. But if the colony is in a region where the colonizing race has to do the work by means of other inferior races, the condition is much worse." Is that Judge Parker or a democratic orator assailing the administration? Oh, no; that is just historian Theodore Roosevelt answering President Theodore Roosevelt. —Houston Chronicle.

THE YELLOW HOLLY

BY FERGUS HUME, AUTHOR OF "THE MYSTERY OF A HANSOM CAB," ETC. Copyright, 1903, by G. W. Dillingham Co.

SYNOPSIS.

George Brendon attends social gathering of shabby London gentility at Mrs. Jersey's boarding house, with his friend Leonard Train, a boarder in the house. His object is to learn from Mrs. Jersey her supposed knowledge of his birth. Mrs. Jersey is mysteriously murdered during the night. Twigs of yellow holly which Brendon wore in his buttonhole (given him by his sweetheart Dorothy Ward) found by Train, beside cold body. Inquest reveals nothing. Train and Brendon had slept together and though Train can not reason out how Brendon had passed out of the room during the night (because Train had locked the door in a way that Brendon could not get out) he suspects Brendon guilty of the murder. Dorothy's mother, who hates Brendon and looks on his suit for Dorothy's hand with disfavor, speaks of yellow holly in Brendon's presence. Brendon claims he is grandson and heir to Lord Derrington, but the latter denies claims because of belief that Brendon's mother's marriage had never been recorded with crime. Lola, former London actress, who is a music hall dancer, loves Brendon because of service performed for her. Lola learns of Brendon's love for Dorothy and confesses that she has hired a detective, Bawdsey, to watch Brendon, because she, Lola, fears Brendon's success in proving his birth will draw him from her. At a dinner party given by Mrs. Ward, Derrington meets Brendon for first time, the latter thinking the former knows him not. Train is present and while Brendon and Derrington are talking each other Mrs. Ward draws Train's story of the night of murder and Train's conclusion of Brendon's guilt and the story of finding of yellow holly at side of body. Train insists on a pretext. Lola, who is now satisfied, goes to the hostess good night. Bawdsey goes to board with Miss Bull, who succeeded Mrs. Jersey as landlady. He secures rooms Leonard and Brendon occupied on a pretext. Tells Brendon details of travel and adventure to Miss Bull. She likes him and shows him courties. At housey requests Brendon to visit him at house. Brendon comes. Dismisses Mrs. Ward, Lord Derrington, Dorothy and Leonard. Tells Brendon he is apt to be arrested charged with crime, having the tract ring of any he has ever read. He was very complimentary in regard to Judge Parker's anti-trust utterances. That's right, governor—shake! —Denison Herald.

The detective tells Brendon how Mrs. Ward got information and also accuses him of crime. A passage way is discovered. There is a discussion by the two to Lord Derrington with results. Two meet in wordy combat. Brendon convinces Derrington that he is as smart as himself. Both admit being in the house on the night of the crime. Derrington advises Brendon and decides to make him his heir. The old lord advises Mrs. Ward to talk less. Dorothy, Vane and Mrs. Ward go to see dancing of the Spanish woman. A discussion when Lord Derrington joins the party arose as to who sent the yellow holly. Dorothy dreams of Lola and goes early to the park where she sees her. Lola makes demands of the other. They are refused. Lola then disappears. Bawdsey catches up with her. The search is in vain. Brendon wants Bawdsey to tell who killed his father. He is referred to Roger Ireland. The crime in San Remo is connected with the murder of Mrs. Jersey. Mrs. Ward goes to see Lord Derrington. Dorothy waits in brougham outside. Meets Brendon who had gone to see Derrington. The two drive in the park. Lola is dismissed. In meantime the lord and Mrs. Ward enter the marriage of Dorothy to Vane. The two fall out in the discussion and each advises the other to hold their tongues and each promises the other to tell who they know of the whole affair. Looks like the two had made for themselves a pretty mess. (Continued from Yesterday.)

CHAPTER XIX.

AS GEORGE stepped out of the front door he came face to face with Bawdsey, who was mounting the steps. The man seemed excited and carried a carelessly folded newspaper which he had apparently been reading. "I didn't expect to see you here," he said, with a certain degree of roughness. "I did not know that this house was interdicted to me," replied Brendon sharply. "I am glad to meet you, however, as I wish to have a few words."

"I am too busy to give you any time," retorted Bawdsey, and tried to enter the house. "Nevertheless you will give me a quarter of an hour," said George, blocking the doorway with his stalwart form. "What I have to say cannot be left until a more convenient period."

"I tell you I am busy, Mr. Brendon." "And I tell you that I intend to have this interview," rejoined Brendon imperiously. "You talk a great deal about gratitude, Bawdsey, yet you are unwilling to put yourself out for me in the least degree." Bawdsey became pensive at once. "It is true, Mr. Brendon, but I am very worried." He cast a glance at the newspaper in his hand. "However, you have first call upon my time."

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains, and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully, according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful, I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, MRS. MAY FAIRBANKS, 216 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest salaried travelling saleswomen in the West.)

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

"DEAR MRS. PINKHAM:—For over two years I suffered more than tongue can express with kidney and bladder trouble. My physician pronounced my trouble catarrh of the bladder, caused by displacement of the womb. I had a frequent desire to urinate, and it was very painful, and lumps of blood would pass with the urine. Also had backache very often. After writing to you, and receiving your reply to my letter, I followed your advice, and feel that you and Lydia E. Pinkham's Vegetable Compound have cured me. The medicine drew my womb into its proper place, and then I was well. I never feel any pain now, and can do my household work with ease." —MRS. ALICE LAMON, Kincaid, Miss.

No other medicine for female ills in the world has received such widespread and unqualified endorsement. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass. \$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

objection with a display of his fingers—"that's all right; I will explain. No, Mr. Brendon; why I wished Lord Derrington to be silent was that I might carry out my plans so as to learn who killed Mrs. Jersey." "Then you are looking after the case?" "On behalf of Lord Derrington. He has an idea that the assassin became possessed of a confession which Mrs. Jersey left behind her."

"How do you know she left it?" "Because I knew Mrs. Jersey very well, and as I told you long since, I was once a boarder here. One day she let slip that she had some one in her power, and would leave the evidence of that power behind her so that her niece might benefit. I told this to Lord Derrington. He insisted that I should try to discover the assassin so as to get that confession, which compromises him, back again. To spur me on he has promised me a reward of a thousand pounds should I obtain the confession and the conviction of the assassin. As I want money to marry Lola, I am doing my best. I came to live here for that purpose. Lord Derrington talking of my visit to the house on the night of the crime would have jeopardized my plans, therefore I was obliged—as you say—to threaten him so as to make him keep silent. So far, do you blame me, Mr. Brendon?"

"No," replied George, after some thought, "the end justifies the means. But you might have adopted less rascally means." "I have not adopted any. I have not asked Lord Derrington for money, so I am not a blackmailer; nor do I intend to claim from him anything but what is justly mine." "And what is justly yours, if you please?" "The reward of \$1,000 for the discovery of the assassin." "Oh! Have you learned who killed her?" "Not yet, but I may learn. At present I confess I am in fault." George pondered a little. So far Bawdsey spoke frankly enough, but he could not help mistrusting him. However, since the man was in the telling "Oh"—Bawdsey slipped away that

WEATHER FORECAST

The weather for tonight and tomorrow is to be fair. It is to be the rest of the Indian summer period. How long it will last none can tell. From the present indications the month of November is to be anything but a stormy month after all. The sky today was clear and the air had just enough crispness to it to make the early risers stir about with some life and energy. It has become evident that it will not be necessary for those who are desirous to spend the winter months at some health resort with a mild climate to leave Fort Worth at the present time.

The weather here is all one could ask for at this time, but how long it will

AMUSEMENTS

Greenwall Opera House

Tonight, W. E. Nankeville's great melodramatic triumph, "HUMAN HEARTS". An idol of the Arkansas Hills. The Acme of dramatic realism. No advance in prices.

continue is a matter that not even the weather man can tell.

FORECAST
The forecast for Texas east of the one hundredth meridian, issued at New Orleans, is as follows:
East Texas—Tonight and Saturday, fair.

WEATHER CONDITIONS
D. S. Landis issued the following statement of weather conditions this morning:
The "low" of the southeast in yesterday's chart has moved eastward, but rain continues to fall in Tennessee and Georgia, extending northward into Illinois. The area of high pressure noted in the middle west twenty-four hours ago has moved southward, giving lower temperatures along the Mississippi valley.

An area of low pressure with higher temperatures is following the western "high," just entering over the north-west Pacific coast.
The country west of the Mississippi is clear and cool in general, and east of the river generally cloudy and rainy conditions prevail.

Texas is generally clear, without rain. A dry thunder storm was reported at Abilene. Temperatures will remain practically unchanged for the next twenty-four hours.

WEATHER RECORD
Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rain in inches:

Stations—	Temperature	Rain	Min.	Max.	Wind.	fall.

D. S. LANDIS, Official in Charge

FILES AN ASSIGNMENT
DENTON, Texas, Nov. 4.—Ross McCormick, druggist, filed an assignment here yesterday, naming G. W. Saunders as trustee. A list of the liabilities and assets was not on file with the petition and Mr. Saunders, the trustee, told a Telegram reporter that he did not know the exact amount of either. A report will be filed later.

The Aztec operated bellows for the forges in the old Mexican copper mines by opening them with the hands and pushing them together with feet.

AN APPEAL FOR AID MADE FOR NEW INSTITUTION

White People of Montgomery County Endorse Colored Industrial School Which Has Been Established

The Telegram has been requested to publish the following:

To the White People of Texas and of the South:
The colored people of this (Montgomery) county, under the wise and cautious management of Rev. James Johnson, and Professor D. Porter, have built an industrial college for the salvation of their race at this place—"The Conroe-Porter Industrial College." They have eight acres of land paid for, one four-story building with twenty-three rooms, and two more buildings, and lumber enough on the ground to erect another commodious building. The school is non-sectarian, and has forty boarding students, and about one hundred other students. The scholars are taught:

1. The science and art of politeness.
2. How to obey law, and respect public sentiment.
3. How to resist temptation and be virtuous.
4. That idleness is sin—all labor is honorable.
5. That a good character is the greatest wealth.
6. That the white people in the south are the negroes' best friends.
7. That Christianity means love and service.

We, the undersigned white men, who are the advisory board of this school, and have plenary powers in the disbursement of all moneys collected for the school, have helped the management of the school with our counsel, and money, and will continue to do so; and since the manner in which the school is taught meets our hearty approval, we have agreed to help them erect a fire-proof brick building, 100x60 and four stories high, and dedicate it to the memory of the faithful and obedient slaves of their master's families during the war between the states, 1861 to 1865. The following words will be placed over the main entrance to the building.

"HALL OF FAITHFULNESS."
"This building has been erected by the southerners, and lovers of faithfulness; to commemorate the faithful and obedient service of the negro slaves to their master's families during the war between the states, 1861 to 1865, and stands as a witness, that faithfulness in politics and obedient service is the highest, and best life."

And we, the undersigned white men, who compose the advisory board who live at Conroe, and who have the custody, and expenditure of all money belonging to the school, have this day approved the appointment of J. B. Rayner of Calvert, Texas, financial agent for the school, and do hereby authorize him to travel and collect money for the helping to erect this building and all money given him will be honestly accounted for.

Respectfully submitted,
D. C. THOMP,
J. WAHRENBERGER,
J. F. COLLIER,
C. W. NUGENT,
Conroe, Texas, Oct. 22, 1904.

The above is a copy of an address given me when I was appointed financial agent for the school. I shall visit the cities and towns in Texas, and solicit help from the white people, and best class of my own race. This school must be made to Texas what Tuskegee is to Alabama. I will report to the public daily through the public press the names of all donors, and amounts given. The school right now needs \$2,000 to better prepare the present students for the winter, and to make more room for the new scholars who are coming in daily.

We appeal to southern generosity and southern gratitude for help. Make all checks and drafts payable to Conroe-Porter Industrial College. Address me at Calvert, Texas.

J. B. RAYNER,
Financial Agent, Conroe-Porter Industrial College.

(The gentlemen who sign the above endorsement are not known in this office, but the sentiment expressed by them is one which appeals to fair-minded people, and if there are those who desire to help ascertain more in detail of the institution which is appealing for aid. The Telegram publishes the appeal upon the request made.—Editor Telegram.)

The Doctor's Verdict: Death in Thirty Days.

The Doctors Told Mr. Frank Kellar, of Rock Island, Ill., He Was in Last Stages of Bright's Disease and Could Not Possibly Live a Month Longer. But

Warner's Safe Cure Completely Cured Him in Sixty Days.

Such a thing as a cure of Bright's Disease or Diabetes was practically unknown until Warner discovered his celebrated "Safe Cure" thirty-five years ago. Since then hundreds of thousands of cases have been cured and are living testimonials to the success of this wonderful medicine in curing all manner of kidney troubles.

"I was in the last stages of Bright's Disease," says Mr. Kellar, "suffering intense agony, and was those who desire to help ascertain more in detail of the institution which is appealing for aid. The Telegram publishes the appeal upon the request made.—Editor Telegram.)"

"I was in the last stages of Bright's Disease, and I'd die in a month. But on the advice of a friend I began taking Warner's Safe Cure. I felt better from the first, and am rejoiced to tell you that in two months I was completely cured, and for over a year now have had no recurrence of the trouble. My general health was never better. I owe my life to your great medicine, and in justice to my fellow beings, want every man, woman and child to know they can be healed." 711 12th St., Rock Island, Ill., Aug. 12, 1904

The subtle and treacherous nature of kidney disease is such that nine victims out of ten do not realize they are afflicted until the last stages have been reached. Dull, grinding pains in the back, side or head; rheumatic twinges and swellings; loss of energy and appetite; sleeplessness; inflammation of the urinary organs; painful and too frequent passing of the water; female troubles, all indicate that your kidneys have been badly affected for months. If there is any doubt in your mind about your condition

MAKE THIS UNFAILING TEST AT HOME. Pour a little morning urine in a bottle or glass and let it stand 24 hours. If a sediment forms, or it's cloudy, or contains floating particles, your kidneys are in serious shape and need immediate treatment with Warner's Safe Cure, which destroys the disease germs, strengthens the weakened and clogged organs and gives new life and activity to every part of the body. Price, 50c and \$1 a bottle, at all druggists, or direct.

Our doctors have successfully treated thousands of cases in all parts of the world by mail. Their advice and literature are free. Write to Warner's Safe Cure Co., Rochester, N. Y. Correspondence is always confidential.

WARNER'S SAFE PILLS MOVE THE BOWELS GENTLY AND AID A SPEEDY CURE.

Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of **Hood's Sarsaparilla**

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see as well as ever." SUSAN A. HARRIS, Withers N. C.

Hood's Sarsaparilla promises to cure and keep the promise.

NEW LIQUOR LAW MEETING FAVOR IN STATE

Organizer Husted Has Returned From South Texas With Good Reports of the Measure's Reception

Len Husted, national organizer of the Bartenders' Alliance, has returned to this city after an extended trip through South Texas in which section of the country he reports the proposed new liquor law, the provisions of which were first published in The Telegram, is meeting with great favor.

It is not only the antis that are declaring themselves in favor of the bill, but also the prohibitionists, who recognize in it the best means of defeating the objectionable features of the saloons.

A heavy majority is expected for the bill in the house and little difficulty is expected to be encountered in securing its passage through the upper chamber. The new law in reality only contains the provisions of the existing regulations, presenting them in such a way and with such plain penalties as to assure their observance. Thus the members of the legislature will have to vote for the measure to prove consistency.

A number of legislators have offered to stand sponsor for the bill. No decision as to the introduction of the measure has yet been made, however, and all questions of locality, strength, etc., will be considered in the matter. From this city Organizer Husted will go to West Texas in the interest of the bill, going from El Paso directly to San Francisco to attend the convention of the American Federation of Labor.

TRAFFIC THROUGH CANALS
SAULT STE MARIE, Mich., Nov. 4.—Superintendent Ripley of St. Mary's Falls Canal today completed the figures showing the traffic through the American and Canadian canals for the month of October. They show an increase for the month over October 1903, of 2,997,254 tons, the figures for 1903 east and west bound combined being 4,475,965 tons and for 1904, 5,573,509 tons. This breaks the record for freight tons passing through the canals in a single month, the next highest being August, 1902, when 5,402,808 tons passed through the canals.

FORGED CLEVELAND'S NAME
PHILADELPHIA, Nov. 4.—Charles Hilstrom has pleaded guilty to forging the name of ex-President Cleveland to a check for a small sum. His arrest occurred several weeks ago.

A letter from the ex-president was read, stating that the prisoner had been in his employ as a coachman for a year and a half, during which time he had always been honest. The ex-coachman was given six months in the county prison.

LIVELY FIGHTS IN CITY WARDS FOR POSITIONS

Several of the Former Committee Defeated in the Primaries Held Last Night—New Organization

Some lively local fights were disclosed in the ward meetings of last night, but three of the city committeemen being returned to their places on the committee without opposition. So hot was the opposition in some wards that three of the old committeemen failed of re-election, being forced to count in their opponents at the meeting of the old committee held to canvass the results.

In the Sixth ward the fight was so close that McLean was elected over his opponent by the bare margin of two votes and in the Eighth ward Erwin defeated Captain Head by three ballots.

The season had been declared open on all scalps and stimulated by the hot city marshaling fight, the hunters were out for business. Of the remaining members of the old committee in wards whose contests were had Dr. Chambers of the Third ward scored the most complete victory, having a clear margin of twenty-three votes over his contestant, Fred Haberzette. The heaviest majority scored was that of Joe Leahy over J. H. Wood by a vote of forty-six to nine.

Local politicians have scarcely yet gathered themselves together for a study of the situation as found after the smoke had cleared away and no definite ideas as to the effect of the Rea-Maddox contest can be gathered. The various candidates, although probably pledged secretly, have remained singularly reticent on the question.

Buck Harding's ambition on the city secretaryship was not weakened by his victory in his ward and it is probable the showing of strength made by him may have a direct effect upon the situation. A determined, although quiet, fight had been instituted against him and his victory shows that he has at least come through the preliminaries with flying colors. City Secretary Montgomery, however, still retains his influence in local politics and will not be found tamely submitting to any efforts to oust him from the minute reading position, and the fight which will be settled on the question of political exigencies will prove a hot one. To the non-political citizen the Harding claim of "long enough at the trough" is set off by the efficiency gained in long service and the most active of Mr. Montgomery's opponents do not question the skill and ability by him in the office. All questions of real merit, therefore, being evenly balanced, the exigency of the situation may be expected to govern.

A summary of last night's results is: First Ward—Joe Leahy, elected over W. C. Smith.

Second Ward—B. M. Harding, elected over W. C. Smith.

Third Ward—Dr. R. Chambers, elected over Fred Haberzette.

Fourth Ward—S. T. Bibb, no opposition.

Fifth Ward—Joe Poythress, elected over J. B. Gray.

Sixth Ward—W. P. McLean, Jr., elected over William Mayfield.

Seventh Ward—H. L. Calhoun, no opposition.

Eighth Ward—R. M. Erwin, elected over O. W. Head.

Ninth Ward—C. T. Prewett, no opposition.

Judge Prewett was selected chairman of the new committee, S. T. Bibb, vice chairman, and H. L. Calhoun, secretary.

The new committee will meet next Monday afternoon at 5 o'clock to arrange for the primary election, which is to be held soon.

WEDDINGS

THERREL-WHITNEY

E. L. Therrel and Mrs. Inez Whitney were married in this city yesterday evening at the parsonage of the First Baptist church by the pastor, Rev. Luther Little. Mr. and Mrs. Therrel will live in this city.

LUSTY CLAIMING, BUT NEW YORK NOW LOOKS SAFE FOR ROOSEVELT

THE TWO CANDIDATES FOR GOVERNOR OF NEW YORK OVER WHOSE ELECTION THE FIGHT IS HOTTEST.

(Written for The Telegram by Jacob Wald-deck.) Staff Correspondent of the Newspaper Enterprise Association. NEW YORK, Nov. 1.—New York being a big state, is naturally the subject of lusty claims.

THE ROOT OF THE MATTER

He Cured Himself of Serious Stomach Trouble by Getting Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax.

In his own words he says: "I consulted one physician after another and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor.

Available figures show that in the twenty years between 1881 and 1900 there were 27,793 strikes, which cost the country in wages, expenses and direct loss of trade the enormous sum of \$396,769,392.

There is a loss of almost half a billion dollars figured from three items only—that is, loss of wages, assistance, or money advanced to strikers by their sympathizers, and loss to employers.

QUICK ARREST. J. A. Guldage of Verbena, Ala., was twice in the hospital from a severe case of piles, causing twenty-four tumors.

by many people. This year its investigation makes the amazing showing of 182,022 plurality for Parker in Greater New York. Editorially the Eagle expresses the opinion that a tidal wave has set in for the democrats and that Parker will be elected.

Only a few weeks ago it appeared that there was almost no chance for the election of Higgins, republican, to the governorship. His connection with Odell and the many charges made against the latter weighed heavily on the state ticket.

Whether the calm condition of the business world is a reflection of republican sentiment, however, is a matter of good deal of discussion. Excellent judges say that business men are contented and prices are upheld because no important economic questions are involved in the election.

Outwardly New York City gives more sign that a presidential contest is going on than any other city in the country. That is due to the custom here of waving huge banners and American flags across the streets in political campaigns.

There has been in this city an absence of the parades that marked the last two presidential campaigns. The managers have considered it more profitable to devote their energies to other schemes.

There has been in this city an absence of the parades that marked the last two presidential campaigns. The managers have considered it more profitable to devote their energies to other schemes.

A PROBLEM SOLVED

A Discovery That Will Be of Benefit to Thousands of People

There is no doubt about the value of Vinol, this new form of cod liver oil, concerning which so much has been said lately. It is just another one of those great developments that is bound to revolutionize a certain branch of science.

We refer to the discovery made by those two great French chemists, Mourguis and Gaugier, of a process by which the medicinal curative elements known to exist in the cod's liver can be separated from the oil so that the good part of that famous old remedy, cod liver oil, can be recovered for the benefit of the sick, and all the useless oil and grease can be gotten rid of.

Thus they produce a delicious and doubly potent remedy out of a very objectionable one. It has revolutionized the cod liver oil trade, for who wants to take a nauseating, oily dose of cod liver oil or emulsion when the same benefits can be obtained from Vinol, which is as delicious to the taste as a fresh orange?

Vinol is simply cod liver oil in a new form—cod liver oil without oil, paradoxical as it may seem—absolutely made from fresh cod livers, and the finest of the cod fish, for young and old known to medicine, and is different from any preparation that can possibly be made by any one else. R. A. Anderson, druggist.

to California are run over the Union Pacific via Omaha 14 hours quicker to San Francisco than any other line.

ENTERTAINING PROGRAM AT MULKEY MEMORIAL

Probably the most interesting musical program heard in this city this season was that given at the Mulkey Memorial church last night under the auspices of Polytechnic College.

One result of the plating in service of the Twentieth Century Limited, the New York Central's twenty-hour train between New York and Chicago, is to bring not only Chicago but the entire west-northwest 200 miles nearer New York.

The Jingle Contest inaugurated by Ellison Furniture Company, closed yesterday afternoon and Miss Lorene Newman, aged 13 years, of 808 Maddox avenue, was the winner.

The Ellison Furniture and Carpet Company offered a Junior Buck's Range to any little girl under 14 years of age.

A STARTLING TEST To save a life Dr. T. G. Merritt of North Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes: "A patient was attacked with violent hemorrhages, caused by ulceration of the stomach."

TEMPLE, Texas, Nov. 2.—From all indications farmers are unimpaired by the low level reached in cotton prices and are still holding for 10 cents or better.

A BIT OF COSSACK TACTICS THAT TORE UP A JAP COLUMN

Consequently they have kept themselves in the hills while the plains were yet suitable for horse exercise, and have descended to the flats only when the rains had rendered them impossible for cavalry.

The Japanese in their most hazardous cavalry reconnaissance have marched a company of infantry along with the squadrons of horse. The Russians have used their Cossacks under Rennenkampf, and Mistsereko, and Samsonoff, more particularly for raiding purposes than for proper work of cavalry.

THE LOWER PICTURE SHOWS A DETACHMENT OF COSSACK RIFLEMEN. THE TOP PICTURE, PHOTOGRAPHED BY DOUGLAS STORY IN MANCHURIA, SHOWS A SQUAD OF THE FIERCE LANCER COSSACKS OF WESTERN SIBERIA.

THE PILLS THAT CURE PARTIAL PARALYSIS

Dr. Williams' Pink Pills for Pale People

Mr. John Magann, 6 Chestnut St., Boston, Mass., a well-known manufacturer, says: "I suffered a heavy stroke of paralysis two years ago. A second one followed, of still greater severity, and I could barely drag myself around. The necessary exertion caused me the most intense pain. Nothing gave me any relief until I tried

After using six boxes of these pills I could walk with a cane and when I had taken eight boxes I was completely cured. No sufferer from any nervous trouble can afford to neglect this remedy.

den to him, a constant drain upon his commissariat. What the Russians need is more guns and better guns.

It was in the last weeks of May, when the Japanese were establishing themselves on the peninsula of Liao Tung, north of Port Arthur, that the Cossacks found their opportunity.

The Cossacks disposed of themselves according to the manner of their people, in a line of sections, each section consisting of thirty men, the distance between the sections being thirty yards.

It was in the last weeks of May, when the Japanese were establishing themselves on the peninsula of Liao Tung, north of Port Arthur, that the Cossacks found their opportunity.

It was in the last weeks of May, when the Japanese were establishing themselves on the peninsula of Liao Tung, north of Port Arthur, that the Cossacks found their opportunity.

ing in two great horns to envelop the Japanese, the center dividing into half sections and wheeling into the two lines of attack. The moment the center was cleared the battery poured in a shower of shrapnel, the Cossacks, lance at rest, charged upon the Japanese from both flanks, the battery ceased fire, and the Cossacks, having penetrated the forces of the enemy, about-faced, and a second time swept the field, yelling their tribal slogans. The field cleared, the battery completed the rout of the Japanese, the Cossacks pursuing them up to the ranks of their supports.

MONNIG'S

1302-1304-1306 MAIN STREET

Captain Heston will never don the mole-skins again after the close of this season. He has had enough football.

Next year will find the great Michigan halfback coaching at some big school. He would like to succeed Booth at Nebraska if the latter decides to quit.

Heston has offers from the Pacific coast but says that he would rather stay in the middle west where his surroundings would be more congenial than in the far west.

If Heston keeps up the pace he set in the game against Wisconsin Saturday this season will be his greatest. Twice during the second half of the Michigan-Badger game Captain Heston broke through the entire field and ran sixty-five yards for touchdowns.

After the contest was over the Wisconsin rooters claimed that their team hadn't been defeated by Michigan, but by Heston, and when asked the score they answered, Heston 23, Wisconsin 0.

The football season of 1904 will go down in gridiron history as one of surprises and sensations. Championship aspirations have been shattered by disastrous reverses. Defeats have been followed with record-breaking scores.

In spite of all this two elevens stand out ahead of all others above the rest, and the season is scarcely half over. Michigan in the west is again in a class by herself, and many of the critics who saw the game at Madison say Yost has collected a greater team of stars this year than has yet represented the Wolverine Institution.

Pennsylvania in the east has the call on the other big teams. The Quakers have defeated Columbia, Brown and Harvard, and have a clean record, while Yale has been defeated by West Point, a team that the Crimson was able to win from by a score of 4 to 0. Princeton has come down before the "Middies," who were defeated by a team Saturday-Swarthmore—that the Quakers won from a couple of weeks ago.

In a roundabout way Penn has practically won the championship, although she may strike a snag in either Lafayette or Cornell, two teams she has yet to meet.

Michigan's hold on the western leadership is not as strong as that of Penn in east, but those who saw Yost's men plough through the strong Wisconsin eleven are convinced that the Wolverines will finish the season with Chicago on Nov. 12 with an overwhelming victory.

Should Chicago beat Michigan the Maroons would have no real claim on the title, as Illinois would share it with them. However, this not only seems improbable, but impossible. Yost has just decided on the way his men will line up for the remainder of the season and he will spare no effort to make the eleven the greatest that ever lined up in the west the day the teams meet on Marshall field.

Yost has a line that outweighs anything that ever stepped on the gridiron, the Minnesota aggregation of 1900 not excepted. From tackle to tackle the Michigan men average 216 pounds. The average weight of the five men will pass the half-ton mark by almost 100 pounds.

With this aggregation Yost would defeat the Minnesota eleven this year by almost as big a score as he did Wisconsin. And it can be safely said that unless the Gophers improve 50 per cent Wisconsin will defeat them at Minneapolis Nov. 12.

A SURE THING
It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdsport, W. V., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Matt S. Blanton & Co., Reeves' Pharmacy and W. J. Fisher, druggists. Trial bottles free. Regular size 50c and \$1.

A. A. Patterson vs. Harrison Mutual Beneficent Association.

VITAL STATISTICS
The following births were recorded today by the county clerk:
To Mr. and Mrs. E. Harris of Fort Worth, a girl; to Mr. and Mrs. Ben Bullard of Fort Worth, a girl.
No deaths were reported today.

COURT TEMPORARILY ADJOURNS
Out of respect for the memory of the death of little Rube Conner, son of Judge T. H. Conner, chief justice of the court of civil appeals, which occurred yesterday, the above court stood adjourned from 10:30 this morning until Friday morning at 9 o'clock.

RAILROAD NEWS

The switching of Gray & Hammond of the Chicago and Eastern Illinois and Frisco systems, as acknowledged from the circulars recently issued, showing the exchange of their offices was made officially in New York yesterday at the meeting of the directors of the Rock Island, Des Moines, Peoria and Bureau Valley and Frisco.

The announcement of changes effected at this meeting is as follows: Robert Mather, who was elected president of the Rock Island board last month, resigned as first vice president of the road and was succeeded by R. A. Jackson, heretofore the general attorney. The other officials were re-elected.

D. G. Reid succeeded L. F. Loree as a director of the Keokuk and Des Moines Railway, of which Robert Mather was elected president, and D. G. Reid, vice president. Robert Mather was elected vice president of the Peoria and Bureau Valley in place of L. F. Loree, all other officials being re-elected. C. S. Gray was chosen second vice president of the Frisco system, and R. B. Hammond, who was recently given charge of traffic on the Chicago and Eastern Illinois.

RIPLEY'S TRIP
President Ripley of the Santa Fe, with his party of officials, a list of whom was published in The Telegram and which reached this city last night about 10 o'clock over the Frisco, and after remaining here until 2 a. m. left over the Denver for the north.

Information beyond the fact that the trip was the usual one of inspection was given out by the party during their stay in this city.

F. T. RENNIE HERE
Commercial Agent F. T. Rennie of the Mallory line of steamers out of the port of Galveston is in this city this morning, looking after the interests of that line in the freight business.

Steamship lines both out of Galveston and New Orleans are feeling the effects of the holding of cotton on the part of the agricultural interests and the usual strain at this portion of the year in getting the fleecy staple to the northern mill is not whitening the hair of the steamship men.

The holding does not seem to be confined to Texas alone, the sections exporting through New Orleans seeming to be affected in the same way.

EXCURSION RATES
Circulars have been issued by the Rock Island announcing the following rates: To Waco November 8 on account of the Baptist general convention, to Houston November 14 to 20 for the State Federation of Women's Clubs and the Daughters of the American Revolution, to Mineral Wells November 15 to 22 because of the Northwest conference, to Galveston November 22 to 28 for the Frisco conference, and to Bonham, November 25 for the North Texas conference.

Holiday excursion rates to southeastern points are also announced on December 22 and 26 at one fare plus \$2, tickets being good for return within thirty days.

BROWNSVILLE ROAD EXTENSION
Samuel Lazarus of St. Louis, who is connected with the St. Louis, Brownsville and Mexico road, was here this week on his way to South Texas in the interest of the extension of that line toward Houston and Galveston.

During the past few days there has been a report that the line intended by Lazarus to run on its way to Galveston, but the generally accepted theory here is that the road will reach both points if it is extended at all.

It is said here that Mr. Lazarus is at Houston and Galveston for the purpose of arranging for terminals for the road in which he is interested, although when asked regarding this he refused to make any statement that would indicate his purpose in visiting South Texas.

Railroad men here do not believe that the road can afford to miss Houston, as that place is considered one of the greatest market points of concentration in Texas—especially for cotton.

Both Houston and Galveston are on the anxious seat as to the future of the Brownsville road as it relates to an extension. That the line will eventually be built to Galveston there is no doubt.

WORK ON THE ORIENT
E. M. Poole, E. T. Bots, R. H. Smith and R. W. Armstrong, locating engineers of the Kansas City, Mexico and Orient Railroad, have left Kansas City en route to the west coast of Mexico, where they will direct the work of the company.

Both Houston and Galveston are on the anxious seat as to the future of the Brownsville road as it relates to an extension. That the line will eventually be built to Galveston there is no doubt.

IS EFFECTIVE TODAY
After this no passenger will be required to procure a health certificate before entering this country from Mexico, as the quarantine imposed by Texas against infected points in the republic and points where yellow fever was epidemic last year, was raised.

The quarantine was imposed early last spring. At first it was operative against the entire republic, but was afterward modified, but not modified to the extent that the work was stopped for passengers from the republic into this state to have a certificate stating that he had not been in one of the quarantined points within five days.

The railroads of Mexico have suffered considerably on account of the restriction which has been on travel from the republic for nearly a year, and they rejoice along with the traveling public that the embargo has been raised.

THE MATAMOROS BRANCH
One hundred and thirty-five kilometers of the Matamoros-Matamoros branch of the National have been completed and will be subjected to governmental inspection during the next few days. If the report of the inspector is received favorably by the Mexican government that part of the National system will soon be placed in service.

The branch would have been placed in

commission before this had the rain damages not been so severe as to necessitate repairs. This work now having been completed and the rainy season just about at an end, insures the early operation of the road.

SPEYER'S VISIT TO REPUBLIC
The business which took James B. Speyer and party to the City of Mexico was not to negotiate another loan of \$20,000,000, but to complete the old \$46,000,000 bond deal that his firm recently negotiated for the Mexican government.

The business which took James B. Speyer and party to the City of Mexico was not to negotiate another loan of \$20,000,000, but to complete the old \$46,000,000 bond deal that his firm recently negotiated for the Mexican government.

FARMERS BECOMING INTERESTED
The farmers and stockmen in the vicinity of Laredo, are becoming very much interested in the projected Polk road from San Antonio to Rio Grande City.

So remarkable has become the demand for wool in the Boston wool market that many traders have been driven to seek the clip in the Argentine republic.

SHEEP WITHOUT WOOL
The department of agriculture has recently imported five woolless sheep—four ewes and a buck—for use in extreme southern states.

NOTES AND PERSONALS
Vice President Keeler of the Denver road returned from St. Louis shortly before noon today.

PANHANDLE STEERS SOLD
Oscar Smith of Amarillo has been here all this week attending to the delivery of a string of 2 and 3-year-old steers which he has just sold at private terms to D. H. Swearingen of Quanah.

MANY CATTLE DIED
The report in Enterprise a few days ago detailing how a large number of cattle had been lost in the western and northern parts of the country on account of the severe rain and cold is being copied in newspapers all over the country.

LIQUIDATION IN PROGRESS
"Early in this season it looked as if the liquidation process in range cattle might be wound up this year," said Thos B. Tomb of the Lake Tomb Cattle company.

NEW MEXICO MOVEMENT
Seven to eight thousand head of steers will be shipped from Riverside stock yards commencing today.

TOO LATE TO CLASSIFY
STRAKE OR STOLEN—Black horse, about 15 hands high, white specks on head and over body, shod all around; may have brand, do not remember; 10 or 12 years old. Left my home in North Fort Worth, Lincoln avenue, Thursday night. Address information to Speer Printing Company, 210 Houston street, phone 35.

WANTED—A good bright lady stenographer; must have experience and be rapid; one that will demonstrate in retail stores when not doing office work. A rare chance for the right party; a strictly high grade line and a reliable house. State salary expected and late references. Address N. R. J., this office.

LOST—On Jackson street, between Taylor street and city hall, one set of plans for residence of Mr. Gossett. M. L. Walker, architect. Return to Crouch Hardware Company for reward.

culminate the example of the corn-belt feeder and buy our raw material in bed rock prices or let it alone. All we are trying to accomplish this year is to market our aged stuff, especially the natives, as they get coarse. We have sent 7-year-old southern cattle from our range to Chicago this year and are glad to be rid of them. Speculators are pretty well cleaned up and the genuine range man will hence an easier row so far as grass is concerned until another soft boom comes along.—Breeder's Gazette.

EXPECTS SCOTCH VERDICT
An official of one of the departments of the Federal government at Washington was in Chicago this week looking into market conditions and forecast the result of the investigation of live stock and meat trade conditions ordered by congress last March, the so-called "beef trust" probing. This has been delayed by the packing house strike, but is now in the completion stage, the final act being an inventory of the books of the big packing concerns at which experts of the department of commerce and labor are now busy. Said this official: "It will be a Scotch verdict. No evidence has been secured by the investigators that will justify the assertion that a combination exists. Some circumstantial evidence has been developed it is true, but no witness has been found who will vouch for anything. The result of the investigation will probably give satisfaction to none of the parties interested. It will be voluminous and will throw considerable light on the past, present and prospective conditions of the live stock trade, however."

CARNEGIE IS RE-ELECTED
EDINBURGH, Nov. 4.—Andrew Carnegie has been unanimously re-elected rector of St. Andrew's University. The announcement was received with loud applause and singing. "He's a Jolly Good Fellow."

The Swiss military authorities are about to adopt khaki for soldiers' uniforms.

Actual photograph of the Baldwin airship, taken while the aeronaut, Roy Knabenshue of Toledo, O., was driving north ship over the Administration building, Exposition Park, St. Louis, October 25. On November 2 the airship es-

ing right on the heels of warm and pleasant weather, was more than the physical condition of the stock could withstand and death by congestion of the breathing apparatus was the result.

The fatality was in fearful ratio in some quarters, one man reporting forty-six deaths in a herd of fifty. Another reports fourteen out of twenty dead and many report larger numbers, though a less ratio.—Cleburne Enterprise.

IN SOUTH TEXAS
M. B. Irwin of St. Joseph, talking to the San Antonio Express, said: "South Texas is all right. I was out at the yards yesterday. The range cattle exhibit up the work begun early last spring when congress ordered an investigation of livestock conditions as affected by the development of the slaughtering industry. This task would have been concluded two months ago but for the interruption caused by the strike."

SOLD HEREFORD CATTLE
An important cattle deal was made a few days since. Mr. W. J. Morton of Dallas purchased 100 head of blooded Herefords from Mr. J. E. McAllister. Mr. Morton will drive them across country to his Moore county ranch.—Channing Courier.

SHORTAGE IN WOOL
So remarkable has become the demand for wool in the Boston wool market that many traders have been driven to seek the clip in the Argentine republic.

SHEEP WITHOUT WOOL
The department of agriculture has recently imported five woolless sheep—four ewes and a buck—for use in extreme southern states.

PREDICTS HIGHER BEEF
Higher beef seems to be inevitable, says the National Provisioner. A closer scrutiny of the situation by careful buyers discloses the fact that there is a decided scarcity of prime, corned meats at the sources of supply.

J. F. ZURN, General Agent FORT WORTH

THE STORY OF THE FACE PATCH

significant. The round patch was called the "assassin," which indicated the wearer's determination to make matters exciting. The triangular patch denoted pity and the heart-shaped one love.

With all this material to work with a clever woman could, by combining certain shapes and positions, convey a most interesting tale by means of her patches. Are those good old days to come again?

SOUTACHE TRIMMING

Patches, like all other fads, have their days. With the return of old fashions it is likely that face patches will be coming into vogue again. These little artificial beauty spots were once a symbol of religion.

It is said that they were first used by a Saxon queen, who was canonized after her death, which took place near the end of the seventh century.

This queen led a life of folly and enjoyment until the death of her second husband. She then saw the error of her ways, forsook the world and entered a convent, where she was chosen abbess. Here she gave herself up to the most severe practice of religion, which at that time meant a great neglect of soap and water, and this course, together with long fasting, many penances and other voluntary hardships, caused her pretty face to be covered with blemishes. She covered the disfiguring spots with patches and all her followers, even though they had no blemishes to hide, adopted the patches as evidences of a religious life.

The practice was later adopted by a courtier. No longer a sign of religious fervor, high-born dames and damsels held regular patch flirtations, and an ingenious belle could say almost anything by means of the patches. Unless the public was as clair-sighted as the wearer there was always a danger of being thrown off the track. Here are some of the interpretations of a reliable French authority:

If a woman wore a patch at the corner of her right eye she was head over heels in love with somebody. A patch at the corner of the left eye signified jealousy, and it is a general supposition that this decoration was not a thing of beauty in the eyes of her female acquaintances. The patch of devotion was worn in the middle of the left cheek. One worn on the right cheek was a sign of disappointment. A patch on the lip was translated "coquet," and needed no explanatory notes. A patch in the middle of the chin meant pity.

The shapes of such patches were also

This calling suit shows a peculiar combination of Russian and Grecian designs. The cloth is deep green. The trimming is of the Roman design in soutache braid matching in shade the material of the gown. The design is, however, put on over green. The buttons are cloth covered, embroidered with green. The hat is green velvet. The ostrich feathers match in tone the ground of the bands of trimming. The satin yoke, carefully tucked, matches the lighter shade of green.

The Player Folk

"Human Hearts" commencing Monday night, November 7, matinee Tuesday. Miss Ewing has endeared herself to Fort Worth theater goers, by her previous appearances here, and is probably one of the best remembered of our theatrical visitors. Since she was last here she has broadened her work to such an extent as to receive the flattering testimonials of competent critics. And she should be warmly received. Her support this season is said to be the very best that she has ever had. Each and every member of the cast has been engaged particularly for his or her line of work, from the best stock companies of the east. Miss Ewing carries special scenery, mechanical and electrical effects for each and every piece, and all the productions will be elaborately mounted.

Opening bill Monday night, "Hearts and Dollars," on which occasion ladies will be admitted free when accompanied by a person with a paid 30c ticket, if purchased before 5 p. m. Monday. Popular prices at all of the performances. On Tuesday night "Slaves of the Orient" and the election returns are to be read from the stage. Special matinee Tuesday.

AL G. FIELD MINSTRELS

One of the features of the Al G. Field Greater Minstrels this season will be the presentation of Reese Prosser in a special scene of St. Paul's Cathedral, Westminster, when, supported by a special choir of voices he will render Sir Anthony Sullivan's immortal anthem "The Lost Chord." Mr. Prosser will in addition to this song, render some of the popular ballad successes. He has been a member of the Al G. Field forces for a number of years and has established the reputation of "America's Sweetest Ballad Singer." His voice is more powerful and sweeter

Cancerous Ulcers

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. Medical advice or any information you may desire will be given by our physician without charge.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

than ever. This season's production will add to his fame.

Al G. Field Minstrels comes to Greenwall's opera house Wednesday matinee and night, November 9.

NORTH FORT WORTH ROSEN HEIGHTS STOCK YARDS

Nash Furniture Company.

A complete camping outfit, with tent, blankets, cook and utensils and various other implements, was found by City Engineer Hall of North Fort Worth yesterday afternoon while running the line separating that city from Fort Worth.

The outfit was found hidden in a thicket, with them being also a bunch of keys of all sorts. The outfit was at once turned over to City Marshal Howell and a thorough investigation is now under way. Several explanations for the find have been suggested, the most plausible being that the outfit has been hidden by boys expecting to run away or that it has been hidden by a thief expecting to take up his quarters and begin operations in North Fort Worth. This theory is strengthened by the finding of the keys, which could be used admirably for house-breaking purposes. Up until a late hour today, the property had not been claimed by any one.

INTERLOCKER GOING UP

Work is progressing rapidly on the stock yards interlocker, a force of men now being at work constructing the tower from which the movements on the Santa Fe, Rock Island, Rock Bell, Denver and Fort Worth Belt will be operated.

Another plant by the Santa Fe and Central about three quarters of a mile from the passenger station is being discussed.

CHILD SWALLOWED STAPLE

The 2-year-old son of Rev. J. R. Goode of North Fort Worth while playing about the house the day before yesterday secured an iron staple about one inch in length and pushed it into his mouth swallowed it before his mother could interfere.

A physician was at once summoned but the sharp staple had passed through the child's throat into the stomach, making all efforts to remove it futile. The alternative of permitting the staple to pass through the child's body was then decided upon and a diet suitable to prevent ripping of the child's stomach was followed. This morning the condition of the patient was much improved, the prescribed diet having accomplished its work and the foreign substance is out of the stomach.

NOTES

The ladies of the Christian church will hold a tea next Thursday at the residence of Mrs. Munsey on Loc avenue.

A. W. Atchison, cattle buyer for Swift & Company, is taking in the fair at St. Louis and visiting relatives in Kansas City.

Misses Frieda and Katharine Hookins entertained a number of their friends this week.

Mrs. J. F. Williams was called to Granock Wednesday by the illness of her daughter, Mrs. Reynolds.

Mrs. A. A. Haney was favored by a short visit from her mother this week.

Mrs. K. A. Greenlee was visiting friends in North Fort Worth Wednesday.

G. A. Scutherland and family have moved to North Fort Worth.

R. A. Eldridge, who has been the guest of Buck Cooper and family, left yesterday afternoon for his home at Mart, Texas.

PORTLAND AND NORTHWEST

Without change via Union Pacific. This route gives 200 miles along the matchless Columbia river, a great part of the distance the trains running so close to the river that one can look from the car window almost directly into the water. Two through trains daily with accommodations for all classes of passengers. This will be the popular route to Lewis and Clark exposition in 1905. Inquire of E. L. Lomax, general passenger and ticket agent, Omaha, Neb.

SENATORS AND STATE HONOR

New York and Massachusetts offer a contrast in their treatment of the senatorship. Massachusetts has sent as successor to Senator Hoar the best man she could secure. New York politicians are apparently going to treat the senatorship as a perquisite for some typical unit of their number, such as Black. Massachusetts is still a good deal more highly educated place than New York. The Empire state, however, can claim at least the credit of bartering its senatorships for partisan work and not for money, so that it is at least better than Mr. Addick's view of Delaware. Pennsylvania sent Quay to the senate, and the Pennsylvania Railroad apparently selected his successor. Governor La Follette has been talked about for the senate, but he says that his present duties are at home. He would make a stir in Washington, not so much because he is an effective speaker as because he is a brilliant politician who thinks it better to remain the free representative of the people than to be retained by some special business or even partisan interest. He might make trouble for the oligarchy. It is rather a pity that Mr. Bryan's chance of going to the senate seems so slender. He would lend interest to a body in which discussion is not yet entirely obsolete. —Collier's for October 29.

A motor cyclist has been summoned at Birmingham because his coat tails hid the number of his machine from a policeman's view.

Could Any Offer Be Fairer?

We will send you FOUR FULL QUARTS of HAYNER'S SEVEN-YEAR-OLD RYE for \$3.20, and we will pay the express charges. Try it and if you don't find it all right and as good as you can buy from anybody else at any price, send it back at our expense and your \$3.20 will be promptly refunded. Bear in mind that this offer is backed by a company with a capital of \$500,000.00, paid in full, and the proud reputation of 36 years of continuous success. WE ARE REGULARLY SUPPLYING OVER A QUARTER OF A MILLION SATISFIED CUSTOMERS, CONVINCING EVIDENCE THAT OUR WHISKEY PLEASURES AND THAT WE DO JUST AS WE SAY. Won't you let us send you a trial order? You run no risk in accepting this offer, for your money will be refunded at once if you are not perfectly satisfied. Could any offer be fairer? We ship in a plain sealed case; no marks to show what's inside. If you don't want 4 quarts yourself, get a friend to join you.

Orders for Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington or Wyoming, must be on the basis of 4 Quarts for \$4.00 by Express Prepaid, or 20 Quarts for \$16.00 by Freight Prepaid.

Direct from our distillery to YOU

Saves dealers' profits. Prevents adulteration.

HAYNER WHISKEY

PURE SEVEN-YEAR-OLD RYE

4 FULL QUARTS \$3.20

EXPRESS CHARGES PAID BY US

We make at our own distillery every gallon of whiskey we sell, and our entire product is sold direct to consumers, thus insuring absolutely pure whiskey and saving you the big profits of the dealers. Don't for a moment imagine that HAYNER WHISKEY is "poor stuff" and used only by people who can't afford higher priced goods. On the contrary, we have had for years the patronage of thousands of the wealthiest and most prominent business and professional men in every section of this country—the very people who can afford the best and wouldn't be satisfied with anything but the best. Do you think we could hold their trade if our whiskey wasn't all right? HAYNER WHISKEY HAS NO SUPERIOR AT ANY PRICE and is used alike by millionaires and men of moderate incomes, simply because it gives perfect satisfaction and they will not throw away their money by paying a dealer two or three times as much for whiskey certainly no better than HAYNER, if as good. Won't you let us save YOU money? Remember, if you are not perfectly satisfied, your money will be at once refunded.

Write our nearest office and do it NOW.

A Clothing Sale Without A Parallel

The past three days have seen our store thronged from early morn until late at night. We have advertised to give the public bargains—genuine bargains, in high-grade clothing and furnishings. The crowds of eager buyers will readily attest to how we have kept our word. The name of A. & L. August has ever stood as a synonym for integrity and honesty and will ever stand so. Our guarantee to return the money on any purchase without a question ought to satisfy the most skeptical. We are giving QUALITY—that is the word—Quality—at a low price. It is no trick to sell cheap goods, but to sell good goods cheap. We carry the highest grades of Men's and Boys' Clothing, Furnishings and Shoes. We have cut the price all the way through; by so-doing we have benefited the public. We are offering the highest class of merchandise manufactured, at cut prices. Be convinced. See with your own eyes.

We thank the public for their generous patronage and hope ever to merit same by fair treatment and good values in clothing of quality.

A. & L. August

CITY BRIEFS

Queen Quality Starch. Try it. Picture frames at Brown & Vera's. Cut flowers at Drum's. Phone 101. Boaz's Book Store, 402 Main street. Dr. Ray, Osteopath. Phone 553.

For a fine overcoat at a low price, go to Friedman, 912 Main street.

Rev. William Caldwell will lecture tonight in the chapel at Fort Worth University to the students. His discourse will be upon sermon writing.

O. C. Alspaugh, the chief clerk of the railway mail service at Oklahoma City, is in the city today conferring with the officials at the local office.

A party of seven Syrians passed through Fort Worth this morning on their way to California, where they are to establish a colony of their race.

Ray Terrell, a railway mail clerk, who was recently thrown from a mail wagon at Galveston and had his leg broken, has been brought to Fort Worth.

Mrs. W. A. Huffman, formerly of this city, who has been making her home at Bangkok, Siam, for the past two years with a son there, has sailed for this country.

A. R. Hall superintendent of telegraph of the Katy, Sedalia, Mo., was in the city this morning on his way home from a trip in the southern part of the state. He was accompanied by Mrs. Hall.

A building permit has been issued to Messrs. Lusher and Rockett to erect a two-story twenty-room brick business and flat building on lot 4, block 18, of the Field's addition.

The receipts at the postoffice for the month of October were \$11,709.93, against \$10,311.97 for the same month in the previous year. This is an increase over that of last year of \$1,397.96.

The fine driving horse of George Keith, city salesman for the Carter-Battle Company, was shot last night, and has done a severe attack of lockjaw, caused by stepping on a rusty nail. The owner valued the horse at \$250.

Texas State Humane Society will hold a meeting Monday, November 7, at 8 o'clock in the city hall. The society has secured last night a temporary section of the state. Cattle are looking fine and the range is better than it has been in many years.

William H. Robb, the immigration inspector, went to Paris this morning, where he is to testify against the presence of a Chinaman in this country without the proper papers. The man, arrested at Dallas some time ago by Mr. Robb was ordered sent back to China by the court.

Gus Robertson, oldest son of A. B. Robertson of Colorado City, the well known capitalist and citizen, was married in Elkhart, Texas, Wednesday to Miss Gertrude Grigsby, daughter of Mrs. D. B. Grigsby. Mr. and Mrs. Robertson are spending the day in this city, and will depart for their home in Colorado City on the evening train.

Rev. N. B. Bead of the Beach Street Methodist church has returned from Elkhart, Harrison county, where he had been to perform the ceremony of marriage at the home of the bride, Miss Gertrude G. Grigsby to Mr. Augustus Robertson, which was solemnized Tuesday evening. The bride has often visited in this city and is quite well known here, while the groom lives at Colorado City, at which place the bridal couple will make their future home. The groom is the brother of the well known banker of Colorado City, A. B. Robertson.

The corner stone of the Missouri Avenue Methodist church, which was laid yesterday afternoon contained besides the contents of the old stone, the following articles. A bible over fifty years of age, given by Mrs. O. Speer, a list of the members of the foreign missionary society and of the home missionary society of the church, a list of the officers and teachers of the Sunday school, a copy of the Christian Advocate and a card of the Panther City Hardware Company, several small telegrams and a copy of the Fort Worth Telegram and Record, also a copy of the discipline of the church.

Rollin M. Pease has just been secured by the First Presbyterian church as choir director. His reputation as a leader in music is well known. He has led and directed many good choirs in other cities, among them being the M. E. choir of Fort Sheridan, Ill.; M. E. choir, Grand Junction, Col., and soloist of choirs around Chicago. Besides, he has sung with glee clubs and quartets. In the city he has been soloist and director of St. Paul's and Broadway Presbyterian churches. The position at St. Paul's is now held by one of his pupils.

Owing to the fact that sufficient time has not elapsed to receive the copies of the various ordinances in regard to the inspection of meats sold within the city limits, the ordinance regarding the inspection of meat for this city will not come up at the meeting of the council this evening, but will very likely be brought up at the meeting two weeks

hence. Copies of some of the various ordinances from other cities have been received, but none just exactly fits the desires of the city health officer and the city attorney and it has been decided to let the matter lay over until the next meeting.

HAWLEY MAKES A PLAN FOR NEW STRUCTURE

City Engineer Wants a Concrete Viaduct Instead of an Unsightly Steel Bridge on Hill Street

Feeling that a residence section of Fort Worth like that surrounding the Hill street crossing over the railroads should not be marred with an unsightly steel bridge, City Engineer Hawley has prepared plans for the construction of a concrete viaduct, which, beside having various other points of advantage over a steel structure, will be more artistic.

The plans for the crossing as prepared by City Engineer Hawley provide for a concrete viaduct 140 feet in length, striking the old approaches to the crossing at either side. The main roadway of the crossing will be thirty feet in width, with the street car tracks upon the one side. The opposite side will be a walk of six feet in width. The arches will be constructed ornamentally as well as substantially.

In favor of the concrete bridge, it is urged that while the first cost will not be in excess of that of the steel, it will be much more durable and will need no repair. Another important point in view of the long delay in the replacing of the destroyed crossing is the fact that the concrete viaduct can be erected in from thirty to sixty days, while the steel structure could not be put in place in less than ninety days, counting upon the most prompt delivery of the materials.

To provide the crossing as outlined it will be necessary to sink the railroad tracks to secure the twenty-two foot head room required by statute. For the present tracks, two arches would have to be constructed, but provisions are made for additional ones in the event of double tracking.

The plans above have merely been prepared by City Engineer Hawley, no action having as yet been taken upon them. It now remains to be seen what the railroads will do in the matter, the continuous delay in this instance proving an enigma in view of the fact that had railroad traffic been delayed by the falling of the bridge forty-eight hours would have seen it replaced in some fashion.

The general sentiment of the citizens is for a forcing of the issue in regard to the replacing of the crossing and this spreading sentiment has forced the press generally to follow the stand originated by The Telegram in demanding action by those concerned.

The one great virtue of Burnett's Vanilla Extract is purity. It is real vanilla extract and nothing but vanilla extract. Always use Burnett's.

A Word to Parents About Children's Shoes

We beg to announce that we have added to our superb line of Men's and Boys' Footwear, Extra Quality Shoes for Misses, Children and Infants. Nothing but the very best grade, superior to any Shoes handled in this city heretofore. It will be our aim to carefully select the proper shape and form of last for your little ones' feet, and guarantee the fit of each pair of Shoes fitted in our Shoe Department.

We will gladly submit you samples of these Shoes if you will kindly telephone us, or, should you visit our store, we will take pleasure in showing you these new Shoes, and explaining to you the good points in detail.

WASHER BROTHERS

The Reliab'e Clothiers

be made known during the hearing. Until the case is brought to trial Dr. Caldwell refuses to make a statement.

A PROMINENT YOUNG MAN SHOOT'S HIMSELF

MOBILE, Ala., Nov. 4.—Hunt A. Chamberlain, aged 30, bookkeeper for a wholesale dry goods house and prominent socially, disappeared from his home yesterday afternoon, leaving money, purse and watch and chain in the room. A missing revolver started a search by the police and relatives. This morning the remains were found in a secluded spot in the western part of the city. He shot himself through the head.

DAVIS ON A TOUR

HAMBLETON, W. Va., Nov. 4.—Henry G. Davis, democratic vice presidential candidate, will make a dozen speeches today, concluding with a rally in his home town of Elkins. The senator left the town of Davis at 8 o'clock today. A meeting was held at Hendrix, where school children of the place constituted a feature of the reception to the candidate. An unusually large crowd greeted Mr. Davis at this place.

THE FAIRBANKS TOUR

CLINTON, Ind., Nov. 4.—Senator Charles W. Fairbanks is on a special train today and is traveling through the mining region of Southern Indiana, from Terre Haute to Evansville. He was everywhere greeted with large crowds.

DOCTORS IN SESSION

DALLAS, Texas, Nov. 4.—The annual session of the Southwestern Tri-State Medical Society convened in Dallas today. About seventy-five doctors are present. The morning was taken up in an address of welcome and the president's annual address. The society will be in session two days.

HOUSTON, TEXAS, NOV. 4.—

The Al G. Field Minstrel company is mourning the loss of the famous St. Bernard dog "Boy" that was Field's companion for the past seven years, and was featured on the bill boards over the country. "Boy" died here early yesterday morning and was placed in a coffin and buried with much ceremony by the minstrel men.

MARGARET BROWN

The death of Margaret Brown, aged 14 months, occurred yesterday at the residence of her parents in Riverside. Funeral services were held this afternoon at 3 o'clock from the family residence.

WOOD IS HIGHER

DENTON, Texas, Nov. 4.—The price of wood here is getting so high that the people for the first time are beginning to use coal almost exclusively. Cord wood is selling all the way from \$3.50 to \$5 per cord and a big wagon load sells for \$5 to \$6.

A CONFEDERATE IS OBJECTING TO EJECTMENT

Injunction Issues to Prevent Superintendent of the Home From Carrying Out Resolution Which Was Adopted

AUSTIN, Texas, Nov. 4.—J. T. Bowden, an inmate of the Confederate home today secured a temporary injunction from Judge Calhoun of the Fifty-third district court directed against Superintendent Chenoweth and the board of managers of the home from restraining them from ejecting him from the home. At the last meeting of the board a resolution was adopted based on charges made by Superintendent Chenoweth dishonorably discharging Bowden from the home for alleged criticism of the management and insubordination. This is quite a novel procedure. The case will come up for hearing next Monday.

THE PRESBYTERY IS TO MEET VERY SOON

As has been stated in The Telegram, Fort Worth Presbytery will be convened at Weatherford November 22, at which time the hearing of the Caldwell case will be had.

It is expected that there will be quite a large attendance of the doctor's friends and members of his congregation will go from Fort Worth.

It is said today that plans are being made to hold the investigation beginning at 11 o'clock in the morning so as to give the Fort Worth people an opportunity of hearing the case and returning to the city the same day.

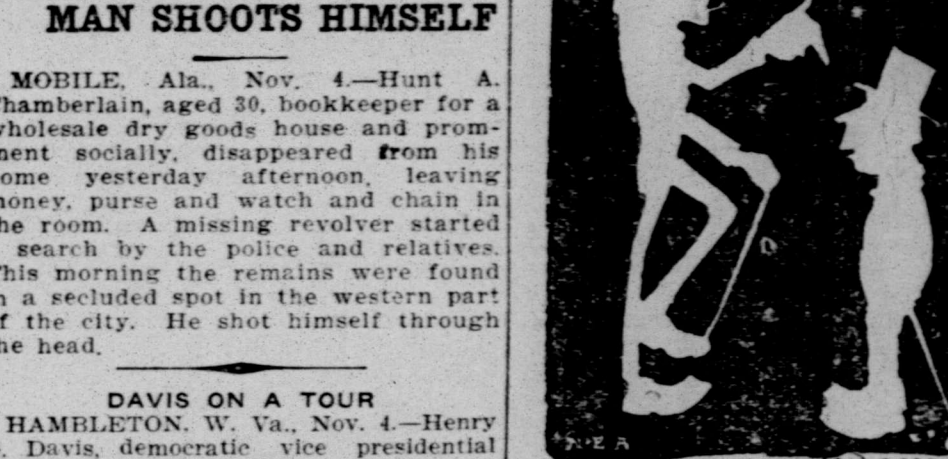

There is nothing new in regard to the case that has been given out, but it is learned that something interesting will

No Dessert More Attractive

Why use gelatine and spend hours soaking, sweetening, flavoring and coloring when

Jell-O

produces better results in two minutes? Everything in the package. Simply add hot water and set to cool. It's perfection. A surprise to the housewife. No trouble, less expense. Try it to-day. Flavors: Lemon, Orange, Strawberry, Raspberry, Chocolate and Cherry. At grocers. 10c.

SQUANDERED

Hamm: Rants made a barrel of money last season. Fatt: Yes, but now he has nothing left but the bung hole.

The California grand lodge of Masons, which includes the subordinate lodges of Hawaii, is planning to build in San Francisco a temple large enough to accommodate all the grand bodies of the craft within its jurisdiction. The present temple is about forty years old.

A steel girder fell while being hoisted to the top of a San Francisco building and struck a house mover's wooden roller, which ricocheted across the street, passed through the window of a crockery store and swept a 50-foot counter completely clear of its Eric-a-brac, cut glass, dinner sets, vases, etc., that were upon it.

McLENNAN COUNTY GRAIN

WACO, Texas, Nov. 4.—The sowing of wheat and oats is proceeding with great rapidity in the country, while in some cases wheat has already been sown and is up and growing off beautifully. The acreage promises to be good in this section, and then the spring sowing will supplement the fall acreage. Most farmers who raise wheat try to get it in during the fall, however, as it usually results in a much better stand, the cold weather tending to cause it to "set" and spread out on the ground. Such good results have been obtained from wheat, oats, corn, potatoes, alfalfa and many truck crops that less talk is heard concerning

cotton, though a good acreage is always planted. The care bestowed upon the cotton which is planted is much greater, too, and the land is being brought up to a higher state of cultivation, this being another of the good effects of the boll weevil's visitation.

No torture to that of a rheumatic. Prescription No. 2851, by Elmer & Amend, quickest relief of all. E. F. SCHMIDT, Houston, Texas, Sole Agent.

The value of the catch made by the fisheries of Great Britain and Ireland for the past six months of the year was \$21,121,420.
