Pro Tem at the Opening Session of Senate

No Disposition to Retrench in Number of Assistants Shown by Senate

AUSTIN, Texas, Jan. 10 .- Promptly at high noon today the Texas legislature met for its twenty-ninth regular session. The galleries of both branches were crowded with visitors from different sections of the state. The house was called to order by Attorney General Davidson, owing to the inability of Secretary of State Curl to preside. All minor officers of the last legislature were elected temporarily until the regular organization is formed. Representative Brelsford of Eastland county placed Representative F. B. Seabury in nomination for speaker. He was seconded by Judge Terrell Travis and others. Mr. Seabury was elected unanimously, no opposition appearing. After the election of epeaker the house took recess and will complete organization this afternoon.

HANGER PRESIDENT PRO TEM.

The senate progressed fast with its work. Senator W. A. Hanger of Fort Worth was elected president pro tem. on motion of Senator Davidson and seconded by Senator McKamy of Dallas. Clyde D. Smith of Wichita Falls was elected secretary by almost unanimous vote. R. M. Gilmore of Canton was elected journal clerk. The senate thus early indicated that it was not in favor of retrenchment. Senator Smith of all assistants and many committe clerks but his resolution was voted down by a vote of 22 to 9. The indications are that most of the old officers will be re-elected in the senate. The entire membership of the senate was present when the roll was called,

while only two members of the house failed to answer roll call. They are T. A. Low of Washington county and A. L Sharp of El Paso county.

MCKAMY OF DALLAS OPPOSED

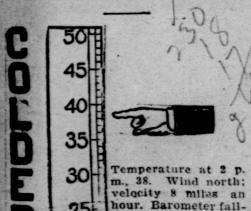

TO AD VALOREM INCREASE Senator W. C. McKamy of Dallas county is among the late arrivals. Senator McKamy stated that he had prepared several bills which he would inroduce at the proper time touching on the tax question.

Senator McKamy did not care to go into details about his proposed tax from the outset he would not vote for a measure to increase the state ad valorem tax. He thinks that there are other ways in which to most the state are other ways in which to meet the present deficiency and have enough money upon which to conduct the affairs of the state government.

He will favor and advocate a measure which will provide for a tax on the cross receipts of corporations. He ointed out that such a tax is imposed Cashier for Swift & Company n corporations in other states, and besides Texas has begun taxing Texas orporations. The railroads are now paying taxes on their gross earnings and this he proposes to extend to other

corporations. He will also likely introduce several mendments to the present city charter of the city of Dallas. Among them will e something tangible regarding the fixing of boundaries of the fire limits

and also fixing the boundary for the saloons. He is inclined to a higher tax as one of the remedies to be suggested.

NO GROUNDS FOR FEAR OF YELLOW FEVER

State Health Officer George B. Tabor has just returned from Galveston, where he has been for the past several days giving his attention to the two cases of yellow fever in that city. W. A. Hanger Made President Dr. Tabor states that one of the patients afflicted with the disease had Supreme Court Hears the Consailed, having fully recovered, while the other patient was convalescent but still in the hospital. Dr. Tabor declared that there was no alarm whatever in Galveston over the two cases; that the two victims of the fever were taken in an open conveyance to the hospital upon the arrival of the ship, and had this been done several days HOUSE CHOISES SEABURY ago the result would have been totally different, as it would have greatly frightened the citizens. STOCKMEN'S BODY REORGANIZATION TO START FIGHT

Cattlemen Look for a Lively Time at the Session Just Opened in Denver

DENVER, Col., Jan. 10 .- Every section of the United States where stock raising is an industry was represented this morning when the National Live Stock Association opened its annual convention in the Tabor Grand opera house. Prominent among the Texans present are Murdo Mackenzie, John Lytle, secretary of the Texas Cattle Raisers' Association, and S.

Aside from the cattlemen in attendance are representatives of the leading packing companies of the country, in-

of range right and changes made to be so gradual and so regulated as not to create commercial distress to those interests directly involved.

In this brief retrospect covering the ear in the live stock world, we can not forbear congratulating ourselves on the fact that one whom we may be pardoned in calling one of us has been elected to the presidency. I am sure that this sentiment will not be styled political partisanship; as far as the west, the home of the live stock industry, is concerned, polities on this occasion seem to have been wellnigh wiped out. The election of Theodore Roosevelt, the man who loves "fair play and a square deal." I believe, means more to the live stock and agrarian interests of the great west than the most sanguine profit would foresay. For the first time in our history there is a man in the White House who knows and understands and will help us. Whether we can rise to the occasion and do our part reached here by the mercury in the govremains to be seen. Another such opportunity may not occur in generations.

Refusal to Grant Differential to New Orleans and Galveston Causes War

and Will Investigate the Matter Personally

The fight for the steamship business for the Gulf ports as against the ports of the east, being waged by the Goulds, will, in the estimation of railroad people here, result in a passenger rate war between eastern roads and the Gould at New Orleans as a result of a cor ference held by Gould representatives asked for a differential in favor of the Gulf ports on European business. This In cases attended by a leucorrheal drain Mr. Grahame was detailed by the New Gulf ports on European business. This was denied on the grounds that it would divert too much of the business in Cuba, and by that means they be- from the eastern seaports. Then it was that the Goulds declared a state of belligerency and began the fight for business for the Gulf ports-Galveston and New Orleans.

Both Galveston and New Orleans have long contended that a differential was due them over the eastern ports. The flat refusal to grant it to nothing any physician would dispute.

Neil-Murphy Bantam Match Only Thing in Sight at San Francisco

By W. W. Naughton. SAN FRANCISCO, Cal., Jan. 10.—As

the main event in pugilism this month Frankie Neil, the San Francisco bantam. and Tommy Murphy, the eastern mannikin. The match was decided upon by the San Francisco Athletic Club after others had been considered and abandoned. The affair the San Franciscans would rons above all others was a Young Corbett-Battling Nelson bout. Neither of the Britt and will not talk shop to any one weeks duration, and he has signified that his date book is closed until February. As a rule contests between little me are not the best of drawing cards in this city, but now that good-looking matches are undeniably scarce, it is highly probable that the public will warm up to the Neil-Murphy go. One thing in its favor is that the little fellows are considered to be on a par so far as fighting ability is concerned.

Should Murphy decline the issue, and i isn't supposed that he will, Hughle Mc Govern will be invited to meet Neil Whichever way it goes the prospects are for a bantam battle as the opening event

As a rule the sports of San Francisco have an inkling of what is in store for them in the way of pugilistic events, but it must be said that the future of the game hereabouts is shrouded in doubt, it not in mystery. It may be that the scar city of material has caused the matchmakers to observe secrecy in regard to

Hints are tossed around that among the 1905 attractions will be engagements between Jimmy Britt and Jabez White Young Corbett and Battling Nelson, Tommy Ryan and Jack O'Brien. Weak Stomach. A weak stomach is most fre-

quently caused by the overworked and exhausted nervous

The power that runs the stomach is the nerve force sent to it from the brain through the nerves. When the nerves are weak or exhausted the supply of energy is insufficient and the action of the stomach is impaired, and results in imperfect digestion-dyspepsia.

Dr. Miles' Restorative Nervine increases nerve force. It strengthens and builds up nerve tissue, gives vigor to the nerves and muscles of the stomach; this produces a healthy activity.

Nervine allays the inflammation, heals the membranes, and makes the stomach strong and healthy. There is nothing that so quickly gives energy to the whole system as Restorative

Coun ty Attorney Jeff McLean and Lew Dockstader divided honors at Greenwall's opera house, where they were both in attendance last night. Although the minstrel man trod the boards and had the limelight, the county prosecutor in his modest seat in the audience was equally the center of attraction. Lew was to blame for it. From the moment he sang 'The Other Way," detailing the changes he finds in Fort Worth since his last visit, the audience wriggled and turned n their efforts to see McLean.

Other Fort Worth officials also came in for a share of chaff, recognition being hurled at them from the air ship in which Dockstader makes his appearance. This scene, terminating in a terrific cyclone, changing into a kinetoscope descent of the comedian and his ultimate appearance on the stage, is one of the neatest mechanical ear as can be judged at this writing effects seen during the year.

"SANDY BOTTOM"

The attraction at Greenwall's opera ouse tonight at 8:15 will be Hampton and Hopkins' beautiful production, "Sandy Bottom," a story of the Arkansas hills. "Sandy Bottom" is an interesting play, it has a strong and romantic plot, in which is much original interest. It deals with a band of moonshiners and desperadoes that infest the village of "Sandy Bottom" in Arkansas. The worthy mayor is implicated in a crime and the introduction of a fortune-teller and mind-reader to expose the secret criminal produce some intense situations.

If the wool grower believes the rates on his product too high, he does not lose the privilege of carrying that contention to the highest court in the land, or to have legislation enacted that will make a fair adjustment possible. No: does the cattle man commit himself to a peaceable condonement of bad railroad service or excessive rates, nor are the railroads irrevocably bound to haul forever for nothing private refrigerator cars for the packer, nor will the packer be compelled to pay corn-fed prices for second-class hides stuffed with sage brush. I am optimistic enough to feel that

many of our differences being founded on ignorance of true conditions and lack of understanding one another, can be settled or regulated by such an organization. By this plan we can at least determine clearly the lines of demarcation between us, and if fight we must, ascertain precisely what we are fighting about. Friction is waste, wherever found. Ignorance and prejudice are the chief menaces to progress. Let us dispel the one and forego the other.

Issues Confornting The State Legilsature

By JUDGE B. R. WEBB.

Under the peculiar party conditions in Texas the legislature has become a political factor of much greater importance than heretofore, and this has resulted in some measure from the operation of the new primary election selection of candidates made by the tantamount to their final election which follows as a matter of mere convention of the party, it follows that involved in the real selection of state officers must be made in advance of the convention, and such issues can not therefore be initiated by the party convention, which is now little more than a returning board and an echo.

Parker-Lowe Special Sale Attracts Large Crowds to Establishment

"It is surprising how business methods n the west, and especially in Fort Worth, and the Holy Land! Constantinople have improved in the last five years," said a prominent business man today. Now the old method of selling goods was to buy a large stock and if it was not sold, to allow it to remain on the shelves and get moth-eaten, full of dust, and, worst of all-out of fashion. It is a significant fact that men and women of today want up-to-date merchandise and they will always patronize the store that sells it to them. Formerly it was not the style, but a suit must be durable enough to be worn by father, behind the counters and bargain-laden hen son, and finally go to make a quilt. tables to care for the wants of the people, A kind of heirloom, you know. A little and to keep the stock in shape at the later, style was the thing, regardless of same time. It is truly amazing with durability, but now a merchant must com- what rapidity and ease the crowds bine both, and it is done, too. Now look of shoppers are handled. Monday at the sales that are going on in the morning the doors were opened at Bush was indicted by the Seventeenth district court grand jury, which adthe crowds; not pushy, jammy crowds; to give the salespeople an opportunity to but throngs of shoppers nandled in the properly wait on the customers. But that most modern way. You don't see any is not the wonderful part about it. In mussed up stock there; no, no.

There is an ample force of salespeople

less than a half an hour all had been waited on and came out well satisfied. And still more wonderful (my wife says). the stock was not torn up in the least, but in perfect order, so harmoniously do the salespeople work together. In place of being all fagged out, she came home Monday afternoon in good humor and well satisfied with her bargains. And this same way of taking care of the shoppers and their wants continued all through the

-Having become interested The Telegram representative walked around to the Parker-Lowe establishment. He was inormed by one of the members of the firm that everything in the house being reduced, the store was closed Friday and Saturday, and in that amazing short period the entire stock had been remarked and retir beted.

"Two hundred and fourteen extra salespeople have been employed and we are in condition to properly handle any rush that may come. Every article in the house has been reduced 25 to 50 per cent. The store is now conducting one of the biggest sales ever held in this city, and we are giving value received with a margin of 30 to 40 cents on the dollar to

"We were truly surprised," said the same informant, "at the large number of people who came out to the opening day's sale. We thought, of course, that a good many would come to our sale, even if the day was not what might be desired, but we did not anticipate such a rush. To

dle the crowd in a way that we believe is satisfactory to our patrons.'

For the Second Time Mrs. Bergman's Horse Is Mysteriously Used for a Long, Hard Trip Mrs. Paul Bergman hitched her horse

o a pole at the corner of Seventh and Throckmorton streets Monday afternoon about 4 o'clock, while she went to attend to some shopping. Upon returning she found her horse and buggy gone and immediately announced a reward for its recovery. About dark it was located a square from the place it had originally

been left. The horse had every appearance of having been driven hard and was stiff from the trip. Mr. Bergman declares this is the second occasion upon which some one has driven at his expense.

> In a lenghty review of the military situation, the Novoe Vremya advocates the immediate reinforcement of the Vladivostok station and of the island of Sakhalin and Kamehatcha. The paper says: "There is little probability of the Rusians being caught as unprepared at Vladivostok as at Port Arthur, but a moral sponsibility rests on the government so that nothing in the way of defensive preparation will be overlooked. Sakhalin and Kamchatka are both harder to defend, and have a muchly scattered population; but both are rich in miltary and other reources and are especially tempting to the Japanese, to whose scheme of national expansion they are necessary."

Continuing, the Novoe Vremya points out that it is possible to send reinforcements and supplies to Sakhalin and Kamchatka, which, while the ice lasts, are in dependent of sea power, and begs that this be done at once.

Touching on the general peace talk in the foreign press, the Novoe Vremya summarizes the list of Russian reverses in the present war, and asks if it be possible to consider the question of peace with-

out substantial Russian victories. The Port Said division of the Russlan warships, commanded by Rear Admiral Botrovsky, which left Suda Bay, Island of Crete, Sunday, has been sighted head-

MINES FOR FORTY MILES

Big Radius Outside Port Arthur Protected

By Russians TOKIO, Jan. 10 .- The navy department says the district covered with submarine mines had a radius of forty miles outside of Port Arthur. It reports the destruction and explosion of 395 of these mines to date. Ten additional survivors of the third expedition of the Japanese to blockade the entrance to Port Arthur have been found in the Russian hospitals. They have been transferred to the Japanese hospital.
