TORNADO SWEEPS TERRITORY TOWN

Four Persons Seriously Injured and Many Buildings Demolished at Owl, I. T.

COALGATE, I. T., May 6.—At 2 o'clock yesterday afternoon a cyclone struck the little town of Owl, ten miles west of here, on the Missouri, Kansas and Oklahoma railroad, and twenty houses and contents were completely blown away...

The school building was completely demolished. The school building was blown entirely away. There were fifteen school children and the teacher in the building when it went away...

Several plate-glass windows were blown out and the building occupied by the Owl Tribune was partially demolished. Dead chickens were seen lying on top of houses and barns...

A special train consisting of engine and cabooses carried the scene from the southwest to the northwest, being about one hundred yards in width, just missing the business portion of the town.

Mr. Hilton's daughter, injured internally. Mr. Harrison's two children, seriously injured.

UNION LEADERS OPPOSED STRIKE

But Nearly 1,000 Men Have Been Thrown Out of Work in Spite of Their Protests

CHICAGO, May 6.—The Chicago Chronicle today says: "As a result of the actions of four laborers, fully 1,900 workmen have been thrown out of employment at Sears, Roebuck & Company, at Kedzie avenue and Taylor street, where a model co-operative industrial establishment covering a large area is being built at the cost of several million dollars."

The object of the strike is the fact that officials of the unions to which the men belong are strongly against walkout and most of them demanded that the entire force return to work on face trial boards. Warrants were sworn out for the four men accused of causing the trouble...

FAREWELL DINNER GIVEN TO CHOATE

All Classes in London Public Life Unite in Honoring the American Ambassador

LONDON, May 6.—"Certainly the crowning hour of my life is this farewell benefit from the English stage," Sir Henry Campbell-Bannerman characterized the farewell dinner at the Mansion House last night, at which undoubtedly was the most remarkable gathering of notables ever assembled at the historic residence of the lord mayor of London.

All parties, classes, professions and opinions from the great metropolis, represented by the lord mayor himself, to the government, represented by Arthur Balfour, and the Marquis of Lansdowne, together with a few of the American community, were there. Mr. Choate sat at the right hand of the lord mayor; next to him was Mr. Balfour and then Lord Lansdowne. At the left of the lord mayor were the Archbishop of Canterbury and the Duke of Wellington.

The aged lord mayor presented a picturesque figure in his elegant costume when he rose and toasted the king and queen. Sir Henry Campbell-Bannerman proposed "The President," eulogizing him as a genuine typical character, characteristic of America, a firm friend of peace, though perhaps not of a quiescent disposition.

HOGG SILENT ON EXPRESS COMPANY

Special to The Telegram. HOUSTON, Texas, May 6.—Ex-Governor Hogg declines to discuss the report that he and former Superintendent Russ of the Pacific Express Company are forming an anti-trust express company to force business over all railroads in Texas. The story is credited in express and railroad circles here.

When I called you up on the telephone you talked so cruelly to me that I went out and bought a revolver intending to do it then. I was brought up in a convent and my religion teaches against such things, but I can't stand it longer.

Here there was a break in the letter and when it continued it was in different ink. "Again and again and again have you disappointed me, Charley. What in God's name have I done? If you are anxious to get rid of me that were easy. Why did you have me come to New York? Here I am as your wife. If you had said, 'Ole, I do not want you to return,' I would never have done so."

"Well, Charley, this is the last. I wish you all the luck in the world." The fourth letter left by the woman was addressed to "Charlie Sweetheart," and read as follows: "I love you better than my own life. I love you so much and to think I have to go and leave you, I hate to die so; what you have me come to New York? Here I am as your wife. If you had said, 'Ole, I do not want you to return,' I would never have done so."

Before her marriage to Mr. Gray, about 20 years ago, she lived in New Orleans, where a brother and sister still live. Miss Stone says Mrs. Gray was 36 years of age and wealthy.

METHODISTS END SESSION

Board of Associations at Nashville Appropriates \$313,763 for Conferences

NASHVILLE, Tenn., May 6.—The closing session of the board of associations of the Methodist Episcopal church, South, was held yesterday. By a unanimous vote the resolutions appropriating money for the various conferences in the United States were approved and a total appropriation during the three days' session of \$313,763 was recorded.

The publishers and editors of the official papers of the Methodist Episcopal church met here yesterday afternoon and effected an organization. Dr. M. J. Coffey, editor of the Wesleyan Christian Advocate, Atlanta, Ga., was made chairman and Dr. H. M. DuBose, editor of the Epworth Era of Nashville, was chosen secretary. A meeting of the association will be held each year.

The following officers for the year were elected: Dr. M. J. Coffey, Wesleyan Christian Advocate, Atlanta, chairman; D. M. Smith, senior book agent, Nashville, secretary; Dr. Louis Blaylock, Texas Christian Advocate, Dallas, Dr. A. C. Miller, Arkansas Methodist, Little Rock, and Dr. H. M. DuBose, Epworth Era, Nashville, executive committee.

ALL KISSED BRIDE THEN GOT VACCINATED

Principal in New Jersey Wedding Had Smallpox, But Guests Didn't Know It

NEW BRUNSWICK, N. J., May 6.—Because the minister and all the guests at a Middlesex county marriage kissed the bride and danced with her there is consternation throughout a section of the country, for the bride is down with smallpox and there is no doubt that she was suffering from the disease at the time of the ceremony.

Miss Magdalen Fessler, now Mrs. John Gaub Jr., is the bride. She and her husband live at Brownwood, ten miles from New Brunswick, a little village in the center of a farming community, where every one knows every one else for miles around.

Miss Fessler and Gaub were married at the German Presbyterian church, South River, on Sunday, April 23. She had complained to her friends of feeling ill and said her head ached, but this was attributed to excitement and fatigue. It is evident now that she was suffering even then from the disease. The church has been closed, the pastor, who exercised his ministerial prerogative and kissed the bride, is in quarantine, all of the wedding guests are being rounded up by the health officials.

BOMB THROWING COMMENCES IN CHICAGO STRIKE

Explosive Missile Hurlled at Express Wagon in Crowd of Strike Sympathizers, But Little Damage Results

THREE SUSPECTS HELD BY THE POLICE

Special Agent of Express Company Declares Bomb Was Merely Blue Powder in a Breakable Bag

CHICAGO, May 6.—Suspected of having thrown a bomb under a United States express wagon, Julius Hilbrecht is under arrest, charged with deadly assault. He is also accused of violating the injunctions of the United States circuit court. The alleged bomb throwing took place last night at Des Plaines and Van Buren streets.

The scene of the explosion is half a dozen squares due south of Haymarket, where the celebrated bomb throwing by anarchists occurred nineteen years ago almost to a day.

When last night's explosion occurred a number of policemen were guarding the express wagon which was en route from the United States Express Company's station at Des Plaines street to the Chicago, Milwaukee and St. Paul railroad tracks. The wagon was being escorted through the streets amid riotous scenes. Many times the police had been forced to use clubs and threaten persons who followed and threw stones, sticks, pieces of coal and bottles at non-union drivers. On the sides of wagons were copies of the injunction issued by the United States circuit court, forbidding all interference with the business of the express companies. At times the police pointed to the injunctions and in the crowd against violation of the injunction and incurring danger of being held for contempt by the federal court.

This had a good effect on the crowd and the express wagon passed on to the throwing of missiles, but continued to follow the wagon. At Van Buren and Des Plaines streets a car blocked the progress of the wagon. The police cleared the obstruction only to be assaulted by a crowd of one thousand persons which rapidly swelled to twenty-five hundred or more.

All traffic at the corner was stopped and the police meanwhile vainly endeavored to disperse the crowd. Soon the rioting began to throw missiles. The crowd followed suit and in a short time the air was filled with pieces of crockery, old coal, shovels, oil cans and even axes. The police did their utmost to stop rioting, but were overwhelmed.

Suddenly while the rioting was at its fiercest and the crowd kept pressing closer to the wagons a deafening sound was heard and a flash was seen under the express wagon.

"Bomb, bomb, run for your lives," was the shout taken up by the crowd. A riot call by a crowd of one thousand persons which rapidly swelled to twenty-five hundred or more.

A general search was made for persons who threw the bomb, members of the crowd resisting.

Many detectives were scattered about and soon Hilbrecht was arrested. Later two men named James Rogers and Henry Pfeiffer were arrested. Examination of the express wagon and the company's stables shows it was but slightly damaged.

The story that a dynamite bomb was hurled at an express wagon at West Van Buren and Des Plaines streets last night, was set out from the Des Plaines street station today. Special Agent Eddy of the express company says no bomb was thrown, nor was the wagon damaged.

Three arrests were made, one of the men taken into custody being formally accused of assault with a deadly weapon. Those arrested were Julius Hildebrand, Henry Pfeiffer and Joseph Reiger. The last named was released on bail.

URIC ACID GRAVEL IS CAUSED BY THE KIDNEYS BEING UNABLE TO CARRY THE POISONOUS WASTE MATTERS OUT OF THE BLOOD.

The urine of persons suffering from uric acid or gravel is generally scanty, and after it has stood a while, a reddish, sediment like brick dust forms in it. In advanced stages the uric acid sometimes appears as fine sand, or large crystals.

CURED BY WARNER'S SAFE CURE

"I have used Safe Cure for chills caused by uric acid poison in my system and I have been perfectly cured. It has done for me what I have never known any other medicine to do. It cures people in the South who suffer much from malaria, which always affects the kidneys. If all the doctors would prescribe Safe Cure instead of quinine for cases of malaria there would be less bad after effects, as quinine does not remove the disease germs from the system like Safe Cure. I take 'Safe Pills' when I need a gentle laxative."—Mrs. M. E. DEAN, Treas. Lotus Club, Chattanooga, Tenn.

THIS TEST WILL TELL:

Put some urine in a glass or bottle. After it has stood 24 hours, if it is cloudy, or contains a reddish-brown sediment, or if particles float about in it your kidneys are diseased and unable to do their work, and if not attended to at once Bright's Disease, diabetes, rheumatism, gout, uric acid, inflammation of the bladder, gall-stones or urinary troubles will develop and prove fatal in a short time.

Safe Cure is the only absolutely safe and certain cure for all these forms of kidney, liver and bladder diseases. It is purely vegetable, free from harmful drugs found in many so-called kidney cures, contains no sediment and is pleasant to take.

For sale at all drug stores, or direct, 50c. and \$1.00 a bottle.

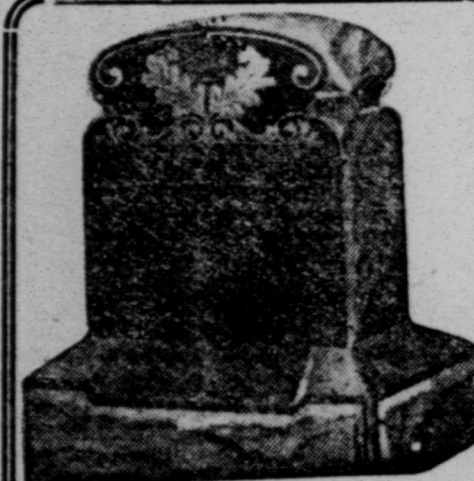

ANALYSIS FREE.

If after making this test you have any doubt as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report, with advice and medical booklet, free.

REFUSE SUBSTITUTES AND IMITATIONS

They are worthless and very often exceedingly dangerous. Ask for Warner's Safe Cure; it will cure you.

NO COMPROMISE ON BALL TAXES

Aldermen Oppose Settlement With Estate on Basis of About One-third

COMMITTEES APPOINTED

Mayor Takes Optimistic View of Election and Places Maddox on Lists

The most important matter discussed Friday night by the city council was the proposition made by the representatives of the Ball estate, seeking to compromise the taxes in the sum of \$10,000 for \$10,000. It was the consensus of opinion that the amount offered was not large enough to justify the acceptance of the proposition.

Alderman Moreland said that in the face of the uncertainty of a law suit, in his judgment it would be wise for the council to accept the offer made by the Ball representatives.

The offer provides that in case the city accepts the amount to be paid over to the treasurer of the city within twenty-four hours.

Mr. Moreland said that City Attorney Orrick was inclined to the belief that the offer was too small and that suit to recover the delinquent tax might result in recovering at least \$20,000, but he was not so sanguine as the city attorney, and thought it was best to accept the proffer in liquidation of the indebtedness.

Alderman Lehane said that in his opinion the \$10,000 should not be accepted, as it was not a fair adjustment of the claim, and that there should be no compromise. He was in favor of fighting it out in the courts.

Alderman Henderson said that the matter should not be settled by the city on a \$10,000 basis and that the case should be contested in the courts, even if the city did not get a cent. It was a precedent, he declared, that should not be set by the council in the matter of taxes. He suggested that the city go ahead and undertake to collect the debt.

Alderman Zurn called on the city attorney to give his opinion on the matter. At this juncture the Wagonman motion prevailed and a vote on it sent the matter to the committee named.

When the council convened there was a full attendance, with the exception of Aldermen Parker and Newby. Both were excused on motion of Alderman Lehane.

MAYOR'S MESSAGE The reading of the minutes of the previous meeting were dispensed with in order to give the mayor an opportunity to read his annual message, a synopsis of which appears elsewhere in The Telegram today.

On motion of Alderman Wagonman the message was received by the council, and it was ordered, on motion of Alderman Lehane, that it be published in pamphlet form and distributed among the people of Fort Worth.

COMMITTEES NAMED At this juncture in the proceedings Mayor Powell announced the appointment of the following standing committees: Finance—Messrs. Henderson, Maddox and Moreland.

Water Works and Electric Lights—Messrs. Lehane, Ward and Henderson. Police—Messrs. Zurn, Parker and Lehane.

Public Health—Messrs. Maddox, Henderson and Moreland. Public Buildings—Messrs. Wagonman, Lehane and Ward.

Fire—Messrs. Parker, Ward and Lehane. Public Grounds—Messrs. Lydon, Wagonman and Ward.

Public Schools—Messrs. Moreland, Maddox and Zurn. Sowers—Messrs. Henderson, Maddox and Zurn.

Hospitals and Paupers—Messrs. Zurn, Parker and Henderson. Printing—Messrs. Lydon, Moreland and Parker.

Claims—Messrs. Moreland, Lydon and Zurn. Railways and Electrical—Messrs. Lydon, Maddox and Zurn.

Purchasing—Messrs. Lehane, Zurn and Ward.

JUDGE FOR YOURSELF Which is Better—Try an Experiment or Profit by a Fort Worth's Citizen's Experience

Streets and Alleys—Messrs. Wagonman Zurn and Ward.

Judiciary—Messrs. Parker, Moreland and Lydon. The report of the claims committee was allowed, the amount being a total of \$24,785.09 for the preceding month.

The matter of granting an electric light franchise to E. O. Bruckman of New York was laid over for one month, at which time it will come up for consideration.

City Engineer Hawley was instructed to put the Oleander and Hemphill streets crossing in good repair. The claims committee recommended that the controversy between T. B. Ellison and the city over the adjustment of expenses incurred by Mr. Ellison in moving a sewer be adjusted by an arbitration committee.

On motion Henry M. Dixon was elected assistant to Engineer J. B. Hawley, at a salary of \$5 per month, the previous salary being \$3.33.

IMPROVEMENT DISTRICTS It was moved that hereafter no street improvements be made in Fort Worth unless done under the provisions of the amended city charter.

The city engineer was authorized to put the crossing over the Sandidge branch at Eighth and Rosedale streets in good condition as soon as possible.

The location of a market district on Throckmorton, between Tenth and Thirteenth streets, was referred to the city attorney to determine the legality of such action. The attorney was asked for his opinion in the premises, and will make a report at the next meeting of the council.

The final report of Former Chief of Police Rea was approved and the mayor spoke of it as being favorable in his message, and that the police department had been conducted with great efficiency during the past year.

SEWER EXTENSION Several resolutions were introduced and adopted recommending that the sewerage system in the Fifth, Sixth, Seventh and Eighth wards be improved, and on motion the mayor, city engineer and the aldermen from the respective wards were appointed to investigate the matter and if possible devise ways and means for making the improvements asked by the citizens of these wards. It is likely that the committee will be able to make its report at the next meeting of the council.

Several speeches were made on the subject, the gist of which was that there was pressing need for improving the sewerage system in the wards named as a sanitary necessity. The annual reports of the water works and electric light departments were received and accepted.

EXTRA JANITOR Chief of Police Maddox was empowered to appoint an assistant janitor for the city hall at a salary of not to exceed \$35 per month.

R. G. Littlejohn and W. B. Martel were reappointed deputy assessors and collectors. The report of City Assessor and Collector Gilvin for the fiscal year ending March 21, last, showed that the total taxes collected was \$411,255.38. The report was received.

GARBAGE CREMATORY The proposition of the Fort Worth Garbage and Crematory Company to establish a plant was referred to the city attorney and health committee.

It was ordered by the council that one-half of the salary due the late Policeman J. M. Coley be paid to the widow and the other half to his children.

TAX ON TRUCKERS The council was asked to assess a tax against persons who live outside the city limits and who conduct truck wagons in opposition to those who pay taxes for the same privilege. The matter was referred.

A petition was received from the Young Men's Christian Association, asking that their property at the corner of Seventh and Taylor streets be exempted from taxes on the ground that it is the property of a religious organization. Alderman Lehane said that he favored the exempting of this property from taxation. The matter was referred to the finance committee.

MAJEST INVITATION An invitation for the council to attend the coming Majest was read and accepted, and on motion of Alderman Moreland, Mayor Powell was peremptorily ordered to make an address.

The Rio Grande Railroad Company asked permission to construct a switch across Henderson streets 125 feet in length. The matter was referred to the streets and alley committee.

The executors of the Hyde Jennings estate offered to donate a portion of the land and necessary to make an alley near the Carnegie library if the city will donate land near the library to cut the alley to Ninth street. Such an alley would displace the tree planted by President Roosevelt. Referred to the streets and alleys committee.

The sum of \$162.55 was appropriated to pay the city's portion of the expenses incurred in entertaining President Roosevelt and the council then adjourned.

GROVE'S TASTELESS CHILL TONIC Has stood the test twenty-five years. The first and original tasteless chill tonic. 50 cents.

TILLER WINS TROPHY Will Hold Prize Until Higher Score is Made at Shoot

J. H. Tiller at the gun club shoot held at Prospect Park Friday afternoon won for the first time the "Infallible" trophy recently presented to the local shooting club by a large powder firm. According to the agreement, Mr. Tiller may keep the trophy until some other member of the club makes a higher score. At the end of the season the trophy goes to the member who has won the trophy the greatest number of times.

How to Find Out If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

JABEZ WHITE NO MATCH FOR BRITT

American Wins Lightweight Championship of World in Twenty Rounds

WOODWARD'S PAVILION, SAN FRANCISCO, Cal., May 6.—James E. Britt of California became champion lightweight of the world tonight when he knocked out Jabez White of England at the close of a magnificent twenty-round battle. With

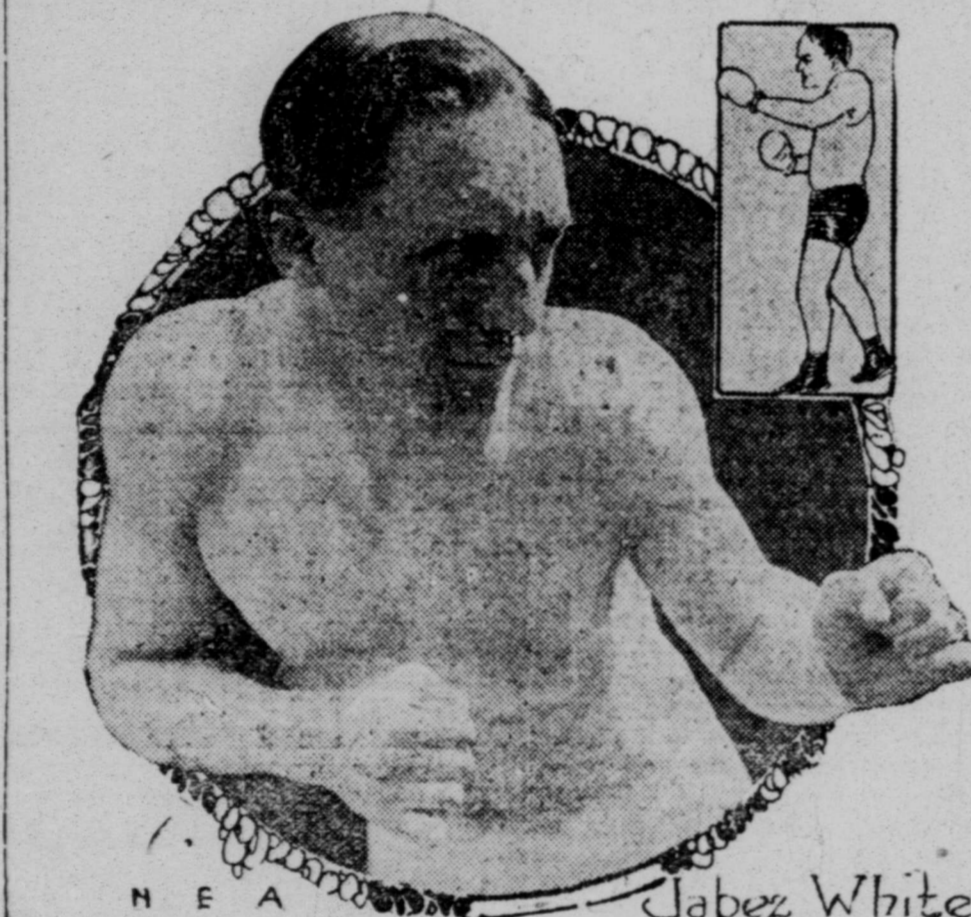

just twenty seconds to go Britt hooked the Englishman with a left on the jaw and the foreigner went to the mat, where he lay flat on his back for eight seconds. He staggered to his feet, but was power-

less to defend himself and Britt swung right and left on his jaw. The referee, to save White from needless punishment, stopped the contest, although White was still on his feet, leaning up against the ropes in a helpless condition. White was carried to his corner and in a few minutes revived sufficiently to make a little speech, in which he said: "I fought the best I knew how. I received fair play, but Britt is evidently the better man."

Britt's victory was, of course, loudly acclaimed by the people of his own town, but White, though a defeated man, was cheered just as vociferously for the magnificent fight he put up. All through the battle White showed he was competent to compete for championship honors. He seemed to lack, however, one requisite for a champion—a knock-out blow. He landed on Britt's jaw many times with both right and left, but apparently did not hurt the little San Francisco bulldog. In the twelfth round it looked as if White had a chance. He landed a vicious straight

right on Britt's jaw and as the latter was off his balance he went to the floor and rolled under the ropes. He was not hurt, however, and came back faster than ever. Britt forced all through the fight.

Jabez White.

AUSTIN FAILS TO SOLVE CHRISTMAN

Panthers Take First of Three-Game Series With the Senators

Fort Worth took the opening game from Austin at Haines park Friday afternoon in the narrow margin of one run in a contest marked by the best playing seen on the local grounds this year.

Christman, with eleven strike outs against a single hit and two bases on balls, pitched a star game, in but few innings permitting Austin to get past first. Austin seemed unable to solve his delivery. Clayton fanned each of four times up.

The business end of Manager Kelly's batting stick went out on two strike outs and an easy chance from Horn, who played at second, to first.

Fort Worth did but little better in its half of the opening innings, getting but four men up. Sullivan got first on an error by Clayton but was called out later on a close decision in an attempt to get to second. Burleson in the meantime fled out to the sunny garden and Horn went down on an easy infield play.

Austin again failed to reach first in the second inning. Wilson and O'Connor, the veteran, both getting to the initial corner after balls sent over by Burleson and Horn. Fenner fanned furiously and the Senators adjourned.

Boles fouled out as a dismal opening but Pointexter deadheaded to first, making second in a moment later as Bates died at first, and adding third to his string on the throws. Mauch then made good with a hot one to the right field fence, scoring the first run and settling on second. Ballew put an easy one to center and ended the inning. Score 1 to 0.

THIRD INNING Hartman went out, Burleson to Bates, and Kanney got on first through the generosity of Christman. Austin's chances, however, went glimmering, as Darlington struck out and Deskin fled to center.

A pop fly to Darlington put Christman out of the way. Sullivan followed on a ball to Clayton. Burleson then hit past short but went out on a force by Horn.

FOURTH INNING Austin again followed the one, two, three route in the fourth inning. Clayton struck out. Stovall put one in Sullivan's reach in left and Wilson completed the effort by missing three good ones.

Fort Worth then opened up for business. Boles put one over third too hot to handle and was advanced to second by Pointexter's bunt to third. Bates fled out and Mauch again found the leather, scoring Boles on a hot one to center and taking second himself on the throw home. Ballew again fled out, leaving Mauch on second and duplicating the close of the second inning. Score 2 to 0.

FIFTH INNING O'Connor got to first on a dropped ball by Ballew and went to second on Fenner's slow one to Boles. Hartman went down on an outfield fly handled by Horn and O'Connor, who thought the ball a safe one, was caught half way to third and put out by tagging the bag.

For the second time in the game Christman opened the batting string, going out, second to first. Sullivan followed with a grounder to third that he could not beat out. Burleson got to first on a slow infield hit but went out a little later in an attempt to gobble second.

SIXTH INNING Austin got its only run in the sixth. Kanney drew a pass to first, stole second and went to third a moment after on Darlington's out. At first, Mauch to Bates. Deskin then made a timely hit over second bag, scoring Kanney. A moment later he stole second on a dropped ball and the fans looked for the hoodoo. Clayton, however, fanned, and Christman threw Stovall out on a short hit.

Horn fanned. Boles got first on an error at second, but was forced out at second on a short one Pointexter sent to the pitcher. Pointexter got to first before the double could be made. Bates staggered O'Connor with a hot one right in his mit which glued itself fast and ended the inning.

SEVENTH INNING Only the regulation number of Senators forced Christman in the seventh. Wilson fled out to Boles, Christman threw O'Connor out at first and Fenner fanned.

Mauch got a hand on the strength of his other drives but followed etiquette and fanned. Ballew put a clean one over second but never got far from the coaching line, Christman flying on the coaching line to third and Sullivan going out on a liner in the same direction.

THREE MEN AGAIN WAS THE TOTAL NUMBER to force Christman in the eighth inning. Hartman fanned, Kanney went out, Burleson to Bates, and Darlington put one in Ballew's pasture. Forlorn, too, had but three men up in the eighth. Burleson died on a pop fly gathered in by Fenner. Horn went out, O'Connor to Darlington, and Boles fouled to Fenner.

WILL HAVE THREE CARS FOR RACING GAME Earl Kiser Expects to Drive in Vanderbilt Road Race Next Summer and Will Drive on Track

EARL KISER.

CHICAGO, May 6.—"Yes, I expect to drive a car in the Vanderbilt cup race on Long Island this summer," said Earl Kiser, whose work with the Winton "Bullet" earned him a reputation as a fearless track driver last year.

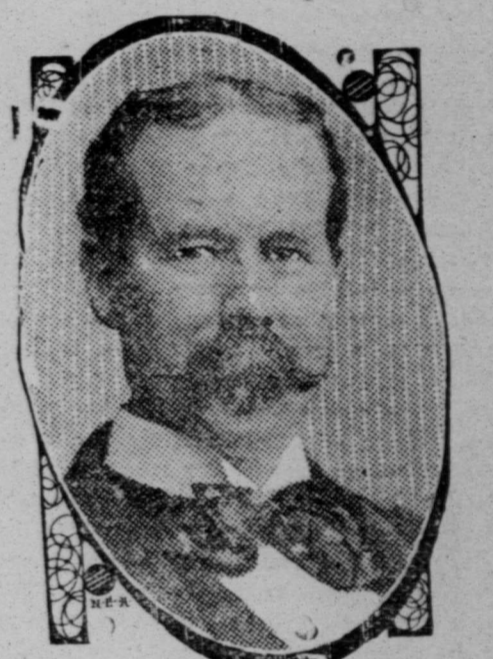

"I am having three cars constructed now, one of which I will drive in the road race, nothing preventing. Last year was my first big season in the automobile racing game. I had driven cars before, but never took hold of anything with the speed of the "Bullet." I believe the car I will have this year will prove one of the fastest in the world, and if it comes up to expectations I hope to give a good account of myself all season, not only on the road, but on the track as well."

MARKET CATTLE SLOWLY

There has been some complaint among the producing cattlemen of this state during the past two weeks over the prices received for the cattle they have been sending to market, when as a matter of fact nothing but a marked decline was possible under the existing conditions.

It is true that money in the pocket promotes a most comfortable feeling. When a man feels the jingle of the almighty dollar deep down in his jeans he realizes he has a friend and a comforter whose power for good is only limited by the supply.

When the railways, insurance companies and other corporations get through fighting the new state revenue bills, it may be necessary for the state to go out with a club and hold up the passing stranger in order to obtain the means of carrying on the government.

The fight against the lottery evil in this state by the federal government has brought to light the fact that at least one of the companies has had no existence except to receive money from the men it duped every month by selling them tickets to drawings which never occurred.

While the governor has his veto hatchet handy he should not overlook the measure which provides an increase in the salaries of the district judges of this state.

into the path that means loss and sacrifice for you. The grass is still growing out in the range country, the rains are still falling, and conditions are very favorable for the producer to make money out of the situation if he will but exercise the proper care and foresight in the marketing of his stuff.

When the nations of the earth conspired to loot China as a result of the Boxer troubles, the amount of indemnity asked by the United States was only \$25,000,000 as against \$90,000,000 demanded by Russia and other nations in due proportion.

The Dallas Times-Herald suggests that the deficiency created in the construction of the Abilene Epileptic Colony laundry should be paid, and if the management of that institution exceeded its authority in building the laundry it should be promptly removed.

Governor Lanham alleges that the new banking act passed by the regular session of the state legislature is defective, and says he cannot approve the measure in its present form.

The legislature of the state of Wisconsin has enacted a law which has been approved by the governor of that state with the object of putting a stop to the practice of tipping.

The railways estimate that the reduced rate on cotton as recently promulgated by the railroad commission will reduce the revenues of the roads about \$500,000 per annum.

Several days have not elapsed since heavy firing was heard on the sea in Chinese waters, and this fact is creating some apprehension on the part of the public that Togo and Rojestvensky may now be doing a little fighting at long range.

Garret Owen's Little Countess By LILLIAN BELL Copyright, 1904, by Lillian Bell

(Continued from Thursday's Issue.)

"It is very difficult," she murmured. "It seems grave, because they have removed him so many times. It almost suggests spite. They have released Josef, yet hold M. Owen. I have met him, a handsome man, with brave eyes and a true heart."

"Elena bent her head in deep thought. 'No, I cannot think that he does,' she said at last. 'He was not in love with you, was he?'"

"In love with me? That spy?" cried Elena, with whitening nostrils. Her aunt laughed gently and continued patting her hand.

"I have a plan!" cried the princess. "I have promised to take an American girl to see some of the sights of St. Petersburg this afternoon."

Elena nearly fainted from disappointment. The princess was furious, but she could do nothing. The commandant was not there, and the man was stupid.

"Yes, 'Garryowen'! Listen. Oh, hold my hands until I can control my voice! Now!" Then the little countess lifted up her pale face and with a voice of piercing sweetness she sang "Garryowen," and as the last notes died away there came an answer in a fine baritone, which, however, trembled as if with weakness.

"He is here! He is there!" cried the three women at once. They were all weeping in sympathy. The princess put a gold piece into the man's hand.

"I love you! I love you!" he cried, shaking the iron door with his weak hands. "It is all a conspiracy. Pollinski's brother, who is a surveyor, wanted to survey!"

"There!" cried the princess. "You are a free man if that is true. My husband can arrange it. Cheer up, my brave nephew; tomorrow you shall dine with us, and then we will discuss the wedding. You shall have my niece and Elena shall have her 'Garryowen.' Come, Elena, my child, let us hasten to release him!"

Cleanings From the Exchanges

Geronimo, the most noted of Indian prisoners, is to have his freedom granted to him shortly. Geronimo in his day was about the worst Indian that Uncle Sam had to deal with, but that was years ago and it is said now that the Geronimo of the present is a very different Indian from the Geronimo of the past.

When Quanaq Parker informed Geronimo a few days ago that President Roosevelt had said the bloody Apaches would be released from military custody within the next year, the old chief gave a whoop that could have been heard for a mile and rode back to the reservation in a dead run.

Everything in a newspaper is not necessarily the sentiment of the editor. He often publishes matter as news, upon which he does not express an opinion. An item may be distasteful to the editor, yet he does not express an opinion; nevertheless, it is news, and he publishes it for others to talk about, and to keep them posted upon what is going on.

Few people understand the work that is involved and the responsibility attached to the publication of a reputable newspaper. They do not understand, and for that reason their criticism is often harsh and unjust.

Albert Patrick is still resting on his oars, smiling at grim death in the chair of the electrocutionist, waiting the action of the court on his present petition and consoling himself with the reflection that there must be another court if this one renders an adverse decision, before this phase of his extraordinary case is argued out and finally disposed of.

Albert Patrick is a Texan and a most remarkable man. He has made such a fight for his life as has been put up by few men with the shadow of death so closely upon them.

It is announced, upon what appears to be good authority, that the Texas railroads will test the constitutionality of the Love gross receipts law. This means that the collection of the tax will be enjoined and that the state will be deprived of extra revenue from that source for some time.

The outlook for the relief of the state treasury does not appear particularly flattering now. With practically every interest in the state protesting against the payment of any more taxes and taking steps to prevent the collection of more revenue by an appeal to law, it looks like patriotism in this state has very nearly gone to seed.

The first big movement from Mexico will take place on the 7th or thereabouts, when the 5,000 head of cattle of the Riverside ranch, which have been herded for several days past in the bosque opposite Sierra Blanca, will be imported into the United States and loaded at Sierra Blanca.

The next big movement will be an importation of 5,000 head on the 8th at Hereford, Ariz., from the Cananea ranch (W. C. Greene) for consumption in the United States.

On the 5th a full trainload of sheep will move from Pecos to the Kansas City market and on the same day a trainload of cattle will be shipped from Valentine to the Kansas City and Fort Worth yards.

In addition to these shipments, there are on file in the office of the local bureau of animal industry applications for inspection for various bunches of cattle

Colds

Don't trifle with a cold; no one can tell what the end may be. A cold, catarrh, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with Chamberlain's Cough Remedy as a quick cure for colds and grip, and by its use the more serious diseases may be avoided.

I regard State Superintendent Lefevre as one of the best authorities in the United States on public education and it is his judgment that the eleven-year course is too long and that better results can be obtained by a nine-year course.

"To my mind this is patent. It takes a child from the age of 7 to that of 18 to complete our course and the result is that in the last few years of the course circumstances are obliged, through stress of work, to quit school or to shorten it for the benefit of the many? "

"He then quoted figures since 1887, showing in that time ninety-three boys and 346 girls have graduated from the city high school, and said further: "I am positive that the system worked out to nine years, leaving only two years in the high school course, that the majority of the pupils in the intermediate grades could be induced to go through the full course to graduation."

WATER PROBLEM SOLVED

Electric lighting and water works were next taken up. In connection with the water works, he called attention to 52 new connections made during the year, as previously announced in The Telegram, and showed that while the receipts were \$13,000 greater than the preceding year, the expenses were \$5,351.64 less. He declared the territory covered by the system had been greatly extended and that the construction of additional wells has solved the water problem for some time to come.

CIVIL SERVICE FOR POLICE

Civil service for the police department was advocated by the mayor in discussing that department. In this connection he said: "This department during the past year has been well and ably handled under the control of the marshal, which is entirely too small for the adequate protection of the citizens of Fort Worth."

"I desire to call attention to the necessity of strict civil service rules to regulate this department. There is no need or necessity of sweeping changes being made in the police department after each election of a city marshal. The police force, which is armed with the police power of the city government, should be free from partisan politics. Under the system heretofore in vogue, where the police force became partisans of some candidate for city marshal, a matter of course, the incoming marshal would be more or less morally bound to reward his friends—necessitating often rapid changes in the personnel of the police force. It takes years of study and experience with local affairs to make a competent police officer, and he should be under strict civil service rules and held to hold his position so long as he fulfills the requirements of the code under which he works. And this is true, gentlemen, with the subordinate employees of the other departments of the city government, and is one that is practiced in every successful business organization in this country, and I commend it and recommend it to the city council."

The fire department came in for a good share of praise in the message, and a hope expressed for additional protection on the South Side. Mayor Powell showed himself in line with Aldermen Henderson and Zurn, who are endeavoring to have extensions made in their wards.

BETTER SIDEWALKS FAVORED

The mayor criticized the condition of sidewalks left without repair and in regard to street improvement districts favored the plan of taking principal streets and improving them from end to end. He said: "The city itself should build this sewer system, and I am of the opinion that it can be done in the same manner that the viaduct was built—by setting aside part of the general tax levy for a year or so for this specific purpose."

Powell declared the city is now practically acting under a new form of government, putting the power in the hands of the people. In this connection he lamented the fact that municipal ownership was lost in the shuffle somewhere, declaring that it should go hand-in-hand with the referendum.

In conclusion he said: "In looking back over the period of our administration of the affairs of Fort Worth, realizing the many difficulties we encountered at the outset and what we have accomplished without the issuance of a single dollar in bonds, I am at a loss to know how it has been done. It is because it has been done at all times the legislative and executive bodies of this city have been willing to meet each other in a spirit prompted by the general good of the city. We have paved Main and Houston streets and built the viaduct, and installed the water works system, and built new school houses, and improved the drains in the heart of the city (in all over a half million dollars in permanent public improvements), and carried out all the functions of government to the fullest extent required under the charter and during this time the values of the city have nearly doubled, and all from the general revenues derived from the taxes—without the issuance of bonds—and for this work and your loyal interest in the city of Fort Worth I congratulate you and commend you most highly."

"In conclusion I desire to extend my thanks for the many courtesies I have received at the hands of the city council and all the officers of the city government."

CAPT. WILLS TO REJOIN PANTHERS

Definite Answer Expected Tonight From Montreal Where He Is Now Playing

Charlie Wills, first baseman and captain of the Fort Worth Panthers last season, is now in the north and will probably rejoin the Panthers and be seen at his old place on the initial bag before many more games have been played at Haines' Park.

Wills, who was quite a favorite with the fans last year, had a batting average of .308 and a fielding average of .888, and is given sixth place in the standing of individual players, as officially compiled. In addition to his high averages he possessed the knack of pulling a trap together and in this way winning games.

Wills is at present playing with the Montreal, Canada, team.

HUMIDITY AT HIGH POINT

But Two Degrees Needed to Cause Rainfall in Fort Worth

Though it requires only 95 per cent of humidity to cause rain in Fort Worth, the weather bureau instruments show that the humidity this morning was 93, just two notches below the rain point. This, coupled with a temperature in the forties, made the weather oppressive.

There are two kinds of humidity in weather bureau vernacular. Absolute and relative humidity. Relative is the only kind computed at the local station. By relative humidity is meant the relation of the amount of moisture registered to the amount required for precipitation.

The weather bureau has two thermometers on the roof. One is called the dry thermometer; the other the wet thermometer. The difference in the two thermometers is that one registers the temperature as it is, the other as the body feels it. Around the bulb of the wet thermometer is wrapped a small piece of cloth, which is dampened. The weather man reads the temperature as registered by the two instruments, takes the difference by subtraction then looks on a table prepared for him. The table shows how much humidity there is between the wet and dry instrument.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-checked. Perhaps that's why they like it so much—they know it makes them feel good.

We'll send you a sample, free. SCOTT & BOWNE, 409 Pearl Street, New York.

GULF LINES CUT EXPORT CHARGES

Provision Rates Reduced for Frisco Competition With Eastern Ports

A cut in provision rates from St. Louis to Havana has been made by the Frisco company. The rate will be 34 cents per hundred pounds, a reduction of 5 cents; from Omaha, 44 cents, a reduction of 5 cents, and from Chicago, 40 cents, which is a similar reduction. The rate will apply to Cuban export ports.

In making these rates, which will be established likewise by the Missouri Pacific, the Mobile and Ohio, the Illinois Central and the Louisville and Nashville, the Gulf lines are seeking to equalize the situation for the west, so that the same basis shall apply from Chicago to Havana via the Gulf lines as applies from New York on the combination of the locals.

ELECTRIC INTERURBAN

San Marcos and Luling to Have Connection A charter has been issued the San Marcos Valley Interurban Railroad Company by the secretary of state. The company has a capitalization of \$500,000 and is formed for the purpose of constructing and operating an electric line between San Marcos and Luling, a distance of twenty-four miles. The headquarters of the company will be at San Marcos.

EL PASO CUT OUT

Charges Discrimination in Making Laredo Common Point The people of El Paso are entering objection to the report of the southwestern traffic committee, which places Laredo on the Texas common point list, which, it is claimed, gives that place advantage over El Paso in handling trade in and around Monterey, Mexico. Heretofore El Paso, Eagle Pass and Laredo stood together on the Rio Grande crossing rate.

The Chamber of Commerce at El Paso has taken the matter up with the Rock Island, Santa Fe and Texas and Pacific roads, calling attention to the fact that this discrimination against El Paso is a cut against their business, as those roads cannot derive any benefits by giving Laredo this rate. It is claimed that the discrimination in Laredo's favor will tend to reduce the amount of business that the roads are now hauling to El Paso.

It is likely that El Paso will ask to be made a Texas common point. Under the present condition of affairs El Paso will be practically prevented from doing business with Monterey.

COMMISSION BUSY

Has Disposed of 2,712 Complaints Since 1900 Since January, 1905, 2,396 formal complaints have been filed and 2,712 disposed of by the interstate commerce commission. The number of cases heard and determined by the commission and taken to the courts to enforce the commission's orders is forty-five. In eight cases the rulings of the commission were sustained, in twenty-nine cases the courts declined to enforce the commission's orders, four have been discontinued and four now are pending in circuit courts. In sixty-three cases the courts held, directly or by implication, that the statute did not give the commission authority to make the orders sought to be enforced; in other words, that the things done which constituted the grievance could not be prevented under the present law. A considerable number of these cases grew out of the efforts of the commission to give some practical meaning and effect to the long and short haul provision of the act. All these efforts failed, according to the commission, with the result that the long and short haul clause for all practical purposes has been eliminated from the statute.

SAFELY THROUGH MOTHERHOOD WITHOUT PAIN. What a wonderful message of hope and escape from suffering these words carry to that woman who is dreading the hour that shall proclaim her Motherhood. Perhaps for her it is the first time she has blessed her with what awe and mystery and fear she contemplates the coming event which even now is casting its shadow before in the way of many painful discomforts? The hope held out in these words means that child-birth has been turned into an event of thanksgiving and joy, stripped of its agonizing dangers because of the learned skill of man.

ITALIAN AMBASSADOR GUEST OF AUSTIN
Addresses Legislature and Praises the Resources of the Lone Star State
Special to The Telegram.
AUSTIN, Texas, May 6.—Baron Des Planches, Italian ambassador to the United States, and party reached Austin this morning at 11 o'clock and will remain here during the remainder of the day.

He was the guest of the state and legislative bodies. He was met at the depot by Governor Lanham, the legislative and the citizen's committees, and was driven to the state house, where he was officially welcomed by the legislature in joint session.

Baron Des Planches delivered an interesting address to the legislature, in which he complimented the people on the wonderful resources of the state. The baron declared it was the intention of his government to send several colonies to this country, and he said they could not find a better place than Texas.

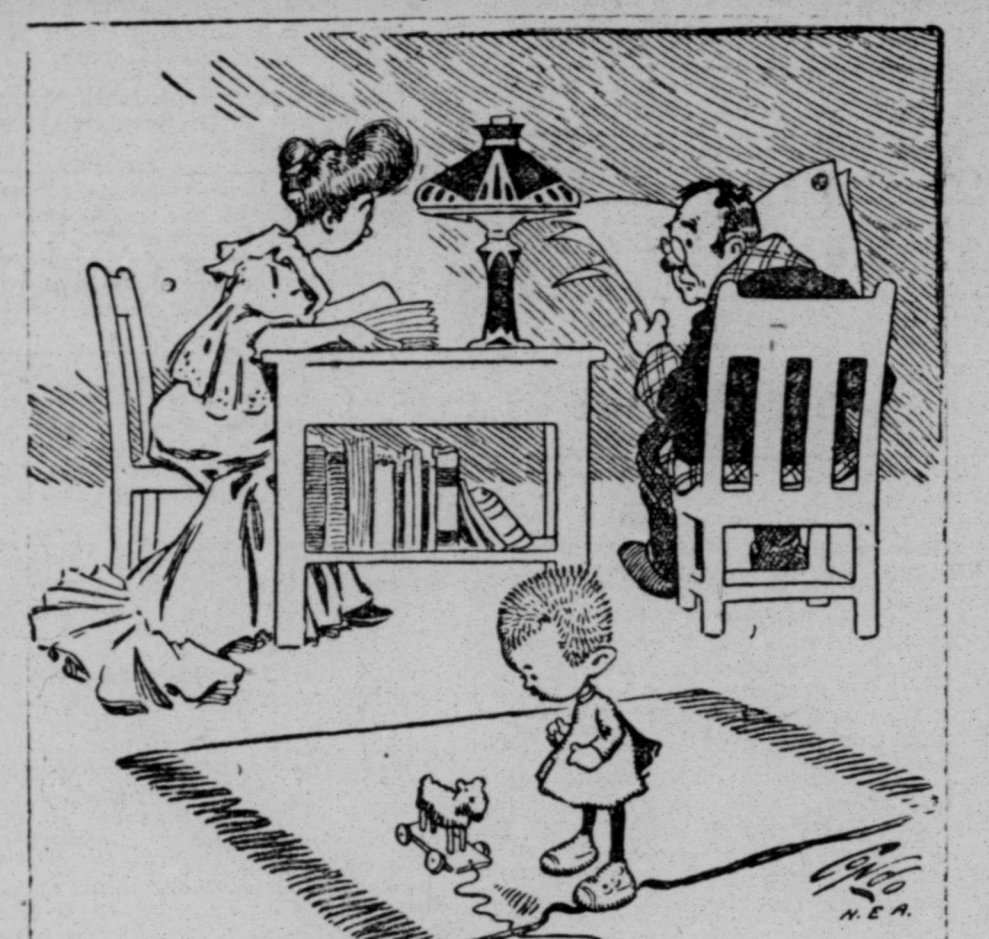

The baron was entertained by the citizens this afternoon.

Young Steers Gain the Most

By John A. Craig, College Station, Tex.

The following paper on "Experiments in Cattle Feeding" was read before the meeting of the Panhandle Cattle Raisers' Association by Professor John A. Craig, dean and director of the Texas Agricultural and Mechanical College:

As there has been some discussion and interest taken in the establishment of a feeding station in the Panhandle, it may not be uninteresting for me to indicate the plan which has been followed in establishing state sub-stations. At Troupe and Beeville, where we now have sub-stations, the people of the community have given 150 acres of good land for this purpose; then they got up a petition signed by all the people in the locality, likely to be benefited by the experiment, and sent it to the legislature, requesting that such a station should be established. The member of the legislature, representing the community, introduced a bill providing for the establishment for such a station, and setting aside about \$10,000 for permanent equipment in the way of buildings and machinery and about \$3,000 a year for maintenance. This has given us sufficient funds to establish and equip experiment stations in each of these localities, and I believe the people in these localities thoroughly appreciate the good which these stations have done in developing and directing the agricultural resources of their locality. I believe that if a similar course were followed by those interested in the establishment of a feeding station in the Panhandle, it would be an easy matter to carry such a project through.

Before taking up the main topic, which has been assigned me, I wish to make another digression by saying that we publish during the year a large number of bulletins, covering different phases of agricultural work. During the past year we sent out over 150,000 copies of these bulletins. We have a regular mailing list which now has on it the names of about 25,000 farmers. I wish to say that these bulletins are sent to any applicant and if any of you wish for them at any time, if your home is not already on the mailing list, all that is necessary for you to do is to drop me a postal card giving your conditions and leave it to the after discussion to bring up any points of interest to you that I have omitted.

To understand some of the points which have been brought out in cattle feeding, it will be necessary for me to refer to a few elementary facts, which were determined by experiments some time ago. All cattle foods are chiefly valued for the amounts of three constituents, which they contain, namely, protein, fat and carbohydrates. It is these constituents that give food value for feeding. The protein is supposed to favor growth and make muscle. The fat of the food makes the fat of the body, while the carbohydrates are thought to favor the production of heat or maintenance. A good example of a food rich in fat and protein is cotton seed meal, while corn is represented to class as rich in fat and potatoes affords an example of a food containing a large percentage of carbohydrates.

It has been found further that these constituents should be represented in certain combination. For instance, it does not do to feed an animal, if you wish to fatten it, on a food that contains a great deal of protein, but the ration should be a combination of those three constituents in a certain relation to each other. When you feed a young animal on corn alone, it will get very fat but will not make very satisfactory gains. We like potatoes, alfalfa and corn, cotton seed meal and sorghum, and other similar combinations give the best results because the ration is balanced. In addition when we feed a variety of foods together, we make the ration more appetizing.

In most experimental work that has been done, a variety of foods usually gives the greatest gain, though not always the most economical. We know in practice that it will not do to feed steers too long on a single food, as, for instance, they will tire on a continuous ration, and they will also become sick on a cotton seed ration continued over 150 days. In regard to preparing food for cattle in different ways it may be said that the general results of most experiments that have

SPRING WOOL CROP OF GOOD QUALITY

Prices at San Angelo Higher Because of Better Quality—Mutton Prices Also Good
SAN ANGELO, Texas, May 6.—Shearing is coming in rapidly. The spring wool will not be over until the end of this month and the clip will not be ready for market until June. This year's wool is of fine quality and a good staple and will bring 50 a pound advance over last year.

Muttons are going out to market every day and the range muttons are in splendid condition. The mutton men expect to have some considerable money when the shipping season is over.

The top price for fat range muttons so far is \$4 per head. McKenzie & Ferguson sold to J. R. Hamilton 3,000 of the fat range muttons, with the wool all sheared off at that price.

George B. Hendricks of San Angelo, Max Mayer of Sonora and Sam Wootton of Fairfax, Okla., are making a trip through the Devil's River country to the experimental station, 2,468 head of sheep, lambs not counted, with eight months' wool on their backs, a wagon and eight horses and a camp outfit, for a total of \$3,600.

The following recent shipments have been made: J. R. Nasworthy, one car horse; to Coleman; J. S. Taylor to Red Rock, Okla., sixteen cars stock cattle; San Angelo National Bank, three cars muttons to Kansas City; M. L. Mertz to Summit, I. T., five cars stock cattle; C. W. B. Collins to Elgin, Kan., five cars stock; R. R. Russell to Fort Worth, six cars stock cattle; McKenzie & Ferguson to St. Joseph, six cars mutton; Stanley Turner to Houston, one fine stallion; William Anson to Fort Worth, one fine stallion.

STOCK GROWERS MUST PUT UP

The national stock growers' organization, the American Stock Growers' Association, has been looking around for a man who would accept the presidency of the body at the first annual convention, which occurs at Denver next week. Men of the caliber and standing necessary have not been easy to find. The well-known failure of cattle growers in general to support their organization in a practical way has made these men reluctant to assume presidential responsibility. Murdo Mackenzie of Colorado, one of the big men in the organization, has finally consented to allow his name to be presented, but he stipulates that he will not take the presidency unless the cattlemen "put up" and stick by the body in a practical way.—National Provertiser.

POSTAL CLERKS MEETING

Defeat Polytechnic College in Ball Game at Lake Erie
Railway mail clerks of the city gave a successful picnic at Handley Friday afternoon and evening. One hundred clerks with their families and friends left for Lake Erie on the 4 o'clock car, returning at 8 o'clock in the evening.
A five-ning ball game at Lake Erie between the postal clerks and Polytechnic College resulted in a victory for the clerks by a score of 1 to 2. Baskets of good things to eat were opened and refreshments served out of doors.

A NOTRE DAME LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box 422, Notre Dame, Ind.

A Cereal Secret

People have wondered why Egg-O-See is so much better than the ordinary flaked wheat foods.
The main reason is that Egg-O-See is made from the whole grain of the choicest California white wheat, which costs 15 to 20c per bushel more than the wheat ordinarily used, and is very much better for this purpose on account of the large, plump grain so rich in the proper elements of a healthful food.
Every process of its manufacture is attended with the utmost sanitary cleanliness, and it is packed in air tight, inner-lined, germ proof cartons.

UNITARIAN SERVICES
The following are the subjects as announced by Rev. D. C. Limbaugh, the Unitarian minister, as the subjects of his Sunday morning discourses for the month of May, to be delivered at the Temple on Taylor street, near Seventh: May 7, "What Is Our Real Guide as to Conduct, the Bible or Human Experience?" May 14, "The Meaning and Uses of Faith." May 21, "The Meaning and Uses of Prayer." May 28, "A Rational View of the Spiritual."

MAGICIAN SHOT WITH CANDLE

W. W. Woodson Brought to This City Suffering From Peculiar Accident

W. W. Woodson, a son of W. E. Woodson, living on the White Settlement road, and a brother of Mrs. C. B. Ambrose of Glenwood, has been brought to the home of his sister from Galveston where he was shot in the leg with a tallow candle, causing painful though not serious injuries.
Mr. Woodson was one of a magician troupe performing through the state and in the course of the performance the peculiar wound was received, supposed to be due to an overcharge of powder in the blank cartridge used to expel the candle from the muzzle of the gun.

BIBLE CRITICS TO BE ATTACKED

NEW YORK, May 6.—Adverse criticism of the Bible will be vigorously attacked at the convention which has been called to meet in this city May 16, under the auspices of the American Bible Society. Leading men in the various evangelical churches have been invited to attend.
According to a program arranged by the executive committee of the league, discussions will be focused on recent attacks on the credibility of the Scriptures. Among other things, papers will be read by "Egyptologists" and scientists who have conducted special lines of research as to the origin of the Scriptures.
Opportunity will be afforded for discussion of the various papers and addresses, and it is expected that the lines will be sharply drawn between the advocates of higher criticism and those who believe the Bible to be an inspired book.
