The report of the trustees of the general assembly showed total receipts last year \$39,563.26. There was disbursed \$32,054.69. The presbytery of Montgomery petitioned the assembly with reference to an interpretation of the clause having reference to installation of pastors.

FIRST PRESBYTERY

A communication as to the formation of the first presbytery of the United States was read. The first presbytery was organized, it was stated, in 1706, and the two hundredth anniversary is to be celebrated in May, 1906.

The moderator, at this juncture, delayed the reading of the sixth annual report on permanent church and Christian education, while forty young ladies of Milford College filed into the building and were seated in the Sunday school room. They are in charge of Dr. Evans.

PREPARING FOR IMMIGRATION The immigration agents of the Missouri Pacific system, over 100 in number, have been in this city this week. They are on a tour of the southwest Texas and coast country for the purpose of investigating its possibilities as a field for colonization. Pain in the Head

Is a danger signal, warning you that the brain nerves are exhausted-irritated, and are undergoing an unnatural strain.

Frequent and prolonged attacks of pain weaken the generative power of the nerve cells of the brain, and lead to loss of memory, melancholy, spasms, epilepsy, and frequent-

ly insanity. When the brain nerves are weakened they are unable to supply sufficient nerve force to the nerves that control the lungs, heart, stomach and other organs, and these organs are thus robbed of energy, and unable to meet the demands upon them, and they get sick.

Stop the head pains with Dr. Miles' Anti-Pain Pills, and the influence upon your general health will be greater than you can realize.

"I want to tell you how thankful I am for Dr. Miles' Anti-Pain Pills. From a child I have been subject to sick headache, and never found any lasting relief until I received a sample of Dr. Miles' Anti-Pain Pills while in Geneva six years ago. By taking one it usually throws off my pain, so I san go about my home duties."

A Cereal Secret

People have wondered why Egg-O-See is so much better than the ordinary flaked

wheat foods. The main reason is that Egg-O-See is made from the whole grain of the choicest California white wheat, which costs 15 to 20c per bushel more than the wheat ordinarily used, and is very much better for this purpose on account of the large, plump grain so rich in the proper elements of a healthful food.

Every process of its manufacture is attended with the utmost sanitary cleanliness, and it is packed in air tight, innerlined, germ proof cartons.
