

War-time Washington

(By Congressman Eugene Worley)

It is difficult to realize how much this world has shrunk. In one day I flew from Casablanca which is in Morocco, North Africa to Washington D. C. which is better than three thousand statute miles. We hit good weather and bad weather. Sometimes we could see the wing tips but often they were obscured by the clouds. You've no idea how much you'd like to reach out and pat those engines as you fly along at 200 miles an hour and awful lot of blue water below you. Compare a one day flight from North Africa to America by the months required by Christopher Columbus when he ventured across the Atlantic.

The day before the war ended we were in Germany in the morning, in France in the early afternoon, London that afternoon, and could have been in New York or even San Francisco the next day. These illustrations give you some idea why we must adjust our thoughts and perspective in terms of increased speed in transportation and communications. It is difficult to see the damage done by a Nazi V-2 bomb and still pay no attention to what goes on elsewhere in the world. It is difficult to see the terrific destruction heavy bombings can cause and still feel that the two oceans offer the United States the same protection against the enemy which they have provided in the past.

It might be of interest to point out some of the characteristics of the V-2 bomb, which was giving London plenty of trouble. The German V-2 bomb is a 13 1/2 (long) ton wingless projectile that travels at a maximum speed of 3600 miles per hour, which is faster than sound travels. Consequently the V-2 had already hit and exploded before the sound was heard. Approximately 9 1/2 (long) tons of liquid fuel are used to obtain the thrust for flight. The fuels are liquid oxygen and alcohol in about a 50-50 ratio. The bomb is 46 feet long and 5 1/2 feet in diameter, is launched from a vertical position, and when it reached the desired velocity and height for a particular range, the fuel is cut off by radio or by an internal pre-set control. Military experts told me that had Hitler been two months ahead in his V-2 production program, London would have been wiped off the map.

And another revolutionary invention which could well be a potential weapon is the jet plane. Engineers and scientists say there is virtually no limit to the speed at which the jet plane can travel. About the only limitations are those upon the physical endurance of the pilot and how much stress and strain the plane itself can stand. They say, for example, the future jet plane can travel 800 miles an hour. As pointed out above, the V-2 traveled at 3600 miles an hour and please bear in mind that the Nazis scientists and engineers were just beginning to develop this type of bomb.

I was in the following countries Germany, France, England, with a low level flight over Belgium on our way to the coast. Then Italy and Greece, Egypt, and Palestine, the Holy Land. And back into North Africa. It sounds very strange to hear an army flier in Egypt, for example, say that he was in India yesterday and that everything was fine; or that he was back in Washington day-before-yesterday and the weather was hot.

It is indeed a small world—and as I heard one of our G. I. s in Europe say, "Maybe that's what's wrong with it."

Weather Sonde Track Recovered Here Friday

A Sonde Track, released at Clovis, N. M., by the U. S. Weather Bureau, was recovered by Mr. J. J. Prince on the Percy Lamarr farm about 12 miles northwest of Dimmitt. The instrument was sent up June 25, by balloon, and was recovered June 29. The parachute was calculated to reach an altitude of twelve miles and acted as a radio broadcaster of weather conditions. It was mailed back to Clovis Saturday.

Pacific Veteran Arrives In States

Mr. J. C. Powell received a telegram Thursday of last week from his son, Master Sergeant James Powell, who had just arrived at San Francisco after two years and four months service in the Pacific War zone. Sgt. Powell was sent direct from San Francisco to San Antonio after arriving in the States. He has been connected with the 1st Cavalry Division as a mechanic and has engaged in all of the major Pacific campaigns. His wife, Mrs. Leona Powell and their son, Jimmie Jr., have been making their home with her parents in Haskell county.

U. S. Employment Service Office Is Opened, Hereford

"An office of the United States Employment Service has been opened in Hereford, Texas. Mr. J. B. Bruce, a veteran of World War II, is in charge of the office, which is located in the City Hall Building," stated Mr. F. A. Wells, Area Manpower Director, Amarillo, Texas.

The primary purpose of the Hereford office will be to facilitate needed employment of veterans; however, Wells stated that all persons regardless of veteran status, in need of employment should file their application. Likewise, all employers in Deaf Smith, Castro, and Parmer Counties needing workers should place their orders with the Hereford office.

Mr. Wells emphasized that the opening of this office and the services to be rendered by it will not conflict with any other agencies or community activities already established to provide service to the veterans but will facilitate such services.

Mr. Bruce indicated that he is anxious to meet the community leaders and employers, as well as job seekers, and get acquainted with all others who care to visit the office.

Maritime Service Office Opened At Amarillo

In view of the urgent need for men, the United States Maritime Service which is the training organization for the United States Merchant Marine, has ordered Ensign Yale V. Clark and Chief Pharmacist Mate Walter Mahusky to the United States Employment Service Office in Amarillo. They will be there for one week beginning July 9 and ending July 14 for the purpose of giving physical examination to eligible applicants between the ages of 17 and 50 who are interested in serving their country in one of the most vital branches of service. Training is offered in the deck, engine, radio, purser, pharmacist-mate and stewards departments with splendid opportunities for advancement.

Eligible applicants who meet the physical requirements will be sworn in and shipped direct from Amarillo to the United States Maritime Training Station at government expense.

The government is offering this accommodation in order to help Texas meet its assigned quota of 200 men per week.

Applicants must present birth certificates; men under 21 must have the written permission of their local draft boards to enroll in the United States Maritime Service. These papers should be obtained in advance and presented at first interview in order to speed up enrollment.

U. S. Marine Corps Needs 100 Men

U. S. MARINE CORPS will enlist 100 seventeen year old men during the month of July. Those enlisting now will serve for the duration and six months. Men who would like to go to duty at once may do so or can be placed on inactive duty for a period of thirty days. All men will take their "Boot Training" at Parris Island, South Carolina. Applicants should write or call at U. S. MARINE RECRUITING OFFICE 217 P. I. Bldg., Lubbock, Texas, enclosing their birth certificate.

Hart 4-H Club Holds Meeting

The Hart 4H Club met Friday afternoon, June 22, at the home of Betty Brooks. Those present were: Myra Newsom, Lois Faye Toddie, Betty Brooks, Peggy Jobe, Erna Glen Hacker, Patsy Jean Monk, Atoinette Bouman, Shirlene Hacker and Miss Petty.

The president, Betty Brooks, presided at the meeting. Miss Petty gave a demonstration on good grooming for the yard.

Several games were played and prizes were awarded to the winners.

The meeting was adjourned and refreshments were served by the hostess and enjoyed by all.

The next meeting will be held in the home of Peggy Jobe on the 4th of July.

NEWSMAN, WIS. — Jake Van Bendegom offers to give his customers any grocery item they find marked above ceiling price in his retail grocery store. Although shoppers through store of Van Bendegom, who was named typical American grocer by the National Association of Retail Grocers, he declares he has not yet given away a single item. Van Bendegom points out that grocers always have invited cooperation of customers in checking price ceilings, thus aiding inflation control.

Report For Pre- Physical Exams

The following Castro county men were ordered to report to Oklahoma City on July 3 for their pre-induction physical examinations: Leon L. Ledbetter, H. C. Nelson, Harvey E. Cross, Jim A. Bagwell, William H. Simpson, Frank T. Martin.

Service Officer Desires Contact With Veterans

With the establishment of a Veterans County Service office on a permanent basis in Castro County, it is the desire of the Service officer to contact every veteran of all wars to see if they are aware of all the benefits to which they are entitled. Also widows and dependent parents of deceased veterans.

As the laws relating to veterans benefits have been greatly liberalized in the last few years it would be well for all veterans to call at this office, especially those drawing compensation or pension.

Anyone knowing of a veteran or widow of a deceased veteran who is not drawing compensation or pension they are entitled to draw please have them call at this office.

The office will be open Wednesday and Thursday of each week and is located in the Commissioners Court Room at the Court House.

Each week information concerning veterans, including new rules and legislation, will be published in this paper.

James K. Birdwell Gets Promotion

At An Air Depot Of The AAF Service Command In Italy—James K. Birdwell, son of Mr. and Mrs. James M. Birdwell, Dimmitt, Texas recently was promoted to Corporal. Following his graduation from Dimmitt High School in 1941, Corporal Birdwell was employed by the Agricultural Adjustment Administration as a clerk. He entered the armed forces in April 1943 and joined his present organization in Italy.

He performs his duties as a propeller mechanic with a repair squadron at a large air depot of the AAF Service Command.

The Church of the Living God is the most influential institution on earth. The Lord loved the Church and gave Himself for it. And it is to the Church with her message, mission and motive that we look today to give mankind the hope and inspiration he needs for this day and hour. Our children need the Church, we adults need the Church, our society with all its institutions need the Church, and because of these facts we need to give the Church a place in our lives. This Lord's Day make your way to the Church, and worship with the people of God. "COME THOU WITH US AND WE WILL DO THEE GOOD."

Telegram Notifies County Chairman Drive Is Success

Mr. Percy Estes, Castro County 7th War Loan Chairman, received the following telegram today from Mr. Nathan Adams, Chairman of the War Finance Committee of Texas:

"Delighted to note from official Sales report that you have exceeded both E Bond and overall quotas. This exceptionally fine job. Would appreciate your continued efforts on E's through balance this week".

The last official report, published in the last issue of the News, showed Castro County to be over the top in its overall quota, but lacking several thousand dollars of meeting the E Bond quota. The above telegram substantiates the belief of local officials that the E Bond quota had also been reached. Although definite figures on sales of all series of bonds will not be available until next week, Castro County citizens will be pleased to learn that the perfect record of the county in meeting its War Bond quotas has been maintained.

Champion of Champions

CALGARY, CANADA — This champion of champions, Alcarra Gerben, a pure bred Holstein owned by Hays & Co., holds the largest official yearly butterfat record ever made by a dairy cow of any breed anywhere in the world, regardless of age or times milked daily, according to figures just released by the Dominion Department of Agriculture. In 365 days she produced 1,409 pounds of fat from 27,745 pounds of milk on four-times-a-day milking. At a banquet here honoring the new champion, Hugh Colson, editor of the Holstein-Friesian Journal, pointed out that the butterfat total of 1,409 pounds is almost double that of the champion of 1937, the U.S. Holstein, Belle Sarcenic. Since that year the official world butterfat record for yearly production has been held by members of the Holstein breed with the exception of one year, 1915, when a Guernsey held the championship.

It is still dry but the wind has
been more gentle. Nearly every one
has finished harvesting wheat
which made from 4 to 25 bushels.
We heard of some small patches of
irrigated wheat making 30 bushels.
Average dry land was about 7 bu
per acre. Irrigated averaged ab-
out 18. Anyway we are thankful
for all we gathered and still think
this a fine farming country inha-
bitd by swell people.

Forecast for next spring. Among
your new warm weather clothes will
be crisp cottons in high-style colors
—the bare-back dress with a bolero
will be more popular than ever.
Combining both these style notes in
this perky ensemble of black with
cross-hairs and bolero in lime green.
A home-sewn wardrobe will save
money for War Bonds. Patterns at

LEGAL NOTICE

THE STATE OF TEXAS
TO: Willie "Bill" Daniel Davis
GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 6th day of August, A. D., 1945, at or before 10 o'clock A. M., before the Honorable District Court of Castro County, at the Court House in Dimmitt, Texas.

Said plaintiff's petition was filed on the 18th day of June, 1945. The file number of said suit being No. 1854. The names of the parties in said suit are: Willie Bernice Davis, as Plaintiff, and Willie "Bill" Daniel Davis as Defendant.

The nature of said suit being substantially as follows, to wit: Plaintiff sues for divorce and custody of children and alleges that she has resided in the State of Texas 12 months immediately prior to exhibiting this petition as an actual bona fide inhabitant of said State, and has resided in Castro County, Texas, where suit is filed, for a period of six months next preceding the filing hereof; that the residence of the Defendant is unknown; that Plaintiff and Defendant were legally married on April 14, 1937, in Plainview, Hale County, Texas, and lived together as husband and wife until on or about January 1st 1941, at which time, without provocation on the part of the Plaintiff, Defendant voluntarily left and abandoned this petitioner with intention of finally separating and living apart from her, and has continued so to do from on or about January 1st, 1941, to the date of filing this petition.

That there was born to this marital union three children, Daniel Eugene Davis, a boy 7 years of age; Frankie Ann Davis, a girl 6 years of age; and Curtis Wayne Davis, a boy 4 years of age; and that there exists no community property between Plaintiff and Defendant. Plaintiff alleges that she is a proper person to have the care, custody, and control of the aforesaid minor children; Wherefore she asks that citation issue; that on final hearing, she have judgment for divorce and that she have custody of the above named children.

Issued this the 19th day of June, 1945.
Given under my hand and seal of said Court, at office in Dimmitt, Texas, this the 19th day of June A. D., 1945.
Ola Murphy
Clerk District Court, Castro
