ASKS FOR PEACE TERMS

Peace Negotiations Will Be Conducted Through Foreign Representatives

ST. PETERSBURG, June 8.—As a result of a meeting of the council of ministers held at the Tsarsko-Selo yesterday instructions were telegraphed this afternoon to the Russian ambassador at Washington and at Paris to the effect that Russia is desirous of learning Japan's peace conditions.

NEWS AT PARIS June 8.—It is definitely known Russian Foreign Minister Lamsdorff, seconded by M. Witte, president of the committee of ministers, has initiated overtures through Russian representatives abroad to learn Japan's disposition and terms of peace. These overtures, it is said here, began three days ago, and were the basis of decidedly the more hopeful view which officials began to have.

At the same time it was then and is still recognized that Count Lamsdorff and M. Witte represent the peace element and it is not yet clear how the movement is shared by the emperor. However, Count Lamsdorff's position gives the overtures force, coming from responsible quarters, whereas previous movements lacked official origin.

Way is Clear This clears the way for conversation between the officials and diplomats here and at other capitals which are now going on. These necessarily are cautious owing to Russia's inability to approach Japan directly. M. Nelidoff, Russian ambassador here, has already conversed with the French authorities who are fully aware of the desires of Count Lamsdorff and M. Witte.

The change of the foreign office portfolio from M. Del Casse to Premier Rouvier has caused a slight delay, but there is every indication that M. Rouvier will lend a strong aid toward bringing the parties together. This will likely occur both through Japanese authorities here and indirectly with London as the intermediary of Japan.

British and American Influences are chiefly relied on to move Japan, now that Count Lamsdorff and M. Witte have made preliminary approaches. The sentiment here is strongly against over-optimism as it is said that serious obstacles remain. One of the chief among them being the emperor's failure to personally approve Count Lamsdorff's initiative, which leaves a doubt as to whether the movement has the silent acquiescence of the emperor. Diplomats here hold that Tokio would prefer to continue the war until Vladivostok is taken and all the territory up to Lake Baikal is under Japanese control. Diplomats also believe that Tokio will hesitate to lay down terms until it is clear that Emperor Nicholas is willing to treat for peace.

NEWS AT WASHINGTON WASHINGTON, June 8.—Acting Secretary of State Loomis called on the president today, immediately after a visit of Ambassador Jusserand of France. While he admits nothing as to the nature of his visit, there are excellent reasons for the statement that he presented to the president in deciphered cable dispatches from Ambassador Meyer at St. Petersburg and Ambassador Reid at London, the situation abroad.

A dispatch from Ambassador Meyer was received overnight, but not translated until today. The nature of its contents at this time is not known.

Mr. Loomis, as he left the White House, said he was not in a position to

discuss the peace situation at all. He expressed the belief that nothing would be made public here in an official way today regarding negotiations. He admitted that the situation is delicate and gave that as a reason for not making public any of the details concerning negotiations as they have thus far progressed.

CONFERS WITH PRESIDENT

WASHINGTON, June 8.—M. Jusserand, the French ambassador, had a conference with the president after the latter's arrival at the executive offices today. The ambassador was with the president for about a half an hour. At the close of the interview Ambassador Jusserand said that he could not disclose the object of his call. Pressed for a statement as to whether peace negotiations were in progress, he replied that he could say nothing as he had no news. He said if anything at all was to be made public it would have to come necessarily from President Roosevelt.

So far as the conference with the president was concerned, he said he was not at liberty to say anything.

TEN THOUSAND LOST

Admiral Rojestvensky Lost Ten Thousand Killed and Wounded

GUNSHU PASS, Manchuria, June 8.—According to reports received by General Linewich from naval officers who have arrived at Vladivostok, the losses of Admiral Rojestvensky's fleet were from 9,000 to 10,000 officers and men killed or drowned and about five thousand prisoners.

A SUBMARINE BOAT EXPLODES AND SINKS

ALL MEMBERS OF THE CREW GO DOWN WITH BOAT

Carried Fourteen Officers and Full Crew—Explosions Were Heard Just Before Boat Foundered

Outside the Breakwater

PLYMOUTH, England, June 8.—A submarine boat has been lost, with all hands aboard, outside the breakwater this morning. Three explosions are said to have occurred on the boat before she foundered. She carried a crew of fourteen officers and men, which were all on board.

The disaster occurred while the AS was proceeding to sea for practice, accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the AS, which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

WOULD GO TO CONGRESS

Woman in Colorado Wants to Know if She Could

DENVER, Colo., June 8.—Have Colorado women the right to be congressmen? This question is now up to Governor Jesse F. McDonald, and all his gallantry will be called into question to decide it. His friends have warned him to be careful and make no mistake. The question comes from Miss Lorena Austin, a school girl of Neola, Iowa. She is studying the science of government at school and she believes in going to original sources for her knowledge, therefore she has written the following letter to the governor:

"Will you oblige me by telling me whether the women of Colorado have the right to be congressmen or not? This question was asked me in school and I could not find out."

Governor McDonald is at Leadville today and does not know the trouble that awaits him, but tomorrow he will return and be up against a knotty problem.

FINED FOR SLEEPING

Two Men Sent to Jail for Sleeping in Church

CHATTANOOGA, Tenn., June 8.—Chas. Shubert and Charles Shook were each fined \$20 and costs for sleeping in the Whiteside Baptist church. Neither had any money, so they were sent to the workhouse for three months to work out their fine.

Shubert had knelt down to pray, and had his arms stretched out in front of him, when he went to sleep and began snoring. Rev. B. W. Austin testified at the trial that his sermons had been much interrupted on many occasions by men going to sleep, and snoring so loud that he could not be heard.

MERCHANTS WILL PAY THE TRIBAL TAX

MAYOR FITE FINDS CAPTAIN OF POLICE NOT GUILTY

This Decision Will Allow the Indian Police to Close All Places of Business That Refuse to Pay the Tribal Tax

MUSKOGEE, I. T., June 8.—Mayor Fite handed down a decision in the case of John C. West, captain of the United States Indian police, this morning, declaring the defendant not guilty.

West was charged with assault and battery on the person of C. C. Ayers, who was ejected from the Patterson Mercantile Company last Friday. The Indian police, under orders from Indian Inspector Wright, took charge of the stores with others, and when Ayers attempted to enter he was shoved out.

The cases against the other seven Indian police, charged with a similar offense were dismissed by the court. The matter was immediately reported to Washington and orders from the interior department are expected today directing the Indian agent to proceed with the collection of the tax.

Several business men have signified their purpose of paying the tax, and the opinion here is that all the houses must do the same, or else submit to being closed and sue for damages.

The decision of the mayor is approved by the people generally, as the delay gave the Creek committee of business men time to reach Washington, who will probably see President Roosevelt today.

Several telegrams passed between the Indian inspector and the interior department yesterday and today, while District Attorney Mellette was in communication with the department of justice.

What action is to be taken, however, is unknown here. No instructions have been received from Washington so far as the tax must be paid pending a decision by the supreme court of the United States, and several merchants have broken through the ranks of the "stand patters" and applied for tax blanks, many of which were delivered by the Indian police during yesterday. H. C. Cobb & Co., whose drug store was one of the places closed last Friday, is one of those who received blanks, and the presumption at the agency is that these people will pay the tax immediately.

MARRIAGE REHEARSALS

Minister Says They Are Same as Legal Weddings

BALTIMORE, June 8.—Rev. Charles R. Guthrie, pastor of the Park Place Methodist Episcopal church, will not read the marriage ceremony for rehearsing parties.

"I will not rehearse wedding parties in any case," he said today, "because I am convinced that weddings with great display and elaborate preparation work more harm than good and are in part at the base of a serious social evil."

"I believe when a clergyman takes part in a rehearsal to the extent of reading the service the man and woman are at the end of it just as much married as if the license had been issued and the contract solemnized in the regular form."

AN AUTOMOBILE DOG

Reginald Vanderbilt Starts a New Fad For Automobileists

PHILADELPHIA, June 8.—The automobile dog is the latest and the most popular dog in the city. Reginald Vanderbilt, so far as known he was introduced to society last night for the first time at the horse show.

When Mr. and Mrs. Vanderbilt went to the show in the auto the dog, a small black and white terrier, sat in the front seat. His legs were incased in leather and a leather cover corresponding to a tight-fitting blanket was over the rest of his body.

When he had taken his place in the front seat a pair of goggles that fitted his eyes were put on his nose and held in position by an elastic band. He created so much amusement that he ordered to disperse the crowd of chauffeurs, while the Vanderbilts were in the show, undressed his dogship.

TO SAVE MAN WHO SHOT HER

Chorus Girl Appears in Court to Plead for Sweetheart

PHILADELPHIA, Pa., June 8.—Bessie Heien Davis, chorus girl, who was shot by Edward Smedes, a member of the same theatrical company, appeared at the police station to plead for her assailant's liberty. Several days ago she wrote a letter from the hospital to Captain of Detectives Donaghy begging him to assist her in securing Smedes' freedom. She said she intended to withdraw all charges against her sweetheart because, she said, "he did not mean to hurt me."

Smedes is charged with murderous assault.

BOY LURED TO HIS DEATH

Hears Cackle of a Hen and is Crushed by Train

COLUMBUS, June 8.—Admiral Dewey Moran, aged 6, son of Mrs. Henrietta Moran, widow, was lured to death by the cackling of the hens in a poultry car and the sight of the eggs on the floor. As he climbed on the bumper another car was backed against the poultry car and his body was caught.

TOOK LINCOLN'S PLACE

Decorate Grave of Man Who Represented Lincoln in War

STROUDSBURG, June 8.—Wadsworth Post, G. A. R., had charge of the special services today over the grave of J. Sumner Staples, who was the substitute representative for Abraham Lincoln during the civil war. Mr. Staples died on Jan. 11, 1888, aged 43 years. The files in the pension office show that Lincoln, although he was not subject to draft, was recruited in an untimely manner. He was recruited in the army to represent him at front, and that man was J. Sumner Staples, a son of the Rev. John L. Staples, of this town, who was also in the army as chaplain of the Second District of Columbia Infantry.

Picture of Bible Class to Be Shown on Screen

At the tent meeting on East Leuda street Rev. Hamlin preached on "The Prodigal Son" last night. Mr. Kendall read the New Testament narrative and illustrated it with pictures, then he sang "The Ninety and Nine," with a great number of beautiful illustrations.

When Mr. Hamlin began he said that the introductory revival service fitted him and help them. Some people are not necessary since the parable had already been read with the pictures. He said further that the Prodigal Son was a good type of people in the church today who do not realize what the church is doing and what the church can do for them. They will neglect the church for six months and then they get into trouble and sick and wonder why the church does not visit them and help them. Some people are a long while coming to themselves, as was the Prodigal Son. They want all they can get out of the church and don't want to put in anything.

Tonight Mr. Hamlin will preach on "Solomon's Temple," one of his sermons particularly of interest to Masons. Mr. Kendall will sing and illustrate "The Holy City." Some pictures of local interest will also be shown upon the screen. Some people who have been in Mrs. Kendall's bible class have been photographed and they will be shown on the screen tonight.

WEDDED BY TELEPHONE

Would Not Wait Until Preacher Could Return Home

MAHANOY CITY, Pa., June 8.—The Rev. H. D. Harman, pastor of the West Berwick Lutheran church, officiated in a ceremony over the telephone when he married Miss Mary Luddicker and John Campbell.

The couple went to the Lutheran parsonage to have the Rev. Mr. Harman tie the nuptial knot. Arriving there they were disappointed to learn that he was at Montgomery. The couple got into communication with the Harman over the telephone and he agreed to marry them by wire.

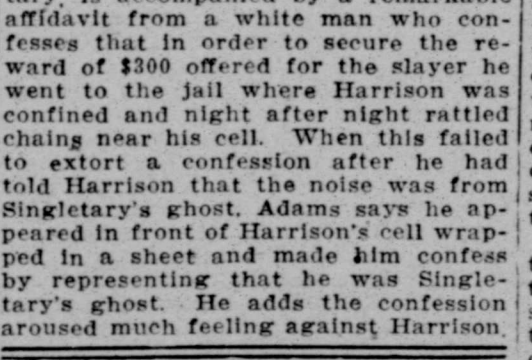

As the minister, 100 miles distant, read the ceremony that made them man and wife the bride and the bridegroom were in the parsonage. He bound them for better or for worse through the phone in the Shannon home.

COLUMBIA, S. C., June 8.—The petition which Governor Heyward received asked for a full pardon of John Harris, a negro, sent up ten years ago to serve a life term for murder of another negro named Alfred Singletary is accompanied by a remarkable affidavit from a white man who confesses that in order to secure the reward of \$300 offered for the slayer he went to the jail where Harrison was confined and night after night rattled chains near his cell. When this failed to extort a confession after he had told Harrison that the noise was from Singletary's ghost, Adams says he appeared in front of Harrison's cell wrapped in a sheet and made him confess by representing that he was Singletary's ghost. He adds the confession aroused much feeling against Harrison.

DISAPPOINTED 14 TIMES

Finally Gets Married at the Age of Sixty-Seven

CINCINNATI, Ohio, June 8.—After being disappointed in love fourteen times, according to his own statement, Frank Messang, 67, superannuated stereotyper, known throughout Cincinnati as the "daddy of stereotypers," has married Louisa Wullweber, 45, for twenty-five years his housekeeper.

"The first of my fourteen love disappointments," remarked Messang, as he obtained his license, "was away back in 1856. I don't know what has been the matter with me, but every time I got a girl and began to go with her with the idea of marrying her some other fellow came along and took her away from me. The girls used to offer me a bonus to go with them. They felt sure that the moment I paid them any attention they would be married soon to some other fellow. I have not had a girl who I know loves me, and I don't believe any one will have a chance to get her away from me."

NATIONAL EDITORIAL ASSOCIATION MEETS

PRESIDENT W. W. SCREWS FIRST TO ARRIVE

Guthrie's Overtaxed by the Large Crowd That Has Arrived to Attend the Largest Editorial Convention Ever Held

GUTHRIE, O. T., June 8.—President W. W. Screws Jr. and the other Alabama delegates were the first to arrive in Guthrie to attend the National Editorial Association convention. President Screws was accompanied by three ladies, one of whom, Miss Virginia Clay, a well known Alabama editor, is on the program here during the week.

Guthrie is overtaxed by the large delegation, and is unable to supply accommodations. Many were taken to residence houses. Until last evening there had been 700 arrivals and more have been coming on every train. Fully 1,000 are expected. It is the largest attended of any meeting in the history of the association.

Delegates McGuire talked of telegraphing his address of welcome. North Carolina has a large delegation. Asheville, N. C., is a candidate for the meeting of the association next year. Asbury Park, N. J., and Indianapolis are also candidates.

The Guthrie Ministerial Association today adopted resolution and presented them to the secretary of the association asking the editors not to attend the entertainment at the 101 ranch. The objection was that the entertainment was to take place on Sunday.

There are several delegates here from Massachusetts in spite of the fact that the state association adopted resolutions not to attend the Guthrie meeting.

Mr. John W. Carr, president of the department of superintendents of the National Educational Association, delivered an address entitled "The Public School and the Public Press." He said in part:

"Disregard for law is the most common, the most insidious and the most dangerous of all our national sins. It is so widespread and affects so many that if it is not kept it will become a positive menace to society. It manifests itself in various ways and in all parts of our country. Children in many homes defy parental authority, the magazines are full of tales of violence and all too frequently terminating in bloodshed and murder. Some business men and so-called good citizens resort to bribery and all sorts of finesse in order to obtain valuable franchises and other public utilities without adequate compensation to the people. Great corporations sometimes rise to opulence and power by resorting to espionage, bribery, oppression and the use of various sorts of devices whatever form, whether as riots, mobs, or white cappings, or lynchings, or the evasion of the liquor laws, or perjury, or rebates to shippers, or tax dodging, or vote buying, or the prostituting of official position or the purchase of legislatures, it is all one thing—disregard for law.

"Now if this national disease is to be cured, we must go to the very root of the matter. Children must be taught obedience and respect for law and constituted authority. There must be better discipline in the home and in the public schools. I do not plead for the sternness, harshness and repression of the old-fashioned discipline, but even that is preferable to much of our soft sentimentality that causes us to be afraid to spank Johnnie for fear he will die, or will never love us anymore. But discipline will not do it. We must grow only the sterner in character and love because his parents and teachers have taught him a wholesome regard for law. The public schools will fall miserably if there is no proper discipline in the home. Chicago would be banished the rod from the schools, but she has not done away with the policeman's club and the fixed bayonets of an armed soldiery.

"The public press can assist greatly in the development of proper discipline in the schools. If the press insists that there shall be proper discipline if it refrains from giving undue publicity in magnified form to every case that arises, if it refuses to champion the cause of every callow youth who fails to pass in his studies or has been spanked or suspended on account of his misconduct, if it declines to give the case of its columns to Tom, Dick and Harry in order that they may air their grievances or get even with their teachers—such a policy will aid teachers and school officials not only in the maintenance of proper discipline in the schools, but in the development of citizens that will respect and obey the law after they leave the schools.

"While the public press can assist teachers greatly in training children to respect an obey law, yet it has a still greater purpose and a higher duty to perform—it is to demand that adults obey the law and that no class be privileged to disregard it. This duty and this responsibility can be no more evaded than the sentinel can evade responsibility for the welfare of the army while he is on picket duty in the presence of the enemy. I believe this problem to be of such importance that the history of our country will be affected by the solution that is given."

MOLOKAI LEPER SETTLEMENT

Federal Government Will Erect New Station One Mile Square

HONOLULU, June 8.—Surgeon-General Wyman of the bureau of public health and the marine hospital service, and Governor Carter will sail next Friday for the Molokai leper settlement where Mr. Wyman will investigate the conditions prevailing there and select a site one mile square for the federal station which is to be established at the station under an act of the last congress.

DENIES APPLICATION

Montana Supreme Court Acts in \$50,000 Case on Trial

HELENA, Mont., June 8.—In an oral announcement from the bench, the supreme court has denied the application for a writ of supervisory control, as sought by F. Augustus Heinze. His attorneys stated in the argument that if the writ was not granted Judge Borquin of Butte would strike Heinze's answers in a suit involving \$5,000,000, reader judge, and prevent the seizure of his property, thus effectually putting him out of business.

CHICAGO, June 8.—Under the stimulus of a purple costume worn by a woman bareback rider, and on the supposition that it was worn in honor of the university colors, more than 150 Northwestern students last night took possession of a circus in Evanston.

After stopping the performance and giving a show of their own, the collegians fought with the tent men and were dispersed by the police. Several persons were injured, but no arrests were made.

A CHANGE OF VIEW BY RUSSIAN PRESS

TALK OF PEACE AND CONSIDER PEACE TERMS

Claims That French Minister of Foreign Affairs Was a Friend to Russia and Regret That He Has Tendered His Resignation

ST. PETERSBURG, June 8.—There is a significant change in tone on the part of some Russian newspapers, like the Novoe Vremya, which has never heretofore even admitted the possibility of a conclusion of hostilities until Russia had recovered her military prestige by a victory. Today's papers discuss calmly the advisability of ending the war if Japan's terms are reasonable. The payment of a big indemnity, they declare, would be too humiliating. The Novoe Vremya says bluntly if Japan asks too much it will pay Russia to prolong the contest indefinitely, which the Russian press representatives of the Russian people were called together Japan would see herself confronted by the whole nation and she would readily agree to reasonable terms. "Even revolutionists," the Russ adds, "are not fighting the present rotten bureaucracy and not the mother country. They would not tolerate disgraceful peace."

The universal regret is expressed in official circles at the retirement of M. Delcasse, until recently French minister of foreign affairs. He is regarded as a true friend of Russia, a personal friend of Foreign Minister Count Lamsdorff and a sincere and unequivocal supporter of a dual alliance.

The Novoe Vremya says: "We know how to appreciate true friends. We have so few of them." The Russ and Slovo consider M. Delcasse to be a victim of trying to play an impossible role of the connecting link between two rivals, Russia and Great Britain. The Slovo says: "M. Delcasse's policy was ever directed toward the isolation of Germany, but he forgot that the alliance with Great Britain would ruin any political system aimed against Germany."

QUARTER MILLION LOSS

Result of Equitable Quarrel Has Cost the Company Much Business

FLOODS IN MICHIGAN

GRAND RAPIDS, Mich., June 8.—Grand river is still steadily rising here. The only encouraging news comes from upper points, where the water is reported to be stationary or falling. The water here has now gone over Front street and South Bridge street. Many residences are completely surrounded by deep and swift currents.

Workmen are struggling frantically to keep the North End dyke from going to pieces and it seems to be about even chances whether they succeed. A special to the Evening Press says communication has been partly re-established with White Hall, which has been isolated for sixty hours. Conditions of White river above the town are worse than has been expected. The damage to crops, bridges and dams will reach hundreds of thousands of dollars. The three large dams at White Cloud, Fospia and Ferry were washed completely away.

EQUITABLE LOSS

NEW YORK, June 8.—A loss of \$8,000,000 in business for the month of May is reported by Gage E. Tarbell to the directors of the Equitable Life, and he predicts still great diminution of business in June unless the quarrel is settled. He also reported that the end of the month the cancellation of policies showed greater than the total new business.

Mr. Tarbell places the blame largely on the fact that while in all the literature of the company for many years the claim has been made that the company was on the mutual plan, the recent disclosures showed that it was not. He contends that the revelations made will form a basis for many claims against the company on the ground of misrepresentation. It is known that State Superintendent of Insurance Hendricks will report recommending the dismissal of Hyde and sustaining practically all that was stated in the Frick report. Should Hyde refuse to resign, as it is said he will, the state superintendent will recommend to the attorney general that he proceed against Hyde in the courts.

A Serious Mistake.

It is a serious thing to neglect your heart.

The moment you detect any weakness or irregularity, such as short breath after exercise, palpitation, fluttering, weak or hungry spells, pain in breast, side or shoulder, or uneasiness when lying on left side, you should take Dr. Miles' Heart Cure; it rarely ever fails to relieve all these symptoms.

If not promptly restored, chronic heart disease soon develops, and then it only remains for some sudden strain to completely exhaust the heart.

Thousands of hopeless cases have been cured, and if you do not try it, it will be the greatest mistake of your life.

When I began taking Dr. Miles' Heart Cure, I was in a very bad condition. I had stomach trouble, with severe distress after eating. My heart was irregular, and I had shortness of breath, palpitation. My pulse was irregular, and my feet, ankles and hands were swollen. Every month at regular periods I had severe pain. I wrote Dr. Miles' Medical Co., and they sent me a bottle of Dr. Miles' Restorative Nerve and Heart Cure. I soon noticed an improvement, and I continued the medicine until I was completely cured. I feel like a different person. In fact I have not felt so well for 20 years.

MRS. ALEXANDER WILSON, 3000 E. Grace St., Richmond, Va.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

A NEW WILL CONTEST INVOLVES MILLIONS

MRS. CHARITY HAYWARD ESTATE MAY BE LITIGATED

Widow of Alonzo Hayward, a Multi-Millionaire, Said to Have Bequeathed Entire Fortune to Her Only Child

NEW YORK, June 8.—A will contest involving between \$7,000,000 and \$8,000,000 is said to be among the possibilities before the estate left by Mrs. Charity Hayward of California, is settled. Mrs. Hayward, the widow of Alonzo Hayward, a multi-millionaire, died on June 1 at the home of her niece, Mrs. John S. Henry in Newark, N. J. She had just arrived from her western home for a visit when attacked by pneumonia.

When the news of her death reached California her attorneys telegraphed that Mrs. Hayward had made a will before leaving home in which her only child, Mrs. Emma Rose of New York City, was the sole beneficiary.

It is now claimed that a new paper is in existence making great changes in the distribution of the estate. This will be said to have been drawn up the day before Mrs. Hayward died and it will be offered here for probate. Mrs. Emma Rose, the sole beneficiary under the California will, is the wife of Andrew W. Rose, a wealthy New Yorker.

NO MUSIC AT CITY PARK

Owing to the ill health of Colonel Wynne, Mrs. R. M. Wynne, head of the philanthropic department of the Department Club, has taken no action this summer toward arranging for free concerts at the city park, such as were held last summer. Mrs. Wynne said this morning that she will be unable on account of her husband's health to take up the work this year.

Colonel and Mrs. Wynne have only recently returned from Mineral Wells. In a few days they will leave again to go to the mountains.

A HALF MILLION VOLTS PASS THROUGH HUMAN BODY

Professor Elihu Thompson of Lynn, Massachusetts, Demonstrates That Electrical Current Is Not Dangerous Handled Properly

LYNN, Mass., June 8.—To demonstrate his claims that there is little danger in electrical force when properly handled, Professor Elihu Thompson of this city has permitted a current said to have measured over a half million volts to pass through his body without displaying the slightest tremor or experiencing the slightest physical discomfort from the test. The demonstration was made for the benefit of the members of the Commercial Club of Boston.

Professor Thompson adjusted a special apparatus to his body and a high frequency current was used. Suddenly there was a flash from the finger tips and great sparks flew into the air, illuminating two incandescent lights that were held two feet from the fingers.

CHICAGO IMPORTERS PROTEST

Against the Standard of Currency Now Used by Greece

NEW YORK, June 8.—A protest brought by Chicago importers, in which the standard of currency in Greece was brought up, has been overruled by the board of United States general appraisers. In rendering the decision for the board, Judge Somerville declared that nonallowance can be made to importers on any importations for depreciated currency in the absence of a currency certificate issued by the American consul.

The importers claimed in their protest that the goods were purchased with the depreciated paper currency of Greece and that it should have been taken by the collector at a discount of about 62 per cent, as compared with the standard coin exchange.

Judge Somerville pointed out, however, the importance of obtaining consular certificates showing that such depreciation is recognized officially and must be attached to the invoices, as required by the consular regulations. The collector's valuation, which was based on tables compiled by the director of the mint, was therefore upheld.

Prompt, Easy Recovery. The greatest thing in the world - A Mother's Love; the love she lavishes on her children; the love her child would have for her; without this love she could not endure the agonies incident to childbirth; appreciative of this love, Mother's Friend was devised to lessen the pain and anguish of childbirth, thus her love might not be strained to the breaking point. Mother's Friend does all this and more - it enables the fond mother to speedily recuperate from the labors of maternity, enables her to regain her lost strength, preserves her youthful lines of beauty, and makes pregnancy her crowning joy without any thorns to mar it.

Mother's Friend is applied externally, is most harmless in its consistency, most happy in its results, and is of such merit that no case of labor should be conducted without its use. It is a liniment for massage of the abdominal muscles during pregnancy, and by its use their tonicity and power of contraction is greatly enhanced, enabling them to sustain the great strain brought to bear on them at this time. It is Mother's Friend. The name should be enough to recommend it to all who expect to be mothers.

RETURNING FROM JALISCO, MEXICO

VISITORS ARE NOT SATISFIED WITH DISCOVERIES Farmers Who Went to Investigate the Proposed Sight of a Colony Come Back Home Sadder but Wiser Men

CITY OF MEXICO, June 3.—Three hundred men, for the most part farmers, began last night the last half of what has been for them a picnic at grounds further away from home than any picnic grounds they ever visited before. They are the men who came here from Missouri, Kansas, Texas and other states to investigate the proposition of the Pan-American Land and Cattle Company. They have seen the land at Jalisco, Chihuahua, and now they are on their way home, where some will damn the country and where some will praise the country. Their picnic is over and like all ordinary mortals they are beginning to feel the beginning to suffer from reaction. About a week ago when they passed through this city on their way to the Isthmus nearly every member of the party was enthusiastic over the prospect. For twenty-four hours after they arrived at Jalisco that enthusiasm seemed to reach the highest point. But just before they left for the north there was a perceptible decrease in the number of optimists. From the manner in which the men have talked since they returned the after feeling of the picnic increased with each mile traveled and yesterday many, probably 50 per cent of the men, spent their last day in Mexico telling each other they didn't think they wanted to live in tropical Mexico.

Many of these men took their troubles to Consul General Parsons. They told him the whole thing was an over-estimated proposition. Just what they wanted Mr. Parsons to do was not made known. A few had a vague idea he might enable them to get back money invested, but the majority believed they would be content if he could make such a report that would prevent others from going to just the same sort of a picnic they had been attending.

Dr. O. C. West of Dallas, Texas, is one who will not do much toward spreading a favorable report of the Jalisco proposition. He said he had been there to be convinced instead of being undecided. He demanded to be shown that it was a good thing and yesterday he declared he was shown nothing that could dispel his most pessimistic view of the case.

DEEP WATER HARBOR LACKING

"No, I will not go back," said he yesterday evening. "I've had enough. It's too hot for me down there, but aside from the heat I can't see why any man with anything else to do should want to go down there to live. So far as I could see when I was down there, there was little in that literature that warranted an exaggeration. It told us of a deep water harbor six miles from the townsite. The harbor is further than that by at least another six miles. As to its being a deep water harbor, it was not so sound as I thought. We took or rather were given—the statements of the promoters that it was deep. I have heard others who declared the water was shallow. The literature told of the timber on the land. I didn't think that was fit for lumber. The Jalisco river that is talked of would not be called more than a branch where I came from. A creek would be giving it too big a name.

WILL HOLD LOTS FOR HIS CHILDREN

J. R. Renfro of Mount Vernon, Texas, is a farmer who has been down there before. He says he has made his last trip to the Isthmus. He said there was time when he thought the proposition a pretty good thing.

WILL NOT PURCHASE LAND

James K. Connor of Cisco, Texas, will be one of the excursionists who will not invest his money at Jalisco. Mr. Connor stated that he had been willing to place some of his surplus cash in investments there had it met his approval in every way, but that the conditions did not seem to be right for him to buy any of the real estate offered in Jalisco and vicinity.

HAMILTON COUNTY CONDITIONS

J. E. Petty, a Hamilton county cattleman, was in New York last week and says that section is a sufferer from too much rain, and that crops are not very poor, especially wheat, which, he thinks, will not average more than six or seven bushels to the acre.

That Cattlemen's Trust A man hit Fort Worth last week from New York with a plan to organize all the cattlemen of the country.

DEATHS

MRS. C. A. DARLING A telegram was received in Fort Worth today announcing the death last night at Mt. Vernon, N. Y., of Mrs. C. A. Darling, mother of Ed T. Hollis of this city. Mrs. Darling formerly lived in Fort Worth and is well known among the early settlers. She was a niece of former Governor Frank R. Lubbock of Texas.

NEW STATION

The Katy is putting in 500 feet of new switches at Dollard station, and the work will soon be completed. The switches are for use by the Fort Worth Iron and Steel Company. The place has been named in honor of Commercial Agent Joseph F. Dollard. The putting in of this additional track was made necessary by the rapidly increasing business of the new manufacturing company.

The Katy Flyer brought in two extra coaches filled with students from the dead and dumb asylum at Austin this morning. They are on their way home to spend their summer vacation. From this point they will pass by the various parts of North and West Texas.

T. T. McDonald, city passenger agent of the Katy, accompanied by Mrs. McDonald, will go to Atascosa, Texas, Sunday next, the occasion being the birthday anniversary of Mr. McDonald's mother. The party will be accompanied by Miss Melissa Smith, a niece of Mrs. McDonald.

AN ELEPHANT SUICIDES

Just Few Hours Before He Was to Have Been Killed BUFFALO, June 8.—Pirate, a wicked elephant belonging to the herd of Ringling's circus, was killed at the spot where Arthur R. Pennell, the lawyer, and his wife were observed to talk in the Burdick murder case, went to death when their auto dived over the cliff.

For a month the elephant had been ugly and his death was decreed by the circus folks, who intended to kill him this afternoon. A plan to strangle the beast was laid out. Maybe from an intuition of approaching danger Pirate was restless all morning.

When the circus men had blocks and tackle ready to choke him to death Pirate, with fierce trumpeting, tore loose from his chain. Down the street a block he lumbered. At the edge of the Jamarthal quarry he turned and the huge body, sprawling, fell over the cliff to the bottom, feet below. He was dead when the pursuing circus folks reached the quarry.

Marshall P. Wilder, the humorist, was arrested the other day for running into a woman with his automobile. She couldn't see the joke.

Dr. Ray, Osteopath, telephone 533.

SHORT GRASS COUNTRY

Ten years ago western, and especially southwestern, Kansas seemed doomed. It had no mineral resources. It had no forests. Drought and hot winds had year after year killed the farmers' crops and burned to a crisp the buffalo grass from which came the name "short grass country." A region that can raise neither grain nor grass can't raise live stock. Thousands of men moved away, leaving farms untenanted and whole towns uninhabited. Those who remained had desperately turned populist, were sending Jerry Simpson to congress and had agents

CITY NEEDS LIGHTS
The Lack of Globes Causes Dark
Street Corners
City Electrician Crabtree reports one
hundred and fifty city street lights
are now out of commission as a result
of a lack of electric light globes.
"We ordered 600 globes from Chicago
three months ago but have been un-
able to get them," said Mr. Crabtree
this morning. "We have repeatedly
written but have received no explanation
in regard to the delay. A telegram
received this week, however, says that
the globes will be here in a few days,
and the dark street corners will be
lighted."

JAIL BREAKING FOILED
An attempt of several prisoners to es-
cape from the city calaboose was foiled
by Police Clerk Porter Wednesday evening.
He discovered the men as they at-
tempted to make their way out through
the ceiling of the prison. On being dis-
covered the prisoners abandoned their
project.
Getting out through the ceiling and the
floor of the water works department is a
favorite stunt of prisoners in the cala-
boose. Three escapes have been made in
the past by this route.

CITY EXPENSES
Total expenditures of the city for the
month of May, according to the statement
of City Auditor Nunamaker, were \$34,845.
Of this amount \$10,213.49 was expended by
the water works department. School ex-
penditures amounted to \$9,285.05; police
department expenses to \$2,546.74; street
department \$1,281.85, and health depart-
ment \$574.15. Fifty other depart-
ments and miscellaneous expenses make
up the remainder.

OLD LANDMARK GOES
George Mulkey has bought one of the
old landmarks on Lower Houston street
and will erect a modern three-story busi-

chased was known as the "Old Potter
House," and has stood at the corner of
Fifteenth and Houston streets for many
years. Mr. Mulkey gave \$12,000 for the
property, which is 7x100 feet. Work on
the improvement is to begin soon.

**CHARTER SOUGHT
BY FACTORY CLUB**
FORMAL APPLICATION IS SENT
TO STATE CAPITAL
Final Step Is Taken in the Organiza-
tion of What Promises to Be an
Important Feature of Growth
of the City

Formal application for a charter
was made Wednesday afternoon by the
Fort Worth Factory Club, all papers
being prepared and sent to the state
department at Austin for approval.
Active work has already been be-
gun, a partial report being made of the
first industry under consideration.
Wednesday President W. R. Booth re-
ceived a letter from Chicago in re-
gard to a manufacturing enterprise
that desires to come south, asking that
a representative be sent to Chicago to
investigate the proposition.

The concern is a machinery manu-
factory that now employs 165 men.
According to the information contained
in the letter received by Fort Worth, it is
anxious to make a change of location
on account of constantly recurring labor
troubles in Chicago. The present
weekly pay roll is \$2,400. The infor-
mation is given that in case the com-
pany comes to Fort Worth the number
of employees will be materially in-
creased.

An open shop, the letter states, is de-
sired. The company is rated by the
Dun and Bradstreet company at more
than \$75,000, and from a small begin-
ning eighteen years ago has de-
veloped and continually made money.
The company will require two acres of
ground and will erect four buildings,
as follows: Machine shop, two stories,
75x200 feet; foundry shop, one story,
65x150 feet; blacksmith shop, one
story, 50x50 feet, and a rivet and boiler
shop, one story, 50x50 feet. The infor-
mation is further given that if the
concern moves to Fort Worth, it is
the desire to have the enterprise under-
way as soon as possible, possibly by
September next.

The letter says that it is the desire
of the company to locate here because
of the excellent railroad facilities; the
short distance to raw material; cheap
fuel and the further fact that there is
in the south and southwest a rapidly
growing market for the products of
such a factory, in addition to the many
natural advantages that the company
does not now enjoy. A number of
other reasons are given from prompt-
ing the move, but the above are the
most salient.

President Booth and Secretary But-
ler have also received several other
important inquiries, and the infor-
mation asked for has been promptly
furnished.

The Chicago matter will receive
prompt reply and President Booth
says that it is almost certain that a
representative of the club will soon
be sent to Chicago to investigate the
proposition, which to him has the ap-
pearance of being a good one and de-
serving of the most active action on
the part of the club.

Active co-operation with the Board
of Trade, it is announced by the offi-
cers, will be given in every particular.

CONVENTION REPORT
Statement Issued by Chairman B. B.
Paddock of Interest

A statement of expenditures, the
total of which was \$7,044.50, by the
cattle convention and show committee,
has been completed and is being
sent members as follows:

"The following pages contain a
statement of the receipts and expendi-
tures on account of the Texas Cattle
Raisers' convention and show, the Fort
Worth Fat Stock Show, which were
held in this city in March last, and is
published for the information of those
who contributed to the fund.

"An examination of the list of pre-
miums paid will disclose the fact that,
contrary to prevailing opinion on this
subject, a very small percentage was
received by citizens of the city who
have been prominent in the promotion
of the fat stock show.

"Home people won only \$183 in
premiums. The same people contrib-
uted \$225 to the fund, and expended a
much larger amount in preparing their
animals for the show ring and caring
for them during the season when the
show was the largest and finest in
the history of the organization, and it
should be made self-sustaining in the
future. If a proper place were
provided for the show, so that entrance
fees and charges for admission could
be made, as is the case at all other
similar exhibitions, the public would
only be required to raise a guarantee
fund, to guard against accident and
unexpected contingencies, and the ex-
hibition would pay its way.

"Respectfully,
"B. B. PADDOCK, Chairman."

**WHAT CITY GAINS IN
GRAIN HEADQUARTERS**

**FORT WORTH THE GRAIN CEN-
TER OF THE SOUTHWEST**
What This Means for Fort Worth Can
Only Be Realized by Men Who
Have Been Devoted to Its
Upbuilding

"Selection of Fort Worth as headquar-
ters for the Texas Grain Dealers' Asso-
ciation settles where the grain and milling
center will be," said John S. Andrews
this morning. Continuing he said: "It is
no surprise to me, for I have always no-
ticed that grain centers always follow
packing houses, as was the case with
Kansas City, St. Joseph and St. Paul. As
a rule the sections that produce live
stock produce grain products, and it takes
grain to mature the live stock, and this
section of the state can supply both. Such
things follow the concentration of rail-
roads, which are essential for the hauling
of both grain and live stock, and Fort
Worth is conceded the railroad center of
the state, it would be but natural that all
these enterprises should come here. Fort
Worth will doubtless become the great
mill, grain and elevator center of the
state."

G. C. Mountcastle, who was very active
in securing the headquarters of the grain
men for this city, says that the location
of the home of the association here will
be a great thing for this city, which is
the grain center of the state. He gives as one
of the potent reasons that Fort Worth has
the railroad facilities for handling grain
that are not possessed by any other city
in Texas. He is very much pleased that
the grain men made the selection of a
home as they did.

President John Keel of the Grain Deal-
ers' Association expressed himself well
pleased that Fort Worth was chosen as
headquarters. He says that this city is
the grain center of the state, and that
more than any other interior town because
of the many trunk lines. The location here
of one of the best grain inspectors in the
country and the further provisions that
the city will make in the interest of the
grain industry are also reasons why the
selection is a wise one, says Mr. Keel.

Captain B. B. Paddock said: "It would
be difficult to calculate the benefits to
be derived by Fort Worth from the loca-
tion of the headquarters of the Texas
Grain Dealers' Association in this city. It
will forever establish this city as the
grain center of the state. Here will be
transacted the business of the association
and this will naturally attract the busi-
ness of the individual members, which
will amount to millions of dollars an-
nually and increase every year by many
millions.

"This is no idle dream. It is a stubborn
fact, based upon existing conditions and
prospective development. The production
of grain in the territory contiguous to
Fort Worth is but in its infancy. Each
succeeding year will witness an increase
of acreage and production. The situation
is not wholly unlike that which prevailed
in the territory of the Northwest, when
cities were of the size of Fort Worth they
were almost, if not wholly, dependent
upon the lumber trade; logs cut from the
immense pine forests in Northern Wis-
consin were floated down the streams, a
portion of them converted into lumber by
the mills and rafted down the rivers to
supply the markets of the southeast. The
steamers that plied the Upper Mississippi
went up stream laden to the guards
with merchandise and supplies and came
down empty. The only product of the
country was lumber, and it floated to
market. As the country settled up the
condition changed. It produced its own
supplies in a great measure, and the
boats came down loaded to the water's
edge with sacks of wheat. Minneapolis
and St. Paul became great milling and
grain centers, and so continue to the
present day.

"The large cattle ranches in the Pan-
handle and territories are being con-
verted into farms, which are yielding
large quantities of grain, which will seek
Fort Worth as a market. In ten years
from now Fort Worth will handle over
one hundred million bushels of grain an-
nually. This grain cannot get to market
except through Fort Worth.

"As the headquarters of the food prod-
ucts—meat and flour of the southwest,
Fort Worth will, by proper encouragement
on the part of its people, be the com-
mercial mart of the great southwest."

THE DAY AT MINERAL WELLS

**A Grist of News from the Popular
Health Resort**
MINERAL WELLS, Texas, June 8.—All
the Sunday schools of Mineral Wells will
hold their annual union picnic at McDon-
ald's tank, west of the city, on Friday,
and a pleasant day of out-door sports,
resting, singing and eating is expected by
1,500 chosen patrons and teachers of
the various schools.

Perhaps the most elaborate entertain-
ment given in years at any pavilion in
this city was the music recital at the Gib-
son wells, beginning at 9:30 last evening,
in honor of Miss Clara V. Prescott of
Greenville, Tex. The entire evening
of the Beethoven Conservatory, Dallas. Guests
were admitted by card and a highly ap-
preciative audience enjoyed the rare mu-
sical treat. A reception and ball were
enjoyed in the parlors of the Piedmont ho-
tel after the program. The entire evening's
entertainment was managed by Mr.
Levy of Shreveport, and is pronounced by
all the "social event of the season" thus far
for Mineral Wells.

Two of Mineral Wells' popular young
people, Miss Mabel McMorille and Wil-
liam G. Thomas, were married quietly
in Fort Worth today.

Editor J. H. Gambrell of the Baptist
Standard of Dallas is here for a rest of a
few days.

Every detail of the entertainment for
the State Retail Grocers' Association has
been arranged, and a large crowd is ex-
pected to attend the meetings on June
13 and 14.

"Today's trains brought to the Wells the
largest crowds thus far for the entire
season and a conservative estimate places
the number of visitors in the city at two
thousand.

"Standing room only" was the record
for the famous Carlsbad pavilion the past
three evenings, the principal feature be-
ing the impersonations by little Miss Gre-
