

## JAPANESE MOBS STILL UNRULY

### Marquis Ito Stoned and E. H. Harriman Menaced

### BURN PUBLIC BUILDINGS

### Soldiers Are Called Out to Aid Police in Preserving Order

### at Japanese Capital

TOKIO, Sept. 7.—(Delayed in transmission.)—E. H. Harriman, president of the Southern Pacific railroad, has been threatened and Marquis Ito, president of the privy council, has been stoned by mobs. Neither of them were injured.

### Minister's Residence Burned

Serious rioting followed the attack on the office of the Kokumin Shimbun, the government organ. The mob attacked and burned the office of the minister of the interior, which stood between the Nobles' Club and the Imperial Hotel and faced Hibria park, which was the storm center throughout the day. Threatening demonstrations occurred in the neighborhood of the official homes of Premier Katsura and Baron Komura, the foreign minister, who is now in the United States, but the police succeeded in preventing injury to the occupants or damage to the houses.

The situation today is threatening. Turbulent crowds filled the street and it is feared much damage of property is possible under cover of darkness. All the police reserves are performing urgent duty and heavily guarding the danger spots. The streets in the neighborhood of Kokumin Shimbun are closed and two hundred police form a cordon around the office.

The destruction of police sub-stations continued until midnight. It is impossible to ascertain the exact number destroyed but it is estimated fifteen were wrecked. Two of the larger police stations were also destroyed. The destruction of property by dragging police kiosks into the middle of the streets before applying torches.

### Newspaper Office Attacked

Shortly after midnight another attempt was made on the Kokumin Shimbun offices but the police dispersed the attackers, killing one of the assailants. The fact that a man was cut in the back angered the crowd which demanded the arrest of the policeman. Detachments of military troops mobilized on account of the war were called out during the night. The crowds received the soldiers good naturedly and cheered them. The principal duty of the troops was the protection of the police. The turbulence of the crowds was chiefly on account of closing the park and the denial of the right to meet publicly. Students and young street rowdies seemed to be the largest participants in the disorder of the night. Firemen succeeded in saving the main structure of the home minister's residence and only the out-buildings were destroyed. It is impossible to secure accurate figures of the casualties. The Jiji estimated them at two dead and 500 wounded.

Crowds menacing neighboring police kiosks filled the space in front of the American legation and hoisted and lowered a soldier, escorted the Harriman party who with fixed bayonets charged the crowd, cleared the streets and guarded the legation throughout the night.

The mob burned and destroyed ten Christian churches and a mission house school last night (Wednesday). The people were not injured.

### TROUBLE FEARED

TOKIO, Sept. 6, 3 p. m.—It still continues quiet here but trouble is feared tonight.

### NO WORD FROM HARRIMAN

NEW YORK, Sept. 7.—At the Southern Pacific offices it is said no word has been received from Harriman from Tokio. His assistants were of the opinion the hostile demonstration was in no sense personal. Mr. Harriman's visit to Japan, it is declared, is entirely for recreation and pleasure.

### FAMILIES IN FIGHT ONLY ONE WOUNDED

Six Men Engage in Frenzied Battle With Results Like a French Duel

ARDMORE, I. T., Sept. 7.—In a pitched battle near Palmer, a small town northeast of here, yesterday afternoon, three brothers each, one of the participants was shot through the hand. Strange to say, although six men were firing at each other with Winchester, only one of the number was slightly wounded. One family was named Norman, the other Blakship. All parties were lodged in jail here this morning.

### Millionaire's Will Found

CHICAGO, Sept. 7.—A dispatch to the Tribune from Los Angeles, Cal., says: The will of Frederick P. Rindge was found yesterday among his private papers at his home. It leaves the entire estate, valued at \$20,000,000, to his widow and three children and appoints Mrs. Rindge as executrix with no bond. The testament, which is short, was written on an ordinary sheet of note paper by Rindge himself.

### COMING

An editorial on what union labor has accomplished, by Jacob A. Riss, whom President Roosevelt has styled "The Most Useful Citizen of New York." Written especially for The Telegram.

## EFFECTS OF TREATY ON FAR EAST

## INTERLOCKING PLANT IS CAUSE OF DISPUTE

### Katy and Texas and Pacific Unable to Agree Regarding Cost

AUSTIN, Texas, Sept. 7.—It developed yesterday that the Missouri, Kansas and Texas and the Texas and Pacific railroads are unable to agree on the proportion each road is to pay for maintaining the interlocking plant used jointly by both roads at Fort Worth.

E. W. Tower, assistant auditor of the Texas and Pacific, and C. P. Frey, chief auditing clerk of the Katy, both with headquarters at Dallas, were here yesterday and submitted the matter to the railroad commission for arbitration. The matter was turned over to Auditor Askew of the commission and an agreement will more than likely be reached in the matter.

### Auditing Tax Rolls

Practically all the clerks of the comptroller's department are at work auditing the tax rolls, which have been received during the past several months from the county tax assessors over the state. It is estimated that there are about 2,500 books from the 211 counties of the state and every one has gone through and audited and every error checked up, so that property owners may be properly taxed.

### New Texas Charters

Charters of the following corporations were filed yesterday in the state department: Security Building Company of Galveston, Capital stock, \$100,000. The Del Rio Publishing Company of Del Rio, Capital stock \$2,000. Cause Lumber and Hardware Company of Gause, Capital stock \$2,000.

### Tax Rolls Received

The comptroller yesterday received the rolls of the following counties: Travis, assessed valuations for 1905, \$14,404,600; 1904, \$15,911,350, showing an increase of \$1,506,750. A detailed account of the Travis county rolls was printed a few days ago.

Wise, assessed valuation for 1905, \$6,834,400; 1904, \$6,736,915, showing an increase of \$97,485.

Hunt, assessed valuation for 1905, \$12,497,133; 1904, \$11,418,552, showing an increase of \$1,078,581.

Jasper, assessed valuation for 1905, \$4,681,163; 1904, \$4,038,440, showing an increase of \$642,723.

Trinity, assessed valuation for 1905, \$2,665,824; 1904, \$2,006,268, showing an increase of \$659,556.

Childress, assessed valuation for 1905, \$1,817,270; 1904, \$1,822,964, showing decrease of \$5,694.

### Provisions for Veterans

Certain newspapers of the state have from time to time printed stories to the effect that Texas was not doing the right thing toward the Confederate veterans. According to the figures in the comptroller's department, this state has appropriated more than any other state for its old Confederate soldiers. The pension appropriation for 1906 was \$400,000 and for 1907 \$500,000. In addition to these appropriations the sum of \$7,494 is appropriated for the maintenance of the Confederate home for 1906 and \$77,044 for 1907. The total appropriation of the state for the two years for the Confederate veterans aggregates \$1,654,538.

## DARING THIEVES ROB GAMBLING RESORT

### Get \$8,200 at Point of Pistols and Then Successfully Escape

NEW YORK, Sept. 7.—One of the most startling robberies in the history of the underworld in this city happened a day or two since, according to the World, in a brown stone mansion in West Eighthth street. The place has been used recently as a gambling house. A well known turfman had put in an evening of high play, during which he had lost \$7,500. He had left the house but a few minutes, when there came a rapping at the street door. The owners of the establishment were wearing masks dashed through the door. They quickly made their way to the main gaming room where ten players were seated at roulette tables.

Two revolvers were leveled at the proprietor, while the third robber annexed \$8,200 in bills gathered from the cash drawers. The men immediately fled and were joined at the street door by a fourth who had held the "lookout" under guard while his pals were within. The owners of the establishment are now quietly searching for the "lookout" whom they declare planned the robbery.

### TARTS IN MAJORITY

### Governor of Baku Appeals For Help

ST. PETERSBURG, Sept. 7.—The desperate condition of affairs at Baku is shown by a telegram from the governor of Baku who sent an urgent dispatch to Tiflis saying his troops are surrounded by Tartars and will inevitably be overwhelmed unless immediately relieved.

## 1 KILLED, 5 INJURED BY PEANUT ROASTER

### Gasoline Tank Explodes with Fatal Results at Wagoner, I. T.

Special to The Telegram.

MUSKOGEE, I. T., Sept. 5.—Mrs. Robert E. McGuire was instantly killed and five persons more or less seriously injured by the explosion of a peanut roaster at Wagoner, fifteen miles east of here, late yesterday afternoon.

The peanut roaster was standing in front of the store of R. E. McGuire, and the gasoline tank exploded, shooting projectiles through the door, striking Mrs. McGuire, who died instantly.

Sitting on a box in front of the grocery, W. C. Sheldon was seriously injured by flying glass.

Many people were seriously shocked by the explosion, which was heard more than a mile distant.

## TWO-STEP REPLACES THE GLIDING WALTZ

### Dancing Masters Say Graceful Art is Fast Being Forgotten

NEW YORK, Sept. 7.—Waltzing is becoming a lost art, according to delegates attending the twenty-eighth annual convention here of the American Society of the Professors of Dancing. The professors are for that reason, doing all they can to check the insidious two-step.

"The whole trouble," said a delegate from Terre Haute, Ind., "is that dancing is looked upon merely as a social time-killer, when as a matter of fact, it is a means of developing grace, of promoting physical culture and teaching the best manners. We dancing masters must stand together to prevent the waltz from degenerating, for it is not what it was years ago, just because Americans have grown so careless about it. They two-step through everything, no matter whether it is a waltz, a schottische or a polka."

One of the features of the demonstration before the convention yesterday was the dancing of "the spirit of the times," a fancy half march, half dance movement. It is adapted for exhibition drills of children and the movements are planned in the form of a five pointed star. The convention will be in session today and tomorrow.

## SUPPOSED FEVER IS DECLARED MALARIA

### Government Expert Loving in Territory Investigating Suspicious Cases

Special to The Telegram.

ARDMORE, I. T., Sept. 7.—Government Expert Loving arrived at Mayville last night and said there were no symptoms of yellow fever in the family of H. P. English, who died Monday night, supposedly of yellow fever. The case was examined and examined this afternoon by Loving. A man named Baker died yesterday near Walkville, a small town near Mayville, supposedly from yellow fever. Loving went there and examined the case and pronounced it malarial fever.

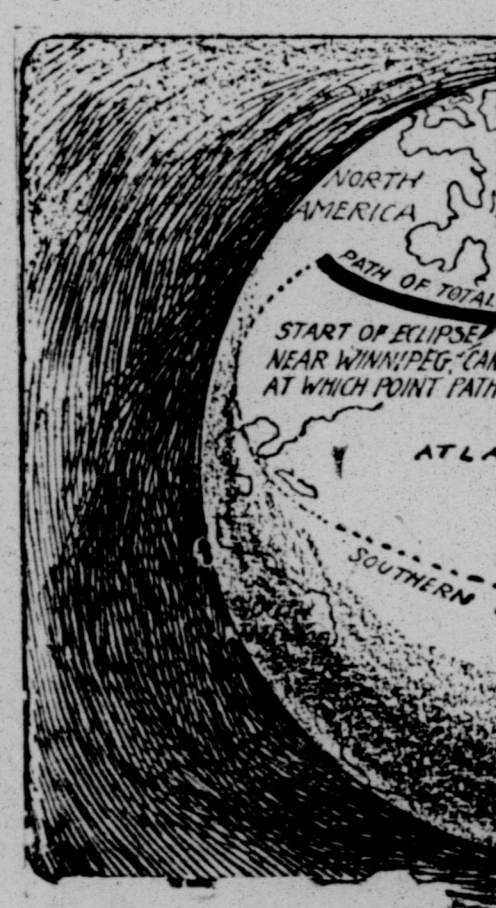

## STEEL MARKET ACTIVE

### Enormous Orders for Rails Placed During Week

CLEVELAND, Ohio, Sept. 6.—The Iron Trade Review in its current issue says: Sales of rails since the issue of \$28 for 1906 delivery was announced last week have been tremendous, breaking all records and furnishing substantial evidence of very great prosperity in the iron business, present and prospective. It is estimated that these orders for rails for 1906, placed within a week, will amount to 650,000 tons, and orders for several hundred thousand tons are pending. Although the United States Steel Corporation has booked very large orders, it has not alone enjoyed the unexpectedly heavy business from the railroads. The Colorado Fuel and Iron Company reports its entire rail output for the year 1906 and the Tennessee Coal, Iron and Railroad Company, the Lackawanna Steel Company and other interests are well supplied with orders. Among the bookings of the past week are the following: Chicago and Northwestern, 70,000 tons; Burlington, 50,000; Santa Fe, 50,000; Milwaukee and St. Paul, 45,000; Wisconsin Central, 22,000; Great Northern, 40,000.

Accompanying the orders for rails are many orders for cars and locomotives. The Pennsylvania system has ordered 15,000 steel cars. Other railroads have bought liberally and inquiries for at least 75,000 steel and wooden cars are pending. The announcement of an advance of \$2 per ton on structural shapes, although not expected, is received by the trade as being justified by market conditions.

for plates and steel bars continues very strong, and the trade would not be surprised to hear of an advance on these products at an early day. The American Shipbuilding Company has placed contracts for plates for three large freighters, and additional contracts are pending. There is already considerable complaint about car shortage. This is practically true concerning coke, for which the demand has become so strong that the railroads are finding it difficult to give prompt shipment. Some jobbing interests also complain that they cannot get cars promptly.

## COTTON GROWERS' ESTIMATE ISSUED

### 1905-06 Crop Predicted to Be Less Than 10,000,000 Bales

ASHEVILLE, N. C., Sept. 7.—The summary of the cotton crop of 1905-06 as reported by the statistical committee of the Southern Cotton Growers' Association, as reported today, is as follows:

Production, 9,588,133 bales; percentage of condition as compared with last year, 73.3, as compared with the government's estimate of 72.1.

The yield is regarded as exceedingly small as from ten to ten and a half million bales were expected.

## KAISER THINKS JAPS WILL SHUT OPEN DOOR

### Massachusetts Congressman Reports Interview with the German Emperor

NEW YORK, Sept. 7.—Congressman McNary of Massachusetts, who was a member of the American party received yesterday by Emperor William, is quoted in a Times dispatch from Berlin as follows: "In our conversation the emperor dwelt on the 'yellow peril,' and expressed the opinion that the Japanese would follow up their military successes by closing the open door and by their command of cheap labor force Europe and America of the Oriental markets."

"He went on to say it was necessary for the white nations to stem the yellow peril by uniting. The only power that Japan feared was America, and it was a good thing for the world that the United States was on one side of the Japanese empire."

The emperor asked us what we thought of German railways. We said frankly that we believed the American lines were better. The Kaiser assented, but said he thought German roads were better paved than those in America."

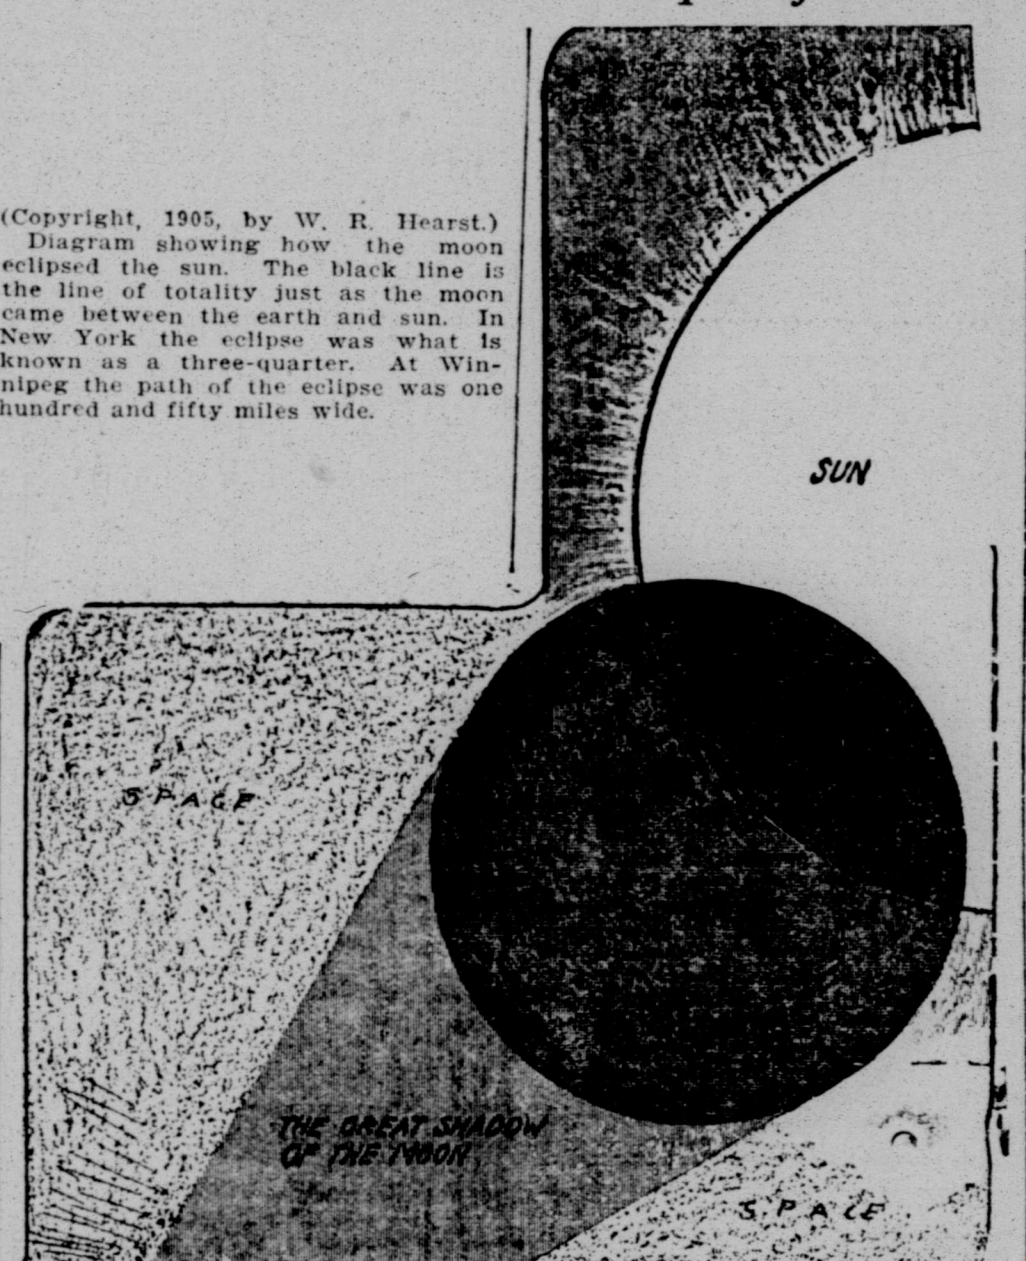

## HARDWARE FIRM INCORPORATES

AUSTIN, Texas, Sept. 7.—The Alston Gowdy Hardware Company of Fort Worth, incorporated, with W. R. Keeble, Alston Gowdy, H. R. and W. R. Keeble.

## BARON KOMURA WANTS NEW SECRETARY ROOT

NEW YORK, Sept. 7.—After reading the Associated Press dispatches telling of riots in Tokio and experience of E. H. Harriman and party, immediately endeavoring to reach Secretary of State Elihu Root. Mr. Sato said Baron Komura was extremely desirous of seeing Mr. Root at once and that a message would be sent Mr. Root asking an interview. What purpose Komura had, Mr. Sato would not say.

## PIONEER SETTLERS' MEETING TODAY

### Interesting Exercises Mark Day Set Apart for Them at Confederate Park

Old Settlers' Day at Confederate park was observed by interesting exercises, including a large number of addresses. Attendance was the largest of any day in camp, fully 200 people coming out to the grounds from the city this morning. Total attendance was about 1,000.

Exercises of the day were presided over by Judge C. C. Cummings. Addresses were made by Major K. M. Van Zandt and Captain J. C. Terrell of this city and Major W. J. W. DuVall of Granbury and J. Feevils of Hood county. Piano solos were played by Mrs. M. D. Lake.

A brass band reached camp today, adding greatly to the festivities.

## KILLED CATTLE TOO

### Panhandle Ranchman's Experiment Proves Expensive

CLARENDON, Sept. 7.—Richard Walsh, manager of the famous J. A. ranch of this place, reports a rather costly experiment in the killing out of loco on the ranch. He was trying a concoction advertised extensively as a cure for Johnson grass and weeds, using the stuff around headquarters for the extermination of these pests. He obtained good results and it occurred to him that if it killed weeds it would kill loco as well. Accordingly he tried it on a patch of that weed and the effect was beautiful. The loco disappeared like magic; but his cattle in the pasture found the spot, however, and they took a liking to the stuff, for they ate up the dirt all around the spot where the mixture was sprinkled, and some five or six head who ate of it have since died and others are expected to breath their last. The preparation was advertised to be harmless in its effects on man or beast.

## CONVENTION IS QUIET

### Turbulent Scenes at Muskogee Not Repeated

MUSKOGEE, I. T., Sept. 7.—Quiet prevailed in the constitutional convention this morning after turbulent scenes last night, when Rutherford and Haskell were only prevented from coming to blows by the interference of friends. The belligerents shook hands on the floor of the convention and the convention resumed work.

## INSURANCE STATEMENT ISSUED

AUSTIN, Texas, Sept. 7.—State Insurance Commissioner Clay today gave out a statement showing that for the fiscal year ending Aug. 31, 1905, there were 388 insurance companies doing business in Texas, which includes old liners, fraternal, assessment and other kinds. This is quite an increase over last year. The number of agents commissioned by the department to represent companies are 23,738.

## FEVER SPREADS IN THE COUNTRY

### Physicians Are Unable to Check Increases

### PLAGUE OF MOSQUITOES

### New Orleans Citizens Alarmed

### Until They Learn Insects Are Harmless

### FEVER RECORD TO 2003

New cases, 11.  
To date, 2,153.  
Deaths, 3.  
To date, 261.

NEW ORLEANS, Sept. 7.—Millions of marsh mosquitoes which descended upon New Orleans last night and made life miserable for several hours disappeared today. They left a large representation behind them, but it is expected they, too, will soon leave. Having striped legs the public promptly concluded that the insect was the stegomyia and its appearance caused something of a panic, but scientists quickly pointed out that it had a brown instead of a striped body and therefore harmless except that its sting is painful. The insect is known as the solitaires. It was driven into the city by heavy rains and winds of the past few days.

### Worse in Parishes

The yellow fever situation showed no material change today, steady improvement being shown in the city, while the country situation is discouraging as to some stations, the disease apparently having got a strong hold at Tallulah and Lake Providence and being still severe at points in Jefferson, St. Charles and St. John parishes. Lake Providence and Tallulah have each established two hospitals, one for blacks and two for whites and assistance is constantly going forward to them. In both towns screening and fumigating bodies have been organized and a systematic fight against the disease has begun. The local business situation is steadily improving in spite of the quarantines. August statistics of railroads make a gratifying showing.

### Patent Has Close Call

A strange story comes from St. Rosa, La. There has been a nest of yellow fever there among the Italian Colony. Fifty cases occurred to date with eight deaths. The Italians have been in the habit of burying their dead as soon as life appeared to be extinct. Yesterday one of their number apparently died, and hasty preparations were being made for interment when a physician appeared on the scene and discovered life still existed in the body. Today the man is improving.

## MOROCCO YIELDS TO DEMANDS OF FRANCE

### Sultan Acquiesces to Ultimatum and Demonstration is Averted

PARIS, Sept. 7.—A dispatch to the foreign office from M. Strene Tallandier, minister to Morocco, announces the Moroccan government has yielded to the French demands and given complete satisfaction.

The foreign office was highly gratified this morning to receive the dispatch from the French minister at Fez announcing the sultan had yielded all points demanded in the French ultimatum. The dispatch says Sept. 4, the day preceding the expiration of the ultimatum the grand vizier, Feudoul Garni, accompanied by his retinue, went to the French legation, where he was received by the minister and staff and leading European officials. The grand vizier then publicly presented a formal apology for the arrest of the French Algerian citizen, Boussan, and handed the minister the amount of indemnity demanded for the imprisoned man and also presented letters from the Moroccan ministry of foreign affairs, announcing the end responsible for Boussan's arrest had been removed.

The French minister answered, accepting the apology and the sultan's assent, and thereupon propositions for the departure of the legation preliminary to the enforcement of France's demands were suspended. The foreign office here says the sultan is complete on the matter and the incident is closed, thus terminating without resort to coercion through military and naval branches of the service.

## ANOTHER CRITTENDEN

### Man Who Died in Massachusetts Not Kansas Governor

ST. LOUIS, Sept. 7.—A special to the Republic from Gloucester, Mass., says it was rumored here last night that former Governor T. T. Crittenden of Kansas City had died here. It since developed that a cousin of the former governor, having the same initials, had died, and that the confusion of names caused many to believe that it was T. T. Crittenden of Kansas City, whose death had occurred.

## Finished Job—Then Died

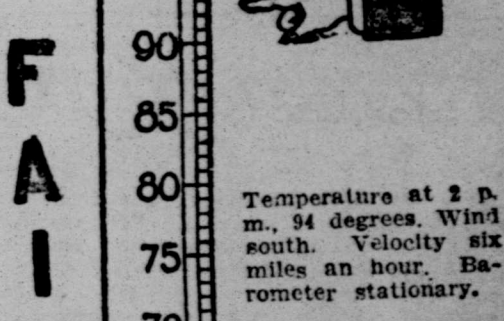

CHICAGO, Sept. 7.—After working three hours and walking to his house unassisted while suffering from a fractured skull, Benjamin S. Schooley, 45 years old, died yesterday. Schooley was employed in the repair shop of an express company as a wheelwright. A heavy wagon box, which he was repairing, slipped from its support on his head. He recovered consciousness within a few minutes and finished his day's work, and walked to his house unaccompanied. He soon became delirious and died a few hours later. Examination showed that his skull had been fractured.

## "JEFF REFEREE, NO FIGHT," SAYS NOLAN

### Battling Nelson's Manager Firm in Refusal to Allow Heavyweight at Ringside

SAN FRANCISCO, Sept. 7.—"I never objected to Jeffries on the score of dishonesty but on account of the change in manager I thought there might be collusion between Jeffries and Britt." Such is the statement made by Billy Nolan, manager of Battling Nelson. Nolan prefaced this remark with the statement that he had refused to allow Nelson to go in the ring next Saturday if the heavyweight champion is to be referee and added Nelson would abide by any decision that his manager may make. Nolan declared Nelson never made the statement attributed to him that any referee except Billy Roche would be agreeable to him.

The Solitude of John Barrington

Might Have Remained a Bachelor But for the Ardent Wooing of a Rejected Suitor.

(Copyright, 1905, by the Newspaper Enterprise Association.)

"John Barrington; Sweetstuffs, Wholesale and Retail." Ten years ago John Barrington had had that succinct inscription painted over the front of a tiny shop in Little Japan street, and he could ill afford the thirty-five shillings it cost.

business was showing itself distinctly more profitable, he had relinquished attendance upon the counter, and had engaged an assistant.

Why so grave and preoccupied a man as John Barrington should have chosen to delegate this part of his work to a person of the feminine gender will never be quite satisfactorily ascertained, but when Made Smith appeared timidly upon the scene, John Barrington merely looked at her unobtrusively, inquired her previous experience, and appointed her

HE COULD SEE INTO THE SHOP.

forthwith. Then the currents of both lives flowed on side by side, silently, formally, in a routine that was delightful to the man, mechanical to the girl.

John Barrington had not engaged the services of Made in preference to those of a member of the sterner sex from motives of masculine weakness. He never noticed her except to issue his instructions. Nor was his choice of her to be set down to motives of economy.

The two golden sovereigns were handed into the little palm each Saturday night with the satisfied air of a well-to-do merchant settling a heavily discounted invoice.

Being set free from the counter, John Barrington devoted his Saturday afternoon to his ledgers and accounts. When his assistant came back from her tea, it was his custom to leave her in charge of the shop, and, retreating to the dusky parlor behind, to plunge into his books for the rest of the evening.

Along the even tenor of this quiet way John Barrington and his employe proceeded for six months, and then the former became aware that in the vague concerto of voices which floated to him from the shop on these same Saturday nights, one waxed familiar to his ear, and that one not the voice of Made. It proceeded unmistakably from a masculine throat, and was a youthful baritone, capable of modulating itself into tender notes and caressing syllables.

One Saturday he got up and set the door stealthily apart. He could see into the shop. Made stood behind the counter, the coarse brown holland of the material gathered up over her wrists and bosom in that womanly fashion that is so appealing to the lonely masculine heart.

John Barrington listened, and as he listened his Gothic blood sprang into its old fifth-century heat with a rapidity that made him reel under a mad Berserk desire to take the unoffending youth by the neck from behind, get a knee planted against his lumbar vertebrae, and strain him backwards, until his spine snapped like a faulty lance.

"Made," he was saying, "you are very cruel. You made me love you, and now you won't love me!" "I did nothing of the kind," exclaimed Made indignantly. "I never said a single word to you that the whole world might hear."

"No," admitted the lovesick Romeo, sadly, "but you looked at me, and my heart was yours from that moment." "Pshaw!" returned Made. "Made," persisted the repulsed one, with a significant tremor in his voice. "Made, couldn't you care for me a little?"

"No," repeated Made severely, "and I think if you were a gentleman you wouldn't torment me with this sort of talk when I've told you I don't like it. There are other women besides me. Go away, please, for it's time to close."

"May I put up the shutters for you?" inquired her rejected suitor, still in the same pathetic tone. "No," said Made practically; "they don't put up, they pull down with a pole, and Mr. Barrington does it. He will be out in a minute, and I—with a wicked inspiration—"if he catches you here, he'll—"

"I see," concluded her wooer, vindictively. "you want to be mistress of old Barrington's money; I wish you joy of the brute," and so ungallantly departed.

If ever that young man's spine was in danger of sudden fracture, it was at that moment. But John Barrington, being in some trifling degree—at least, externally—civilized, restrained himself with difficulty.

Made being a real girl, and not a stage one, did not weep or faint, but turned fiery red, gave a distinct stamp with her foot, and said prosaically, "The nasty, spiteful thing!"

followed him to receive her week's pay. She found him crouched in his big chair by the fire, with a ledger on his knees. He had broken the fire into a blaze, extinguished his customary lamp, and had lighted every burner in a large chandelier usually lost to view in the twilight which, summer and winter, inhabited the room. He looked up when she went in.

"Made," he asked, "do you mind making me some supper? I feel rather strange, or I would get it myself. I usually do."

Made's heart welled up into her eyes at the thought of those lonely, comfortless meals.

"With pleasure," she answered, using a conventional phrase in her confusion, and half choking with pity. He mistook her tone.

"Don't, if you have somewhere else to go," he said.

"But I haven't," responded Made, and set about her task.

Dust, dust everywhere—harrowing up her housewife's soul. In a cupboard she found eggs and a few slices of ham, and set the pan with some of the latter on—or rather half on—the fire, while she laid the cloth upon a portion of the clumsy square table. To think of a man doing work which is properly that of her sex is always pitiful to a woman, especially if the man be a solitary one.

John Barrington watched her hungrily. She was only a bright little shop girl with limpid eyes, deft hands and light feet. As she bent over the fire pouring the hot water into the teapot, a whiff of the fragrant herb came to his nostrils, and, lo, all the solitude of ten years rolled back on him like a flood.

"There, it is ready, Mr. Barrington," said Made, "and I must go."

She threw on her cloak and caught up her hat, but paused a moment to look with pride at the cozy table and to give an additional poke to the fire.

"Good night, Mr. Barrington," she remarked with her hand on the door.

John Barrington got up, stumbled awkwardly to the cupboard, took out another knife, plate, cup and saucer, and spoon, and set them on the table.

"Made," he said, "you'll stay?" "Made" flushed with an embarrassing sense of propriety.

"Oh, no!" she replied. "He mistook her again."

"Very well," he said, dryly; "good night," and she went away.

"Dear me," she observed when she got to the shop door, "I've forgotten my umbrella and it's raining."

She went back hastily into the parlor, but stopped on the threshold, surprised. John Barrington had not moved toward his supper. It lay growing cold—a woeful sight to a woman's eyes—and he sat with his face in his hands.

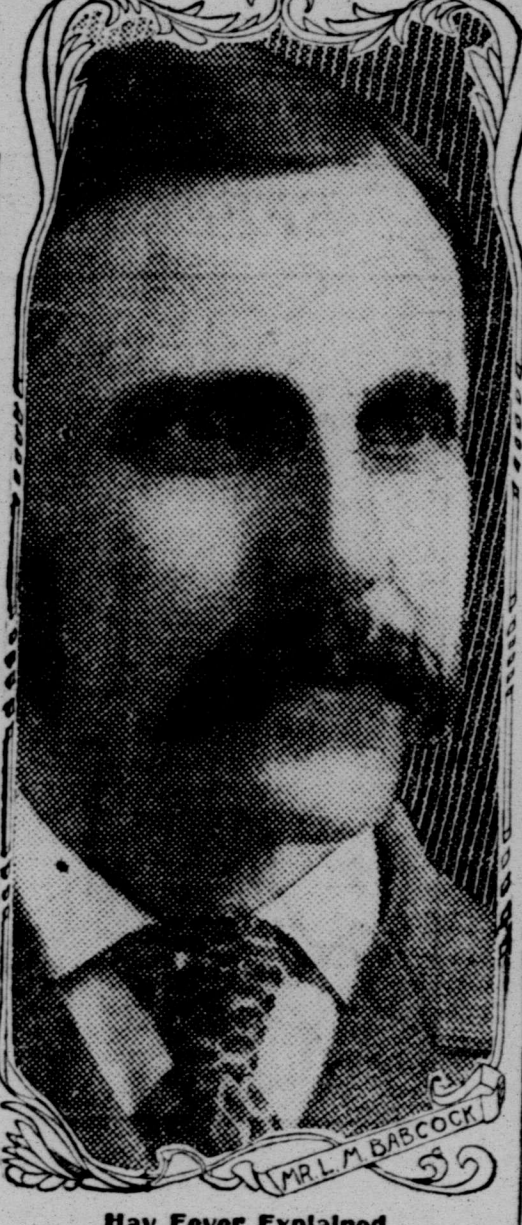

She thought he was ill, and ran fearfully across. He did not move, and she touched his shoulder. He raised his head, and she saw that there were great tears upon his cheeks and on his open palms.

Made's eyes met his, and she burst out crying.

"Oh, I'll stop! I'll stop!" she said, and flung herself at his feet.

And so that supper was eaten after all.

HAY FEVER IS ENDEMIC CATARRH.

Prominent Chicago Journalist Suffered With Hay Fever Owe Complete Recovery to Peru-na.

A PUBLIC ENDORSEMENT. MR. L. M. BABCOCK, 1619 Addison Ave., Chicago, Ill., Sec'y Chicago Journalists' Association, writes:

"I suffered from catarrh and hay fever for some time, and owe my recovery entirely to Peru-na. I did not have much faith in its efficacy when I first started to use it, but as I gradually grew better I began to feel that perhaps I might get rid of these annoying troubles."

"I continued to use it for several months until I was cured. It is a great relief to me and I am therefore pleased to give my endorsement to Peru-na, and trust that all who use it may have the same good results that I have had."

Dr. Hartman has contended for years that if the mucous membranes were perfectly free from catarrh, the dust, spores and pollen which excite Hay Fever would have no effect.

This makes it plain why some people have Hay Fever and some do not. If the mucous membranes are kept perfectly healthy, and are not made porous or penetrable by catarrhal congestion, a person cannot have Hay Fever.

Therefore, a person suffering with catarrh even in a mild form is exposed to Hay Fever.

Many people get rid of Hay Fever entirely by taking a course of Peru-na, which eradicates the catarrh and makes Hay Fever impossible.

We do not claim that Peru-na is a specific for Hay Fever, but we do claim that Peru-na will free the mucous membranes from catarrh. In this condition no one is in danger of acquiring Hay Fever.

Hay Fever Explained. What is known as Hay Fever is in reality endemic catarrh. Hay Fever is conveyed to the system by the pollen of rag weed. Other vegetable growths have also been suspected of emanating spores or pollen which reach the mucous membranes of the nose and throat by the act of breathing, thus causing Hay Fever. Some people are affected by these emanations. Others are not.

TERRITORY TOWN DENIES FEVER STORY

Special to The Telegram. ARDMORE, I. T., Sept. 7.—The mayor and board of health of Purcell say there is no truth in the statement issued from Gainesville that two cases of yellow fever exist among negroes there and the authorities of Lexington across the line in Oklahoma say nothing resembling the disease exists there.

Not even a rich landlord can afford to have a vacant house on his hands. The load crushes the poorer one. An "Ounce" of publicity will prevent it.

YOU'VE NO IDEA

# THE DAYLIGHT STORE!

**Great Bargain Day Friday**  
From 8 A. M. to 5 P. M.

## THE DAYLIGHT STORE HOURLY SALE!

The Sensational Mid-Week Bargain Event for One Day

It's new, it's novel, it's interesting; furthermore, it's the bargain day of all bargains. Very few people in Fort Worth will jump at fictitious bargain snaps a second time. If you fool them once, you may rest assured that they will fool you by letting your second attempt go unnoticed. If they have ever received fair treatment at your hands they will trust you for another turn. It is because we have always dealt with the people honestly that our offerings are well treated. Our class of goods goes to them as best they can get, and when they prove to the contrary, we always make everything good. When we announce a reduction

in prices, people know prices are reduced, for the former prices always remain on tickets, with new ones added. You won't lose by following us in any offering we may chance to make you. The reputation of the house backs every statement we make. Be sure to come to this store today, for your dollars never had a chance to go so far as they will at this great hour sale. All goods advertised will be on sale at the hours named only. Do not ask for goods in the morning that are advertised in the afternoon, because the merchandise will be only on sale at hours named. Cut this ad out and bring it with you as a memorandum.

**6 DEATHS FROM PLAGUE**

Fifteen New Cases Announced at Berlin Today

BERLIN, Sept. 7.—The official bulletin just issued announces fifteen new cases of cholera and six deaths reported during the twenty-four hours ending at noon today, making a total of 105 cases and thirty-two deaths.

**IN CROCKETT COUNTY**

Ozona, Texas.

Last Friday at noon a fire broke in A. J. Turner's pasture, starting from a Mexican herder's camp. It destroyed about three sections of fine grass before it was put out. About fifteen men came to Oran Turner's assistance and helped him put out the fire.

Last Monday afternoon J. M. Shannon was chasing a yearling on his ranch and was riding a very large horse. The horse ran over a bush with him, tripped and threw himself and fell upon his rider, bruising his leg and arm, peeling his face and hurting his side. Dr. Clayton attended him and gives out that although the patient is pretty badly bruised, yet no serious result is to be feared.

**FRIEND OF CHILDREN**  
**PENNY PHILANTHROPIST**

Edward J. Codd Distributes Coppers Every Day Except Sunday

BALTIMORE, Md., Sept. 6.—Carnegie and Rockefeller have astonished the world with their magnificent gifts of charity. But it has been left to Edward J. Codd, a Baltimore machinist, to make happy for the past twenty years 100 boys and girls daily.

Every day, except Sunday, rain or shine, either he or one of his representatives appear on a certain corner near his machine shop and 100 children of all ages, color and sizes, are given their penny. Christmas there is a special fee of a nickel given to each of his little

never think the men change their names and the present dispenser for Mr. Codd—George J. Rock—is called Joe and Harry. Just as his predecessors were, Codd said: "I am glad to be able to give so much happiness to the little ones, and while I am no Rockefeller, still I hope my little charity does something for those who need it. It isn't meant exactly as a charity. The pennies are the youngster's own to do with them as they please, and they generally do," and he laughed.

**CATTLE ON THE MOVE**

CLARENDON, Texas, Sept. 4.—Notwithstanding some northern commission houses are trying to "knock" the Panhandle cattle, they are moving right along to the markets, some ten cars leaving here Saturday. Those shipping were: L. C. Beverly, one car cows, one car cows and calves; J. E. McCombs, one car cows; Joe Horn, one car of cows and calves, one car cows; T. L. Naylor, one car cows; R. L. Gibson, one car cows; W. P. Culwell, one car cows, all to St. Joseph; George Doshier, one car cows, Kansas City. All was extra fine stock.

sea via the St. Lawrence, or overland from Buffalo to New York or Boston. We may roundly abuse the great railway corporations of this country for what we term their rapacity in the making of some rates, but the fact remains that in the development of our export trade they are playing the star engagement.

MEXICAN SETS AN EXAMPLE Down in Parral, Mexico, there is a native born Mexican citizen by the name of Pedro Alvarado. Pedro Alvarado is what we popularly designate as a "greaser" in Texas, and up to six years ago he was a poor working for the miserable pittance of 60 cents per day in a mine in that section.

EMPEROR WILLIAM BLUFFED THE FRENCH TO STANDSTILL

Morocco the Pivot on Which Turn the Diplomatic Fortunes of Old World Powers at Present Time

GERMAN CAME OUT BOSS OF EUROPE

United States Is Interested in Public Works, Contracts and Preservation of the "Open Door"

BY GILSON GARDNER. Staff Correspondence of The Telegram.

WASHINGTON, Sept. 6.—The Morocco crisis is interesting the United States government to the extent of preserving the American interest in \$15,000,000 worth of public works for which the sultan's government lets the contracts annually.

It has been practically decided that an international commission will soon be appointed, in which the United States will have a representative; this commission to determine the controversy which has come up between Germany on the one hand and the dual alliance of France and Great Britain on the other, as to who shall have the "predominating influence" in Morocco.

MULAI-ABD-EL AZIZ, SULTAN OF MOROCCO.

on while Great Britain and France jockeyed for the advantage of Chancellor von Bülow, Emperor William "batted in" on the Morocco deal. He visited the sultan at Tangier. At the same time he demanded the French foreign office to know where he "came in" in the Morocco arrangement, and what was done in regard to German merchants and contractors.

to the treaty of Madrid made in 1880—whence arises the "favored nation clause" which enters so vitally into all of our commercial treaties. The United States was one of the signers of this Madrid agreement, and will therefore participate in the conference.

POINTED PARAGRAPHS

A barking dog occasionally bites the dust. A mule by any other name would kick just as hard. Many a poor fisherman gets tangled up in a string of lies.

# American Cigar Insurance

The **A** box-mark of the American Cigar Company is the official seal of insurance on your cigars, whatever price you pay for them, insurance of **quality, uniformity, cleanness and condition.**

It guarantees you **better cigars at every price**—cigars that are fragrant, full-flavored, mellow and absolutely unvarying in quality.

The American Cigar Company has established scientific system in every stage of cigar production, from the culture of the tobacco to the delivery of the cigar.

The American Cigar Company has equipped a great system of "Stemmeries" to provide for new and heretofore unknown tobacco-improving processes, which no other manufacturer even attempts.

The selected leaf is thoroughly fermented by a two-year process and the ripening tobacco is perfectly blended—all the qualities of the selected varieties of leaf that have been stored in contact being smoothly mingled. The ordinary factory operation called "blending" is not blending at all but merely **mixing.**

The finished cigars are stored in great "Humidors" where the climatic conditions of Cuba are constantly maintained—a moist warm air and an even temper-

ature. Here the finished cigars are constantly improving, like rare old wine—with all their characteristic aroma intact until they are ready to go to the dealer. After this **seasoning and maturing** and before being shipped, the cigar boxes are sealed and **double-sealed** in a tough parchment paper wrapper which does much to preserve their condition.

The only way to get the highest cigar quality at any price is to see you get an American Cigar Company brand. The cigar that suits thousands of other smokers may not please **your** taste at all; yet the way to test the results of the new tobacco-improving process is to begin with such a remarkable "hit" as the

## "ANNA HELD" CIGAR

### 5 Cents

The "Anna Held" is a perfectly blended smoke—a typical example of the results of the new system of cigar production. It is a **seasoned** cigar, with no slightest trace of rawness; rich and full-flavored, yet with no tinge of bitterness; well-rolled, even-burning, fragrant and satisfying.

Sold by all dealers in good cigars

Trade supplied by PLATTER TOBACCO CO., Dallas, Texas

### NEXT FRANCHISE TO BE DISCUSSED

#### Mayor Powell to Be Speaker at City Hall Meeting Saturday

A meeting is announced to be held at city hall Saturday night for the purpose of discussing the proposed Davidson gas and electric light franchise to be referred to election Sept. 19.

Other speakers will hold forth at this meeting and from all indications it promises to be exceptionally interesting.

### THE LIGHT OF OTHER DAYS.

Not very many years ago alcohol was used for lighting in combination with other fluids under the name of "Camphene," but it suffered banishment because it was too dangerous.

Alcohol is generally harmful when taken in the form of medicine, especially to a delicate system.

Dr. Pierce's tissue-rebuilding and following after Nat. plan. He uses natural remedies, that is native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in the most exact proportions.

Used as one of the active ingredients of Dr. Pierce's Golden Medical Discovery, BLACK CHERRYBARK specially exerts its influence in cases of lung and bronchial troubles, and this "discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The names of the medicinal ingredients of this world-famous remedy are: Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root.

"I have had such a wonderful experience with Dr. Pierce's Golden Medical Discovery that I do not hesitate to recommend it, believing it to be a wonderful medicine to build up the tissues of the system," writes Miss Bessie Brown, Secretary Emerson Literary Association, 428 Lexington, Boston, Wis. "Worry and nervous troubles had completely run-down my health and strength; had no appetite, slept badly, and was in a state of nervous collapse. I took twelve bottles in all, and, each week, knew that I was getting better and stronger. I finally have the utmost faith and confidence in your medicine, and wish to thank you for your good health, which is a blessing to anyone."

For 21 one-cent stamps to cover cost of mailing, you can get a free copy of the "Common Sense Medical Advertiser," paper covering of cloth-bound for 21 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets should be used when "Golden Medical Discovery" whenever a laxative is required.

The name does not make quality but quality makes the name

## B & B LAUNDRY SOAP

Is as always the **Biggest and Best** soap on the market for the money. The high quality of this brand has made the name. All Fort Worth grocers sell it. Refuse substitutes

## Ayer's

Sarsaparilla. Mends shattered nerves. Gives healthy red to pale cheeks. Puts good flesh on thin children. Takes off pimples, rashes. Ask your doctor to tell you about it. Lowell, Mass.

### DOG BITES BOY; BOY SHOOT'S DOG

Young Hunter Attacked by Bull Dog Employs Shotgun After Being Bitten

After being thrown from his bicycle and being bitten by a bull dog, Harry Halbert, 15 years of age, son of J. T. Halbert, killed the dog with a shot gun he was carrying.

The dog was shot near Sycamore creek Monday, the boy being on his way for a hunt in the country at the time. The dog, it is declared, followed the boy some distance, paying no attention to stones thrown at him.

### Bandit's Mother Bagged

NEW YORK, Sept. 7.—During a Kabbyle wedding ceremony at Benim Suar, the mother of the bandit Raisull was taken unawares and captured, according to a Herald dispatch from Tangier. Raisull's brother, accompanied by a detachment of troops is proceeding to Benim Suar to release her.

The Connecticut 2:08 pace—Don Carr 1, Owhy 2, Josie 3. Best time, 2:09 1/4.

#### BOTH WANT CHILD

Local police have been notified that George Green has been located in Lawton, O. T. In company with Mrs. Green and her four-year-old daughter, he came to Fort Worth about two months ago, the little girl, who is his stepdaughter, having performed as a tight rope walker at Rosen Heights during the summer. Several weeks ago Green, it is alleged, left Fort Worth with the child.

Through the efforts of the Fort Worth detective force, the man was located at Lawton and Mrs. Green left for that place Wednesday afternoon to secure the child.

The importation of live stock from Argentina for slaughter at British ports is prohibited, but the South American shippers get around this by sending live sheep to Antwerp, where they are slaughtered and the fresh mutton re-exported to England.

### BUILDING PERMITS

#### Large Amount of Small Residence Work Being Done

New building permits issued by John R. Haggard, city engineer, are: H. B. Whitsell, one story five-room frame dwelling, lot 10, block 4 of 20 Welch addition, \$1,000.

Edward Stephens, one story, six-room frame dwelling, southeast corner block 23, Jennings West addition, \$2,500.

Mrs. Martha Robinson, one story frame addition, lot 4, block 37, Jennings' South addition, \$800.

Robert L. Greene, one and a half story, eight-room cement block dwelling, lot 5, block 3, Sandidge addition, \$5,000.

G. W. Simpson, one story, four-room frame dwelling, lot 17, block 1, Mansfield Road addition, \$700.

### LINE-UP ANNOUNCED

#### Entre Nous and Sans Parle to Play Rubber Saturday

Line up for the ball game Saturday at Haines park between the Sans Parle and Entre Nous has been announced as follows:

Sans Parle—Herwick, Piquet, Farnsworth, Harris, Taylor, Stribbles, Hackney, Chestham, Adams, McMichael, Ashmore, Williams, Stewart, Mallard.

### GLENWOOD NOTES

Mr. and Mrs. J. C. Martin, who have recently returned from New York will live at 107 Vickery Boulevard, Glenwood.

An ice cream supper will be given Friday night by the East Leuda Street Mission.

A party was held Tuesday night at the home of Misses Dalley and Ethel Graves, 108 Vickery Boulevard.

### ABSCESSES

ABSCESSES, with few exceptions, are indicative of constipation or debility.

W. H. Harrison, Cleveland, Miss., writes, Aug. 16, 1922: "I want to say a word of praise for Ballard's Snow Liniment. I stopped on a nail, which caused the abscess in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.). He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world. Sold by Covey & Martin, 810 Main street, opposite Hotel Worth."

Twelfth and Rusk Streets. MRS. M. DeBEQUE, Manager.

Admission 13c and 25c. Open all the year around.

# WOMEN'S WOES

Many of the daily woes of womanhood are due to sick kidneys; but too many women fail to recognize kidney trouble when they have it, and kidney diseases are fatal if neglected too long.

When a woman's back aches from morning to night—

When she feels worn out after every bit of work she has to do—

When she cannot bend or stoop without suffering twinges of pain—

When she has constant headaches, dizzy spells, bearing-down pains and urinary troubles—

When she has any or all of these ailments it is a sure sign that the kidneys are not doing their duty. Uric acid and other poisons that the kidneys should filter out of the blood are carrying disease into every part of the system.

Recognize this as a danger signal. Recognize the kidneys as the cause of your many aches and pains, and to cure the kidneys use a kidney medicine.

Doan's Kidney Pills cure sick kidneys and cure them permanently. The kidneys begin to do their work properly, and pure blood, the greatest system regulator, restores the whole body to health and strength.

Don't Neglect the Kidneys. At the First Indication of Kidney Trouble Begin Using Doan's Kidney Pills, a Modern Kidney Specific, Which Has Cured Thousands of People Right Here at Home.

### Fort Worth Testimony

Mrs. M. B. Fleming of 206 Elizabeth street says: "If all troubled with pains in their back could have them ended as quickly as the use of Doan's Kidney Pills, procured at Weaver's Pharmacy, ended mine, backache and its accompanying ills need have no terrors for ladies who use this strengthening and curative remedy. I only hope the beneficiaries I have received from the use of the remedy may be lasting."

A TRIAL FREE—To prove what Doan's Kidney Pills will do for you we will mail a trial box free on application. Address Foster-Milburn Co., Buffalo, N. Y.

Kidney diseases cause more deaths than any other human affliction. This is because they come on so silently, and are, therefore, neglected.

When the kidneys are well, they remove from the body every day nearly one ounce of uric acid and other poisonous waste.

When the kidneys are sick, this poison is carried by the blood to every part of the body. It causes rheumatism, gout, neuralgia, sciatica, gravel, stone in the kidneys, heart disease, indigestion, diabetes and Bright's Disease.

Doan's Kidney Pills act promptly and give complete relief, because their influence is exerted directly upon the diseased tissues. This medicine has been curing sick kidneys for 72 years.

# DOAN'S KIDNEY PILLS

For Sale by all Dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y. Prep.

**MOTHERS, DO YOU KNOW**  
the many so-called birth medicines, and most remedies for women in the treatment of her delicate organs, contain more or less opium, morphine and strychnine?  
Do you know that Mother's Friend is a celebrated prescription, and that it has been in use over forty years, and that each bottle of the genuine bears the name of the Bradford Regulator Co.?  
Do you know that when you use this remedy during the period of gestation that you will be free of pain and bear healthy, hearty and clever children?  
Well, these things are worth knowing. They are facts. Of druggists at \$1.00. Don't be persuaded to try a substitute. Our little book "Motherhood" free. THE BRADFORD REGULATOR CO., Atlanta, Ga.

**KENTUCKIAN SHOT BY HIS BROTHER**  
Friends Attribute Tragedy at Pleasureville to Mental Derangement  
LOUISVILLE, Ky., Sept. 7.—"Cash" Club, one of the wealthiest men of Henry county, was shot and killed by his brother, Coswell, a hotel proprietor at Pleasureville, Ky. The murdered man was 69 years of age and the brother 48. The brothers had some difficulty over money matters, but friends attribute the shooting to mind derangement rather than disagreement over finances. The tragedy took place at Pleasureville.  
**QUARANTINE OFFICER HOME FROM MEMPHIS**  
ATSTIN, Texas, Sept. 7.—Dr. J. F. Eaves, state quarantine officer, stationed at Marshall, Texas, was just returned from Memphis, where he was directed by State Health Officer Tabor to make an official investigation of the yellow fever situation there. Dr. Eaves reported that he found a great deal of malaria there, but no traces of yellow fever. Memphis, he said, was right in the malaria zone and he said it was a wonder that there was no fever there. He is here subject to orders of Dr. Tabor.

**Grain Receipts**  
Twenty-eight cars of oats arrived on the Fort Worth market Monday.  
**CRIMINAL COURT NEWS**  
Following proceedings were had in the county court yesterday:  
A fine of \$50 and ninety days in jail was given C. C. Peters, charged with theft.  
Charles Johnson, Sunday selling, two cases, fined \$40.  
Bill Wright, Sunday opening, fined \$20.  
Jim Liston, Sunday opening, fined \$20.  
Jim Brown, Sunday selling, not guilty.  
Emmet Ayers, Sunday opening, fined \$50.  
Emmit Ayers, similar cases, not guilty.

Cures Heat, relieves Eczema and all Itching Skin Diseases. Price 25c Per Box at all druggists, or by mail postpaid from  
**GEO. W. HEYER DRUGGIST**  
3010 Capitol Ave., HOUSTON

**SEAVER HEADS BIG RAILROAD PROJECT**  
Former Fort Worth Newspaper Man Secures Mexican Concession

A syndicate of American capitalists, represented in Mexico by W. G. Seaver, has purchased the San Rafael and Atlixco railroad, the consideration being \$3,000,000. The syndicate also owns a concession granted them by the Mexican government for the construction of a railroad from the City of Mexico to some point on the Isthmus of Tehuantepec, a distance of several hundred miles. The San Rafael and Atlixco will be used as a link in this proposed new line.  
Mr. Seaver was once a resident of Fort Worth and was connected with the old Fort Worth Gazette as railroad editor many years ago. He went to Chicago from this city and became interested in railroad projects.

**ANOTHER FOR PANAMA**  
Henry Smith Latest Reported to Enter Government Work

It was announced some weeks ago that Henry Smith of San Antonio, general agent for the National Lines of Mexico, would resign and join his brother, Jackson Smith, who has charge of the construction of the Panama railroad. The report is now current that Henry Smith will soon leave for Panama and will be placed in charge of department work of the road. Nothing other than the mere statement that such steps will be taken has been received here from South Texas, but those in close touch with railroad affairs say that Henry Smith will soon join his brother on the Isthmus. He is well known in Texas and frequently made visits to Fort Worth.

**GRAIN RATE MEETING**  
Reductions Recently Announced Lead to Conference

The sweeping reduction of grain rates announced by the Great Northern and which was participated in by the Northern Pacific, has led to a conference between the traffic officials of the roads affected. A meeting was held at St. Louis to check up the rates in Minnesota and the Dakotas to determine where reductions must be made. The lines affected are: Chicago and Northwestern; Chicago, Rock Island and Pacific; Minneapolis, St. Paul and Sault Ste. Marie; Chicago, St. Paul, Minneapolis and Omaha; Chicago, Milwaukee and St. Paul and the Illinois Central. These roads were notified by the Great Northern and the Northern Pacific that the grain rates named by the Canadian Pacific and the Canada Northern lines from Manitoba to Fort Arthur caused many prospective settlers to pass by Great Northern and Northern Pacific settlement lands and to settle in Manitoba, and that it was deemed essential that rates should be reduced to an extent necessary to meet Canadian competition. An attempt was made by the roads thus notified to induce the Great Northern and Northern Pacific to limit their reductions to territory immediately affected by Canadian competition in order to protect Minnesota and Dakota rates as much as possible.

**ELECTRIC MIILEAGE**  
Statistics Show Big Increase Made in 1904

The total mileage of the electric roads in the United States at the end of 1904 was 29,548, an increase of 1,794 miles during the year. The total capital invested in these roads is \$2,217,092,900.  
The states credited with the greatest electric track mileage are: Ohio, with 3,181 miles; New York, 2,175; Pennsylvania, 2,142; Massachusetts, 2,021; Illinois, 1,988; California, 1,321; Indiana, 1,197. In addition to electric railways, which include elevated roads in cities, there are reported 639 miles remaining of cable, steam and horse railways, making a total of 20,187 miles of track. The total mileage, all tracks, of the steam railways in the United States at last accounts was 297,073 miles.

**ENGINE RECORD BROKEN**  
Baldwin's Will Complete 2,100 Locomotives This Year

The Baldwin Locomotive Works has broken the record for locomotive construction during the present year. Figures for the present year show 2,100 engines, an average of forty-two a week, or seven a day for every working day in the year.  
In 1903 this company turned out 2,047 locomotives. During the first six months of the present year the record was 1,000 engines.  
An order for 136 engines has just been placed for use on the different lines of the Harriman system.

**RIO GRANDE OUTLET**  
Gould Line Headed West to California

The Denver and Rio Grande railroad, a Gould line, is headed toward Phoenix, Ariz. It has been surveyed from Durango, Colo., to Farmington, N. M. Though not definitely decided it is quite certain the road will enter Arizona along the same grade as the Santa Fe as far as Holdbrook, touching Fort Apache and St. Johns, passing through a country which has never had the facilities afforded by a railroad. The road will then reach Globe and Phoenix, from the latter place it will have almost a direct route to the Gulf of California, the objective terminus.  
Many years ago the federal government sent George Dewey, when he was lieutenant, to the Gulf of California to investigate the situation for a port. His report was favorable, but nothing ever came of it. It is believed that the Rio Grande is seeking an outlet to the sea and that eventually a let to the sea and that eventually a steamship line will connect with the proposed road, when extended to the gulf.

**BIG FRUIT BUSINESS**  
The Arkansas Pass road has done an enormous business handling fruits and vegetables from points along the line.

From Jan. 1 to July 31, the total shipments were 1,708 cars, divided as follows: Watermelons, 1,144 cars; cabbage, 238 cars; onions, 124 cars; Irish potatoes, 12 cars; sweet potatoes, 11 cars; cucumbers, 29 cars; mixed vegetables, 45 cars; cantaloupes, 1 car. This year was a record-breaking year, the shipments exceeding those of 1929, when the total was 1,127 cars. The total shipment of all garden truck last year from along this road was 795 cars, which includes watermelons.

**GREENS WANTS MORE**  
Colonel W. G. Greene has asked the state of Chihuahua to grant the Rio Grande, Sierra Madre and Pacific railroad land for a right-of-way through all municipal lands along the route of his proposed extension of that road.

**IF RHEUMATIC**  
use this old reliable uric acid eliminant.  
SOLD ON ITS MERITS FOR 60 YEARS.  
**SELTZER**  
THE RHEUMATISM EXPERT

from Nueva Casas Grandes, 140 miles, to the new town of Dedicrick. Colonel Greene also asks lands on which to build depots, buildings and switches, in the different towns and villages through which the road will pass. The grant asked for does not affect federal and private lands, and it is believed that the state of Chihuahua will grant the request as the state has always been liberal in assisting railroad construction in the past.

**RATES ANNOUNCED**  
The Denver Road announces a one-way colonist rate to the northwest, effective Sept. 15, as far as the northwest as Seattle and Van Couvay and Victoria, B. C. The rate also includes Portland and intermediate points in Montana, Idaho and other northwestern states. The rates to apply will be approximately half of the regular one-way first class fare.

The Denver will give a one-way rate plus \$2 for the round trip from points on that line to the National Farmers' Congress at Richmond, Va., Sept. 8, 9, 10 and 11.  
The Scottish Rite Masons' convention will be held at Dallas Sept. 10 and 11. Convention rate basis will prevail for this occasion.

**PLAYERS SCATTER**  
Texas League Diamond Stars Prepare for Winter

Members of the Fort Worth baseball team will soon leave the city for their respective homes. Harlan, the big pitcher, will return to Cincinnati. Boles, the efficient shortstop of the Panthers' aggregation, will take up the study of law in Topeka, Kan. Markley's home is in San Antonio and Wilson lives in Austin. These two men will go to the two cities for the winter. Christmas will winter in Fort Worth. It is stated that he is in Detroit in the spring. Schwendler goes to his home in Louisville, Ky., and Wicker to Waxahatchie, Texas. Walsh is to go to Chicago, his future movements being unknown. He is likely to take up a post graduate course in Chicago University. Huddleston will repair to Holland, where he is a landed proprietor, and Erwin, one of the best catchers in the Texas League, or any minor league, will return to his home in Forney, Texas.  
Mauch, who caught regularly until Erwin took his place, goes to Milwaukee, and Willis to Indiana, for the winter. Pennell is a Texas lad and will winter at his home in Tom Bean, Texas. After returns to his family in Morgan City, La. Gofer, the errorless season player, will be found in Louisville, Ky.

**WEEVILS GO HOME**  
Temple Baseball Club Retains Most of 1905 Players

TEMPLE, Texas, Sept. 7.—Six members of the late Temple baseball team, which disbanded in Dallas on Labor Day, have arrived here. Among the number are Shelton, Coyle, Powell, Lewis, Clayton and Deskins. Powell and Coyle will remain here for the winter, having secured lucrative employment. Shelton goes to Terrell as soon as he can wind up some business here. Clayton will go to Corsicana for a few days to visit his parents, and Deskins will remain here for the present. The players are known to be reserved for next season: Powell, Clayton, Aiken, Deskins, Poindester, Mitchell, Lewis and Salm. Lewis will go to Amarillo today to play ball for awhile, and from there will return to his home in Richmond, Va.

**PRICES OF FUEL AND UNCERTAIN QUANTITY**  
Present Quotations for Wood and Coal May Last Only a Few Weeks

What will be the price of coal this winter? What will cord wood cost when northers come across the territories and sweep into North Texas and over the region south?  
Is there a summer and winter price? Will the price of coal advance within the next sixty days?  
None is able to say just what will be the price of coal this winter. Cord wood may be strong enough, the supply may be in large enough quantities to withstand a bullish market, but coal—never.  
From what can be learned through the various dealers of Fort Worth, this winter will not be an exception to the general rule that coal advances will mark the appearance of cold weather. The dealers say that the freight and mine rates advance when the weather gets cold. Consumers—some of them—say this is a little pleasant which is overlooked by an indulgent public.

Following are the retail current quotations on coal and wood from which there is only a slight variation out of a half dozen leading dealers asked as to prices of coal:  
Best post oak, per cord, \$4.50.  
East Texas red oak, \$4.75 to \$5.  
The sentiment, naturally, prevails in wood and coal circles that the prices above quoted are good for the next thirty days. Unless some unforeseen circumstance intervenes, the supply is going to be up and a corner on post oak or red oak, Bridgeport steam or Niggerhead lump is made in which event there will be a likelihood of a general raise along the line, as a dealer says.  
Furthermore, it appears to be the opinion of the dealers that the price will stand a natural raise within six weeks, on account of the approach of winter weather and the general demand of the public for supplies of coal and wood.  
The prices quoted are the summer 1929 prices. They are about the same as the winter 1924 price. Freight rates are said to be the cause of the advance in coal.

**TEXAS CROP CONDITIONS**  
Continued Dry Weather Has Caused Deterioration in Cotton—Corn Yield Fair  
GALVESTON, Texas, Sept. 7.—Following is the summary of crop conditions in Texas for the week ending Sept. 4, prepared at the Galveston office of the weather bureau under the direction of the department of agriculture:  
Slightly lower temperatures prevailed during the week, and toward its end a considerable change to cooler occurred. The weather was dry over most of the state during the greater part of the week, but there were scattered local showers. Toward the end of the week, showers became more general, and in some localities were heavy. Where they occurred the condition of vegetation has been improved to some extent. Plowing and preparing land for seeding winter grain and seeding fall crops has been delayed by the dry, hard condition of the soil.  
Cotton—The continued dry weather has caused further deterioration in the average condition of the cotton crop during the past week. Growth and putting on squares has been stopped to a large extent, and young bolls continue to shed badly, and the amount of maturing while small and are opening prematurely. In some localities, however, squares are forming more numerous than last week, and in some northeastern counties the prospects have improved considerably. There has also been some improvement in the prospect for a top crop. The tendency of the cooler weather and, though not sufficient to compensate for the damage by drought and earlier hot weather, boll weevils and boll worms have diminished in numbers, but are still causing damage in some localities. The boll weevils are also doing some damage. Bolls are opening fast and the weather has generally been favorable for picking, which has been carried on rapidly, though there is a scarcity of pickers in some sections. Showers interrupted picking to some extent, but little damage to open cotton by the showers is reported. In the northern counties picking has not yet become general.  
Corn—Harvesting early corn continues. While the yield is generally fair to good in many counties, it is less than was expected. Late corn has suffered for rain considerably, but the recent local showers have revived it somewhat. Some damage has been done to the corn crop in some localities by the dry weather, and in some localities the crop has suffered considerably. Early rice is ripening and some has been harvested. Sugar cane is doing fairly well, but it needs rain. In some localities it is suffering considerably.  
Miscellaneous—Gardens have continued to deteriorate on account of the drought. Sweet potatoes are in need of rain, but are doing fairly well. Meadows are drying up. Pastures are drying up, but feed is still plentiful. Late forage crops are suffering from the continued dry weather. Stock is generally in good condition, but in some sections it is deteriorating. Stock water is becoming scarce over an increased area. Fruit has been injured by the dry, hot weather.

**Girl Toilers**  
Gain Strength for Work  
In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength. Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unremittingly, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

**Lydia E. Pinkham's Vegetable Compound**  
builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:  
DEAR MRS. PINKHAM:—I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and monthlies were irregular. I had been to several doctors and they did me no good.  
Your medicine has made me well and strong, I can do most any kind of work without complaint, and my periods are all right.  
I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer.  
MISS ABBY F. BARROWS, Nelsonville, Athens Co., Ohio.  
Oh, if American girls who work would only realize that they have but one life to live, and make the most of their precious health and strength!  
Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

Applications at Prominent Barber Shops.

The Telegram's Financial and Commercial Page

STOCKS

Special to The Telegram. NEW YORK, Sept. 7.—The monetary situation proved an important factor during the early session of the market. Call money advanced to 3 1/2 per cent, an increase of 1/2 per cent from the former rate. This, coupled with continued operations by the bear party and some selling in the foreign markets, and also by the professional element here, resulted in another weak market. All issues showed declines, but were not entirely without support. Sales to amount, 608,100.

NEW YORK, Sept. 7.—Stocks ranged in prices today on the New York Stock Exchange as follows:

Table with columns for stock names and prices. Includes Am. Locomotive, Am. Tobacco, B. & O., C. & N. Y., etc.

GRAIN

Special to The Telegram. CHICAGO, Sept. 7.—Wheat ruled firm on stronger cables and reported heavy rains in some parts of the northwest. December and May options closed 1-1/4 up. Corn is up 1-8 to 1-3/8, on liberal demand and firm reports from foreign markets. Oats are up 1-4 to 1-3/8. Provisions were weak. Pork closed 3/8 off, at \$1.47 for the October option. Lard is off 8c, at \$7.67 for October.

Local receipts of wheat amounted to twenty-six cars, ten of which were contract grade. Corn receipts amounted to 341 cars, of which 146 were contract grade. Oats receipts amounted to 178 cars, 21 being contract grade.

CHICAGO GRAIN AND PROVISIONS

Table with columns for grain and provision names and prices. Includes Wheat, Corn, Oats, Pork, Lard, etc.

COTTON

Special to The Telegram. NEW YORK, Sept. 7.—Cotton opened 20 points lower. The session was dull and the sentiment was inclined to be bearish. Fluctuations were confined to a range of 10 points for the active months. October and December options were off 5 points, closing at 10.70 for middling grade. The cotton growers' convention estimates the condition of the crop at 73.3.

Following is the range in quotations: Open High Low Close. October 10.35 10.42 10.32 10.37. December 10.49 10.52 10.42 10.47.

NEW ORLEANS COTTON

NEW ORLEANS, Sept. 7.—The spot cotton market closed steady with middling at 10-1-8. Following is the range of quotations: Open High Low Close. October 10.41 10.44 10.33 10.38.

PORT RECEIPTS

NEW ORLEANS, Sept. 7.—Receipts today, 1,490 bales. Galveston reports receipts at 10,866 bales. Houston received 7,265 bales. Total port receipts last year, 22,350 bales.

ESTIMATED TOMORROW

NEW ORLEANS, Sept. 7.—Estimated receipts for this point tomorrow, between 800 and 1,600 bales. Galveston expects 8,000 to 8,500 bales. Houston estimates tomorrow's receipts at 7,000 to 9,000 bales.

LIVERPOOL COTTON CABLE

LIVERPOOL, Sept. 7.—The cotton market was steady. Middling closed at 5.62d. Sales, 7,000 bales. Receipts, 12,000 bales. 7,900 American.

Futures ranged in prices as follows:

Table with columns for month, price, and change. Includes September-October, October-November, etc.

LIVESTOCK

THURSDAY'S RECEIPTS

Cattle 3,000. Hogs 1,900. Horses and mules 100.

THURSDAY'S REVIEW AND SALES

Cattle receipts today reached 3,000, about the same as yesterday. Total for the week, 11,930. Steers were again very scarce, hardly enough to make a market. The supply was mostly made up of feeders. Prices hung in the same notch with yesterday, the best steers selling at \$3.10, bulk of killing steers \$2.90.

Cows and Heifers

Butcher cows and heifers showed better demand today in a few loads and an increase in numbers. The demand was fully as insistent as on Wednesday, but the easy tone of the day before was changed to steady with the week. The movement was active, resulting in a quick clearance. Top brought \$2.50, with the bulk at \$2.25, medium cows at \$1.75 to \$1.90, and canners and cutters at \$1.25 to \$1.65.

Representative sales:

Table with columns for animal type, price, and change. Includes Cattle, Hogs, etc.

THE SUPPLY OF BULLS AND STAGS ON THE MARKET SOLD AS FOLLOWS:

Table with columns for animal type, price, and change. Includes Bulls, Stags, etc.

THE CALF SUPPLY WAS ABOUT EQUAL WITH YESTERDAY'S RUN.

Demand for vealers still keeps up and the last two days have witnessed a strengthening of values to the amount of \$2.00. The vealers sold at \$4.75, with the bulk at \$4.25 to \$4.50, and heaves at \$2.50 to \$3.00.

Some 1,900 head of hogs came in for the early market.

These were not very choice, the loads having a good many lights and roughs. It required a large amount of sorting to get the supply in saleable condition, and by the time this was done wires from the north disclosed a decline of 5c to 10c. The example was promptly followed here, and on that basis packers began bidding. The supply changed hands slowly. Pigs declined along with heavy hogs. The stocker trade was dull and the market for several days' late market several loads were sold from \$4.00 to \$4.50, a decline of 30c to 40c.

Representative sales:

Table with columns for animal type, price, and change. Includes Hogs, etc.

TRADE NOTES

The cleaner the feed and feeding places, the better the quality of the pork in all.

A sow with a mean, cross temperment, is always hard to deal with, and this disposition often causes loss of the litter.

Teach the colt to eat grain in good season.

Many cases of abscessed feet are the result of leaving the shoes on too long.

In examining a horse stand behind him in the series of years will vary as little as wool.

A good flock of sheep makes annual payments of both interest and gain on the capital invested.

It is estimated that there are about 319,000 head of cattle in the world.

The greatest producing countries per capita are Uruguay, Paraguay and Argentina.

These countries have 7.64 and 4 1/2 cattle per capita in the order named. The United States is credited with about three-quarters of an animal per capita.

In their primeval state, swine subsisted on grass, roots, nuts and water. That was the raiser of today who utilizes the largest possible amount of pasture will make more money and have healthier hogs than the one who furnishes corn, water and a dry lot.

DRIVING CLUB READY

Meeting for Final Organization to Be Held Friday

A meeting of the subscribers to the Gentlemen's Driving Club will be held at the Worth Hotel Friday night for the purpose of completing the organization.

All persons interested in the formation of the club, whether subscribers or not, are requested to attend the meeting.

SPECIAL ANNOUNCEMENT

CHANGES IN FORT WORTH CITY DIRECTORY

Changes in location of residence, business place or occupation, as also names of those having located in the city since the completion of the 1934 city directory, can be made if sent in at once. Address Morrison & Fourny Directory Co., city.

A FINE OPPORTUNITY OFFERED FOR INVESTMENT

to anyone desirous of engaging in the banking business. The leasehold running for eight years with a complete outfit of bank fixtures, is for sale in the city of Fort Worth, Texas, located on the corner of Fourteenth and Main streets. The location is one of the best in the city and the building an ideal one for the banking business. It is known as the Bank of Commerce building. Fort Worth is fast becoming a financial center and both its present and its future cannot be excelled by any city in the state for banking business. Fort Worth is without a state bank and a fine opportunity is offered here for either a state bank or a trust company, or both combined. For further particulars address I. L. Link of Commerce, Fort Worth, Texas.

CITY VALUATION TAKES BIG JUMP Increase Over Last Year Estimated at \$2,500,000 by the County Assessor

"I firmly believe that the taxable wealth of Fort Worth this year will increase \$2,500,000," said County Assessor Sweet today, after having given the matter considerable consideration.

He figures that the receipts in the city of Fort Worth are \$35,000,000 in the city, \$37,000,000, and in the county about \$20,000,000. Last year the rendition was \$27,000,000.

Assessor Sweet feels sure that the increase in this city of taxable wealth will exceed that of Dallas, according to the statement just given out by the assessor of Dallas, which places the increase this year at one and a quarter million dollars.

Fort Worth's increase is the more remarkable when it is considered that the estimates made by Mr. Sweet for the city do not include the several suburbs, while that of Dallas takes in Oak Cliff and other additions.

Dallas, according to the statement made by the Dallas assessor, will have a total property valuation of \$32,000,000, added to which will be about \$7,000,000 of suburban property.

Mr. Sweet said that Tarrant county last year headed the list of counties in regard to increased taxable wealth and believes that it will do so this year. He attributes the rapid increase of receipts in the county to the remarkable growth, which has been substantial in every respect.

Here. They save two boys here and are going to start them in the Nelson-Draughon Business school to take a full business course and also to learn the American language.

Commercial Agent Dillon of the Santa Fe is up in the Territories. M. L. Morris, traveling passenger agent of the International and Great Northern, is in the city from Palestine.

At a conference meeting of the congregation of the Second Baptist church Wednesday night, it was unanimously agreed by the members to give Rev. J. W. Gillon two more weeks in which to consider the call extended him. Rev. Mr. Gillon is conducting a two-weeks' meeting in Wichita Falls and on that account the church decided to extend him more time in which to state whether or not he will accept the call.

LETTER TO J. S. CARROLL. Fort Worth, Texas. Dear Sir: The commonest lie for parents is: "A gallon covers 300 square feet, two coats." It does and it don't, depends on the paper, the old paint, and the painter, all three.

It is true of Devotee with a margin. Devotee is too thick for some jobs; the painter will add some oil, sometimes, not always, especially in cold weather. Albert Page, Fairfield, Mo., computed Devotee for his house (200 ft. a gallon, two coats), at 40 gallons; had 13 left. Yours truly, F. W. DEVORE & CO. P. S. Brown & Vera sell our paint.

DAILY FASHION HINT

Nos. 2731-2739—For Afternoon Wear. Nothing is more in demand for wear than dainty afternoon dresses. Whether one be maid or matron, at least one simple, effective frock of this description is a necessity. A particularly good model for such a gown is shown above.

OKLAHOMA CATTLE SHOW BIG INCREASE Said to Be Twice as Many in Territory Now as at Any Previous Time

GUTHRIE, O. T., Sept. 7.—"There are twice as many cattle in Oklahoma today as there were in the range days, and of more than twice the value," said Thomas Morris, secretary of the Oklahoma live stock sanitary commission, in his office yesterday.

AMUSEMENTS "Happy Hoolligan in New York" was the source of heart laughter at Green's today. The play, which opened last night, "Happy" first became popular in Fort Worth as depicted by F. Opper in the comic supplement of The Sunday Telegram.

QUARANTINE BULLETIN Trains Do Not Stop at Maysville, Indian Territory. The following bulletin has been issued from Rock Island headquarters in this city: Oklahoma Territory—Quite a number of passengers have boarded our trains without health certificates, destined to or through Oklahoma.

WEDDINGS SALIS-PURSLEY J. L. Salis, driver of fire truck No. 1, and Miss Myrtle Pursley were married Saturday night at 7 o'clock. They are at present living at the home of Mr. Salis in Ballinger street.
