

Baptist Plan New Educational Bldg.

A building committee representing the Lockney Baptist Church has started working with an architect on plans for an educational annex to the church, it was announced recently.

The building will be approximately 50x85 feet in size, one story and of brick and tile construction, according to tentative plans. Foundation will be run to accommodate a second story to be added later if needed.

The plans for the educational annex will be worked into a long range plan which will allow for a new auditorium for the church at some future date.

Cost of the educational building will be between \$30,000 and \$35,000 according to estimates now. The building will provide housing for the Cradle Roll, Beginner and Intermediate department of the Sunday School, a kitchen opening out into a recreational room, a pastor's study and a number of Sunday school class rooms.

Ralls Man Accepts South Plains Scout Council Chairmanship

J. Edd McLaughlin of Ralls has accepted chairmanship of the South Plains council, Boy Scouts of America, campaign for its 1949 budget, it was announced Tuesday.

McLaughlin is widely known in business and banking circles and has been prominent in Rotary club activities. He has served on the executive board of the South Plains council, Boy Scouts of America, more than 20 years, and has been a member of the regional scouting committee several years.

Funds Drive Planned

The council's campaign to raise its budget of \$46,505 for 1949 is scheduled for "kick-off" Nov. 8 in every community in the 20-county area except Lubbock, Lamesa and Littlefield, where the council is a participating agency in the Community Chest.

The steering committee assisting McLaughlin in organization of the campaign includes Henry Miller, Tulla; Jim Hunter, Plainview; C. D. Bass, Levelland; Sam Privitt, Brownfield; H. G. Cook, Wilson; Dr. J. C. Lovelless, Lamesa; R. B. Shahan, Denver City; Edgar Hays, Lockney; Jack Godfrey, Spur; Alvin Redlin, Silveston, and Joe Hutchinson, Littlefield.

Delmer Ashworth Is Named To Post At A&I

J. Delmer Ashworth has been appointed director of publicity at A&I College, and assistant professor of journalism.

Prof. Ashworth was reared in Lockney and was valedictorian of his class when he finished high school here. His aunt, Mrs. J. B. Harper informs The Beacon. His father passed away when he was a small boy and he worked his way through college.

He is a graduate of West Texas State Teachers College at Canyon and the University of Missouri School of Journalism. He edited the student newspaper at West Texas State and during his senior year was president of the Texas Intercollegiate Press Association.

He is married and has a ten year old daughter, Kay.

Before going to A&I Prof. Ashworth taught journalism in the Fort Smith, Ark., junior college and was in charge of public relations for the public school system there. He also worked on the daily newspapers in Fort Smith. For two years he wrote an editorial column for daily newspapers and for an additional two years he syndicated editorials.

Mrs. Rose Will Preach At Sandhill

Mrs. Bennie Mavet Rose will preach at the Sandhill school house Sunday afternoon at 3 p. m. It was announced this week. Everyone in the community is invited to attend.

Bargain Rates On Daily Papers

The Beacon is authorized to accept subscriptions, either new or renewal, to the following daily papers at rates quoted:

Longhorns Travel To Spur Tonight

The Lockney Longhorns will go to Spur tonight (Friday) for the game of the week as far as District 3-A is concerned. The winner of this game will be in a favored position to cop the district crown, according to the opinion of most gridiron enthusiasts.

The Spur Bulldogs have a high scoring, fast team, according to scout reports. They have scored 80 points in their last two games, both against comparatively weak teams however. They have three fast backs—Lindsay, Berry and Alldredge. The team is not heavy, according to program weights. The backfield will average around 145 pounds and the line about 150 pounds.

Spur has lost two games this year, one to Post and the other to Haskell. They have defeated Hamlin, Matador and Paducah.

Coach Curtis Kelley said Thursday that the Longhorns were in good spirits and ready to go. Ewell Dee Kelley, star tackle for the locals, has had some trouble with a skinned place on his back but Coach Kelley said he would be ready to start Friday night. The other boys are in good shape.

The Longhorns probably will play a harder game against Spur than against Crosbyton last week, was the opinion of many fans here.

Starting line up for the Longhorns will probably be the same as against Crosbyton last week.

Only Three Teams Undeclared In District

Only three teams remain undeclared in district 3-A this week. They are Lockney, Floydada and Spur. Crosbyton was knocked from the undefeated ranks last Friday by the Longhorns 13-6 in a hard fought game at Crosbyton.

Spur ran roughshod over the Paducah Dragons at Spur winning by a score of 40 to 6. Paducah was playing without the services of their star, Joe Sandlin, it was reported.

Floydada defeated Abernathy at Floydada 20-6. Jeter was again the big noise for the Whirlwinds.

Ralls won their first game this season, defeating the Matador Matadors 13 to 0 at Matador.

The schedule for this week is as follows:

Lockney at Spur
Floydada at Paducah
Matador open
Ralls open
Crosbyton at Abernathy

County Council Meet Postponed Because Of State Meetings

The Floyd County Home Demonstration Council will not meet on Saturday afternoon, October 16, as several of the Council members will be in Temple attending the annual meeting of the Texas Home Demonstration Association. The October meeting of the Council has been tentatively set for the fifth Saturday afternoon, which is October 30, according to an announcement by Mrs. Carrick Snodgrass, Council Chairman.

Delegates to the State meeting of the Texas Home Demonstration Association from Floyd County are Mrs. Raymond Teeple of Lone Star, Floyd County T. H. D. A. Chairman; Mrs. J. B. Smitherman of South Plains, and Mrs. A. H. Kreis of Friendship. Others who plan to be in Temple for the meeting are Mrs. Carrick Snodgrass of Harmony; Mrs. George West of South Plains; Mrs. Bill Brock of Starkey; and Mrs. C. A. Caffee of Dougherty. They will leave for Temple on Wednesday and return by way of the State Fair at Dallas on Saturday.

Woodson Terrell and son spent several days last week at the State Fair in Dallas.

Boy Scout Barbecue Will Be Held Monday

The Boy Scout barbecue, originally set for Monday night of this week, was postponed and will be held next Tuesday night, Scoutmaster Arthur Harker Jr. announced this week.

The barbecue will be held at the American Legion hall and will start promptly at 7:30.

The program will consist of songs by the Lockney Rotary Club Quartet, music by Mrs. Troy Ray and possibly other numbers.

Tickets to the barbecue are being sold by local Boy Scouts and members of the Rotary Club for \$1.50. Everyone interested in the Scouts is urged to purchase a ticket since the proceeds will go to finishing up the Scout hut.

Floyd Barber Jr. Burned In Accident

Floyd Barber Jr. suffered third degree burns on his left leg, his hands and one arm late Tuesday afternoon when an axle, which he was using to spray Johnson grass, exploded catching his clothing on fire. The accident happened on the Jay McPherson farm north of town.

Mr. Barber is being treated at the co-operative hospital here and was reported to be doing fine Thursday morning. Attendants said that it would not be necessary to graft skin on the burns.

Mr. Barber was riding the spray which was being pulled by a tractor driven by Mr. McPherson. It was believed that the exhaust of the tractor exploded the axle. Mr. Barber's clothing was wet with the spray and caught fire immediately. He and Mr. McPherson extinguished the fire with dirt and he was rushed to town for treatment.

Marauders Lost To Plainview 20-0

The Lockney Marauders, local professional football team, couldn't get going against the Plainview All-Stars Tuesday night on the local field and lost their game 20-0.

The All-Stars scored once in the second quarter and once in each the third and fourth. Dick Standifer's passes were a constant threat to the Marauders. One pass resulted in a touchdown and another score came on a Lockney fumble.

For the Marauders Bud Dean and Trigger Williams and Bob Davis were the main stays in the backfield and Wallace Allen, Bill Whitlock and Bill Thompson starred in the line play.

Leslie Ferguson went to Electra on business Monday.

Mr. and Mrs. D. E. Cox are visiting with their daughter in Springfield, Illinois.

22 Called For Draft Examination

Twenty-two men from the four county area have been called for physical examination by Selective Service Board No. 45, Miss Jo Ann Clements informed The Beacon Thursday. Of this group, five are from Floydada and one from Lockney.

The group will undergo examination at the Army Examination and Recruiting Station in the Federal Building at Lubbock on October 21. Miss Clements said. Induction of those who qualify will probably be the latter part of November.

Men are called according to age starting with the oldest in the age group from 18 through 25.

Eighteen year olds are required to register within five days of their birthday. They may register either at The Beacon office in Lockney, at the Legion Hall in Floydada or at the Courthouse in Plainview.

Band Mothers Vote To Buy Uniforms

In a meeting held Tuesday morning, October 7, the Band Mothers Club voted to proceed with the purchase of uniforms for the Lockney High School Band, it was revealed this week.

L. L. Reece of the Master Cleaners has agreed to order the uniforms at cost charging only \$1.00 per member for the measuring. Members of the club expressed their appreciation for his helpfulness.

The Club voted to charge each band member a yearly rental of \$10.00 for high school uniforms and \$5.00 per year for the grade school uniforms, it was said. This rental will apply until the uniforms are paid for and then will be reduced, members explained.

Mothers of band members were urged to attend the meetings of the Band Mothers Club since the club has a big responsibility and need all the help they can get.

New Motor Control Introduced Here

Joe Page is introducing a new motor control for electric powered irrigation wells, according to his announcement in this issue of The Beacon.

The motor control will automatically throw the electric switch back into contact within a time period of from 45 seconds to four minutes after electric power failure has caused the switch to lose contact. Mr. Page said. The time period may be adjusted to any length of time with the period mentioned above that the operator desires.

The control is manufactured by Adams & Reavis of Childress and Mr. Page is local representative.

Heavy Dewes Slow Up Cotton Pulling

Heavy dewes almost every morning this week have slowed up the cotton harvest to some extent, preventing pullers from getting into the fields until 10 or 11 o'clock, farmers of this locality report.

The labor situation in this area is somewhat improved, local ginners report, although there are still a few farmers who needs hands. The gins have been able to stay up with the harvesting up to this time.

The three local gins have ginned 3,032 bales up to Thursday morning. This is probably between one-fourth and one-fifth of the total crop, according to estimates.

According to a report from Fred Bell, special agent of the Bureau of Census, Floyd County ginned 1763 bales of cotton prior to October 1, this year as compared to only 316 bales on the same date last year.

Lutrick-Carmickle Activities Continue

The E. T. Lutrick No. 2 was reported drilling ahead Tuesday at 6,934 feet. The No. 1 E. T. Lutrick was back on the pump after changing pumps.

Activity continues in the Carmickle 1, 2 and 3 wells, located on the North one-half Section 18, block K in Hale and Floyd counties. The No. 1 in Floyd has tested 610 barrels. It was planned to put the No. 2 in Hale county on pump Tuesday night. No. 3, also in Hale county was drilling ahead at 585 feet Tuesday.

H. B. Machen Farm Sale Wednesday

H. B. Machen has announced a farm sale at his place four miles north and 1 1/2 miles west of Lockney next Wednesday, October 20. The sale will start at 1:30 p. m.

Mr. Machen is offering some farm machinery and cattle for sale. Col. W. H. Seale is auctioneer and Ed Holmes will be clerk of the sale.

Rexall 1c Sale Next Week End

The Lockney Drug has announced the annual Rexall 1c sale for next week end, Oct. 20, 21, 22, 23. They offer many items in which the patron purchases one item at regular price and then may purchase a second one for only 1c. See their advertisement in this issue of The Beacon.

Music Contest For School Students

AUSTIN, Texas—There is a University Interscholastic League music contest for every school boy and girl in Texas, regardless of the size of the school. F. W. Savage, director of music activities, says.

To high school musicians Savage says, "If you play a piccolo, tuba or harp, or any instrument, either with a band, orchestra, or solo, if you sing alone or with a chorus, you can enter a music contest in the League."

This session the League music program offers 238 classifications of contests for choral groups, bands, orchestras, soloists and ensembles. Approximately 40,000 students, from grade through high schools, will compete at district meets and regional competition-festivals throughout the state.

Competition will be based upon the prescribed lists of music which contains more than 2,000 pieces of music. Music teachers and directors will be notified as soon as the prescribed lists are ready for distribution, Savage said.

For schools where there are no music teachers at all, there is the music appreciation contest, based upon recordings. Choral singing is open to grade schools.

Last session 283 bands, 30 orchestras and 229 vocal groups competed for ratings. In 1949, participation is expected to be even greater in all contests. The deadline for entering the League music competition is Feb. 15, 1949.

Visitors in the home of Mr. and Mrs. Ed Whitfill Sunday were Mr. and Mrs. J. Floyd Howe and children and Mr. Howe's brother, all of Panhandle.

Lockney Garden Club Flower Show Set For Saturday

Plans were practically complete Thursday for the county-wide flower show which will be held by the Lockney Garden Club Saturday of this week. The Wanda Baker building just north of Maier Food store will be the scene of the show.

Club members are anxious that everyone who has flowers feel welcome to enter them in the show. The flowers should be brought to the building at 9:30 a. m. Saturday. If the person growing the flowers does not wish to enter them in the judging but wants merely to display the flowers they may do so, club members said.

Judging will be from 1:00 p. m. until 2:00 p. m. Saturday afternoon. The show then will be open to the public from 2:00 to 5:00 p. m.

Three ribbons, blue, red and white will be given in each class. Mrs. Herman King is president of the club and Mrs. Arthur Baker Sr. is in charge of arrangements.

Following is a list of the classes which will be judged and places awarded.

Classes in Schedule

- Straight Classes (a showing of specimens, singly or in a group):
- Class I. Single Specimen—Roses (coke type bottle container);
- Class II. Single Specimen—Dahlia (milk bottle container);
- Class III. Three or more large dahlias, any one color, (any container);
- Class IV. Five or more large Dahlias, mixed colors, (any container);
- Class V. Five or more small Dahlias, any color, (any container);
- Class VI. Three or more red roses, (any container);
- Class VII. Three or more pink Roses, (any container);
- Class VIII. Five or more Marigolds, (any container);
- Class IX. Five or more Asters, (any container);
- Class X. Five or more Zinnias, (any container);

Flower Arrangements

- Class I. Arrangement in any vase, yellow flowers predominating;
- Class II. Arrangement in any vase, pink flowers predominating;
- Class III. Arrangement in any vase, combination of colors;
- Perennials or annuals or both may be used in this class. Foliage and flowers to set off predominating colors may be used.
- Class IV. Miniature arrangements (arrangements and container not to exceed 6 inches in height or width);
- Class V. Children's Class: Arrangement in any container by children 12 years or under.

4-H Club Girls Meet Thursday

The Lockney 4-H Club Girls met on Thursday of last week. Officers were elected as follows:

President, Elizabeth Handley; vice-president, Jean Owens; secretary, Pat Pylant; reporter, Clydell Hill; adult leader, Miss Lella Petty.

The club will meet at the grade school building in Lockney the third Thursday in each month. Other girls are invited.

PROCLAMATION
by the Governor of the State of Texas

TO ALL WHOM THESE PRESENTS SHALL COME:

This week of October 10-16, 1948, has been chosen by the National Federation of Business and Professional Women's Clubs as National Business Women's Week. The Texas Federation, which is part of the national organization, will observe the same week.

This observance offers an opportunity to compliment business women throughout the State for the splendid manner in which they perform their duties in the business world.

The idea of cooperation in public or civic affairs is not a new one to the members of this organization. Members of the organization are on Boards of Education, Public Health, Real Estate, Hospital Staffs, Art Associations, Newspapers, Public Libraries, Infantile Paralysis Associations, and many others, where they serve well and efficiently.

There are at this time many problems of employment, of domestic and foreign relations, and I am confident that the women of Texas will continue cheerfully and efficiently in business and at home, their contributions to our country's efforts for stabilized, peace-time living.

NOW, THEREFORE, I, Beauford H. Jester, Governor of Texas, do hereby proclaim the week of October 10-16, 1948, as **BUSINESS WOMEN'S WEEK** in Texas, and invite the citizens of this State to cooperate in a proper observance.

IN TESTIMONY WHEREOF, I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, this 20th day of September, A. D. 1948.

(SEAL) (Signed) **BEAUFORD H. JESTER**,
Governor of Texas.

By the Governor (Signed) **PAUL H. BROWN**
Secretary of State.

Origin of Mascara

Woman's oldest manufactured beauty aid, according to a Hollywood make-up man, is mascara. This material is known to have been compounded by the Egyptians as far back as 4,000 B. C. Inspection of feminine portraits of that time, as presented by wall paintings in modernly unearthed tombs, leads one to suspect that the glamor gals of ancient Egypt were highly comparable with those of today.

NEW RELIEF! WHEN COLDS CAUSE **Croupy Coughs**

VAPORUB STEAM Brings relief with every breath!

Mother, you know what wonderful relief you get when you rub on Vicks VapoRub!

Now...when your child wakes up in the night tormented with a croupy cough of a cold, here's a special way to use Vicks VapoRub. It's VapoRub Steam—and it brings relief almost instantly!

Put a good spoonful of Vicks VapoRub in a bowl of boiling water or vaporizer. Then...let your child breathe in the soothing VapoRub Steam. Medicated vapors penetrate deep into cold-congested upper bronchial tubes and bring relief with every breath!

BERRY HOOTEN HAROLD MARLER SKEET THORNTON

Lockney Longhorns Edge Crosbyton

The Longhorns edged out a hard-fighting Crosbyton Chief team last Friday night at Crosbyton by a score of 13-6. It was the second straight district win for the Longhorns and the first loss for the Chiefs.

Neither team was able to score in the first half. The Longhorns threatened once but were stalled on the Crosbyton 18 yard line. However, when the Longhorns received the kick-off at the start of the second half they wasted no time in scoring, driving down field from their own 36 yard line on four consecutive first downs to a score. Their second score came in the fourth quarter when Jerry McCullough drove over his own right tackle position, eluded two tacklers and broke into the open. He ran 65 yards for a score.

Crosbyton's score came in the fading minutes of the game on two passes. They first completed a long pass to the Longhorn 10 and on the next pass over the goal line a Lockney back slapped the ball but slapped

it into the hands of a Crosbyton back who caught it for the score.

Statistics showed that the Longhorns gained 235 yards to 204 for Crosbyton which included 65 yards gained on the long passes. The Longhorns completed two passes and Crosbyton completed five. The locals were penalized six times for 30 yards to one time for 5 yards for the Chiefs. The Longhorns lost 15 yards from scrimmage to 46 yards lost for the Chiefs. First downs were 11 for the Longhorns to nine for the Chiefs.

The game was marred by mistakes on the officials part. One time the Chiefs were given five downs instead of four before the ball went over to the Longhorns. At the start of the fourth quarter the Longhorns lost five yards on the moving of the chain. Later on the Chiefs were given only three downs and then the ball went over to the Longhorns.

Jerry McCullough was again the star of the Longhorns offense. He not only ran 65 yards for one score but gained his part of the ground on the other drive for the touchdown.

A brief review of the game follows: Crosbyton received on their own 22, failed to gain and kicked out to

their own 48 yard line. Lockney was penalized five yards, made 4 and then a pass from Cole to Pyle was good for a first down on the Crosbyton 37. Three plays made a first on the Crosbyton 24, they made six, were penalized five, lost four and had a pass incomplete. The ball went to Crosbyton on their own 28. Crosbyton failed to gain in two tries, then Lockney was given two successive five yard penalties giving the Chiefs a first down. They again failed to gain and kicked to the Longhorn 32. The exchange of kicks again found the Longhorns with the ball on their own 34. They made a first down on the 50 and then kicked with the ball being returned to the Crosbyton 49. Crosbyton made a first on the 50, another first on the 36, another on the 26, and then on a freak play Simmons tried to run, was trapped, tried to pass with a Longhorn intercepting the pass, but the ball was brought back and given to Crosbyton at the point where he threw the pass, the officials ruling that it was down there. The Chiefs then lost 10 yards on the next play as the half time whistle blew.

Longhorn Band Performs

The Longhorn Band performed at the half time period very creditably. The marches and formations were very impressive.

The Longhorns received the kick off at the starting of the second half.

The kick was returned to the Longhorn 36, three plays made a first on the Crosbyton 46, and then two more plays, in spite of a 5 yard penalty on the Longhorns, made a first on the Crosbyton 30. The Longhorns then made a first on the 14, a first on the two and Jerry McCullough drove over for the score. The try for point was fumbled. The score was 6-0. Crosbyton received and returned to their own 37. They made a first on their own 47, three plays netted minus 2 yards and they kicked to

the Longhorn 34. The locals then made a first on their own 47, failed to gain and kicked to the Crosbyton 33. The Chiefs started a drive here, making successive first downs on their own 46, on the Lockney 44, 34, 17 but here the Longhorns held and the Chiefs had minus three yards in four tries. The ball going over on the 20. The Longhorns also started a drive, making firsts on their own 38, 48 and then a fumble lost the ball for them.

Crosbyton completed a long pass to the Longhorn 26 but couldn't go further and the Longhorns took over on their own 27. They made 9 yards, lost one, and then Jerry McCullough broke through over his right tackle, eluded two tacklers and ran the rest of the way for the score. Jimmy McGowan kicked the point and the score stood 13-0.

The Chiefs returned the kick to their own 35, then threw a long pass which was completed with the Crosbyton receiver being down on the Lockney 10 yard line. Another pass over the goal line was slapped by a Longhorn back but fell into the hands of a Crosbyton player for the score. The point was not good.

The Longhorns received the kick and returned to their own 42. They made a first on the Crosbyton 45 as the game ended. Score Lockney 13, Crosbyton 6.

Egg yolk is an excellent source of iron. Eggs are also rich in vitamin A and contain thiamin, riboflavin and vitamin D.

The average person forms an opinion by adding to a small measure of information a dash of imagination and a large quantity of prejudice, shaking well with emotion.

Don't forget the State Fair in Dallas October 9-24.

WE OFFER THE PEOPLE OF THIS AREA A

Complete Auto Repair Service!

Our Service Department

We have the very latest electrical and shop equipment designed to give you the best in auto repair service. We are especially equipped to handle Ford products and we can also do expert work on any other make of car or truck.

Our three experienced Ford-trained mechanics are on the job at all times ready to handle your auto troubles. They are Aubrey Kent, Harold Davis, and Leonard Dollar.

When your car starts "acting up" it will pay you to let us repair it and put it back in first class condition. We try at all times to give you prompt, dependable service.

GLASS REPLACED

A shattered—or even a cracked—window is a driving hazard to you and other occupants of your car, as well as everyone else on the road. Now that winter is coming you should take time to get those cracked glasses replaced. We can do that for you promptly and at a reasonable cost. We install safe shatter-proof glass for your protection. Ask us about it.

OUR BODY SHOP

We can improve the appearance of any car greatly by repairing the broken places and dents in the body and fenders and putting a new paint job on it. And if you plan to keep your car a while it will pay you to keep the body in good repair.

Elmer Lee Stapp, an expert body man is in charge of our body shop and his assistant is Cecil Hutson. Let us take care of your car in this department.

UNDER COATING

Let us undercoat your car, thereby preventing rust, rattles and dust. It will protect your car in any kind of weather.

Our Parts Department

We use only genuine Ford parts when we repair your car and we also offer for sale the same Ford parts. When you need a part for your Ford you will save money in the long run everytime by putting in the same kind of part the car had when it was made—genuine Ford parts. We have a large parts department and can furnish you with almost any part you may need.

"Rusty" Baccus is manager of our parts department and Leonard Griffith is his assistant. They will be glad to serve you.

La Ventana Club Meets Tuesday

The La Ventana Study Club met Tuesday afternoon with Mrs. Jack Brian for a study on Texas. Mrs. M. S. Johnson was leader for the meeting. Her subject was "Texas Flowers." Mrs. C. L. King talked on "Texas Birds and Trees." The current trend was given by Mrs. Herman King.

In absence of the President and vice president, Mrs. Herman King presided at the business meeting. Those attending were Meses. Clyde Baxter, Hubert Frizzell, J. T. Griffin, Vestal Hastings, M. S. Johnson, Bill Johnston, C. L. King, Herman King, Ben McGhee, Robert Smith and the hostess.

The next meeting will be with Mrs. Bill Johnston on Oct. 26.

ATTEND TEXAS AND OKLAHOMA SINGING CONVENTION

Miss Ledell and E. J. Colvin of Lockney and Miss Florene and Foincine Bonds of McQueen, Oklahoma attended the Texas and Oklahoma Singing Convention Sunday at Altus, Oklahoma.

There were some very fine quartets there, especially the Stamps all Star Quartet of Dallas and the Stamps Ozark Quartet of Wichita Falls, Texas.

Miss Colvin and Florene and Foincine Bonds are students of the Stamp's Quartet School of Music in Dallas. They plan to return to Dallas in January to take up their studies.

Sam Newmann of Kress spent Monday here on business.

Ninalie Foster And David Williams Wed

The marriage of Miss Ninalie Foster, daughter of Mr. and Mrs. A. O. Foster of Lone Star community and David Williams son of Mr. and Mrs. Dee Williams of Lockney, was solemnized Saturday night, Oct. 9, at the parsonage of the First Methodist Church in Matador. Rev. Marvin Brotherton, pastor, performed the single-ring ceremony.

The bride was attired in a brown street-length dress with brown accessories and a corsage of pink rosebuds.

Mrs. Fred Huggins attended the bride as matron of honor. She was dressed in a grey street-length dress with black accessories.

Fred Huggins attended the groom as best man.

The bride and groom were both members of the 1946 graduating class of Lockney High School.

The couple will be at home in Las Alamos, New Mexico where Mr. Williams is employed.

Visitors in the Fred Lam home over the week end were his nephew and wife, Mr. and Mrs. R. E. Lam of Hobbs, N. M.

A. L. Vernon and Norvell Raper left Tuesday morning for Delta, Colorado, where they will hunt deer.

Jeanne Thomas was among the Lockneyites who attended the fair at Dallas last Saturday. She is a student at Baylor University, Waco.

MRS. RAYMOND BARR

Miss Mary Carthel Weds Raymond Barr

Miss Mary Carthel, daughter of Ray Carthel of Lockney, became the bride of Raymond Barr of Plainview on Friday, October 8. The ceremony was read in the home of Mr. and Mrs. Ohmer Kirk of Floydada at high noon. Mr. Kirk read the service.

The bride was very attractive in a light gray suit with dark accessories. Her corsage was of pink carnations. Her attendant was Miss Margaret Weathers of Lockney. She wore a brown suit and a corsage of pink carnations. The groom's attendant was his brother-in-law of Plainview.

Mrs. Barr was reared in Lockney and attended the Lockney High School. She is a popular member of the young set here. Mr. Barr attended the Plainview High School.

The couple are at home at 1010-A Smythe Street in Plainview.

Surprise Dinner Honors W. C. Watson

W. C. Watson was honored at a surprise birthday dinner on Thursday, Oct. 7 at his home here. Mr. Watson was 78 years of age. He has been a resident of Lockney for 40 years.

The dining table was beautifully decorated with a three-tiered birthday cake topped with a cluster of candles and bearing birthday greetings. Places were laid for all his children, grandchildren and great-grandchildren totaling thirty persons. Present were the honoree and wife, Mr. and Mrs. Floyd Huff, Mr. and Mrs. Olin Huff, Charlotte and Patricia, Wichita Falls; Mr. and Mrs. Douglas Degge and Olin Douglas, Mr. and Mrs. Douglas Watson, Tulla; Mr. and Mrs. Verlon Watson, Tulla; Mr. and Mrs. France Baker, Lubbock; Mr. and Mrs. Lennis Baker, Carol and Beverley, Lubbock; Mr. and Mrs. Glen Watson and Roland, Mr. and Mrs. Bill Watson, Mr. and Mrs. Geo. Turner, Jr.

New Arrivals

Born to Mr. and Mrs. Arvin Husky, a baby girl on Friday morning, October 8. The young lady made her appearance at the Plainview hospital. She weighed 7 pounds, one ounce, and has been named Sonia Jean. Grandparents are Mrs. H. B. Sparkman of Lockney and Mr. and Mrs. Will Brand of Cedar Hill.

GOING DEER HUNTING

Lee Pope, Bud Pope, and Bill Norris left Wednesday for Rifle, Colo., where they will hunt deer.

Texas fertilizer sales for the fiscal year 1947-1948 amounted to 451,132 tons. This compares with 1936-37 sales of nearly 85,000 tons, 116,307 tons in 1939-40, and over 400,000 tons in '46 and '47.

Self-Service Gas Stations Cut Costs

LOS ANGELES.—New self-service gasoline stations are springing up throughout Southern California. Instead of men attendants, cute girl cashiers, some on roller skates and dressed in snappy and abbreviated costumes, take your money after you have filled your own tank.

In addition to the girls there is another attractive feature for motorists:

The price for gasoline is as much as five cents a gallon under usual prices. Some of the self-service stations advertise a saving of seven cents a quart on oil.

Borrowed from the super-market system, the new idea is spreading. Estimates indicate there are more than 35 self-service stations, and the number is growing daily.

Operators claim their products are marketed at one-third the cost of ordinary stations. Harry Rothchild, president of Rothchild Oil company, one of several independents going in strong for the idea, says his cost is 1½ cents a gallon to the normal 4½ cents, refinery to consumer.

Self-service requires a larger area as each station uses several times the normal number of gasoline pumps, to accommodate more cars. Some stations have 20 or more pumps.

Attendants are needed only to unlock the pumps and take the customer's money after he has helped himself.

Some stations have put girl attendants on roller skates. It enables them to make quick change and handle more pumps.

Determined Shopper Catches A Pair of Bargain Pajamas

MEMPHIS, TENN.—The pajama sale brought out the bargain hunters. The clerk finally wrapped the last pair on the counter and the sale was over.

Three hours later, a woman shopper handed the clerk the money for a pair of blue pajamas that had been on sale. She had left the money home when she first arrived at the store.

She calmly explained that she had hidden the pajamas under garments on another counter and returned home for the cash.

Dairy Farmers Cash in on Test-Tube Breeding of Cows

NEW BRUNSWICK, N. J.—A decade of test-tube breeding of milk cows has succeeded far beyond the hopes of the 100 pioneers.

It was just 10 years ago that New Jersey Co-operative Artificial Breeding Association Unit No. 1—first of its kind in the nation—got underway on a farm in Somerset county.

Now, a million dollars in extra income a year is being grossed by dairy farmers taking part in the project.

Enos J. Perry of the New Jersey State College of Agriculture here launched the program among 100 farmers.

He had visited Denmark where he witnessed co-operative artificial breeding.

Perry was surprised at the speed with which dairymen accepted the revolutionary idea that put the New Jersey bull in the shadow of a test tube.

The original 100 Jersey farmers have been joined by thousands more in 42 states. There were 1,500 cows enrolled in the pioneer project. Now there are 1,800,000 in the nation giving better returns to their owners because of "test tube" breeding.

Flying Police Trooper Flags Errant Pilot to "Pull Over"

PONTIAC, MICH.—Concealed by the sun's brilliance, like a traffic policeman behind a billboard, Henry A. DeLoof, state police trooper, flagged down and ticketed an errant flier.

The arrested man, Pfc. Richard J. Koester, 20, on leave from the marines in Washington, paid a \$30 fine to Justice Burt I. Lockwood. The charge was reckless flying.

DeLoof said he watched Koester take off "like a cowboy" from the Pontiac airport. The policeman took over another plane and followed Koester 18 miles, with the rays of the sun as a shield.

He said Koester made two low dives over populated areas. After the second one DeLoof pulled up beside Koester and gave him the same signal traffic policemen use to flag motorists to a curb.

"You should have seen his face when I flew alongside him," the trooper commented.

Koester was arrested after he landed.

Short-Circuited Juke Box Sounds Its Own Fire Alarm

PHILADELPHIA.—James Fitzgerald shook his head, blinked the sleep from his eyes. He was right. The strains of "Four Leaf Clover" filled his bedroom—at 2:30 a.m.

The music was coming from the taproom below his second-story apartment. But the taproom was closed.

He stumbled down the stairs and found smoke pouring from the taproom.

It took firemen an hour to put out the blaze in the short-circuited taproom juke box. The short circuit had set the machine in operation.

Crippled Children Entitled To Care

AUSTIN, Texas.—In an effort to familiarize every person in Texas with the services offered by the Crippled Children's Division of the State Health Department, Dr. Geo. W. Cox, State Health Officer has released the following statement:

Every crippled child in Texas, under 21 years of age, and of normal mentality whose parents are unable to pay for needed care, is entitled to assistance from this Division.

Crippling conditions which may be treated are infantile paralysis, osteomyelitis, club feet, harelip and cleft palate, burns, curvature of the spine, arthritis, bow legs, rickets, tuberculosis of the bone, flat feet, congenitally dislocated hip, muscular dystrophy,

supernumerary fingers and toes, wry neck, elephantiasis, spina bifida, brachial palsy, Poitts' Disease, congenital anomalies, spondylolisthesis, amputation, webbing fingers, epiphallia, and sarcoma.

Assistance may be obtained by applying to the Cripple Children's Division, Texas State Department of Health, Austin, or by placing an application through an established city or county health unit.

Full information about local groups and organizations throughout the state who are anxious to assist crippled children establish their eligibility and receive proper care, may be had by writing for a pamphlet, "Handbook on Agencies." Address: Crippled Children's Division, State Department of Health, Austin 2, Texas.

The new "soapless suds" ... many of which were developed during the war ... are fine for washing grease off pots and pans, but are not recommended for linoleum, paint or furniture. These "soapless suds" draw out the oils in woods and wood finishes, thus causing their drying out. "Feed the land and fatten the crops" is a good slogan for Texas farmers. And by feeding the land, agronomists mean planting well-inoculated and fertilized legumes. Legumes supply plant food and add organic matter to the soil.

Newcastle disease is a virus affecting the nervous system and breathing system of chickens. It may also affect turkeys, pheasants and pigeons.

Holes bored in the top and bottom sections of the doors of cleaning closets will provide ventilation.

Sometimes the best command of the English language is complete silence.

CITATION BY PUBLICATION

THE JESSIE TEXAS
TO: Jessie Cooper, Defendant,
Greeting:

A brief statement of the nature of this suit is as follows, to wit: You are hereby commanded to appear before the Honorable District Court of Floyd County at the Court House thereof, in Floydada, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 18th day of October A. D. 1948, then and there to answer Plaintiff's Petition filed in said Court, on the 30th day of August A. D. 1948, in this cause, numbered 3765 on the docket of said court and styled Frank Cooper Plaintiff, vs. Jessie Cooper Defendant.

A brief statement of the nature of this suit is as follows, to wit:

An action for Divorce on the grounds that Plaintiff and Defendant have not lived or cohabited together as husband and wife for more than 10 years before the filing of this case. And that there is no community property existing between plaintiff and defendant and no minor children of their marriage, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Floydada, Texas this 30th day of August A. D. 1948.

Attest:
Mrs. J. O. Dudley, Clerk,
District Court, Floyd County, Texas
(SEAL) By Mrs. P. W. Bell, Deputy

French Fans Shower Wrestlers With Beer

PARIS, FRANCE. — Murder the bum! Changez l'arbitre, that referee is blind! Voici, Pierre, pour another beer on that low type, Bravo, a direct hit!

Such quaint expressions are an integral part of the wrestling matches from Singapore to Scott's Bluff, Nebr., but at the Salle Wagram, a few blocks from the Arch of Triumph in Paris, it hits a new and lusty low.

The French throw inhibitions to the winds when it comes to indicating their displeasure with contenders in the manly art of wiping the floor with the other guy.

At the Salle Wagram audience reaction is always extreme but varies along fairly strict economic lines. The shifty-eyed open-collar standees in the single tier balcony and their equally ardent lady guests accompany their vocal derision by flipping lighted cigarette butts into the ring.

Occasionally a ringside customer is struck by mistake and the house protests. Another favorite of the balcony crowd, restricted to those fortunate enough to be standing over the aisle, is to pour stale beer on departing combatants.

Patrons in the outer fringe of seats — or those who may be termed, roughly, the middle class spectators — are out of cigarette flipping range. However they vary the murderous exhortations by tipping, poking, kicking and generally annoying departing gladiators.

At the ringside, the well dressed dilettantes who plunked down \$2.50 each for the occasional privilege of catching 240 pounds of braised beef in their laps, manifest their displeasure on these occasions by a few well placed kicks.

Detectives Open Battered Safe Which Baffled Robbers

DENVER.—Looking at the litter surrounding the Morton Peabody incorporated's safe early one morning, detectives Fred Zarnow and John Toll figured would-be crackers had worked unsuccessfully for about six hours.

The 750-pound safe had been removed from the shop and battered, beaten, cut, hacked and burned, but it remained closed. To add insult to injury, the yeggs had used the shop's own tools for the attempted job.

Finishing the safe-cracking job, Zarnow and Toll opened the safe, in the presence of the owner, in just 90 seconds.

Phantoms, Banshees "Haunt" New Aircraft Vocabulary

PHILADELPHIA.—The boy on the street had better start learning a brand new vocabulary if he wants to keep abreast of today's aviation parade.

That's because the Flying Fortresses, Mustangs, Thunderbolts and other planes that seemed so advanced only a couple of years ago are fast losing their strategic value, says R. R. Zisette, general sales manager of SKF Industries, in reporting on the increased use of anti-friction bearings in new types of aircraft. The Philadelphia firm has substantially boosted production of bearings for aircraft gas turbines and other plane engines.

"Something like 14 new types of planes and a half-dozen experimental pilotless craft have been revealed by the air force while numerous others are still on drafting boards," he says.

The up-to-date aviation vocabulary must now include, Zisette said, such names as Banshee, Stratojet, Phantom, Shooting Star, Panther, Pirate, Thunderjet and others known only by anonymous symbols such as the XS-1 which reputedly has crossed the mystic barrier of supersonic speed.

Anti-friction bearings for the new aircraft exemplify the spectacular transition, Zisette said, pointing out that as many as a hundred bearings of a dozen different types go into a single engine, simplifying mechanical design and lubrication.

Searchers Find Lost Child in Rattlesnake-Infested Country

GRAHAM, TEX. — Sandy-haired Bobby Brown, 2-year old son of a North Texas farm couple, was found scratched and bruised after being lost 24 hours in rattlesnake-infested ranch country.

Unclothed except for a T-shirt, the towheaded youngster was rescued by D. D. St. John, one of 300 searchers.

"Where are you going?" St. John asked.

"Looking for my dog Shorty," replied the barefoot child.

The child's parents, Mr. and Mrs. Houston Brown, said Shorty, a shaggy black and white dog, returned to their farm house "barking and howling."

"I guess he was trying to tell us where Bobby was," said Brown. Bobby, youngest of eight children, was missed before noon.

Searchers on foot said they killed 12 rattlesnakes in brushland and mesquite flats while searching for the boy.

Six private planes took part in the search. He had wandered eight miles from home.

Mr. and Mrs. W. C. Watson spent Wednesday in Tulla.

There are two kinds of voters; the ignorant ones and the ones who vote for your candidate.

An "advice" columnist says that a man should make his wife a silent partner. Good trick if you can do it.

MEDICAL DOCTOR DISCOVERS CAUSE AND RELIEF FOR HIGH AND LOW BLOOD PRESSURE

No exaggerated claims are being made. The records of over 1,000 patients, during the past five years, stand for themselves. If you have either high or low blood pressure, you owe it to yourself to thoroughly investigate this wonderful discovery. The usual symptoms of headaches, dizziness, pains in the back of the head and neck, nervousness and leg cramping are helped and many times entirely relieved by taking one tablet orally before each meal. The Best treatment is the result of years of careful study and clinical research. The necessary medicines have been formulated into one tablet. In most cases, a 33-day course of treatment brings welcome relief. Hundreds of happy patients are willing to tell you of the help they have received. Don't delay in knowing that there is help for you. Write a personal letter describing your case. You will receive a personally supervised reply recommending proper treatment procedure. The Best treatment requires no dieting or restrictions of any kind.

TURNING BACK THE CLOCK

The main argument against the capitalist, free enterprise economic system is that it is old-fashioned, has outlived whatever usefulness it may have had, and can't offer the bulk of the people enough benefits to justify its continued existence. That seems to be the point of view of all the left-wingers, ranging from pale pink to the deep shades of red, and they obviously think it carries a Sunday punch.

However, as Harold Stassen recently said, "Only a great, free productive nation, humanitarian in its impulses, could possibly provide more than eighteen billions of dollars worth of food, clothing, and materials for others since V-J day and yet continue to enjoy the highest standard of living in the entire world."

THE NEXT DAY AFTER JOHN ROBINSONS CIRCUS WAS WRECKED OVER NEAR XENIA

Feb. 28 Final Date For Grain Sorghum Supports, Announced

The Grain Branch has notified the county committee that the grain sorghums bulletin will be amended to provide for grain sorghums loan and purchase agreement programs until February 28, 1949.

When the original announcement was made that loans and purchase agreements should be available only until December 31, 1948, the local county committee composed of G. B.

Johnston, W. H. Nelson, and W. F. Ferguson, with those committees of other grain sorghum counties protested the closing date and recommended that the later date be provided similar to the 1947 programs. After the usual red tape, an extension was granted.

This extension will enable farmers in Floyd County to take advantage of the price support for their grain sorghums up until February 28, 1949. No extension has been made on the wheat support program which ends December 31, 1948.

CITY OF LOCKNEY

Mrs. Faye Meser, City Secretary

treats its workers. Yet there is no other economic system in the world which has so improved the lot of the masses of people, or which has resulted in so wide a distribution of wealth, or which has given practically all of us possessions which would seem like the most unreachable luxuries to the average worker in most other countries. Only under capital-

ism can a worker quit his job if he pleases and go to work somewhere else. And only under capitalism do millions of people go to work in their own automobiles and, at the end of the week, go home with a paycheck which makes possible our standard of living. In Russia, which claims to be the workers' paradise, you work where the state tells you to. You put in as many hours as the state wants. If you complain, you get shot, or go to prison, or you become a member of a forced-labor gang beyond the Urals. And, unless you're one of the few with high rank in the communist hierarchy, you get paid just enough to keep body and soul together and no more.

The whole western world is looking to this country for its salvation. It is looking to capitalism to produce the goods it must have to live. It is looking to the American worker, the American employer, and the American way of doing things, to save it from civil war, starvation, and another dark age. What country which has succumbed to the paralysis of socialism, communism or any other ism can say one-hundredth as much?

Finally, capitalism is more than a system of economics. It is the way of life which guarantees and protects the freedom of all the people. It is the base which supports representative government. Communism, by contrast, has turned back the clock, and can exist only in an atmosphere of oppression and slavery.

You will get a higher food value and improved flavor by cooking cereals in milk instead of water. But remember that milk scorches more easily than water, so when you cook cereal in milk, use a double boiler.

The Texas Forest Service says that 90 percent of our forest fires are caused by man, and are therefore preventable.

SUPPLY AND DEMAND "FIXES" PRICES

Those who are still wondering why meat costs what it does can find an answer to their question in a recent statement from the Department of Agriculture. It said: "Meat prices are directly related to the level of consumer incomes and the high prices paid for meat now, compared with prewar, reflect the great increase in consumer incomes resulting from the higher level of wages and salaries paid and the marked increase in employment."

It would be an oversimplification to say that this is the sole reason for high prices for meat or anything else. The causes of inflation are many and complex. But it is obviously one of the big factors, and the statistics which back it up are impressive indeed. Before the war, 45,000,000 people were gainfully employed in this country. Now we have 60,000,000 workers, which means that practically everyone who wants a job has one. The increase in our spendable income is even more remarkable. In the prewar era, the personal incomes of the American people, after taxes, came to about \$79,000,000,000 a year. This figure has more than doubled, and has now reached the \$187,000,000,000 level.

It is true that our meat production is greater than it was before the war. But it is not yet sufficient to bring back a balance between supply and the money which goes to market after the meat. The price of meat is purely a supply and demand matter, and it is actually established by the consumer himself. As the American Meat Institute says, "In buying livestock, the meat packer has to compete with many other meat packers. . . . He must pay market prices, otherwise he would not have livestock to keep his personnel employed and his plant operating." And those market prices are always the result of inexorable economic laws.

Uncle Sam Says

Seeding time on the farm calls for the use of strong, pure seed able to meet weather and pest attacks and still come through with a good harvest. United States Savings Bonds are like good reliable seed. They grow a crop which can be left to full, rich maturity in ten years at the rate of \$4 for every \$3 invested. Take a tip from the wise farmer who is storing up a crop of security by investing now in Savings Bonds. He is growing more money, security for himself and his family and security for his country. Your security is America's security.

Homecoming At Tech Set For Oct. 30

LUBBOCK—With a record 6,000 visitors expected, Texas Technological college this week was preparing for the largest annual Homecoming of its 23-year history.

The Oct. 30 Homecoming program will include a giant parade, a luncheon, an afternoon football game between Tech's Red Raiders and Rice Institute Owls, and a dance.

Ordinarily only two sections of Tech's stadium are required at Homecoming to handle ex-students, but officials said three sections were reserved this year and these are sold out.

Only about 2,000 general admission seats remain to be sold, and indications are that nearly 25,000 persons, the largest crowd in Tech history, will witness the game. Rice will be making its first visit to Lubbock, the five previous meetings between the Raiders and the Owls having taken place in Houston.

All clubs on the Tech campus have been asked to enter floats in the 10 a. m. parade. Judges will award prizes to the most beautiful, most comical and most descriptive float.

Tech exes have been invited to attend the buffet luncheon in the college gymnasium, an annual event sponsored by the Lubbock Bus Company and the Texas, New Mexico and Oklahoma Coaches.

Forest Service Offers Trees

COLLEGE STATION—If you're planning on getting some tree seedlings for reforestation or windbreak purposes, you had better hurry. D. A. Anderson, acting director of the Texas Forest Service of Texas A. & M. College, says the supply of several species is already running low. From now on it's a first come, first served basis.

According to a recent checkup at Texas Forest Service's Indian Mound Nursery near Alto, there are only a round a million and a half slash pine seedlings left. All supplies of red mulberry, black walnut, Chinese elm, red cedar, Russian olive, Colorado blue spruce and species have been spoken for.

With a two-inch rain in an hour's time last May and a long, drouthy period since then, this year's pine tree growing season has had a few hard knocks. Result: this year's seeding crop will fall far below the 20 million estimated production.

The seeding shipping season usually begins around December 10 and lasts until early March. The Texas Forest Service grows seedlings only for reforestation projects and windbreak uses, says Anderson and those wishing to buy trees for shade or ornamental plantings should get them from commercial nurseries.

County agents will be glad to help in giving advice as to the species of trees to be planted in areas where soil and climate conditions present unusual problems.

Slash, loblolly, longleaf and shortleaf pine seedlings can be bought for \$2.50 a thousand. Black locust, bois d'arc, catalpa, eucalyptus and Australian pine sell for \$3 per thousand, and other varieties at \$5 a thousand. That's about what it costs the Forest Service to grow and pack them.

When buying for reforestation, you have to get at least 500 or more, and at least 100 for windbreaks, says Anderson.

Sterley News

By Mrs. M. A. Boone
Mr. and Mrs. Amos Nelson and family of Anton visited Mr. and Mrs. G. P. Nelson Sunday.

The Sterley Home Demonstration Club met in its regular meeting Thursday. Mrs. L. A. Claborn reviewed the book "Mrs. Mike." The hostesses were Mrs. J. H. Davidson and Mrs. W. J. Casey. Refreshments of lazy daisy cake and coffee were served. Next club day will be October 21, and demonstration will be on quick breads.

Bert Bobbitt left Tuesday for Lincoln, Arkansas, to visit his daughter and new grandson.

Mr. and Mrs. Joe Reeves will leave Wednesday for Pine Bluffs, Arkansas. Billy Perkins of Turkey visited his aunt, Mrs. Hubert Melton and family Saturday night and Sunday.

About one half inch rain fell in this community Saturday afternoon. Cotton and grain harvesting was held up until Monday at noon. The rain will be of great benefit to the wheat.

Mr. M. C. Bonner went to Dahart Saturday night. He returned Sunday. Mrs. Bonner, who had been visiting there for the past week, returned with him.

Mrs. M. A. Boone, Lafayette, and Eldora visited friends in Turkey Sunday. They were accompanied by Mr. and Mrs. Blake Wood of Plainview and Miss Joan Daniels of Lockney.

The Maintenance of Way Employees of the Fort Worth and Denver held their meeting in Sterley Sunday. Out of town visitors were C. B. Nobles of Childress, T. L. May of Estelline, Mr. and Mrs. W. P. Couch of Turkey, G. C. Gullede, Roy Ward of Hart and W. R. Carlisle and D. B. Berry of Plainview.

Mrs. G. E. Patterson visited her daughter in Amarillo Monday.

Mr. and Mrs. A. K. Glover and family visited relatives in Hart Sunday.

Those from Lockney attending the Baptist Workers Conference at Silvertown Tuesday included Mr. and Mrs. C. O. Roberts, Zeb Reed, Rev. and Mrs. E. J. Cobb, Mrs. Ed Whitfill, Mrs. Guy Sams, Mrs. T. B. Mitchell, Rev. Raymond Spence, Rev. Clay Muncy.

Having a good aim in life is fine, but you must know when to pull the trigger to get the best results.

Soil Conservation District News

The District Supervisors of the Floyd County Soil Conservation District held their regular monthly meeting Tuesday, October 5th in the agriculture building. Among business taken care of was the appointment of W. H. Nelson as delegate to the annual State Convention of district supervisors of Texas to be held November 9th and 10th at Brownwood.

Applications for District assistance were approved for Joe N. Dunn, Travis Parr, G. W. Smith, C. J. Parr, Claud Patton and Lloyd Nelson. Orba E. Miller, Greer Christian, B. M. Roberts, J. M. Williams, Ben Cogdill, O. C. Payne, E. L. Ginn and Mrs. Mary Simmons.

Agreements between the following cooperators and the District were also approved: H. L. Standefer, E. O. Cates, D. J. Parkey, Roy Hollums, Raymond Williams, Orba E. Miller, Frank Perkins, C. L. Mooney, B. W. Cox and Joe N. Dunn.

The Soil Conservation Service technicians assigned to the District set a high point for an irrigation well on the H. A. Tardy farm near McCoy and also on the Glenn Lewis place south of Lockney.

The field crew ran contour guide lines on the Stephens land south of Dougherty for G. W. Smith last week.

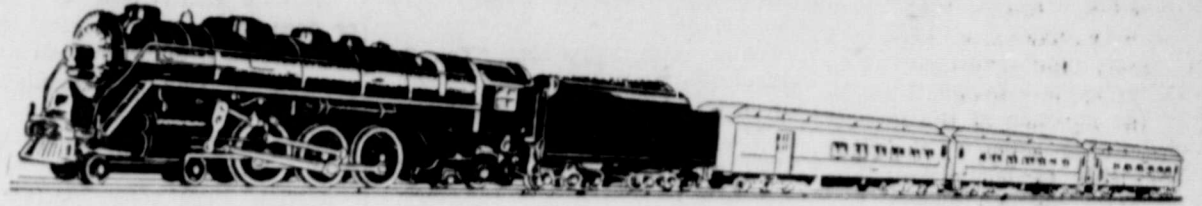

The District Engineer and Work Unit Conservationist went over the B. M. Roberts farm south of Lockney on which a conservation plan is being worked out.

Raymond Evans is among the old cooperators of the District who has recently put down an irrigation well. The field crew ran lines for an irrigation system on his farm just south of Floydada last week.

There are five types of cookies—rolled, refrigerator, drop, sheet and cookie press. The drop and sheet kind requires less time, since dropping from a spoon is easy. Sheet cookies are baked in a pan and cut into bars or strips before they are served.

Wealthy people don't get enough roughage in their food while the poor don't get enough food in their roughage.

IF IT'S Quality Tires YOU WANT

At No EXTRA Cost!

• Just stop in and see the Dunlop S 107 Gold Cup. Here is a tire that is the last word in top quality—with all the latest attainments in scientific engineering and ultra-modern appearance.

The gripping serrated tread gives real non-skid protection and assures quick straight stopping on all types of roads—wet or dry. The wide flat tread gives greater mileage and assures silent running.

Here is extra quality at no extra cost—made by the builders of quality tires since 1838—the founders of the pneumatic tire industry.

DUNLOP

JACKSON TIRE COMPANY

Lockney High

Jerry Sims Tiney Foster
Kay Norman Illene Harris

The students of L. H. S. have survived a very gloomy week in which those inevitable things that occur every six weeks have come about, six weeks exams. But skies are blue again and everyone is happy. Especially about the outcome of the Crosbyton and Lockney game which ended 13-6. We wish to compliment our squad on their splendid playing and for holding back those Crosbyton Chiefs who were also undefeated. We are indeed proud of the large crowd that turned out for the game.

The band gave a very commendable performance under the direction of George M. Atwood. We have a new addition to our pep squad. The boys have been admitted at last and these base voices certainly help out. Keep up the good work.

L. H. S. Band News

The Longhorn Band met in the band hall Monday night, October 4, 1948, to elect officers for the following year. New rules and regulations were adopted to improve the band. The officers are as follows: President Herbert Watson, vice-president, Velma Seale, secretary, Joyce Carthel, treasurer, Illene Harris, reporter, Beth Kellison, librarian, Kay Norman, instrument custodian, Roylene Hall. All the band students have a new spirit and are out to make the Longhorn Band the best organization anywhere. We are looking forward to the football games, especially the homecoming game with Paduach. We are working together for better half-time shows, and also are hoping we can have new uniforms before the

football season is over. We sincerely appreciated all the time and donation that people have given to help us. Knowing that you are behind us it gives us new zest to always do our best.

DIRT STORM

Is Jack really mad at California or does he want to be alone???
Seems as if Mary Evelyn, and Kay enjoyed a ride in Donnie's new BUICK!!!
Was "Samples" really going after Arlene Sunday evening?
Shirley Faye seems to worry an awful lot about Ray?? Reckon he really cares for her!!

SUB-DEB

The Sub-Deb Club met in the home of Tiney Foster's at 7:30 o'clock Tuesday night. The club decided to write to the "Lady's Home Journal" and see if they could become a national organization. The pledges had to present the program. Gail Sherman played a piece on the Piano. Beth Kellison played "Twelve-Street Rag." "Flowers of the Forest" on her accordion. Beth also gave a reading on "High School Girls." Mary Louise Manning gave a reading about Mr. Smith. Beth and Wanda Kellison gave a Sub-Deb reading.
Those who were present and enjoyed several servings of chocolate candy were: Tiney Foster, hostess, Velma Seale, Verda Mae Holt, Bonnie Harrison, Merveane Patterson, Wilma Foster.
Pledges: Gail Sherman, Wanda Kellison, Mary Louise Manning, Beth Kellison, Wilma Foster, Iva Mae Wright, Joy Keeter, Mary Evelyn Manning.

Peanuts and peanut butter can be used in many ways in cooking every thing from soup to deserts. Peanuts go well with such vegetables as cabbage, celery, eggplant, onions and potatoes.

Specialist Urges Caution In Large Wheat Acreage

COLLEGE STATION—What's a head for wheat, ask Texas farmers. Here's the answer. Facts and figures in the government wheat outlook sound a note of caution. Now that fall seeding is under way, here are the facts as they are seen by E. A. Miller, extension agronomist, and C. H. Bates, extension farm management specialist of Texas A. & M. College. Here's what the wheat growers like. The continued strong demand here in this country should take up 750 million bushels of this year's big crop. This would mean only 20 million bushels less than what we used last year. The European Recovery Program will use around 450 million bushels. The wheat price support for the 1949 crop is 90 percent of parity through loan and purchase agreements.

And here are a few gloomy facts. The carry-over of wheat stocks next July 1, is expected to be up nearly one-fifth above the prewar level. European wheat production has improved, and will approach the yields they had before the war. If they don't get a stack of bad weather. The United States acreage goal has been set 8 percent below last year's goal, and Texas' recommended seeding goal is down 10 percent. The storage bins are heavily loaded with this year's big wheat, grain sorghum and corn crops.

All in all, it looks like the United States and world supplies have improved quite a bit. Next year's carry-over certainly will be up, and the situation could look a little tough if acreage yields are had from the acreage goal. The average yields are 71.5 million for the U. S. and 6.5 million for Texas. And another bumper wheat crop in 1949 would probably require marketing quotas for all growers in 1950.

So, it looks like good business to face the facts, says Bates and Miller. If some marginal acres have been in crops that should be returned to pastures, better plan to begin re-seeding now. Increase your summer fallowing and erosion control practices, says these extension specialists, and plant soil-building legumes wherever they are needed.

Plan ahead, plant wisely, and give your soil a break.

If nature is so wonderful, why didn't she make the mosquito a vegetarian? It is not bad luck to postpone a wedding, so long as you keep on postponing it.

PUBLIC SALE

I will offer at my place 4 miles north and 1½ miles west of Lockney, the following described property at public auction on

WEDNESDAY, OCTOBER 20

at 1:30 p. m.

FARM MACHINERY

- 1945 model Ford Tractor
- Ford Tractor attachments:
 - 2 bottom mold-board Cultivator
 - Lister Planter
 - Tiller
 - Ditcher
 - Scoop
 - Knifing Machine
 - Windrower
 - Mower
 - Belt Pulley

- 1946 Montgomery-Ward Feed Mill
- Feed Mill Belt
- 12-hole Oliver Superior Drill

FARM MACHINERY

- 6-foot M & M Combine
- Row Binder, one-row
- 3-section Harrow
- 2-wheel Trailer

CATTLE

- One 6 year old Jersey Cow
- One 7 year old Jersey Cow
- Two 3 year old Jersey Cows
- One 2½ year old Jersey Cow
- Two Jersey Heifers, about 22 months old

These cows will give from three to five gallons of milk per day.

- Three Jersey-Angus cross Calves, 2 to 5 months old
- One spotted Poland China Boar

TERMS: Cash. Everything must be paid for before removal. If you have something to sell you are invited to bring it to this sale.

Much Walking Makes Lots of Floor Upkeep

COLLEGE STATION—How far do you walk in a year? It's probably up in the thousands of miles all told. But just around inside the house the average family walks several hundred miles in a year's time over the same few hundred feet of floor space.

And this much walking means that the floor requires considerable upkeep, especially for the certain avenues which get the most traffic.

Much household flooring, whether hardwood or linoleum, is protected with wax. There are right and wrong ways to apply wax, according to Bernice Claytor, extension home management specialist of Texas A. & M. College.

Mrs. Claytor gives housewives these five "don'ts" on floor waxing:

Don't ever puddle wax on the floor unless you pick it up immediately. Otherwise that puddle spot will show

on the finished floor. Don't ever use a mop which contains traces of oil in polishing your waxed floors. Even a trace of oil will soften the wax film and make dust and dirt stick to it.

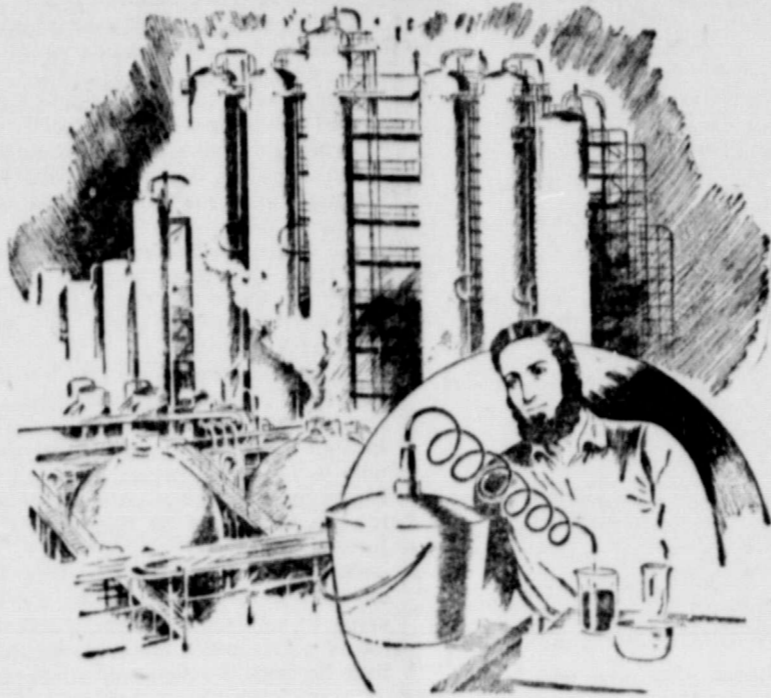

Don't apply liquid wax by pouring it on the cloth you intend to use. Pour out the wax into a pan or dish first. Never pour the remainder back into the can. Contamination may cause the wax to spoil.

Don't every apply liquid wax with a wadded cloth. Fold the cloth into a neat pad so that you'll have a flat surface with which to apply the wax.

Finally, don't apply the wax with haphazard strokes or circles. Put it on with straight, even strokes as you would paint.

Mrs. Claytor says that aids in floor waxing are: floor cleaners for removing old wax and dirt and these are on the market now. Also most floor wax is said to be more resistant to water, wear, dirt and slipping than formerly.

"Oil Progress Day" Recalls Industry's "Pot Still" Days

One day some ninety-odd years ago a tall, stoop-shouldered canal boat man named Samuel M. Kier was stirring a sticky, evil-smelling brew in an iron kettle which squatted on a stove in the cellar of a shack just outside the city limits of Pittsburgh. The mess on the stove was a sample of Kier's Rock Oil, a patent medicine in which Sam had invested heavily but which tasted so vile that few people would buy it. Kier was trying to salvage his investment by seeing what would happen if he ran the unsavory stuff through a primitive still.

As the petroleum began to boil vigorously, Kier slapped a homemade "worm" on top of the kettle. A dribble of colorless liquid ran out of the still. He touched a match to it and the liquid burned slowly. Inspired, he put some of it in an empty whale oil lamp. The lamp glowed brighter than it ever had before!

That was how Sam Kier discovered kerosene and became America's first petroleum refiner. The petroleum industry, which is paying tribute to Sam Kier, to all of his successors and to the pioneering spirit of the American people as a whole during the observance of "Oil Progress Day" on October 14, has come a fabulously long way since those ante-bellum years.

Instead of a handful of struggling companies, the industry now consists of 34,000 competitive firms. Instead of one well—that brought in by Colonel E. L. Drake at Titusville, Pa., in the summer of 1859—oil companies have drilled around 1,200,000 wells and oil is produced in 25 states. Some 428,000 of these wells are producing oil today. In-

stead of a transport system consisting of a few rickety wagons and canal boats, the oil companies have a remarkable system of 150,000 miles of pipelines, plus large fleets of ocean-going tankers, inland-waterway tankers, barges, railway tank cars and tank trucks. Instead of peddling their products in five gallon tin cans, oil men now include thousands of wholesale distributors, and operate a quarter million modern, clean and efficient service stations.

Today, oil and natural gas supply almost half of this nation's heat and power requirements. From crude oil comes a grand total of more than 1,200 useful products—products which everyone uses almost every day of his life.

"Oil Progress Day" is being observed this week. Members of the industry will report such things as the above to citizens of the communities in which they operate. Oil men are making that report to call the attention of their friends, customers and neighbors to the fact that they operate in the American tradition of free, competitive enterprise. As a result they are doing an outstanding job in their efforts to contribute to America's progress and well-being. They are, in fact, echoing Sam Kier's cry: "We're making progress."

HELP ALLIED AIRLIFT . . . In order to increase the potency and efficiency of the Allied airlift into beleaguered Berlin, more air strips had to be built. Scores of German women, like those pictured above, are aiding the Allies by helping to build a new runway at Tegel, in the heart of the French sector of Berlin. These new strips relieve the heavy burden from the Tempelhof airport.

Marlene Hollums To Represent County In Dress Revue

The State Dress Revue for 4-H Club girls in Texas will be held at the State Fair in Dallas on Saturday, October 16. Ninety-nine 4-H Club girls will participate in the Revue which will be held in the Hall of State on the Fair Grounds.

To be eligible for the State Dress Revue Contest a girl must be 14 years of age and have been a club member for three years. County Revues are held to choose a county winner. All blue ribbon winners in the county are

awarded a medal from the Simplicity Pattern Company, and the State winner receives an all-expense paid trip to the 4-H Club Congress in Chicago in December.

Marlene Hollums will represent Floyd County in the Dress Revue. She, with Jeanette Thompson of Hale County, and Lois Book of Castro County will leave for Dallas Thursday with Miss Leila Petty, Floyd County Home Demonstration Agent. They will return Sunday.

West Texas Irish potatoes are shipped to Oklahoma, Louisiana, New Mexico, Mississippi, Wisconsin, Kansas, Illinois, Iowa, Missouri, Ohio, Arkansas and Tennessee.

with a JOHN DEERE TWO-ROW COTTON HARVESTER

The easiest way to boost your cotton-growing profits is to use a John Deere No. 15 Two-Row Cotton Harvester. Based on 1947 labor cost, it saves \$30 or more per bale over hand pulling . . . does an excellent job in any crop that's suitable for mechanical stripping.

Handling two forty-inch rows at a time, the No. 15 does a clean, efficient *once-over* job of saving bolls. Its work is considered by many gin operators superior to cotton stripped by the average hand puller.

With the John Deere, you, too, can make short work of your harvest . . . get all your cotton to the gin before bad weather causes crop losses. For details, see us the next time you're in town.

We have hookups to mount the Harvester on John Deere tractors Model A, B and G, and on IHC tractors, model H and M. They can also be installed on certain other types of tractors.

A small deposit will hold one of these harvesters until you are ready for it. We will come and get your tractor, install the cotton harvester and deliver it back to your farm at no extra cost. There were approximately 40 of these machines sold in the Lockney trade territory last year and we can supply you with the names of the purchasers if you wish to talk it over with someone who bought one last year.

Good Pasture Is Urged By Extension

COLLEGE STATION — Pastures either established or maintained by such cultural treatment as seeding and fertilizing are the concern of the A. and M. College Department of Agronomy, according to Robert R. Lancaster, extension pasture specialist of Texas A. & M. College.

These pastures are supplemental, permanent, renovation, rotation and irrigated pastures. Supplemental pastures are annual grasses and legumes in rotation with other crops. Among them are the cereal grains, ryegrass, rescuegrass, with legumes for cool seasons, and for warm seasons, lespedeza, gundangrass, and johnsongrass with sweetclover.

Permanent pastures occupy large areas not suited to other use. Too much is short, thin, weedy and run-down. Improving and maintaining running sod grasses in such locations aids in conservation. They may include overflow bottoms, stump land, rocky land and hills.

Renovation is improving run-down permanent pastures by fertilizing and overseeding without total cultivation. Open, smooth land, well drained and with enough rainfall is most suitable for renovation. Re-treatment may need be every 3 to 4 years.

Rotation pastures are a recent development in Texas. The rotation involved is with row-crops after years in pasture. This calls for grasses worthy in yield and quality of the best land.

Suitable grasses must be easy to plant and easy to get rid of. Grasses available for rotation are rhodesgrass, KR bluestem, blue panic, weeping lovegrass, johnsongrass, kentucky 31 fescue and others are in prospect.

Alfalfa, sericea lespedeza and Madrid sweetclover are legumes that might be used.

Rotating pastures with row-crops offers much in forage production and in soil building, says Lancaster.

S. P. Air Field Bldgs. Store Grain

Leases have been completed for more than 150,000 square feet of the South Plains Air Field near Lubbock for emergency grain storage use. It was announced this week by Duncan D. Myers, who is in charge of the storage program for the War Assets Administration, Grand Prairie regional office.

All buildings adaptable to bulk grain storage at the field have now been leased, he said. Available remaining buildings have wood flooring and could be pressed into service on an emergency basis for sacked grain, Myers declared.

The War Assets Administration undertook sponsorship of storage through use of government surplus buildings at the behest of Congressman George Mahon. Following appeals by Mahon and other congressmen, buildings at the South Plains Field, at the Pantex Ordnance Works near Amarillo, and at other installations in the southwest, were made available in September by the WAA.

Twelve buildings at the Lubbock field have been leased in the program. They will be used for storage of grain sorghum by the following firms: Wayne George of Anton, Lubbock Grain & Storage Company and the Herman Dawson Company.

Myers said he understood the Commodity Corporation approved the flat storage leasing arrangement for all of the structures.

WHO CASTS THE FIRST STONE . . . For a study in the brutalized emotions that can grip men who are caught in the surge of mob action, take a look at this picture of some young French aviation workers in the middle of a big riot in Paris. They are posing defiantly with hands filled with stones and chunks of broken concrete which they hurled at police during the recent riot of the members of the nationalized aviation industry in the French capital. Several persons, including police, were injured in the clash which was touched off when the workers staged a mass demonstration outside the industry's headquarters.

It is better to water livestock often in small quantities than to allow them to drink all they can get at once.

A naturalist says that alligators are harmless so long as you can keep their mouths closed. For that matter so are people.

In yiddish, a goy is a male gentile.

If you copy the ways of the sloth, don't be surprised to find yourself out on a limb.

"Ritzy," a modern slang term, comes from the Ritz Hotel, known for their fashionableness.

Attorneys Draft Water Use Bill

LITTLEFIELD—Attorneys representing the High Plains Water Conservation Association, comprising 14 local associations, met here Saturday and began drafting a water conservation bill they hope will be introduced at the next session of the State Legislature.

A report representing the program, policies and aims of the association recently was prepared by Arthur P. Duggan, Jr., of Littlefield. A copy was mailed to E. W. Easterling, chairman of the water laws committee, Texas Water Conservation Association, Austin.

W. O. Portenberry of Monroe and Lubbock is president of the High Plains Water Conservation Association.

Attorneys who have been drafting plans for a bill include Duggan, Meade Griffin, Plainview, James W. Witherspoon, Hereford, Sam Aldridge, Farwell, and L. A. Howard, Lubbock.

The report prepared by Duggan, and from which the bill will be drawn, was approved at a recent association meeting.

The association, in its report to Mr. Easterling, outlines present water laws, pointing out their fairness and warning long and detained study of proposed changes or new laws should be made before they are presented.

The report contends that geological reports show there are no critical water areas in Texas at the present time, that is, from the standpoint of ground water supply. Study shows declines during dry years in some areas. They indicate the situation could become critical in the future if proper steps should not be taken.

"Now is the time to be alert to all possibilities and to take whatever steps informed, qualified ground water geologists consider necessary," the report states.

The Prior Appropriation Doctrine, proposed by some, is not fair to land owners and does not solve the water situation, the report states. This doctrine, according to the report, would take away from the land owner his right to all underground water. This doctrine, it is claimed, could take away the oil and gas rights under a property owner's land.

A number of districts should be set up over Texas, the report recommends, to handle all conservator and reclamation of water and a recharge program should be set up where by water levels could be raised by use of above-ground water that would not find its way to water levels.

Waste should be controlled, states the report, possibly the requiring of a permit to drill new wells, especially in critical areas, or limitation of withdrawals of ground water.

In summing up its findings, the committee states:

"A comprehensive law would include provisions for recharge programs, conservation measures, education, prevention of waste, and controls regarding drilling of new wells and limitation of withdrawals in even a critical water supply situation should develop in a given district."

The girl down the street says it doesn't make much difference to her whether she marries for love or for money.

Workers in glass never have any waste. Anything that turns out wrong is called an ash tray.

Texan Claims He Is Jesse James; Pal Greet Him

OAKLAND, CALIF.—Al Jennings, 85, the oldtime Oklahoma train robber, was brought face to face with a Texan who says he's Jesse James—and exclaimed, "It's him!"

Jennings took one long look at J. Frank Dalton, or James. His voice choked and his eyes filled with tears.

"It's him," said Jennings. "That's the face. My word of honor."

"Boys, there ain't a bit of doubt on earth. This here is Jesse James!"

San Leandro civic officials brought Dalton here by plane to feature him in their rodeo. They invited Jennings, too. Jennings, who took to the lecture circuit after his imprisonment a generation ago, makes his home in Southern California.

Dalton's story resurrecting the old outlaw—supposedly long a-moldering in a Missouri grave—first was made public when Dalton announced that he was the famous desperado.

Secret Question

Jennings said before the meeting he could prove whether the old man was Jesse James by a single question dealing with a "shootin' match" of long ago on a ranch in West Texas.

The only persons who knew about that match, he said, were himself, one other man—and Jesse James.

As the two met, the eyes of both filled with tears.

"Do you know me, Jesse?" asked Jennings.

The other nodded his head vigorously. His voice broke as he said: "You bet. You won a shootin' match on the old C Dot E ranch."

Jennings grabbed him by the hand.

Killed By Gang Member

History says Jesse was killed at St. Joseph, Mo., in April, 1882, by Bob Ford, a member of his gang.

Dalton says that's all nonsense, that the man Ford killed was "a Pinkerton feller named Charlie Bigelow." After the shooting, he decided to disappear.

Jennings said he was frankly skeptical about the old man "until I asked old Jesse some questions nobody but him and me could've known."

The two had a rambunctious reunion, as their conversation paraded the ghosts of long gone bandits of the Southwest.

"We're a-goin' right over the same old trails," said Al. "Boys, there ain't no doubt about this. This is old Jesse sure."

Expedition Uncovers Relics Of Early Man In California

LITTLE LAKE, CALIF.—Campsite remains of California's Dawn Man have been discovered two miles north of Little lake in Inyo county. The human bones and arrowheads found at this "closest approach to a city" may date as far back as 15,000 years.

This uncovering of prime historical importance has excited archeologists of an expedition from the Southwest museum. Their director, Curator Mark R. Harrington, says that for the first time "Pinto Culture" relics have been found in a positive, original location, undisturbed by the elements for more than 3,000 years.

The camp is on the lava-walled banks of a long vanished river that once ran south from glacier-fed Owens lake. A waterfall was then nearby, and a commodious lava cave was used for shelter, centuries before later-age Piute Indians came along and etched their own drawings on the dark cavern walls.

"They must have had a good life," Harrington said, "for when the glacier began melting, during either of the pluvial eras, this was lush, green, wooded country."

Victims of Texas City Blast Sue U. S. for Ninety Million

HOUSTON, TEX.—Uncle Sam was blamed in the Texas City explosion to the tune of more than 90 million dollars in lawsuits.

Eight suits totaling \$55,208,446, including a 50 million dollar claim by the Monsanto Chemical company, were received here by the federal district clerk for transfer to Galveston, where trial of the cases is scheduled.

Monsanto's suit alleged the government "had knowledge of the potential hazards" of the ammonium nitrate, but that it was packed and shipped from government plants while "innocently labeled fertilizer."

The claims seek damages for deaths, personal injuries, property damage, reimbursement for insurance payments, recovery of profits lost by plant destruction and damage and loss of services of technically trained personnel killed in the disaster.

Texas City officials listed 512 persons killed or missing in the disaster. An estimated 3,000 were injured.

Similar suits already on file at Galveston exceed 35 million dollars while an additional \$1,068,450 is involved in suits filed in Fort Worth, Oklahoma City and St. Louis.

Attorneys predicted the final figure may exceed the 100 million dollar mark.

Cotton Production To Equal Demand

AUSTIN, Texas—World production of cotton this year will equal if not exceed consumption, Dr. A. B. Cox, University of Texas professor of cotton marketing, reported.

This should be a signal to cotton growers to readjust their farming operations to a relatively lower price level for cotton. Fortunately for the United States most of the increase in supply is a result of a record yield per acre which has generally served to lower cost of production.

The world demand for cotton is very large provided the people of the world have the means to buy. There are two sources of buying power for cotton at the present time: the exchange of goods and service and the policy of the federal government to

help finance the recovery of the war-torn countries, especially in Europe. The aggressive use of the opportunities offered by these two sources of demand could result in the export this cotton year of raw cotton and cotton goods equivalent to 4 million bales of cotton.

The cotton balance sheet shows an increase in balance September 1 this year over last year of 3.8 million bales. During the past 15 years the cotton balance September 1 has exceeded the present balance of 17.4 million bales 11 times.

The present supply of American cotton is not burdensome provided proper merchandising policies are followed.

A good thing to remember is that silent contempt often prevents a black eye.

Modern polo was developed in India.

Everybody in favor say— "Lubri-tection!"*

That's the word that brings you one of America's greatest motor oils — Phillips 66 Premium Motor Oil!

What does "Lubri-tection" mean? Brother, it means just exactly what it says! It means lubrication *plus* protection.

Yes, with Phillips 66 Premium Motor Oil in your crankcase your engine gets both lubrication *and* protection. Here's how. Phillips 66 Premium Motor Oil is expertly refined from high quality crude to give you fine basic lubrication. But that's not all it does! Certain additives and inhibitors in this oil go to work in your engine to help fight against sludge, varnish, and other harmful deposits. Next time you need oil, ask for "Lubri-tection" . . . at the sign of the famous orange and black Phillips 66 shield!

PHILLIPS 66 PREMIUM MOTOR OIL

* "Lubri-tection"—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

By Mrs. M. B. Salmom

Miss Nell Hampton spent Monday with Mrs. Charlie Kelley at Lockney. Grandmother Stowe returned home from the Plainview Hospital Wednesday.

Mrs. Charlie Elam and Mary Bennett visited relatives at Tulla last week.

Bill Wesley Jr. attended the fair at Amarillo Thursday night.

Miss Leota spent Thursday night with Miss Juanell Martin.

Mrs. Joe Perkins of Plainview and Mrs. Charlie Kelley, Mack Reeves and Miss Muffet Stowe of Lockney spent Thursday with Miss Nell Hampton. Mrs. A. P. Suggart and Mrs. Bud Dean and daughter visited Mrs. Stowe Friday afternoon.

Mr. and Mrs. Steins and Pat of Lockney and Mrs. Nannie Gordon and daughter spent the weekend with Mr. and Mrs. Edd Gordon.

Rev. and Mrs. Howard Martin and family were dinner guests in the home of Mr. and Mrs. Floyd Compton Sunday.

Mrs. Charlie Elam and Mary Bennett are visiting Bert Elam and family for awhile.

Mrs. Archie Keys and children spent Monday with Mr. and Mrs. Wiley Moore.

Mr. Bill Wesley and Ivan Thompson left Tuesday morning for a deer hunt.

Time To Plant A Fall Garden

COLLEGE STATION—Get out the hoes, rakes, shovels and weed cutters. It's time to get the ground ready for a fall garden. But "leave the seed be" for a short time yet. There's a bit of groundwork to be done first.

J. F. Rosborough, extension horticulturist of Texas A. & M. College, says start with the weed cutter and clear the plot of ground of weeds, removing them completely. If turned under, they cause molding and heating of the soil. This dries out the soil and keeps it from getting a good cultivation. If there is barnyard fertilizer handy, plow it in four or five inches deep. It helps the soil hold more water and prevents packing of the soil.

Deep plowing dries out the seed bed. It will take more water to wet down a deep seed bed than a shallow one. So four or five inches will be deep enough. And after plowing, break up the clods, rake the soil fine and smooth, then plant your seed.

If there isn't much fertility in your soil, work in a commercial fertilizer along with the barnyard fertilizer or compost material. Rosborough warns gardeners in the sandy areas that the commercial fertilizer should be used only where the rainfall is at least 20 inches. Three pounds of 5-10-5 or 4-12-4 per 100 feet of row should be applied at planting time. Open up the planting furrow and mix the fertilizer well into the soil, chopping three or four inches deep.

Although the soil may be dry at planting time, some of the vegetables such as carrots, beets, spinach, cabbage and lettuce grow slowly so they will likely get a good bit of rain during the coming months. This means your garden will have to be in a well-drained area where the water will not stand during the wet season.

If you have vegetables still growing from the spring planting give them a side dressing of fertilizer 8 or 12 inches from the plant. Apply at the same rate as above. And if the soil is dry, says Rosborough, irrigate before or after fertilizing.

Now you're ready for the fall garden planting.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Lone Star News

By Mrs. Harold Griffith

The community benefited by the nice rain we received Friday night. It wasn't enough to damage the cotton and helped the young wheat very much.

Mr. and Mrs. W. T. Rankin and children are in Pottsville, Arkansas where Mr. Rankin's father passed away Thursday night after a long illness. The community extends their heartfelt sympathies to the Rankin's in their hour of sorrow.

Mrs. R. L. Knox visited Mrs. C. L. King Wednesday night.

Mr. and Mrs. Wade Davenport were visitors Wednesday night in the Lowell Jarrett home.

Mrs. R. L. Knox, Mrs. L. M. Readhimer and Nita Jo and Mrs. Harold Griffith and boys visited Mrs. Jack Frizzell Thursday night.

Mr. and Mrs. Milton Frizzell and children spent Thursday afternoon with Mr. and Mrs. A. E. Frizzell and Pat.

Mr. and Mrs. Floyd W. Jackson and Betty attended the Fair in Amarillo Wednesday.

L. M. Readhimer, Harold Griffith, Jack Frizzell and Bob Knox attended the football games in Floydada Thursday night.

Mr. and Mrs. W. T. Rankin and Mrs. Clyde Farris attended the fair in Amarillo Thursday. Mrs. Farris remained overnight for a visit with her sister, Mrs. Ruth Allen and to see an eye specialist.

An item of interest to this community is about Rev. and Mrs. Fred Hardage and children who are now in Albuquerque, New Mexico to take up work with the Bethel Mission, an arm of the Edith Street Church. The Mission to which they came has had an extraordinary growth in the last six months. We wish for them the greatest success in the new field.

Mr. and Mrs. Tom Edd Wells are the proud parents of a new baby son who made his arrival Sunday afternoon in the Plainview Hospital. He has been named Jerry Elliot. Mr. and Mrs. Tom Wells are the grandparents in this community.

L. M. Readhimer and Clyde Farish were in Lubbock Saturday and Sunday on business.

Little Sharon Watkins was taken to the hospital in Plainview Saturday for treatment. She was returned home Monday evening.

Mr. and Mrs. Silman James and children of Brownfield spent Saturday night with Mr. and Mrs. Tom J. Wells and Nell.

Mr. and Mrs. Lowell Jarrett and Larry visited Mr. and Mrs. L. M. Readhimer and girls Sunday night.

Several families from this community attended the football game between Crosbyton and Lockney Friday night. I'm sure several will go to the one this Friday night at Spur.

Betty Ann Nance spent Friday night Saturday and Sunday in Silverton with Hugh Nance and family.

Mr. and Mrs. Hubert Frizzell and Tony with Mrs. J. B. Johnston spent Sunday at Tulla Lake.

Bobby Dean and Mamey Lou Nance of Amarillo spent the week-end with their parents Mr. and Mrs. W. D. Nance and boys.

Mrs. T. S. McGehee visited friends in Plainview several days last week. Mr. and Mrs. Olin Grant visited her parents, Mr. and Mrs. J. B. Nance Sunday night.

Mr. and Mrs. Reed Lawson and Sunny were luncheon guests Sunday of Mr. and Mrs. D. J. Phillips and children.

Mr. and Mrs. Henry Rowell and children visited Mr. and Mrs. Billy Jack Lawson of Plainview Sunday.

Mr. and Mrs. A. E. Frizzell visited Mr. and Mrs. Milford Carthel in Plainview Sunday.

Mr. and Mrs. Milton Frizzell and children spent Monday with Mr. and Mrs. Jack Frizzell.

Sunday visitors in the Jack Frizzell home were Mr. and Mrs. Glen Smith of Lipan. Mr. and Mrs. J. C. Fletcher of Plainview, Texas. Tom, Jim and Joe Nance, Deanie

Henderson and Garland Cox attended the F. F. A. Fair in Amarillo Saturday.

Visitors in the Walter Griffith home Sunday were Mr. and Mrs. Kline Nail and girls of Lubbock and Mr. and Mrs. Harding Nail of Amarillo, Texas.

Mr. and Mrs. R. L. Knox visited Mr. and Mrs. Lowell Jarrett Sunday afternoon.

Lavern Frizzell spent Saturday night with her parents, Mr. and Mrs. A. E. Frizzell and Pat.

Mr. and Mrs. Floyd W. Jackson and Betty were guests Sunday of Mr. and Mrs. Buck Sams. Mrs. Sams fixed a birthday dinner for Floyd W. Jackson and Mrs. Bud Leverton. Those present were Mr. and Mrs. Floyd W. Jackson, Mr. and Mrs. Bud Leverton, Janice, Barry, Billy and Johnnie Thompson, Betty Jackson and the host and hostess.

Mrs. T. S. McGehee visited Mr. and Mrs. Dave Mathis Sunday afternoon.

Mr. and Mrs. Tom Wells and Nell attended a reunion in the Shelton House at the Plainview Park Sunday. The reunion was for the McWilliams children.

Miss Nina Lee Foster and David Williams were married Saturday night October 9, 1948.

Lloyd Readhimer and girls visited Mr. and Mrs. Jack Frizzell and girls Monday night.

Several from this community attended the PTA meeting in Lockney Tuesday night.

Hugh Buckner of Pecos, Texas is visiting Mr. and Mrs. Gene Buckner and family.

Mrs. Elton Griffith and children visited in the Walter Griffith home Tuesday afternoon.

Miss Wingo Aids In Plans For Religious Week

DENTON, TEXAS—Miss Elizabeth Moss Wingo, daughter of Mr. and Mrs. William Howard Wingo, has been elected Secretary of the Student Council of Religious Activities at Texas State College for Women. She has also been chosen to serve on the book exhibit committee to plan the

thirteenth annual Religious Emphasis Week which begins Oct. 19.

The Rev. W. H. Alexander, noted youth speaker and pastor of the First Christian Church, Oklahoma City, will lead the week's activities.

Since 1936 the college has set aside a special week to emphasize spiritual

training. Outstanding youth leaders, assisted by local ministers, are invited to the campus to conduct seminars and hold personal conferences.

Some people idea of security is an elephant hanging over a cliff with his tail tied to a daisy.
