

**ITALIAN WAR ORPHAN
ADOPTED BY FRAT**

DENTON—Benito Scordella, 13-year-old Italian war orphan, now has a whole fraternity of proud papas at North Texas State College looking after his welfare.

Young Benito, whose father and mother were killed in the war, has been adopted by members of the Alpha Phi Omega, NTSC service fraternity. He will receive money and letters from his new foster parents.

Adopted through the Foster Parents' Plan, Benito has nine brothers and sisters. He was picked up on the street and placed in a home for

war orphans after the death of his parents.

Billy Griffith spent the week end in Borger visiting Vestar Martin and other friends.

Mrs. Dee Copeland and baby and Mrs. D. R. Foster were in Amarillo Thursday to accompany Mrs. Copeland's mother home from an extended visit in California.

The newest orange juice to make its bow on the market is fresh bottled juice which holds its fine flavor and full vitamin C content for at least two weeks under refrigeration.

Providence News

(Delayed from last week)

The Providence Home Demonstration Club will meet on Tuesday, May 24, at the home of Mrs. Walter Sammann.

Mr. and Mrs. L. B. Brandes and Debra and Mr. and Mrs. Ben Brandes were dinner guests in the home of Mr. and Mrs. Wilfred Stoerner of Plainview on Sunday.

Foncine Boedeker returned to her home on Monday after spending the past week in Ruidoso, N. M. as guest of Patsy Brown.

Mr. and Mrs. Walter Sammann and girls visited Monday evening in the home of Mr. and Mrs. K. Sammann of Plainview.

Mr. and Mrs. Dave Mathis and Janice, Mr. and Mrs. Bill Benneth and family and Mr. and Mrs. Martin Schuette and family of Edmondson spent Sunday evening with Mr. and Mrs. Harold McLaughlin.

Mr. and Mrs. Albert Sammann and family were Sunday guests of Mr. and Mrs. M. C. Scheele.

Mrs. Ted Boedeker and children, Mrs. M. C. Scheele and girls, visited with Mrs. Harold McLaughlin on Monday.

Mr. and Mrs. Lenord Matthews and family of Silverton, Rev. and Mrs. H. L. Anderson and David and Mr. and Mrs. Walter Sammann and girls were dinner guests in the home of Mr. and Mrs. R. C. Matthews on Sunday.

Delores Sammann spent Tuesday night with Marie Scheele.

Mr. and Mrs. Ralph Brown and girls of Ruidoso, N. M. are visiting in this community this week.

Maebeth McLaughlin spent Saturday with her Aunt Bea McLaughlin.

Mr. and Mrs. Elmo Reenes of South Plains visited with Mr. and Mrs. Dave Mathis on Sunday.

R. C. Matthews and Robert, Ted Boedeker and Cecil and Harold McLaughlin and Don attended the Father and Son Banquet at Lockney last Tuesday.

Mr. and Mrs. Walter Sammann, Carolyn and Valera spent Tuesday evening visiting the home of Mr. and Mrs. Harold McLaughlin.

Mr. and Mrs. M. C. Scheele, Maile and Mildred, and Delore, Sammann visited with Mr. and Mrs. Ernest Sammann on Tuesday evening.

Mr. and Mrs. Dave Mathis, Janice and Warren visited in Oklahoma City the past week.

Mrs. Harold McLaughlin is on the sick list this week.

Mr. and Mrs. Albert Scheele and children visited friends in Gruver, Texas last week end.

Mrs. Bill Butth and Bobby Louise, Mrs. Walter Sammann and girls and Fayrene Harden visited with Mrs. B. H. Quebe on Thursday afternoon.

Miss Bobby Butth and Miss Fayrene Harden attended the 4-H Club dress revue at Floydada with their sponsor Mrs. B. H. Quebe. The girl, having made dresses, Bobby Butth winning 4th place and Fayrene Harden winning 8th place. Fayrene Harden was chosen to attend the 3 day encampment at Lubbock in July, from the 4-H Club girls in Providence.

Mr. and Mrs. Ted Boedeker and family visited with Mr. and Mrs. Ernest Sammann Tuesday evening.

Mr. and Mrs. Walter Sammann and girls visited relatives in Slaton on Wednesday.

Baseball was enjoyed at Providence on Sunday evening, Lockney playing Providence. Score 8 and 12 in favor of Providence.

Of the Navy's contracts 69 per cent are now being let to small business concerns of less than 500 employees.

**Homemaking Projects
Rank High Among
4-H Club Activities**

"With more than a million homemaking projects being undertaken, 4-H girls are putting the 1949 theme 'Better Living for a Better World' into action," declared Guy L. Noble, director of the National Committee on Boys and Girls Club Work. Texas girls carried 44,886 of these projects, and accepted the challenge to report good records of work well done in 1949, according to Mr. Noble.

Clothing, canning, home improvement, home grounds beautification, garden and poultry are among the activities considered in the National 4-H Girls' Record awards program. In addition to learning the job of homemaking, the girls come to know the basic principles for happy family relationships and community responsibilities. The Cooperative Extension Service supervises the program.

For over a quarter of a century, Montgomery Ward has rewarded girls whose accomplishments in this contest have been outstanding. Six national scholarships of \$300 each—in place of the usual \$200—will be given this year. An all-expense trip to the National 4-H Club Congress, in Chicago will again be provided for winners in each of the 45 states participating, and for county winners, a gold-filled medal of honor. 4-H girls in Alaska, Hawaii and Puerto Rico also enroll in the contest, and champions receive a \$100 U. S. savings bond.

For the 1948 record judged best in Texas, Lois Wilson, of Morton was awarded a trip to the 4-H Club Congress. There were 37 county medal winners named.

**FM RADIO SIGNALS
BEING MEASURED**

AUSTIN—Measurements of radio signals received in Austin from FM stations in Dallas, Houston, San Antonio and Temple are to be made by the University of Texas Electrical Engineering Research Laboratory.

Under supervision of D. F. Petcalf, laboratory research scientist and radio engineer, continuous measurements of the signals, requested by the National Bureau of Standards' Central Radio Propagation Laboratory, will help in the allocation of FM and television broadcast channels in the Coastal region.

Dallas and Houston FM station signals are usually too weak to be heard, but certain meteorological conditions often permit satisfactory reception. Those conditions may result from the underrunning of warm Gulf air by a "norther," or the abnormal cooling of air close to the earth when heat waves rise rapidly at night.

A barometer registers atmospheric pressure.

**Thin Fruit Buds
Now, Agent Says**

County Agent Robert H. Gibson gives the following hints on more peaches this year:

About 1 to 5 percent of the actual buds on peach trees usually turn out to be peaches. This year there has been a higher set of fruit buds to the end that there are in many cases too many fruits on the trees. Now is the time to thin. The fruit should be spaced 4 to 6 inches apart on the twigs and branches. Thinning can be done by taking a piece of spray

hose or yard hose 1/2 inches in length and a wooden handle on may be hit a light blow. When properly done a good part of the essential on heavily

HOWYA-DOON, ADULTS?
 The influence of a new radio character called "Howdy-Doody" on the kiddies is the talk of the amusement world. Howdy-Doody is a puppet on the program of Bob Smith, and he has come close to taking over the American home at 5 p. m. daily. Howdy manages to work in a lot of pleas for the small fry to clean their plates, mind their health and otherwise behave themselves, and we think it might be a good idea to introduce a similar character for influencing the grownups.

Our character would be an adult puppet called "Howya-Doon," and would operate along the same pattern, as follows:
SMITH—Well here's your friend Howya-Doon, the friend of all grownups, again, folks. Golly, how nice it seems to be with you adults once more! I hope you've all been very nice adults and behaved yourselves in every way. Howya-Doon, did you clean up your plate today?
HOWYA-DOON—Aw gosh, I certainly didn't. I'm not that crazy, Mr. Smith.
SMITH—I thought not. That's fine. What happens to adults who lick their platters clean.
HOWYA-DOON—They get gout, indigestion, stomach acidity, rheumatism, double chins, heartburn and everything. Gee, their diet gets all shot to pieces, Mr. Smith, and they get fat and their clothes look awful on 'em.

SMITH—Right. So what is the proper way for grownups to behave at meals?
HOWYA-DOON—Aw, that's easy, Mr. Smith. They do just what I do, lay off any kind of food that tastes good!
SMITH—Anything that appeals to the taste, eh?
HOWYA-DOON—Sure. If it's appetizing, it's no good. All nice grownups who want their children to be proud of them will just go for carrots, beets, spinach and things like that.

SMITH—If by chance you get something on your plate that tastes swell and that isn't fattening, is it okay to eat it all?
HOWYA-DOON—Aw, no! A good little adult always carries a calory chart and makes himself pretty miserable figuring up the calories in everything he eats. I hope all you grownups do this.

SMITH—So do I, Howya. And now it's time to show the movies. We've got some wonderful ones that are right down the alley for grownups. They are from the American Medical association and show what happens to adults who enjoy eating and lead happy lives. But first, did you brush your teeth this morning?
HOWYA-DOON—Aw, sure, I took my uppers and lowers right out of the glass of water where I put 'em each night and gave 'em a good stiff brushing.

SMITH—And what else did you do that all good grownups should do?
HOWYA-DOON—I put my hot-water bottle and my liver pads away neatly after I got up and I made sure all the bottles in the medicine cabinet were in order.
SMITH—That's fine. And now we're going to introduce our new character Dub-a-Dab.
HOWYA-DOON—Who's Dub-a-Dab?
SMITH—He's the wonderful adult who never grunts, seems to enjoy life and ALWAYS BEHAVES SO HIS CHILDREN CAN BE PROUD OF HIM!

Cuff Stuff
 Louis Johnson is the new secretary of defense and those who are all for a strong America hope he will not be bothered by the current cry, "Louis, drop that gun."

A Moscow paper says that Russian soon will be a world language. No doubt it will require an alphabet of but two letters, "N" and "O".

Tavel Note: H. Truman, who was on a visit in Washington, returned to Key West.

Elmer Twitchell says he would order a new \$4,000 auto now, but he is waiting for it to come down 15 cents.

The rules on installment buying have been eased. This gives you a chance to buy more things you don't need with money you haven't got and helps stall off a depression which isn't certain.

A big store chain has opened stores in New York subway. It will specialize in "jams."

We just heard of plans for a novel "western." On the 200th shot in some scene one of the characters will hit the target.

Pattern No. 8419 is for sizes 11, 12, 13, 14, 16 and 18. Size 12, 4 1/2 yards of 39-inch; yoke and peplum, 1 1/2 yards.

ASK ME ANOTHER?
 A General Quiz

The Questions

1. How many people go to the movies?
2. What kind of meat is preferred by Americans?
3. What does Tacoma mean?
4. Which of the world's languages is the most perfect?
5. What became of the man who discovered gold in California?
6. Do fish sleep?
7. What is tripe?
8. How many kinds of trees are there in the United States?
9. When was the lightning rod first used?
10. What is the largest weed known?

The Answers

1. About one-fifth of the population of the U. S. attends the movies each day.
2. Surveys have indicated that beef is first in favor, with pork second.
3. It is an Indian word and means the highest or near heaven.
4. Authorities on philology have claimed that the ancient Greek is the most perfect language that has ever existed.
5. James W. Marshall died in poverty, old and alone in a mountain cabin.
6. No. However, at times they remain quiet in pools and streams.
7. Tripe is the stomach of any ruminant animal, such as a cow.
8. There are about 1,125 species in this country.
9. Benjamin Franklin set up the first lightning rod in the world in September, 1752.
10. Kelp, a kind of seaweed. It sometimes attains a length of 1,500 feet.

Ancient Perfection
 One pre-Inca civilization in Peru, which probably dates from between 200 B. C. and 200 A. D., built stone structures as perfect in workmanship as the Egyptian Pyramids.

Sulfas Cause Egg Slump—but
 The American Veterinary Medical association warns poultrymen against reaching for the sulfa bottle too frequently.
 In a recent experiment, the production of 671 birds given sulfa for periods of from three to six days dropped 50 per cent; and, compared with a control group of 430, it took the sulfa-treated hens a month to reach a rate of production equaling that of the untreated hens.
 The association points out, however, that this argument is not against the use of sulfa drugs when needed, but rather a note of warning against their overuse.

Rogers Riders will participate in the opening ceremony as will a Queen from the radio show "Queen for a Day." Exhibition square dances will be held the night of the opening. On the agenda for May 29 is a spectacular horse show and parade at 3:30 p. m. by the Will Rogers Range Riders, boys from Boys Ranch, and the Kwahadi Indians. Over 100,000 spectators can view this event, which will be held atop the mesa below Coronado Lodge, from the rim of the Canyon. The Treasurer Hunt will last from May 23 through Labor Day, Sept. 5. All grand prizes and unawarded prizes will be awarded Sept. 11 at 4 o'clock p. m. at Coronado Lodge. Usual gate fees will be the only admission during the Treasure Hunt season. Gate fees are 42 cents for driver and car, 24 cents for additional adults, and 12 cents for children.

Construction Of Little Theatre Approved By Wayland Exes

Plainview—Construction of a \$25,000 Little Theater as a memorial to Prof. and Mrs. B. H. Warren was approved by the ex-students of Wayland College in their annual banquet here, it was announced recently. It will comprise the last unit to be finished in the newly renovated basement of the administration building. A unanimous vote followed presentation of the project by President J. W. Marshall and the Rev. Clifford Potts of Matador, out going president of the Ex-Students Association. Mrs. Warren made the main address at the banquet, speaking on "Forty Years of Progress." "Some destruction has accompanied the constructive efforts," she stated. However, she declared that she welcome the marvelous changes for the better as typified by the remodeling of buildings and increases in the faculty. Hailing the world pioneering theme of the new Wayland, she said she rejoiced it was a senior college. Her dreams for the college are being realized. Mrs. Warren added, as Wayland grows in the direction of a home-grown student body with a cosmopolitan spirit, small classes, close teacher-student relationships, and stress on the liberal arts. President Marshall estimated the cost would be about \$15,000 to finish construction of the former swimming pool to convert it into a Little Theater and about \$10,000 to furnish it completely with seats, velvet curtains, and the like. To seat about 200, it will be used for morning watch services, drama presentations, band and orchestra practice, and for audio-visual studies.

Dumas Celebration Set For July 3-4-5

A thrill-packed rodeo, gala mid-way, gigantic parade, modern and western dances, free barbecue and western regalia—one and all are in store for the annual Dumas Dogie Days and Old Settlers Reunion June 3, 4 and 5. Friday, June 3 will be old settlers day, with a giant free barbecue set for noon at the courthouse square. The beef will be prepared in the tasty style of Jim Morton, and it will be free. Money for the barbecue has been donated by merchants, old settlers and others. Enough food for up to 7,000 persons is planned. First performance of the spectacular rodeo being sponsored by the Dumas Veterans of Foreign Wars Post 2213 will start at 2:30 p. m. Friday. Stock will be furnished by Pat Workman of Minto, Kans. The rodeo will be at the rodeo grounds west of the Santa Fe tracks. The parade at 11 a. m. Saturday will highlight the second day of the celebration, with prizes being offered for best floats and decorated bicycles. Additional rodeo performances will be at 2:30 p. m. Saturday and Sunday.

Dr. Cox Warns Of Hookworm

Austin—Hookworm disease is found frequently in those communities where sanitary toilet facilities are inadequate, and where infected human excreta is permitted to contaminate the soil. Persons who come in contact with that soil, either by going barefooted or by handling the dirt, contract hookworm disease when the hookworms from such soil bore through their skin and make their way to the human intestine. "The main characteristics of hookworm disease", says Dr. Geo. W. Cox, State Health Officer, "are listlessness and apparent laziness, and many a child and adult has been called lazy, when in reality he was suffering from hookworm disease. Sometimes there is abdominal pain, nausea, and diarrhea, but this is unusual." Inability to perform efficient work, and general weakness of the patient make this disease not only a public health but an economic problem, and it can be eliminated only by carefully

following two steps: first, providing sanitary disposal for human wastes, and by treating until cured, all infected persons. When the infected persons are cured, and can no longer transmit the worms to others, and when safe sewage disposal is at the command of all homes and communities, then hookworm disease need no longer cost the people of Texas the tremendous sum that it now does, annually, both in money and sickness. Dr. Cox stated that the treatment of hookworm disease should be done by a competent physician, and not by self-medication. Full information for building sanitary privies may be had upon request, from the Texas State Department of Health, Austin. A new type of Navy submarine messenger buoy eliminates the need of deep sea divers in submarine rescue work. During World War II Navy mines accounted for almost 2,300,000 tons of Japanese shipping sunk or damaged.

WAR TAX PENALTIES

During the war, nearly eight years ago, a 15% tax was added to all train, bus and plane fares, principally to discourage civilian travel. It was not the primary purpose of the tax to raise revenue. The original reason for imposing it has long since ceased to exist. Like all taxes, once they have been established it is almost impossible to get rid of them. Today this penalty on travel not only works a hardship on commercial carriers at a time when business is slowing up, but it is affecting vacation travel and all activities which benefit from tourist business. It is a burden on parents of students who are traveling to school; on people visiting relatives; on people who must travel because of illness in the family, accidents and death; on individuals attending conferences and business meetings of various kinds, and on traveling for health and recreation. The tax has been repealed on travel to foreign countries receiving Marshall Plan aid. Several weeks ago Canada, which imposed a similar 15% tax during the war, dropped it. Reasons for repealing the penalty tax on personal travel apply with equal force to the three per cent tax on freight shipments. Such a tax is discriminatory to the common carrier by rail or highway because shippers who buy their own trucks and furnish their own transportation, escape it. It penalizes producers who must ship their products long distances to markets in competition with those situated closer to consumers.

It is high time the people begin to demand that wartime taxes and restrictions be eliminated in favor of peacetime policies that tend to encourage industry and payrolls. A place to begin is to remove the wartime penalty tax on all such necessities as passenger and freight rates.

HIGH STANDARDS

Reports from retailers in all parts of the country have one theme in common. Competition is getting tougher. Consumers are choosier, and are looking around for the best deal for the money. The buyer's market is back, save in a very few lines. Promotional efforts designed to win consumers favor are showing a marked increase. This is a perfectly logical development. The late buying spree was a temporary result of the war—for four years a bare minimum of consumer goods had been produced, and in some fields production had been stopped entirely. Now the shortages which were thus created have been made up. The time has passed when all a merchant had to do to get business was to unlock the front door. Today he must really sell his service. Such challenges as this are what make for progress in retailing—there's nothing like tough competition to separate the wheat from the chaff in the business world. One of the big reasons why we enjoy so much abundance in this country is the high standards of modern retailing. They get higher all the time.

SECOND GENERATION TECHSANS TO GRADUATE

LUBBOCK—The first student, Jack Griggs Sams of Memphis, Tenn., second generation Techsans will be graduated this year during May 20 commencement ceremonies at Texas Technological college. Sams is the son of Alumni Ted Sams, native of Benjamin Texas. Ted finished Texas Tech in 1928 with a degree in civil engineering. He is now general manager of the Fisher Steel corporation in Memphis. Young Sams is graduating from the arts and sciences division with a degree in chemistry. A kayak is an eskimo canoe of a light wooden framework covered with seal skins.

With Our EXCHANGES
OPTIMISTIC WORDS NOT ENOUGH

Words did not keep the Depression of 1929 away from the nation's door and they will not serve to cure any defects which may now be present. There are factors, however, far more important than words which must be considered. Most important element in warding off a real tailspin at the present time is the fact that the government is now pouring about \$40,000,000,000 a year into the business stream of the nation. This huge sum goes to provide employment and to purchase a temporary cushion—and note the word temporary—to ward off the possibility of any major financial collapse. It is equally important to remember where this money is coming from. There is no secret about that. It is a contribution from every citizen in the United States, for all of us pay taxes, either direct or hidden. It is, therefore tremendously important for us to guard the means and sources of taxation. We cannot do that by over-taxation. If the drain on the productive capacity of the individual—which is, after all, the only thing which creates goods, services, money—becomes too great the tax rivers will dry up. There will be less revenue and the bulwark against depression, which is making the period of transition from war to peace bearable, will be removed. It should, therefore, be obvious to the executive and legislative branches of the government that optimistic statements are not enough. What is needed is a tax policy designed to keep the employer, the farmer and the worker so situated that all three can work and make money. Prosperity can be maintained in no other way.—Houston Chronicle.

COMMENCEMENT IS NOT THE END FOR STUDENTS

As schools of Scurry County close their yearly sessions, and graduating classes look to the receiving of diplomas for 12 years of work, they face the end of high school classes—but the beginning of a broader life. In fact the term "commencement" really is the commencement of a new era for them—the beginning of many being out "on their own," the starting of specialized work in higher institutions of learning; or entering into the business world. An old adage says that life begins at forty. But for these youngsters life really begins at fifteen, sixteen or seventeen. Back twelve years ago when most of the boys and girls about to enter public school education, school was a novelty; it was a game that provided new experiences, new friendships, and a new world. Along about the third or fourth grade it finally dawned on most of them that there was some work attached to the play at school. By the time they reached the sixth and seventh grades, unless they were unusual pupils, they had to really get down to business to keep up with the classes. Along about this time, too, they realized that the little freckled faced kid of the opposite sex across the aisle wasn't such a bad person, after all. That made school pick up for many of them. Then came high school days. Ah, that was when love entered the lives of many—real love, they would assure you, too. And football, and banquets, and dates, and jalopy rides, and notes—but, oh, those exams that came before many of them were ready. But the realization that education amounted to something became part of most of the growing-up students. School, they decided, wasn't something connected by designing parents just to get rid of the kids, after all. It was designed as training to fit them for later life. Along about the beginning of their sophomore year many of them thought: Just three more years and their graduation! That was something to look forward to... something to achieve. They buckled down to business, determined to see the job through. And now that big day is about to arrive! Yes, commencement means the end of high school classes; the parting of many young folks for all time to come—and this parting provides a sad part of commencement for many—but it means the opening of new experiences for the young manhood and womanhood. As Scurry County high school graduates come to the threshold of new opportunities, we trust that they shall have learned the tenets of getting along with people and being of service to their fellow-man.—Scurry County Times.

Long Ago In Lockney

TSCW BEAUTIES—Named prettiest girls of their respective classes at Texas State College for Women, reading from top left clockwise, are Miss Agnes Haynes, Orange, freshman; Miss Laura Sessions, Waxahatchie, senior; Miss Evelyn Balcar, Beaumont, junior; and Miss Jeannie Holland, Houston, sophomore.

Insulation Keeps House Cooler

COLLEGE STATION.—You may not be able to do much about the temperature this summer, but you can do something about your house to keep a little cooler.

Inside house temperatures may be from 10 to 15 degrees cooler with insulation than without it, provided the house has enough ventilation, says W. S. Allen, extension agricultural buildings engineer of Texas A. & M. College.

The insulation itself won't cool the house, but it will keep the heat outside during the day. Along with night ventilation, shading of the

windows, awnings and shade trees near the house, insulation helps provide better cooling. The difference will be enough to make any house more comfortable when the mercury climbs high, Allen says.

Any home exposed to high temperatures in the summertime needs insulation, and the higher or lower the temperature, the greater the need for it. Here in Texas it's most beneficial in the summer. Reflective insulation, which comes in metal foil or sheets, helps keep the sun's heat out of the house during the day, and allows for rapid cooling at night. So it is well adapted to the South, says Allen.

WANT ADS GET RESULTS

Tech Plans \$3,000,000 Construction Soon

LUBBOCK—Plans for construction as soon as possible of \$3,000,000, in new buildings at Texas Technological college have been approved by college directors.

The first group, to cost about \$2,000,000, will include addition of two wings on the Administration building, two wings on the Engineering building and either a new Home Economics building or wings on the present Home Economics structure. Studies are being made on details of a new pure science building, which will be a part of the \$3,000,000 program.

Directors, at their meeting this week, voted to issue between \$2,600,000 and \$2,900,000, in bonds, to be retired by income from the College Building amendment voted by referendum in Texas two years ago. Central Investment Company, Dallas, was employed to arrange sale of the bonds early in June.

The board said classroom space is a major need of Texas Tech and the Administration building wings alone will give 16,000 additional square feet for classes. The Engineering building wings would permit concentration of engineering work and release for other purposes space now allotted to engineering

over the campus.

Under the building amendment it is estimated upwards of \$3,500,000, will be made available to Texas Tech for buildings during the next ten years.

Mr. and Mrs. A. V. Ridgeway returned last week from a visit with relatives at Rotan and Abilene. While there they fished at Fort Phantom near Abilene. Mr. Ridgeway's luck is getting better, he says. He caught some fish this time. His mother, Mrs. E. D. Foreman of Rotan, returned home with them for a visit.

The cost of operating farm machinery is more than one-third the expense of operating farms in Texas.

Eggs and canned corn are expected to be in plentiful supply in Texas during May.

Automatic rapid firing 5 inch guns and powerful secondary and anti-aircraft batteries will deliver the one-two punch of the Navy's new heavy cruisers.

Return Wheat Straw To Soil, Dunlap Says

The maturing wheat crop has a big straw or stubble crop and crop residue management is one of the most important of all soil and water conservation practices in use today. According to R. G. Dunlap, chairman of board of supervisors of the Floyd County Soil Conservation District, this residue should not be burned, but should be returned to the soil. The organic matter in or on the surface of the soil serves as a barrier to soil removal by force of water or wind. It also cuts down the rate of evaporation, serves as a protective cover against extreme temperatures and keeps the soil open for free movement of air and water.

The advantage gained will more than offset any trouble that it may cause. Farm machinery has been improved and developed that permits the widespread use of residues. This method is rapidly becoming the accepted way of farming and is no longer considered an emergency measure or as a sign of "sloppy" farming.

When soils are low in organic matter their porosity is poor and much of the water that should go into the land runs off. Soils that are low in organic matter do not have capacity for holding available moisture and crops will suffer in dry years. A cover of organic matter is most effective in controlling soil movement. Crop residue, properly managed, will not only help hold the soil in place but will increase the penetration of the moisture.

Without a protective cover of vegetation, either dead litter or growing crops, the wind takes its toll of productive soil. Even the heavier soils will blow if permitted to become depleted in organic matter and are left bare of a protective cover. The severe soil blowing last fall and winter was and that was depleted in organic matter. Much of the finer particles, including organic matter, is sifted out of eroded soil and carried away, becoming a mass of individual soil particles with nothing to bind them together.

The time to prepare against erosion is during the growing season preceding the blow season and heavy rains. It takes very little effort each year to keep the soil built up as the crop is taken off, but if it is allowed to become depleted in organic material it takes a period of several years to restore this essential content. This fact substantiates the basic theory of the practice, especially in the drier areas, where a gradual decomposition will take place if the material is left on top of or in the immediate surface soil. Crop residue left on or near the surface is recommended by the supervisors as one measure to take against all types of erosion.

Card of Thanks

I wish to express my sincere thanks to all those who were so kind to me during my illness. Especially do I appreciate the helpfulness of the Hospital staff. I also deeply appreciate your many visits and flowers.
Mrs. M. F. Nigh

Mrs. Berta Davis of Colingo, California is here visiting her brother, F. L. Brown and Mrs. Brown. Another sister of Mr. Brown, Mrs. I. N. Stout, Mr. Stout and their daughter, Dorothy of Chattanooga, Tenn., left for their home Wednesday. The group attended a reunion of the Brown family in Waxahachie, Texas last Sunday. The out-of-town visitors also visited their niece, Mrs. Will McDonald and family.

Harold Huggins and family of Colorado City, Emory Huggins and family of Plainview, Wilmer Teuton and family of Amarillo, Mr. and Mrs. O. J. Huggins, Lockney; J. E. Huggins of Lubbock, Miss Emma Lois Huggins of Crosbyton all visited in the home of Mr. and Mrs. J. D. Huggins Sunday.

Mr and Mrs. H. P. Coleman and Hardy Smith of Whiteface visited in Lockney Sunday.

Mr. and Mrs. Fred Lam left Thursday morning for a vacation trip to Missouri where they expect to spend the next four weeks.

Mr and Mrs. B. L. Garlington and Jimmy of Borger visited in the Edgar Hays home last Friday.

Mr. and Mrs. E. Hays who live northeast of Lockney, had most of their children and grandchildren as visitors Saturday and Sunday.

St. Luke, one of Jesus' disciples, was a physician.

Powers Do Away With Fountain

A new wrinkle in the operation of a drug store is being tried here. The Powers Pharmacy has discontinued the operation of their soda fountain and will in turn increase their stock of merchandise in the drug and sundry line, it was announced this week. "We are going to try to give you much better service from the standpoint of a modern pharmacy," Mr. Powers said, "and we believe this is the way to do it."

A gift line will also be added to the store's merchandise stock. They will continue to handle package ice cream, ice cream novelties, and candy.

Ice Dispenser Is Ready To Go

The new automatic ice dispenser, located next door to Modern Radio Service in Lockney is now ready to go, and all you have to do is drop in your money and the ice comes out.

The dispenser turns out either 25 or 50 pound blocks of ice, depending on where you put your money. The 25 pound block costs 20c and the 50 pound block costs 35c. The machine can handle any type of change from nickles to quarters. The machine is in operation 24 hours a day and seven days a week.

Marvin Cox is in charge of the machine. It was installed here by Clary's of Plainview.

Boy Scouts On Week End Outing

Boy Scout Troop No. 59 of Lockney is going on an outing this week end. Scoutmaster Arthur Barker Jr., said this week. The boys and their adult supervisors will go to Palo Duro canyon Friday and then spend Friday night at Buffalo Lake near Uhlenger. Mr. Barker and Mort Crapster will accompany them.

Mr. and Mrs. Jake Griffith returned Monday night from Weslaco, Corpus Christi and Port Aransas. While fishing at Port Aransas Jake caught an octopus about 18 inches across and had some difficulty getting it loose from his line. They were gone about 10 days.

TERREL & SON BUY ANGUS CATTLE

W. E. Terrell & Son of Lockney recently purchased ten purebred Aberdeen-Angus cows from J. M. Hill of Crowell.

Mr. and Mrs. B. and Mrs. L. W. enjoyed a picnic Sunday.

Among its many advantages, it serves as kitchen table, with fold-down leaf attachment for extra work space and breakfast table. Capacity 6 cubic feet. Easy opening, counter-balance without holding. Complete quick food defroster and distinctive features.

PENNINGTON MOTOR CO.

ANNOUNCEMENT

In order that we may serve you in a more efficient professional manner from the standpoint of a modern pharmacy, we have decided to discontinue the operation of our soda fountain.

We are increasing our stock of Drugs and Sundries and are adding a complete gift line.

It is our aim to give each customer a more professional and personal service. We feel that this change will enable us to better serve you in the drug and sundry lines of merchandise.

We shall have a bottle Coca Cola dispenser and will continue to handle Swift's package ice cream, all flavors, and cream novelties such as ice cream bars, popsicles, and Dips cups.

We invite you to visit our store at any time and we will appreciate your patronage.

PRESCRIPTIONS—We are especially anxious to serve you in the filling of your prescriptions. Our complete stock of fresh drugs and long experience and training enable us to give you the very best in prescription service. Registered pharmacist available at any hour—day or night.
