

THE LOCKNEY BEACON

The Only Medium Covering The Rich Irrigated Section Of Floyd County.

VOLUME 47

LOCKNEY, FLOYD COUNTY, TEXAS FRIDAY, JUNE 10, 1949

NUMBER 40

Harvest Delayed By Heavy Rains

Wheat harvest in Floyd County has been delayed by heavy rains this week, with elevator men estimating that it will be the latter part of next week before combines will make much headway on the wheat. A few loads of wheat and barley have been brought in to local elevators, but most of it was still a little green, it was reported.

Alvin Wilson brought a load to Patterson Elevator, Monday. It was No. 1 wheat testing 62 pounds but had a moisture content of 13.45. It was sold for \$1.50.

Three loads of barley were brought to Baxter & Smith here Friday and Saturday by Marvin Marshall who lives eight miles southwest of Aiken. The barley had a moisture content of 11.5. It was making 50 bushels to the acre and brought 75c per bushel.

Mrs. Tell Nix, who lives seven miles northwest of Lockney, brought in three loads of Early Wichita wheat Monday to Baxter & Smith. Testing 60 to 62 pounds, the grain had moisture of 14.5 and was sold for \$1.50 per bushel.

Elevators cannot accept wheat with more than 13% moisture content for government loan and for this reason a number of farmers have held up starting their combines for a few more days.

Jim Wilson who lives east of town and J. M. Tye who lives eight miles northeast have cut some wheat prior to the rains this week. Mr. Wilson was making around 20 bushels, he reported, while Tye was estimating his yield as high as 35 bushels. However, Mr. Tye received some hail damage Tuesday afternoon which will cut his yield. All wheat brought in has been early Wichita, it was said.

Apparently combines will be plentiful this year as they are already moving into this area and parking, waiting on dry ground and dry wheat to start. Apparently most of the wheat in the country east of Floyd County has already been pretty well cleaned up.

Many farmers are making preparation to store at least a part of their wheat in their own bins and plans have been released this week for federal approved farm storage bins.

Methodist Vacation Bible School Will Begin Monday

The Methodist Vacation Bible school will begin Monday afternoon, June 13, it was announced this week by Rev. N. S. Daniel, pastor. The school will be held each afternoon from 3 to 5:30. All children from 3 to 15 years of age are invited to attend.

Rev. Daniel announced the following schedule for the school: 3:00 General Assembly. 3:30 Classes. 4:20 Recess and refreshments. 4:50 Craft work. 5:30 School out.

Fred Jones Given Customary Reprieve

Gov. Beauford H. Jester granted the customary 30-day reprieve to W. Fred Jones, Floydada groceryman, last Saturday. Jones was sentenced to die in the electric chair last Tuesday morning by Judge Dan Blair of Crosbyton for the slaying of H. C. Love Jr., on Sept. 27, 1946. The date was set for July 8. The reprieve will move it up to August 7.

Bill Allen, who has been attending Oklahoma University, arrived home this week for summer vacation.

Rev. and Mrs. Will Pritchett and children of Los Angeles spent Thursday of last week with Rev. Pritchett's nephew, J. P. Truett and family.

Mr. and Mrs. Robert Morton of Austin visited Mrs. Morton's father, H. B. Strickland this week.

Mr. and Mrs. J. O. Patterson of San Francisco spent last week end here visiting his sister, Mrs. N. E. Greer, Dr. Greer, and Dr. and Mrs. Wayne Greer.

Mrs. Childers Wins \$88.86 Appreciation Day Prize Saturday

Mrs. Elvin Childers, who lives in north Lockney, won \$88.86 last Saturday on a 30% Appreciation Day ticket. The total amount in the treasure chest was \$296.20.

Mort Crapster, local Southwestern Life Insurance Co. representative is the new secretary of the Appreciation Day organization replacing Earl Cooper who resigned to open the Lockney Swimming pool. Mr. Crapster's office is in the Carl McAdams office.

Temporary Grain Storage Bin Is Approved By CCC

The Commodity Credit Corporation has approved a new type temporary grain storage bin that will qualify for farm storage loans, it was learned Monday by representatives of the County P. M. A. and the County Agent.

In a meeting held in Lubbock Monday with representatives of the C. C. C., this bin was given approval for farm storage loans.

These bins are 8x14x4 and 8x14x6, the smaller bin will hold approximately 400 bushels and the larger bin will hold approximately 600 bushels. Either of the bins may be extended to any length desired. The C. C. C. estimated the cost of the bins to be about 5c per bushel.

Plans for the bins may be obtained from the County Agent, and a copy of the plans will be given to each of the local lumber yards.

The bins, when constructed according to the approved plans, may be used for other purposes when the grain has been moved.

General American Oil Co. Abandon Byrd No. 5

A lot of hard luck has been encountered in the Byrd No. 5 well by the General American Oil Co., and last week a decision was made to abandon the project after a string of two or three drillstem and other equipment had been lost in the hole. A fishing job has been going on for the past ten days without any success. This is the second and maybe third well in the Arick Field that has been abandoned of drillstem trouble, etc.

Most of the trouble in these wells has been caused by not setting an intermediate string of casing, so oil field people say. A formation of red beds is encountered at a depth of about sixteen or seventeen hundred feet, this formation will only hold up a short time before it begins to cave and sluff off, causing all kinds of trouble. If the well is completed quickly no trouble is encountered, but in the case of the Byrd No. 5 pay dirt was not encountered at the 4500 foot level so an attempt was made to go deeper, and then trouble began.

Assistant Home Demonstration Agent Now On Duty

Miss Eloise Woodruff has assumed her duties as assistant county home demonstration agent in Floyd County working under Miss Lella Petty. Miss Woodruff is in training and will serve this county until August 30.

Miss Woodruff's home is Shallowater. She has finished two years of home economics at Texas Technological college and expects to complete her work there. Her salary in this county is paid entirely by the extension service.

Jake Watson Will Be F. N. F. L. A. Secy

Jake B. Watson has resigned his position as city secretary of Floydada effective July 1 to accept a position as secretary of the Floydada National Farm Loan Association. Watson was elected to the city secretary position in the recent city election.

Court Employees Architect To Draw Tentative Plans

The Floyd County Commissioners Court has employed the architectural firm of Haynes & Kirby of Lubbock to draw plans for the repair of the court house. It was revealed this week. The Court has asked that plans be drawn showing the building replaced and modernized and also a plan showing some addition to the old building.

Judge G. C. Tubbs said that more room will certainly be needed, especially to provide for jury dormitories and things of this nature. The Court has in mind replacing the building the cheapest way to make it efficient and useable, it was said.

The insurance company has made the county an offer on the settlement of the policy covering the building. The offer amounts to about \$167,000 although some details remain to be worked out. The Court has not accepted or rejected the offer, as yet, Judge Tubbs said. They have an appointment with the adjuster Thursday of next week.

The Court wants to modernize the heating plant of the building as well as the toilet facilities, the Judge said, as both of these are out-of-date and inefficient. They will decide as to the procedure of repairing the building after plans are presented to them, he said.

The Court spent last week end going over tax rolls and equalizing the valuations of the county. No valuations were raised except where the valuation was well below the county level, but an attempt was made to equalize all valuations and bring them into line with the county as a whole.

Grasshopper Survey Made This Week

County Agent Robert H. Gibson said Tuesday that Wednesday, June 8, was the date set for the County Grasshopper Survey. Making the survey will be the County Agent and Guy E. Carpenter, District Entomologist, of Lubbock.

Some reports of grasshoppers in Floyd County have reached the County Agent, but the extent of quantity and damage is not known at this time. He stated that if sufficient grasshoppers were found, a grasshopper control station would be set up in Floydada. This station would distribute poison bran free of charge except for a small mixing fee. Any cooperation on the part of the farmers in Floyd County in this program is welcome.

High School Honor Roll Is Released

Honor roll at Lockney High School for the final six-weeks term of school was released this week by Principal F. M. Smith. The roll was as follows:

Seniors—Joyce Carthel, Nita Huckabee, Eldora Jameson, Lorabeth Kellison, Mary Louise Manning, Marie Martin, Martha Nell Whitfill, Iva Mae Wright.

Juniors—Eddie Wayne Cooper, Laverne Dorman, Jerry Paul Cooper, Rosa Lee Matthews.

Sophomores—Wanda Kellison, Sid Thomas.

Freshmen—Bobby Dorman.

In addition Mr. Smith released a list of students who made the honor roll each six-weeks period during the past school year. They are: Seniors—Eldora Jameson, Mary Louise Manning, Martha Nell Whitfill, Iva Mae Wright, Joyce Carthel, Lorabeth Kellison.

Juniors—None. Sophomores—Sid Thomas. Freshmen—None.

RETURNS HOME

Mr. E. P. Williams has returned to her home in the Irick community after undergoing an operation at the Millings Sanitarium in Grand Prairie. She is getting along fine, her husband reports. Mr. Williams has only recently returned home from the veterans hospital in Amarillo where he underwent treatment for two months.

Rain and Hail Batter Crops In Western Floyd County

Three separate hail storms accompanied by rains and some wind have battered crops in Western Floyd County this week. Damage to wheat and young cotton has been extensive although not generally heavy. Some wheat has been damaged as much as 90% and some young cotton wiped out but in most areas the damage runs much lighter.

The storms began with a rain and hail which fell Tuesday afternoon. The rain amounted to .78 inch here and the hail was fairly heavy but did not last long at Lockney. Considerable damage was done around Sterley by this storm.

Wednesday afternoon another hail struck the area but was mostly just around the townsite of Lockney and did not do very much damage apparently. Total moisture from this storm was .40 inch.

Wednesday night about 9:30 still another storm struck the area and while no hail fell in Lockney to speak of, considerable fell in the area south and west of town, doing damage especially to cotton. The total moisture in this storm measured one and 10 inches for a total for the week of two and a quarter inches.

Probably the hardest hit area was in south and west of Sterley where L. L. Rhodes lost a considerable portion of his wheat, probably running up to 80 or 90% on the east portion of the Artie Baker place which he farms. Mullins & Howell, farming south of Sterley, lost about 30% of their wheat and also around 70 or 80 acres of young cotton which was up to a good stand. Frank and Robert Thomas, farming the Artie Baker land just south of Mullins & Howell lost a field of young cotton also. The hail strip here was very narrow, extending through an area running northeast and southwest. The hail came on into Lockney but did only light damage close to town.

Guy Sams lost an estimated 30% of his wheat in the hail falling Wednesday night, and considerable damage was done to cotton south and west of town.

20 Enrolled For Vet Ag School

Twenty men have been enrolled for the Veterans Agriculture School meeting here, it was announced Monday night by N. S. Abbot, coordinator of the Floyd County Vocational Schools. The first meeting of the class was held Monday night at the high school building. Teacher of the class is W. D. Hancock.

Veterans attending the school get regular subsistence checks as do veterans attending other schools, Mr. Abbot said. These are \$105.00 per month for married veterans with one child, \$97.50 for married veterans and \$70.00 per month for single veterans. For this the veteran must spend 12 1/2 hours per week in school work. Four hours are spent in class and the remainder in working group problems, shop work, etc. Class time is Monday and Wednesday nights from 8 to 10 o'clock.

If the veteran is absent without excuse a deduction is made on his check. Excuses for absence include sickness of the veteran, sickness of some member of his family or impassable roads.

Mr. Abbot said that he hoped to start another class here this fall. There is a limit of 25 in each class. He hopes to fill the present class and build up a waiting list so that another class can be started.

Mexican Laborer Hurt By Tractor

Jesse Arjona, employee of Harmon Handley, was painfully but not seriously hurt Tuesday afternoon when a Ford tractor ran over him. Arjona started to dismount from the tractor after he thought he had thrown it out of gear. The tractor was still in gear and he fell under it. He is being treated at the Floyd County Co-operative Hospital here.

of his wheat in the hail falling Wednesday night, and considerable damage was done to cotton south and west of town.

Most every farmer in the area who has wheat has suffered at least a 5 to 10% loss while most of them run as high as 20%. Still others who have cotton have lost some of it or had their stand badly damaged.

Those reported to The Beacon as suffering hail loss either on cotton or wheat and sometimes both are: H. B. Handley, Buck Sams, Wallace Allen, Alvin Wilson, Harmon Handley, Hall Ferguson, Windy Hargis, Horace Sengo, Henry Schacht, Earl and Buck Kellison, J. R. Belt Jr., Baylor Byars and Fred Duval all in the area south and west of Lockney; small damage was reported in the Providence area around the D. B. Mathis place in the Tuesday storm; damage was also reported in the area south of Lone Star by Floyd W. Jackson and A. O. Foster; J. M. Tye, Hillburn Casey, Frank Brown, Austin Heard, A. E. Bonner, Hershel Carthel at his section near South Plains, M. O. Davis, Alvie Davis, Hughie Davidson, and others reported damage in the area north and east of town; W. H. Workman had damage in the Muncy area and Verner Hodel and Roy Street had some damage west of town.

A. S. Mise reported damage to his crops near Cedar and reports reaching here stated that an area south of Cedar around Fairview had been badly damaged by the Tuesday storm.

Twister Reported
A twister was reported to have hit in the area southwest of Silverton and probably between there and Lone Star in a report coming out of Silverton Tuesday night but The Beacon has been unable to substantiate the story. No one was reported injured and little damage was done.

A hard wind hit at Cedar which did some damage according to a report from Rosecoe Luckey of that community. The wind picked up a new Ford "bob-tail" truck and dumped it over a butane tank near his home, and then picked Lacey up and dumped him out in a wheat field nearby. He was reported suffering from bruises and shock.

Plans Started On Providence Road

Resident Engineer James F. Potts of the State Highway Department has begun work on the plans and specifications for the Providence road, it was reported this week by Commissioner Hugh Counts.

The road will be hard-surfaced from Aiken north to the Providence schoolhouse and thence west to the county line. Contract is expected to be let the latter part of the summer. This is a federal project and does not come out of the farm-to-market road program.

A little spur 2.7 miles in northeastern Floyd County near Edgin will be let at the same time. This road leading to the Floyd County line on the north includes a bridge over the river there.

Thursday Markets

Poultry	
Heavy Hens, 4 lbs. and over	15c
Light Hens, under 4 lbs.	13c
Cocks, pound	6c

GO TO CHURCH SUNDAY

**CITATION BY PUBLICATION
THE STATE OF TEXAS**

To: J. A. STARNES AND MRS. J. A. STARNES, the Unknown Heirs of J. A. Starnes and Mrs. J. A. Starnes, if deceased, their heirs and legal representatives Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Floyd County at the Court House thereof, in Floydada, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 15th day of July A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court, on the 2nd day of June A. D. 1949, in this cause, numbered 3815 on the docket of said court and styled W. C. Eiland Plaintiff, vs. J. A. Starnes et al Defendants.

A brief statement of the nature of this suit is as follows, to-wit:

A suit by W. C. Eiland against J. A. Starnes and Mrs. J. A. Starnes, the Unknown Heirs of J. A. Starnes and Mrs. J. A. Starnes, if deceased, their heirs and legal representatives, in trespass to try title involving the following described real estate situated in Floyd County, Texas, to-wit:

Lots Numbers 4, 5 and 6, in Block No. 2, Brunson Addition to the Town of Lockney, Floyd County, Texas, as such lots are shown upon the plat of said Brunson Addition, which said plat is of record in Volume 21, page 545, Deed Records of Floyd County, Texas;

Plaintiff alleging that he was lawfully seized and possessed of such premises, claiming same in fee simple on May 30, 1949, on which date defendants unlawfully entered thereon and ejected plaintiff therefrom to plaintiff's damage in the sum of \$250.00, the reasonable rental value of the premises; plaintiff alleging that he and those under whom he holds and claims have had and held peaceable, adverse and continuous possession of the land and premises above described, using and enjoying the same, claiming the same under a deed duly registered for a period of more than 2 years next before the filing of this petition, all of which plaintiff is ready to verify; Plaintiff further al-

leging that he and those under whom he holds and claims have had and held peaceable, continuous and adverse possession of the land and premises above described, using and enjoying the same, for a period of more than 10 years next before the filing of this petition, all of which plaintiff is ready to verify; plaintiff praying for judgment for title and possession of said premises, for damages, costs, writ of restitution and general relief; as is more fully shown by Plaintiff's Petition on file in this suit.

**Extension Gives
5 Features Of Well
Planned Farm House**

COLLEGE STATION—Housing experts agree on five features that every well-planned farmhouse should have.

Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College, says these features have been named "Farmhouse Specials" by Mrs. Lenore Sater Thye, who is in charge of housing and household equipment research in the USDA's Bureau of Human Nutrition and Home Economics.

Briefly, the five features are:

(1) Entrance to both living and work rooms convenient to the main driveway, which also should be convenient to the farm buildings.

(2) A well-located kitchen, with a view of the drive and farm buildings. "This feature has a number of advantages," Mrs. Thye says. "The housewife can see any visitor arriving, keep in touch with the children outdoors and have a watchful eye on the farmstead when the men are in the fields."

(3) Good traffic lanes, so that all

parts of the house may be reached without passing through the kitchen work areas and other centers of activity.

(4) Adequate work areas for preparing and preserving food.

(5) Adequate dining area in a pleasant place, with enough space to serve and eat regular meals.

"These farmhouse specials are important in any farm and ranch home, whether in Texas or in some other part of the country," Mrs. Claytor points out. "They are also points to be considered in building a home in town."

**Rotary Hoe Fine
For Young Cotton,
Specialist Says**

COLLEGE STATION—The rotary hoe is doing a speedup job of cotton cultivation, especially in West Texas and the Plains area.

Fred C. Elliott, extension cotton work specialist of Texas A. & M. College, says it works best on the young cotton seedlings in getting rid of the grass and weeds early, the cheapest time to do it.

The main advantage to the rotary hoe is that it speeds up cultivation of early growing cotton. Later on, as the cotton gets taller, this weeding machine doesn't work so well because the plants outgrow it. So the cotton farmer turns to other methods of hoeing.

With all the spring rains farmers got the past months, they're growing a pretty good crop of weeds right along with their cotton. Hand hoeing costs quite a bit, but the rotary hoe cuts hoeing costs down Elliott says. A common mistake with rotary hoe owners is not operating fast enough. Most of the time a farmer figures he's tearing the seedlings up if he goes too fast. Not so with the rotary hoe.

There are a couple of things to remember when using this machine, Elliott reminds. First, don't set it any deeper than enough to break the crust of the soil. The shallow picking action of the picks pulls up the tender weeds and grass, leaving them to dry out in the wind and sun. The best time to do the job is about a week after a rain.

And second, the best operating

parts of the house may be reached without passing through the kitchen work areas and other centers of activity.

(4) Adequate work areas for preparing and preserving food.

(5) Adequate dining area in a pleasant place, with enough space to serve and eat regular meals.

"These farmhouse specials are important in any farm and ranch home, whether in Texas or in some other part of the country," Mrs. Claytor points out. "They are also points to be considered in building a home in town."

speed for the rotary hoe is between six and eight miles per hour—at least four and a half mph., running in third gear.

By keeping the bed flat, you'll avoid throwing seed and grass around the cotton seedlings. It's a good idea to delay "dirting" the cotton until it gets a good start, Elliott concludes.

Frozen butter may be kept in the home freezer for as long as six months if it is good quality. Wash the butter well, get all the milk out, mold it, wrap in parchment paper and press all the air out that's caught under the paper. Then it's ready to pack in wax cartons.

A recent check engines "cannot" end of war show perfect condition.

Double Jeopardy tried twice for the

English street trams.

Plan your vacation the easy Santa Fe way...

These special services now available to you...

Before you even think about where to go this summer—contact your courteous Santa Fe travel representative. He has new descriptive folders, rates and other information about almost any vacation spot you could wish for. Places like the Grand Canyon—Carlsbad Caverns, Land of Pueblos (both in New Mexico)—Dude Ranch Country, the Colorado Rockies, and many others, too.

Then—once you have decided where to go—avail yourself of one or more of these Santa Fe services—to make your vacation easy, more pleasant.

RAIL TRAVEL PLAN—Gives you funds for rail accommodations, other expenses for your trip. You pay later in convenient monthly installments.

TRAVEL CREDIT CARD—Enables you to charge your tickets at any Santa Fe window. Rail, parlor car or sleeping car tickets (amounting to \$5.00 or more). Bills rendered monthly.

RAIL AUTO SERVICE—Provides you with a late-model automobile at your destination. Cost is reasonable. Service now in operation in many U. S. cities.

PLAN NOW TO VISIT THE CHICAGO RAILROAD FAIR, JUNE 25 — OCTOBER 2.

For further information call or write your local Santa Fe Agent

The new home of "Lubri-tection"

AN INVITATION

to visit America's newest and most modern motor oil plant

There are going to be "big doings" at Kansas City, Kansas, June 21st and 22nd, when Phillips' great new motor oil plant holds "open house" for American motorists.

You and your family and friends are invited, if you can possibly be there.

There'll be guided tours and refreshments, and you'll get an exciting "eyeful" of what Phillips has done to make possible finer lubricants for today's cars.

You'll see motor oil scientifically packaged by new precision methods. You'll be thrilled by new high speed conveyors and miraculous new machines that turn out up to 250 cans of oil a minute. You'll see special automatic blenders that maintain exact standards of uniformity and purity.

Come and see this new home of "Lubri-tection", where Phillips blends finer motor oil to give your car lubrication plus engine protection. Remember the dates . . . June 21st and 22nd . . . at Kansas City, Kansas. Any Kansas City Phillips 66 Dealer can give you directions for reaching the plant.

P. S. If you can't be in Kansas City June 21st or 22nd, why not pay us a visit the next time you're in our part of the country? You'll always be welcome!

Lubricate for safety every 1,000 miles

DON'T LET IT HAPPEN TO YOU!

Fun taking the family on a jaunt when your car goes... special labor-saving equipment that insures a good... We'll check, clean, lighten, adjust, renew! It's a... sound investment when you figure the money comes... back with a better trade-in price on that beautiful Chrysler!

Program Set For 4-H Round-Up At College Station

COLLEGE STATION—Texas 4-H club boys and girls who attend the annual 4-H Club Round-Up at College Station June 14-15 will have a full two days of instruction and entertainment.

M. L. Wilson, director of the federal service, Washington, D. C., and Durwood Manford, speaker of the Texas House of Representatives, are scheduled on the first morning's program.

Group singing—always an important part of the Round-Up program—will be led this year by Billy Triggs, minister of music, First Methodist Church, Wichita Falls, accompanied by his wife.

Earline Gandy, editor of the young folks department, Progressive Farmer, will speak to the 4-H club girls and their adult leaders in the afternoon of the 14th. Her subject will be "Ideas for Older Girls in 4-H Clubs." Later in the afternoon, the girls will break up into groups to see demonstrations led by various extension specialists.

During the same afternoon, the boys and their leaders will make a tour of the campus and swim in Downs Natatorium.

The night program will be a showing of "The Green Promise," a Glenn McCarthy Production featuring 4-H club work.

The morning of the second day, the group will hear reports from Reta Nell Baldwin, Willbarger county delegate to the National 4-H Camp in 1948; Jessie Lou Boyer, Tarrant county, who attended the Danforth

Passing Of Water Control Bill Is Victory For Plains

Directors of the High Plains Water Use and Conservation Association in session in Plainview Friday heard President W. O. Fortenberry of Monroe highly praise the Texas ground water bill which was signed into law by Governor Beauford Jester Thursday.

"This association started just in time to divert disaster," said Fortenberry. "The 50th Legislature was considering legislation declaring ground water in Texas property of the state."

"Our friends in Austin advised us that we could not protect ourselves always by merely opposing legislation. So we set forth to shape the legislative trend and wound up by drafting the law that was passed. It is the bill introduced and sponsored in the House by Representative I. B. Holt of Olton and in the Senate by Senator Bell of Cuero. It is common knowledge that Arthur P. Dugan of Littlefield, counsel for the association, drafted the bill.

"This bill embodies all the protection we need and all the aggression we need at this time in themselves to put on a program of recharge of ground water."

"We are very proud of this bill, which reverses the trend in the 50th Legislature which would have disturbed title to our ground water. We have sidestepped state control, and every major principle for which the association initially declared is embodied in the bill. Only minor amendments were made."

"It provides local administration, reiterates fee ownership and grants districts the right to tax themselves to put on a program of recharge of ground water."

"It can help greatly when the engineers come up with a practical means of recharge."

Secretary-treasurer Chas. Schuler of Petersburg said that bills totaling \$23,126.96 have been contracted by authorized officials of the association since March 20, 1948. The members of the respective county and local associations have been assessed twice for 50 cents per well and twice for \$1 per well. Fortenberry personally loaned the association \$5,800 to clean up the last bills. There is need for \$5,400 to pay this off.

Hale County is behind \$2,300, it was stated. A. B. Tarwater, president of the Hale County Water Use and Conservation Association, said that he would soon call a meeting of directors to pass upon liquidation of this amount.

Parmer County is short \$750, Randall \$100, Deaf Smith \$800, Dallam \$100, Bailey \$750 it was reported. Most of this is soon to be raised.

Frank Perkins, secretary of the Floyd County Water Use & Conservation Association, said this week that Floyd County owed the High Plains organization \$66.00 and he is requesting that members of the local organization make some contributions to help pay the obligation. The expenses were incurred in the pushing through of the water bill.

leadership training camp; Alvin C. Davis, Garza county. A Texas delegate to the National 4-H Club Congress, and Roy Hranicky, Jim Wells county, who spent the summer of 1948 in the Netherlands as a member of the International Farm Youth Exchange Project.

A 4-H Talent program will end the morning's session, and the afternoon will be taken up by demonstrations led by extension specialists.

The Round-Up will end with the State 4-H Dress Revue in Guion Hall, and the presentation of awards.

Joyce Womack of the County-Wide 4-H Club in Floyd County, will be a contestant in the Revue.

Others from Floyd County who will attend the 4-H Round-Up will be Shirley Womack, Sand Hill 4-H Club, Nita Jo Day, County Wide 4-H Club, Gordon Hambright, Lakeview community, Don Pope, Floydada, Bill Hambright, boys leader, Lakeview community, and Mrs. H. F. Jackson, Leader, Sand Hill.

Extension Agents attending from Floyd County are Leila Petty, James Murphrey, and Robert Gibson.

Mrs. Roy Ragle and girls left Thursday for New Mexico to spend the week end. They were taking Mr. Ragle's sister, Mrs. Beatha Smith home.

Mr. and Mrs. Ray Feagan of Columbia, North Carolina, were visiting Mr. Feagan's sister and family, Mr. and Mrs. Jimmy Brown the last two weeks.

Hospital News

Wesley Mitchell, son of Mr. and Mrs. Rhea Mitchell, was dismissed June 5 after medical treatment.

Mrs. E. F. Stovall is steadily improving.

Jack Cole was dismissed June 8 after undergoing surgery on June 4.

Mrs. Johnny Burson was dismissed June 4 after medical treatment.

Mrs. Millard Montgomery was dismissed June 7 after medical treatment.

Bobby, Nancy and Alice Willis, children of Mr. and Mrs. Floyd Willis of Amarillo, was admitted June 6 for tonsilectomies. They were released June 7.

Jesse Dwayne Foster, son of Mr. and Mrs. J. W. Foster, underwent a tonsilectomy June 7.

Jesse Arjona was admitted Tuesday for treatment of injuries received when a tractor ran over him on the Harmon Handley farm.

J. H. Johnson was admitted June 8 for medical treatment.

Mrs. W. H. Johnston was admitted June 9 for medical treatment.

C. J. Taylor left Wednesday for Cumbie to visit with his mother, Mrs. J. H. Taylor.

Mr. and Mrs. Hugh Counts, Mr. and Mrs. Gerald Sams and Sandra attended a family reunion of the Counts family at Abilene Sunday.

DOG ODDITIES

By Harry Miller, Director, GAINES DOG RESEARCH CENTER

THE DOG NAME "FIDO" IS DERIVED FROM THE LATIN WORD "FIDUS" MEANING FAITHFUL OR TRUSTWORTHY

THERE ARE ONLY ABOUT 100 OF THE ANCIENT MASTIFF IN AMERICA AT THE PRESENT TIME

NEARLY 3,000,000 OF AMERICA'S DOGS ARE PURE-BRED SPECIMENS OF OFFICIALLY RECOGNIZED BREEDS

© 1948, Gaines Dog Research Center, N. Y. C.

California State Fair Is "Puny" Compared To Texas'

"We didn't even know they had a state fair in California," R. L. Thornton, president of the State Fair of Texas, has declared in the current controversy between the two states as to whose fair is bigger.

W. C. Wright, president of the California State Fair, recently announced that the West Coast fair tops the mammoth Texas exposition, and figuratively told Texas to "put up or shut up."

"We'll put up," Thornton said. "And just in case the California fair does open its gates this year, we have delegated some of our best secret service operatives to try to locate the town of Sacramento and see just what claims, if any, are true."

"If we find anything at all, we will arrange to send a half dozen flat cars to transport their entire fair to Texas, and place it in a corner of our own fair grounds as some sort of Lilliputian novelty."

Thornton said he doubted the ability of Californians to build a truly great fair.

"Two or three years ago a bunch of fellows from California were in Texas wanting to know what it takes to build a great show like ours. We

told them it takes 35 years and 35 million dollars. Unless they have borrowed the money from somebody in Texas, I am sure they haven't what it takes."

"But we should give them credit for having the foresight to schedule their carnival a month ahead of the State Fair of Texas. If it were the other way around, they would probably be too discouraged to go on."

"The State Fair of Texas long ago demonstrated that in attendance, size of grounds, value of buildings, scope of livestock and agriculture shows, and in number of outstanding athletic and other special events, the Texas fair stands so far above any other exposition in the world that the words 'biggest and best' have ceased to have meaning when applied to any other fair."

While he was on the warpath, Thornton took a poke at California's boast that its oil wells are biggest and best.

"Why, you could take all the oil wells in California and put them down in the East Texas field and it would look like a lonesome pine on King Ranch."

After the vegetables have been removed from the garden, the next step is to keep the soil stirred up to prevent weed growth. Weeds take up soil moisture that can be better used to start fall vegetables.

Farm Income 25% More Than March

AUSTIN, Texas—Texas farm cash income totaled \$68,176,000 in April, rising 25 per cent from March, the University of Texas Bureau of Business Research reported.

Cattle was the greatest source of income in April, bringing Texas farmers \$32,386,000. Income from milk products totaled \$10,298,000; and eggs, \$4,724,000.

Heavier marketings of cattle, fruits and vegetables, and livestock products pushed April income ahead of last month in the majority of crop-reporting districts. South Texas Plains, Lower Rio Grande Valley, and Edwards Plateau more than doubled their farm income from March to April.

On the other hand, March to April declines ranged from 2 per cent in Red Bed Plains to 9 per cent in Northern High Plains.

In comparison with April 1948, farm cash income for April 1949 was down 34 per cent. With the exception of rice, peanuts, poultry, and wool, all farm commodities brought Texas farmers less money in April than a year ago.

Farm income rose 7 and 17 per cent

over April 1948 in Northern High Plains and Coastal Prairies, respectively, but declined sharply in other districts. Decreases ranged from an 18-per-cent drop in East Texas Timbered Plains to a 70-per-cent in the Lower Rio Grande Valley.

After adjustment for seasonal variation, the Bureau's index of farm cash income declined to 212 per cent of the 1935-39 base period in April from 226 in March and 331 in April 1948.

For the first four months of 1949, farm income totaled \$225,659,000, falling 22 per cent under a like period in 1948. Except for increases of 16 and 20 per cent in Northern High Plains and Coastal Prairies, all districts recorded declines from 13 to 60 per cent under their 1948 levels.

Cooking bananas may be boiled in this tin and served as a vegetable. Or they may be peeled, cut in lengthwise halves and sauteed in a little melted fat in a frying pan. Lemon or orange juice is added to prevent darkening of the bananas and to add flavor to the dish.

FIRE AND LIGHTNING INSURANCE ON YOUR STANDING WHEAT!

We are in position to write Fire and Lightning Insurance on your wheat and small grain while standing in the field, and while being combined, or cut, harvested and threshed, and while stored on your farm.

You will want to protect your wheat crop this year against every hazard and we stand ready to serve you at any time.

Premium 43c Per \$100 Per Month

"PACKS THE SOIL WITH POWER!"

NOW... a new nitrogen from a new plant to make fertilizing easy and profitable! The Rowland Company's new Plainview NITROW plant, shown above, is the answer to this area's nitrogen fertilizer shortage. For the soil's basic nitrogen needs, liquid NITROW contains 25% nitrogen. It is manufactured by combining 83% Anhydrous Ammonia with water, by the process shown above, and is being distributed to irrigation area dealers in 50 gallon steel drums. The price of NITROW is 45c per gallon, plus a drum deposit.

The Flow of NITROW down your rows is easy to check, for it gives irrigation water a milky color, and gives off an ammonia odor. You see where your fertilizer is being distributed when you channel NITROW liquid nitrogen fertilizer into your rows. YOU CAN SMELL IT! YOU CAN SEE IT!

The Rowland Company's NITROW is the equal of the best in increasing yield and quality of cotton, maize, wheat, truck and other crops. From a few drums used on maize last season by a West Texas farmer, yield was so multiplied that 8 rows filled a harvest hopper which took 14 rows to fill without the help of liquid nitrogen. Near Las Cruces last year, cotton that ordinarily made a 2 bale-per-acre stand, made another one-fourth bale when strengthened with nitrogen in the NITROW form. Call or visit us for NITROW today!

NITROW

10 TO 15 GALLONS PER ACRE

LOOK FOR THE DEALER IN YOUR COMMUNITY

Here are dealers already established to serve you with "NITROW". Others are being set up in all irrigation communities. Watch for his announcement in your local newspaper.

Society News

Mrs. McCollum And Mr. Widener Wed

Mrs. Elizabeth McCollum and Mr. J. H. Widener were married Wednesday night of last week at Lubbock. Liff Sanders, Church of Christ minister, performed the ceremony at his home.

Mrs. Widener has been a resident of Lockney for many years and is widely known here. Mr. Widener moved here last fall, purchasing the R. T. Spence farm 2 1/2 miles south-west of town.

The couple are at home on their farm after a wedding trip to Questa, N. M.

Mr. and Mrs. Bruce Whitlock and son, Bill, went to Alpine last week where they attended closing exercises at Sul Ross College. Their daughter, Betty, a student at Sul Ross, returned home with them.

Miss Jones, Lane Decker Are Married

FLOYDADA—Miss Lovene Jones, daughter of Mr. and Mrs. Lovel L. Jones, and Lane A. Decker, foster son of Mr. and Mrs. John Lewis, were married in the First Baptist church here recently. Rev. L. A. Doyle performed a double ring ceremony before a candlelight scene of white stock and gladioli. Mrs. Clement McDonald, Katherine Gardner and Patsy Young provided wedding music.

The bride given in marriage by her father, wore a candlelight satin dress.

Attendants, Mrs. H. S. Calahan, Jr., matron of honor, and Misses Phyllis Simon of Levelland, Joan Price of Tulsa, Okla., Mary Carolyn Goodman of Dallas, Ethel Osborne of Plainview, LaRue Graves and Hughetta Smart, wore identical dresses of sky blue marquisette.

Edna Lewis and Linda Golightly, flower girls, wore white organdy dress trimmed in blue lace. Marjorie Cden and Oragene Willson were candlelighters.

Fred Martin served as best man and Bob Redford of Lubbock, Gene Arwine, Ralph Mathis of Levelland, Elmo Hall, Dub Trowbridge and H. S. Calahan, Jr., were ushers and groomsmen.

Pink And Blue Shower Honors Mrs. Kimble

A pink and blue shower honoring Mrs. "Dink" Kimble was held Tuesday afternoon in the home of Miss Georgia Fay McAda. Hostesses for the occasion were Miss McAda, Mrs. Charlie Moses, Mrs. Elmer Lee Stapp, Mrs. Louis Ray Stapp, Mrs. J. C. Billington, Mrs. Richard Lambert. Punch and cake were served to guests. Approximately 50 called or sent gifts.

An electric pump is the heart of the farm water system. It must work for your family under all conditions, so select it to fit the special needs of your farm and home.

Pirates usually flew a black flag known as the Jolly Roger.

Popes of the Catholic Church are elected by the College of Cardinals.

Bridal Shower Honors Mrs. McDonald

Mrs. Robert McDonald, nee Helen Boedeker, was complimented with a bridal tea shower Thursday, June 2 in the home of Mrs. Wanda Baker from three to five o'clock.

In the receiving line were Mrs. T. H. Boedeker, the honoree, Mrs. Will McDonald and Mrs. Elva Lee Reed.

Mrs. Hershel Carthel presided at the bride's book. Mrs. Geo. Myers and Mrs. C. O. Jeffcoat were in the gift room.

The serving table was laid with a hand made lace cloth and centered with an arrangement of blue delphiniums and yellow snapdragons on a reflector framed with fern. Yellow candles in crystal holders flanked the center piece. Napkins printed in blue bore the names of Helen and Robert. Angel food cake squares iced in blue were served with golden glow punch. Mrs. Lenroy Weathers and Mrs. June Bybee presided at the table.

Hostesses for the occasion were Mrs. C. J. Taylor, Hershel Carthel, Wanda Baker, A. W. Thomas, Mildred Thomas, June Bybee, Lenroy Weathers, Clara Copeland, Elva Lee Reed, Geo. Myers and C. O. Jeffcoat.

Shrubs Or Grass May Be Bothered By Termites

COLLEGE STATION—Your plants may have termite trouble and you not know it. A plant may be killed by them without showing outward sign of injury. Yet, the inside of the plant may be hollowed out by these wood pests.

Termites often kill trees or shrubs by starting underground in the dead or dying roots of the plant, and working upward, says Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College. Or they may enter the plant at the ground level, boring into dead or diseased wood that attracts them. When you know your plant has been infested with termites, the best idea is to dig it up and burn it.

If the plant dies without showing any signs of disease, take a look at it and see what the symptoms are. Cut the stems and roots in several places and examine the centers. If they are hollowed out, there's a good chance termites did it, says Miss Hatfield.

And they may attack other garden plants unless you destroy them. All dead wood and other decayed vegetable matter should be removed. Treat the soil with DDT, using 10 pounds of 100 percent DDT or 100 pounds of 10 percent DDT for every thousand square feet. Distribute evenly, work it into the soil, and soak the ground thoroughly with water.

The white termites don't come out into the light. The dark ones are the only ones that come to the surface. Grass lawns are often tunneled by termites, and this year they have been especially active.

This DDT treatment will rid your lawn of termites, but won't bother the grass, Miss Hatfield says. It isn't necessary to spade the lawn, she reminds, because the water will carry the DDT into the soil.

This is the reason for soaking the soil to a depth of 8 or 10 inches.

Mr. and Mrs. Lloyd Wofford returned Tuesday from a business trip to Dallas.

Sterley News

By Mrs. M. A. Boone

Hail fell in Sterley Tuesday evening that did considerable damage to crops and gardens. Some reported fifty per cent damage to wheat.

Mrs. A. H. Suiter visited in Lubbock Friday and Saturday.

Mr. and Mrs. Jenkins of Portales, New Mexico, visited Mr. and Mrs. W. B. Mullins Monday and Tuesday. Mr. and Mrs. Clyde Shearer, Miss Penny Nelms and Bob Wooten, of Plainview visited Mr. and Mrs. L. A. Claborn Sunday.

Mr. and Mrs. James Stack visited relatives in Plainview Monday.

Mr. and Mrs. Jewel Rexrode and Joe Nell were dinner guests of Mr. and Mrs. L. A. Claborn Sunday.

Mr. and Mrs. G. E. Patterson returned Tuesday from a visit with their daughter in Eugene, Oregon.

The Sterley Home Demonstration club met Thursday in its regular meeting with a program on "Food on Our Pantry Shelves." Mrs. Jessie Foster gave the story of raisins, Gladys Bobbitt the story of celery, Mrs. Simmons the story of peanuts, Mrs. B. A. Howell the story of salt, Mrs. A. C. Nelson the story of spices. Mrs. Mooney told how that variety is the spice. Our next meeting will be June 16th with Mrs. Mooney and Mrs. Simmons as hostesses.

J. D. Foster had his tonsils removed Tuesday. He was reported to be doing alright late Tuesday evening.

Mr. B. A. Howell is visiting relatives in Ft. Worth and Dallas this week.

Mr. and Mrs. Linn Weatherly and children of Hart visited friends in Sterley Saturday evening.

Mr. and Mrs. Emmitt Johnston of Post spent the week end with Mr. and Mrs. W. B. Mitchell.

Mr. and Mrs. Ray Tinsley and Juanita are visiting relatives in Ft. Worth this week.

Mr. and Mrs. James Mullins of Abilene spent the week end with his parents, Mr. and Mrs. W. B. Mullins. They left Monday for Lubbock where they will make their home and attend school at Texas Tech.

Boilers, fryers, milk, lettuce, canned apricots, peaches and mixed fruits join the list of plentiful foods for June.

Court proceedings conducted en camera are those closed to the public.

Hygiene in the garden is as important to vegetables as cleanliness is in the home. Many diseases of vegetables are carried over on the stems, roots or leaves of the plants which have spent themselves in spring production. Such plants should be dug up, and not cut off at the ground level.

The State 4-H Round-Up is scheduled for June 13, 14 and 15 at Texas A. & M. College.

Elementary School Graduation Speeches

(Note: At the request of school officials, The Beacon is presenting the valedictory address by Frances Dee Copeland and the salutatory address by Orland Gilbert which were heard at the graduation exercises of the Eighth Grade of the C. N. Townsend Elementary school here on Wednesday night, May 25).

VALEDICTORY ADDRESS By Frances Dee Copeland

Parents, Teachers, Members of the School Board, Classmates, and Friends: You have made this occasion possible and I am happy to have this opportunity to express my appreciation.

Thanks to our parents for the help and encouragement you have given to us and to our teachers and for providing good homes for us which has had untold influence on our lives.

I appreciate the time and thought the school board spends to provide us with good efficient teachers. I doubt that there is an eighth grade class in the state of Texas that can boast of having had better teachers than we.

Our teachers with untiring effort, have helped to make school life both worthwhile and pleasant for us.

I am especially grateful to Mrs. Applewhite, Mrs. Muncy, and Mrs. Cox, my first three teachers, for their kindness, patience, and efficient teaching. I also owe much to Mrs. Ayres, and Mrs. Dutton my fourth and fifth grade teachers. I have had many different teachers in the sixth, seventh, and eighth grades and I am grateful to each of them for the influence they have had on my life. I hope that as this class continues through our school years, we shall not prove a disappointment to you.

To my classmates, I can sincerely say "I have enjoyed sharing the fun and joys of grade school years with you."

Thanks to our many friends who have shown your interest in us by your presence here tonight.

Most persons, when asked what they desire most in life, will answer: happiness and success. Even though we all desire these two things, probably no two of us would give the same definition of either. As a matter of fact, neither happiness, nor success is an objective. Each is a by product of well order living. Happiness is a way of life that is within us. The trouble with many people is that they have a vague idea that happiness is connected with some change in conditions. They think they would be happy if they had more money, could go more places, or do exactly as they wanted. If we are waiting for something to happen that will bring us happiness we are wasting precious time during which we might be enjoying happiness.

Merchant ships sailing the seas follow a route that will take them to a pre-determined port. They carry cargo that some buyer wants and that will bring the owner of the ship good returns. If the ship has a good captain, he does not leave everything to chance. He makes the necessary preparations to enable his ship to reach the port in good condition. So should we equip ourselves for the voyage of life. We will need a well developed mind, therefore it is our business to secure an education.

Education is more than just acquiring facts. It must be accompanied with knowledge to use the facts to best advantage. Who is educated? The educated are: people who speak correctly, have refined and gentle manners, good habits of thoughts and actions, appreciation of beauty, and a character based on high moral and ethical standards. Dionenes said: "the foundation of every state is the education of its youth."

We should strive to continue our education if we would equip ourselves for the voyage of life.

The decks of a ship must be kept clean. So should our minds be kept free from trash and uncleanness. We should cultivate the habit of looking for good and beautiful things. It has been said that bad literature dulls the mind just as a sand rock dulls the sharp edge of a razor. In the Bible we find this verse "Whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are of good report, if there be any virtue and if there be any praise, think of these things."

Just as the ship needs a rudder to guide it, so we need a will to work to keep us going in the right direction. Work is a weapon of honor and he who lacks it can never be successful. We must be willing to work and to not accept defeat. If we can not overcome an obstacle, then we must find a way around it. This will require work and ingenuity.

There is only a slight margin between success and failure. Dick Carlson said, "A race horse that wins a \$50,000 prize does not run 100 times faster than the one that wins a \$500 prize. He runs less than 1% faster. People who succeed do not work 100% more than those who fail. About 2% more initiative, and 2% more inspiration usually represents the difference between success and failure."

We often aspire to do great things and forget that doing the smaller things unusually well is what equips us for doing bigger things. A great deal of joy of life consists in doing to the best of ones ability what ever he attempts to do.

No ship is fully equipped without an anchor. We also need an anchor for our lives. I agree with Ulysses S. Grant who said, "Hold fast to the Bible as an anchor of your souls. Write its precepts on your hearts and live them in your lives. To the influence of this book we are indebted for the progress made in true civilization and to it we must look as our guide in the future."

When we reach our port I hope that we shall have found success and happiness.

I like Mrs. A. J. Stanely's definition for a successful person. "He has achieved success who has lived well, laughed often, and loved much, who has gained the respect of intelligent men, and the love of little children, who has filled his niche and accomplished his task, who has left the world better than he found it whether by an improved poppy, a perfect poem, or a rescued soul, who has never lacked appreciation of earth's beauty or failed to express it, who has looked for the best in others and given the best he had, whose life was an inspiration and whose memory is a benediction. Thank You!

SALUTATORY ADDRESS By Orland Gilbert

Teachers, classmates, parents and friends:

It is my privilege to welcome you on this occasion, which brings our class to the first milestone on the road leading from the beginning to the ending of our school days.

I come to you tonight with a feeling of mixed emotions—pride and humility, joy and sadness, optimism and pessimism, but above all, gratitude. I would like to describe to you what I mean by these emotions.

I say I feel both pride and humility. Webster describes pride as a sense of ones worth, as lofty self-respect. Then he defines the word humility as freedom from pride, meek, submissive. I do feel proud tonight but I hope not vainly so. I am proud to be able to represent this class in welcoming you here. I don't believe you could find a better group of boys and girls than my classmates, and certainly I take pride in being a member of this group. I am proud to have been a member of the football and basketball teams. I am proud to be graduating from grade school. But all these things which make me proud are, I know, no accomplishment on my part. No achievement of mine gives me the privilege of being a member of this class. It was the untiring efforts of the part of the teachers that gave me the opportunity and after all graduating from grade school is nothing more than a duty and privilege. It is you, our teachers, our parents and the taxpayers who have actually made the sacrifices and put forth the real effort which makes this graduation possible. I do feel proud to be a member of this class, proud to be a student of this school, a citizen of this community and above all, I'm proud to be an American.

I have said I have a feeling of both joy and sadness. There is always a joy in the successful accomplishment of a job undertaken. I am happy to

be completing this phase of my education. I look forward with pleasure to the coming vacation. But, even now, I realize that a very important stage has been reached in our lives. And I feel sad to think of the many, many happy experiences which are gone forever.

And I'm optimistic. I look forward with the greatest pleasure to my years ahead in high school. I have no fear but that they will be happy years. I know we may expect the same encouragement, guidance and opportunities that have been ours up to this point. I know that as we progress along our school years, more and more opportunities will be open to us. We are, indeed, fortunate to be living just when we are. The war is behind us and prospects for continued peace look much brighter. The world of science and economy is putting forth every effort to make our lives free from diseases and to increase our comforts and opportunities for a better future. Strange to say, it is the thought of all this that gives me a feeling of doubt. I can not help but wonder if I shall carry my part of the load—if I shall ever actually contribute anything to the betterment of society—if I shall be a citizen of whom you may be proud. It is my earnest hope that I may be such a person.

Now let me express my gratitude

to each of you who have contributed to our school days. We are grateful for the excellent teachers we have had and for their understanding and kindness. We are grateful to the school board and citizens as a whole for our good school buildings. We are even grateful for all our hardships because we realize that every obstacle we have overcome has better prepared us for the future.

Most of all, we are grateful to you, our parents, for all you have done to make this graduation possible. Thank you.

Mr. and Mrs. John Holmes and Mr. and Mrs. Clarence Jackson were visitors in Amarillo last week.

FREEDOM LABOR FROM ITS MASTERS

According to the best opinion, the much-debated Taft-Hartley Act will not be repealed, despite the efforts of the big unions and the support for total repeal given by the Executive branch of the government. It is forecast that changes in the law will be made, but these will be of a minor nature for the most part. Some of them will be of a purely technical character, to eliminate ambiguities.

Does this indicate that the present Congress is anti-labor, and is not concerned with the welfare of the man who works with his hands? It certainly doesn't. The current Congress, like most of its predecessors, is sympathetic to labor's aspirations. At the same time, the charge of labor leaders to the effect that the Taft-Hartley Act is a "slave-labor measure" simply cannot be substantiated.

Since the law was passed, major labor groups have been given substantial pay raises and other benefits. They have not lost a single solitary right which can be defended on any reasonable grounds. Of great importance, the law has given the rank and file of union members a far better measure of control over the actions and policies of the unions which they maintain than they ever

had before. Under the Wagner Act, the labor leader was a czar, and the working people who paid his salary took orders, or got out. The result was an intolerable amount of ruthlessness and racketeering.

The law, in fact, has done a great deal to free labor from its masters. No one claims it is perfect. But it comes nearer to perfection than anything that preceded it.

WHO IS TIRED OF FREEDOM?

This country has had freedom for almost two centuries. That freedom has permitted our citizens to mold their own destinies. As a result we are not only blessed with a fruitful life but have developed into a nation which more than any other, follows the Golden Rule in the hope of helping others.

But like a blight that threatens the mightiest stand of timber, socialism has been introduced in the United States. This type of governmentalism leads people to believe that they will be relieved of much of the burden of making a living—that the government will be able to produce and care for them. But no mention is made of the increase in taxation caused by greater government spending. Paying the tax bill has placed a constantly greater demand upon the citizen's pocketbook.

Individual opportunity has receded from its crest in this country. Have the people lost sight of the great heritage left to them? Are they like the boy who was given full freedom in the candy store and consequently made himself sick by abusing it? The American people are headed for a stomach-ache as they swallow bigger and bigger doses of socialism now being fed them in sugar-coated form by Washington politicians.

These eight preventable causes account for most of the farm fire losses: sparks on combustible roofs, defective chimneys, spontaneous combustion, improper use of kerosene and gasoline, unsafe furnace and stove installations, misuse of electricity and appliances, carelessness with matches and inadequate lightning protection.

If you have ever wondered how much water comes out of a hose, here's your answer. A half-inch hose with a nozzle delivers 200 gallons of water an hour at normal pressure. A three-fourths-inch hose with a nozzle delivers 275 to 300 gallons of water an hour. And the average lawn sprinkler head will spray 120 gallons an hour over the yard.

With Our EXCHANGES

ON DIVIDING THE STATE

All Texans have much pride respecting our State. We love its history, its achievements, its importance among the states of the Union. None of us would like to see it divided. Yet, we are convinced that if it were divided into four or five states, we would have much better government—more freedom from the great special interests that have an axe to grind. What are we talking about? Just this, it costs any man \$50,000 on up to make a vigorous, thorough, winning race for governor. Very few men have that much money to spend on any one race. If a man runs, somebody else must finance his campaign. The big interests are willing to do so. We believe that it is true that practically every candidate in recent years who has even blacked the board had the support of some one or more of the special interests. As a result, regardless of what they say, they usually go into office, when elected, under obligations to their financial backers. They may try to make themselves believe that they are not influenced by such things, but this would be against human nature. If this state were divided into four or five states men could make the race for the governorship and for other important state offices without having to rely upon the oil companies, or sulphur companies, or railroads, or other transportation interests, or any powerful corporation or interest whatsoever, to finance their campaigns. Men could then be elected to high office without being hogtied by any special interest. We would have more honest government and hence better government. Furthermore, we would have more votes, and hence more power in the United States Senate. It might be the part of wisdom for us to lay aside pride and sentimentalism and exercise a little more common sense in political and governmental affairs.—Lynn County News.

TRAIN CHILDREN TO SAVE

A wise money habit training program for children can be started with the very young ones. As we observe the apparent lack of thrift among the youngsters of the Snyder area, we are concerned with the future of such a community and nation.

As the child grows older, and his ability to understand increases, he can be included in the family plans for the saving, sharing and spending of family money.

Even the youngest member of the family should be given the opportunity to learn where the family money

comes from and how it must be spent. He should also be given the opportunity to earn a part of his money in addition to sharing the family funds through an allowance. We really prefer to hear the "allowance called a "share." A feeling that he is sharing in the regular family income creates a desirable feeling of security which the term "allowance" does not convey.

And to carry the training program to its logical conclusion, he should then be allowed to spend the money as he sees fit. He has earned the right to it. Experience—and older folks' examples—are the best teachers.—Scurry County Times.

HOPEFUL EXPECTANCY

One of the characteristics of a great many successful men seems to be a continuous attitude of hopeful expectancy; regardless of storms, bad labor conditions, adverse legislation, hostile government bureaus or poor publicity, they continue to see something good in the present or near future.

The very fact that they refuse to be discouraged seems to bring circumstances around to their side of the fence; and you can follow that trait in successful men from the dawn of history. Read the story of the Chaldean, Abraham, setting out to a new land, or Moses leading a people through a wasteland to a new home. How about Julius Caesar, the Roman, who was an epileptic and more than tripled the size of the Roman Empire. Savonarola, who created a great religious revival although he was later burned at the stake by his enemies? How about Disraeli? His political enemies came close to scuttling his career, but he added an empire to the British crown; and the genius Steinmetz, our own electrical wizard; and Edison.

Read of these men and you will be struck by the fact that they always overcame adverse circumstances, their thoughts were so much on what they wanted that they had no time to waste on thinking of failure.

It doesn't make any difference who or what you are, if you have the spirit, keep a level head and adopt the attitude of hopeful expectancy you will come a great deal closer to your goal than if you look for excuses; you know some folks are so busy looking for excuses for failure that they have no time to get their job done. If you are an employee, ask yourself which is the most valuable, an employee who argues over rights, rules and benefits or the one who goes cheerfully and hopefully along, doing his level best and actually earning his pay? Which one will be promoted? You know the answer. An attitude of hopeful expectancy is bound to pay off.—Scurry County Times.

CITY OF LOCKNEY

Mrs. Faye Messer, Secretary

THERE'S no getting around it, the average homemaker spends several hours a day in her kitchen.

With hot weather ahead, it's time now to make sure they're cool, comfortable hours.

One way to keep your kitchen comfortable all summer long, and to make meal preparation easier, is to use more low-cost, dependable electric service.

Use an electric range for the coolest cooking ever, or use dependable electric service to keep foods healthfully refrigerated, to run a mixer, or garbage disposal unit. Or, put an exhaust fan into the kitchen to keep cool air circulating throughout the room.

However you use electricity, you'll be using more of your best budget bargain today... low cost electric service.

Aiken News

By Mrs. M. B. Salmon

Rev. O. J. Welch preached at Aiken Methodist Church last Sunday night. Mrs. L. L. Scott, Mrs. Thelma O'Brien, Mrs. Lois Williams and Mrs. O. J. Welch visited Mrs. Cecil Cox and others last Tuesday afternoon.

Mrs. Bill Wesley and Mr. and Mrs. M. B. Salmon made a business trip to Floydada Tuesday. Mr. and Mrs. John Boggs and Johnnie recently visited in the home of Mr. and Mrs. Carl Chandler.

Mr. and Mrs. H. C. Copeland and children made a trip to Floydada Tuesday.

Messrs. Oscar and Clyde Lucas and Elmer Horton made a business trip to Lubbock last Wednesday.

The B. T. U. of Aiken Baptist Church was entertained Wednesday night in the home of Mr. and Mrs. Connie O'Brien, with a social. Cake and ice cream was served to the following: Rev. and Mrs. O. J. Welch, Jerrel and Cherie, Julia Monar, Mr. and Mrs. Floyd Compton, L. A. Leota and Virginia, Mr. and Mrs. Vernon Campbell and Carolyn, Mr. and Mrs. Lois Williams, Kenneth, Junior, Peggy and Jerry, Mr. and Mrs. Horace Seago and Charlotte, Mr. and Mrs. W. W. Buckner, Peggy and her cousin, Mr. and Mrs. Bill Wesley and Nita, Rev. and Mrs. Oran Smith, Wanda Mae and Everett Dorman, Mr. and Mrs. M. B. Salmon, Mr. and Mrs. Wiley Moore, Mr. and Mrs. L. T. Cox, Margie and Ruth, Mr. and Mrs. Elmer Horton, Mr. and Mrs. L. L. Scott and Sonny, Mrs. Bill Thompson and Tim, Mr. and Mrs. Johnnie Lee, Mr. and Mrs. Clyde Lucas and Linda, Mr. and Mrs. Oscar Lucas, Mr. and Mrs. Carl Chandler, Carol, Kathryn and Barbara, Mr. and Mrs. Roy Howard and Charlotte, Mr. Fred Musgrove, Mr. and Mrs. Bert Elam and Children, Mrs. Charlie Elam and Mary Bennett.

Charlie Andrews has returned home from Plainview hospital. He is much improved at present.

Mr. and Mrs. Fred Duval and Mr. and Mrs. Buck Kellison and Gail and Mrs. Charles Hammitt went shopping in Lubbock Wednesday.

Mr. A. P. Langfeldt's father of Dumas is visiting in the home of Mr. and Mrs. Langfeldt.

Mr. and Mrs. Floyd Compton and Virginia spent Thursday with Mr. and Mrs. M. B. Salmon.

Mr. and Mrs. L. T. Cox, Margie and Butch visited Mr. and Mrs. Robert Shoppa and family Friday night.

Rev. and Mrs. O. J. Welch, Jerrel and Cherie and Mr. and Mrs. Mrs. Fred Duval visited in the home of Mr. and Mrs. H. E. Seago Friday night.

Mrs. Floyd and Mrs. Fred, Mrs. Levi, Mrs. Obbie Dorman, Mrs. H. L. Stowe and Mrs. J. S. Marshall and others visited in the home of Mrs. Mattie Dorman last week.

Misses Julia Monar and Arenol King spent the weekend with Rev. and Mrs. O. J. Welch.

Jerrel Welch spent Saturday night with Sonny Scott.

Mrs. Cena Rodgers of Lockney spent Saturday night in the home of Mr. and Mrs. Bill Wesley.

Mr. and Mrs. Wiley Moore visited Mr. and Mrs. H. C. Copeland Sunday afternoon.

Mr. and Mrs. L. T. Cox visited friends in Plainview Sunday.

Mr. and Mrs. Floyd Compton, Leota, Nita Wesley and Peggy Williams were dinner guests Sunday in the home of Mr. and Mrs. Cecil Cox.

Mr. and Mrs. M. B. Salmon visited Mr. and Mrs. Robert Shoppa, Sunday afternoon.

Mr. and Mrs. Carl Chandler and family attended Ebbs reunion Sunday at Pauch.

Junior and Jerry Williams, Sonny Scott, Loy and Pat O'Brien and Carolyn Campbell spent Sunday with Jerrel and Cherie Welch.

Mr. and Mrs. Ivan Thompson visited in the home of Mr. and Mrs. Bill Wesley Sunday night.

Mr. and Mrs. Ernest Shuffield, Mr. and Mrs. Joe Williams and boys and Mr. and Mrs. Denver Shuffield visited in the home of Mr. and Mrs. Lois Williams Sunday.

The Vacation Bible School started Monday at Aiken Baptist Church with 42 pupils. Misses Julia Monar and Arenol King are helping Rev. and Mrs. O. J. Welch. The children are planning a program for Friday night. Everyone is cordially invited.

Mr. L. T. Cox and friends of Plainview left Monday for a vacation in Arkansas.

Miss Wanda Dorman and Bobbie spent Monday night with Mr. and Mrs. J. S. Marshall.

Mr. and Mrs. Jack O'Conner and Mr. and Mrs. M. B. Salmon visited in the home of Mr. and Mrs. Bill Wesley Monday night.

Mr. and Mrs. Luther Manning and two daughters of Arkansas are visiting Mrs. Mattie Dorman.

Mrs. Floyd Compton is receiving treatment at Plainview hospital this week.

Mr. and Mrs. Charlie Hasting's carried their grandson to Plainview hospital Monday for treatment.

Mrs. S. A. McGowan and Mrs. T. R. Weathers and Linda went shopping in Amarillo Tuesday.

Mrs. J. S. Marshall received treatment Tuesday for burns at Plainview hospital.

Miss Virginia Compton of Lubbock come home Tuesday night and will return Thursday morning.

CHARLIE ANDREWS IS IMPROVING

Charlie Andrews of Aiken is able to be up and is showing some improvement now after receiving painful injuries when a tractor ran over him about two weeks ago. He fell under the tractor while trying to stop it and the wheel passed over his chest. His injuries included two broken ribs and internal injuries. He was treated at the Plainview hospital.

Mr. and Mrs. E. L. McNutt and Bonnie Lou of Amarillo visited Mr. and Mrs. F. U. Payne Sunday.

Public Service Co. Sponsors Radio Network Broadcast

The Southwestern Public Service Company has announced the inauguration on June 5th of a 14 station radio network to broadcast the company's new program, "Hymns Of The World." The 14 stations are located in the Texas Panhandle, New Mexico and Oklahoma and the broadcast will be heard each Sunday at 12:45 p. m.

"Hymns Of The World" is an entirely new program featuring John Charles Thomas and The King's Men. This program has never been heard in this region and it will be an ex-

clusive presentation of Southwestern Public Service Company.

The program will be originated at KGNC, Amarillo, and fed to the other outlets on the network over lines provided by the Southwestern Bell Telephone Company. It is believed that this is the first time that a network of this type has been used by an advertiser in this area.

Stations which will carry the new program are: KHUZ, Borger; KXIT, Dalhart; KDDD, Dumas; KGNC, Amarillo; KPDN, Pampa; KPAN, Hereford; KVOP, Plainview; KVOW, Littlefield; KICA, Clovis; KGFL, Roswell; KSPV, Artesia; KAYE, Carlsbad; KGYN, Guymon; and KFYO, Lubbock.

Wally Boren, Columnist, Thinks Our Mr. Mahon Is Doing A Right Good Job

(Note: The Beacon recently received the following letter from Wallace Boren. Mr. Boren is a famous columnist, author of "Wally's Wagon," which appears in Sunday newspapers all over the nation. It was news to the editor that he is a native of West Texas.)

May 31, 1949

Mr. Edgar R. Hays, Editor
The Lockney Beacon
Lockney, Texas

Dear Mr. Hays:

This is a sort of "man-bites-wrongdog" letter. It is a good American custom to write your congressman asking a favor or demanding that he do something. Now when someone writes not to his own congressman, not to the other fellow's congressman but to the other fellow's congressman's home folks, there must be a reason!

And there is. I was born in your congressional district and while I haven't lived there in quite a while, I get homesick for West Texas. So when the missus and I were in Washington recently, we called on George Mahon, your congressman. It was Saturday afternoon, but he was up to his eyes in work there at his office. All good congressmen are frightfully overworked. Yet George Mahon acted glad to see us, treated us like old friends instead of strangers and took half an hour of his time to tell us what was happening in Congress and how he himself felt about the big questions he has to face.

When we were out in the hall again, my wife said to me: "There ought to be some way we could repay Mr. Mahon for the time he gave us. We've profited from the visit; but all he gets is a setback in his work."

"We could write and thank him," I suggested.

"No good," she came back. "He'd just have to take more time to read the letter."

"Suppose I wrote some the papers in his district and told them they had a man here to be proud of?"

"Okeh," she agreed. "But tell 'em I'm proud of him and I'm a native of California. That will be news. It is no news to anybody to find one Texan proud of another!"

So that's how this letter came about.

Sincerely,
Wallace Boren

First Gasoline Tractor

Once around and then to bed was the last "pull" for the first gasoline-driven tractor ever built in the United States. The 19,000 pound agricultural mechanical giant shown above, the Oliver-Hart-Parr, was recently presented to The Farmers' Museum of Cooperstown, New York. Built in the winter of 1902-03 by Hart and Parr at Charles City, Iowa, the tractor has two horizontal cylinders. Gasoline is ignited through a make and break ignition system. Oil circulating through the huge stack acts as a coolant. Since no spark plugs are used, a 1,000 pound flywheel is used to keep pistons in motion during misfiring. After making the "final run" . . . pulling the ancient O-TE-SA-GA Omnibus carrying visiting 4H Club girls . . . the Oliver-Hart-Parr was assigned an honor spot in the Cooperstown Farmers' Museum Hall of Fame.

Tech Building Program Will Begin Soon

Lubbock—Money obtained from the college building amendment approved by Texas voters will be used speedily by Texas Technological college.

Members of the board of directors will accept bids June 11 in Fort Worth on \$2,800,000 in bonds issued under

insects that come in contact with the closet surface. Space sprays last only a short time.

DDT solutions may be sprayed lightly on woolen clothing without injury to the fabric. It's also good for protecting clothes hanging in closets. Moth balls, flakes or crystals are advised for clothes stored in tight bags, trunks or other containers where a fumigating effect is desired, Miss Routh concludes.

terms of the amendment. At the same time they will consider preliminary plans for addition of two wings to the Administration building. Directors recently instructed a contract with Wyatt C. Hedrick, Fort Worth, be drawn for the plans.

Tech officials hope to erect with the funds two wings to the Engineering building and additional space for the Home Economics division. It also is hoped that funds will extend far enough to secure a new science building.

Texas Tech during the past two years has erected four new dormitories on the campus to double capacity for student housing. The buildings cost about \$4,000,000. The new Jones stadium, with permanent seating capacity of 16,800, was dedicated in the fall of 1947. The structure cost about \$425,000.

Sponsors Predict That Gilmer-Aiken Bill Will Put Texas Among Top Ten

AUSTIN, Texas June 6.—Texas will soon be among the top ten states in education.

Enactment of the three Gilmer-Aiken bills into law provides the vehicle by which the state will climb from its low rank, it was declared here today by Charles H. Tennyson, public relations director of the Texas State Teachers Association. The organization led the lengthy legislative battle for re-organization of the public school system.

"These measures pave the way for more classrooms and more and better teachers, as well as providing for more equitable distribution of the cost and revising the top level administration," Tennyson declared.

"Our children will receive a better education. As a result, our state will benefit."

Tennyson pointed out that schools which fail to meet the minimum requirements of teachers' and administrators' salaries will not only fail to receive state aid provided in the new laws other than the per capita apportionment, but will be dropped from the accredited list.

There are now 42,500 teachers and 4,000 principals and superintendents in the public school system.

"The new laws pave the way for the addition of 1,500 teachers as soon as physical facilities can be made available."

"This will relieve much of the classroom congestion which has made for sub-standard education in many of our schools."

The new salary scale for teachers and administrators will do two things to provide Texas with a superior educational system, Tennyson also pointed out.

"Texas will be much more attractive to outstanding teachers from all parts of the country," he said. "Too, the additional pay teachers can get for holding masters degrees will send thousands of them to school to get the higher degree. The greatest enrollment in many years is expected by most Texas colleges and universities this summer in their graduate divisions."

The minimum salary for teachers holding bachelors degrees was increased from \$2,000 to \$2,400 annually. Under the new bills, they get \$54 a year additional for the past twelve

years of teaching. That makes a maximum salary of \$3,051. The old ceiling was \$2,655.

Teachers holding masters degrees will have a minimum salary of \$2,628. The minimum was \$2,232. Their credit of \$54 a year additional for each year of teaching experience now continues for twenty-six years instead of twelve. That makes a maximum salary of \$4,032.

In addition, the law was revised to allow school districts to supplement the salary scale set by law. Under the old statutes, districts receiving rural, or equalization aid, were forbidden to add to the specified salaries. Furthermore, districts may employ more teachers than allotted under the law if they desire to do so.

Urge Giving Of Surplus Wheat To World Needy

College Station—The surplus wheat crop now being harvested in Texas offers an excellent opportunity for Texans to give gifts in kind to the starving peoples of war-torn countries, Dr. Dan Russell, State Chairman of Christian Rural Overseas Program, pointed out today as wheat began moving to market.

"We can relieve the acute wheat shortage here by filling up the empty stomachs in Europe with bread," Dr. Russell declared.

CROP's purpose is to feed the hungry, speed rehabilitation, and build a better world, according to Dr. Russell. This can be better done with commodities that sustain life and provide employment. Especially needed are whole grains. Wheat is a MUST if starving peoples in both Europe and Asia are going to be fed.

"Have you ever been desperately hungry? Have you ever been too weak from hunger to perform even a simple labor task? There are millions of your fellow human beings all over the world who are," Dr. Russell answers the question, "and from a grateful heart and out of the abundance of a bountiful wheat yield the people of Texas will answer this urgent need of the starving men, women, and children of the war-ravaged countries."

For Moths Clothing
The out-of-the-way floor cracks and baseboards where woolen lint and hair may have collected. Such places are often fertile breeding places for moths. So you might get them all out at one time while you're busy putting the woollens in storage.
Clean out the clothes closets and spray the walls, woodwork baseboards and shelves with DDT. About a half pint will be needed for the average sized closet. Miss Routh suggests using a residual oil spray, since the water spray leaves a white deposit where it's applied.
The residual sprays are effective over a period of months in killing

Oiled dustcloths and mops do a good job of picking up the dust, but should never be used on wax surfaces. An oiled cloth used on furniture finished with wax makes the wax sticky and dingy wax makes the oil softens it up, just as an oil mop does on a waxed floor.

Mrs. H. Hearne of Dallas visited her son and family, Mr. and Mrs. R. L. Hearne here the first of the week.

Methodist Notes

We appreciate having a large crowd at church our first Sunday in this new Conference year. But we still think it could and should be much larger. Help us to have 200 in Sunday School Sunday.

Suppose you had only one more Sunday to spend on earth. How would you spend it? I would hate to spend it in the wrong way, wouldn't you?

The Daniel family is working and praying for a great year's work in our church. We want each of you to help us. We want to win 100 people for Christ this year. We want an average attendance of 200 in Sunday School. We want each family to give something to the Church each week, or month. We want every member loving, one another and working together as God's children.

We Methodist take a vow when we join the church to uphold our church with our presence, our prayers and our gifts. We make this vow to God. Let us keep it.

Thoughts for the week:

The Church needs you, but you need the church far more.

It is not how long we live, but how well we live, that counts.

"It is more blessed to give than to receive."

Newton S. Daniel, Pastor

Mr. and Mrs. Fred Beall of Amarillo spent the week end here visiting his parents, Mr. and Mrs. Walter Beall.

Rowland Completes
Fertilizer Plant

A new Plains fertilizer industry is taking shape in Plainview, where the Rowland Co. has announced completion of a new \$20,000 plant for the manufacture of All-Crop Nitrow, the trade name of a 25% Nitrogen low-cost liquid fertilizer. With its daily capacity of approximately 20,000 gallons of Nitrow, the Rowland Co. plant will help to overcome the local shortage of nitrogen fertilizer. In liquid form, NITROW is ready for application through irrigation water to growing cotton, maize, and other area crops. Patterson Grain Co. is the local distributor.

The importance of nitrogen as a plant food has long been recognized. For higher yields, better quality, and earlier maturity, nitrogen is a most essential fertilizer component. This has been repeatedly evidenced by the big increases in yields of crops following alfalfa and other nitrogen-producing legumes. Other plant foods, particularly phosphorous and potash, must be added from time to time to keep the soil in proper balance, but nitrogen is the responsive factor in all types of plant life. Ammonium nitrate, which is a bagged form of nitrogen fertilizer that corresponds to the Rowland Company's liquid nitrogen, has a good record in the Plains area on sorghums, cotton, wheat, and truck crops.

ALL-CROP NITROW will be distributed to dealers and farmers in 50 gallon steel drums, for application directly to the irrigation water by means of a metering tube placed in the bung of the drum.

It is easier for the farmer to follow his fertilizer distribution down the rows with ALL-CROP NITROW, for when it combines with irrigation water, it turns the water a milky color, and gives off an ammonia odor. The Rowland Co. estimates that the price of this new liquid nitrogen will be 45c per gallon to the farmer, plus a drum deposit.

The average application will be from 10 to 15 gallons per acre. Many farmers will make two applications to cotton and sorghums, of 8 to 10 gallons each. In this way, the plant is fed more continually, with the second application being made about blooming or booting time, when the pull on reserve plant food is heaviest. A few drums of this material were used on maize by one farmer west of Tulsa last season. Where he used no nitrogen, it took 14 rows to fill the combine hopper when harvesting, whereas 8 rows filled the same hopper where ALL-CROP NITROW had been added to the irrigation water.

Rev. Marcus Rexrode of Dallas visited with his parents, Mr. and Mrs. W. S. Rexrode here Tuesday night.

A cairn is a pyramid of rough stone used as a landmark or memorial.
