

gherty Man Lead Floyd nty Census

C. Johnston of Daugherty was selected as crew leader for county supervisor for county in the forthcoming census. It was announced this week by L. D. Whiteley of Lubbock district supervisor. Johnston is a Texas Tech graduate and a former air force pilot. He will be in charge of the census work pertaining to the county and will recruit, train, and supervise all enumerators or field workers. He will start his work on March 8th. Each time he will report to the Lubbock district office for a training course. He will return home March 10th and at that time should be qualified to apply applications for the enumerators jobs. Whiteley said that those enumerators jobs should be filled sooner than March 15th. Mr. Johnston will not be in the districts of the county therefore, will not know how many enumerators to hire. Enumerators will start their work on March 28th. The actual work will start on April 1st.

Annual Meet For April 15

Announcement has been made by President Mal Jarboe of the annual meeting of the Floyd County Rural Electric Co-operative to be held on April 15. An unusual interest is the fact that this meeting is being planned and will be carried out by members themselves. The Board of Directors having selected members from each district to serve as the annual meeting planning committee. To date the committee has met twice and formulated plans for a very interesting annual meeting under the direction of A. H. Kreis, who was elected chairman. The meeting will be held in the American Legion Hall, Floyd.

Features on the program include local talent of several districts which will be announced at a later date. Usual reports of the district secretary, and manager reflect the progress made by cooperative in the previous operation, plans for the future, etc. At the present time the cooperative is in a construction program to serve additional districts and irrigation loads means replacement and some existing facilities. To date the Cooperative is working in parts of seven counties with service extending to 2,200 members.

Yd Jackson Hurt en Horse Falls

Yd Jackson received a bad broken left arm Tuesday morning when a horse fell with Floyd was moving some from a field on the Tom farm near Lone Star. His horse apparently hung on a wire gate which was on the ground and a flip. Floyd fell clear of the horse but landed on his arm, breaking the bone in the elbow. He received treatment in the new hospital.

Chapter Wins d in Contest

Local FFA chapter was entered in a livestock judgment at Kress last Saturday. Doyle Jeffcoat, DeJuan and, Eddie Fortenberry. Team won second place in judging and tied Plain for third place in the entire. One class of breeding fat barrows, fat steers, and lambs were judged. The team was won by Tulla with on placing second.

Reeves' Contract Extended; Vote Set For April 1

The board of trustees of the Lockney Rural High School district in a meeting last Thursday night extended Supt. Sidney Reeves' contract for two years after the present school year is ended, it was revealed this week. Mr. Reeves has been with the local schools as superintendent for three years and previously served the school as high school principal. The board called an election to select three trustees and set the date on the first Saturday in April, which is April 1. The terms of O. H. Huckaby, R. W. Smith and Leslie Ferguson expire this year. A nominating committee composed of T. B. Mitchell, E. R. Harris and N. O. Wright was appointed to nominate candidates to be placed on the ballot. Other names may be filed with Supt. Reeves at the high school, should anyone else want to run for the vacancies, he said. The board elected Mrs. Mary Glenn Degge and Miss Dorothy Rook to places on the faculty for the remainder of this school term. They fill the vacancies created by the resignation of Mr. Grimmard, band director and the leave of absence granted Robert Foote, who is completing his work at Texas Tech. Horton Morris, science teacher has been relieved of a portion of his duties and will direct the band for the remainder of the school year, Supt. Reeves said. The board authorized Supt. Reeves to complete negotiations for a fire escape to be placed on the high school building. This was necessary to comply with a law passed by the last regular session of the Texas Legislature. J. J. Harris was elected by the board to handle the school census in the original Lockney district this year. Trustees of each of the other districts will employ someone to take the census in their district, Mr. Reeves said.

Appeals Court Reverses Floydada Drowning Suit

A civil suit seeking damages in the 1948 drowning of 14-year-old H. A. Copeland, Jr., must be tried in the 110th District Court at Floydada as the result of a decision handed down this week by the Seventh Court of Civil Appeals at Amarillo. The Floydada court last fall had ruled that the petition of the drowned boy's parents against Mrs. W. M. Massie (in lieu of the latter's husband, since deceased) did not present cause for action. The youth drowned while swimming in a water-filled caliche pit on property owned by the Massies. The complaining petition alleges that the pit comes under the "attractive nuisance law" and that Massie was negligent in having such an attractive nuisance on his property.

Frank Dodson Asks Justice Peace Office

Frank Dodson of Lockney announced this week that he would be a candidate for the office of Justice of the Peace, Precinct 2 and 3. Mr. Dodson has been a resident of Lockney for many years and is well known by the people of this area. He will appreciate your vote in his race for this office and expects to contact most of the people of the two precincts.

Landrum Post To Meet Tuesday

The Landrum Post of the American Legion will hold regular meeting Tuesday night at the Legion Hall. Several matters of importance are to be voted on and all members are urged to be present. Post Commander H. B. Mosher said.

Will Enter State Meet

The Lockney High School Longhornettes, shown here with Coach Curtis Kelley will enter the state high school girls basketball tournament at Waco beginning Thursday of next week. The girls won this right by winning the championship of District 18-B in a tournament at Spur recently. The girls

Frank Dodson Asks Justice Peace Office

will probably be one of the starting guards in the state tournament. Probably accompanying the girls, other than Coach and Mrs. Kelley, will be Mrs. J. B. Seale, Mrs. M. W. Wiley and Mrs. Earl Norman. The group will leave here Wednesday morning. Pairings will be made Friday at 6:00 p.m.

New Baptist Church Building

Pictured here is the new building of the Lockney Baptist Church which was completed this week in which services will be held for the first time Sunday morning. The building is of pumice tile and brick construction and has approximately 14,000 square feet of floor space. In addition to regular services Sunday morning and evening, a special service will be held Sunday afternoon starting at 2:30. A large crowd of both local people and visitors is expected to be present at the Sunday afternoon service.

Large Crowd To Meet First Train Here Sun. Night

A large crowd is expected to be on hand Sunday night to meet the first train on the Fort Worth & Denver road to make the new fast train schedule. The first regular run on the new schedule will reach Lockney Sunday night at 10:12. The train will come through here Sunday morning on its way to Lubbock but will not carry passengers since the train will be on its way to Lubbock to start the run. A number of passengers from Plainview will board the train here also, it was reported. The train is scheduled to reach Lockney each night at 10:12 going east and come through here at 8:39 each morning westward. The train will run seven days a week. Local agent C. E. Childers said Thursday that he had been allowed two pullman reservations on the first train and that one had been made so far. Mayor G. M. Brunner issued a proclamation this week, pointing out that the FW&D was attempting to give this area good service, and calling on the people of the community to meet

Floyd County 1949 Crop Totals 70,759 Bales

Floyd County produced the greatest cotton crop in its history in 1949, announces Robert H. Gibson. A total of 70,759 bales were ginned during the 1949 season. This is almost twice as much cotton as the next highest production which was 42,801 bales in 1926. Most of the gins in Floyd County have completed the ginning season, cleaned up the yards and do not intend to start up again until the 1950 cotton season begins, Gibson said. The 1949 figures do not exactly correspond with BAE figures released a few weeks ago, however the 70,759 bale figure was obtained by direct contact with the ginners and is over 99 percent correct, states Gibson. It is believed that this is an accurate estimation of the 1949 production because it is believed that as much or more cotton grown in the county was ginned elsewhere than was brought into the county. Mr. and Mrs. R. L. Profit of Capulin, N. M. have been visiting for several days in the home of Mr. and Mrs. J. B. Johnson.

STAPP INFANT DIES

Funeral services for the infant son of Louis Ray and Dorothy Fay Stapp were held at 3:00 o'clock Wednesday in the Carter Funeral Home. The baby died Feb. 28. Services were conducted by Elder Leroy Nelson. Interment was in the Lockney cemetery.

James C. Roach Awarded Flying Cross; Air Medal

Captain James C. Roach, of Lockney, who served with the United States Marine Corps during World War II, today was awarded permanent citations for the Distinguished Flying Cross with one Gold Star and the Air Medal with six Gold Stars. Captain Roach, Route 2, Lockney, was decorated for his heroic achievements in the face of heavy opposition while serving as the pilot of a Marine Fighter plane against the Japanese in the Philippines and Ryukyu Islands. Captain Roach's citations were forwarded to him by Colonel E. L. Hutchinson, USMC, Director of the Eighth Marine Corps Reserve District. Captain Roach is a member of the Marine Corps Reserve.

Large Crowd Expected At Baptist Church Sun.

First service in the new Baptist Church Building will be held Sunday and indications this week were that a large crowd would be present at all services of the day and especially at the afternoon services starting at 2:30 p. m. More than 100 invitations have been sent to former members of the church and many of them plan to be present Sunday. Former pastors of the church have been invited to be present and appear on the afternoon program. Letters received this week indicated that Rev. C. H. McCarty of Lubbock and Rev. A. L. Shaw of Happy would both be present. Rev. R. E. L. Muncy, although not a former pastor of the church, has been invited and also will be present. Possibly other former pastors will be able to attend. All people of all churches of this area are especially invited to attend the afternoon service, the invitation committee said this week. Opportunity will be given before and after the service to inspect the building. Basket Lunch At Noon Members of the church are asked to bring a basket lunch and at noon the lunch will be spread on the outside if weather permits and if not then in the educational wing of the building. Tables are being built this week and preparations are going forward for this event under the direction of Horton Howell, Marvin Cox and Harmon Handley, the entertainment committee. Rev. E. J. Cobb, the local pastor will preach at the Sunday morning service and Rev. F. E. Swanner, district missionary of District 9, Baptist General Convention of Texas, will preach at the Sunday night service.

Red Cross Drive Is Underway

Plans for conducting the annual Red Cross fund drive March 1 to 31 are fairly well organized on this the second day of the campaign, Edward Wester, chairman, announced this week. Solicitors have been urged to complete the campaign within two weeks if possible. Division chairmen to serve throughout the county were named by Mr. Wester last week. "All May Help" is the slogan for the campaign, Mr. Wester believes that if every one will remember the slogan and act accordingly it will be an easy matter to raise the county's quota of \$2,200. The 1950 goal is slightly higher than last year. This is attributed to a deficit in the reserve fund; expanding of the National Blood program; increased service to servicemen and their families; and no change in the buying power of the American dollar.

Floyd Farmers Seek Program Transfer

QUITAQUE—A petition circulated recently in the northeastern part of Floyd County, adjacent to Briscoe county, was signed 100% by farmers under the Cap Rock, requesting transfer into Briscoe county agricultural district. The petition has been sent to College Station, and a hearing is set for March 1. A meeting held at the Fairmont church last Thursday night drew a large attendance and a committee was elected to appear at the hearing. These men are Ford Johnson, Hayden Boggs, Fred Skinner and O. C. Payne. W. J. Rice will drive them to College Station in his car. Reasons given for the request of the transfer of the farm program were the inaccessibility of the county seat, and the fact that most of the business of the area in question is transacted in Briscoe county. The cotton is brought into Briscoe county to be ginned and other produce is marketed here, mainly because of road conditions in that part of Floyd county.

Will Enter State Meet

The Lockney High School Longhornettes, shown here with Coach Curtis Kelley will enter the state high school girls basketball tournament at Waco beginning Thursday of next week. The girls won this right by winning the championship of District 18-B in a tournament at Spur recently. The girls

"Preservation of Peace", Mahon's First Objective

"The preservation of peace should be the number one objective of Congress and the American people," Congressman Geo. Mahon, Representative of the 19th District, said this week in Washington.

The statement followed a series of meetings of top military leaders with the Committee on Military Appropriations of which Mahon is chairman.

"Despite the fact that within

recent months Russia has developed an atomic bomb and overrun China, the over-all Military Program for this country has not been greatly changed," Mahon continues. "Our whole problem of national defense should be re-examined in the light of these events. It is true that the Military Forces of this country on land, sea and in the air are in a better state of readiness for immediate combat now than at any time since the demobilization following World War II, but our forces are smaller than last year."

On account of the inadequacy of funds and on account of the impact which a large military

establishment would have upon the economy of the United States, this country is not undertaking to maintain a large military force in being that could wage sustained warfare, according to the Congressman. Yet the findings of Mahon's committee show that unless the rate of airplane procurement requested in the budget this year increased in succeeding years, the United States Air Force and naval air arms will become less modern at a rapid rate.

At the request of Congressman Mahon, Gen. Dwight D. Eisenhower, military expert and President of Columbia University, came down from New York to counsel with the Committee. General Eisenhower feels that the budgetary requests of the President for the Army, Navy and Air Force are not fully adequate to place the United States in a state of readiness for war. But he does not advocate an increase, as he feels that the United States cannot afford larger military spending and that certain "calculated risks" must be taken.

At this time one third of our tax dollars are being spent directly on the Army, Navy and Air Force. In commenting on defense spending, Mahon said:

"The Military people have never won any medals for economy but there is less waste and more economy in our military program now than in any time within a decade. Further progress in efficiency must be made."

The Congressman indicated that the top military leaders do not think that an outbreak of war with Russia is likely within the next couple of years. Their fears, based on the fact that Russia is feverishly building up her submarine fleet, navy, air forces and army, seem to be that we will inevitably have trouble with Russia at a later date unless some way can be found to establish good will between the United States and Russia.

Among those appearing before the Committee in recent meetings are General Omar N. Bradley, chairman of the Joint Chiefs of Staff; Louis Johnson, Secretary of Defense; the Secretaries of the Army, Navy and Air Force; and the members of the Joint Chiefs of Staff.

Democratic members of the House Military Appropriations Subcommittees are Representatives Mahon, chairman, Harry R. Sheppard of California and Robert L. Sikes of Florida. The Republicans on the Committee include Representatives Albert J. Engel of Michigan and Charles A. Plumley of Vermont.

The Committee handles all appropriations in the House of Representatives for the office of Secretary of Defense and for the Army, Navy and Air Force. The Committee has been holding hearings for the past seven weeks in an effort to get ready to present the Military Appropriation measure to the House for consideration about April 1.

WHAT DOES

"Drug Store"

MEAN TO YOU?

TO THE KIDS IT MEANS: soft drinks, school supplies and candy.
TO THE WOMEN IT MEANS: cosmetics and magazines, and TO THE MEN IT MEANS: cigars, pipe-cleaners and shaving cream.
TO MOST PEOPLE, it's a real neighborly place where they can meet their friends and where the druggist's friendly smile means "welcome."

BUT TO ALL FOLKS, the drug store means dependable, precise compounding of their prescriptions and medicines for every ailment.

Look to your druggist with confidence.

For your family's needs, necessity, comfort or luxury—come to the store that means everything for everybody.

Making of Table Cloth Demonstrated

Club members attending the training meeting at the Extension office kitchen on Monday afternoon were Meses Vestal Hastings of Lone Star; Glen Pool, Harmony; W. E. Grimes, Friendship; Herman Thornton and Wade Deavenport, South Plains; Wilson Edwards, Starkey; D. D. Shipley, Homebuilders; R. H. Tinsley, Sterley; Sam Lide, Dougherty; Ben Brandes, Providence; Arion Miller, Sand Hill; and Clyde Henderson, Center. Making a darned net tablecloth was demonstrated by Miss Leila Petty, County Home Demonstration Agent. This demonstration will be repeated by these leaders at their May club meetings.

50,000 in Texas Available For Military Service

AUSTIN, Feb. 16.—Texas draft boards added 2,382 men during January to the state's pool of manpower available for military service in case of war or emergency.

This brings the group of manpower in 51,427. Colonel Paul L. field, state director of Service, reported today.

The draft boards classified 260 men in January for time and re-classified cause of change of status the draft law. Of the 12 classifications in January were classified in a defense.

The local boards 6,038 youths who reach 18th birthday during Colonel Wakefield said each month usually above 5,000.

January registrations totals on draft board 530,538. Of this number boards had classified the end of January.

7-Step Cotton Program Is Big Asset To Farmer

COLLEGE STATION — The south-wide 7-step cotton program, because of the reduction in cotton acreage, will receive even more consideration than in the past, says Fred C. Elliott, extension cotton work specialist of Texas A. & M. College. The reduced acreage, he says, means a greater concentration on better methods for greater production from fewer acres, for now, it will be the efficient producer who will continue to make a profit from his cotton operations. The seven steps include fitting cotton into balanced farming; taking care of the soil; using the best variety; making your labor count; controlling insect and diseases; picking and ginning for high grade, staple and varietal value. Basically, says Elliott, this is just a good farming program that individual farmers can carry out on their own farm. It is not new but does emphasize the basic practices and methods that can lead to greater and cheaper production per farm and at the same time the soil can be improved and built up. Elliott says the Texas Extension Service has had the active support of all allied cotton interests in the state and this cooperation on the county and state level has been responsible for making the program successful. Last year, more than 7,000 farmers in 87 counties cut their losses from root rot by planting legumes, principally sweet clovers. In 146 counties, farmers planted cotton following phosphate and legumes and barnyard manure was used on nearly 8,000 other farms in 124 counties in the state. Elliott says cotton farmers are planting better seed. Higher yielding varieties of superior fiber are being bred by the Agricultural Texas Experiment Station and the seed breeders of the state. In 1949, nearly 600 one-variety associations produced better cotton on approximately 5 million acres. Mechanization has saved labor and has cut the cost of production for the cotton farmer. The rotary hoe, the stripper and mechanical picker have been widely and successfully used. He reports that farmers last year really went after the bugs. Cotton farmers used more than 50 million pounds of insecticides, as dusts and sprays, on 5 million acres of cotton. This insect control program was a contributing factor to the high state average yield in 1949. The best per acre yield since 1894. He reports that more than 100,000 cotton farmers in 167 counties were members of groups that received free classing service under the Smith-Doxey classing program. Elliott expects even greater achievements for the coming years, for he says the program is now well organized and all interested groups and individuals know and recognize the value of the program to the cotton industry. He believes that per acre yields can be increased even above the 1949 figure if the farmers will continue to use the best known production methods and practices on their farms. Honey bees are sold by the pound.

Plans for Annual Meeting Being Made

The Annual Meeting Planning Committee met Saturday afternoon, February 18th, at the headquarters office in Floydada to make further plans for the annual meeting of the Floyd County Rural Electric Cooperative, which is to be held April 15th. This committee was appointed by the board of directors and includes members from each voting district. Those on the committee are: A. H. Kreis, Jack Stansell, Mrs. Lee Rushing, George West, H. E. Frizzell, Mrs. C. L. King, J. C. Eiring, J. S. Leach, A. T. Pratt, Mrs. S. G. Appling, Mrs. R. L. Nichols, Charley Battey, Everett Miller, Mrs. Carrick Snodgrass.

Mr. and Mrs. Charles Whitfill and Mary Lane of Silverton, and Mr. and Mrs. Earlie B. Johnston and daughter returned Tuesday from Corpus Christi. They visited Mr. and Mrs. Ed Whitfill while there.

Engineers at Tech Plan To Drill

LUBBOCK—Here's a story with a man-bites-dog angle. Out at Texas Technological college they're getting ready to drill an oil well, and the Tech department of petroleum engineering hopes it will be bone-dry. Prof. W. L. Ducker, head of the department, says work on the pre-determined dry hole should begin within the next 60 days, maybe sooner, if casing is acquired before then. The drilling will be carried on by a contractor who has donated the operation on behalf of the petroleum industry. A jack-knife derrick with a regular rotary drilling unit will be used for the drilling and moved off location when the depth has reached about 2,000 feet. When drilled and cased, the well will be cemented and cleaned out. After the tools are moved, a steel derrick will be placed over the hole to run tubing and pumping rods into the "well." "There will be no attempt to find oil—so we won't even 'drill the plug,'" Professor Ducker said. "The bottom of the pipe will be closed off from any formation to protect water sands and other strata from adulteration by water from other levels." The entire project will be carried on in strict accordance with the Texas Railroad Commission rules in setting the pipe and cementing, he added. After the drilling is finished and the derrick has been erected, the hole will be used to set up pumping problems, run bottom hole pressure and temperature measurements, bottom-hole sampling and duplicate similar oil field techniques. "But what will you do if the well does turn into gusher, or at least a producer?" he was asked. "If we thought there was any possibility that we might strike oil at that depth, we wouldn't go that far," he answered. The wished-for dry hole, Texas Tech No. 1, will be drilled on the Tech campus north of the present Petroleum Engineering building.

Service at Sand Hill School Sunday

Because of the funeral of Mrs. W. B. Ferguson on Sunday, Feb. 26, the regular fourth Sunday services at the Sandhill School were postponed. These services will be held at the school house on Sunday, March 5, beginning at 2:30 Mrs. Bennie M. Rose will tell stories of the Bible to the children. Preaching services will start at 2:45. All are urged to attend. Mrs. Rose said. Special singing is planned for the service. Alligators cannot swallow unless completely submerged.

Saturday Deadline For City Filing

Saturday is the last day a name may be filed for a place on the ballot in the city election to be held April 4. City Secretary Faye Messer said this week. Three aldermen's terms expire this year. They are J. D. Wood, J. D. Copeland and Lloyd Wofford. Mr. Wood has filed for re-election but no one has yet filed for the other two vacancies, Mrs. Messer said.

Floyd Brotherhood Meets Here Monday

The Floyd County Association Baptist Brotherhood met at the Lockney Baptist Church Monday night of this week. This was the regular quarterly meeting of the organization.

Rev. Hope A. Owen, pastor of the First Baptist Church, Plainview, was the speaker of the evening. He spoke on the need of men in the promoting of the Christian religion.

Brice Allen of Mount Blanco, president of the associational brotherhood organization, presided during the meeting. A quartet from the Lockney Methodist Church composed of Ike Johnson, Bob Miller, Oliver Holmes and C. L. Record, sang two songs.

More than 100 men were present with representatives from the following churches answering the roll call: Ralls, Floydada, Crosbyton, Flomot, Mount Blanco, Plainview, Lakeview, Silverton, Lockney, Matador, and Pansy.

Supper was served to the group at the grade school cafeteria and they returned to the church for the evening program.

Brunner Elected Director of Texas Safety Council

Mayor G. M. Brunner of Lockney has been elected a director of the Texas Safety Council, it was announced this week. Pierce P. Brooks, president of the council, whose headquarters are at Dallas, wrote Mr. Brunner as follows:

"The council and citizenship of Texas appreciate your cooperation and loyalty in this effort directed towards conserving the lives of citizens."

Membership on the board of directors is a distinct honor and carries a great responsibility in the community.

Former Lockney Man Dies at Santa Fe

Lee Wilson, son of Tom and Lula Wilson, early day pioneers of Floyd County, passed away Feb. 13 in Santa Fe, New Mexico where he has lived twenty-five years. He lived in Lockney until moving to New Mexico. He had been in poor health for several years prior to his death.

He is survived by his wife, Lula Smartt Wilson, ten children and five grandchildren. All except one live in Santa Fe. Also surviving are three sisters, Mrs. Annie Smith of Rogers, Ark., Mrs. Alta Wyly of Friona, Mrs. Everett Jack of Friona, and one brother, James Wilson of Santa Fe. A niece, Mrs. Arlon Miller, lives in this area.

Lockney Students On Tech Honor Roll

Four Lockney students were among the 311 students whose grades during the fall semester put them in the upper five per cent of the Texas Technological student body, according to W. P. Clement, Registrar.

William Teuton, Business Administration, Lubbock, formerly of Lockney, was one of the forty-two students to have an all "A" report.

Easton Blendon, graduate, Ted Crager, graduate, and Edwin Langford, Business Administration, were honor roll students with at least a 2.5 grade average.

Rev. E. J. Cobb attended the District Nine Convention at the Baptist Church in Hereford Tues-

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Beacon will be corrected gladly upon being brought to the attention of the editor.

And when the blood of the martyr Stephen was shed, I also was standing by, and consenting unto his death, and kept the raiment of them that slew him.—Acts 22:20.

I am unable to understand, a local woman said yesterday, how it is possible for men in high places in this country's government to think so little of the country's welfare and safety that they are willing to barter and dicker with enemy nations for vital secrets of this government. A lot of this went on. If we are to believe reports, while young men of this nation were burning their lives up in the jungles and swamps of the South Pacific, and on European battle fields in defense of the same liberties that these traitors at home were seeking to destroy. Can it be that we had the wrong men in the soft jobs here at home? Is it possible that we should have put the young men in charge of trusted places here and sent the traitorous rats to the front to learn the elements of patriotism? I have got to hear of a young man in

the service attempting to sell out his country by smuggling out its secrets to any foreign power for a price.

A local Democrat in commenting on the recent Republican box dinner of which diners paid a dollar for a box lunch and the largely attended \$100 a plate Democratic dinner has this to say: "The times have changed. I can remember when it was the Democrats who had the covered dinners and the Republicans who dined in luxury. The danger to the Democrats is that they have attracted the big boys. They have come in with the Democrats not because they love the Democrats, but because the Democrats are in power. The Democrats are faced with the danger of forgetting the day of little things and becoming a party controlled by the big boys. This was the situation under which the Republicans lost control of things. The same thing can happen to the Democrats for the same reason."

We are hearing a lot about the proposed Civil Rights legislation. Out in our part of the country we have no such problems. In fact we didn't know there was such a thing until all this uproar was raised. If they keep stirring the thing up maybe we will develop a class consciousness to the point where those living on the west side of tracks will hate those living on the east side of the tracks and the Baptists and the Methodist, who at present get along beautifully, will be sticking each other in the backs on dark nights. The colored people get along among themselves and with the white people. The white people do not encroach on the colored people and the colored people don't do anything to upset the harmonious relation of the community. Perhaps if we keep whooping it up we will all find out we are being abused by some one we didn't know was abusing us and bust up the peace of our own peaceful community.

Under the present income tax law a man if it were possible for him to earn \$500,000 in a year would be called upon to pay over to the federal government in income taxes \$429,000. In other words he would be permitted to retain but \$71,000 of the half million. His state income tax would leave him \$65,000. His local tax would be \$2000 more leaving him \$63,000 out of the fabulous half million. Shucks, it isn't worth it.

With Our EXCHANGES

"PUT IT ON THE FRONT PAGE, PLEASE"

Every week we get a request from some individual or organization to "please put this story on the front page where people will see it." This strikes us as being very funny. You see, the average weekly reader covers the whole paper. As a matter of fact, he usually glances casually at the front page, turns to the locals and reads them, and then slowly makes his way through the paper back to the front page.

You can't "bury" an item in a weekly, because the reader will search it out wherever it may be. Frankly we have always felt that every sheet in the paper is the front page. It's different in a city daily where the world news is generally carried on page one. There the reader interest is focused on the front page.

In a country weekly, though, every page carries an array of community articles. Paducahians and Cottle Countians read the Dunlap News, Hackberry News, locals, want ads, etc. The front page on a weekly is used for articles and stories of general, but not necessary local, interest. Therefore in placing a story, announcement, or article designed to catch the attention of the local readers, the inside pages are better than page one.

It consistently amazes us, how an item on the front page is often missed by the majority of readers, while some little squib sandwiched in on one of the inner pages will always be read. It better therefore to say, "Give this story a good spot," rather than to "put it on the front page."—Paducah Post.

THE POINT OF NO RETURN

Last week at the Panhandle hardware convention in Amarillo, a public relations man from Chicago explained to the hardware and implement men what is becoming commonly known as "the point of no return."

The phrase has been known for some time by aviators, and is now being used in various other ways—although the meaning remains the same.

When an aviator starts on a flight across a body of water, carrying a limited amount of fuel, somewhere during the flight he will reach a point where his fuel supply is only sufficient to carry him back to his starting place with no extra amount remaining. When this point is passed he must continue his over-water flight forward; otherwise, should he turn back after this point is passed, his fuel supply would not be large enough to get him safely back over the water, and he would naturally be forced to land at sea. Possible disaster would then face him. The point at which he no longer had sufficient fuel to get him back to his starting place is called "the point of no return."

The public relations man used this phrase to illustrate his talk on the socialistic trend of the national government. There is a "point of no return" on the trend, he explained.

According to the Chicagoan, taxes paid by citizens in the U. S. now amount to 26.6 per cent of the income of the citizens. The taxes are increasing annually, with each new so-called function of the government.

When the time comes that taxes take more than 50 per cent of the citizens' income, then the "point of no return" has been reached, he stated.

When the time comes that taxes take 70 per cent of the people's income, a complete dicta-

FEW MEMBERS EXPECTED BY "WANT NOTHING" CLUB

CORPUS CHRISTI — Organization of the "We Don't Want Nothing Club" was announced here Saturday after its initial meeting.

Membership is small, exclusive, and anonymous, a spokesman said. There are no assessments, no dues and no officers.

Saturday's meeting was given to adoption and statement of policy which boils down to this: "We don't want no subsidies. We don't want no pensions. We don't want no government loans.

"We don't want no bureaucrats telling us how to make our living. We don't want no socialized medicine nor no socialized nothing.

"We don't want no have to pay no poll tax but as long as we do have to we don't want nobody paying it for us. And we don't want nobody else getting special favors that we have to pay for."

From time to time the club will discuss and announce other things that its members want no part of, the spokesman said.—Star Telegram.

Mrs. Pace Cramer and child of Fort Worth, Ralph Stapleton of Flomot, and George D. Stapleton and son, Dee of Cripple Creek, Colo. visited their mother and grandmother, Mrs. Laura Stapleton Saturday.

Mr. and Mrs. J. D. Orr, Jr. and family of Tulla visited his parents, Mr. and Mrs. J. D. Orr, Sr., Monday.

Mr. and Mrs. M. S. Johnson returned Sunday from a six week's visit in Fort Worth.

torship will exist. Under a dictatorship, freedom and liberty no longer exist.

With the present trend toward socialism and more and more government control continuing, only a matter of time remains until the U. S. government will be a dictatorship. We agree with the public relations man from Chicago that the trend must be stopped—and stopped now.—McLean News.

PART OF THE PICTURE

When you picture your Public Service Company, perhaps you think of a power plant, a transmission line, or maybe the Public Service business office in your community. We like to think about another part of the picture... the many folks we work for—our stockholders. Southwestern Public Service is owned by people from many walks of life... you, your neighbor, your friends, and many others. Each one of them has an interest in the company, and no one of them owns more than 2% of the total stock.

That's the way free, private enterprise works. Everyone has the opportunity to share in the ownership of sound, business-managed companies like your Public Service. That's the American Way... the secret of how we have become great and strong and free!

Methodist Notes

As we travel through life we have many experiences, but the greatest of these are the experiences we have with God. To know Him as a personal savior how good that is; how near and dear He can be to us. To know Jesus as our elder brother who helps us to triumph over ourself and who leads us into abundant living, and finally makes us victor over death.

April 6th, May we all work and pray for a great outpouring of the Holy Spirit. Thoughts for the Week "If you claim to be a Christian the measure of your religion is determined by the measure and quality of your love."

Providence News

Mr. and Mrs. Clarence Brandes and boys visited Mr. and Mrs. Harold McLaughlin on Sunday evening of last week. Mrs. H. D. Hays visited with Mrs. R. Collis on Tuesday. Mr. and Mrs. Walter Samman and girls and Mr. and Mrs. M. C. Scheele attended the funeral of Mr. Bill Grabber of Slaton on Wednesday, Feb. 22. Mr. Grabber was fatally injured in a tractor collision near Slaton on Feb. 20. He was the father of Mrs. Martin Schuette, formerly of Providence.

Congratulations

General Marshall, new Red Cross president, congratulates a Red Cross volunteer with 12,600 hours of service to her credit.

Flies Spread Disease Dr. Cox Warns

AUSTIN—Millions of flies help to cause the illness and death of thousands of children and adults each year in the United States. Hundreds of these casualties may be in the State of Texas this year if residents fail in their responsibility for developing the best possible sanitation measures in the area where they reside. Typhoid fever, summer complaint, and other intestinal diseases can be traced to the common housefly as the carrier of infection.

ing simultaneously in cities throughout the United States.

Penguins us their wings for swimming.

Male mosquitoes live on flowers, while females live on animals.

If you had flea power you could jump over a 90 story building.

H. D. Hays. Next meeting will be with Mrs. T. E. Cowart on Tuesday, March 28 at 2 p. m.

Plastic Hearts Note 1950 Heart Campaign
Red plastic hearts, symbol of the annual Heart Campaign, are now appearing on store counters and in public places in the city. They heard the 1950 Heart Campaign which opened last week. Each heart-shaped collection box is mounted on a card with the legend: "Open Your Heart—Give—Fight Heart Disease." The plastic hearts are being distributed by the Landrum Post of the American Legion. The drive will continue throughout the month of February. A major portion of the funds will be spent to develop and expand cardiac services for this area. The remaining portion will support a national program of research and education of the American Heart Association in its fight against this country's leading cause of death. According to H. M. Machen, chairman of the local campaign, a number of plastic hearts have been placed before the public in this community. The heart collection boxes are also appearing
