

3 Lockney Boys Receive Lone Star Farmer Awards

Three Lockney members of the Future Farmers of America chapter were awarded Lone Star Farmer awards at an area awards banquet held at Childress Friday night of last week. The boys are Jerry Paul Cooper, Eugene Tanahill, and Gene Collis.

The boys were accompanied by local vocational agriculture instructor F. L. Montandon at the banquet. Awards were presented by Walter Lavy, area vocational agriculture supervisor.

Lone Star farmer awards were made to 67 boys in area 11, which comprises 34 counties in the Texas Panhandle. Seven of the boys were from Quanah and six from Wellington, these two schools leading all others.

Honorary Lone Star farmer degrees were given to two vocational agriculture teachers, Frank Kennedy of Quail, and J. O. Seale of Dimmitt.

Speaker for the evening's program was Marion Baumgardner of Wellington, a senior agriculture student at Texas Technological College and former national vice-president of the Future Farmer organization.

In order to win the Lone Star farmer award a boy must have taken all the vocational agriculture offered in high school, have an outstanding supervised farming program, led a group discussion for 45 minutes, show outstanding leadership ability, must have made at least \$250 in supervised farming program, shown outstanding scholarship record and reached other minor points.

Mr. and Mrs. Clyde Sloan are now proprietors of the former Burk Food Store as a result of a business transaction which was completed Monday of this week.

Mr. and Mrs. Sloan have lived in Lockney for more than a year and are well known here. He is minister of the Main Street Church of Christ. They will be assisted in the store operation by their sons.

Mr. and Mrs. Burk will continue to make Lockney their home but have no definite plans as far as entering another business is concerned. Mr. Burk said.

Mr. Lackey was a pioneer of the Cedar Hill community, having lived in that community since 1891. Funeral services were held at the First Baptist Church in Floydada at 2 p. m. Wednesday conducted by the pastor, Rev. Earl Allen, assisted by Rev. C. A. Joiner of South Plains and Rev. A. L. Hammons of Plainview. Interment was in the Floydada cemetery under the direction of the Harmon Funeral Home of Floydada.

Wheat Insurance Offered Floyd County Producers

The Federal Government is again offering an insurance program on wheat operated by the Department of Agriculture which offers protection against all unavoidable risks such as drought, fire, hail, flood, wind, sand, insects, plant disease, winterkill, and wildlife, the County PMA office has announced.

The insured coverage for any farm in Floyd county is as follows: First stage—If acreage is released and planted to a substitute crop; if irrigated, \$4.80; if summerfallowed, \$3.80; if continuously cropped, \$2.80.

Second stage—Acreage released and not planted to a substitute crop after release; if irrigated, \$8.00; if summerfallowed, \$6.00; if continuously cropped, \$4.00.

Third stage—Harvested acreage guaranteed; if irrigated, \$9.60; if summerfallowed, \$7.60; if continuously cropped, \$5.60.

The maximum premium rate per acre in Floyd county is \$0.85. A producer will receive an automatic reduction in the rate of 2% for each 100 acres on each unit. If the premium is paid by February 28, 1951, you will receive another 5% reduction for early payment. The premium is not due until June 15, 1951. Putting it simply—you can wait until harvest to pay the premium; if you make a crop, pay then. If you don't make a crop, the premium will be deducted from the loss claim made on the basis of your policy. The entire premium is deductible from your income tax as an operating expense.

The contract is a continuous contract but can be canceled by the producer or by the Corporation for any year if done by April 30 of the preceding year.

Further information may be secured at the office in the First National Bank Building or the PMA Office. The insurance is offered only through August 31, 1950.

Mrs. Tommy Marr of Olton visited Mrs. E. L. Woodburn and Mrs. Laura Stapleton this week.

Boy Scouts Seeking More New Members

Claude Brown has assumed position of Scoutmaster of Lockney Boy Scout Troop No. 59 relieving Arthur Barker Jr. for the time and he has announced that the local troop now has on a drive seeking new members.

The Scouts will meet Monday night at the Scout Hut starting at 7:30 and Mr. Brown urges that all the old members of the troop be present and invites new boys who are interested in joining to attend.

Play-Off Series Begins Thurs.

The play-off series of the Lockney Softball League will begin Thursday night, weather permitting, it was announced this week. The first game was scheduled for Tuesday night but rain prevented the game from being played.

The four top teams in the league, South Plains, Providence, American Legion and the Fire Department, will play a double elimination tournament.

On Thursday night American Legion will play Providence in the first game with South Plains taking on the Fire Department in the second game.

On Friday night the two winners of the Thursday night games will play as will the two losers. The schedule further calls for a draw between the three remaining teams with one drawing a bye until the finals and the other two playing probably Saturday night. The final game will be played Monday night probably, it was stated.

Umpires behind the bat will be G. B. Johnston Jr., Earl Cooper and Bud Dean as alternate. Base umpires will be Leonard Finley, Raymond Meriwether and H. Dollar.

All games will be played at the Lockney Softball Field and admission of 30¢ will be charged.

Last Thursday night two games were squeezed in between the rains with Lone Star defeating the Lions team 13 to 5 in the first game and the Fire Department beating Providence 4 to 3 in the second game.

These games left the standings with South Plains in the lead 6-0 while Providence, the Fire Department and the Legion were tied for second with 5-2 records.

Monday night of this week the Lockney Ladies Softball team played the ladies team from Spur with the Spur ladies winning by a 5 to 4 score. The game was very close all the way. Max Jeffcoat pitched for the locals.

The Ladies Softball team defeated the Plainview Southwestern girls team last Saturday night on the local field. The final score was 11-7.

Lockney Boys Place At Plane Meet

Two Lockney boys placed at the model airplane meet held at Dallas last week, according to reports reaching here. Placings were between fifth and tenth place for the local boys—they haven't been notified exactly which—and means that they will receive a miniature propeller with their names on it.

Donald Allison placed in the Junior Class of the Half A Free Flight while Harold Hall placed in the senior division of the same contest.

J. Verne Dumont entered the free flight contest in another division but did not place. Competition in his division was very stiff, it was reported.

Highway Dept. Authorizes Funds For 2nd Bridge

According to information received by Judge G. C. Tubbs this week from the State Highway Department, the Highway Commission has authorized the State Highway Engineer to proceed with the construction of a bridge over Los Linguis creek in the northeast edge of Floyd County at an estimated cost of \$37,000. This authorization for the bridge is in addition to work previously authorized by the state department which includes 2.7 miles of paving and a bridge over Quitaque Creek on the same road. The State is to assume the cost of both bridges, according to the understanding here.

The bridges will be built of reinforced concrete. Resident Highway Engineer James F. Potts told The Beacon recently, they will have a roadway width of 21 feet and will be strong enough to withstand the flood waters of the two creeks. Each bridge will be about 600 feet long. Recent heavy rains in that area have washed away all bridges on the road.

The 2.7 miles of paving connects with four miles of paving in Briscoe County running into Quitaque. On the other end of the road, it is planned to eventually connect it up with the Cedar Hill and Flomot roads, Mr. Potts said.

Sun Shines Again After More Rain

More rain fell here Tuesday morning of this week but the sun was shining again Wednesday and farmers were hopeful that it would continue to shine.

The moisture here Tuesday morning measured 7 of an inch according to Hammond & Company gauge but was some heavier in areas near here with moisture reported up to an inch and a quarter.

The condition of cotton generally is good, according to reports but weeds are growing fast and farmers are anxious to get into the fields with cultivators. If the rains should continue it is possible that some cotton would be lost to the weeds, and would also bring a threat of cotton insects.

Feed is also in good shape for the most part with some of it already headed out.

Cotton Classing School, Lubbock

An Extension Service, represented by local County Agents, with the cooperation of the Cotton Branch of the Production and Marketing Administration, announces the dates for the 2nd Annual Farmers' Cotton Classing School. The school will be held from August 14 through August 25 at the Government Classing Office, 1701 Avenue H, Lubbock, Texas, under the direction of Mr. L. O. Buchanan.

The school is being conducted for farmers who raise cotton to better acquaint themselves with the classification of cotton as well as the marketing of their product. Learn why there may be a variance in the classification of cotton even though the cotton comes off the same trailer. There are many other questions relative to cotton classing and the marketing of cotton that will be answered for you.

Any cotton farmer may attend the school free of charge. All farmers are urged to attend. Classes will be held daily from 9:00 a. m. to 3:00 p. m. Monday through Fridays. You may attend one, two, five, or the entire ten days. A certificate of attendance will be given to all farmers who attend five or more days.

If you plan to attend, notify your County Agent or the Cotton Classing Office, 1701 Avenue H, Lubbock, Texas, as soon as possible.

Halls Buy Hotel Coffee Shop

Mr. and Mrs. Fred Hall have purchased the Hotel Coffee Shop from C. C. (Brownie) McDowell and are now operating the Coffee Shop. They will be assisted by their daughter, Roylene and son "Butch."

Mrs. Hall announces that they will serve plate lunches, short orders, coffee, ice cream, cold pop and other things in this line. The Coffee Shop will be open at 5:30 a. m. and close at 10 p. m. seven days each week.

Kelly And Lyons Attending Texas Coaching School

Coaches Curtis Kelly and Elvin Lyons are attending the 18th annual Coaching School of the Texas High School Coaches Association at Austin this week. At least 1500 high school coaches from Texas are expected to attend, reports say.

The school is an annual affair at which high school coaches brush up on the latest techniques of football, swap plays and make plans to win as many games as possible.

Lyons is the new line coach for the Lockney High School Longhorns replacing Metz La-Follette who resigned to enter professional baseball. He is a former member of the West Texas State gridiron squad at Canyon and a graduate of Sam Houston State Teachers College, Huntsville.

Kelly and Lyons will start football practice on Tuesday, August 15 and they expect about 40 candidates out for the 1950 Longhorn squad, it was reported.

There have been a number of changes in coaching positions in District 3-A. At Floydada Preston Watson, formerly of Archer City, will be heard football coach assisted by Charles Read and A. E. Baker. L. F. Gresham will remain as basketball coach there.

Tim Tillery, formerly at Slaton is new coach at Tulia. He won the south half of District 4-A last year but was defeated in the district play-off by Littlefield. His assistant is Olen Reddel.

Fred Cunningham, Crosbyton's coach last year has been elected superintendent and will be replaced as coach by Ralph Schilling of Oklahoma City University assisted by Willis Hedges.

Rudy Haile of McMurray will assist D. W. "Doc" Brantley of Ralls.

Duane Byars, a Lockney high school graduate and also a graduate of West Texas State will coach at Groom this year.

Bill Birdwell, a member of the West Texas State basketball squad last year, is coming to Lockney to help in the basketball training and possibly with football also.

The Texas State Board of Water Engineers will hold a hearing in the City Auditorium in Plainview on August 29 at 10 a. m. for the purpose of designating an underground water reservoir, according to an announcement made this week.

The reservoir might include at least a part of 21 counties in Northwest Texas, it was reported. The action will be taken under the ground water law enacted by the 21st Legislature under the sponsorship of the West Texas counties.

Counties included in the order are Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Floyd, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Oldham, Parmer, Potter, Randall, Swisher, and Terry.

DEATH CLAIMS CONDE DAVIS

Conde Davis, carrier of Rural Route F out of Lockney postoffice and a well known citizen of this area since 1918, passed away at the Floyd County Co-operative Hospital early Wednesday morning after an illness of one week.

Funeral services will be held Thursday afternoon at 3 o'clock at the First Baptist Church in Lockney conducted by Rev. E. J. Cobb, the pastor, assisted by Rev. A. L. Shaw of Happy, a former local pastor.

Interment will be in the Lockney Cemetery under the direction of Carter Funeral Home. Pallbearers will be four grandsons of Mr. Davis, Gene and Ted Lundgren, Jerry and Dale Davis, and two nephews, Billy Anderson and Paul Davis.

Honorary pallbearers were named as follows: D. E. Cox, Payton Powers, A. R. Meriwether, C. E. Childress, R. L. Knox, Floyd Barber Sr., E. R. Harris, Alex Norris, Al Dutton, John Stalcup.

Mr. Davis became ill Wednesday of last week and his condition became serious Friday. He was carried to the hospital Saturday and death came Wednesday morning.

He was born July 19, 1878 at Alvarado, Johnson County, Texas. He lived there until 1918 when he moved with his family to Lockney where he had made his home since.

On September 16, 1900 he was married to Tossie Brooks. The couple would have celebrated their 50th wedding anniversary on September 16 this year had he lived.

Mr. Davis engaged in farming when he first came to this area, but later operated a transfer service. He has served as city marshal and also as city tax assessor-collector. He had carried the rural mail route out of Lockney for the past nine or ten years.

Mr. Davis had a great number of friends and was well known over most of Floyd County. His accommodating nature had won him many friends among those with whom he associated daily.

Survivors include his wife, one son, Emmett Davis of Amarillo, one daughter, Mrs. Tony Lundgren of Amarillo, four grandsons, five brothers, Emory Davis of Rogers, Ark., Jack Davis of Cleburne, Wright Davis of Jacksonville, Harrison Davis of Post, Dr. L. M. Davis of Harlingen, Texas.

Annual Seed Meeting At Aiken Elevator

The annual seed meeting will be held at Aiken Elevator on Thursday night, August 10, it has been announced by Charlie Andrews, manager.

Discussions will be heard on the milling qualities and yield of various wheat in this area. Fred Dines of Crosbyton and Robert H. Gibson, Floyd County agent, will appear on the program as will several chemists from the Harvest Queen Mills at Plainview.

Cold watermelon will be served to everyone present and the men are invited to bring their wives and children. Mr. Andrews said. The meeting will start at 8 o'clock.

**Texas Tech Faces
Roughest Schedule
In Two Decades**

Lubbock.—Coach Dell Morgan of Texas Tech wants no sympathy in 1950, although his Texas Tech Red Raiders face the heaviest schedule in the college's history.

Coach Morgan has asked his players to report Sept. 1 in shape for the season ahead. He called attention to the schedule that includes Rice, Baylor, Texas, Texas A. and M. and TCU in the Southwest conference, in addition to five Border conference foes and Tulsa.

"The schedule is the toughest in Texas Tech's history," the coach wrote his men. "Remember we are out to win. Report in good physical shape and prepared to work hard. We want no sympathy. If you are ready, then the scores will take care of themselves."

The Red Raiders open the season Sept. 23 when the Texas Longhorns invade Jones stadium in Lubbock for the first time. Texas A. & M. follows a week later in San Antonio, forcing the Raiders to start the season with two tough games. Back this fall will be 19 lettermen, but only two offensive and two defensive starters from the 1949 Border conference champions.

Coach Morgan will be forced to rely heavily on sophomores this fall. Offensive starters back are Douglas McSwane, San Antonio tackle, and Tim Hatch, Wellington right halfback. Jerrell Price, Brownfield tackle, and Hatch are the two defensive starters returning. No letterman quarterback will be on hand to direct T formation play.

Visitors in the Buck Sams home last Sunday were Mrs. Sam's brother and family, Mr. and Mrs. Dick Thompson and Marjetta of Hereford.

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: Henry L. Lloyd; all of the heirs of the said Henry L. Lloyd, if he be deceased; their heirs and or legal representatives; and all of the heirs, spouses, or spouses, legal representatives, devisees and legatees of the above named and or described persons and each of them, and any person claiming title or any interest in the hereafter described property. Defendants Greeting:

You are hereby commanded to appear before the Honorable District Court of Floyd County at the Court House thereof, in Floydada, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 18th day of September, A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 31st day of July, A. D. 1950, in this cause, numbered 3894 on the docket of said court and styled J. Ray (J. R.) Lloyd, Plaintiff, vs. Henry L. Lloyd, et al, Defendants.

A brief statement of the nature of this suit is as follows, to wit:

A suit for title and possession of the following real property, situated in Floyd County, Texas, described as follows: FIRST TRACT: 124 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records, Floyd County, Texas, and being the same tract as that described in a deed dated March 10, 1937, recorded in Vol. 68, page 396, Deed Records of Floyd County, Texas; and a SECOND TRACT: 156 acres out of the Southwest part of Survey No. 1, Certificate No. 423, T. T. Ry. Co., Abstract No. 279, Patent No. 258, Vol. 35, dated May 9, 1878, recorded Vol. 1-F, page 315, Deed Records of Floyd County, Texas, and being the same tract conveyed by deed dated March 8, 1939, recorded in Vol. 75, page 472, Deed Records of Floyd County, Texas; and a THIRD TRACT: 32.5 acres, being the Northeast part of Survey No. 20, Certificate No. 45, S. & M., Abstract No. 2640, patented to H. Newell and Mrs. E. J. Block, Assignees, by Patent No. 140, Vol. 90-A, dated July 6, 1943, recorded Vol. 4, page 196, Patent Records of Floyd County, Texas; to which patents, instruments and record reference is here made for all purposes; all further described in plaintiff's petition on file herein; and said suit being in the usual form of trespass to try title and containing further allegations to the effect that plaintiff owns the record title to said property and further owns title to said property under the three, five and ten year statutes of limitation, and that title is in the plaintiff, all as a result of peaceable and adverse possession and under duly recorded deeds and claim of right, and payment of taxes on said property. If citation is not served within 90 days after the date of its issuance, it shall be returned unserved. The suit is brought as well as to try title as for damages, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Floydada, Texas, this 1st day of August A. D. 1950.

Attest: Mary L. McPherson, Clerk, District Court, Floyd County, Texas. 48-4tc.

**County Reaches
72% Of Bond
Quota In Drive**

Purchases of Saving Bonds in Floyd County during the Independence Drive totalled \$32,162.50, or 72.47 per cent of the quota, J. M. Willson, county Savings Bonds chairman, announced today after receiving final sales figures from Nathan Adams of Dallas, state chairman. The county's quota was \$43,000.00.

The Independence Drive was held May 15-July 4, with sales through July 17 being credited to the state and county quotas.

Total sales in Texas were \$25,383,274.75, or 105.37 per cent of the state's \$24,088,000 quota, Mr. Adams said. The state quota was reached and exceeded during the last week of the drive, when a final burst of bond buying marked up over \$7,000,000 in sales. Of Texas 254 counties, 103 exceeded their quotas.

"Success in this campaign preserves Texas' unblemished record of always going over the top in bond drives," Mr. Adams said. "At the same time the people of the state have added substantially to their savings and, consequently, to their personal financial security."

Huntin' AND Fishin'

By Harve Pennington

Experienced fishermen know there are no fishing "hot spots". Fishing success depends on many other factors than the supply of fish. Much depends on the fisherman's experience and his familiarity with the water he is fishing. It depends on his knowledge of fish life, his ability to pick spots where fish may be feeding, his skill with his tackle, on the weather, the condition of the water, even the time of day. Weather conditions affect the behavior of fish. The fisherman, fortunate enough to be there when the fish are biting is certain of success. Unhappily, however, the average fisherman cannot always choose his fishing days. He has to take his fish as he finds it. The good fisherman, however, who knows fish habits and where to look for fish, often makes good catches despite adverse weather conditions.

After their spawning season, fish are hungry and are ready to feed, morning, noon and night. At this time, warm, sunny days offer the best fishing, particularly for bass. On such days, the small water organisms on which minnows feed are produced in large quantities. This means that small fish are active. The larger fish that feed on them are active also. On bright, clear days, fish can see better and farther. So the fisherman must move with greater caution and place his lures more accurately. If he is fishing with natural bait from a boat, he must not move around in the boat. Oar noises and anchor noise scatter fish. Fish like cover, places to hide, places that are shady and cool. Lily pads, water weeds, overhanging trees, rock ledges, stumps, brush. Flies and plugs placed just right, or natural bait fished at the right time close to such cover will naturally produce a strike.

Where creeks and springs flow into a lake are good places for fish, because the water at that point will have a large oxygen content and food is being washed in. On hot days fish seek deeper holes. Hot, humid days generally bring out hatches of

FROM WIESBADEN TO CHICAGO

German maids test a German-made kyack, a canvas and wood portable canoe that will be shown at the First United States International Trade Fair in Chicago next August 7-20. The kyack will be one of 250 products, now being manufactured in the West German Republic for export, to be exhibited at the Chicago Fair.

insects. These hatches invariably bring fish to the surface in the evening. The fisherman who watches for these and is on hand at the right time will get the fish. As I have said before, a good rule to follow in fishing: Keep out of sight, keep quiet.

The game warden

A lot of fishermen will smile at that statement, but the game warden is not a sworn enemy of the fisherman. His job is not to take the thrill out of fishing. It is not to keep the hunter from having fun and success from his trip. On the contrary, the game warden's job is to make fishing and hunting even more sporting. Many fishermen and hunters take that view and co-operate with the game warden in his effort to conserve wild life and give fish, animals and wild fowl a sporting chance. Some fishermen after fishing for a couple of hours, maybe take a six inch crappie. Of course, that is under the legal size. But the fisherman may say, well, that's not a great deal of difference, so I'll just put this fellow on the stringer. But there is a lot of difference than the difference in inches. If left alone that six inch fish will grow into a big one, and it's a lot more fun to catch big ones than little ones. Again suppose all the six inch crappie in the lake were

kept. There would never be a legal size crappie for anyone to take.

The whole purpose of the State Game and Fish Commission is to work for better conservation of fish, game and wild fowl. With the help of the fisherman and hunter and other people interested, the commission will accomplish this purpose. More fish means more bites and that is what puts the thrill in fishing. More game and wild fowl means more chances for the hunter. So instead of saying "that pesky game warden", consider him as a fellow sportsman who, in your behalf, is trying to make your sport more interesting and successful. He is after the habitual violators of the game laws, the fellows who do not want to play the game straight, people who aren't sportsmen and who have no interest in making either fishing or hunting any better. These fellows deserve to be taken care of. The next time you go to a strange lake or stream, look up the warden there. Ask him about the laws for that lake or stream. He can and will tell you the best places to fish.

Straight FROM WASHINGTON

The government pays 100,000 employees in excess of \$270 Million a year to store and issue supplies. But, would you believe that most Federal agencies have enough supplies on hand to last up to fifty years. All told, the Reorganization Commission estimates that your government has \$2.5 Billion worth of excess supplies now in storage.

Beauty Queen... King Size!

Once you step from this car relaxed and fresh after a long day's drive... you'll know why people who can afford any car in the world are choosing the Chrysler New Yorker. Just take the wheel and learn the secret of effortless driving! Sit in the wonderful normal chair-height seats! Examine the quality of Chrysler materials... see the difference in Chrysler craftsmanship... feel the benefits of Chrysler engineering... and you'll have the proof of built-in value all the way through, unequalled today. Once you drive any Chrysler... once you own any Chrysler, we're sure you'll want to drive Chryslers for the rest of your life.

I help build SUB STATIONS?

THAT'S RIGHT... many a housewife has a lot to say about building your Public Service Company.

How? Through her investments, of course. Whether it be a sub station or a service car, our company is truly "owned" by the stockholders—ministers, doctors, lawyers, teachers—yes, even you or your neighbor... and no one of them owns more than 2% of the total stock.

Perhaps you have a savings account—or a life insurance policy—it's pretty certain that some of those funds have been re-invested in your Public Service Company. And so, you see, we really belong to the people. It's a working example of free enterprise... the system that has made America great and strong.

Price-Wade Vows Are Read In Clovis

Miss Jeraldine Price became the bride of C. W. Wade in a marriage ceremony performed Saturday, July 29, in Clovis, N. M.

The bride is the daughter of Mr. and Mrs. J. H. Price of Lockney, and Mrs. Wade is the son of Mr. and Mrs. W. C. Wade of Post.

The single ring ceremony was read in the First Baptist Church in Clovis by the pastor, Rev. Storm.

The bride wore a shell pink taffeta dress, complimented with white accessories. The couple were accompanied to Clovis by the bride's mother, Mrs. Price, and the groom's mother, Mrs. Wade.

The bride attended Lockney schools. The groom attended school at Post, and is now employed by the Southwestern Bell Telephone. The couple will make their home at Post for the present time.

WMS Tea Monday Entertains WSCS

The W. M. S. of the Baptist Church entertained the ladies of the W. S. C. S. of the Methodist Church with a tea Monday afternoon, July 31, at 3:30 in the Baptist Church.

The Methodist ladies were welcomed by Mrs. I. A. Applewhite, president of the W. M. S.

The program began with the group singing, "Wonderful Words of Life." Mrs. E. J. Cobb then brought a devotional on "Words of Life." The musical part of the program was given by Mrs. Horace Jones and Mrs. Ben McGhee, who sang a duet, "Ivory Palaces." Mrs. Horton Howell played a piano solo, and Mrs. Edgar Hays sang "Dear Hearts and Gentle People." The program was closed with two readings given by Mrs. W. A. Taylor, "Taint Funny" and "My Trip to Boston."

After the program the ladies were served refreshments in the parlor.

Floyd Girl Is Elected District 4-H Chairman

Jean Porter, member of the County-wide 4-H Club in Floyd County, was elected district chairman of the 4-H Clubs, in District 2 at the final business meeting of the club girls at their camp last Thursday. Each county represented at camp had three delegates who participated in the election. Delegates from Floyd County were Marlene Hollums, Delores Sammann, and Jean Porter.

There were 108 club girls, 18 adult leaders, and 29 agents, specialists, and visitors enrolled at the 3-day district Camp held at the Fair grounds in Lubbock Tuesday, Wednesday and Thursday of last week. The girls were from 17 of the 18 counties in the district. The rains that fell during Camp did little to dampen the spirits of the girls as they followed the different activities planned.

Crafts, camp cookery, recreation, posture, and meal service were the main activities of camp. A movie of a big game hunt in South Africa was shown on Tuesday evening by Mr. McMillian, building contractor of Lubbock. Wednesday was guest night. Guests came to dinner and stayed for the party afterwards. Among the 4-H Club girls who helped with the Recreation periods and the party were Marlene Hollums and Jean Porter of Floydada.

A daily newspaper, LAS CAMPESINAS, was published. Mrs. Louise C. Allen, Assistant Professor of Journalism at Texas Technological College, directed this activity. LAS CAMPESINAS means "Girls of the Country" and was edited by the girls. Among the reporters who had stories in the paper was Maxine Hatley of the Lakeview 4-H Club. Marlene Hollums was typist, and Delores Sammann of Providence and Minnie Beth Brawford of Dougherty were art editors for one issue.

Devotionals were held each morning. Dr. E. N. Jones, vice-president of Texas Technological College, gave the devotional Wednesday morning. Thursday morning's devotional was conducted by the girls. These services were held just before breakfast. Immediately after breakfast two chartered buses took the girls to the swimming pool in MacKenzie Park. Only the hardest braved the cold water to take a dip.

The 4-H Club girls from Floyd County who attended Camp were Jean Porter and Marlene Hollums from the County-wide 4-H Club; Betty Vernon and Patsy Pierce from the Lockney Clubs; Marcelita Green, Barbara McNeill, Betty Bowman, and Carolyn Williams from the Floydada Clubs; Delores Sammann of

PARTY SANDWICH LOAF — FESTIVE REFRESHMENT

No matter how festive the occasion, a party sandwich loaf is the perfect refreshment. Just slice a loaf of enriched yeast bread lengthwise, spread with flavorful fillings and frost all with cream cheese.

PARTY SANDWICH LOAF 1 cup grated American cheese 2 table-spoons chopped pimiento Salad dressing Salt and pepper 1 small can pink salmon 1/2 stalk celery, chopped fine 1/2 teaspoon paprika 1/2 cup blue or other cheese Food coloring 1/2 pound cream or cottage cheese 1 day-old loaf unsliced enriched yeast bread Stuffed olives Pickle relish Ma's together American cheese pimiento. Moisten with salad dressing and season to taste with salt and pepper. Set aside. Flake salmon, add chopped celery and moisten with salad dressing. Stir in paprika. Set aside. Tint Blue or other cheese with food coloring. Moisten cheese with salad dressing and mix until smooth. Set aside. Add enough dash juice or milk to cream cheese to soften it to spreading consistency. Set aside. Remove all crusts from loaf of bread. Cut all lengthwise slices. Spread one slice with cheese and pimiento mixture. Cover with second slice. Spread with flaked salmon, cover with third slice. Spread with Blue or other cheese, top with remaining slice. Cover top and sides of loaf with softened cream cheese. Chill overnight in covered box in refrigerator. Garnish top with sliced olives and pickle relish.

Providence; Maxine Hatley from Lakeview; Minnie Beth Crawford of Dougherty; Laverne Word of Lone Star; Naomi Allen of Sand Hill. Mrs. Lloyd Allen of Sand Hill, Adult Leader, and Miss Leila Petty, County Home Demonstration Agent, also attended the Camp.

W. F. Pierce of Lockney, Mrs. Lloyd Allen and Miss Leila Petty took the girls to Lubbock and Mr. Pierce, Mrs. Hershel Green and Mrs. Tom Porter Porter brought the girls home.

Eden-Rodgers Vows Exchanged In Neb.

The Methodist Church at North Platte, Nebraska, was the scene of the marriage of Juanita Eden, daughter of Mr. and Mrs. B. F. Walker, Plainview, to Ed Rodgers, son of Mr. and Mrs. E. J. Rodgers of Lockney.

Rev. Bert L. Stone, pastor, read the double ring ceremony before an arch of lily of the valley entwined with fern and gladioli, flanked by candelabra. Prenuptial selections were played on the organ.

The bride was attired in a navy blue street length dress with navy and white accessories. She wore a white gardenia corsage. Miss Ann Lou Dunavant, maid of honor, wore a dress of aqua with burgandy accessories, and a white carnation corsage.

Gene Rodger of North Platte served his brother as best man. Immediately following the ceremony a reception was held in the Wayne Weathers home in North Platte.

Concert Tickets Not Available After Saturday

Season membership tickets for the Floydada Municipal Concerts Association will not be available after Saturday, August 5, at 6 p. m., the public is reminded by Mrs. J. H. Holt, chairman of the campaign committee in Lockney.

This concert association has been formed for the purpose of bringing world-renowned artists to Floydada and this area. This will be the first opportunity residents of this area have had to attend concerts given by prominent artists without having to journey to a larger city. At least three top-flight concert attractions will be offered during the season officials guarantee.

Mrs. Holt emphasizes that no single admission tickets will be offered for sale at any of the concerts. The season membership tickets sold this week will be the same number as the seating capacity of the Floydada high school auditorium, and there will be no tickets available after Saturday.

Membership dues for adults is \$5.00 plus federal tax, dues for students at a special rate of \$2.00 plus tax. The Association is non-profit and the dues will be used for engaging artists.

Those interested in membership tickets are asked to contact any member of the campaign committee before 6 p. m. Saturday. Those on the committee are Mrs. Holt, Mrs. C. L. Record,

Mrs. Mort Crapster, Mrs. Sid Thomas and Mrs. Edgar Hays.

Miss Florence Britton of Houston is in Floydada this week directing the membership campaign.

Our second World War came as a result of the mistakes made by our leaders after the first World War. The third world war, if it comes will result from mistakes made following World War II. The things that were done, such as the division of Berlin among four nations, Russia,

France, England and the United States, with three of the countries having no access to the city except over Russian territory, ranks as the all time high in mistakes. A number of other mistakes were made that were not far behind this one when it comes to sheer dumbness.

Congressmen and Senators are hearing from American women who are indignant over the fact that untrained boys and young men are being sent into Korea inadequately armed, and sent against superior Russian tanks. The women are not questioning the necessity of repelling the invaders. They are resentful over the fact that in view of a powder keg situation such as exists in Korea and other countries due to unwise settlements following World War II, that training was not kept up to fit men for an emergency that it has been known all along faced this country sooner or later. The women are asking why, since it has been known ever since the end of World War II that Russia was preparing for another war and that eventually we would have to oppose her, that we have failed to make any preparation either in the training of men or in the manufacture of modern equipment.

It is being predicted that the coming fuel for automobiles and trucks will be Butane and Propane gas. Some trucking companies are already using it.

USE THE A-BOMB?

Professor Arthur H. Compton, atomic physicist, expresses the opinion that it would have been unpardonable if the United States had not used the atomic bomb in the war against Japan.

The scientist thinks that we would have been traitors to mankind if we had not used the atomic weapons with tempered blows. While hoping and praying that atomic weapons will not be used again, Dr. Compton's remarks indicate that Western civilization must be able to utilize force in order to preserve itself from attack by barbaric aggressors.

There are a number of edu-

cators, preachers and moralists in the United States, who orate fervently about brotherly love but overlook the compulsion that rests upon civilized men to defend their faith, culture and civilization. To adopt a passive attitude in the face of an attack upon our way of life, is to aid and abet the enemies of civilization and, in essence, to be traitors to one's faith—Hereford Brand.

Mr. and Mrs. Guy Allen, Mr. and Mrs. Jimmy Allen and son, Johnny of Kress visited friends in Lockney Sunday.

A SYMPATHETIC GALLERY

Of course, he may not get away with it. But Ronald F. North of Chippeway, Wis., will have a large and sympathetic gallery of kibitzers eyeing him as he tries it. He is the attorney, you know, who has served notice that he will start charging Uncle Sam for collecting his law clerk's weekly withholding tax.

The 65-year-old lawyer says he is charging the fee because it is against the Constitution for the government to force anybody to work for nothing. He is slapping the customary attorney's fee of 50 per cent on all items of \$30 or less that he collects. His argument makes sense. The only question is: Will the Supreme Court see it that way?

Clearly, the government is saving millions of dollars every month by forcing the employer to do this tax collecting. But the same cost is there, just the same. Why this heavy burden should be saddled on the employer is hard to justify in either law or equity.

The only grounds on which this practice could be justified is that of public policy. But that could rest only on the premise that the great majority of Americans are dishonest and would cheat the Treasury if left to their own devices.

The public good would be far better served if everyone were required to pay Uncle Sam in person. The present, relatively painless method of installment "deducts" merely dulls the employees sense of what he is actually shelling out to Big Government. If the rank and file of us had to fork out in cold cash what we in fact are already paying each day, the cry for economy at Washington would soon be more than an academic sing-song. Millions of alerted taxpayers would then whistle a tune to which congressmen would dance quickly enough. — Dallas News.

Dr. Banks recommends that not more than 200 to 300 birds be kept on each acre of ground, depending on the age, breed, and size of the turkeys. In addition, he says that it is always good to have some extra land available to which the birds can be moved if trouble appears in the flock.

He warns against moving the sick birds when disease appears, saying that the healthy appearing birds are the ones that should be moved to clean ground, and the sick ones left where they are.

Dry litter is a simple precaution against losses from coccidiosis, a parasitic disease caused by an organism which requires warmth and moisture to survive.

Poulters are born free from intestinal parasites, and Dr. Banks says that loss from these organisms can best be prevented by keeping the poults in frequently-cleaned brooder houses, not letting them have any contact with old chickens or turkeys, and keeping them on clean ground.

In summarizing a sanitation program, he points out that the poults should be started clean, kept clean, and fed from clean equipment and emphasizes that sanitation is a must on the turkey farm.

Applewhites See Many Interesting Things In Europe

(Editor's Note: Mr. and Mrs. Clyde Applewhite, who are making a tour of Europe this summer have visited many places of historic interest, noticing the aftermath of war in Europe. They are not expected to return home until the end of summer. Following are excerpts of letters and cards sent by Mrs. Applewhite to her mother, Mrs. L. M. Honca, describing scenes of interest and customs she has observed in her travels thus far.)

June 26 London
"We are leaving here in the morning for Holland. Will go part of the way by train and cross the English channel by boat."

"Yesterday we went for a sight-seeing trip to the worst bombed section of London, a three hour trip and we saw block after block that was burned out."

"We went to see London's largest department store today. It was very elegant and had lovely things. There is so much red tape to buying things here that we couldn't."

"The castles are all we have heard about and more, too. Windsor Castle covers acres of land. It was started in the fourteenth century. The ride up the Thames River on the boat was very beautiful; tall two story houses on both sides, all landscaped so

pretty, and every now and then a tea garden."

July 1 Brussels
"We rode on a nice train from Holland to Belgium. Brussels has over a million population and is a very nice city. They had lovely food and flowers in our hotel in Amsterdam."

July 4 Switzerland
"We had a long ride yesterday in four countries, left Brussels and through Luxembourg, France and Switzerland."

"This is a beautiful country. We can look out from our window and see Lake Lucerne a cross the street and the alps with snow."

"The people here are lovely to us. The food is good. They serve it in about six courses."

July 9 Oberammergau, Ger.
"This is a pretty place right in the mountains. There are about 5000 people here to see the Passion play today. It is wonderful. It started at 8:30 in the morning and lasted until 6 in the afternoon with two hours at noon for lunch. There were 50 people in the orchestra, 50 in the chorus and 300 in the play. They give the play twice a week, starting in May and ending in September. The play is only given every ten years. The women all had long hanging hair, the men long hair and beards. They looked like Bible pictures. Their clothes were interesting. It was in German but we followed by guide books in English."

"The German women were all working in the fields cutting hay

by hand, raking and shocking. Loads of hay were pulled from the field by oxen. Most of them ride bicycles or walk it seems. They build their barns right onto the house. It will be a long two or four story house with about 2-3 of the house for the barn."

"Munich was bombed from end to end during the war. Most of the town is desolate, hulls of buildings standing. Before the war our hotel had 600 rooms, now only 200."

"We drove out to Berchtesgarden in the Bavarian Alps where Hitler's summer home was. The mountain scenery was wonderful. He had a tea house on the mountain where he could look down and see the town. From his house he had an elevator going up to his tea house. We saw snow on the mountains, 600 feet deep in places, they said. We saw several bridges Hitler blew up trying to stop the U. S. Army. They now occupy his property."

"Clyde went out to the concentration camp where two hundred and fifty thousand people were cremated during the war. He thought it was terrible."

July 13 Innsbruck, Austria
"Innsbruck is an interesting place, it looks very, very old. The hotel we are staying was completely destroyed during the war. The men and women look different here. Many of the men wear leather pants and hats with a feather on the side."

Time To Plant Fall Gardens

College Station.—In most sections of Texas, there are from 60 to 90 days of good growing weather during the fall season and that is sufficient to grow a good fall garden. Today's high prices may mean, says John Hutchison, extension horticulturist of Texas A. & M. College, that if we don't grow our vegetables, we may not have them.

He says in most areas of the state there is more art to growing a fall garden than a spring garden when nature may be in a more cooperative mood. He points out there is real satisfaction in having cool, crisp, tender fresh vegetables on the family table for the vitamins and minerals they supply not only add that fresh color to the checks but are just naturally good for everyone. Then there is another very important item, that fall garden will cut dollars a plenty from the family's food bill.

August weather is not always well suited for outdoor work but now is the time to begin operations. It is best, says Hutchison, to start with some of the old spring vegetables provided they can be rejuvenated and made to produce on into the fall. Tomatoes, okra, peppers, and egg

plants if properly cared for, will make good production records in the fall.

The soil around each individual plant should be worked and at the same time an application of about a half teaspoon of some complete fertilizer like 5-10-5 should be made. Work it into the soil, then put a two or three inch mulch of hay or similar material around the plant. The mulch will help to conserve moisture and to keep the ground cool. They should be irrigated every 5 to 7 days.

In the case of tomatoes, Hutchison says it is best to select two or three suckers or sprouts that are growing near the base of the old plant and then remove the parts of the old plant which have lost their vigor. Give them the same treatment recommended for rejuvenating other plants.

Before new plantings are made he says the garden area should be cleaned up. Remove all trash, weeds and grass. If barnyard fertilizer is available, broadcast a three or four inch layer over the plot and either spade or plow it under. In areas where commercial fertilizers can be used, he recommends the use of three to four pounds of 5-10-5 for each 100 feet of row space. It should be applied prior to planting.

Dry weather complicates the seed bed building process but a thorough irrigation will help solve the problem. He says you'll be wise to use from 20 to 25 percent more seed than you do in the spring and to cover the seed a little deeper.

Hutchison cautions against overplanting and says the wise gardener is one who plants just what he can properly take care of. Prepare the rows so irrigation water can be run down the middles and at the same time make the beds high enough to keep the vegetables from drowning out when the heavy fall rains come. Check your seed catalogue or with your local county extension agents for the varieties that can be planted now and later.

The big job at hand is to get the garden started, concludes Hutchison.

BUT IN SOME COUNTRIES, CASTE AND TRADITION PRACTICALLY BIND THE SON TO THE OCCUPATION OF THE FATHER.

IN OTHER LANDS, YOUTH IS FORCED INTO THE KIND OF WORK THAT DICTATORSHIP ARBITRARILY DECREES.

IN AMERICA, IF A SON MAKES HIS FATHER'S WORK HIS OWN, IT IS THE SON'S PROUD CHOICE — AND NOT MEEK COMPLIANCE. IN THAT FREEDOM OF CHOICE, OUR DEMOCRACY FOLLOWS IN THE FOUNDING FATHERS' FOOTSTEPS.

Electric Shocks May Be Dangerous

According to L. W. Chapman, Manager of the Floyd County Rural Electric Cooperative, the following is good advice and should be followed by anyone using an electrical appliance.

How many times have you picked up an electric appliance or flicked a switch and gotten a slight shock? That is a danger signal which can only be ignored at your own risk. There is something wrong with that switch, wiring or appliance. What is only a tingling sensation can become a dangerous shock when the fault becomes greater or when you come in contact with it while your hands or feet are wet. Minor shocks should be treated as fortunate danger signals warning you to get something done at once. Not only will some repair work avert the danger; it will also get your appliance working efficiently without wasting power. Many times an electric shock may not

cause any harm but the fact that it was unexpected causes the person to hurt themselves otherwise, such as falling from a ladder, jerking an arm into dangerous places, etc.

"I have a dog that growls, a parrot that swears, a fireplace that smokes, and a cat that stays out all night. Why should I want a husband?" the spinster says.

The wife says that if it isn't the door bell or telephone that keeps her busy, it's the ring around the baby's neck or the bathtub.

Often as we read the news of the day we feel as insecure as a skinny old maid in a strapless evening gown.

17,500 Killed In Farm Accidents

College Station.—Were you or some member of your family among the more than one million farm people who were injured last year as a result of a farm accident? A friend or relation may have been included among the 17,500 who met death in some kind of farm accident during this same period. A majority of these deaths and injuries could have been prevented, says E. C. Martin, assistant state agent for the Texas Extension Service and chairman of the State Farm Safety Committee, if those involved had only stopped to think.

He says that the latest available statistics reveal that farming has moved up from fourth to third place as the most dangerous way of making a living. In 1948, 55 deaths for each 100,000 workers engaged in agriculture were reported. Only the construction industry and mining and quarrying had higher occupational death rates.

The home is the scene of more accidents than any other part of the farm, and falls lead the list of causes. Animal accidents ranked second in the South and West while machinery accidents held second place in the Northeast and North Central sections of the nation.

Martin points out that time lost as a result of accidents to farm people amounts to the time needed to plant, cultivate and

harvest about one-half of average annual wheat crop of nation. Records show that average of 20 working days lost by each person injured, cost in dollars for medical, time lost, and property damage from accidents and fires about one billion dollars per year, say nothing of the cost in human misery.

Mr. and Mrs. Garland and family have moved back to Lockney from Grand Junction, Colo.

Preserve Peas By Freezing--Harris

College Station.—Texas homemakers are urged to take advantage of the plentiful supplies of black eye and other varieties of peas such as cream and purple hull that are now available, and to preserve a supply for use this winter. They are good frozen; are a nutritious food and will add variety to your meals later in the year, says Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A. & M. College.

Homemakers should remember that freezing does not improve the quality of a product and if you want a quality product, she points out, you must very carefully select the peas to be frozen. The peas should be tender and at the right stage for good eating. It is best to harvest them early in the morning before they absorb heat from the sun.

Once they have been picked, the preparation and processing for freezing should not be delayed. She says they should be washed, then shelled or cut as you would prepare them for eating or canning. Next they should be scalded in boiling water.

She suggests that you use a large enamelware, aluminum or stainless steel kettle for the scalding operation. It should contain about one gallon of boiling water and only about one pound of the prepared peas should be placed in the kettle at one time. It is best to use a wire basket

or a loose cheese cloth bag for holding the peas while they are in the boiling water. After the peas are placed in the kettle, replace the cover and keep the heat on high so that the water will continue to boil and don't, she cautions, attempt to scald large amounts of peas because the water will be cooled too much. Start timing as soon as the peas are immersed in the boiling water and for small peas containing a high percentage of snaps, scald for three minutes. Shelled green peas should be scalded for four minutes, she says.

Place the scalded black eye peas immediately in running cold water or in a container of ice water. This chilling stops any further cooking and prevents loss of quality, she adds. From two to three minutes will be required to cool the peas and next they should be drained and packed in air-tight, moisture-vapor-proof containers. Seal the containers immediately. Black eye peas which have been carefully selected, properly prepared and frozen may be stored in the freezer or locker box and will retain their quality for one year.

Homemakers should remember that frozen black eye or other peas will require only about one-half the cooking time of fresh peas. Here are suggestions from Miss Harris on cooking frozen peas. Bring one-half cup of salted water to a boil and add to it one pint of frozen peas and don't thaw the peas before cooking. Boil them, she says, from eight to 15 minutes and season exactly as you would fresh peas.
