THE LOCKNEY BEACON

SERVING THE RICH IRRIGATED SECTION OF FLOYD COUNTY

VOLUME 49

LOCKNEY, FLOYD COUNTY, TEXAS, FRIDAY, MAY 25, 1951

NUMBER 38

Renew Now— The Beacon Is Going Up!

The Lockney Beacon subscription price is going up! After six years of trying to hold prices down, we are now forced to raise our subscription price. Effectively July 1, 1951, the subscription price for The Beacon, either new or renewal, will be \$2.00 in Floyd County and \$2.50 elsewhere.

The Beacon has been selling at a lower price than most any other weekly paper on the plains because we want everyone in our territory to read The Beacon. However we feel that the increase in price at this time will not deprive any one of The Beacon but it will help us to meet the high price of the materials that go into the making of a newspaper.

Up until July 1, the price for The Beacon will remain as it is now—\$1.50 in Floyd County, \$2.00 elsewhere. If your subscription is out or nearly out, now is the time to renew. Or if you are not getting The Beacon and have been planning to subscribe do it today.

We will not accept any subscription more than two years in advance. It is not the policy of The Beacon to accept subscriptions far in advance. You may not run your subscription up further than July 1, 1953.

Now is the time to either renew or subscribe. Don't neglect or delay. Come in today or send in your subscription to The Beacon.

Batteries Stolen From Wilkes Farm

Two large Delco batteries were stolen from irrigation wells on the B. B. Wilkes farm just west of Lockney Tuesday night. One of the batteries was made up of 8 cells and the other 4. They were very heavy and hard to move, according to men working on the Wilkes farm.

LOCKNEY STUDENTS ARE EARNING COLLEGE DEGREES

A number of Lockney and Floyd County students are earning college degrees this year. Curtis Kelly, athletic coach in Lockney High, received his B. S. degree.

Bobbie Sue Damron received her B. S. degree. Lonnie Lee Seaman, son of Mrs. Lee Seaman of Lockney, received his B. S. degree.

Jack Livesay, son of Mr. and Mrs. Ted Livesay, received his B. B. A. degree.

Mary Louise Childress of South Plains received her B. A. degree.

Baylor University
Myra Byrl Applewhite, daughter of Mr. and Mrs. G. C. Applewhite of Lockney, will receive her Bachelor of Arts degree from Baylor University at the Spring commencement Sunday, May 27. Degrees will be awarded to 699 students in exercises Sunday night. Dr. Arthur Compton, chancellor of Washington University in St. Louis will make the commencement address.

Rev. James H. Landes, pastor of the First Baptist Church of Wichita Falls, will preach the Baccalaureate sermon on Sunday morning.

McMurray College
Rev. and Mrs. Hugh Daniel each will receive their degree at McMurray College Monday of this week. He is the son of Rev. and Mrs. N. S. Daniel of Lockney.

Wayland College
Henry Clay Ford Jr. of Lockney will receive his B. S. degree from Wayland College in commencement exercises at 6 p. m. Monday, May 28. Josh Lee of Oklahoma will be the speaker. Baccalaureate services will be held Sunday morning, May 27 at 11 a. m. Speaker on that occasion will be Rev. Neil Record, pastor of the First Baptist Church of Tulsa.

Lions Club Buys Goat—Who Gets It?

The Lockney Lions Club has authorized two of its members, Charlie Smith and Clyde Applewhite, to buy a goat. The purpose of the purchase is to fatten the animal for a barbecue next September.

However in the meantime, one name will be drawn from among those absent at each meeting, and that person will be required to keep the goat that week. Officials hope to help the attendance through the goat keeping project.

Olney Relatives Of Lockneyites Unhurt In Storm

Olney relatives and former Lockneyites now living at Olney were all unhurt in the tornado that struck that city last Friday afternoon, reports this week indicated.

Mr. and Mrs. Marvin Cox of Lockney left soon after news of the tornado was reported here to find out the condition of his sister and husband, Mr. and Mrs. Floyd Teaff, former residents of Lockney. Mrs. Teaff, at home alone went into a storm cellar while her husband, who was at his place of business got into a pickup and drove out of the path of the storm. Their home was only slightly damaged although a house two doors away was destroyed.

Clyde Stowe's parents, Mr. and Mrs. S. A. Stowe and a number of other relatives live near Olney but none of them were hurt or suffered property damage as far as Clyde knew Wednesday.

Will Logan, a former Lockney resident who now lives at Olney had some damage to his house, it was reported, but none of the family was injured.

Mrs. S. J. Lewis and son, S. J. Jr., are at Olney this week visiting her son and daughter, Marvin Lewis and Mrs. Irene Bishop. Neither of these suffered any property damage and the families were unhurt.

D. B. Wood Sr. and W. M. Wood and families, both double cousins of William Wood of the Prairie Chapel community, were unhurt but the local people did not know about what property damage they may have suffered.

Two were killed and around 100 injured in the tornado which struck the city Friday afternoon.

Lone Star Grade School Graduation Friday Night

The graduation exercises for the Lone Star grade school were postponed last Thursday night due to the bad roads and will be held on Friday night of this week, May 25, starting at 8:15.

Speaker for the occasion will be Katsuro Taura, from Wayland College at Plainview.

Jimmy Rankin is valedictorian of the class and Cleona Graves is salutatorian.

The public is invited to attend the program.

Soil Tour Will Be Held Later

The annual soil conservation tour planned by the Floyd County Soil Conservation District and various local organizations has been postponed for an indefinite time according to Robert H. Gibson, chairman of the routing committee. The field day was originally scheduled for the 17th but had to be called off because of inclement weather. The board of supervisors of the district will meet in the near future and set another date.

It may be necessary to change the itinerary in some instances but most of the program for the day will be the same as originally outlined.

The district supervisors and committees working with the board will make every effort to set a date that will be convenient for everyone interested in viewing results of the conservation program in this vicinity.

MAKES HARVEST QUEENS TEAM—Velma Seale, daughter of Mr. and Mrs. J. B. Seale of Lockney, and a member of the graduating class of Lockney High School this year, was accepted Wednesday as a member of the traveling squad of the Hutchins Flying Queens, Wayland College girls basketball team. Velma has worked out with the girls at Wayland two times and has shown such ability that she was assured Wednesday by Coach Garland that she would make the traveling squad at least.

The Queens have made an outstanding record in girls basketball the past year. Feature trip next school term will be a 10-day trip to Cuba. The team will open the season on October 31, November 1 and 2 in Iowa.

Velma has been an outstanding athlete in Lockney High school for the past four years. She was leader of the Longhornettes team the past season in winning the district title.

Memorial Service At Cemetery Wed.

A Memorial Day service at the Lockney Cemetery will be held Wednesday just after noon. It was announced this week by Ed Carter, president of the Lockney Cemetery Association. Rev. Olan Beauchamp, local pastor of the Assembly of God will speak.

The day will be spent in working on graves and in decorating of the graves, he said and a basket lunch will be served at the noon hour. Everyone interested is urged to bring a lunch and join in the service.

Mr. Carter is especially urging those interested in the Lockney Cemetery Association to be present at the Memorial Day service and the business meeting to follow. Officers will be elected at this meeting and other business matters attended to.

Montague Infant Dies Saturday

Keith Dee Montague, infant son of Mr. and Mrs. Marvin D. Montague of Silverton, died late Saturday evening, 16 hours after birth. The infant's twin sister, Carol Ann, is doing fine as is her mother, the former Carolyn Brunner of Lockney.

Funeral services for the infant were held Sunday afternoon at 5 o'clock at Silverton.

The Montagues have an older son, John Milton, 22 months old, who is staying here with his grandparents, Mr. and Mrs. G. M. Brunner.

BREAKS ARM

Mrs. E. E. Savage, who lives 3 miles north of Lockney, fell at her home Tuesday afternoon and broke the large bone on her left arm. She was treated at the Lockney General Hospital. The accident happened when Mrs. Savage stepped up on a box to take something off the wall. When she stepped down her ankle turned and she fell, breaking the arm. The Savages live on the Leslie Ferguson farm.

Grappling Hooks Are Being Made

Fire Chief Lowell Bilibrey, former chief Cap Carthel and Deputy Sheriff Alton May along with other members of the Lockney Volunteer Fire Department, are making some grappling hooks to be kept at the Fire Station ready for use when needed in this area, it was announced this week.

The full ladders and large amount of water standing around in the area prompted the men to make the hooks so that they would be available in case of a drowning, it was said.

The hooks will be available to anyone in this part of West Texas, Bilibrey said.

AWOL Soldier Is Arrested Here

Deputy Sheriff Alton May picked up an AWOL soldier here last Saturday and placed him in jail at Floydada waiting instructions from authorities at Houston.

The soldier was Pvt. Virgil Hines, who had worked here one time before. He was also wanted on a felony charge from Houston, May said. His post was Camp Polk, La.

Military authorities advised the sheriff's office that Hines had visited at Lockney one time before and may return. When May checked here he found the soldier who admitted his identity.

DR. MARTIN L. COLE
Dr. Cole is academic dean of Eastern New Mexico University and will be the principal speaker at Commencement Exercises for the seniors of Lockney High School Thursday evening, May 27 at the First Baptist Church.

5.74 Inches Rain Last Week Here

Total rainfall in Lockney last week was 5.74 inches according to J. H. Holt at the Lockney General Hospital, official weather observer.

The rainfall was measured on these days:

May 15—3.4
May 16—2.90
May 17—2.42
May 18—.06
May 20—.02.

The heavy rains on Wednesday and Thursday flooded the area, ruining most of the cotton that had been planted and washing the land badly in some areas.

A portion of Plainview along the Running Water Draw was under water and houses were damaged to some extent. A portion of Amarillo was also under water, and homes were flooded.

Meanwhile local farmers were scrambling for more cotton seed and some had already decided to plant some of their planned cotton acreage in grain sorghums.

Free Show And Hail Prevention Meeting Friday

A free picture show and a hail prevention meeting will be held at the Mesa Theatre in Lockney Friday night, it was announced this week by M. W. Wiley, president of the First National Bank here. The meeting will be for the purpose of completing the signing up of farmers in a local hail prevention block.

The hail prevention project is worked something on the order of rain-making, according to a statement made Tuesday afternoon by Gordon Clouser, of the Skyblock Scholarship House, of Norman, Okla. Clouser spoke to about 40 farmers in a meeting at the Plains Theatre here and most of the men appeared to be enthusiastic about the plan, it was reported. About 4000 acres were signed up at that time. Mr. Clouser wants about 25,000 acres in Floyd County and 102,000 acres in Western Floyd, Hale and Eastern Lamb counties. The price is 40 cents per acre. More than half of the required amount has been signed up, it was reported.

The plan of preventing hail is worked by means of detecting a storm before it forms and seeding the clouds with silver iodide crystals causing the hail to fall while it is so small that it will melt before it hits the ground. Mr. Clouser said that a rain-making project might be worked along with the hail prevention.

The show will start at 8 p. m. showing a Randolph Scott picture in technicolor. The meeting will follow immediately after the picture, Mr. Wiley said. The show will be free to all farm family heads.

Commencement At Baptist Church

Commencement exercises for the graduating class of Lockney High School will be held tonight (Thursday) at the First Baptist Church auditorium. Supt. Sidney Reeves announced Wednesday. The exercises were scheduled at the City Auditorium but were moved to the church in order that better seating would be available, he said.

Thirty-seven seniors will be awarded diplomas in the exercises starting at 8:30 p. m. The list of students receiving diplomas are: Felicia Applewhite, Fredda Bybee, Jontha Lee Casey, Betty Clark, Shirley Cooper, Patsy Fortenberry, Jeannine Foster, Roylene Hall, Shirley Holt, Mary Jones, Wanda Kellison, Barbara Mullins, Murline Nance, Jeanette Pickens, Mary Rigdon, Mary Sammann, Nelda Schaffner, Velma Seale, Laverne Seigler, Jean Willis, Cleva Crouch, Lupe Gonzales, Cecil Boedecker, Gene Collis, Stanley Conner, Joe Cunyus, Pat Frizzell, Edgar Hartley, Malcolm Howard, Joe Huffman, Lloyd Leach, Bobby MeLeod, Ronald Reece, Rex Rogers, Billy Sloan, Sid Thomas, Lewis Gayne Carley.

Valedictorian of the class will be Stanley Conner and salutatorian will be Wanda Kellison. Speaker of the evening will be Dr. Martin L. Cole, Academic Dean of Eastern New Mexico University at Portales.

The program for the evening has been announced as follows:

Therefore thou art inexcusable, O man, whosoever thou art that judgest: for wherein thou judgest another, thou condemnest thyself; for thou that judgest doest the same things.—Romans 2:1.

Already farmers of the area are talking of "another 1941." The record shows that the rain, fall in this area has ranged between six and twelve inches for the month of May thus far. While we do not wish to intrude on the sacred ground of Mr. Homer Steen of Floydada or Mr. Tack of Amarillo, we do not believe that the May rainfall is a dependable indication of a year as wet as 1941.

A man who has the training and experience sufficient to know tells us that a lot of cotton is going to be planted over that shouldn't be. He says that it can be "scratched out" barring more rains (this is written on Monday) and that a large part will still

come up to a stand if the farmer will just have patience. It is our observation that most high plains farmers don't have much patience, especially when it comes to waiting for cotton seed to get out of the ground.

Although most irrigation farmers didn't appreciate the recent rains, they were and will be a "life saver" to the dry land people of West Texas. The Panhandle and South Plains area was in the midst of one of the worst drouths that has struck this area in many years.

They say history repeats itself—and we are struck by the almost identical situation appearing in Lockney now that occurred in 1909—as brought out by the "Long Ago" column carried in The Beacon. The town then was just organizing a Commercial Club, was working on road projects, was trying to help the farmer, etc.

History repeats itself in more ways than one. Whenever something of unusual interest happens, whether it's a chamber of commerce project, heavy rains throughout the year or a disagreement among school patrons or districts, we can always look back and see where the almost identical thing happened before and we may confidentially expect it to happen again sometime regardless of conditions or communities.

There is a thought abroad among the "great thinkers" of the generation that the moral standards of the people as a whole are sinking fast. They are not thinking of small things but of large things, such as common honesty with one's neighbors, principles to live by, high ideals of personal conduct.

OUR DEMOCRACY—by Mat

MEMORIAL DAY

Countless men and women of past generations have, by their courage, integrity, devotion and sacrifice, contributed to the glory that is America. How sleep the brave? They sleep well, their duty done, their fame secure—as we, the living, carry on the purpose to which they dedicated their lives—the perpetuation and advancement of Our Democracy.

With Our EXCHANGES

TRAFFIC VIOLATIONS . . .

We have heard it said that you can have a bloody wreck in Garza county, killing and maiming innocent people and never even be fined, but just steal some chickens and you can go to the penitentiary for five years. The man who would never think of beating his landlord out of his rent, beats the traffic light every day. The fellow who would never take his gun and shoot a child speeds by the schoolhouse daily, never thinking one might run in front of his car.

is lax. Traffic violations are placed in a different category from other lawbreaking. On most questionnaires is asked "Have you ever been convicted of any crime other than a traffic violation?" or words to that effect.

Isn't it peculiar that the human brain begins to function from the moment you are born, improves as you grow older, then stops completely when you stand up to talk?

Lubbock Sports Writer Praises Pat Frizzell

Don Oliver, sports writer for the Lubbock Morning Avalanche, this week carried quite a few comments about Pat Frizzell of Lockney, concerning the little man's athletic ability. Pat is a member of the graduate class and his home is at Lone Star. Here is what Oliver had to say:

LITTLE PAT FRIZZELL of Lockney is one of the best athletes, pound for pound, that we have ever seen. The youngster, who might weigh 120 pounds sopping wet in a GI overcoat, and who stands about knee high to a collie dog does everything in sports, and does it in a sensational manner.

Last fall we covered a couple of Lockney thrillers, and were amazed at how the little man could operate from his quarterback slot. He seemed much larger with all of his padding on underneath his jersey. He ran, passed, and did about everything that a back should.

Then, during the winter months we chanced to observe the Lockney basketball team in action in the district tournament. Who was the standout on the court — Little Frizzell of course. Darting everywhere, scoring with his two-hand push shot, he paced Lockney into a three-way tie for the title.

In track, he was an outstanding distance and middle-distance man. Now, he's concentrating on baseball, and has done it again.

The Longhorns won the baseball championship of the north half of District 3-A last Monday with Pat on the mound for the victors. He struck out 13 and had a shutout until an error after two men were out in the seventh gave Abernathy a new start and they scored three markers.

There have been a lot of outstanding "little men" in the athletic world. TCU's great Davy O'Brien, Bantam Ben Hogan, Baylor's Billy Patterson and the University of Texas great miler, Jerry Thompson all achieved distinction for their feats, and we think that Mr. Frizzell de-

serves just as high honors.

Pat is not only a fine athlete—he's a fine boy. A leader on the field and in the classrooms. Coach Curtis Kelly is very high in his praise of Pat and so are the residents of Lockney.

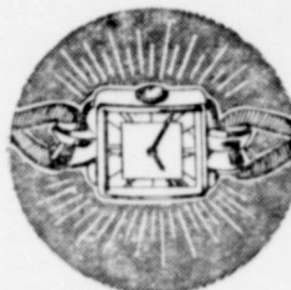

Pat—you're tops in our books. If you were about two times bigger you'd make the Lone Star State forget all about its Kimbroughs, Baughs and Walkers. You may do it anyway, we wouldn't bet against it.

Texas cotton producers harvested an average of 205 pounds of lint per acre last year despite unfavorable weather and heavy insect infestations. This compares with the 1939-48 average of 170 pounds per acre.

During the past 15 years, cash operating expenditures by farmers have increased from an annual outlay of 5 billion dollars to 18 billions last year.

Wilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race.

"I've just driven the most powerful car* in the U.S."

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER—REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions—in his own words—as taken down by a recording machine in the car:

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale of an automobile.

"I'm completely bowled over by the ease of steering! This steering combined with the automatic trans-

mission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine.

"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block.

"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important . . . especially in the summertime.

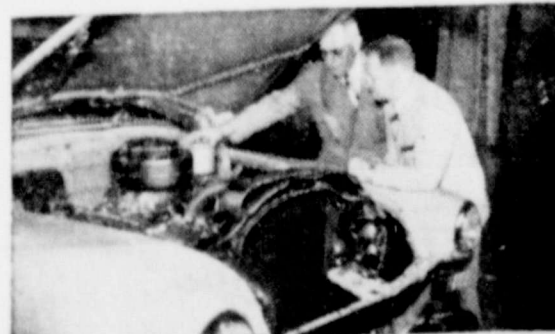

"Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself."

Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every department.

"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!"

(Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)

Mrs. Griffith Is A Real Pioneer

(Note: The following story, from the Lubbock Avalanche, tells some of the details of the life of Mrs. Mattie Griffith of Lockney, a real West Texas pioneer. Mrs. Griffith was honored on Mother's Day with the story on the front page of the Avalanche. Her grandson, B. L. Griffith of Abernathy, gave her an airplane trip to Dallas on Mother's Day, her first time to ride in a plane.)

By OPAL DIXON
Avalanche-Journal Staff Writer

"MY CHILDREN and my home are my life."

An 85-year-old mother, grandmother, great-grandmother, and great-great-grandmother made that remark, expressing the feeling of many mothers throughout the world, a few minutes before she stepped on an airplane at Lubbock Municipal airport.

She was Mrs. Mattie Griffith of Lockney, who has ridden in oxcart, wagon, hack, horseback, automobile—and now on a plane.

It was her first plane ride, but Mrs. Griffith has become accustomed to new experiences in a lifetime that has included such pioneering activities as using her needle and silk thread to suture a son's wound. The son, Jake, now of Lockney, had fallen on the wagon brake and suffered a severe cut on an arm while the family moved through the Blue Mountains by wagon.

Concerning modern transportation methods, Mrs. Griffith said, "I think it's wonderful to have them."

Walked To School
Then she smiled her cheerful smile and added that folks now "can hardly cross a street without riding." She recalled that when she attended a log cabin school in Bell county, she walked three miles to school.

Her first plane trip was a gift from a grandson, B. L. Griffith of Abernathy, who accompanied her to Dallas for a visit with her youngest son, Frank Griffith. They returned by plane that night. Mrs. Griffith had been wanting a car, but decided that was "too dangerous" and compromised for the plane trip.

The trip brought another "first" to her. Just before she stepped on the plane, Pioneer Airlines presented her with her first orchid.

Does Own Housework

Mrs. Griffith does her own housework. She lives in a two-story house across the street from Lockney High school. She has divided her home into apartments, which she keeps rented. She sews for herself, her granddaughter, and grandchildren.

She is the only living charter member of Lockney Methodist church. She has sung in the choir since it was organized.

She credits her good health and longevity to "turpentine and calomel," which she considers "the cure for all illnesses."

All of her children are living except one son, Wat, who died Feb. 28. They are Jim of Brownfield, Theodore and Jake of Lockney, Ray of Plainview, Fred of California, Frank of Dallas, and Mrs. Ida Dodson of Lockney.

Ever Day Wonderful
Since her trip was for purpose of making a Mother's Day visit, Mrs. Griffith commented on motherhood. "Every Mother's day I have is wonderful, because my children always remember me and come on Mother's day if they can," she said. "Just being with the children" is what she enjoys.

Her smile came frequently as she commented on her lifetime. Young People now have much more entertainment than her generation had, but "I wonder sometimes whether they enjoy it any more," she said.

Concerning modern rushing, she smiled and said, "You have to get out of the way." Did she rush so much? "I don't believe I'd be living now if I had," she said.

Born In Iowa
Mrs. Griffith was born in Iowa in 1865. She will be 86 Aug. 16.

She moved from Iowa to Missouri, then to Texas, when four years of age. She and her parents traveled in covered wagons, pulled by mules. Enroute, her mother died and was buried across the Red river in Indian territory. The father settled in Bell county, where Mrs. Griffith married Daff Griffith in 1881 in Salado. Four years later they moved near Quanah, where they farmed seven years.

In 1881, they hitched their oxen to a covered wagon and moved to West Texas, settling in Floyd county on a section now known as Lockney City farm. Many hardships were endured their first few years on the South Plains. Their home burned and a new one was built. They would

Huntin' AND Fishin'

By Harve Pennington

All Trout lures are probably designed to appeal to the appetite of the fish. They are imitations of something on which trout feeds. With bass lures it is quite different, and while many of them are fashioned to imitate natural foods, just as many have no other purpose than to excite, infuriate, or arouse the curiosity of the fish.

The temperament of the bass is the explanation for this latter group of lures. Bass have a tendency to be short-tempered and very pugnacious most of the time, and are somewhat moody. Because of these traits there are occasions when it is advantageous to use something other than natural food or its imitation to induce them to strike. Probably every bass fisherman has known times when these fish have refused a variety of tempting natural baits, but have smashed savagely at some plug which certainly was nothing like any living creature.

Whether a bass is protecting its nest or a favorite feeding spot, it resents any and all intrusions and is quite likely to attack the intruders. This tendency to attack is most pronounced when the fish are on their spawning beds and for a few weeks following the scattering of the fry. At such a time bass are easily caught, and this is one reason why many states have a closed season for the duration of the spawning-bed period. Where fishing at this time is legal, and you find a spawning bed, it is no trick at all to make a catch. Where it isn't legal, and you are fishing for other species of fish, keep away from spawning beds and so give the bass a break.

Silage Is Cheapest And Best For Herd

College Station. — "A full silo is good feed insurance. If pastures get short or drought strikes, silage will keep the dairy cow producing." This statement is from a new bulletin prepared by Texas A. & M. College dairy specialists.

The authors of Extension Service bulletin 186 say that silage is the cheapest, and best substitute for a good pasture.

Next to pasture silage is the cheapest source of feed. Based on certain cost figures given in the bulletin, 100 pounds of total digestible nutrients from silage costs \$1.40; from alfalfa hay, the same amount costs \$3.00, and from a concentrate mix, \$5.40.

One ton of silage, costing \$4 or \$5, is equal in feeding value to about 500 pounds of 16 percent grain mix, costing \$17 or \$18.

In addition to the advantages and costs of silage, this bulletin contains information on silage crops, different types of silos, harvesting silage crops, filling silos, and feeding silage.

During 1950, extension home management specialists of Texas A. & M. College and county home demonstration agents trained 1,898 adult and 604 junior and adult 4-H leaders in work simplification. These leaders in turn trained 43,409 homemakers.

In the dressmaking and children's clothing programs, conducted by the Texas Agricultural Extension Service, 235,545 dresses and 237,436 garments respectively, were made at home by home demonstration club members and cooperators.

At the end of 1950, 19 cooperative health centers and nursing staffs along with necessary equipment were in operation in Texas.

Dalhart Nips Ralls In Playoff, 2-0

Dalhart.—Dalhart High, behind the hitting and pitching of Richard Howerton, scored a 2-0 victory over Ralls in the Region A baseball playoffs here Saturday afternoon.

Howerton who held Ralls, the 4-A champion, to three hits conceded a home run with one teammate on base to drive in the winning runs in the fifth inning. Howerton, a lefthander, struck out eight Ralls hitters, while Roberts fanned seven Dalhart batsmen.

Raylee Johnson, Dalhart right-fielder, collected two hits in three trips to the plate. Aside from his homer, Howerton also connected with a double.

VISITS HOME

Miss Trois Muncy, a freshman at Texas Technological College, Lubbock, visited the past week end with her parents, Mr. and Mrs. A. B. Muncy Sr. of the Muncy community. She is a member of the Tech Red Raider band and a member and treasurer of the Beta chapter of Tau Beta Sigma, honorary bandwoman's sorority. This chapter and its brother chapter of Kappa Kappa Psi, also of Tech, won the L. G. Balfour awards, which is an award given to the most outstanding chapter in the nation.

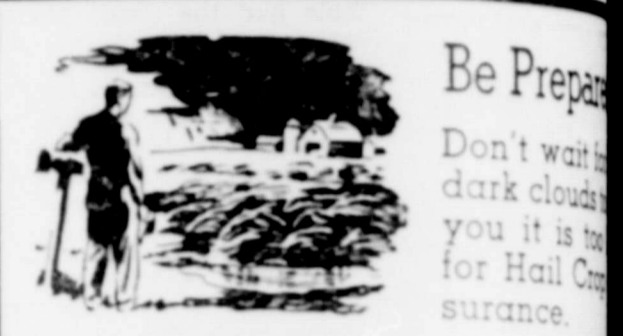

For 32 years it was entitled "An Act of Established a Uniform System of Bankruptcy Throughout the United States." Recently Congress changed the name of the "Bankruptcy Act" it's encouraging to learn that the government really isn't intent on bankrupting all business.

23 States Accept 4-H Public Speaking Program For 1951

The 4-H Public Speaking program—now in its second year—promises to become very popular with Club members in Texas. Realizing that the ability to project thoughts and ideas clearly is of prime importance in leadership, citizenship and everyday life—they are earnestly taking part in the program, in order to trim corners and make their best better. Twenty-three states have accepted the program for 1951, as compared with 19 last year.

Gold-filled medals are awarded to the boy and girl winners in each participating county. State winners' awards comprise a handsome set of silverware for the top-ranking girl, and a 17-jewel wrist watch for the outstanding boy. Winners are determined not only on what they say, but on how well they say it. All awards are provided by the Pure Oil Company.

Texas' top ranking boy and girl in the 1951 Public Speaking program will be selected in the elimination contest at the State A. & M. College, October 1-6.

Don McGinty, Dickens county, was last year's watch winner in Texas. Frances Mullins, Bastrop county, received the silverware award for her outstanding work. County medals were awarded to 16 4-H'ers in the state.

This program is conducted under the supervision of the Co-operative Extension Service.

Andrew Jackson gave more political offices to newspaper men than all of the other presidents put together.

Texas county agricultural agents in 162 counties reported that 1,651 grain storage buildings were erected in 1950 as were 1,028 dairy barns in 164 counties.

Outdoor Girl

You can pay more but you can't make a better buy in a convertible! You get the quiet, get-going power of a V-8 engine... the type of engine now powering the top models of America's top cars. It's fuel-saving power, too, with Ford's Automatic Mileage Maker squeezing the last ounce of power out of every drop of gas. And you get a ride that's the equal in comfort of far costlier cars, with Ford's Automatic Ride Control self-adjusting the ride to the road.

They're built for the years ahead

Glamour Girl

If you want to enjoy the wide-openness of a convertible and still have a steel-topped car, you can't do better than Ford's new Victoria! It offers you your choice of beautiful solid colors or 4 smart two-tone color schemes (with color harmonized interiors). And for driving at its finest, it offers Ford's newest, most advanced of all automobiles.

When you buy for the future—buy

All-around Girl

On any moment, Ford's "Country Squire" is a beautiful eight-passenger station wagon... the next, it's a rugged hauler of half-ton loads. No other low-priced station wagon offers you so much one-level floor space or your choice of V-8 or Six engines. And only Ford, in its field, offers you your pick of three great transmissions: Conventional, Overdrive* and Fordomatic.*

You can pay more but you can't buy better.

Don't Delay In Filing SS Claims

"Don't delay filing your application" is the advice issued today to persons who may be eligible for benefits under the revised social security program by John G. Hutton, manager of the Lubbock office of the Social Security Administration. "You won't 'use up' your Federal Old-Age and Survivors Insurance benefits by drawing them as soon as you are qualified," Hutton said. Benefits are payable for life, but remember you must file a claim. Old-Age and Survivors Insurance is payable only if claimed. For complete information, get in touch with the Social Security Administration, 1311 Texas Ave., Lubbock, Texas.
