VOLUME 49

LOCKNEY, FLOYD COUNTY, TEXAS, FRIDAY, AUGUST 3, 1951

NUMBER 48

LOCKNEY BOY DECORATED
—WITH THE 1ST CAVALRY DIVISION, US ARMY IN KOREA—Corporal Robert L. Williams, right of Lockney, is congratulated by Col. Robert M. Blanchard, commander of the 1st Cavalry Division's 8th Cavalry Regiment, after being decorated with the Purple heart medal for wounds received in action on the Korean front. Robert is the son of Mr. and Mrs. Jess Williams of Lockney and has seen considerable action in Korea.

Three Mexicans Charged With Automobile Theft

Three Mexican young men, Willie Torrez, Octavio Gonzales and Guadalupe Martinez, were charged with auto theft in district court at Floyd late Wednesday after Deputy Sheriff Alton May had picked up the boys from Plainview officials where they were arrested Wednesday morning.

The Mexicans are charged with stealing a 1950 model Ford from a farm near Flomot Saturday afternoon. Torrez made a statement to officers admitting the theft and implicating the other two.

The three youths were working on a farm near Flomot, according to Torrez statement, and decided to quit and go to town. They started walking and came upon the car parked at the edge of the field. Torrez said they tried to find the owner and couldn't so they drove the car off. They left it parked in Lockney and caught a ride on into Plainview.

Monday two lady relatives of Mr. Welch, Mrs. John Figg and Mrs. Woodrow Cobb, both of Flomot, came to Lockney looking for the car. They found it parked on College Avenue near the First National Bank and reported to Deputy Sheriff May that it had been stolen. Investigation revealed that the three youths had been seen near the car Saturday afternoon and after determining their identity officers of the area were notified and the Plainview arrests followed.

The car was not damaged and was driven back to Flomot by the ladies. The Mexicans are in jail at Floyd.

Local Coaches At Coaching School

Lockney Coaches Curtis Kelly and Bill Birdwell are spending this week at San Antonio attending the annual coaching school put on by the Texas Coaches Association.

They registered Sunday along with some 1500 other coaches from Texas. The football game between the north and south teams will be played Friday night while the basketball game between the same two areas will be played Saturday night. The local men expect to stay and see both games.

NEW COURTHOUSE BUILDING IS BEING OCCUPIED THIS WEEK

Sand Hill Road Is Being Topped

The work of putting the asphalt topping on the farm to market road from Lockney to Sand Hill thence to Barwise, was begun Tuesday of this week and the contractors expect to complete the road and have it ready for travel within a week or ten days, Commissioner Hugh Counts said Wednesday.

All caliche has been laid and is ready for the topping, it was said. Shooting of the asphalt was started on the north end of the road, at the Lockney city limits and that portion of the road will probably be ready for travel by the week end, Mr. Counts said.

The new farm-to-market road travels south from Lockney to the old Pleasant Valley School house, thence west two miles, and thence south to Sand Hill. From Sand Hill it goes west to Barwise.

Floyd County's official family is now back in the courthouse although the job of moving will probably go on a day or two yet. The moving job was begun Tuesday morning with Luther Transfer and Storage Company of Lubbock getting the moving contract. With employees and officials helping, it is expected that the job will be practically completed in a day or two.

The Commissioners Court conditionally received the newly rebuilt courthouse last Friday from the contractors. Some work yet remains to be done and the Court and the contractors are negotiating concerning overtime damage.

The building was completed 220 days after the completion date called for in the contract; and the commissioners court, meeting last week with the general contractor and the architect, voted to ask for damages from the contractor for failure to complete the job on schedule.

The Court agreed to cut the 220 days due to the fact that the contractor was unable to secure delivery on the brick marble and stone in the building. However they asked for 90 days of overtime damage at the rate of \$25 a day. The total was \$2,250, which was \$750 more than the \$1,500 offered by the construction company. No agreement on the damage payment has been reached.

The Court has not accepted the plumbing and electrical work since this contract has not been completed, Commissioner Hugh Counts said Wednesday.

Although some seats have been installed in the district court room, it will be 30 days before the furniture ordered for that room is completed. Jury boxes and some of the benches have not arrived as yet.

County Judge Frank L. Moore said that no formal ceremonies are planned at this time, but some type of open house program will be held later.

Moving back into the courthouse will mean considerably more working room and also a return to a central office building for county workers, who have been occupying a makeshift building and rented office space since March 11, 1949, when the Floyd County Courthouse was heavily damaged by fire.

A shell of the old courthouse was left standing and usable materials were reclaimed for use in the remodeling job, but the courthouse now presents a completely new front. The building is finished in light brick, with terrazo tile floor in the halls and stairways and acoustic tile ceilings. Outside doors are of solid glass and inside doors are of oak veneer.

The building is cooled by refrigeration type air conditioning system and there is a modern, spiral chute type fire escape. Space for women's club rooms and a county library is provided in addition to the regular offices.

The county carried \$200,000 insurance on the old courthouse building and \$25,000 insurance on the contents. Payments on the

Bluebonnet Troop 4 On Radio Program

Bluebonnet Troop 4 Girl Scouts of Lockney will present a program over KFLD, Floydada on Thursday of this week. The fifteen minute program will begin at 3 o'clock and will consist mostly of music. Mrs. Chester Mitchell and Mrs. Milton Ashton are leaders of the troop. Following the program the group will go to Roaring Springs for an outing.

Cox Retires As Santa Fe Agent

D. E. Cox handed over the keys to the Santa Fe station here Tuesday night and retired as local agent for the Santa Fe railroad after 30 years of service with that company. Nearly 25 years of that time has been spent in Lockney.

Mr. Cox and his recent bride will continue to call Lockney home, he said Wednesday, and he expects to continue his interest in civic affairs. He was elected mayor of Lockney without opposition in the spring election.

The new agent for the Lockney station will be C. E. Ball from Hamlin, Texas. Mr. Ball has 26 years of seniority with the Santa Fe and is highly recommended by the retiring agent. He will probably move here in two or three weeks. Meanwhile a relief agent, Mr. Sherrod from Tahoka, is taking care of the local station.

Hearing on Water District Aug. 9

Plainview. — Ground water users from 21 counties will gather here Aug. 9 to tell the State Board of Water Engineers how they feel about the proposed creation of High Plains Underground Water Conservation District No. 1.

Irrigation farmers and other interested citizens have been invited to testify at the Board's public hearing, which is set for 10 a. m. in the Plainview Municipal Auditorium.

On evidence presented, the Board will decide whether to declare creation of the 10,600-square-mile district. If the district is established, the Board will then appoint a five-man board of directors to supervise an election at which the voters may approve or reject the district.

Such districts are in operation on a much smaller scale, in Martin and Dallam counties. They were created under House Bill 162, passed by the Texas Legislature in the spring of 1949.

The proposed district includes all of Lubbock, Parmer, Hale and Swisher counties and parts of Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Floyd, Garza, Hookley, Lamb, Lynn, Oldham, Potter, Randall and Terry counties.

Agent Warns Of Cotton Insects

Bollworms and fleahoppers seem to be on the increase in Floyd County, according to Cecil Lewis, Assistant County Agent. Every farmer should keep a close check on his field to be sure that the bollworms do not increase to an extent of knocking off too many of the squares.

The proper way to check for bollworms is to look in the top growing part of the plant, the terminal bud, and peel back the leaves around the small squares to find the small worms that have hatched out. If an individual finds 4-6 worms per hundred stalks of cotton he should be prepared to spray or dust for bollworm control. A farmer can spend thirty minutes about 2 to 3 times a week or more if necessary, and by doing so can increase his cotton yields. The most effective time to control bollworms is when they are small, because they are easier killed. The recommended dosage and insecticide to use is 2 pounds of toxaphene to 1 pound DDT per acre (2-1 mixture).

The fleahoppers are checked the same as bollworms and the fields can be checked at same time as for checking bollworms. The amount of fleahoppers necessary to poison is 15-20 fleahoppers per 100 terminals. These small green insects can remove a crop of cotton without the farmer noticing it unless he inspects his cotton regularly, since they do work on very small squares. They can be controlled effectively with three-fourths of a pound of toxaphene per acre when needed.

Also there seems to be a few cabbage loopers and yellow striped army worms that are chewing on the leaves, however these worms do not seem to be in sufficient quantity to apply some control in most cases. The army worm is causing some damage to the young squares in a few scattered fields.

On the whole, Floyd County has one of the best prospects of a good cotton crop on the South Plains.

Play-Off Teams Still In Doubt

The four teams to enter the Lockney Softball League play-off the week of August 20 to 25 were still in doubt this week. Regularly scheduled games in the league will be concluded next Tuesday night, August 7, but there will probably be some make-up games to be played after that date that will have some bearing on the final standings.

According to The Beacon's tabulation, The Fire Department team and Lone Star team both have practically a cinch on entering the play-off series with the other two teams to be decided between Aiken Paymaster, Providence and the Legion team.

According to the original schedule August 9, 10, 13, 14, 15, 16, and 17 were set aside as days for rained-out games to be played. The Beacon does not have a record of the number of these yet to be played.

Last week's games saw some upsets with the Aiken Elevator team coming to the front and winning two games. They have won only one the entire season previous to this week.

On last Thursday night, July 26, the Fire Department team lost a heart breaker to Lone Star 9 to 10 after leading most of the way. In the second game that night Aiken Elevator, sporting a new pitcher, smothered the American Legion team 13 to 1.

On Friday night, July 27, Providence lost a game to the Aiken Paymaster team 5 to 12 in the only game of the night. Lone Star felt the sting of the Aiken Elevator team's new pitcher, the Aiken boys winning 11 to 1, on Monday night, July 30 and in the second game that night the Fire Department defeated Paymaster 11 to 2.

Tuesday night only one game was played with the Legion defeating South Plains No. 1 22 to 6.

Standings according to The Beacon's figures are:

Red Cross Asks County For \$733

Flood victims of Kansas, Missouri, Oklahoma and Illinois need lots of help and because of that the American Red Cross is asking Floyd County to donate \$733.60 as a special flood relief fund. It was announced this week by N. W. Williams, chapter chairman of the Floyd County Chapter.

Mr. Williams and his helpers are mailing letters to all people of the county asking that their donations be mailed to the county chapter or left at the bank. He is urging that every citizen give something to this worthy cause.

Lions Say They Won The Game

The Lockney Lions Club are telling about town this week that they won the grudge softball contest with the Rotary Club last Saturday night but the Rotarians are yelling "no contest" because of the prejudiced umpiring.

Reports here are to the effect that by some manner yet to be explained the Lions Club managed to get two of their members, namely Clyde Applewhite and Charlie Smith, accepted as umpires for the game. From that point on the Rotarians never had a chance.

The final score was close, 16 to 15 in favor of the Lions but the Rotarians claim that they were cheated out of at least 6 scores.

The two clubs have played twice before this year and the Rotarians won both games by substantial margins. The Beacon's scoring department will need further evidence before it can decide whether this game will be counted in the official standings.

Ronald Jefferson Has Freak Accident

Ronald Jefferson, five year old son of Mr. and Mrs. Frank Jefferson of Amarillo experienced a freak accident last Friday. Ronald is the grandson of Mr. and Mrs. C. L. Calloway of Lockney.

A small rope lying on the floor of the car in which Ronald was riding became entangled in a back wheel and also around the boy's big toe. As the car moved from the curb it jerked the toe off his foot. He was hospitalized a few days but is convalescing nicely at his home. Mrs. Calloway visited Ronald several days, returning Sunday night.

Floyd Jackson Hurt Wednesday Morning

Floyd Jackson received a severe cut on the top of his head Wednesday morning when a block and tackle fell from a windmill and struck him. He was helping work on a windmill at the Bobby Tiner place near Lone Star when the accident happened.

Twelve stitches were required to close the wound. An x-ray failed to show any fracture of the skull. He was resting well Wednesday afternoon.

If doughnuts get slightly stale, try toasting them. Slice them in two and put them in a pan under the broiler of your gas range. Butter and serve hot.

To remove grease and dirt quickly from linoleum, floors, use a self-wringing mop and plenty of soapsuds. Add a few drops of ammonia to the water, which should be boiling hot from your gas water heater.

COOL COOKING

It's electric because electricity is coolest of all heat producing methods. Only when you cook electrically does all the heat go into the cooking job. For only on an electric range do you have pan-hugging heat, with the utensil setting right on the heating element. And only in an electric range oven do you have complete six-sided insulation, for only matchless, flameless electric cooking can be completely insulated—without oxygen because it's without flame.

Cook the cool way—the way that lets you prepare an entire meal without raising the temperature of your kitchen more than one degree. Of course, it's electric.

ice. He could not be present for the evening service, but the evening training union was held.

Jimmy Beaver, who is from Amarillo, came down last week to spend a few days with Mr. and Mrs. L. H. Parks and their boys, Jay Frank and Eddie. Jimmy is a nephew of Mrs. Parks.

Dale Sims was home from Camp Chaffee on Saturday visiting his parents, Mr. and Mrs. Will Sims.

Mr. and Mrs. L. N. Johnson are getting settled this week in their new home. They still have many improvements they want to make, but they have the main things completed, so they can move in.

Rev. and Mrs. Merle Winters and daughter were Sunday dinner guests at the home of Mr. and Mrs. H. L. Marble. Mrs. Marble and Mrs. Winters are friends of long standing, for they used to be school mates. The Winters returned to Amarillo on Sunday evening.

Home Demonstration Club Meets

Mrs. Arthur Brown's home in Lockney was the meeting place of the South Plains Home Demonstration Club on Wednesday, July 25. Mrs. Shelby Calahan was co-hostess. The Club met at 2:30 with roll call answered with "A Fire Hazard I Have Corrected."

Mrs. Ruth Smitherman presided over the business meeting. Miss Leita Petty was with the club on this date, and gave a most interesting demonstration on a meal from the freezer. She prepared a meal of Glazed ham surprises, frozen baked corn, tossed green salad with garlic cream dressing, hot rolls and ice cream pie. Several recipes for frozen salads and other frozen dishes was given by Miss Petty. Discussions about different methods of freezing and other questions the club members had were reviewed by Miss Petty. The meal was sampled by all the members present, and delicious refreshments of home made ice cream and cake were served by the hostesses at the end of the demonstration. Mrs. Albert Stewart gave a quiz on "Safety in the Home," and the quiz caused much merriment, but it was agreed that many homes do have many accident provoking things on their premises, and should be corrected.

Mrs. L. T. Woods gave an account of the Civil Defense Meeting which she had attended in Floydada at Miss Petty's office, which was very interesting to all the members. Those who were present at Mrs. Brown's home were Mmes. Gilbert Bean, Walter Wood, Bryant Higginbotham, L. T. Wood, M. M. Julian, J. B. Smitherman, George West, Menard Field, Sim Reeves, A. L. Stewart, Jack Calahan, J. P. Taylor, L. H. Parks, Arby Mulder, Ernest Smitherman and the hostesses Mrs. Brown, Mrs. Calahan, and Miss Petty.

Miss Kay Burns, of Amarillo visited last week in the home of Mr. and Mrs. L. H. Parks. Miss Burns is Mrs. Park's niece. Mrs. Gilbert Bean was ill Sunday and unable to be out to church. She has been suffering with an allergy of the eyes, and it is quite painful.

Mr. and Mrs. Walter Wood visited in the home of Mrs. Sula Julian in Lockney last Sunday. Mrs. Bill Harper is staying with Mrs. Julian at present.

Little Johnny Calahan has the mumps this week. The mumps have never left this community, entirely since last fall.

Mr. and Mrs. E. P. Pritchett and Mr. and Mrs. Murray Julian and their families called at the home of Mr. and Mrs. Frank Vanek Sunday afternoon.

Mrs. Bruce Whitlock, sister of Mr. H. L. Marble was taken to the hospital at Lockney Saturday morning suffering from an attack of diabetes. We hope she is much better by now.

Mrs. George Beedy left early Friday morning to go to Clovis, N. M., where she spent the day with her parents, Mr. and Mrs. T. W. Martin. They had a day of visiting and she returned home that same night.

Mr. and Mrs. George West left on Friday night for Colorado. They plan to attend the Monte Vista Rodeo, which is called the Ski Hi Stampede, and it is held this year on August 1 to 3. They will vacation in other spots in Colorado, also.

On Friday night of last week, Mr. and Mrs. Otho Sanders and children and Mr. and Mrs. John K. West and children met at the home of Mr. and Mrs. Johnny Wilson and family. They spent an enjoyable evening making records of Martha Lee Sanders at the piano, and others of the group at the piano and the violin. Mrs. Wilson served ice cream to the assembly of friends at the close of the evening.

Mr. and Mrs. Carl Lee Banks and son Randy, visited Saturday night at the home of Mrs. Chas. Jarrett and family.

Mr. and Mrs. Grigsby Milton and girls, Donita and Barbara, were callers on Sunday afternoon at the home of Mr. and Mrs. Roy

Childress and Mary Louise. Mr. and Mrs. Winters, from Floydada were also guests at the Childress' home on Sunday.

Society
Aiken W. M. S. Meets Wednesday
 The W. M. S. of the Baptist Church of Aiken met Wednesday afternoon at 2:30 in the home of Mrs. Bert Elam.
 The meeting was called to order by vice president Mrs. O. J. Welch. A short business session was held during which it was decided for the whole society to get together what vegetables any member might have, bring them to the church where they will be canned and sent to the Orphanages in the state. Mrs. Bert Elam, Benevolence chairman is chairman of this project and asks that any one having vegetables suitable for canning please contact her at once.
 Mrs. O. J. Welch conducted an interesting Bible Study from the book "Missionary's Tour of The Bible," after which the hostess served delicious refreshments to the following members: Mrs. O. J. Welch, Odie Dorman, Henry Moore, Lonnie Scott, Witt Simpkins, Bill Snyder, Dub Buckner and the hostess, Mrs. Bert Elam.
 The next meeting will be August 8 at 2:30. All members are urged to be at the church for this meeting which is to be a visitation meeting. Visiting will be done in the interest of the Revival which begins August 12 at the church.

Wyllies Celebrate 38th Anniversary

AMERICAN PRESS ASSOCIATION

EDITORIAL

Let us not be desirous of vain glory, provoking one another, envying one another.—Galatians 5:26.

The statesmanship and leadership of Senator Lyndon Johnson has at last brought some desirable results. Our senior Senator and long-time administration stalwart, Tom Connally has kicked over the traces. Mr. Connally comes out this week and blasts the administration plans of "covering the earth with money squeezed from the American taxpayer." Senator Johnson has never been backward about looking to the interests of the country as a whole rather than trying to go along with and please the administration big boys in Washington. Maybe if our other Senator and a whole raft of our congressmen will catch this disease, the country might yet survive.

This business of trying to buy good will for America and stop the drive of communism the world over with American money is hard for most of us average people to understand. The peoples of the world have seen the results of communism and we are convinced that most of them

don't like it. We find it hard to see the necessity for us to send money and goods to this country and that in an effort to buy them off. In the first place not one in 50 appreciate the help we give them, and in the second place they probably privately look up on us as a bunch of "chumps" for throwing our money away like that. The time is coming when this country must pay what it owes. Maybe we ought to start practicing the art of economy now.

The attitude of the officials of Galveston is a disgrace to the state. These men have sworn to uphold the law, etc., and yet because it pleases them to do otherwise they violate their oaths and refuse to attempt to stamp out the crime that is occurring every day in that city and county. It is to the credit of Attorney General Price Daniel that he is determined to stamp out the lawlessness with or without the aid of the local officials there.

A general breakdown in the moral fibre of people of the country is evident. Not only in Galveston county, where drinking gambling and prostitution are common, but in other areas is there evidence that people as a whole do not have the character or do not stand on the high principles of their forefathers. The weakening of the moral fibre of a nation is, and has always been, the first step toward the destruction of that nation.

A number of newspapers over the state have been making an error that we wish to point out and correct. We have seen a number of stories recently about men killing rabbits and other animals with a "sling-shot" all the while picturing a "nigger-shooter." There is a definite and distinct difference between these two weapons as almost any country boy will tell you. In the first place, a "nigger-shooter" is a weapon with a Y or forked head, the top of each side having a rubber band, preferably from an old innertube, fastened to it. A leather pocket is fastened to the other end of the rubber bands and a rock or other projectile is inserted in the leather pocket, the pocket is pulled back stretching the bands and then released which, of course, sends the rock on its way rather speedily. That is a "nigger-shooter."

A sling shot is simply a leather pocket to each side of which is fastened a long string or cord. One cord is looped in the end and the other simply has a knot in it. The loop is slipped over a finger and the knot end held in the same hand. A rock is placed in the leather pocket, and the sling is twirled around and around until going very fast when the knot end of the cord is released sending the rock very hard. That is a "sling-shot."

PLAYING FOOTIE WITH FRANCO

Add to our mounting list of political and diplomatic immoralties the fact that we have just paid a very high price to get in bed with Spanish Dictator Francisco Franco, the international skunk brought to power by the late-lamented Mussolini and the Vatican.

It is safe to say that before Admiral Sherman died this week he concluded an agreement with Franco whereby certain "aids" and comfort from Spanish fascists would be thrown into the war against Communist aggression. At tremendous cost in dollars and the sacrificing of international moral decency, we are acquiring a few bases in that desolate, dictator-ridden land. In return, the swashbuckling dictator will receive billions of American dollars to bolster his tottering domestic economy and to maintain his people as slaves of the state.

Every dictator at one time or another (and this includes Joe Stalin) has been brought to bed by the United States. History records that no (repeat NO) benefit has ever accrued to this country from such clandestine association. What has actually happened has been a loss of prestige and a sacrificing of domestic principles we profess to uphold. If there is left one dictator with whom this country is not playing footsie, Stalin now excepted, let us fervently hope his identity remains a secret from Washington.—Ralls Banner.

Let Uncle Jay Tell You About The

FLASHOTRAC SYSTEM

Baker **FLASHOTRAC** CO
PLAINVIEW, TEXAS

has set out to equalize taxes on farm and ranch lands, and farm improvements in its district. When the tax surveys now in progress in the Crosbyton district and approved in the Ralls district, are completed, at least three-fourths of the land and improvements in the county will be equitably valued for school tax purposes.

But this big forward step by our school authorities makes the contrast with our antiquated county valuation system even more noticeable. It reminds us that land owners with poor land or poor improvements, and city property owners, in Crosby county have just as much right and provocation to throw the tea overboard as did our forefathers at the famous Boston Tea Party.

By no stretch of the imagination can we see any reason why the man who builds a fine home in the country should be exempt from taxation on that home, while his town neighbor gets a tax increase when he builds a new chicken coop. For the life of us we can't see why a man with a large lake on his farm must pay just as much county taxes

as the man who doesn't have a lake at all. And we can't see the reasoning behind the theory that an irrigation well doesn't increase the value of the land, when irrigated land is selling for twice and three times the amount of dry land in Crosby county.

Lubbock county town and city dwellers had their own tea party two years ago when they freed the county commissioners by petition to equalize the land and improvement values in Lubbock county. We know for a fact that the present Crosby county commissioners' court is much more favorable toward tax equalization that the court of two years ago. We suggest you let your commissioner and judge know your desires on this subject.—Trends in Crosbyton Review.

CARE WITH INSECTICIDES

In view of the fact that this is Farm Safety Week and that one fatality and two near-fatalities have occurred in the area through accidental poisoning by cotton insecticides, we believe it both timely and advisable to place precautionary measures against such accidents high on the list of farm safety practices.

With bumper cotton crops in prospect throughout West Texas and farmers being advised to combat insects with poisons, there is always the possibility of accidental poisoning, either through handling the insecticides or accidentally drinking them, as was the case in the only fatality thus far reported.

The two near-fatalities resulted from inhalation and absorption through skin pores while cotton was being sprayed. Some of the solutions used in spraying are so poisonous that it is considered highly advisable to spray from airplanes instead of tractors.

In the case of liquid solutions, containers should be plainly labeled and the poison should be kept out of the reach of youngsters. A few precautionary measures in the use of cotton insecticides will pay off in a lower accident toll during the current and coming crop seasons.—Hockley County Herald.

Flourides Do Not Cause Cancer

Austin. — Cancer does not develop any earlier in areas where the water contains a high proportion of flourides than it does in flourine free areas, morbidity statistics compiled by the Texas State Department of Health and the M. D. Anderson Hospital for Cancer Research in Houston show.

State Health Officer George W. Cox, in a statement flatly refuting claims by a University of Texas biochemist that flouride in municipal drinking water might speed up the development of breast cancer, said the M. D. Anderson cancer research center, an adjunct of the University of Texas, completely supported the contention that flouride additions to city water supplies does not accelerate the trend toward mammary cancer.

The state health agency has for the past two years recommended that municipalities add flouride in the amount of one part flouride to one million parts of water as a deterrent to tooth decay among children.

Also in support of the health department's position is the word of Dr. H. Trendly Dean, director of dental research, National Institute of Health.

Dr. Dean says he and "Dr. Howard B. Andervont (unidentified) have carefully evaluated the data in respect to the alleged relation of flouride water to an accelerated rate in the development of mammary tumors, and are of the opinion that the evidence... does not warrant modification in the policy of recommending flouridation of public drinking water supplies.

Dr. F. A. Bull, director of dental health in Wisconsin, in a letter to Dr. Cox, wrote that the Wisconsin health department has been accused of contributing to the cancer incidence for the past six years.

"We're going ahead, despite these deterrents, with flouridation," Dr. Bull said.

Dr. Cox said the same bone of contention came up years ago when chlorine, now a common addition to drinking water, was first used to disinfect water supplies.

"Further postponement of flourides in water would penalize children unnecessarily," the health officer said. "They deserve its cavity-preventing properties, and the State Department of Health will continue to recom-

mend its use by any and all cities in the proper proportion."

Close Scout Swim Pool At Camp Post

Dr. F. B. Malone, Council President, announced recently that the Swimming Pool at C. W. Post Memorial Scout Camp at Post, Texas, has been closed for the summer.

This action was taken as a precautionary measure due to several cases of Polio in the nearby City of Post, Texas.

The Scout Camp will remain

open for use of Scout Troops for Camping purposes without swimming facilities. Scout Troops are reminded to get their Camping Permits from the Council Office in Lubbock before going to Camp Post.

A TRIBUTE TO A MAN!

We want to use our advertising space this week to pay tribute to a man.

On Tuesday of this week Mr. D. E. Cox, Santa Fe agent in Lockney for the past 25 years, retired from his duties. Mr. Cox has been a faithful and helpful agent and has not only served the Santa Fe well but has been and is still serving his community in a splendid way.

Speaking for our firm we appreciate his excellent cooperation and help since we have been in business here. We don't think that an agent could have treated us any better and we predict that, regardless of who replaces him here, Lockney will sorely miss Mr. Cox as representative of the Santa Fe.

We appreciate his faithfulness and cooperation and we take this means of paying tribute to him at the time of his retirement from active duty.
