E. O. Cates who lives south of Lockney was injured last Friday afternoon when his car collided with one driven by a negro at the road intersection near the Johns Cox farm. Mr. Cates is in the Pitts Hospital at Floydada and is reported to be improving. His injuries were painful but not serious.

Mr. Cates' 1937 Chevrolet was struck by the 1936 Chevrolet driven by the negro, both cars overturned and were almost demolished. Charges of reckless driving have been filed against the negro, Waiter Hall. He was released on \$100 bail.

Mr. Cates, 64 years of age, was returning home from Hot Springs, N. M., where he had been receiving treatment for the past two weeks. He was within a mile of his home when the accident happened. Three colored men were in the other car, one of them receiving cuts about the face and two others escaping uninjured.

Mr. Cates was pinned under his car until the Cox family secured help to turn the car back upright. The Carter ambulance from Lockney rushed him to the Pitts Hospital. He suffered a bad head cut and bruises but no broken bones.

## DON'T TRY TO RECRUIT NATIONALS

There is a maximum fine of \$2000 and 3 years imprisonment for attempting to recruit Mexican National labor from the person to whom they are contracted, according to local sources and anyone who has such an idea in mind had better think twice. There have been some efforts to hire the Nationals from their contractors in this area recently.

## Vandals Turn Over Monuments

The tops in malicious mischief happened at the Lockney Cemetery recently when some person or persons turned over about 15 or 16 of the monuments, breaking some of them and damaging all of them to some extent.

The damage was discovered the first of this week and the time of the mischief is not known, but thought to be the past week end. No estimate of the probable damage was available but replacement value of the stones will be considerable.

It is the first time that such malicious and uncalled for mischief had happened at this cemetery.

Officers are working on the case and hope to be able to identify the culprits soon. Maximum penalty for this offense is six months in jail or a \$500 fine.

## Dope Suspect Arrested Here

City Officer Earl Cooper arrested a Mexican here about 10 a. m. Wednesday and found a number of cigarettes on his person which are believed to contain marijuana. The suspect had eight whole cigarettes and a piece and apparently tried to hide them when the local officer was searching him.

He gave his name as Charlie Rodriguez. His home is at Karnes City, Texas, and his age was reported to be 21. The man created a disturbance in West Lockney Tuesday night by window peeping. However officers were unable to find him but he was recognized by Mr. and Mrs. Joe Rogers Wednesday morning and pointed out to Cooper who immediately arrested him.

The cigarettes are being sent to the State Department of Public Safety at Austin for analysis to determine if they do contain marijuana. Meanwhile Cooper has filed a charge of disturbance of the peace against the Mexican in county court and he is being held in jail at Floydada.

The man has a brother and other relatives here but they were not involved in the case. It was said.

Mr. Cooper has arrested 10 people for various offenses during the past week. Two were charged with reckless driving, six with drunkenness, one arrested on suspicion and the Mexican.

## Freeze Damage To Cotton Small

Damage to cotton from the hard freeze last week end was probably very little, local gin men said Wednesday. Most estimates were five percent or less. Temperature here dropped as low as 18 above on Thursday night and went down to 26 on Friday night.

A report from the office of County Agent Robert Gibson said that he hasn't determined the extent of the damage as yet but he is of the opinion that it is small.

A fresh norther on Monday sent the temperature down to 28 above and kept most cotton hands out of the fields another day. But every field was busy Tuesday and by Wednesday of this week the gins were running full time and still unable to stay up.

The four Lockney gins had ginned a total of 7,360 bales up to Tuesday afternoon while the gins at Lockney, Aiken, Sterley and Lone Star showed a total of 15,436 bales ginned. The county total, according to Mr. Gibson, was 28,684 the first of the week.

Local ginners say that farmers should wait two to three weeks after the freeze before starting the strippers although a few bales of cotton have already been stripped. But the cotton is still much too wet and too green to be stripped, they say, and it will probably be week after next before the cotton can be stripped without hurting the grade.

The snow on last Wednesday and Thursday measured 2.9 inches, according to Joe Holt, local weather observer, and probably amounted to between 3 and 5 of moisture, he estimated. Maximum and minimum temperatures were reported by Mr. Holt as follows with the reading being made at 9 a. m. and covering the 24 hours previous:

Nov. 1—40-29.  
Nov. 2—30-18.  
Nov. 3—34-26.  
Nov. 4—38-44.  
Nov. 5—70-28.  
Nov. 6—55-26.  
Nov. 7—66-26.

## Hagood Rites At Fort Worth

The body of Mrs. H. E. Hagood lay in state at the Carter Funeral Home here Sunday afternoon and was carried to Fort Worth Monday where funeral services were held at the Central Methodist Church at 2 o'clock. Dr. G. Alfred Brown officiated.

Mrs. Hagood, a daughter of A. J. Crager of Lockney, and sister to Arch Crager, passed away early Friday morning at Dumas where she was visiting Mr. and Mrs. Jim Pardue. Mrs. Hagood had been in ill health for several years, suffering a series of strokes. Immediate cause of her death was pneumonia. Mrs. Hagood made her home in Plainview with her sister, Mrs. J. M. Johnson. Her husband died four years ago at Fort Worth.

Other survivors include two sisters, Mrs. Ray Light of Fort Worth and Mrs. John C. Tucker of Dallas, and one brother, Grady Crager of New Mexico.

Mrs. Florence Hastings from Artesia, New Mexico arrived Monday for an indefinite stay with her daughter and family, Mrs. Joe Foster.

## Methodists Get \$6,237.11 Damage On Sunday Fire

Officials of the Lockney Methodist Church and insurance company representatives agreed Wednesday on a settlement of \$6,237.11 for loss suffered by the church in a fire last Sunday.

The fire burned in the basement of the church for some time, burning out a closet, ruining a piano and other furniture in the basement and ruining the finish in the entire downstairs. In addition the heat ruined the finish on the walls of the sanctuary and other upstairs rooms.

Rev. N. S. Daniel said that the entire upstairs would have to be refinished, that new wiring would have been run in the basement and that the basement would have to be replastered and finished.

Services will be held at the church as usual Sunday, Rev. Daniel said. Some classes will be crowded up, he said but all classes will meet and regular worship services will be held.

Origin of the fire was undetermined. A burning odor was detected by members of the church after services Sunday morning but a close inspection revealed nothing. Rev. Daniel and J. J. Harris, custodian, both inspected the basement but found nothing. Several people ate dinner in the basement of the church, in order to leave early for the Methodist mass meeting at Lubbock. They also failed to find any evidence of fire. However about 1:15 when Mr. Harris returned to the church he found smoke pouring out of the basement windows and turned in the alarm. Evidence was that the fire started on the floor of a closet in the basement.

The Lockney Volunteer Fire Department had a great deal of difficulty in locating the fire due to the dense smoke. Claude Brown, a member of the department, donned a mask and went into the basement. Finally the blaze was located and extinguished.

Equipment in the kitchen was undamaged and some Sunday School equipment in the basement was also undamaged. Work is expected to start very soon on repairing the building.

## Army Deserter Arrested Here

Travis Eaton, 19 years of age, army deserter and probation breaker, was arrested in Lockney last Wednesday night by Deputy Sheriff Alton May. He is now in jail at Floydada where county officials are waiting to see what army officials want to do with him.

Eaton began his troubles last year when he stole a car at Floydada. He was arrested, tried and given a two-year probationary sentence, in which he was to report to the probation officer each month. He reported two months and then disappeared and was arrested in May of this year at Clinton, Ark. He broke jail there and was not heard from until Deputy Sheriff May arrested him here. If Army officials do not want him, his parole will be revoked and he will be sent to the state penitentiary to serve the two years sentence probably, officials said.

There is still plenty of time for planting winter legume crops. Inoculated and fertilized winter legumes are valuable as soil builders, supplemental grazing crops and if harvested for seed, they become a cash crop.

**Huntin' AND Fishin'**

By **Harve Pennington**

In the opinion of many wild fowlingers the plump and plentiful mallard head the list of ducks for all around cunning, size, beauty, and comes close to his cousin, the black duck, for table qualities. Suspicious by nature, this wariest of ducks almost never plumps straight into or alongside a bunch of decoys. Instead, they usually make several preliminary circles of inspection, then if nothing alarming appears down they come with light splashes.

Two general characteristics help identify mallards in the air, the wing spread is broader than that of most ducks, and the head is smaller and more finely shaped. Most hunters recognize mallards first by their general greyish and grey brownish effect, and the characteristic purple bar which appears as if inset in the wing converts about half way to the tips, on both male and females. In the spring the male mallard is the easiest of all ducks to identify, as his brilliant, green head is unmistakable and the rich brown of the breast and shoulders is conspicuous, the beautiful sheen of "mallard green" has never been successfully imitated by artist, textile weaver, or jeweler. However this fades some and becomes duller in the summer and fall, but enough remains in most cases so that a keen eye can identify it.

Male mallards seem to be increasingly predominate in the flocks of late years. But the females are almost as easy to identify, with their prevailing grey to grey brown mottled feathers, and the same purple wing bars as the males. Mallards are dippers, accustomed to feed in shallow waters, and congregate closer to shore than in small flag grown ponds and the shallows in larger waters, also along small streams and the shallows of larger ones. Mallards, like most "dippers" take off easily, without any preliminary run along the surface. In fact they can bound straight into the air, except in an extremely stiff wind.

**Methodist Notes**

A large number from our church attended the mass meeting at Lubbock Sunday afternoon. There was approximately 10,000 people present. The great choir which sat in the form of a cross was very impressive. It was good to see such a great number of Christians gathered together.

We rejoice over the great service we had Sunday morning. Twenty-one people united with our church and others will surely come.

Fire broke out in the basement of our church Sunday afternoon about 1:20. Much damage was done. The upstairs however is in very good condition and we will have services as usual Sunday. We need every member to rally to the church and be present to help carry on God's work. The damage could have been much worse.

**Thoughts For The Week**

"Faith in Christ calls for the gift of self."

Christ points the way; may each of us choose to follow in it.

I want my life to tell for Jesus. Does my life bear witness to the power of the gospel?

**Soil Conservation News**

Buck Sams of Lockney has pulled nine bales of cotton from 9 acres of former alfalfa land. There is more cotton left on the stalks.

Claude Hammit is having another acreage bench levelled. He expects to plant improved pasture grasses in this block. The other area that was benched for him in the spring of 1950 has had grain sorghum and this year it has cotton on it.

Spencer Bailey stated that in irrigating 1000 foot rows on land just out of sod took six hours longer than rows on summer fallowed land next to this old sod land. The organic matter in the sod land and the general good condition of this land made the difference. The sod land soaked up more water and did not wash like the fallowed land.

**Amendment On University Fund Is Explained**

(Editor's Note — This is the third and last of a series of articles written to explain five proposed amendments to the Constitution of Texas. Voters will decide in an election on November 13 whether they shall become parts of the Constitution. These articles are provided by the West Texas Chamber of Commerce as a public service.)

The University Permanent Fund exists for support of the University of Texas and the Agricultural and Mechanical College of Texas. It consists of money received from oil royalties and from sale and leasing of land.

The two institutions cannot spend the principal of this fund. They actually receive, therefore, only the earnings—interest or dividends — from investment of the principal.

The Constitution now requires that this money must be invested in bonds or other securities that are issued by or guaranteed by units of government—federal, state or local.

This amendment would allow investment to be made in preferred and common stocks of corporations. Not more than half the fund could be invested in stocks at any time. Not more than one per cent of the fund could be invested in securities of any one corporation. Not more than five per cent of the voting stock of any corporation could be bought.

Investment would be restricted to stocks of corporations that have paid dividends 10 consecutive years or longer prior to date of purchase.

James Hart, chancellor of the University of Texas, has made this statement regarding this amendment:

"Average yield from University Permanent Fund investments under present restrictions to government-supported securities — is 2.49 per cent.

"Average yield of comparable investments of all other major universities of the country, which are not so restricted, is 4.6 per

cent.

"Investing the Fund in securities other than government-guaranteed ones would be a "hedge against inflation." Cost of operating the University of Texas and Texas A. & M. College has risen greatly.

"The Legislature must appropriate

out of tax money whatever funds are needed above earnings of the Permanent Fund to operate the two institutions. Therefore, the more the Fund itself owns, the less the two institutions. That means that the more the Permanent Fund earned the less the taxpayers of Texas must pay to support the two schools."

The parents, teachers, Town-

all those donating, helping, and  
attending the Halloween Carni-  
val. Money made this year will  
be used for one of the following  
projects: inter-communication  
system for the school, linoleum  
for the school cafeteria, or light  
fixtures for the school. The a-  
mount made this year will help  
to determine which one will be  
chosen.

There are eighteen teachers be-  
sides classes in High School and  
the Legion Hall. Due to over-  
crowded conditions Mr. Dodson,  
principal, has to teach five clas-  
ses a day. Every time an an-  
nouncement has to be made or a  
child is wanted on the phone a  
trip has to be made down the  
hall. As there is no auditorium in  
the building no programs, plays,  
musicals, or otherwise may be  
put on for all students to hear  
and enjoy. With the inter-com-  
munication system installed all  
class rooms could be tuned in  
at once. Mr. Dodson feels an  
urgent need for this.

### EDITORIAL

Let no man deceive himself. If any man among you seemeth to be wise in this world, let him become a fool, that he may be wise.—I Cor. 3:18.

Next Tuesday, Nov. 13, the voters of Texas will decide whether or not five different constitutional amendments will be adopted. These five amendments are important, some of them controversial, and every voter ought to inform himself about them and go to the polls and vote.

The first proposition concerns a state-wide system for retirement and disability pensions for appointive county officials and employees. This amendment was voted down in 1949 and it seems to be unimproved in its present form. There is no limitation, apparently, on the taxes required for the act, and it would be a duplication of the Federal Social Security Act since that agency now allows counties and their employees to contribute jointly to it.

The second amendment provides for the investment of the Permanent University funds in securities other than bonds issued or guaranteed by the government units or agencies. The permanent fund has built up to an amount of some \$100,000,000 and the investment of this fund in something other than low-rate government bonds will increase the income of the fund probably as much as \$2,000,000 per year, officials say.

The third amendment would permit ad valorem taxes for rural fire departments, not to exceed 50 cents per \$100 valuation. Due to the thin rural

population of this area, it would probably be of little value to West Texas, although it might be beneficial to thickly settled areas.

The fourth amendment would increase the veterans land bonds from \$25,000,000 to \$100,000,000. This project has proven to be self-supporting and is one of the finest things the state government has undertaken. It should be approved by all means. Not only is the proposition self-supporting, it is helping many veterans to buy land of their own.

The fifth proposition is the most controversial one of all. It would raise the ceiling on old age assistance in the state from the present \$35,000,000 to \$42,000,000. Local pension organizations are for the amendment hoping that it will increase pensions. The amendment would provide \$7,000,000 more in state money and an additional \$5,000,000 in Federal money, it is estimated. Opposition to the bill says that the citizenship requirements for old age pensions are dropped and the adoption of the amendment would flood the pension rolls with new pensioners and might even cause a drop in the average pension paid. However a study of the amendment shows that it requires a person to have lived in the state five of the past nine years and to have lived in the state one year continuously immediately preceding the filing of such application.

Since the Texas average pension is lower than in Louisiana, Oklahoma or New Mexico, it is not likely that any one will move to Texas in order to get on the pension rolls. The West Texas Chamber of Commerce, the East Texas Chamber and the South Texas Chamber all oppose the amendment. Possibly their opposition is caused more by the thought of additional taxes than concern over the welfare of the old people. Additional taxes will be required. But personally, we believe that adoption of this amendment will mean an increase in pensions to old folks. It's a matter of what you want to do about it.

The damage caused by cattle grubs is charged back to the producer in the form of lower prices for beef animals and lower milk production from dairy cows. The pests can be controlled.

The second amendment provides for the investment of the Permanent University funds in securities other than bonds issued or guaranteed by the government units or agencies. The permanent fund has built up to an amount of some \$100,000,000 and the investment of this fund in something other than low-rate government bonds will increase the income of the fund probably as much as \$2,000,000 per year, officials say.

#### SENATOR LYNDON B. JOHNSON

Texas can well be proud of one of her junior senators — Lyndon B. Johnson — and the record he has made in congress since his election in 1948. Johnson has become a symbol of integrity in government. He has won the respect of his colleagues in both parties.

Johnson's reputation for his fair dealing and straight-shooting is not confined to his home state. People in many sections of the country class him as the same type of patriotic legislator as his fellow Democrats — Richard Russell of Georgia and William Douglas of Illinois.

There has been talk — talk that someday may very well materialize into fact — that a fair-minded son with a reputation like Johnson will someday be presidential timber.

Johnson took the bull by the horns recently in a speech made at Brownwood when he told the group that the war was started

by Russia and could be ended by Russia only.

He adopted a realistic attitude towards our present situation when he said that we cannot waste our time worrying about Washington secretaries with mink coats when we should be worrying about rearming to ward off the threat of world Communism.

Some of his other comments in the Brownwood speech:

"We've got to get the influence-peddlers, the chiselers, the muddle-headed free-riders out of positions of influence in our government.

"But we can't afford to drop everything else while we do that. We're hunting bear. We're not out to chase rabbits."

Texas' legislator made quite a name for himself through his work on the Senate's armed forces committee when he investigated conditions in and near camps.

His fairness and failure to "pull any punches" has established him as a "man to watch" among the nation's political lights.

Texans can watch during the next few years as their own senator rises in the political sphere. A good man is hard to keep down.

This writer thinks Lyndon B. Johnson is a good man. — Hereford Brand.

#### VATICAN APPOINTMENT

President Truman has a knack for alienating large segments of people through his impolitic conduct of politics.

He put another feather in his cap by his appointment of Gen. Mark Clark as ambassador to the Vatican last week.

This kow-towing to a foreign potentate does not rest well with voters of this country, unless they happen to be Catholic. The Vatican is no state, unless it can be considered as a state of mind. Yet this country has bestowed upon it that degree of importance in world affairs by sending a full ambassador to maintain relations formerly undertaken by envoys and ministers.

It is hard to find the political reason for this unprecedented move, unless with 1952 elections around the corner the President thought it wise to gain the support of Catholics here and abroad at the expense of outraging Protestant sects by what appears to be an unwarranted recognition of the power and legitimacy of a Catholic nation.

People in this country have a proper respect for the Vatican as center of a spiritual church. They do not countenance bestowing upon the Vatican a rank and importance that does not exist. Protestants have a right to be outraged at this piece of politics. As taxpayers, Protestants have a right to protect the taking of tax money to support in luxury an ambassador to a non-existent foreign state.

But the prime question being asked over the appointment of Gen. Clark remains: Why?

When that question is answered fully and honestly voters will feel much better about the whole thing. — Rails Banner.

### Longhorns Lose To Abernathy

The Lockney Longhorns lost a football game and their chance to represent this gridiron district last Friday night when the Abernathy Antelopes defeated them 19-7 at Abernathy. The game was played in bitter cold weather but a very large crowd, considering the weather, was present to witness the contest.

The Antelopes scored on the second play of the game when an Antelope back ran 76 yards for a score after breaking through the left side of the Longhorn line. In spite of this, the Longhorns had the best of the statistics on the ground. It was the lack of pass defense that defeated them. The Antelopes fine quarterback, Cunningham tried 10 passes and completed five of them for 114 yards, two of them for touchdowns. In addition he completed another for a touchdown that was nullified by a penalty. The Longhorns tried five passes, completing none and having one intercepted.

First downs were 13 for the Longhorns and 7 for the Antelopes. The local lads could gain fairly well on the Antelopes but couldn't maintain their drive to the goal line. They were inside the Antelope 10 yard line twice when they didn't score.

The Antelopes received the opening kick-off and returned to their own 34. On the first play they attempted to circle right end and Ray Ferguson broke through and dropped the ball carrier for a 7 yard loss. However on the next play, the Antelope ball carrier came through the left side of the Longhorn line and cut back to his right, aided by lots of blocking, ran all the way for the score. The point was made rushing and the score was 7-0.

The Longhorns received the kick, fumbled it momentarily and brought it back to the 17.

They failed to make 10, kicked to the Abernathy 46. An attempted pass was incomplete, but was ruled complete for some reason not explained by officials giving the Antelopes a first down on the Lockney 40. A 15 yard penalty against the Longhorns gave the Antelopes another first down on the 25 but they went no further and the Longhorns took over on the 20. C. B. Smart broke into the open on a cross buck but was overtaken on the Abernathy 42. The Longhorns made another first down on the 21 but here the ball went over on downs.

The Antelopes lost 11 in two plays and kicked to the Lockney 39. The Longhorns made a first down but the drive was stopped by a 15 yard penalty. The kick was fumbled and a Longhorn covered on the Abernathy 25. The locals drove to a first on the 5 and it appeared that Doug Meriwether carried over on the next play but a 15 yard penalty set the Longhorns

back. The Antelopes made one first down and then kicked with the Longhorn safety man allowing the ball to roll dead on the 3, putting the Lockney boys in a decided hole. The Longhorns couldn't gain and kicked out to their own 30. A pass was good for 9 and another was good for the touchdown. The try for point failed and the score was 13-0.

The Longhorns took the kick-off back to their own 25. They failed to gain and an attempted pass was intercepted. The Antelopes had the ball on the Lockney 43 and it was from this point that they passed for another touchdown which was nullified by a penalty. The Longhorns had the ball on their own 25 as the half ended.

The Longhorns took the kick-off starting the third quarter back to their own 38. They couldn't gain and the kick was fumbled by the Antelope safety man with Norton Baker recovering for the Longhorns. The Lockney boys drove down to the Abernathy 10 but lost the ball on downs here. The Antelopes kicked to the Lockney 25 but a fumble on the first play gave the Antelopes the ball on the Lockney 20. A pass was good to the 9 but a fumble gave the ball back to the Longhorns on the 11. An exchange of kicks found the ball in the Longhorns possession on the Lockney 11. Bill Sherman broke loose for a first on the Lockney 43 and with Ferguson and Sherman alternating in carrying the ball, the Longhorns drove to the Abernathy 6 yard line where the ball went over on downs. The kick went out to the 44 where the Longhorns started another drive going down to the Abernathy 11. A 5 yard penalty against the Longhorns set them back but a 15 yard penalty against the Antelopes put the ball on the 1 yard line where Ray Ferguson drove over for the score. Bill Sherman kicked the point and the score was 13-7.

The Antelopes received the kick and returned to their own 25. They started a drive from here making first down on their own 45, on the Lockney 41, on the 30 and after 3 downs from here gained only 4 yards. Cunningham dropped back and passed to Rogers, end, for the

score. Try for point failed and the score was 19-7.

The Lockney boys took the kick-off but failed to make another first down.

The game was marked by officials escorting one Abernathy player off the field for unsportsmanlike conduct. He was put out of the game in the third quarter.

For the Longhorns it was a night of missed opportunity. Their inability to make yardage inside the 10 as well as their lack of pass defense was costly. Bright spot of the night for local fans was the brilliant running of Bill Sherman, reserve half back. He and Ray Ferguson carried the brunt of the running attack and both did an excellent job, sometimes seeming to carry on without too much help on the blocking side.

The Longhorns showed up well defensively on running attacks. Many times they threw the Antelope ball carrier for losses, and although an accurate

count of yardage rushing was impossible to get because of fans covering up all yardage markers, the Longhorns clearly gained more yardage rushing. But they are still paying off on scores and that's where we lost the ball game.

of this area before the discussion is discontinued.

PLEASE UNDERSTAND THIS: We are not trying to tell you how to run your business. We are just trying to run ours and hope for a little "assist" from you.

THE ONLY IDEA we are trying to get across is: Ten dollars worth of wire and insurance might protect a rick of cotton that you would spend \$100 hauling off to a place that won't try half as conscientiously to give you a good job as we will. We will give you the best service we know how and that means high class service. We will keep our gins in good shape.

IN REGARD TO THE KIND OF SERVICE you might get elsewhere: Yesterday Mr. Earl Page, who farmed here last year but is over in Oklahoma now, came by the office and told this writer: "I read your add last week and I just wanted to tell you that in 1949 I hauled 10 bales to a town in an adjoining county and it cost me \$400.00, Even the seed weights were a lot short." If you know Mr. Page like I do you will believe that he was not mistaken about the results. His experience was paralleled many times, according to other reliable persons.

WE JUST WANT TO GIN YOUR COTTON if you will let us. Thanks.

**Farmer Given Death Penalty**

The first death penalty ever assessed in Floyd County was given Jack (Pat) Farmer, 38-year-old Lubbock man, in 110th district court at Floydada last Thursday evening. He was charged with the murder of his wife in a Lubbock cafe March 8. Farmer stood and shook hands with his attorneys as the verdict was read.  
The jury returned the verdict to Judge Alton E. Chapman at 8:55 p. m., winding up the four-day trial with more than three and one-half hours of deliberation before reaching a decision. An individual poll of the jurors, requested by the defense, confirmed the verdict.

The defendant claimed he "blacked out" and did not remember shooting the victim, and members of his family testified that he had showed symptoms of insanity for several weeks prior to the shooting.  
However the state offered evidence that Farmer had purchased the death weapon just a few days prior to the shooting and that he had told several that he was "going to kill my old lady."

Farmer has 10 days in which to file motion for a new trial. The defense, conducted by Clifford Brown and Lawrence Melcer of Lubbock, hinged largely on the question of Farmer's sanity, and was bolstered by testimony of his children and former wife, Dr. B. J. Sounders of Lubbock, who had treated Farmer for a heart ailment some time before the shooting, testified that, in his opinion, Farmer did not realize the nature and consequence of his acts.

Dr. Fred P. Kallina, Lubbock city-county physician; and Dep. Sheriff J. E. Dever and former Deputy Lem Pounds testified to Farmer's behavior following his arrest.  
The case was moved from Lubbock's 39th district court to Floydada on a change of venue order following an unsuccessful attempt to complete a jury in Lubbock.

District Attorney Travis Shelton of Lubbock, and District Attorney John B. Stapleton of Floydada handled the prosecution.

**Medal Given To Sgt. Randolph**

Camp Chaffee, Ark., Oct. 27 (Special).—The Silver Star for gallantry in action in Korea was posthumously awarded to Sgt. Raymond R. Randolph, son of Mr. and Mrs. Lawrence H. Randolph of Earth, Texas, in a ceremony highlighting a parade here recently.  
Maj. Gen. David L. Ruffner, commanding general of the Fifth Armored division here, made the presentation to the sergeant's 11-year-old son, James R. Randolph, route 3, Stilwell, Okla., 24th Division Member.

Sergeant Randolph, a member of the 24th Infantry division, merited the award for his actions near Yongsan, Korea, Sept. 4, 1950.  
According to the citation, Sergeant Randolph "was in charge of the lead vehicle of a motorized patrol when it was ambushed and pinned down by a strong enemy force."  
"With complete disregard for his own safety, he so occupied the enemy with effective fire that the remainder of the patrol was able to extricate itself from the untenable position."

**Family Attends**  
"When last seen, Sergeant Randolph was still in an exposed position drawing on himself the full fury of the enemy's fire in order that his comrades might safely withdraw."

Also in attendance at the ceremonies were Mrs. Gladys Randolph of the Stilwell address, wife of the heroic soldier, Janalu Randolph, 8-year-old daughter of the soldier, and Mrs. Lula Morgan, sister of Mrs. Randolph, also of Stilwell.

Note—Sgt. Randolph was buried in the Lockney Cemetery on July 27 of this year after funeral services at Carter Funeral Home here. He was a member of the pioneer Randolph family of the Cedar Hill community.

Turning over a new leaf doesn't count so much as the writing done on it.

**W. M. Jackson Is Buried Saturday**

Funeral services for W. M. Jackson, age 60, were held Saturday afternoon at the First Baptist Church of Floydada. Rev. F. E. Swanner, district missionary and a former pastor of the deceased officiated, assisted by Rev. R. L. Hodges, pastor of the Center Baptist Church. Burial was in the Floydada cemetery.

Mr. Jackson had been ill for five or six years and had been a patient at the People's Hospital at Floydada for the past eight months. Relatives had long ago lost hope for his recovery. He passed away at the hospital Thursday evening about 9:30.

Mr. Jackson was born at Wolfe City November 14, 1891. He became a member of the Baptist Church at an early age and was married to Miss Ava Carpenter in Wolfe City on June 24, 1911. He was a tire merchant and had lived at Ralls, Paducah, Amarillo and at Floydada.

**CAN YOU SHOW FINANCIAL RESPONSIBILITY?**  
  
The new Texas Motor Vehicle Safety-Responsibility Act becomes effective January 1, 1952. Don't wait until that time to take out liability insurance. There is more danger in the next two months than at any time of the year.  
Every driver must be able to show ability to pay for damages and injury should he be involved in an accident. Can YOU show financial responsibility in the amount of \$15,000, or would you be in position to pay that amount if you could show ability.  
LIABILITY INSURANCE is just good common sense. Protect yourself today with one of our policies.

**Post Office Urges Early Mailing**

Postal officials are urging patrons to mail their Christmas packages and cards early this year due to the expected heavy volume of mail that will be handled by the department.  
In fact, officials are saying that if mailing isn't done early it is probable that a large part of the mail will not be delivered before Christmas.  
Patrons should deposit mailings for distant states not later than December 11, and should mail greeting cards for local delivery not later than December 15 in order to assure delivery before Christmas.

**RETURNS HOME**
