Bill Thompson of Lockney attended a family reunion in Tulla Sunday, of the Ewing, Sams, Thompson and Jackson families. Bill is one of the new employees at the Cooperative. He has been

home from the Service only a short time, having spent some 6 months in Korea; so it was especially nice for him to attend the family get-together.

Allen Stockman is back on the job after an operation for appendicitis. He was out for two weeks.

Mrs. C. A. Caffee was hostess to the 1922 Study Club in the REA Kitchen on Thursday afternoon. The demonstration given for the group was "Filling an angel food cake with jello and making a sandwich loaf." Electric cookery was also discussed and some chocolate fudge made just to show how carefree electric cookery can be.

A roaster demonstration was given at the Farm Bureau meeting held at Happy Union School house in Hale County on Monday night. More than 30 attended this meeting.

If your pet enthusiasm is growing and arranging flowers, install a sink with spacious counters of waterproof tile in the utility room or laundry, says the Gas Appliance Manufacturers Association. The surface is resistant to wear and stains, as well as being easy to keep clean.

THE WORD OF GOD

We want to notice this week some of the attributes of the word of God. We sometime fail to give the attention and respect to the Book of Books that we ought to give to it. We ought to give heed to it because:

1. It is the Book of the ages. We read in Matt. 24:35 "Heaven and earth shall pass away but my word shall not pass away." I Peter 1:25 "But the word of the Lord endureth forever. And this is the word which by the gospel is preached unto you."

2. It is food for the soul. Job wrote, "Neither have I gone back from the commandment of his lips: I have esteemed the words of his mouth more than my necessary food." Job 23:12. How many of us today think of the word of God as did Job? Too many times our study of the word of God is just a hit or miss proposition. We ought to esteem it necessary and not just an incidental.

3. It is divinely inspired. Paul wrote in II Timothy 3:16, "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: that the man of God might be perfect, thoroughly furnished unto every good work." We realize by this that the word of God contains ALL that is necessary for man to be furnished unto "every good work." There is no need for the ideas and opinions of man; no need for a direct operation of the Holy Spirit; no need for a further revelation.

4. It is God's power unto salvation. "For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to everyone that believeth: to the Jew first, and also to the Greek." Romans 1:16. In the word of God we find contained the commandments of the Lord. I Cor. 14:37 "If any man think himself to be a prophet, or spiritual, let him acknowledge that the things that I write unto you are the commandments of the Lord." When we read Hebrews 5:9 we can understand why the commands of the Lord are necessary to our salvation. "And being made perfect he became the author of eternal salvation unto all them that obey him;" Hebrews 5:9. Yes, our salvation depends upon our reception of the word of God. To those that obey him. He is the author of salvation. What about those that do not obey him. Read II Thes. 1:8 "In flaming fire taking vengeance on them that know not God, and THAT OBEY NOT THE GOSPEL OF OUR LORD JESUS CHRIST." There is no doubt about the necessity of obedience.

Dear friend, how have you received the word of God? Have you obeyed the Gospel of Jesus Christ? Have you given heed to the things commanded by inspiration of the Spirit?

WE EXTEND TO YOU AN INVITATION TO COME TO ALL SERVICES OF THE MAIN STREET CHURCH OF CHRIST.

Spring Meetings Of T. H. D. A. Underway

College Station.—Spring meetings for the Texas Home Demonstration Association are being held in each of 12 districts announced Bonnie Cox, acting state home demonstration leader for the Texas Agricultural Extension Service.

"These annual meetings," Miss Cox said, "Give every member of the 2,400 home demonstration clubs the opportunity to take part in their association activities. The meetings are really small state conventions," she added.

It is through the clubs and their association that farm and ranch women are organized for educational purposes, to channel information to members and families living in the community. Miss Cox says county home demonstration agents reported more than 430,000 families in nearly 4,000 communities participated in the 1952 program of work.

Each club elect three representatives to officially take part in the spring district meetings of the association, although any member or guest is welcome to attend. Vice-presidents in the respective districts plan with county chairman of the association for the one or two-day sessions aimed at giving expression to the desires and interests of farm and ranch women. The theme for each meeting will be "Home, Cornerstone of Freedom."

Cotton producers are asked by Secretary of Agriculture Benson to reduce their 1953 plantings 18 percent below those of last year. A crop of from 12 to 12.5 million bales would meet the estimated domestic and export demands and leave enough surplus to take care of reserve needs.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 24th day of March A. D. 1953.

Given under my hand and seal of said Court, at office in Floydada, Texas, this the 24th day of March A. D. 1953.

Mary L. McPherson, Clerk, District Court, Floyd County, Texas.

Huntin' AND Fishin'

By Harve Pennington

Good many fishermen are here looking forward to the date set for the opening of the new lake at Silverton on the Tony ranch, down the old Shot road. We went over there and it looks like an ideal spot for game fish. The lake covers about 100 acres in spring fed and stays open for several months. There are several cabins and tents for rent.

The lake was stocked in 1950 with 10,000 fingerling bass, and equal amounts of channel catfish, and I understand that in some large bass at the time. There was a 2 1/4 lb. bass from this lake last week. I have a smaller one that was fished last week. It was stocked for the small lake. Like spinning there, as the water is so clear.

The new lake is expected to have the complete, that will be the lake. It may be the old Shot will be better.

Donald Reecer and Sam Daniel of Fort Hood visited with their families here last weekend.

wouldn't know. Your way may be better than mine, but I am going to stick my neck out and tell you if I were going to fish that lake today, I would want as small a boat as I could get and sit as low in this boat as I could be comfortable, and I certainly wouldn't want a white shirt or hat. Then if I had a lazy man to row real slow, then I would be set. I sure wouldn't want a metal boat. I would use light tackle and a deep running plug. If I was spinning I would still use a lure that would run deep. If I was using a fly rod, I believe I would use a fly-spinner combination but I can tell you this, a large bass or channel cat can sure make it rough for your fly rod unless you have the heavier type of bass rod. It may be by May 1st that you can get them to rise to a surface lure, but in that cold spring fed water I think you will have to go deep. You never can tell what a black bass will do. They are always doing the things that they are not supposed to do.

MYSTERY FARM IDENTIFIED

Durrell Fortenberry of Cedar Hill won two tickets to the Seale Drive-In or Plains Theatre in Lockney last week by being the first to identify the above "mystery farm" printed in an advertisement of Handley Shop & Pump Co. in last week's Beacon. The farm belongs to H. O. Ginn, who lives one mile north and two miles west of Cedar Hill. Several other people also correctly identified the farm, these being Fate Taylor, Alvin Nichols and Mrs. H. R. Cypert. Mr. and Mrs. Ginn were in The Beacon office Saturday and were presented the original photo of the farm by Handley's Shop.

The Ginns have lived on the

farm 17 years and purchased the farm from Mrs. J. W. Ginn, his mother, about three years ago. They call it the Alcino Farm, named from the old Alcino store and postoffice which was owned by Mr. Ginn's father in the early days of this area. The elder Mr. Ginn bought the store and discontinued the post office many years ago. After his death Mrs. J. W. Ginn sold the store to Tom Fortenberry who now operates it at Cedar. The farm was first cultivated about 1900.

The Ginns have put down an irrigation well just the past fall and now can be classed as irrigation farmers. They have a good well it was reported. They have also painted their

house and barn and added a new bathroom to the house.

Mr. and Mrs. Ginn were married in 1929, her maiden name being Jewell Belle. They have two daughters, Mrs. Bill J. Hobbs of Floydada and Shirley Faye, who is still at home. They also have two granddaughters. Mr. Ginn's hobby is "just working" while Mrs. Ginn likes to crochet, she says. Of course both are very interested in their daughters and granddaughters.

Mr. Ginn works cotton and feeds and raises Jersey cows.

The Beacon's readers are urged to watch for another "mystery farm" picture in Handley Shop advertisement next week.

Some Vets Are In Reserve And Don't Know It

Austin, Texas. — Thousands of veterans now being separated from active service of the various branches of the Armed Forces are returning to civilian life seemingly unaware of the fact that they have not completed their military duties according to officials of the Texas Military District, which is administrative headquarters for the Army reserve program in the state. For, in addition to the two years of active duty, the Universal Military and Training Act of 1948 and its later amended forms require that after the inductee returns to civilian life he will continue to be a member of the reserve forces of the branch in which he served. This term of reserve duty varies according to the law under which he was inducted and the length of time he spent on active duty.

There are three categories of inductees and enlistees that are transferred to the reserve forces when they are separated from active duty. First, the young man who was inducted, enlisted or was appointed in a regular component of the Armed Forces between June 24, 1948 and June 19, 1951 and served on active duty less than three years must serve in one of the reserve components for five additional years. However this five-year period may be shortened to three years if he joins and serves satisfactorily in a reserve unit for the three years.

Those inducted for 21 months active service and volunteer for an additional 12-month period on active duty, thereby serving 33 months, have no further reserve obligation. This also applies to those who serve three years on active duty.

In the second category are those men who enlisted between June 24, 1948 and June 19, 1951 for one year. After completing this one-year enlistment these men are transferred to the reserve for a six-year term. Again this term may be shortened to four years by performing satisfactory service in a reserve organization.

In the third category are those who enlisted, were inducted or appointed in the Armed Forces, including any of the reserve components, after June 19, 1951 and before their 26th birthday. These men are required to serve a total of eight years. This service can be in any combin-

ion so that a person served on active remainder in the ever, present law years in the army who enter the army their 26th birthday the time for which

SCOUTING SILHOUETTES

By TOMMIE DANIEL District Scout Executive

SCOUT EXECUTIVE SAYS THANKS AND ADIOS

This column is going to be a short lived one it seems since my official duties in Haynes District are completed. Due to the addition of a new executive in your area, I have been relieved of part of my working territory. In closing my official contacts with the people of Lockney, I wish to place the credit where credit is due. The success of the Scouting Program lies entirely on the shoulders of volunteer workers who give unselfishly of their time to bring this program to their boys. In the past year I have met and worked with many people in Lockney, and I won't be forgetting their good work any time soon. My thanks and the thanks of your boys go to: Milton Ashton, O. C. Bailey, Arthur P. Barker Jr., Mrs. Spence Bayley, Claude Brown, Kenneth Cook, J. D. Copeland, Udell Cunningham, Leonard Finley, R. H. Ford, Joe Handley, Joseph H. Holt, R. L. Knox, Robert Miller, H. L. Milligan, Mr. and Mrs. Chester W. Mitchell, Harve Pennington, Charles L. Record, Mr.

These people and others who have given their time to the boys who will be our leaders of tomorrow can never be paid enough for the fine job they have done, and are continuing to do in the present and future.

To you people, I want to remind you, this job is not being done in vain. You are one of the few who are privileged to mould human clay into constructive moulds. Thanks to you, and may the hand of God guide you as you continue to serve our youth through this fine program.

Handicaps Organize Club In Plainview

Mrs. A. D. Morris of Lockney has been elected Executive Secretary of the District Indoor Sports Club at a recent meeting. The Indoor Sports Club of this area was organized last December in Plainview by a group of handicapped people. It is a branch of a large club with organizations in Alaska, Canada and several states in the U. S.

The purpose of the Club is to give handicapped people the privilege of meeting together and enjoying a social life that would not be possible otherwise. The members also pledge themselves to help others less fortunate than they are.

The Club in Plainview has enjoyed steak dinners and pot-luck suppers along with their business meetings. About an equal number of men and women belong to the organization.

To be eligible for membership, a person must have been handicapped for six months or more and is supposed to require an aid such as a cane, crutch, brace, wheel chair or another person. These people who help the handicapped are called "Good Sports" and they usually have an entertainment at the meetings or join the Indoor Sports at their games.

This club plans to be self-supporting. Last month it sponsored a "Western Jamboree" in the Plainview city auditorium and used the proceeds to entertain the National Convention of Indoor Sports Club, Inc. in the Hilton Hotel April 11 and 12. At that time District No. 8 of Indoor Sports was organized, in which Mrs. Morris was elected

executive secretary. Mary Spence of Plainview is the president of this district organization. Other district officers are: Amy Odell, Big Spring, secretary; Irvin Byars, Plainview, treasurer; Claudia Arrick, Big Spring, director; Evelyn Humdorf, Shreveport, La., director; Clint Elliott, Plainview, director; Milton L. Mitchell, Weatherford, director; Hugh Etter, Plainview, 1st delegate; Bill Horton, Big Spring, 2nd delegate; Amy Odell, Big Spring, 1st alternate; Travis Edwards, Plainview, 2nd alternate; Gabe Leadman, Shreveport, 3rd vice-president; James R. Horton, Big Spring, 2nd vice-president; Marvin Wells, Weatherford, 1st vice-president.

CHILDREN SAY "THANKS"

To the friends and neighbors of Mr. and Mrs. Tom Weeks: We (the children of Mr. and Mrs. Weeks) want to try and tell you how much your great generosity has meant to us and how it has helped the burden which was on our parents. We wish you would not burden yourselves anymore. You will never know how much you have helped us in the time of need.

Your kind words, thoughts and cards and flowers have helped so very, very much, too. You would never think "words" could mean so much, but oh! how they have helped and your prayers above all.

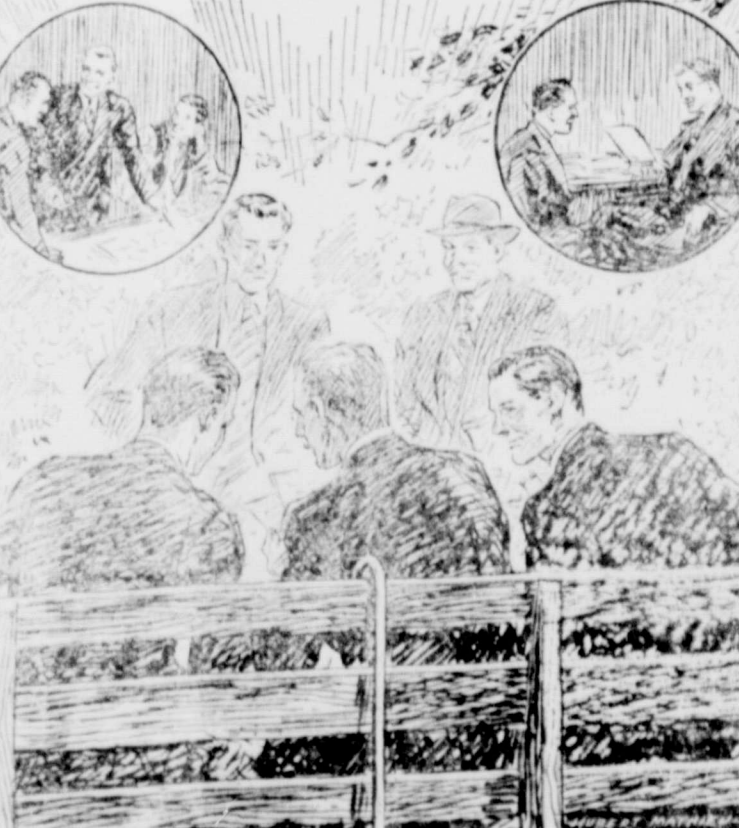

May God Bless each and everyone of you and bless your kind, kind deed.

Thank you so very, very much from Mr. and Mrs. Weeks and from their children.

Minute Editorials

Remember now thy Creator in the days of thy youth, while the evil days came not, nor the years draw nigh, when thou shalt say, I have no pleasure in them. — Ecclesiastes 12:1.

Are you afraid of a depression? Do you think business is going to go to the dogs and we'll all be working for the equivalent of PWA come next fall? Well, according to the experts, it isn't so. Of course, we all recognize that an expert is usually just a spurt away from home, but anyway their reasoning sounds logical.

Recently the stock market "fell out of bed" so to speak, at word that progress was being made toward peace. Now that wasn't because peace would be bad for business, the experts say, but simply because the stock market reacts to any change in the status quo. It reacted in much the

same way when war started. It also reacted the same way when Truman was re-elected in 1948. Money is easily frightened and surprise causes the stock market to react even though it's good news. Actually peace in the Far East or throughout the world would be to the advantage of business conditions and economy, they say.

Another favorable condition is the fact that stocks and bonds cannot be bought on small margins as they were in 1929. Now most stocks and bonds are purchased outright for investment by people with the money and the actual selling price of the stock or bond doesn't really make any difference to them as long as they collect the usual dividend. In 1929 many stocks and bonds were held on slim margins by people who were gambling on whether the stock would go up or down. Now a much larger margin is required and the stocks would need to drop considerably before the margin owner would be hurt. The limit on the amount stocks can drop in one day would have some steadying effect also.

Of course, farm prices are down some. But the poor old farmer probably expected that. It's always farm prices that lead the way when prices decline as they are the last to rise when prices go up. But the price support program runs through 1954 and that means that prices aren't going to the dogs. In fact there have been very few years we can remember when market prices were so good that farmers sold instead of putting their products in the government loan. So we don't think that prices are going completely to the dogs and neither is business. We believe that business is going to be steady and that, as soon as that rain comes we have on order, everything will be looking up.

More about that gas bill: The authorities tell us that more than half of the gas in the great Texas panhandle field is already gone because Oklahoma and Kansas fix the price of gas at the well two or three times higher than it sells in Texas. Naturally the big companies pipe gas from the Texas side of the field because it is cheaper. When all of our own gas is gone then we will have to buy gas from the Oklahoma and Kansas

STORM WARNINGS

"Since this is the season for storm clouds, one long blast of at least 60 seconds, without a break, will be sounded should the Lubbock Government Observation Station advise a storm cloud is approaching our area," stated Price Sandlin, chief of the Paducah Volunteer Fire Department.

Spradlin emphasized that the one long siren would not be cause for alarm since it would not mean a cyclone or tornado

fields and pay a lot higher price than we have ever paid for gas. The authorities also tell us that much of the gas from the Texas field is piped 1000 to 2000 miles to other states and sold to consumers there cheaper than Texas consumers get the same gas.

The main idea of the gas bill is conservation of the natural resources of Texas. The state is being robbed of its natural resources to the benefit of other states. It's time something was done.

was going to hit here, but that a storm cloud was approaching our vicinity. There is always the possibility the funnel-shaped disaster will not hit a given area.

The warning is to alert residents so that they may secure more protective shelter or may protect their property to some extent.

Price said the cause of much alarm last Thursday night when several blasts were sounded, was to call the firemen to a special drill. A regular fire siren is anywhere from three to eight blasts of the whistle, he explained.

The weather bureau office, Lubbock, and various weather observers in this area will call Sandlin in case of any knowledge of an approaching storm and in turn, the fire chief, should he have any storm information in this vicinity, will get in touch with weather observers at Matador, Childress, etc., and the Lubbock weather bureau office. — Paducah Post.

A CIVILIZATION'S COLLAPSE

"The Australian Baptist" calls attention to the fact that 1953 marks the one hundred and six-

ty-fifth anniversary of the publication of The Decline and Fall of the Roman Empire by Edward Gibbon. The editor reminds his readers that Mr. Gibbon gave five reasons for the collapse of the Roman Empire. He does not elaborate or draw any conclusions but merely recites the facts.

Mr. Gibbon said the fall of the Roman Empire was inevitable because:

1. The rapid increase in divorce; the undermining of the dignity and sanctity of the home, which is the basis of human society.
2. Higher and higher taxes — the spending of public monies for free bread and circuses.
3. The mad craze for pleasure; sports becoming every year more exciting and more brutal.
4. The building of gigantic armaments when the real enemy was within; the decadence of the people.
5. The decay of religion; faith fading into a mere form, losing touch with life and becoming impotent to guide the people.

PROMOTIONAL SCHEMES

This is strictly for residents of communities around Ralls. Ralls merchants are anxious to assist you in every way in fund drives to improve schools and churches. They are not interested in paying handsome commissions to out-of-town salesmen who promote these projects. If you need fans for your church, the Ralls Chamber of Commerce will furnish them free of charge. It is not necessary to secure advertisements to pay for them. If you need a cook book, The Ralls Banner will publish it for half the \$250 now being asked by a Ft. Worth concern, and will guarantee a better job. If you need a new school curtain take the matter up with the Chamber of Commerce. You will get a better curtain, with no ads on it, and it will cost less than half what the promoter takes home with him as his commission. Next time a high-powered promoter goes to work on you, please give the chamber a chance to show you how it can solve your problem for a fraction of the cost. Give us a chance to do a better job. Is that asking too much? — Ralls Banner.

Applewhites See Italy On Tour

(Note: Following is part of two letters from Mr. and Mrs. Clyde Applewhite to her parents, Mr. and Mrs. L. M. Honea of Lockney, telling of the Applewhites' Mediterranean tour. Mr. and Mrs. Applewhite are back home now, having landed at New York early last week and arrived home over the week end.)

Sailing to Messina, Sicily March 19, 1953

We saw a funeral procession in Cairo—The hearse was made of gold color, with orchid flowers on it and driven by six horses. It looked beautiful.

We passed another funeral procession yesterday in Alexandria—Men were walking carrying the body in a large box covered with printed material and only men in the procession.

The army band and people with all their wares to sell were out to meet us when we landed in Alexandria the other day. It was a colorful scene—You really felt like you were in a foreign country.

The Egyptian Government sent us letters welcoming us to the country and another one when we left hoping that we had enjoyed our visit and wishing us a happy voyage the rest of the way—They really tried to be nice—They say they have had a change of government in the last six months and that it is 10 years in pen for them to offend or injure a tourist—Last year it wasn't so safe to be here—They asked us not to get out at night this time unless you were in a group.

I haven't wanted to get out even with a group at night in any of these countries and they haven't—I haven't felt too safe in the daytime in some ports.

We have full day trips for the next two days, one in Messina, Sicily, and one in Naples to the Isle of Capri—Then two days of rest before we reach another port. We are always ready for the free days to get rested for the next one.

I mailed some letters in Haifa but from what I have heard I doubt if you get them—Remember to let me know if you do.

The postman on ship from the Haifa post office didn't have stamps but took our money and said he would mail them—One lady found her letters returned to her room later and the man gone with the money she had given him—You can't trust these people—They are out and know all the tricks to bait the tourist.

The sea isn't so rough now—It was at noon—They had the rails up around the table to keep things from falling off—You could hardly walk.

Genoa, Italy
March 23, 1953

We landed her about two this afternoon—Had an afternoon drive over the city. Saw Columbus' birthplace and a beautiful cemetery—All the tombs had fresh flowers in vases—It was very colorful—Some elaborate tombs—It is a custom of theirs to put fresh flowers on the graves everyday.

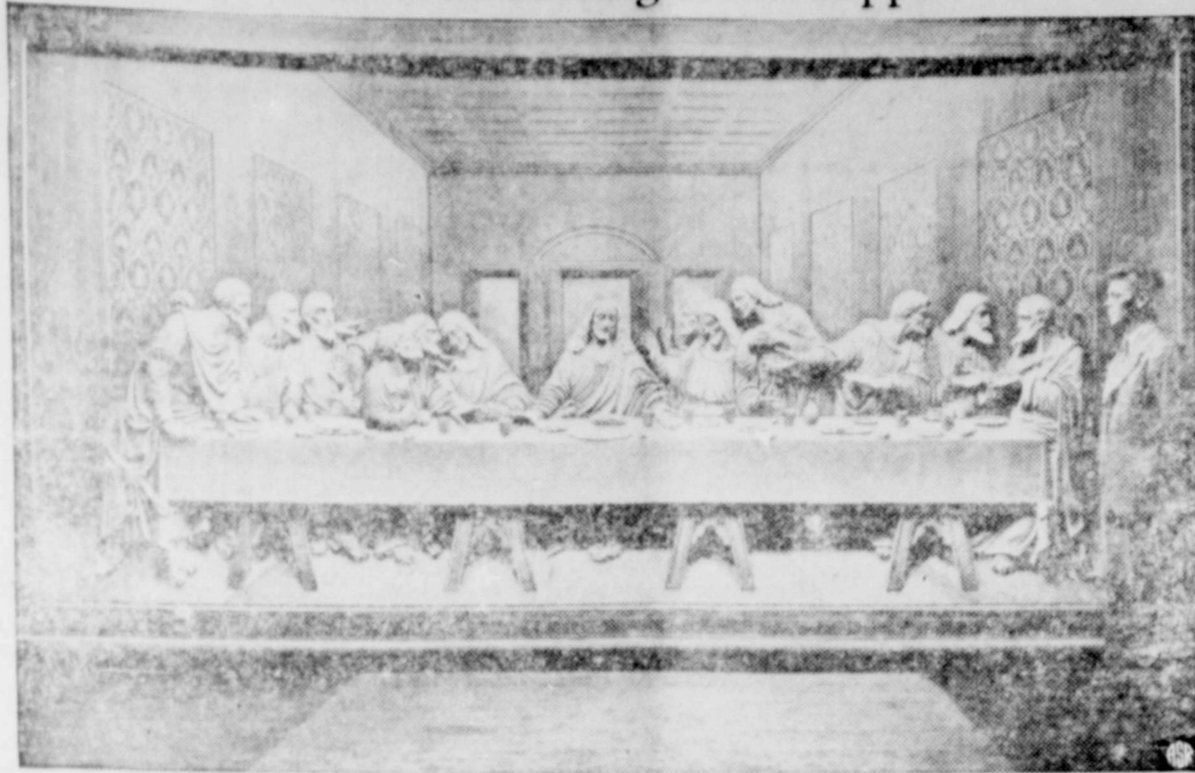

We stopped at the Hight Hotel on top of a mountain where we had tea and a lovely view of the city.

Clyde has gone to see if he can get tickets to an opera tonight—I have gone so much I had just as soon stay on the ship.

Life-size Wood Carving of Last Supper

Courtesy Christian Science Monitor

BOSTON, MASS.—All the specialized skills of some of the finest craftsmen of New England have been combined to create this life-size copy in wood of the famous painting "The Last Supper" by Leonardo da Vinci.

More than a year was used in preparing the great carving—18½ feet long and 8½ feet wide. The figures, of limewood, are delicately tinted to give a feeling of lifelike reality, and a giant frame of contrasting walnut gives it depth. The carving will be the point of central interest in The Upper Room chapel, now nearing completion in Nashville. It is expected that visitors who view the carving will be moved to spend a few moments in prayer and meditation in keeping with the purpose of The Upper Room—a devotional guide issued in 17 languages and used round the world. The chapel itself is part of the new headquarters building for The Upper Room, the world's most widely used devotional guide. It is believed that it will become a devotional shrine and point of interest for visitors of the Midsouth.

The picture shows W. D. Irving, of Irving and Casson, New York and Boston, who have produced wood carvings for some of America's greatest churches and cathedrals. The wood carving was done from a model created by Earnest Pelligrini.

I mailed some letters in Haifa but from what I have heard I doubt if you get them—Remember to let me know if you do.

We enjoyed our trip to the Isle of Capri—It is a rock moun-

tain island—We saw The Blue Grotto there—Had to go on small boats to the entrance of the cave then transfer to a canoe—One lady fell in the sea up to her hips before they got her out.

The Blue Grotto is a beautiful cave of water—Canoes can only enter when the sea is calm—The light from the entrance reflects on the water and makes it a lovely blue.

We have a trip to Rapallo tomorrow. It is a sea-side city resort and very pretty—We spent the night there when we were in Europe before.

Wish I could think of Gene Holt's sisters name who is in school in Cambridge—We have some friends who are spending several weeks in London and going to Cambridge.

Did you get my card from Old Jerusalem? The hotel people didn't have stamps but took our money and said they would mail them—We didn't think they would mail them—The people there seemed to be so poor and you couldn't trust them for anything.

It was nice to get to Italy and back to civilization.

Had nice sailing today.

HOME HINTS
If you're planning a new or remodelled kitchen, says the Gas Appliance Manufacturers Association, try to think of all the racks, bars and hooks you will need, so that they may be installed directly into the clay tile wainscots or walls when the room is constructed. One nice idea is a long metal bar, with hooks, on which to display your prize copper pieces.

Dr. Cox Warns Of Rheumatic Fever

Austin.—Dr. Geo. W. Cox, State Health Officer, commenting on the seriousness of rheumatic fever, today declared that this disease is recognized as one of the greatest killers among young people. Between the ages of 10 and 15, rheumatic fever causes more deaths than any other disease, the State Health Officer said, and in persons between the ages of 15 and 24, it is outranked only by tuberculosis.

Dr. Cox stressed the fact that deaths in childhood from rheumatic fever have not decreased in a satisfactory manner during the past decade, and warned the parents of children to pay particular attention to the care and treatment of such predisposing diseases as tonsillitis and other upper respiratory infections.

"The diagnosis in this disease is not always easy," Dr. Cox stated. "Any child with suspicious symptoms should be under the prolonged supervision of a physician since along with a general involvement of the body, the heart is practically always involved. The symptoms consist only of pallor, loss of weight, easy fatigue, unusual sweating, loss of appetite, and sometime fleeting muscular pain, and a little joint stiffness and a rapid beating of the heart. The more severe cases may show repeated nose bleeds, extreme nervousness stiffness and pain in the joints, swelling of the joints, fever and pain over the heart."

According to Dr. Cox the majority of children who experience rheumatic fever suffer more than one attack and each may last months or even at times one to three years. The final result depends on the amount of heart damage incurred. Closely supervised bed rest throughout the entire period of infection is essential in order to minimize this danger.

AT LAST

YOU CAN PREVENT
HAIL DAMAGE AND
TO YOUR CROPS
HERE'S HOW IT WORKS

HERE IS PROOF THAT HAIL PREVENTION WORKS...

The High Plains Hail Prevention Association was formed in 1951. This was for the commercial prevention of hail over Hale County and a part of Floyd County.

During this first year of operation, Lamb county adjoining Hale County, suffered a loss from hail damage estimated at \$1,200,000. In the Hale and Floyd County areas there was no commercial hail damage from any of the storm clouds cells which were seeded last year or the year before—and in addition, the area in which the clouds were seeded received the heaviest rainfall.

In Southern Oregon, hail damage was tremendous for 38 consecutive years. Hail Prevention, identical to the type being offered to you was instituted. Since this time in 1949, 1950, 1951, and 1952 there was no hail damage whatsoever.

The record proves that Hail Prevention does work. Do your part to completely eliminate hail damage — join your High Plains Hail Prevention Association now.

It's through a program called Hail Prevention which assures you that no hail will come down from heavy skies to damage or destroy your crops.

In this program, scout planes are sent up to scatter potential hailstorm clouds with silver iodide in order to keep potential hail from falling.

The High Plains Hail Prevention Association was formed for one purpose alone, and that is to protect our crops against losses by hail. It is composed of farmers whom you know and respect.

The cost of Hail Prevention is remarkably low. It is based on a per acre fee. Where all or nearly all the farmers sign up for the prevention service, hail protection can be had for as little as forty cents per acre.

Hail Prevention service is guaranteed — if you get as little as 2% or 3% damage from hail, we get your money back! Here is further proof that this program works.

Plan now to protect your crops from hail this year. For further information write: High Plains Hail Prevention Association — First National Bank, Lockney, Texas or Phone Lockney 3355 or Plainview 1323.

Road Blocks To Be Set Up To Check License

Sgt. E. L. Stroud of the Drivers License Division of the Texas Highway Patrol was in Lockney Monday and informed The Beacon that the Highway Patrol would soon set up road blocks in this area and check on the drivers license of everyone stopped. He said that in most cases the patrolmen found 25 to 30 percent of the drivers either had allowed their license to expire or did not have one.

He pointed out that everyone who is operating a motor vehicle of any kind must have in possession a valid operator's, commercial or chauffeurs' license.

Young people 14-16 years of age must secure authorization from the county judge for the drivers license division to issue them an operator's license after an appropriate examination, the officer said. Signature of either father or mother is also required for this age group.

Those 16-18 years of age must be accompanied by either father or mother upon making application for an operator's or commercial license.

The drivers license examiner is at Floydada on Friday of each week from 8 to 5. Justice of the Peace J. J. Harris has the drivers hand books which every one ought to study before taking the examination, Mr. Stroud said.

In case of change of name or change of address the license holder should make application to the drivers license division for a new license. Also application should be made for renewal 30 days before expiration of old license he said.

Execution Date Set For Farmer

Floydada. — Jack (Pat) Farmer, 39-year-old Lubbock convicted murderer, Friday morning was sentenced to die in the electric chair. Sentencing was in a brief, 10-minute proceeding in Judge Alton B. Chapman's 110th District Court.

Date of the execution was set for before the hour of sunrise May 8.

Farmer was assessed the death penalty after being found guilty of murder with malice by a jury here No. 1, 1951.

The condemned man was convicted of fatally shooting his second wife, Jennie, 41, as she worked as a waitress in the Union Bus Station cafe in Lubbock March 5, 1951. The trial was held in Floydada on a change of venue from Lubbock County.

The Court of Criminal Appeals in Austin affirmed the conviction and turned down two motions for a rehearing without written opinions.

Farmer stood erect before the Court when the sentence was pronounced. When Judge Chapman asked him whether he had anything to say, Farmer replied, "No, sir."

After the sentencing, Farmer said "Thank you, Judge, and God bless you." He showed no signs of nervousness, observers said.

Although the date of execution has been set at May 8, it is customary that those sentenced to die receive a 30-day reprieve from Gov. Allen Shivers upon the recommendation of the Board of Pardons and Paroles, court officials said.

Chief Deputy Sheriff George Eubank and Texas Ranger Jesse Hellums, both of Lubbock, left immediately with Farmer for the state penitentiary in Huntsville.

Present at the preceding were District Attorneys Travis Shelton, Lubbock, and John B. Stapleton, Floydada, Defense Attorneys Clifford Brown and Lawrence Melcher, Lubbock, and Kenneth Bain Jr., Floydada.

Approximately 23 spectators witnessed the sentencing.

International Show Plays To Full House

International Harvester's annual family party show, sponsored in Lockney by Hammond & Company, played to a full house Tuesday night at the City Auditorium with many people standing when the seats ran out.

The highly entertaining show always draws a large crowd and this was no exception. Starting off with comedy films the show went on into vaudeville acts by some very talented entertainers and two intelligent, well trained dogs.

A slight-of-hand artist, Bob Damon, made a special hit with the kids as well as the remainder of the audience with his baffling tricks. The MC, Billy Papon, kept the crowd well entertained and the program moving well. His speciality was playing the harmonica and he was exceptionally good. The Pastels, a balancing team, were also very good, and Ernie Smith and his two dogs made up another team that kept the audience well entertained. Organ music by Livvy Taylor rounded out the program to everyone's satisfaction.
