

Large Crowds At Settlers Meeting

Large crowds enjoyed the annual Old Settlers reunion held at Floydada Friday of last week. The crowd was bigger and the parade longer than the previous year, observers said.

Judge Meade F. Griffin of Austin paid tribute to the pioneers of the area in his address Friday morning, stressing the hospitality and uprightness of the early day settlers and giving them credit for the present prosperous area.

The parade just after lunch was witnessed by a large crowd stretched all along the route and the judges announced the following winners in the various divisions:

Best man in the parade was R. C. Bennett of Lockney, who has been making the reunion for many years. Oldest woman was Mrs. Ida Ragle, also of Lockney.

The oldest man registering was A. J. Womack, 95, and the oldest lady was Mrs. R. C. Watson, 92, of Floydada. J. H. Fowler, also of Lockney, who is 93, was also present.

The best dressed old time cowboy was Claude Bennett of Lockney, and the best dressed old time cowgirl was Hope McGhee of Lockney.

The junior cowboy winning the prize was Bobby Holt and the junior cowgirl was Pat McLaughlin. Harold Cagle was chosen as the man in the best old time dress and Mrs. Mather Carr was the woman in the best old time dress. Jack Stansell's gig won the prize for the best old time vehicle.

The R. C. Bennett family was the largest in the parade with seven members.

The prize for the best decorated bicycle was won by Anna Belle Badgett.

Prizes for the community floats were: 1st, Home Builders; 2nd, Harmony and 3rd, First Baptist Church; Commercial floats, 1st, Wagon Wheels, 2nd, Light House Electric, and 3rd, Fire Department; Organization floats, 1st, City Park Church Vacation Bible school, 2nd, Cub Scouts from South Plains; 3rd, Floyd County National Club.

In the shetland pony class, the pony ridden by Billy Thomas, son of Mr. and Mrs. W. L. Thomas Jr., of Lockney won first prize and the pony ridden by Randy Alford, son of Mr. and Mrs. W. M. Alford of Lockney won second.

In addition to these prizes the Floyd County National Pioneers Club, made up of people born 50 years or more in Floyd County, awarded the following prizes, as reported by C. L. Anderson of Lockney:

Best old time cowboy, Clyde Bennett, \$10 prize; best old time cow girl, Mrs. Maude Hollums, \$10 prize.

In floats the club's own float won first prize of \$10 and the Bilbrey Motor Co. float won second prize of \$7.50.

The club also elected a mother and father of the club and awarded each \$2.50 prize. They are Mrs. Ida Ragle of Lockney, mother; R. C. Bennett of Lockney, father.

The Lockney and Floydada High School bands participated in the parade and entertained the group with music. They were awarded \$25 each. The junior bands also from each school were in the parade and were awarded \$12.50 each.

Judges for the parade were Mrs. Carl McAdams, C. L. Anderson, Mrs. Beulah Swepston, S. A. Thornton, Omer Parrish.

The memorial services in the afternoon were in charge of Mrs. Glad Snodgrass, Mrs. Mattie Hale and Mrs. Sallie Griffith. Mrs. Hale and Mrs. Griffith placed red roses on a white cross as Mrs. Snodgrass read off the list of 80 names of pioneers who had passed away the last year. Taps by Jimmy Collins followed the services.

During the business session Troy Leonard was elected president, succeeding George Fawver, Mrs. Maude Hollums was moved up from secretary to vice-president, and Mrs. Ruth Starks Green was named treasurer, and the board of directors was re-elected. Mrs. Hollums is the first white child born in Floyd County and Mrs. Green is the first white child born in Floydada.

Mr. and Mrs. J. A. W. Killer of Las Vegas, New Mexico, spent Friday night here visiting in the Frank Dodson home after attending the Old Settlers reunion at Floydada Friday. They are former residents of Lockney.

Family Receives Medals Awarded To David Catlin

Mr. and Mrs. Lawrence Catlin this week received medals and awards won by their soldier son, Corporal David L. Catlin prior to his death in a North Korean prison camp early in 1951.

The medals included an engraved Purple Heart decoration given for wounds received by Cpl. Catlin when he was captured, the Korean Service Ribbon with one bronze service star, and the United Nations service ribbon.

In addition the Catlins were given a Gold Star lapel button with initials engraved on it to be worn in memory of their son who gave his life for his country, and received a memorial citation signed by President Dwight D. Eisenhower.

Mr. Catlin said that information he had received in recent months through service men who were released from the same prison camp David was in, indicated that he had been seriously wounded on the day of his capture, December 2, 1950, and that lack of medical care and food caused his death some time in the latter part of February, 1951. Thus he lived some three months after being wounded.

Sandra is a member of the senior class and the group was enjoying the sights of New Orleans when illness struck her. They had arrived in New Orleans Sunday and the class is due to leave there for Houston and Galveston Thursday of this week.

Mr. and Mrs. Myers were on their way home from Dallas Monday when word reached here of Sandra's illness and they didn't know about it until they arrived home last Monday. Another daughter, Mary, received the word and attempted to locate her parents on the road but was unable to do so.

Mr. Robinson's letter said that the "special educational program for the Lockney schools has been approved to operate for the 1954-1955 term as follows: one teacher for retarded children, the program to operate 9 months out of foundation funds."

As indicated above, the teacher for the exceptional group will be paid by the state agency and will not come out of the Lockney's school teacher allotment. The school will be set up at the C. N. Townsend elementary school. Tests were given here recently for the school and a sufficient number of pupils qualified to insure the school. Several pupils from other schools in the county will probably attend the special school also. Mr. Irons said.

Work toward application for the schools was initiated here by a number of mothers.

A strip about four miles wide north and south and apparently centering on the Floyd-Briscoe line, was damaged by a violent wind, hail and rain storm Tuesday afternoon. Both wheat and cotton crops as well as some houses and outbuildings were damaged by the quick, violent storm.

Reports here indicate that the storm covered a long strip, starting somewhere in the Half Way-Edminston area, west of Plainview and traveling all the way to Wichita Falls. One person was killed and 12 hurt in the storm at Paducah.

Although there was some small damage to other areas, it appeared the south line of the storm area was about even with the Lone Star store. The damaged area extended up into Briscoe county at least two miles and probably further in spots. One report said that the storm traveled a zig-zag route along the county line.

The storm was a short one, although violent in nature. It lasted no more than 10 to 15 minutes.

A survey by The Beacon showed damage to the following places:

Mrs. Ruby Merrick had considerable damage to wheat on her place west of Lone Star. Herman King, next to Mrs. Merrick had damage on the north side of his place. Rain totaled 3 of an inch here.

A strong wind upset a small house on the Dickerson place, north of Kings, and flattened the house.

Floyd Dorman, who farms just about the county line, lost some feed and cotton to the storm, beat into the ground by hail.

Jack Frizzell, 1½ miles north of Lone Star, had an inch of rain plus hail and strong winds. He had just finished replanting his cotton.

G. C. Applewhite and A. O. Foster, in the same area, had complete loss of wheat crops, due to hail as well as some young cotton.

At the Bailey Henderson farm, hail stones as large as golf balls fell, heating in the west windows of the residence and came through the roof, reports here say.

Earl Kellison, also in this area, had some trailers badly damaged by the wind and hail.

Kenneth Wofford had just about completed replanting of his cotton crop when the rains came. Also Reed Lawson, Lowell Jarrett and Lloyd Readmire suffered losses. Lawson had a pretty stand of cotton on his place which was wiped out by the hail.

Lee Deavenport, who farms over in Briscoe County, suffered a complete loss of his wheat crop, the reports said. Hail also fell in Silvertown but no serious damage was reported.

At the Lloyd Widener place, 7 miles north of Lockney, wind tore limbs off of trees and damaged some outbuildings. It hailed very hard for just a few minutes but no rain fell to speak of. Some cotton trailers were damaged also.

C. L. King had considerable damage to his wheat crop. Lowell Jarrett had considerable crop loss as did Harold Griffith, A. E. Frizzell, Pat Frizzell and Jack Frizzell. Wiley Nance and Ray Sissney suffered losses also as did Jewell Rexrode.

The storm, traveling on east hauled out a fine wheat crop on the Z. C. Cummings place, brought loss to Derrell Nix and John Smitherman in the South Plains vicinity.

On the J. P. Taylor ranch, east of South Plains, hail beat the grass off the ground, reports here said. Bryant Higginbotham suffered slight damage to out buildings. Bill Beedy, also in the South Plains area, suffered severe damage to wheat.

Some damage to crops was also reported in the Providence area but the exact farms hit was not known here.

Many farmers had just completed replanting cotton for the second time and it is feared that it will be too late to plant again by the time the ground is dry enough.

Library Notes

By Mrs. Roy Hollar
On Wednesday, June 9 at 4 p. m. in the reading room of the courthouse, Floydada, there will be a meeting of all young people interested in a book review unit for teen agers. We hope to arrange a weekly meeting where some of the more popular books for youth are reviewed by the young people with an occasional review from experienced reviewers outside the group.

Mrs. E. L. Norman told the stories for story hour last Saturday. Games and songs were interspersed making a delightful program. Mrs. William Reaves brought candies for the social time and Mrs. R. C. Henry sponsored for the 1929 Study Club. The children are now looking forward to outdoor games as a part of the most interesting program conducted for them.

It is a pleasure to report that the Floyd County Library now has available for use just over three thousand books bearing the property stamp of your county. We still have the books borrowed from the Texas State Library. These loans are made from the State Library to enable a young library to secure and catalog a collection of books for their public. We continue to add books by gift and purchase each week. We prepared our first book for shelf just a year ago.

Mr. and Mrs. W. L. Fry with Mrs. Lula Slaughter has presented a copy of "Stay on Stranger" by William Dutton in memory of Mrs. Texas Daniel.

We report the following new titles recently added to our shelves. "Mr. Hobb's Vacation," by Edward Streeter, you will remember Mr. Streeter from his other book, "Father of the Bride." "Never Victorious, Never Defeated" is by Taylor Caldwell. "Bhowani Junction" by John Masters is another available best seller. "Sunset Touch" by Howard Sprigg is promising to be most popular. A new novel by Anne Parrish is called "And Have Not Love." Three fine pieces of non-fiction recently added are, "Ambassador's Report" by Chester Bowles; "The Taft Story" by W. S. White of our own state; "Oriental Heritage" by Will Durant; "Destructive and Useful Insects" by C. L. Metcalf; "Light From Many Lamps" by Lilian Watson; "The Next America" by Lyman Bryson; "Creed for Free Enterprise" by C. B. Randall, and "Democracy is You" by R. W. Poston.

The Library extends thanks to everyone who helped with the window for Old Settler's Day. We thought it was a good representation of pioneer activity.

Mr. and Mrs. Leo Brockney and family moved from Lockney to Floydada last week end.

MRS. MARVIN SCHEELE was the first person to correctly identify this Floyd County mystery farm, published in the First National Bank advertisement last week and well she might since it was her home for many years. The place, located a mile north and a half mile east of the Providence school in northwestern Floyd County, is now owned by Robert M. Payne but was for many

years the home place of H. E. Sammann. Mrs. Scheele's father. The Sammann family lived on the place for 35 years but sold it about 1942 to Roy Clements. Mr. Payne bought the place three years ago.

Mrs. Sam Jones of Providence and Mrs. Jimmy Hodel of Lockney also called The Beacon and correctly identified the farm. Mr. and Mrs. Payne have 378

acres on the place and have two irrigation wells. They grow cotton, grain sorghums and have some permanent pasture. They are in the livestock business to some extent and raise registered Hereford cattle and Hampshire hogs. Mr. Payne reports. They moved to the Providence community from Smyer, Texas, when they purchased the place.

HERE FROM DALLAS

Mr. and Mrs. R. L. Hearn and children of Dallas spent Sunday here visiting Mr. and Mrs. Howard Cooper and Carol. The Hearn are former residents of Lockney. Their oldest daughter, Joyce was unable to come since she is recuperating from a very serious operation performed three weeks ago.

Mr. and Mrs. G. D. Russell of Opalis, Kansas visited their son, K. W. Cook and family Friday night and attended graduation exercises of their daughter, DeLores.

Providence News

By Mrs. Wilfred Stoerner

Sunday was "Memorial Day," a day set aside for the living to honor our war dead. It is shocking to see how many living are sleeping. What was your excuse for not showing your patriotism at memorial service at the cemetery Sunday?

Dinner Honors Favor Twins

Mr. and Mrs. Marvin Scheele honored their grandchildren, the Favor twins on their christening. A bountiful dinner was served to Rev. and Mrs. H. L. Anderson and family, Mr. and Mrs. Albert Scheele and family, Mr. and Mrs. Vernon Collins and son, Mr. and Mrs. Albert Sammann and family, Mr. and Mrs. Jack Favor and family.

Pvt. Cecil Boedecker, stationed at El Paso, Texas spent the week end here visiting.

Miss Emily Brown, student at Howard Payne College, Brownwood returned with her parents to spend her summer vacation here. The Browns, teachers of Providence, will teach here again next term. We are indeed glad to have them in our community. Mr. and Mrs. V. De Ross Jr. and family, Mrs. Fowler McCormick of Hale Center, were supper guests at the home of Mr. and Mrs. Wilfred Stoerner Sunday evening.

H. D. Club Meets

The Providence Home Demonstration Club met at the home of Mrs. Marvin Scheele. The entertaining rooms were beautifully decorated with spring flowers. Vice-president, Mrs. Ben Brandes presided. Mrs. H. L. Anderson served as secretary-treasurer. Mrs. Ted Boedecker was the leader for a pitcher show.

The club members presented pitchers, many old, unusual and some with quite a history. Mrs. Ted Boedecker had a pitcher over 50 years old given to her by her great grandmother.

Mrs. Ben Brandes showed a molasses pitcher. Mr. Brandes used as a single man and it is still used in the Brandes home. Mrs. Wilfred Stoerner had several pitchers which were sent by her husband from Eshenback, Bavaria, Germany during the war. A group of 9th division infantry men found refuge in the glass factory where the pitchers were made.

Mrs. H. L. Anderson led the group in recreation. Mrs. Sam Jones won the prize. Miss Petty gave an interesting demonstration on "Accessories in Living Room."

Refreshments of cake, sandwiches, mints and hot coffee were served to the following: Mmes. Ben Brandes, Helmut Quebe, Sam Jones, H. L. Anderson, Ted Boedecker, Wilfred Stoerner, Miss Petty and the hostess. The next meeting will be held at the home of Mrs. E. M. Quebe. An interesting program is planned. Let's increase our attendance, please!

Successful School Year Closes

Parents and many friends crowded the school house for the close of a successful school term at Providence. The following program was presented and really enjoyed by all attending:

Invocation: Rev. H. L. Anderson; American flag salute, primary room, Reading, Gladys Matthews; piano solo, Frances Jones; health program, primary room; reading, Rickey Collis; play "Mary Lou's Recitation," grammar grades; duet, Patsey McLaughlin and Linda Johnson.

"Grandma's Visitors," Louise Jones, Dorothy Huneycutt, Sharon Taylor;

Reading, Patsey McLaughlin; "The Census Taker," primary room. This playlet was unusually good with the nursery rhymes by Dyane Scheele, quartet by Gaynell, Stella, Gladys and Larry; play, "All's well that ends well," grammar grades; quartet by Patsey, Linda, Dorothy and Sharon; piano solo, Mary Jones; play "Waiting for Doctor," grammar grades; "The Dolls Dream," Linda Scheele and Sharon Cannon accompanied at piano by Patsey McLaughlin.

Mr. Brown presented awards and gifts to following for perfect attendance: Louise, Frances and Mary Jones, Patsey McLaughlin and Cynthia Brown.

Party Honors The Albert Scheeles

Mr. and Mrs. Albert Scheele were honored on their 10th wedding anniversary Thursday evening by members of the Trinity congregation and their many friends. The group enjoyed their outdoor recreation facilities followed by an inspirational message by Rev. Anderson and group singing. Guests presented the honorees with a nice assortment of gifts.

The refreshment table was centered with a long two-tiered wedding cake beautifully decorated. It was cut by the honorees and served by Mrs. Ernest Sammann to about 75 guests.

Hosts for the occasion were Rev. and Mrs. H. L. Anderson, Mrs. Ernest Sammann and Mrs. L. B. Brandes.

Mr. and Mrs. Royce Vernon and family from Olton attended graduation exercises here Friday night and visited in the home of his parents, Mr. and Mrs. B. E. Vernon.

SCHOOL IS OUT and summer vacation is here. Many a school student will be looking for a place to work this summer. Money isn't quite as plentiful this year as it has been in past years and the boys and girls are needing to work for their spending money. If you have a job, part or full time, that a high school student can fill we know you won't have trouble finding a student to fill that job. It will help you and them also.

A CONFERENCE IS MEETING at this time to consider the matter of a thousand different agencies soliciting funds in a thousand different drives for a thousand different reasons, most of them worthy to some degree. Even in Floyd county we are seldom, if ever, free from a public drive for funds of some sort. There must be a stop to this sort of thing somewhere because the public will eventually get tired of it and quit donating to any fund, regardless of how worthy it may be. We don't pretend to know what the answer is but we do know that people are tired of drives. In Lockney there is talk of a Community Chest drive, letting one drive do everything. However in some communities where this system is used, they report that still there are drives in addition to the big one. What's your answer to the problem?

ARE YOU A MEMBER of the Lockney Chamber of Commerce and Board of Development? The officers of this organization are working at the job and deserve the support of the people of this community. Yet some are not supporting them and helping them in their task. The securing of the Western Cotton Oil Co. property here is just one of several things that the organization has accomplished in the past few months. This may, with the proper support from the community, turn out to be one of the biggest things that the Chamber has done since its organization. "It can't be done," are the words of a quitter. "Let's do it," are the words of a community builder.

DESPITE ISOLATED cases of wheat losses, Floyd County appears to be headed for its best wheat harvest since 1951. Elevator men are estimating the present crop will be from two to four times as big as the harvest last year. Wheat is already turning and if old man hail stays away the golden grain should start rolling into the elevators by the latter part of this month. Almost every wheat field will "do to our" farmers say and some dry land wheat will make up to 25 bushels with irrigated wheat expected to go as high as 40 bushels per acre. A little money in the county right here in the middle of the year won't hurt a thing.

WITH THE ADVANCES of plastic surgery, it seems they can do almost anything with the human nose except keep it out of other people's business.

PROFANITY

There is, of course, no defense for profanity; no excuse for its use; no provocation of sufficient import of defile. Diety.

Use of profanity is a habit. Some have it in a prehistoric form. Fortunately, most do not have the habit in the extreme, but any lapsing into it is bad and should be avoided like the plague that it is.

The Plainsman from time to time has seen an ironic treatise on profanity, titled "Ten Reasons Why I Swear." We ran across it again the other day and felt it worthwhile to reproduce.

There are those 10 "reasons":

1. It pleases my mother so very much.
2. It is an excellent mark of manliness.
3. It proves I have self-control.
4. It indicates how clearly my mind operates.
5. It makes my conversation so pleasing to everybody.
6. It leaves no doubt in anyone's mind as to my good breeding.
7. It impresses people that I have more than ordinary education.
8. It is unmistakable sign of culture and refinement.
9. It makes me a very desirable personality among women and children, and in good society.
10. It is my way of honoring God, who said, "Thou shalt not take the name of the Lord thy God in vain."

Pretty straightforward sermon, isn't it? — The Plainsman in Lubbock Avalanche.

SEGREGATION

Our advice is not to get too excited about the non-segregation ruling of the Supreme Court Monday. We had known for some time that when the Supreme Court finally faced the issue and abided by the Consti-

tution of these United States, there could be no other decision but the one they made. The fact that we knew it was coming, however, doesn't mean that we like it any more than you do. In fact, for many years to come, we think it is going to work more injustices on the Negro race than could be dreamed up under the present policy of segregation and equal opportunity. We have a feeling that thinking members of the Negro race, particularly in the South and Southwest, hated to see the ruling just as much as you do.

For instance, what happens to the lonely little Negro boy in a class of 30 white students. Segregation could not possibly produce as much heartache for him as the treatment he would expect to receive in the white school. And what of the Negro teachers who have overcome many hardships to receive their degrees? Can they expect to get jobs in a predominantly white school? The idea of non-segregation is fine and is backed up by our Constitution and our Christian religion. But we are afraid that in practice, particularly in the South and Southwest, is several generations too soon. — Trends in Crosbyton Review.

COWBOY'S RELIGION
Wide blades of white fire sliced the darkness and the sodden earth trembled like the deck of a stricken ship. Cattle bawled and there was a clattering of

horns and hoofs; the glare of terrified eyes reflecting at brief intervals the lightning's fury. Cowboys in oilskin slickers rode like phantoms in a desperate struggle to keep the herd together, and felt their horses slip and stumble in the prairie quagmire. Little ribbons of light played on the cattle's horns and from the tips of the horses' ears and the lightning was hot to the riders' drenched faces. Amid the turmoil and above the roar of the storm was the profane voice of a new hand with the outfit. He cursed as each bolt flashed to earth, and defied God to strike him down. Seasoned cowboys rode rapidly when they were forced to pass the stranger and stayed as far away from him as duty would permit. The following morning the stranger was assigned a horse and instructed to ride to headquarters for his check. Religion of the pioneer cowboy was a part of his life, inspired through the eloquence of nature. — Trail Dust in Matador Tribune.

Long Ago In Lockney
June 2, 1916
Fred and Paul Woolfolk, sons of Mr. and Mrs. R. N. Woolfolk, living ten miles north of Lockney, were shot and instantly killed by Dr. C. E. Briles Wednesday evening, May 24 at seven o'clock. The killing took place in New Mexico in front of the Briles dugout. Fred was 24 and Paul was 23 years of age. Funeral services were held at College Chapel here at 3 o'clock with Bro. Ledlow officiating. The bodies were laid to rest in Lockney cemetery.
Waller and Shaw moved Monday into their new brick garage building recently completed.
Meriwether and Hill who purchased the E. Guthrie lot after the fire are beginning a new brick building 30x30 feet with nice plate glass front. Reports are that contracts will be let soon for several other nice brick buildings to replace the wooden buildings destroyed by fire recently.
The home of Mr. Teaff two miles northwest of town was destroyed by fire Thursday morning about nine o'clock. Some of the household goods were saved.

FRANCE'S PREDICAMENT

Here is something that makes the United States want to let France go it alone in Indo-China. A lot of the dollars we are giving France to back up her war in Indo-China are being used to pay French trade bills owed to neighboring countries in Western Europe. Her credit standing is so bad among European nations that she must pay all new trade debts in hard money. Her own money will not be accepted. The U. S. is devising ways to cut off this flow of millions of dollars to France direct for this purpose. — Petersburg Journal.

TIMES HAVE CHANGED?

Our earth is degenerate in these latter days, there are signs that the world is speeding coming to an end; bribery and corruption are common; children no longer obey their parents; every man wants to write a book; and the end of the world is evidently approaching. — Old Assyrian Stone Tablet (in Hieroglyphics, 2800 B. C.)

AN ALTERNATIVE

An exchange coming to our desk was telling about an advertisement that had been printed in the classified section of another newspaper. It read: "Will the party who picked up black Cocker Spaniel the other day return him or come and get the three-year-old boy he belongs to?" — The Hamlin Herald.

than the magic possibilities of the use of hormones on plants. Actually there is nothing magic about them.

Hormones have been in common use by home and commercial gardeners for years. They are cheap, are available at most seed stores and are easily applied, even by the rankest amateur.

One of the most common uses of hormones on vegetables is to induce fruit-set on tomatoes during hot weather, a major problem in West Texas.

Here tomato plants bloom profusely but the bloom dries up and drops off, leaving the plant bare. With the aid of a fruit-set hormone, the flower can be induced to remain on the plant and the fruit develop. Furthermore, the resulting fruit is either nearly or entirely seedless.

This is how you apply fruit-set hormone on tomatoes.

When the flower buds first open, spray the hormone solution directly into each of the flowers of the clusters. Do NOT spray the foliage (many of the commercial hormones are merely dilute solutions of 2, 4-D, the hormone weed killer, and will result in severe stunting or death to the plant.)

One application per blossom cluster is adequate. Since only a very small volume of spray is used, a common bathroom atomizer will make an adequate sprayer.

This time of year many syndicated dispatches in newspapers and garden columns in popular magazines are singing praises of staking tomato plants and describing methods of procedure. As desirable as this practice may be in some areas of the United States, write it off your books for West Texas.

Tying tomato plants up on stakes is the surest way to reduce yields in this area. When plants are staked, it is necessary to prune away side branches and encourage only the main stem. This exposes the fruit to direct sunlight. In our climate, exposed fruit will sunburn, making it unfit to eat.

Here, our job is to protect the fruit from sunburn. This is most successfully done by encouraging a good, heavy vine growth which will provide the necessary shade. Too, staked tomatoes are more subject to blossom end rot, one of the physiological diseases

of tomatoes which become a serious problem in our area.

If you want more and better tomatoes allow your plants to vine naturally on the ground.

Range plants must have top growth before they can put down roots. Plants may make rapid growth when moisture is available but unless livestock are held off and grasses given a chance to reestablish their root systems, severe damage to the plants can occur.

LETTERS TO THE EDITOR

Dear Edgar,

We read in the paper when you have had much needed rain.

We got 3 inches Friday night, which we needed badly.

Our oats look fine this time, wheat is really fine this year. We have a good stand of corn and maize, we planted maize this year instead of soy beans, so we shall see how maize does here.

Elva Dee is working in the bank. She was valedictorian of her class this year. She plans to go to college this fall. Joyce is cook for her dad and brother, as I still work at factory. We milk 7 cows and sell milk.

We would surely like to be home for Old Settlers, but just can't this year, maybe next year.

We think of all our Lockney friends often.

Yours truly,
Mr. and Mrs. Lee Pope.

AN IRONING AID

Time for ironing? Then, as clever women do, choose the best ironing aid you can find — one that will put wings on your iron while providing a satin-smooth finish to starched garments. Pick a quick-dissolving wax that will give your starch a light blue tint, faintly fragrant, and that will make your clothes longer-lasting, with a soil-resistant finish.

For the first three months of this year, beef production was up 13 percent compared with the same period last year; veal was up 24 percent; pork was down 14 percent and mutton and lamb was down 1 percent.

If not, Do So Today — Guard Your Credit.

If so, it's a wonderful feeling to know you're establishing a good sound credit record. A record of that kind is priceless, so if you are lagging behind on your bills resolve to reform now.

Pay your due bills by the 10th of the month. Monthly charge accounts should always be paid by the 10th and then remember to pay your installments on their due date. Keep your credit record in good shape.

TAKE THE HEARTACHE OUT OF HAILSTORM DAMAGE!

Remember this: Every day of the growing season brings hailstorms to some locality. It may be yours — no community is immune — and the fact that you've been lucky so far is no guarantee that your luck will continue.

At today's prices, your crop may be worth as much as your buildings or livestock. That's a big investment to let go unprotected against the ever-present hazard of hail.

See What the PURINA CALF PLAN DID!

4-month Holstein fed on 2 gallons of whole milk a day for two months, plus all the grain she would eat. Weight, 250 lbs. She equaled Marrian's standard for milk-fed heifers.

4-month Holstein fed 25 pounds of Purina Nursing Chow milk replacer, plus Purina Calf Startena. Weight, 320 lbs.—70 lbs. more. Feed cost was several dollars less.

Your dairy farmers who are looking for easier, better and cheaper ways to do things will really go for the PURINA CALF PLAN. Here's why:

- EASIER**—You feed Nursing Chow gruel for one month only. No milk at all. Also calves are self-fed block salt and Purina Calf Startena. Hay after 2 months.
- BETTER**—The Purina Plan raised bigger calves than milk and grain do. And these calves make better milkers because they have more frame and size.
- CHEAPER**—It costs several dollars less to raise calves on the Purina Plan than on milk and grain at present prices.
