WHAT IS THE GOVERNOR'S SIN?

(An Editorial)

The bitter opposition Governor Allan Shivers has from certain groups of people leads us to wonder what great sin the Governor has committed to merit such opposition. Many charges and counter charges have been made, so many in fact that the average voter sometimes wonders what is true and what isn't. With the desire to get to the bottom of these charges let us look at some of them.

First, the leaders of the Governor's opposition are saying that they oppose him because he is running for a third term. Can they be serious in this charge? Most of the same group enthusiastically voted for President Franklin D. Roosevelt for a third term and even a fourth term for president of the United States. Which of the two offices are most important and which is the more steeped in tradition? The third term cry is a pure hog wash. Probably the men who cry the loudest about it laugh up their sleeves in private.

Second, some are charging the governor with fraud in a land deal in Hidalgo County. Did the Governor just make an honest profit or did he "sell out" for a big sum of money. First let us point out that this "deal" happened in 1945 while Shivers was a state senator. We don't believe that his influence as a state senator was worth anything like the amount mentioned in the deal. Then too, if the deal was crooked why wait eight years to bring it up. Those who know tell us that there are lots of buying and selling of options and royalties in Hidalgo County. And the people of that county, who should know more about the deal than anyone else, gave Governor Shivers a two to one margin in votes in the recent primary. Are they so dumb they don't know crookedness when they see it or are they smart enough to detect political mud slinging when they hear it? We're willing to trust their judgment in the matter. The fact that the Governor's opponents wait eight years to cry about the land deal is proof to us that they are desperate for something which they might use to smear his name and are grabbing at anything they can twist or turn to their own use.

What then, is the real reason for the Governor's opposition? The real reason some people bitterly oppose Governor Shivers is because he did not support the Democratic nominee for president two years ago. And why didn't he support him? Because the Democratic nominee, Mr. Stevenson sat across a table from Governor Shivers and told him that he would veto any bill that passed Congress giving back to the schools of Texas the tidelands. What would you have done? Would you have disregarded the interests of your own state in order to bow and scrape to a man who told you to your face that he was against those very interests?

Are Texas people to hold the Democratic party in such high regard that we support any nominee, praise any program or project, and give consent to the passing of laws thrust upon us by party leaders, regardless of our own interests? Are we to go along with party bosses regardless of principle, regardless of consequence, regardless of right or wrong, good or bad?

This writer believes the Governor did right in refusing to support the nominee of the Democratic party two years ago. He could do nothing else if he put the interest of his own state first. Some people call themselves "loyal Democrats." We believe in loyalty but if we must choose between them we prefer to be called a "loyal Texan" first. We believe that we owe loyalty to our state before we consider loyalty to any political party.

Let's put first things first.

Asks For Vote On Community Chest

Representatives of both the Lockney Chamber of Commerce and the Floydada Chamber of Commerce met last Thursday night to discuss the possibility of a united fund drive for all of Floyd County. The purpose of the drive is to raise funds for all charitable organizations who usually make a fund drive in this county, members said.

Bob Miller, representing the Lockney Chamber of Commerce, said this week, "The drive is very similar to the national red feather campaign that is carried out in a number of counties in this state. The chambers of commerce of this county think it would be less confusing to the people and a lot less work for the few people who work at the job in the various campaigns to have one big drive instead of a number of smaller ones. What do you think? Help your chamber of commerce decide by filling out the coupon below and mail it to the chamber of commerce or turn it in to the Lockney Beacon.

BALLOT

Do you want to have a Floyd County United Fund drive?

Yes..... No.....

A meeting will be held in Lockney on September 9th to further discuss the drive, Mr. Miller said.

Rain And Hail Fall In Area Saturday Nite

Rain and hail fell in this area Saturday afternoon and night bringing an appreciable amount of moisture to several areas and causing crop damage to some.

Hail damage hit the Sterley, Lone Star and South Plains area, apparently starting just about the Sterley community and traveling northeast and going north of the South Plains community.

Robert Lee Smith was the hardest hit farmer of the Sterley community and others in the area suffered damage. Jim Bert Bobbitt had hail damage on his crops, as did Kenneth Wofford, Jack Nix, Kendall, Sterling and Z. C. Cummings, Lowell Jarrett, Harold Griffith, Lloyd Reahimer, Clyde Baxter and several other farmers in the areas. Hail had struck approximately the same area at least once and in some places twice before this year. The fact that much of the land was in feed prevented even more damage.

Moisture here totaled 1.10 inches, according to Joe Holt, local weather observer. Other areas reported up to two inches and more. Kenneth Wofford said he had 2 1/2 inches at his home east of Lone Star. East of town Lon Colvin reported 1.3. Most all this part of the county received as much as one inch.

On August 2 '33 of an inch fell here and the rain Saturday night brought the months total to 2.03 here.

Temperatures have been considerably cooler this week. The high for the week was 96 degrees and the low 62. Mr. Holt said.

League Play-Off May Begin Here Monday Evening

The play-off series of the Lockney Softball League may begin Monday night but definite plans haven't been made and League President Lloyd Reahimer was out of town Wednesday and couldn't be contacted. Various team managers say that he has called a meeting of managers for Saturday night to make definite plans for the play-off. The regular season's play will end Friday night.

The four top teams in league standing at the close of the season enter the double elimination play-off, according to plans announced at the start of the season. Three of these teams are determined, those being Silverton, Gulf Service and Fire Department. South Plains holds the fourth place spot now but is only a half game ahead of Lone Star. South Plains has one game to play and Lone Star has two.

The American Legion team has completed their season having a 7 win, 11 lost record. The Lone Star Co-op team has one more game to play. They now hold the cellar position with 3 won and 14 lost.

League officials expect to complete the play-offs in four nights of play, those being Monday, Tuesday, Thursday and Friday nights of next week. However a tie for fourth place could cause some delay in starting the play-off.

Silverton pulled back into the lead this week by winning two games while Gulf Service was dropping two. The Fire Department team cinched third place in the league standings by winning two the past week.

Game results for the week: On last Thursday night the Fire Department topped Lone Star 15 to 4. The Lone Star boys made four in the first inning but were held scoreless the remainder of the game. Archie Bybee was the winning pitcher while West was pitching for Lone Star. In the second game of the night Silverton clubbed the Gulf Service team 15 to 5 in five innings. Bunch pitched for Silverton while Vaughn was on the mound for Gulf.

On Friday night Silverton won another game, this time topping the American Legion team 15 to 11. The Legion jumped into a 6-run lead in the first inning but Silverton caught up in the fourth and were never behind again. Hardy and Kropp pitched for the Legion while Bunch was on the mound for Silverton. In the second game of the night Lone Star topped South Plains 4 to 3 in a well-played game. West was the Lone Star pitcher and Wilson was on the mound for South Plains.

On Tuesday night the Fire Department and Gulf Service played a tight game which went eight innings before Fire Department won 5 to 3. The score was tied 1 to 1 through the fifth inning. The Fire Department scored two in the sixth but Gulf Service came back to score one in the sixth and one in the seventh to tie the score. Fire Department scored two in the eighth to win. Archie Bybee was the winning pitcher and Charles Vaughn the loser.

In the second game Tuesday night the Legion team wound up their season by defeating the Lone Star Co-op team 14 to 4 in five innings. The Legion boys scored nine in the fourth inning to pull ahead for good. Hardy was the winning pitcher and Kendall Cummings the losing pitcher.

Standings after Tuesday nights game were:

Team	W	L	Pct.
Silverton	11	3	.688
Gulf Service	11	6	.647
Fire Department	10	7	.588
South Plains	9	8	.529
Lone Star	8	8	.500
Legion	7	11	.389
Lone Star Co-op	3	11	.176

The remainder of the regular season schedule is as follows:
Thursday night, August 12 — Lone Star vs. Silverton; Fire Department vs. South Plains.
Friday night, August 13 — Lone Star Co-op vs. Gulf Service.

Jett was arrested in Georgetown, Texas, Tuesday of last week and Sheriff Earl Cooper returned him to Floyd County Saturday.

Jett is charged with four burglaries and one theft. The burglaries charges include entering the Knox Grocery, Handley Shop & Pump Co., in Lockney, Lone Star Oil Co. at Lone Star and the Aiken Blacksmith Shop at Aiken. The theft charge is on a pick-up from "Whitey" Iacous Motor Co. here.

Three other men, including a brother to Jett, have been convicted of similar charges and are now serving terms in the state penitentiary.

Recover Batteries

The Sheriff's department recovered five stolen batteries at a Floydada junk dealer's place this week. The batteries had been stolen and sold to the dealer, it was said. Four of them came from the Cedar Hill area and one from Floydada.

Two negroes, Pankey Chatman and Clarence Breedlove, Jr., have been charged with theft under \$50 and are in jail at Floydada.

Negro Wounded

Rose May Harris, a Floydada negro woman, was tried on a charge of aggravated assault this week and fined \$50 and costs. The charge grew out of a shooting in which the defendant's sister-in-law, Della May Harris was shot in the left knee. Officers said that the woman was shooting at a negro man and accidentally shot the other woman. The wound was only a flesh wound and was not serious. The shooting occurred last Friday midnight in the flats of Floydada. The defendant was still in jail Tuesday, unable to pay her fine.

Gamma Globulin Secured For Sterley People

Sufficient gamma globulin to inoculate most of the residents of the Sterley community has been made available to local health authorities and is now on hand. The Beacon was informed Wednesday. Health officials emphasized that there was no emergency present but that anti-polio medicine was secured to be used as a precautionary measure. The little community, lying eight miles northeast of Lockney, has had three cases of poliomyelitis this year and several others in previous years.

Dr. Gene Hardy of the staff of the Lockney General Hospital asked for the gamma globulin, filing a request last week through Dr. George Smith of Floydada, county health officer. The medicine arrived early this week and already several people have been inoculated. Dr. Hardy, acting as city health officer in the absence of Dr. W. J. Mangold said that the medicine was available to any local doctor and suggested that people of the Sterley area who had been exposed to polio in any way should contact their family doctor and request inoculation. Calls should be made during regular office hours. Since the supply is limited the shots will be given only those in the Sterley area who have been exposed to the dread disease.

The gamma globulin has been furnished free by the National Foundation for Infantile Paralysis and local physicians will charge only a small fee for giving the shot, it was said.

Gamma globulin gives immunity to polio in 75% of the cases up to six weeks. Dr. Hardy said and lessens the chances for paralysis in other cases. However, he emphasized that it is not the polio vaccine that has been used in experiments this year.

Meanwhile the Sterley people were trying to help themselves in the matter of preventing polio. A meeting of the people of the community was held last Thursday attended by a state health officer from Lubbock. A spraying campaign was planned and spray has been secured and mixed by men of the community and placed at the store where it is sold at cost. The first barrel has been used up and the second is now being distributed. A crew of the Fun Worth & Denver is working on the septic system at the railroad apartment house in Sterley and other measures are being taken to clean up the community and prevent flies.

None of the cases this year has been the paralytic type, as far as The Beacon could ascertain.

Scout Council Will Improve Camp Haynes

Joe T. Salam, council president, announced today that the Council's Executive Board in session at a meeting at Camp Post on Friday, July 23, voted and approved the development of the Boy Scout camp, Camp Haynes, located ten miles northeast of Silverton, Texas.

The camp construction to be included within the development project is the development of three Troop campsites — the construction of a complete water system, a swimming pool, and a large open shelter.

Each of the Troop campsites, three in number, will have an Adirondack shelter 9 by 14 ft., a Troop cabin 12 by 14 ft., and Troop washing and shower facilities and sanitation facilities. The swimming pool, to be an all concrete construction, will be 20 by 50 ft. in length surrounded, of course, by a cement apron for a sidewalk and with a fence all the way around. The bath house facilities are to be in one corner of the pool.

Mr. Salam also announced that the board had tentatively approved of course contingent with the ability of the Council to raise the necessary money, the purchase of a campsite for the Council in the mountains of New Mexico and the purchase of canoes and row boats so that aquatic camps could be held for Explorer Scouts within this Council. Mr. Salam stated that the Council Executive Board had approved the inclusion of these items in the Annual Fall Operating Campaign to be held this October and November in all of the communities of the twenty counties of the South Plains Council.

Camp Haynes was given to the Council in 1942 by the late John Haynes in memory of his mother, and the camp has been known affectionately over the South Plains Council area for many years as Camp Mammy Haynes. The northern eight counties of the Council have looked forward now for the last twelve years to this very vital step in the completion of their Scouting program — the development of the property at Camp Haynes — so that more use can be made of it by the Scout Troops and the Explorer Posts of this Council. The plan of construction and the plan of use by the Council of Camp Haynes is that it is to be

an advanced short term and overnight campsite for the use of all of the Units of the Council.

W. R. Sewell of Lubbock, Chairman of the Council's Finance Committee, has the responsibility for developing the organizational plans of the campaign, and Ray Mowery of Texas Technological College is to be the chairman of the overall operating and capital camp development part of the entire campaign.

This development program and these other expansion projects of a camping nature have long been awaited by the boys of this particular area. The present membership of the Council will approximate some 5,800 boys and over 2,000 adult leaders.

Wayland Offers Scholarships To Baptist Students

Plainview. — Wayland College is announcing this week sponsored scholarships in the amount of \$288 to the highest ranked Baptist boy and girl in each 1954 high school graduating class, according to President A. Hope Owen.

Conditions of the sponsored scholarship grants include: certification by high school official that student is in upper quarter of class and is highest ranking Baptist boy or girl; and student must meet all admission requirements of Wayland College.

The sponsored scholarship of \$288 will take care of average tuition cost and fees. These are made possible by a special fund.

Application for admission and scholarship should be made at once to President Owen as fall registration for all new students begins at 8 a. m. Sept. 13. Dormitory space is already at a premium, according to Bryan Robinson, dean of students. Completion of new Hattie Mays Ferguson Hall, a residence hall for 50 young women is being rushed. This is the second girls' dormitory at Wayland College to be completed in two years and a third is on the architect's drawing boards.

COOL OFF WITH WARM TUB

During these hot summer days, we are always looking for ways to cool off. It is not as strange as it sounds, but a warm tub-bath soaking for twenty minutes

just before bedtime is more relaxing — and cool off — several times a day by bathing in warm water. Warm water causes the blood vessels to dilate so that much of the internal heat can reach the skin and leave the body. So

The Common Cold

Chiropractors are not in business to knock anti-histamines or Hadacol but—

Patients under chiropractic care for a time usually comment on the fact that, though other members of their families have had colds, they seem able to resist them very well.

This is not coincidence because, according to your Chiropractor, the common cold is a natural method the body has of eliminating waste materials accumulating over a period of time.

The chiropractor says that two or three mild colds a year cause no particular concern.

But when colds become frequent it is a danger signal that the general functioning of the body is below par. The organs and glands which usually remove waste products have become incapable of normal function.

It is a signal to consult your chiropractor for a checkup and a simple adjustment.

CAN A MAN SERVE TWO MASTERS?

Can a candidate for Governor of Texas take the support and money contributions from the CIO Political Action Committee and the National Association for the Advancement of Colored People without being obligated to yield to their wishes should he be elected to the office? Of course he can't. Ralph Yarborough has the undivided support of these two radical organizations in his campaign for Governor of Texas. Can Mr. Yarborough serve the interests of the CIO PAC and the NAACP and also the interests of West Texas farmers and business men? We don't believe that he can—and we're pretty sure we know which he will choose to serve should he be elected governor.

West Texans — we urge you to support Allan Shivers for Governor in the run-off primary August 28. He is NOT accepting support or contributions from either of these radical groups. He will continue to fight to keep the northern CIO interests out of Texas. He will continue to put the interest of Texas first. Vote for the man who puts the interest of TEXAS above all other considerations, even his own welfare—ALLAN SHIVERS.

(Political adv. paid for by West Texas friends of Allan Shivers.)

YARBOROUGH:

Thanks, Friends; Predicts Victory

AUSTIN, Aug. 9.—Democratic gubernatorial candidate Ralph Yarborough said this week he will win the Aug. 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texans—a majority of Texans—can't be wrong."

"678,000 Texans have hammered home their belief that integrity in their government can be achieved only by a change."

"678,000 Texans have noted their distrust and disapproval of a third term for their governors. "678,000 Texas Democrats have made it crystal clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Floyd County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straightforward Democratic leadership and for or against integrity in their State Capital."

The Democratic candidate repeated his thanks to "his friends of Floyd County and urged their voting support—along with the votes of all other Texans—Aug. 28."

PUREED BANANAS

Here's a delicate sauce for ice cream or for light fragile cake that you'll like. It's pureed bananas with a touch of lemon juice, beaten to a cream and made very cold. Add a touch of sugar just before serving.

"AN ELECTRIC FREEZER IS THE ANSWER TO A Sportsman's Prayer!"

says
Mr. H. L. McMAHEN
of Stratford, Texas

"It sure is nice to have some trout or a piece of bear meat around whenever that's just what I feel like eating. I can live last year's fishing and hunting trip over again, and enjoy a good meal to boot. I recommend a freezer to anyone who goes hunting or fishing."

A sportsman like Mr. McMahan gets a real pleasure out of sharing his catch with friends. And Mrs. McMahan finds it easy to prepare a fish dinner in a hurry. Right after the catch, she puts cracker meal on the fish, cooks and freezes them. When friends drop in, a fresh fish dinner is just a matter of warming an already prepared meal.

Keep the pleasure and good eating of your hunting and fishing trips all year round. Keep your fish and game in an electric home freezer.

SEE "Freezer Fair" AT YOUR REDDY KILOWATT ELECTRIC APPLIANCE DEALER

MRS. H. L. McMAHEN says:
"A freezer is a real help around the house. I can serve quick meals—and use out of season foods. And, as for 'Curly's' hunting and fishing trips, I'm like any wife, I sure enjoy eating what he shoots and catches."

On Thursday, August 5th the state health officer from Lubbock met in the club room with a group of citizens of Sterley to discuss the possible cause and prevention of polio in this community. Sterley has had three cases of polio this summer, making a total of 9 cases in the past few years. Some of the men of the community secured and mixed a barrel of spray and placed it at the store for distribution. An extensive spraying campaign has been in progress to eliminate flies, which have proved to be the principle factor in the spreading of polio heretofore.

Miss Eldora Boone spent Sunday afternoon and night in Lubbock attending West Texas District Camp meeting of Assembly of God Churches.

Mr. and Mrs. L. E. Chambliss and family returned Saturday from a weeks visit with relatives in Gatesville.

Library Notes

This week brought us a number of out-of-county visitors among them were W. J. Wingo from the University of Texas, M. D. Anderson Hospital and Tumor Institute of Houston, Texas and his father W. H. Wingo of Route F, Lockney. It is a pleasure to have our out-of-town visitors. Mary Ann McKenny of Los Angeles, Calif. was in to visit our library. She is a niece of Mr. and Mrs. Clyde Harmon.

We report book gifts from Mr. and Mrs. Luther Fry and Mrs. S. J. Handley and Harmony Community Center. The Rotarians of Floydada have presented a copy of "Our Classical Heritage" by Will Durant in memory of Mrs. D. N. Willson. Mrs. W. S. Simmons and Mrs. Ivy Pearl Reber gave the library "We Thought we Heard the Angels Sing" by Whitaker in memory of Douglas Beedy. "Plowman's Folly" by Faulkner was presented in memory of Mr. Silas Duncan by Mrs. Roy Hollar and Mrs. Ivy Pearl Reber.

The month of July came to a close with a total library circulation of 2,188. A fourth of this is reported from our Lockney Branch.

Story hour is never twice alike inspite of the number of regular attendants and thus each Saturday brings us a prospect of new approaches to the world of little youth. The last gathering had a number of school children of some years of scholastic training as well as our usual pre-school group. The books they turn in are more interesting even than those they check out; often we hear "Check this book in for my friend, but check it right out for me." Visitors this week were Ann Harris of Waco and a "first comer" was Paula Norri. Stories were told by Imogene Noland assisted by Elizabeth Holdsworth of Kerrville and Rosemary Wilson of

Boeville. Mrs. R. C. Henry met with the group and had the assistance of Mrs. E. E. Joiner who brought a treat for the children.

For your reading pleasure we suggest "The Song of Ruth" for some weeks past on the best seller list. Perhaps too, you will want to see "Til Cry Tomorrow" which presents a good many problems of mental hygiene in a constructive manner. It has been the subject of wide reviews, radio discussions and television programs.

SW Public Service Works 2 Million Hours—No Accident

Southwestern Public Service Company employees have now worked two-million consecutive man hours without a lost-time accident, the longest continuous accident-free period in the company's history, and one of the top safety records among the nation's electric light and power companies.

Only seven other electric companies in the country have achieved the two-million mark for the entire company, the records of the Edison Electric Institute reveal. The EEI award for recognition of million man-hour or more safety accomplishments was inaugurated in 1943 and to be the eighth out of nearly 300 member companies to reach the two million accident-free man-hours goal is a significant safety achievement for Southwestern Public Service Company.

The present unbroken string of accident-free days began on January 30 of this year. The company is averaging less than one lost-time accident for every million man-hours, as compared with a utility industry average of 11.50 lost-time accidents for every million man-hours worked.

The old saying, "You couldn't do it in a thousand years" applies to this recent safety accomplishment, for it would take one man a thousand years to accumulate two-million man-hours without a lost-time accident. The 1836 Public Service Company employees need just over three months to accumulate a one million total.

Three-million without an accident is the next goal, and the Public Service folks are after it.

I would like to take this opportunity of explaining to the good people of Floyd County why I have not been around to see each of you personally to solicit your vote and influence in the forth-coming election.

Since last Friday I have been ill with Phlebitis and my Doctor has ordered me to stay off of my feet for an indefinite period of time.

This is not a letter of sympathy, but I felt like I must let the people know why I have not been around to ask for their vote and influence.

If elected again to the office of Tax Assessor and Collector I shall continue to serve you in an efficient and courteous manner. Thank you for the many favors of the past.

The heavens declare the glory of God and the firmament showeth his handiwork. — Psalm 19:1.

THE SUPPOSITION that the vote will always be lighter in the second Democratic primary than in the first may be disproved this year. The Beacon editor has had several people tell him that they stayed away from the polls in July but that they firmly intend to be there on August 28th. Floyd County voted nearly 3,000 votes in the July primary and probably couldn't vote more than 300 including paid polls, exemptions and overs. Possibly some that voted in the first primary won't show up for the second but the intense interest in the governor's race as well as the two county races will probably cause almost as big a vote in this county on August 28th as we saw on July 21th.

THE CITY OF LOCKNEY is drawing considerable attention and favorable comment over the area on the cleaning up of the dump grounds here. Several area papers have commented on the project and some have received

letters to the editor, quoting The Beacon's story, and urging a similar project in their home town. No doubt but that the clean up was a big success and well worth while. The long-range success, however, will depend upon how local people co-operate with the city in dumping their refuse in the right place and how closely city officials watch the place to see that the dumping is done according to instructions. Already someone has dumped some cans in the pit at the north end of the grounds reserved for dead dogs and cats. No doubt this was due to misunderstanding but people should be educated as to where to dump what so that the project will be a 100% success.

WHAT HAPPENED TO that big depression which was freely forecast back about the first of the year? So far most everyone except the newspaperman is able to make a living and provide his family with a new television set so maybe the country isn't so bad off after all. Reports from the big business areas say that business is doing "as well as could be expected" and that in lots of cases net profits are up due to cutting overhead. We're kinda thinking that might be the situation with lots of Floyd County farmers this fall barring another siege of bugs.

THE TAX REVISION BILL passed recently by Congress is "not perfect but it does offer some relief to individual tax payers," according to a statement from United States Senator Lyndon B. Johnson. Mr. Johnson said that he supported the bill although all phases of it did not meet his approval. Here are some of the things in the tax relief measure:

The first \$1200 of retirement income received by retired employees is not subject to tax.

Working mothers, widows and widowers who pay for care of their children under 12 years of age will get relief. Up to \$600 paid for this purpose will be free of tax.

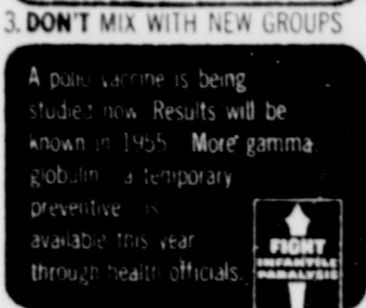

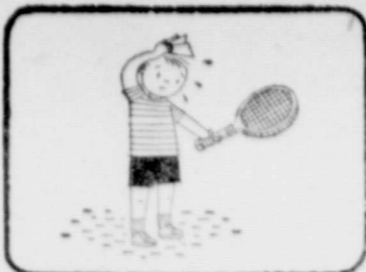

All medical expenses totaling more than 3 percent of income are deductible.

Exemptions for dependents under 19 years of age, even though they earn more than \$600 per year, are permitted if the taxpayers furnishes more than half their support.

Farmers can spend up to one-fourth of his farm income for soil and water conservation purposes and not pay taxes on the income spent in that way.

Deadline for filing income tax returns will be moved up to April 15 instead of March 15.

GUARANTEED BY WHAT?
Some of the major labor unions are now pressing for a guaranteed annual wage for workers. Without going into the pros and cons of this long-debated idea, a pronouncement recently made by George A. Hormel Company, in adopting wage stabilization policies, should be kept firmly in mind by all concerned. Management to manage, coupled with

said, in part: "Certainly our company is wholly unable to redeem the money consideration in such a guarantee unless we can keep our people actually and profitably employed. The entire asset value of our company, cashing everything we own, would only be sufficient to redeem a ten-month guarantee. So, when using the phrase 'guaranteed annual wage', we must ask the question — guaranteed by what? The only guarantee we know of is the ability of management to manage, coupled with

willingness to work. If either fails, then the guarantee fails." That is simply common sense — but common sense seems to be something of a rarity these days. It is obvious that labor-management groups could frame and sign contracts "guaranteeing" wages of any amount for any period of time. But the contract will not be worth the paper it is written on unless the company can sell sufficient goods at a profitable price to make possible its fulfillment. — Hamlin Herald.

NEGROES PUT YARBOROUGH IN RUNOFF

The negro vote put Ralph Yarborough in the runoff against Gov. Allan Shivers. Many Yarborough supporters are for segregation of schools, but they are letting other issues determine their vote for governor.

You will notice the Carver school bus in Amarillo went 174 for Yarborough and 11 for Gov. Allan Shivers.

The order has gone down the line from the top negro organization to get Allan Shivers. It looks like the solid negro support for Yarborough put him in the runoff.

When the voters go to the polls Saturday, Aug. 28, they should use caution in casting their votes. No governor can go into office with such strong block voting without having his hands tied.

Texas is for negroes having good education opportunities, but they feel that block voting is dangerous. They should take this in consideration Saturday, Aug. 28, and support Allan Shivers. — Panhandle Herald.

Decays are no; what successful businesses are made of, unfortunately.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS.

Section 1. That Section 2a of Article VI of the Constitution of the State of Texas be repealed and that Sections 1 and 2 of Article VI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"First: Persons under twenty-one (21) years of age.

"Second: Idiots and lunatics.

"Third: All paupers supported by any county.

"Fourth: All persons convicted of any felony, subject to such exceptions as the Legislature may make.

Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States, or component branches thereof, while in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

Sec. 2. The foregoing Constitutional amendments shall be submitted to a vote of the qualified electors of this State at the General Election to be held on the first Tuesday after the first Monday in November, A. D. 1954, at which all ballots shall have printed thereon the following:

Library Notes

Friends of the library might be interested in reading an editorial published in the "Saturday Review" of June 26, 1954. The article is entitled "The Private Life of the Public Library;" it discusses regional planning using the State of Idaho as an example of thinly settled country where large areas may best be served by Bookmobile service to a wide area. Texans could read this to advantage. Bookmobile Service is discussed in another section of the editorial and a third section is given over to Children's Services. Three other topics reported upon are audio-visual services, prison libraries and library materials for business men or the business reference library; the American Heritage project is included in the discussion of adult discussion groups to end the article. We trust that many of you will use this magazine for a few days and read about our 25 million citizens who keep 350 million volumes in circulation for pleasure, profit and inspiration.

Story hour which did not meet on election day was in full swing last Saturday. New faces present were Richard Marvin Funtz, John Max Bradley and Mary Ann Huckabee; Mary Ann was our visitor from Albuquerque, N. M. There were around thirty people present. Mrs. Jack Coffman brought refreshments for the group. Mrs. Gordon Downing and Mrs. R. C. Henry met with the group for stories and games. The time spent in selecting books to take home is a lively period. There is much comparison of books and very small people often become acquainted with a number of books before a selection is made. Special favorites are checked out again and again to the same people.

Story hour will not meet on August 28th since the run-off will be in process and the court house offices will be closed.

We are indebted to Mrs. Roy Favver for a book gift this week.

It was a real pleasure to have Miss Erin Gamble of the staff of the Cleveland, Ohio Public Library visit us Saturday. She has followed the development of a plan for a library for Floyd

ONLY PURE AND UNADULTERATED CHRISTIANITY CAN SAVE THE WORLD

Christian education is a matter of unsurpassed essentiality because only pure and undefiled Christianity can save the world, solve its problems and recreate responsible beings in the image of God. "For there is one God, and one mediator between God and men, the man Jesus Christ" (1 Tim. 2:5.)

Christ came to save the world, not only from past sins, but from the everyday power of the tempter (1 Cor. 10:12.) He came to solve the problems of the world. "I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life" (Ino. 8:12).

Pure Christianity, unadulterated with the traditions, innovations and perversions of men, can save civilization, preserve that which is worthwhile in society, and lead mankind onward and upward in the path of genuine achievement and true progress.

What is pure Christianity? It is the New Testament religion that saves the souls of men, makes them God-like, and consecrates their lives to zealous, energetic service of God and man.

Pure Christianity is the religion of those who exalt the Bible as their only guidebook, the New Testament as their only rule of faith and practice, the gospel as God's power to save, transform and ennoble, who worship God in spirit and in truth, who reject all human creeds and spurn all denominational affiliations and alliances, and who actually labor in the vineyard of the Lord, bringing glory and honor to God, not through human organizations, but through the church for which the Lord poured out his blood.

It should be emphasized that the mere fact that we reject human creeds and engage in the right acts of worship does not mean that ours is pure Christianity. We must be Christian in conduct, in life, in activity, in character, in zealous service, if we are to please God and save the world.

Lazy, indifferent church members cannot save the world regardless of how right they may be with respect to first principles, worship, etc. — Selected.

THE WAY YOU VOTE WILL MAKE THE DIFFERENCE!

Yes sir, the way you vote in the second Democratic primary, August 28th, will make the difference in whether Texas has an administration that is dedicated to the interest of Texas or to the interest of the labor bosses and the professional political bosses of the north. It will determine whether we have a man in the governor's office whose experience and training make him capable of handling the affairs of the state or one whose capabilities are limited and whose wild promises prove that he knows very little about the job he seeks.

Events of the past have proven that ALLAN SHIVERS is a man of integrity, ability and the courage to stand and fight for the cause he believes to be right. His courageous stand in the Tidelands fight and for the right of states to manage their own affairs has won him national acclaim and recognition as a courageous, sincere man whose one aim is to serve the state he governs.

THE OLD AGE PENSION is not an issue but he has done everything he could to increase the pension. In accordance with his promise a constitutional amendment will be submitted to the voters this fall increasing the pensions. This is the only way pensions can be increased.

GOVERNOR SHIVERS has promised that Texas will not have a sales tax while he is governor. Yet a sales tax will be necessary to carry out all the promises made by Ralph Yarborough. The way you vote will probably determine whether or not Texas has a sales tax if Mr. Yarborough really tries to carry out his promises.

The administration of GOVERNOR SHIVERS has brought progress and improvement to the schools, rural roads, state hospitals and prisons of Texas, and the state is now out of debt and is not running in the red financially as has been the case in years past.

Section 22. The Attorney General shall hold office for two years and until his successor is duly qualified. He shall represent the State in all suits and pleas in the Supreme Court of the State in which the State may be a party, and shall especially

inquire into the charter rights of all private corporations, and from time to time, in the name of the State, take such action as may be necessary to prevent any private corporation from exercising any power or demanding or collecting any special taxes, tolls, freight or wharfage not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such characters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor and other executive officers, when requested by them, and perform such other duties as may be required by law. He shall reside at the seat of government during his continuance in office. He shall receive for his services an annual salary in an amount to be fixed by the Legislature.

Section 21. There shall be a Secretary of State, who shall be appointed by the Governor, by and with the advice and consent of the Senate, and who shall continue in office during the term of service of the Governor. He shall authenticate the publication of the laws, and keep a fair register of all official acts and proceedings of the Governor and shall, when required, lay the same and all papers, minutes and vouchers relative thereto, before the Legislature, or either House thereof, and shall perform such other duties as may be required of him by law. He shall receive for his services an annual salary in an amount to be fixed by the Legislature.

Sec. 5. That Article 3 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

Section 24. Members of the Legislature shall receive from the public Treasury a per diem of not exceeding Twenty five (\$25.00) Dollars per day for the first 120 days only of each session of the legislature.

"In addition to the per diem the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed \$2.50 for every 25 miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller, to each county seat now or hereafter to be established; no member to be entitled to mileage for any extra session that may be called within one day after the adjournment of a regular or called session."

Sec. 7. Said proposed Constitutional Amendments shall be submitted to a vote of the qualified electors of this State on the first Tuesday after the first Monday in November, 1954, at which election all voters favoring such proposed amendments shall write or have printed on their ballots the words:

And those voters opposing said proposed Amendments shall write or have printed on their ballots the words:

"AGAINST THE AMENDMENTS TO THE STATE CONSTITUTION PROVIDING THAT THE SALARIES OF THE GOVERNOR, THE ATTORNEY GENERAL, THE COMPTROLLER OF PUBLIC ACCOUNTS, THE STATE TREASURER, THE COMMISSIONER OF THE GENERAL LAND OFFICE, AND THE SECRETARY OF STATE, BE FIXED BY THE LEGISLATURE AND THAT THE PER DIEM OF THE MEMBERS OF THE LEGISLATURE BE FIXED AT TWENTY-FIVE (\$25.00) DOLLARS PER DAY FOR 120 DAYS ONLY."

shall prescribe by law the qualifications of grand and petit jurors; provided that neither the right nor the duty to serve on grand and petit juries shall be denied or abridged by reason of sex. Whenever in the Constitution the term "men" is used, in reference to grand or petit juries, such term shall include persons of the female as well as the male sex."

Said memorials may be upon battlefields or other suitable places within or without the boundaries of this State. The authorization for expenditures for memorials herein mentioned shall cease as of December 31, 1965.

Under such terms and conditions as are now or may hereafter be permitted by law, the State Building Commission may expend not exceeding Thirty Thousand (\$30,000) Dollars in the aggregate for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Republic in the Texas War for Independence. Mrs. S. L. Powell Injured In Wreck

Mrs. S. L. Powell of 424 South White Street, Floydada, mother of Mrs. W. J. Mangold of Lockney, received a badly broken arm and cuts and bruises Tuesday at 7:57 p. m. when the car in which she and her husband were riding hit a car driven by a negro. The accident occurred on the highway 8 miles from Floydada in Blanco Canyon when the colored men pulled from the right of the road to the left as the Powells attempted to pass.

The negro, John Willy Hearon of Floydada, was charged with aggravated assault with an automobile and was fined \$25 and costs. He carried liability insurance.

Both Mr. and Mrs. Powell were brought to Lockney General Hospital for treatment. Mr. Powell was released after being treated for cuts and bruises.

The Powell's Ford received an estimated \$750 damage and the pick-up driven by Hearon was demolished.

Floyd People At F. B. Institute

The Texas Farm Bureau Institute at A. & M. College was well attended August 1-5, having more registrants than any previous year and the school was considered the best ever.

Jack McIntosh, Floyd County vice president, Howard Martin of Sterley, W. R. Puckett, Mrs. A. H. Kreis, Mrs. C. T. Hammonds and Joyce Hammonds, Queen of the Floyd County Farm Bureau, attended from this county. The meeting was held in the Memorial Student Body Building. All enjoyed the class study in public speaking, recreation, policy development, leadership training and other phases of the Texas Farm Bureau program.

Due to the fact that Floyd County Farm Bureau held their Queen contest early and the board of directors voted to send the winner to the Institute, Miss Hammonds was given considerable attention personally, and the county given recognition in our efforts in Floyd County. To climax the institute, after the banquet speaker had finished, Miss Hammonds was asked by J. Walter Hammonds, state president, to give her short speech on why she thought her family should be a member of the Farm Bureau, and received a standing ovation.

The Floyd County Farm Bureau will hold its regular monthly meeting at the FEA office in Floydada, Thursday evening at 8 and aside from the regular order of business those attending the institute will make their report on the institute. Refreshments will be served and any wife or daughter interested in the organization is invited to attend. These meetings are always open and any one interested in the problems of agriculture and its advancement is cordially invited to come, officers said.

Lone Star Singing Takes Place Sunday

Lone Star community singing will be held at Lone Star school auditorium Sunday at 2:30 p. m. Everyone is invited to attend. Many prominent singers have promised to be present, according to J. H. Hall, president of the organization.

WE'RE STILL not sure about the owner of this place but we're inclined to take Mrs. Frank Brown's word that it is

the Walter Wood farm, east of South Plains. She was the only person to guess the Wood place although we had others

who thought it was various other farms. Will someone else verify that this is the Wood place?

Most of the human race's cowardice comes on street corners and in social gatherings when tongues are held and frankness and truth get little play.
