MONEY WILL NOT BUY EVERYTHING

Some one has said, "Money will buy everything on earth but happiness and an entrance into every place except heaven." Truly this is a good thought but is this all that money will not buy?

What of a baby's smile, a sage's wisdom, and a martyr's faith? Can money restore nature's gold to the hoary head, give youthful spring to the old man's step, or imprint God on a calloused heart? Can it turn back the flight of time, remove the present, or penetrate the future? Can it still the troubled heart or change a memory? Not one of these does money control nor can it buy.

A younger man met an octogenarian on a street in a Southern city. Not having seen the older man in several years and pleasantly surprised to see him, he greeted the elderly gentleman cordially and inquired, "How do you feel?" Apparently surprised at the interest the younger man expressed the old man replied, "Since your manner of asking indicates a sincere interest in the state of my health and general welfare I am going to tell you the exact feelings of my heart. The truth is: I am miserable! A miserable old man! And before you ask why I'll tell you why. When I was a young man I thought that there was only one thing that I wanted in this life. That thing was money. I wanted to be a millionaire. Every waking moment was directed to that end. When I got my first million I wanted the second. I was not satisfied with that and my desire for wealth became such an obsession I lost sight of everything else. I allowed nothing to stand in my way of making money. Now I am an old man. I have a few relatives waiting for me to die so they can get what I have. I am lonesome, my life empty and sad. You know my mistake? Here it is: While I was making money I took no interest in making friends. Now I need friends—true friends. But true friends are not bought with the millions I've made. I am lonely! Miserable!"—Selected.

The sermon topic for Sunday morning will be "WHAT WILL HAPPEN WHEN JESUS COMES?" The subject at 6:00 p. m. will be "CHRIST A STUMBLING STONE." You will find a hearty welcome at each service.

Fast growing favorite with those who know **STYLE**

The switch is on to Chrysler, and new style is the reason! Sleek "tailored steel" . . . exemplified by the 1955 Chrysler . . . is definitely changing America's mind about motorcar fashion. With Chrysler it's a long, low look of forward motion that includes the new sweepback Super-Scenic Windshield. "Wrapping around" both top and bottom, it provides safer vision than any windshield with straight up-and-down posts. All Chryslers now have V-8 engines . . . up to 250 hp. Full-time Power Steering, and PowerFlite . . . most automatic of all no-clutch drives . . . give you performance you'd expect of cars that are proving to be today's leaders. Truer now than ever . . . the power of leadership is yours in a Chrysler! Drive one and see!

CHRYSLER 300's SWEEP SPEED CHAMPIONSHIP

Warren Koeching races down the sand at Daytona Beach at the wheel of the Chrysler 300 which he drove to a new U. S. stock car speed record of 127,580 miles per hour on February 22, winning the NASCAR National Speed Trial Championship and the coveted McCahill Perpetual Trophy. Brewster Shaw, driving the only other Chrysler 300 in a field of 64 U. S. stock cars, took second place with a speed of 126,542 miles per hour. Next day Vicki Wood, a Detroit housewife, drove Brewster Shaw's Chrysler 300 to an average speed of 125,838 to cop the Woman's National Speed Trial Championship, giving the Chrysler 300 a clean sweep. In all, five Chrysler cars were in the first eight finishers in the NASCAR Speed Week event.

Early Pritchett, Shelby Calahan is cubmaster with assistant Roy Bledsoe; Den mothers are Mrs. I. H. Parks and Mrs. Shelby Calahan with assistants Mrs. John Wilson and Mrs. John K. West. Thanks go to each one who helped make the banquet such a wonderful one.

Farmers from here who went to Amarillo Tuesday to attend the four-hour long sorghum support price hearing were Grigsby Milton, Bryan Karr and Kenneth Bean. Whether or not any good will come from this meeting is not known, but the farmers will send a delegation to Washington to try for higher support prices on sorghums.

Donita Milton and Kendis Julian played in the annual winter whirlwind band concert on Friday night at the high school auditorium. Many attended from here. The Floydada Whirlwind band is planning a trip to Sweetwater on March 4 for a contest with about 30 other bands.

Mr. and Mrs. W. Fred Cox from Edmonton, Alberta, Canada flew here this week to visit her father and brothers and their families. Mr. and Mrs. Jack Smitherman from Hart met them at Plainview and they all came to the home of Mr. and Mrs. John Smitherman for a family reunion Thursday night. Supper

guests were Mr. and Mrs. W. Fred Cox, Mr. and Mrs. Jack Smitherman, P. M. Smitherman and Mr. and Mrs. Ernest Smith-erman and Larry. Friday night they again all met at the home of P. M. Smitherman for supper. On Saturday the Cox and P. M. Smitherman went to Dallas and Fort Worth where they will visit the Cox's daughter and family.

FFA Chapter of Floydada gave a Father and Son banquet Tues- day night, Feb. 22, with about fifty sons and fathers attending. Main speaker of the evening was I. T. Graves, supt. of schools. H. G. Barber and J. M. Carroll, agriculture teachers presented certificates and ribbons to those who won in the district contests. Master of ceremonies was J. E. Waller and the dinner had for its main course fried chicken. Present from here were Harry Hartman and James, Cherry Mullins and Roy Hartman, H. L. Marble and Keith, John Wilson and Johnny, Murray Julian and Kendis, John Key West and Winfred and board member R. G. Dunlap. There are about 370,000 FFA boys in America, and the organization started 26 years ago.

Mr. and Mrs. J. A. Kinnibrugh from Vera and Mr. and Mrs. John Kinnibrugh and Beverly from Gilliland spent Saturday and Sunday as guests of M. and Mrs. Sylvie Kinnibrugh and girls at South Plains. On Sunday Mrs. Kinnibrugh served a birthday dinner to all the guests including Mr. and Mrs. F. M. McCuiston from Ralls, who visited Sunday with them. The dinner was in honor of J. A. Kinnibrugh, Sylvie's father.

We were sorry to hear of the sudden passing Sunday night of Mr. Prince Calahan, brother of Mr. H. S. Calahan Sr. who died at his home near Simsboro, La. Those who went from here to attend the funeral services were Mr. and Mrs. Zach Cummings,

H. S. Calahan Sr., Shelby Calahan, H. S. Calahan Jr. and Jack Calahan. Mr. Prince Calahan visited all the relatives out here last summer and we offer our sympathy to the sorrowing family.

Roll Call was answered with a superstition by the members of the South Plains H. D. Club Wednesday afternoon, Feb. 23 at the home of Mrs. John Wilson with co-hostess Mrs. Fred Fortenberry. All were sorry to hear of the resignation of Miss Leila Petty, who gave a good demonstration on Family Plan-ning and Spending. Each family needs a different sort of plan-ning, depending on size and in- come and each family needs to know where their money is spent, letting each member have a share in the saving and spend- ing of the income. Mrs. H. L. Marble gave Garden Hints and it will soon be time to plant early gardens. This year, try planting your garden with a week between planting, so that it will not all be ready for use at once. Mrs. Dunlap gave a splendid report on the week she spent at the recreation school at

Kerrville, and Mrs. L. T. Wood gave the council report. There will be a tea given in honor of Miss Petty on March 12 at the First Christian Church in Floydada. The next meeting of the club at South Plains will be in the home of Mrs. I. H. Parks on March 9. The hostesses served refreshments of sandwiches, cherry pie and coffee to the following members and guests Miss Petty, Mrs. Cecil C. Taylor and Mrs. Donald McClure and Mrs. Roy Bledsoe, J. C. Castle, R. G. Dunlap, M. M. Julian, S. D. Kinnibrugh, H. L. Marble, Bryan Karr, Frank McClure, Grigsby Milton, I. H. Parks, J. D. Webb, J. K. West, Walter Wood, R. C. Bailey and L. T. Wood.

Monday night the minister, Rev. Larry Faus, Mrs. Faus and Vassie Beth visited Mr. and Mrs. L. N. Johnson and children, and Mr. and Mrs. Thos. Pierce and children of South Plains. On Thursday Rev. Faus and family made a business trip to Lubbock. Tuesday the WMU at South Plains was host to four churches for an all day Week of Prayer meeting Sand Hill was unable to attend because of illness in the community. Mrs. Jim Holmes is very critical at this time.

Mr. and Mrs. Leslie Ferguson visited Mrs. Walter Moyer in Eldorado, Okla., and with Mrs. E. W. Brewer and Phoebe in Altus, Okla. Monday.

TEST FOR COLORFASTNESS

Test for colorfastness before you wash something new, advises the Gas Appliance Manufacturers Association. Snip a small piece from a hem or seam and squeeze suds into the fabric. Rinse in lukewarm water and dry between two lays of white cloth. Suddy water tinted, or white clothes stained? That's your cue to wash these garments separately — and to test again before the second laundering. Even if colors do run, you can help keep them bright by the constant use of bluing in every wash water.

Saturday is the most dangerous day of the week in traffic.

Dinner Honors Two Lone Star Families

Mr. and Mrs. W. T. Rankin and Jimmy, Mr. and Mrs. Charles Crawford and Danny were named honorees at a dinner given Saturday night in the home of Mr. and Mrs. Jack Frizzell and children. The two families are moving to Arkansas.

Others attending and assisting with the hospitality were Mr. and Mrs. Pat Frizzle, Mr. and Mrs. Clyde Farish and Donald.

Texas now ranks third in the number of broilers produced annually.

A Navy cruiser requires about 40,000 gallons of fresh water in a normal day's steaming.

If your house burns down -

If your home should burn, it is still going to cost you a lot more than you probably think it will to rebuild it or buy a new house.

Don't keep thinking about what your house cost you in the first place, maybe years ago. Building costs and home values have risen greatly in recent years. Think: how much would it cost me to duplicate it tomorrow?

If you are like the average home owner, you are still probably way under-insured and should talk to us mighty soon (maybe this minute) about increasing the amount of your fire insurance coverage.

1945. The farm is located on Rural Route M out of Lockney. It contains 320 acres, dryland and crops grown are mostly wheat, cotton and grain sorghums.

Will Offer Farm Training To Vets

The Floyd County Vocational School is planning to begin a course in Institutional On-Farm Training for veterans that are farming. The course will start as soon as a sufficient number of veterans are enrolled to justify offering the training.

Veterans discharged after August 29, 1952 have two years after discharge in which to begin their training. Thus, each veteran that is eligible should investigate the possibilities of such training and satisfy himself before his eligibility expires. A meeting is scheduled for March 4, at 1:30 p. m. in room 113, Floyd County Court House for the purpose of enrolling veterans that want this training.

The Institutional On-Farm training is a combination of classroom instruction and actual experience on the farm. A veteran desiring to enroll in this course should be farming under a written lease contract or ownership of the farm, or be able to get a lease contract covering the time of training allowed him. The farm must be of such size and character that, with his school work, it will require the veteran's full time, permit instruction in all necessary aspects of farm management, and assure him of a satisfactory income at least by the end of his training.

A farm plan is worked out with each veteran to fit his own farming operations, which is used as a guide during his training. The plan is revised in some respects each year in order to meet changing conditions. The course is planned for three years. A veteran may enroll for the length of time he has up to three years.

Your 1954 Income Tax

Reduced Tax Rate for "Head of Household" and Surviving Widow or Widower.
 The law provides a special tax rate for any individual who qualifies as a "Head of Household." To qualify, you must be unmarried or legally separated at the end of your taxable year. In addition, you must have furnished over half the cost of maintaining as your home a household. The home must have been occupied for the entire year by you and another person for whom you are entitled to a deduction for exemption unless the deduction arises from a multiple support agreement or by your unmarried child, grandchild, or stepchild, even though such child is not a dependent.
 You may also qualify as "Head of Household" if you pay more than one-half the cost of maintaining a household (not necessarily your home) which is the home of your father or mother and either qualifies as your dependent.
 If you are married to a non-resident alien at any time during your taxable year but otherwise meet the foregoing tests, you are considered a "Head of Household" since you are not permitted to file a joint return.
 The cost of maintaining a household includes expenditures for such items as:
 1. Maintenance of the dwelling and premises. For example, rent (or if you own your own home, real estate taxes and interest on the mortgage), insurance on the dwelling and premises, repairs and upkeep.
 2. Utilities such as gas, telephone, electricity and water.
 3. Food consumed in the home.
 The value of personal services performed by a member of the household is not considered. It should be noted that these expenditures are to be used only in determining if you are entitled to use of the head of household tax rate. Do not claim them as deductions on your return unless they are otherwise allowable.
 If you qualify as a surviving widow or widower as described below, as well as "head of household," it will be to your advantage to compute your tax as a surviving widow or widower.
Surviving Widow Or Widower
 Subject to certain conditions, if your husband or wife died during your two preceding taxable years, you may compute your tax using only your income and deductions, but otherwise computing the tax as if a joint return were filed.
 The conditions are that (1) you must not have remarried and (2) you must maintain as your home a household which is also the home of your child or stepchild for whom you are entitled to claim a deduction for exemption and (3) you must have been entitled to file a joint return with your deceased husband or wife in the year of death.

LOCKNEY'S JUNIOR LIVE-STOCK SHOW on Saturday of this week and the Floyd County show on the following Wednesday and Thursday are events that are worthy of the support in every way of the people of the county. The young men who spend their time and effort in learning the business of stock raising certainly deserve all the encouragement that people of this county can give them. Take time to visit the stock shows, note the effort that the boys put into the raising and showing of their stock, maybe put a little of your money into the events if it comes handy. You'll enjoy it and the boys will appreciate it.

In this country. If labor doesn't organize, especially when working for the big industrialists, then they will be exploited and treated unfairly by some of their employers. However the matter of unfair treatment and unfair demands can just as well be on the other foot. Some times organized labor gets so big and tough that they make unfair demands and use unfair methods to try to gain their ends. The gloriously one-sided Waggoner Act, passed during the Roosevelt administration, gave labor a big stick until watered down some by the Taft-Hartley law. Anyway one side or the other will be unfair in some cases if given the opportunity.

LABOR IS apparently intent upon grabbing such an opportunity. The merger of the CIO and AFL is but a step toward the fight for a "guaranteed annual wage." We're no economist but we're thinking that should organized labor get a "guaranteed annual wage" from automobile manufacturers, where the first battle will be fought, then the so-called "low price cars" will indeed be a thing of the past. Cost of the project would be so great that probably many small businesses would be driven out of business. The long range results might even affect the national economy and bring on a business recession. Perhaps Mr. Reuther, et al never read the story of the goose which laid the golden egg and the foolish act that terminated its career.

"A CHAMBER OF COMMERCE without a manager is a pretty useless thing," one man said Monday while discussing the matter on the street. We believe that we can see quite a bit of good accomplished the past year by the Lockney Chamber with out the services of a full time paid manager but still we concur in the opinion that a paid manager will greatly increase the benefits of the organization. A movement is on foot to secure such a manager if enough financial support is forthcoming from local people. Towns just don't grow usually. They have to be built by efforts of the people within the town, the experts say. Let's get together and see what we can do.

LOCAL QUOTE: Marvin Gilbert says, "It's a typical situation. Floydada gets a new post office building and we get a new lock on the front door of the post office."

U. S. SENATOR PRICE DANIEL says that some people consider Deputy Secretary of Defense Robert B. Anderson of Vernon as presidential material. That Mr. Anderson is a very able man is known by all. He has never been very active in politics, as far as we know, but maybe that would be to his credit in securing the nomination. You remember like had never done much about politics either.

MR. DANIEL further says that increase in the cotton acreage allotment will be used first to bring the small farmer up to five acres where he has less and second to relieve hardship cases where the allotment was reduced by more than 40% of the 1954 acreage. Doesn't sound like much of it will come to Floyd County.

THIS WILL GET YOUR MIND OFF YOURSELF (Unless You're a Preacher)
 We think the following from the Andrews paper is worth a reprint.
SO YOU HAVE ULCERS
 We rather enjoy the following article by a Baptist preacher in a neighboring city that appeared in print recently and pass it along to our readers. We imagine the epistle represents the feeling of not only Baptist preachers but leaders of all flocks:
 "I read an article sometime ago which stated that nearly every modern business man was supposed to have at least one ulcer. Several reasons were listed as being chiefly responsible — one was the labor problem, another was the keen competition, high overhead and several other things.
 When I read this article I could not help from thinking how many ulcers the poor business man would have if he worked under such trying circumstances as a Baptist preacher.
 Suppose, Mr. Business Man, you were overseer of 2,000 workers, (about the membership of our church) suppose that only 50 percent ever showed up for

work at any one time, and of the remaining 50 percent only about half of them with any degree of regularity. And suppose that if only one out of every five of your workers showed up after lunch (like our evening service) and every time one of them had a slight headache or company to visit then they "took off" that day. And every time it thundered or even a slight flash of lightning appeared in the sky 75 percent of your workers pulled the cover over their heads and never appeared for duty that day. Suppose your workers only worked "when they felt like it" and still you must be very sweet and never fire one of them. To get them to work you beg them, plead with them, pat them on the head, pet them, tickle them on the chin, and use every means under the sun to try to get them to do the work. And suppose you were in competition with a notorious rascal (the devil) who had no scruples and was far more clever than you were and used such attractive things as fishing rods, soft pillows, TV programs, carnivals, movies, ball games, parties, pleasure drives and a thousand and one other things "I hurt your business."

Suppose your firm was heavily obligated to meet certain financial responsibilities and you had to depend upon your people to "give as they felt led" to carry out the biggest business in the world.
 You wonder why we do not throw in the towel or run to the bridge and end it all? That's what many of you have done. We probably would if it were not for the number who love the Lord more than anything else in the world and who put God first in their lives and consider no sacrifice too great for their Lord. These are our pride and joy, the salt of the earth.
 So you think you have ulcers, Mr. Business Man, you ought to be in our shoes for a while — State Line Tribune, Farwell.

It is stated that the bank was closed in order to get rid of some old securities on hand that were practically worthless. When the bank re-opens it is said that it will be much stronger and in better shape than it has been in for many years.

One Hundred One Years Of Public Education In Texas

By Charlie Boedeker
District Member, Texas Citizen Committee

One hundred one years ago in the month of January 1854 the first public school was instituted in Texas. Since that time public education has come a long way. The leaders of our Nation and our Republic realized that the greatest assurance for the future of the American way of life is our public school system. Our public schools provide the emblems of knowledge which will enable our children to become responsible citizens in this land of freedom. Through our public schools our Nation and our Democratic form of Government will forever remain strong.

The founders of our republic gave us the greatest philosophy and the greatest form of government ever brought forth on this earth by the heart and mind of man. Those wise and industrious leaders had granite in their character and iron in their backbone. They recognized that a government is something to live under, never to live on.

The men who gave us our way of life did not subscribe to the philosophy that the government owes everyone a living. They knew that a government which assumes the obligation of providing its citizens with high living standards from the cradle to the grave would of necessity deprive them of liberty and destroy their initiative. Our Founding Fathers worked like beavers to build America, and they glorify the individual. They kept government what it should be—a servant of the people.

Great nations are born out of principal, become strong through the application of integrity and die at the hand of moral decay, socialism, extravagance or corruption. America was born out of a great principal and dedicated to the blessing of liberty. There are those who seem to think that our liberties are safeguarded by words inscribed on a parchment preserved in a glass case. The preservation of our liberties rests on a well informed citizenry, through the edu-

cation of our children in our public free schools. There is hope for America when we work together effectively for a greater and better America.

God has given us leaders in the past with strong minds, great hearts, true faith and willing hands. If we continue to be worthy of our heritage and support such leaders as we should, we may confidently expect that he will provide us with wise and courageous leadership which will keep the lamp of liberty burning in America.

Today the pioneers are still at work throughout our land. With no effort for personal recognition they go about their work with a devotion and sincerity unequalled by their fellow man. Generally they give of their time and money with no remuneration. These are the public-spirited men and women in the 150,000 communities across the breadth of this democracy who are members of public school boards. I think they are the unsung heroes of our republic. Most of them are just everyday citizens, like you and me, who have volunteered to serve their neighbor in a commendable democratic role without pay or seldom even a "thank you" for a job well done. These public school board members represent you and me and all other citizens. Let us stay united in the common cause of liberty and freedom, and face the world with a proud determination.

A teacher builded a temple
With loving and infinite care,
Planned each arch with patience,
Laying each stone with prayer,
None praised her unceasing efforts.

None knew of her wondrous plan,
For the temple the teacher builded
Was unseen by the eyes of man.

Gone is the builder's temple,
Crumbled into dust;
Low lies each stately pillar,
Food for consuming rust.

But the temple the teacher builded
Will last while the ages roll,
For the beautiful, unseen temple
Is a child's immortal soul.

BLAZER STRIPES

A group of cotton separates by Jo Collins of St. Louis shows the influence of the young look of the twenties fashion era. Designed in a new, non-wrinkling cotton, the middy top of this smart outfit is done in blazer stripes, while the skirt is solid. Wrinkle-resistant cottons are favorites because they are as practical as they are pretty, National Cotton Council Fashionists say.

TO THE CITIZENS OF FLOYD COUNTY

On February 14 your Commissioners Court was presented a petition to call a road bond election in the sum of \$300,000 for the purchase of right-of-way for the widening of Highway 70 from the Motley County line to the Hale County line and for widening Highway 207 from Floydada to the Crosby County line.

This petition bore the signatures of 133 citizens of the county.

After checking the tax rolls and considering the matter the Court on February 17 voted unanimously to call the election and set the date for Saturday, March 26, 1955.

For your information, in considering the matter we give the following information:

The taxable valuations of Floyd County for 1954 were \$14,811,200.

The tax rate for 1954 was \$1.28 per \$100 valuation.

To finance a bond issue of \$300,000 to be paid out in 15 years an increase of 19 cents in the tax rate would be necessary. This would increase the tax rate from \$1.28 to \$1.47 per \$100 valuation.

On this basis the increased tax on a quarter section of land would be \$3.65 per year to pay off the bond issue in 15 years. The increase on a Ford or Chevrolet car, 1954 model, would be 86 cents per year.

We, the members of the Commissioners Court, are in favor of this bond issue. The county has a favorable record for ability to pay. We hope this information will be valuable to the voters in making up their minds.

Respectfully presented,

W. E. GRIMES, County Judge

W. H. COUNTS, Commissioner,
Precinct No. 2

W. C. PLUMLEE, Commissioner,

Cream cheese is used for almost everything. You see it everywhere. Soften a package of cream cheese mixed with enough cream to make it about the consistency of sour cream. Serve on baked apples — and if you like it sweet, maple sugar or syrup is an addition that's good.

Children's Pictures Wanted By Beacon

Thursday, March 10 from 10 a. m. to 5 p. m. is the date set for taking of children's pictures at The Beacon office. The Beacon wants the pictures and will run them in the paper at a later date. All children who have their pictures made, however, must be accompanied by their parent or guardian.

The Waltz Studios of Des Moines, Iowa, nationally known children's photographers, will be here to take the pictures. There is no charge for taking the pictures and there is also no obligation. However, additional prints of the pictures will be offered by the studio making the photographs and parents may secure them by making arrangements with the studio.

The Beacon wants to run a series of children's pictures and we use this means of obtaining the pictures. If you want to see the picture of your child in print, be sure to bring him in on Thursday, March 10, while the photographer is here.

Economist Makes Hit At Soil Fertility Meet

Dr. Tyrus R. Timm, economist from A. & M. College, was the hit of the show at the Seventh Annual Soil Fertility meeting held at the Plains Theatre here last Thursday. Dr. Timm's talk just before the noon hour was presented in an interesting and informative manner and kept the crowds complete attention in spite of the barbecue lunch awaiting them. He spoke of what farmers may expect in the way of prices and supports and pointed out the obvious courses to take in handling of business affairs, both farmers and merchants.

Also an interesting feature of the day's program was the panel discussion at 2:15 in which four outstanding farmers of the area told of their practical experience in farming in the area followed by a question and answer period. On the panel were Marion Tucker of Harmony, Shirley Irwin of Fairview, Chester Mitchell of Pleasant Valley and Robert H. Gibson, superintendent of Paymaster Farm.

Robert V. Thurman, irrigation specialist from Lubbock, spoke during the morning session and C. E. Fisher, superintendent of Spur Experiment Station followed. A. K. Hepperly, agricultural agent for the Burlington Lines, who helped to stage the day's program, spoke briefly on "Why Build The Soil" to start the program.

The Lockney Chamber of Commerce were hosts for a barbecue lunch at the noon hour at the American Legion Hall. More than 150 men were fed the traditional barbecue meat, beans, potato salad, pickles, etc.

Clinton Harber, Fayette County farmer, told the story of his soil rebuilding experience to the interested group, to begin the afternoon session and he was followed by Dr. W. O. Trogdon, agronomist from Houston.

The panel closed the afternoon's program. R. C. Mitchell was chairman for the morning program and F. L. Montandon was afternoon chairman. Mayor Jesse Cox gave the welcome.

County agent Bill Rodgers was general program chairman and planned the days program.

Mr. Hepperly and Guy Victory, Burlington Lines representatives were hosts at a breakfast Thursday morning on their dining car for several local farmers and business men and hosts again Thursday evening for the evening meal. Mr. Hepperly passed out a handful of Peruvian corn to several farmers Thursday evening asking that they plant it in their gardens. The corn is reputed to grow very tall but local agricultural men were uncertain whether it would mature in this country or not. The corn makes very large kernels and it is usually parched like peanuts and eaten.

The Burlington Lines were also hosts to a group of local ladies on their dining car Thursday at noon. An elaborate luncheon was served to 19 ladies of the area.
