I shall bless the Lord at all times. His praise shall continually be in my mouth. — Psalm 34:1.

REGARDLESS of the political party in power it seems that socialism is still on the march. Apparently the project of ending for everyone from the cradle to the grave still makes good vote-getting propaganda in spite of the utter foolishness of such an idea and the fact that such foolishness eventually will lead to the ruination of the nation economically. Starting with the New Deal Democratic administration of the thirties, the change to the Republican administration in 1952 has apparently slowed down the trend very little.

LATEST STEP in this socialism movement is the plan to raise the minimum wage to \$1.00 per hour, and to extend it to farm workers, as well as all retailing and service trades. In other words, the federal government cannot trust us to pay our help a decent wage. They must pass a law to force us to come up to the standards set by some bureaucrats in Wash-

ington who doesn't know anything about what any of us can afford to pay. However, the man who is getting less than \$1.00 per hour will not be the only employee affected. Don't think you can raise an 80 cents an hour employee to \$1.00 without raising the other employees who get more than \$1.00 an hour. And the \$1.00 minimum is probably just a foot in the door move to eventually raise the minimum to \$1.25 and later to \$1.50 and on up. Once the move gets going there is no telling where it may stop if it ever does.

SOCIALISM, a political theory which reached its top strength back in the early part of this century, sounds good on paper but there are many examples to show that it will never work. The big thing wrong, of course, is that it leaves no incentive for the individual to try to better himself. Actually, communism is a form of socialism with a dictator added. The further this nation gets into socialism the less freedom will the individual have and the more complicated and complex will our government become. The "distribute the wealth" and "share the wealth" ideas advocated by socialism will not only hurt those who are wealthy, but will also hinder and handicap any person who tries to better himself through individual effort and enterprise. It behooves every citizen to do what he can to fight the inroads of socialism into our government.

DO THE PEOPLE of Texas have a right to express their opinion on issues which affect their daily lives or should we leave the decisions to the politicians who ran the Democratic party. Apparently some of the radical element, which now is threatening to renounce the leadership of Lyndon Johnson and take control in their own right do not trust the voters of Texas to make a wise decision on the matters of integration of schools, intermarriage of whites and negroes and the use of interposition to stop the centralization of government. These radicals want to make the decision themselves. This is a fine example of the dangers of compromising with a rattlesnake. Mr. Johnson and his moderate decided to go along with the radicals and oust Mr. Shivers and his conservatives. Now the moderates are about to find that they have a bear by the tail and can't let go. They may lose control of the party to the radical element and thus find themselves between two fires.

PEOPLE who never do any more than they get paid for, never get paid for any more than they do.

TWO PERSONS cannot long be friends if they cannot forgive each other's little failings. — Bruyere.

#### IS IT A NEW TREND?

The decision of the U. S. Supreme Court upholding the right of State labor boards to act against dangerous strike situations, may have widespread repercussions. The decision is being hailed in some quarters as indication of a change of attitude on the part of the high court toward State powers. Among those sharing this opinion is Texas Attorney General John Ben Sheppard. The 6-3 decision, written by Justice Red, declared that the Taft Hartley Act does not prevent State boards from banning mass picketing, use of force and threats of violence

by strikers, even though the acts banned may constitute an unfair labor practice and come under Federal law.

The ruling was on an appeal by the United Automobile Workers from a Wisconsin Supreme Court decision upholding an injunction against picketing and other activities during a strike at the Kohler Company, Kohler, Wis., in 1954. Texas and several other States joined with Wisconsin in urging that the State must have the power to put down violence in connection with strikes and picketing. Attorney General Sheppard, commenting on the decision, said the Kohler case "represented about the last ditch in the battle between Federal and State powers." Whether this ruling actually represents a new trend in Supreme Court decisions, it is too

early to say; but unquestionably the members of the high court are aware of the veritable avalanche of criticism which has followed some of their recent decisions. The manner in which the tribunal ruthlessly has set aside State laws has drawn fire from outstanding Constitutional lawyers, some of whom have accused the court of usurpation of powers. — Lubbock Avalanche.

## Long Ago In Lockney

W. W. Graves of Oklahoma City was before the city council on Monday night to discuss a gas franchise for Lockney. After due consideration, the council voted unanimously to accept the proposition. Work will begin September 1 and completion will be around December 1. The rate will be 67 1/2 cents per 1000 cubic feet and the minimum charge for residences will be \$1.50 per month.

John T. O'Hearn and Mr. and Mrs. J. W. McCarley were in Floydada this morning closing a deal by which Mr. O'Hearn will erect a brick building and install a new picture show in that town. Mr. O'Hearn is owner of the Lockney Ice and Electric and also owns the Isis Theatre here.

The harvest in the Lockney area is now getting under full headway. The weather has been favorable so far. The wheat is of excellent quality, all testing above 60 pounds to the bushel. Many farmers are reporting from 25 to 45 bushels per acre. Prices range from \$1.15 to \$1.25 per bushel. It is hoped that the prices will remain high enough that the farmers can clear \$1 per bushel for the entire crop.

New arrivals this week were a son to Mr. and Mrs. A. D. Faulkner; a daughter to Mr. and Mrs. C. K. Bennett; a son to Mr. and Mrs. W. K. Lockhart; and a son to Mr. and Mrs. John Homer.

The homes of the Pleasant

New arrivals included a son born to Mr. and Mrs. Ben Whitfill. He was named Richard Allen. A son was also born to Mr. and Mrs. Kenneth Watford and was named James Ray.

Miss Ermis Kidd, daughter of Mr. and Mrs. H. F. Kidd of Lockney, became the bride of Ray F. Buchanan, son of Mr. and Mrs. J. D. Buchanan of Plainview, Sunday evening at 6 o'clock at the First Methodist Church in Plainview.

# "MORE WORK SPACE IN LESS SPACE WITH Electric Built-Ins!"

says Mrs. W. P. Crudgington, CLAUDE, TEXAS

"My husband built the cabinets in our kitchen, and had no trouble fitting in the built-in electric range top and oven. It worked very nicely and I'm proud of the job that he did."  
 "One thing that has impressed me is that we could put our electric range exactly where we wanted in our kitchen for our own convenience and use. That's possible because it doesn't need any vents."  
 "I'm amazed at how easy it is to keep an electric range clean. Of course, that's easy to understand because there are no fumes to catch dirt and electricity is so clean. The units will actually clean themselves."

Your comfort and convenience is the test that your electric range will always meet. Built-in models come in any style that you want and can be put in the exact place that you want them.  
 Cook the modern way on the modern range. Of course, it's electric.

### St. Louis Cards Try-Out Camp To Be At Lamesa

Lamesa has been selected as a site for one of the St. Louis Cardinals' nation-wide try-out camps. Red Bird talent scout Al Hollingsworth will be on the lookout there for future baseball greats on June 29 and 30. It was announced today by Chief Scout Joe Mathes.

"I'll be looking forward to the camp our first at Lamesa with keen interest," Mathes pointed out. "It's a big opportunity for the talented players in the area. We don't expect them to be polished players but they must show definite promise. If they've got the tools we'll find a spot for them, develop their potential, and move them up to the big time as fast as their ability warrants." Sessions at Lamesa Ball Park will get underway each day at 10 a. m. A player must be be-

tween 17 and 23 and bring his glove, baseball shoes, and a uniform if he has one. All other equipment will be furnished by the Cardinals.

Expenses incidental to attending the camp will be refunded to each boy signed to a contract with one of the Cardinal-operated clubs. To participate in tryouts an American Legion player must have letter of approval from either his Legion coach or Post commander.

Take one can of salmon or tuna fish, add one medium onion, grated or finely minced. Combine and put into a shallow greased casserole dish. Top with mashed potatoes to which a dash of garlic flavoring has been added. Dot with butter and sprinkle with grated American or parmesan cheese. Put into the oven to bake and brown at a temperature of 300 degrees for fifteen minutes. Serve with green peas and a tossed salad.

### Hepatitis Is On The Increase

Austin. — Hepatitis has recently become a public health problem, declared Dr. Henry A. Holle, Commissioner of Health. It is an infectious disease that attacks the liver and is caused by a virus. The name means inflammation of the liver, and the disease is usually spread by personal contact. Overcrowding, poor personal hygiene may be contributing factors. It can also be spread in water, milk and food.

There are two types of hepatitis caused by a virus and only man is susceptible. Formerly this disease was referred to as yellow jaundice or catharral jaundice. Now the most common variety is called infectious hepatitis and the other is serum hepatitis. Dr. J. E. Peavy, director of Division of Communicable Disease Control, says that probably the actual occurrence of the disease is much greater than the number of cases reported because of the many mild cases and the outstanding complaint, yellowing of the skin, does not always occur.

Infectious hepatitis has been known throughout the world for hundreds of years. Large numbers of troops in both world wars were infected. As a communicable disease among the general public, it has not until recently been considered a serious problem.

Infectious hepatitis was made a reportable disease in Texas in 1952 when 265 cases were reported. The number of cases reported have shown a steady increase. Last year 1316 cases were reported and so far this year 620 cases. The number of deaths has been only a small percentage of the reported cases. There have been 126 deaths reported from hepatitis in the past four years.

Children are the most frequently attacked by this virus and usually have mild attacks. However, the illness can be

severe in older persons. Infectious hepatitis is seldom fatal, but when death does occur, it is usually in persons over thirty years of age.

Personal hygiene and the sanitary disposal of sewage cannot be over-emphasized as preventive measures in the control of infectious hepatitis. Milk and water should be obtained from sources that are known to be tested frequently and careful attention should be paid to the storage of food.

### HELP FOR CALORIE COUNTERS

Someone in the family counting calories these days? A cup of clear soup — broth or bouillon — simmered to bring out the flavor and served hot at the beginning of the meal is sound nutritionally and means that the "no seconds" rule for dieters will be easier to follow throughout the rest of the meal.

The first ship to enter the harbor of Santiago, Cuba, after it fell to American forces during the Spanish-American War was a Red Cross relief ship.

The American Red Cross transmitted welfare messages during the past year at the average rate of 4,500 per day or three per minute, for the benefit of servicemen and veterans.

### NO MORE TATTLE TALE GREY UNDIES

Black and navy fabrics tend to "crock off", which simply means there's a surplus of dye on the surface. Especially in summertime, when the body is warm and moist, dark garments tend to discolor the skin. So, to be especially fastidious, wash your dark undies in lots of soap or detergent suds and warm rinses before you wear them. And wash them daily after that.

The man who boasts of saying just what he thinks should be darn sure that he thinks.

### New Telephone Directories Are Mailed Wednesday

The new Lockney telephone directories were mailed to subscribers here June 27. J. C. Oakley, Southwestern Bell Telephone Company manager, announced today.

"The new directory contains approximately 1,390 alphabetical listings," Oakley said.

Old directories should be thrown away as soon as the new issue is received. However, care should be taken to remove any items, such as photos, letters and notes, which might have been placed between the pages.

The Lockney directory has a gray cover and contains 8 "white" or alphabetical pages, and 20 "yellow" or classified pages. Approximately 1,000 copies of the directory have been printed.

"A large number of extra copies are printed as replacements for those used in public telephone booths and other places where much use occurs," Oakley explained.

"The telephone directory," he added, "remains one of the 'best read' books in Lockney."

You can save time by referring to it if you are not sure of a number or need assistance of any kind. The yellow pages are a convenient listing of almost every business in town, he added.

### WATER TREATMENT FOR FINE LINENS

Washing improves table linens. Running them through a washer or tubful of suds is no trouble at all if spots have been treated first. Every time you use fine linens, look for food stains immediately after the meal and soak or sponge them out. Use cool water for egg, ice cream, meat, and fresh fruit stains; warm water for milk, cream, sauces, candy, cocoa. After that, launder in hot soap or detergent suds and rinses.

### HIDE-AWAY LINEN CABINET

A well-planned bathroom utilizes every inch of space. You can safely store linens in a cabinet directly under the basin if tile has been used to waterproof the counters surrounding it.

The reason some people require so much of others is that they require so little of themselves.

Price Daniel Plans Clean Campaign

Austin—Senator Price Daniel, candidate for governor, announced today that he had signed a "Code of Fair Campaign Practices" proffered by religious groups in an effort to promote clean politics.

The code was prepared and sent to all candidates by Right Reverend Everett H. Jones, Bishop of the Episcopal Diocese of West Texas and Vice-President of the Texas Council of Churches; Right Reverend Robert E. Lucey, S. T. L., Archbishop of San Antonio; and Maurice N. Dannenbaum, Chairman of the Southwest Advisory Board of the Anti-Defamation League of B'nai B'rith.

The code condemns the use of "personal vilification, character defamation, whispering campaigns, libel, slander or scurrilous attacks on any candidate or his personal or family life."

Daniel pointed out that he had already pledged to the people of Texas that he would conduct a clean campaign and run for governor of his own merits and his own program. He has already directed his campaign workers to do likewise.

"I have no hatred or malice in this campaign," he said. "Any questions raised by my opponents will be answered in due time without resorting to personalities or bitterness. I do not intend to lower myself to any campaign of mud-slinging and personalities, but will keep my part of this race on a level worthy of the dignity of the office of governor of Texas."

Guests this week in the home of Mr. and Mrs. R. L. Ellison of Aiken are Mr. and Mrs. Carlee Sevier and Norma of Corpus Christi. Mrs. Ellison and Mrs. Sevier are sisters.

It is not what man descends from but what he descends to that brings shame upon his race.

# FENCES

We need fences. They serve a good purpose. They give protection. But unless they have gates in them, they stop being fences and they become barriers. Without that gate, for instance, Mary Jane couldn't go across to the garden next door, and play with the little girl who lives there.

And, just as we need physical fences sometimes, we need mental and spiritual fences too. We need the privacy of our own thoughts, the sanctity of our own beliefs.

Danger comes only when we build barriers rather than fences around our inner selves. For none of us can live in spiritual isolation. We must have gates in our personal fences. We must permit Faith to enter. We must commune with others . . . and, above all, with God.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the Church itself and nation. (4) For the sake of his community and world, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Elizabeth Ann Belt, Edward J. Foster Repeat Wedding Vows

The First Methodist Church of Lockney was the setting Friday evening, June 23, at 8 p. m. for the wedding of Miss Elizabeth Ann Belt and Edward J. Foster Jr.

Parents are Mr. and Mrs. J. E. Belt Jr. and Mr. and Mrs. E. J. Foster, all of Lockney.

Arthur B. Watkins, minister of the Church of Christ of Lubbock read the double ring ceremony before an altar which was banked with fern and palms. Baskets of beautiful pink Delight roses and white gladioli accented the setting. Tall cathedral candelabra with white tapers lighted the scene. The aisle was marked with tall white tapers and arrangements of pink roses and fern tied with white satin.

Miss Diana Daugherty of Midland, organist, played traditional wedding selections and later accompanied James Carthel as he sang "Because," "In God's Love Call" and "The Lord's Prayer."

Miss Carolyn Belt, the bride's sister, and Miss Carolyn Hastings of Tulla lighted the candles. Teddy Carthel, Jerry Ford, Orland Gilbert and Billy McAda served as ushers.

Preceding the entrance of the bride, a white carpet was laid for the bridal aisle, upon which flower girls, Jann Wofford and Mickey Jarrett, cousins of the bride, strew pink rose petals from mauve pink satin cups.

Given in marriage by her father, the bride as attired in an original model of white imported French lace and pure silk chiffon taffeta. Designed with a portrait neckline outlined with scalloped lace, the fitted bodice was enhanced with all-over embroidery of iridescent sequins and seed pearls. The long sleeves ended in points over the hands and the waist, terminated in a high empire waistline. From this stemmed a magnificent skirt. The full circular back of lace over net and taffeta swept into a long graceful train.

The veil of silk illusion was joined to a heart-shaped cap of lace embroidered with iridescent sequins and pearls to match the dress. She carried a bouquet of white orchids, stephanotis and lilies of the valley in a cascade arrangement on a lace covered Bible. This was showered with white imported lace and white satin streamers.

Following tradition, the bride wore a gold wedding band belonging to her paternal grandmother. For something old, she carried a one dollar gold piece which has been in the family for 99 years.

Miss Sharon Powers of Carthage, Texas, was maid of honor. Bridesmaids were Misses Betty Jean Foster, sister of the bridegroom; Betty May Sams, Betty Johnson and Nancy Kay Tomlinson of Canyon.

The attendants' dresses were identical of Crystalite and tiny nylon tulle ruffles over taffeta in a soft shade of mauve pink. Fashioned with strapless bodices, the dresses were completed with stoles covering the shoulders. The skirts were cut in tiny gores which flared into a full circular tunic caught at the left hip with large bows. Under the tunics were immense skirts of ruffled tulle and silk. Their headresses were matched hats of embossed velvet holding short circular veils.

The candlelighters wore dresses similar to the bridesmaids with bandeaux and wristlets of pink delight roses. Flower girls wore white pinafore dresses trimmed in pink.

Danny Owens of Plainview served as best man. Groomsmen were Bill Moss of Ballinger, Bobby Patterson of Dallas, Jimmy Myers and Donald Allison of Lockney. Steve Belt, brother of the bride, was ring bearer.

For her daughter's wedding, Mrs. Belt chose a gown of natural Chantilly lace over brown

Miss Kay Golden and Miss Jean Wofford were in charge of the register, and Mrs. Garland Sams and Mrs. Kenneth Wofford assisted in the hospitalities.

Background music during the reception hours was furnished by Miss Diane Daugherty of Midland and Mrs. Warren Mathis of Lockney.

Hurricane lamps and accents of the roses were used on the lawn of the Belt home.

gold old model car fashioned of styrofoam. In the front seat of the car were seated a miniature bride and groom among pink roses. Side tables were centered with double hearts outlined with pink satin ribbon and pierced with a cupid's arrow. The double hearts were backgrounds for miniature dresden brides, grooms and bridesmaids. ## 7145 South Plains People Get Social Security Benefits

Social Security payments totaling \$292,811 went to 7145 people in the South Plains Area in the month of December 1955, according to John G. Hutton, Manager of the Lubbock Social Security Office. This was an increase of over 30% over payments at the end of 1954.

In making this announcement today, Hutton said that many persons think of the old age and survivors insurance program as providing protection only for older men and women.

He made it clear that it is also a program benefitting youngsters. At the end of 1955, nationwide, about 1,275,000 children under age 18 were receiving monthly benefit payments under the social security law.

Of these, 120,000 were being paid monthly dependent's benefits because of the retirement of an aged parent; the others were receiving survivors benefits as children of a deceased parent.

Hutton pointed out that about four times as many orphaned children are receiving benefits under the old age and survivors insurance program as are being helped under the Federal State program for aid to dependent children.

Nationwide, almost 300,000 mothers of children under age 18 were receiving monthly survivors insurance benefits under social security at the end of 1955.

As a further illustration of the protection Federal Survivors insurance now provides for the young people of the country, Hutton pointed out that the mothers and children in 9 out of 10 American families can receive monthly survivors insurance benefits, if death should take the family breadwinner.

More than half of all young children in the Continental United States whose fathers have died were receiving social security benefits at the end of 1955.

"With the bringing in of many groups of employed and self-employed persons previously excluded, the old age and survivors insurance program achieved almost universal coverage at the beginning of 1955," Hutton said.

He pointed out that an estimated 68 million persons had taxable earnings under the program in calendar year 1955. Some 70 million workers were insured and can qualify for old age benefits at age 65, regardless of future employment, likewise, in the event of death, their survivors can qualify for monthly benefits, lump-sum death payments or both.

When a worker retires or dies, he or his survivors are urged to visit, phone or write the Lubbock social security office for assistance in making claim for benefits. "In fact," Hutton said, "the social security office should be contacted (1) when a worker reaches age 65, regardless of retirement, (2) when he reaches age 72, regardless of earnings, (3) when an insured member in a family dies, and (4) when a worker becomes disabled for any gainful employment of self employment."

Mr. and Mrs. Oscar Lee and children of Odessa, former residents of Lockney, are visiting here this week with Mr. and Mrs. Ray Pinner and in Plainview with her parents, Mr. and Mrs. M. L. Rexrode.

Mr. and Mrs. W. H. Thurman and daughter of Houston visited last week in the home of his parents, Mr. and Mrs. E. T. Thurman and with his sisters, Mrs. Udell Cunningham and Mrs. Thomas Marr.

LEFT-OVERS MAKE SOUP GARNISH. Don't despair over those dabs and dabs of left-overs. There are many ways to use them, for instance in casseroles and salads. If the left-over is too scanty even for these, it may likely make an interesting soup garnish. Try chopped green pepper in tomato soup, or bits of crisp bacon or slices of frankfurter in bean or pea soup.

RICE PILAF. Rice tastes zippy and comes to the table a tempting golden brown when you use undiluted condensed consome in place of the usual water in cooking. When tender and fluffy, stir in a lump of butter, add salt and pepper to taste, and there you are with a gourmet Rice Pilaf.

### SOIL CONSERVATION DISTRICT NEWS

An analysis of a farm irrigation system by the operator may be profitable in both time and money. Technicians of the local Soil Conservation Service point out.

In analyzing an irrigation system, knowing the amount of water in the head ditch on at the irrigation well can help determine how much water is being applied to the soil.

A well pumping 450 gallons per minute produces approximately one acre-inch per hour. Suppose this stream is run for 12 hours; then 12 inches of water has been applied on one acre or 6 inches on two acres.

Cotton and grain sorghum roots generally penetrate the soil about 6 feet in this and surrounding counties. This 6 foot depth of soil will store 8-10 inches of water. If only 2 or 3 inches of water are applied, the entire root zone is not being used. On the other hand, 12 to 20 inches are more than the soil can hold, and excess water is lost to soil water on the underlying caliche. This results in unnecessary irrigation costs.

The irrigating farmer is faced with the problem of evenly distributing water throughout the root zone. This is necessary

in order to obtain maximum efficiency. To do the best job, water should be applied over the entire row or border as near as possible at the same time.

There are 128 cubic feet in a cord of wood.

In order to obtain maximum efficiency. To do the best job, water should be applied over the entire row or border as near as possible at the same time.

In analyzing systems on hand lands it may be found that the soil is not getting the desired penetration of water. Then, if a system is applying the 5 or 6 inches needed to wet the full root zone, the problem lies elsewhere. If the soil is in a poor physical condition, tends to bake easily, has a hard pan, then mechanical and vegetative practices are needed to open the soil and allow the water to penetrate.

Assistance in analyzing an irrigation system can be obtained from the Soil Conservation Service.

An analysis of an irrigation system may show that the farmer can cover more ground with the same water, or that not enough water is being applied to meet the needs of the soil and crop.
