

County Demos Go For Rayburn And Johnson

The County Democratic Convention, held last Saturday in the Courthouse at Floydada adopted resolutions favoring the Rayburn-Johnson proposals concerning the state committee, endorsed Mrs. Kathleen Voight as Chairman of the State Democratic Executive Committee, named delegates to the state convention and adopted the unit rule. The convention was completely dominated by the "loyalist" faction and there was no opposition present.

Delegates named to the State Democratic Convention to be held September 11 in Fort Worth are: J. C. Wester, chairman; Mr. and Mrs. J. H. Barnard, G. E. Johnston Jr., John Stapleton, Mrs. Sid Thomas, J. M. Willson Jr., W. L. Davis.

One resolution commended the Rayburn-Johnson efforts to the president and restore the prestige of the Democratic Party in Texas, endorsed the Rayburn-Johnson proposal that only Democrats who will support the nominees of the party should be placed on the State Democratic Executive Committee, and that selections of such committees by the Senatorial District Caucuses should be respected and followed; that the State Executive Committee should actively campaign for the nominees of the National Democratic Convention, should be that the names of such nominees were placed on the ballot as the Democratic candidates, and no others, and should see that electors representing the Democratic party would vote for the nominees of the National Democratic Convention.

Precincts represented at the county convention were: Goodnight, Steley Starkey, Lone Star, Harmony, Southwest Floydada, Northwest Floydada, Southeast Floydada, Baker, West Lockney and East Lockney.

Precinct Conventions

The Democratic precinct conventions, held the previous Saturday, all went liberal.

In West Lockney, the last stronghold of the conservative faction of the party in the county, the liberals worked up a crowd of some 50 people and elected their delegates to the county convention. The conservatives made no effort to get a crowd since the county convention is usually liberal minded.

Delegates from West Lockney named were Mr. and Mrs. Stanzell, Mr. and Mrs. J. Belt, Mr. and Mrs. Ray Shibley, Tom Moore, Loren Rhodes, Charley Smith.

The convention adopted a unit rule vote but passed no resolutions. R. H. Ford was named permanent chairman. A total of 47 qualified voters were listed.

In East Lockney eight were present. Delegates elected were Alton Reed, Alton May and Copeland.

Committee Seeks Donations To Move, Improve Negro School

A committee set up some two weeks ago in opposition to integrated schools in the Lockney district has begun a campaign to raise an undetermined amount of money for the purpose of buying land, moving the local Negro school building, adding to it and repairing and painting as it is needed. The move to raise money by public subscription followed a meeting with the school board on Monday night in which the two groups discussed the matter thoroughly.

The committee, called The Committee for Segregated Schools, made suggestions to the board concerning the moving and improving of the school at the Monday night meeting with Dr. A. E. Hewitt acting as spokesman. Their suggestion was that property on the Lockney Loop, just east of the Webster Gin and across the street from it, be purchased and the school building be moved there. They also suggested an addition to the building and other improvements. Varying amounts, depending upon the amount of improvements, were mentioned ranging up to \$10,000.

Dr. Hewitt told the board that his committee wanted to help the school board and that they had utmost confidence in the board.

The discussion wandered, taking in the suggested use of playground equipment from the recently consolidated Lone Star school to the installation of a lunchroom for the Negroes. The board members said that they could not take the equipment unless the people of the Lone Star community gave their consent, since the board agreed to leave all equipment there for community use if the people so desired it.

The board members also told the group that they did not have money to do much to the Negro school and therefore they had not planned to do more than re-roof the building and possibly paint it using school money. They also said that they did not wish to go into debt or to raise taxes in order to improve the building.

When questioned on integration Supt. Nicholas said that he believed the present board would be the last to vote for integration in this district. Other members of the board said that they would not favor integration as long as it is possible to avoid it.

In a session following the meeting with the committee the board asked the committee to raise \$10,000 for the purpose of buying land and a teacherage, moving the school, improving and repairing it as it is needed. On Tuesday Dr. Hewitt answered the request with a letter to President Oscar Golden of the school board saying that the committee considered the amount excessive and impossible to raise at this time and suggested that the board purchase land, move the building, and connect it with utilities implying that this would cost considerably less than the proposed amount. He also said that if the board would take these steps the committee would turn over to the board all the money it raised even though the amount was in excess of that needed for these improvements.

Start Campaign

Apparently acting upon the belief that the board would compromise and accept less money, the committee began work Wednesday morning of mailing out some 1,000 letters and making contacts to raise what money they could for the project.

All money donated will be placed in escrow at the First National Bank here and used only for the purpose of improving the Negro school, the letter states. If not used for that purpose the contributions will be returned to those contributing. It is suggested that money may be left with Joe Parrish, Hewitt's Clinic, John Bickley, or J. H. Cooper in town, Chester Mitchell in the Pleasant Valley community, Mrs. Bob Merrell in the Lone Star and Sterley area and Mrs. Jimmy Hodel in the Providence area.

A report Wednesday said that contributions had already passed the \$1,000 mark.

Members of the committee present were Dr. Hewitt, Mr. and Mrs. Bob Merrell, Mrs. Jimmie Hodel, J. H. Cooper.

Mr. Neil, for the past 18 years field man for the Producers Credit Association in Houston, Texas, has been named vice-president of the First National Bank of Lockney and has assumed his position. Mr. and Mrs. Neil moved here last week from Henderson.

Rex Webster

Rotary District Governor To Visit Here August 10

The Rotary Club of Lockney this week will be host to Rex Webster, Governor of the 183rd District of Rotary International, who is making his annual official visit to each of the 40 Rotary Clubs in West Texas. He will address the local club on Aug. 10th, and confer with President Lloyd Wofford, Secretary Eddie Holcomb, and committee chairmen on Rotary administration and service activities.

Governor Webster will meet with the officers, directors and committee chairmen of the club at a dinner Thursday evening at 6 at the Methodist Church basement. At this time committee work will be discussed. He will address the club at the regular luncheon Friday noon at the same place.

Mr. Webster is vice-president and public relations director of Great Plains Life Insurance Company in Lubbock, and is a member and past president of the Rotary Club of Lubbock. He was born in Gatesville, Texas, graduated from Texas Technological College in Lubbock, and has lived in Lubbock since 1934. He graduated from high school in Childress, Texas, and received his grammar and junior high school education in Denison and Fort Worth. In 1941, he was made a member of the Lubbock Rotary Club, and has been continuously active in that Club, except for a period during World War II when he served as an officer on a destroyer in the U. S. Navy. Since acting as President in 1947-48, he has served as Secretary of the Lubbock Rotary Club until assuming the District Governorship.

In Lubbock, he is a Director of the Community Chest, and the County Tuberculosis Association. He is a Deacon and Choir Director of the First Baptist Church. He has served as President of the Southwestern Association of Advertising Agencies, and the Lubbock Advertising Club, and has served as Director of the Y. M. C. A. and as a Councilman of the Boy Scouts of America. In 1953 he was named Lubbock's Man of the Year. In 1941, Mr. Webster married Madge Malone of Lubbock. They have three children, one boy, Len, eleven, and two girls, Wendy, six, and Robin, two. He was elected as District Governor of Rotary International for the 1956-57 fiscal year at Rotary's 47th Annual Convention in Philadelphia last June. He is one of 248 District Governors supervising the activities of more than 9,100 Rotary Clubs which have a membership of 431,000 business and professional executives in 99 countries throughout the world.

Where Rotary Clubs are located, President Wofford is assisting in discussing the Governor's visit, their activities are similar to those of the Rotary Club of Lockney, because they are based on the same general objectives — developing better understanding and fellowship among business and professional men, promoting community betterment undertakings, raising the standards of business and professions, and fostering the advancement of good will, understanding and peace among all the peoples of the world.

Each year, this world-wide service organization continues to grow in numbers and in strength. President Wofford added, During the past fiscal year, the organization has added 10,000 new members.

Aiken's Withdrawal Mixes Things Up

The withdrawal of A. M. Aiken Jr. from the race for Lieutenant Governor has mixed things up generally in this county, according to Ben Ayres, county Democratic chairman. Mr. Ayres had already ordered the printing of the ballots for the second primary in order to provide for absentee balloting. The printing job was complete and then orders came from the State Democratic Committee to omit Aiken's name. Now Chairman Ayres is afraid to have the ballots printed again until the State Committee meets for fear another change would require a third printing of the ballots and the County Committee would run out of money to hold the primary election. Therefore there will be no absentee balloting in this county until August 13, Mr. Ayres said Monday. The ballots will be run again by that time, barring any further changes, without Mr. Aiken's name on them.

Will Start Work On Fair Bldg. Friday Morn

Officials and directors of the Floyd County Fair along with all the volunteer labor they can get will start work Friday of this week on the fair building in southeast Lockney, making repairs, cleaning it up and generally getting it in shape for the fair which will be held Sept. 13, 14, 15.

Manager Dick Whiteley of the Fair Association said that the directors had decided to build a ramp and make usable and available the second story part of the building over the livestock pens. This part of the building hasn't previously been used.

Holes in the roof of the building will be cemented, the floor repaired, windows repaired and filled in, openings closed and other necessary work done. "We can use all the volunteer labor we can get," Mr. Whiteley said, "and we will sure appreciate your help if you can come out and spend some time helping."

Wiring will have to be installed for the part of the building not heretofore used, Whiteley said. Some damage to the building will have to be repaired. Someone has broken many of the window lights in the building and broken down some of the doors, he said.

Dodgers Have Big Lead In Little League

The Dodgers hold a big lead at the close of the season in the Lockney Little League. They only lost one game all season, that to the second place Giants.

Only one make-up game remains to be played in this league, that between the Yankees and Cardinals. It is scheduled for Thursday, reports here said. The regular season's play ended last Saturday evening.

The last week's play brought these results:

On Wednesday the Giants beat the Yanks, 11 to 10; on Thursday the Dodgers defeated the Red Sox, 10 to 0; on Friday, the Cards won over the Yanks by the forfeit route; on Saturday the Giants handed the Indians an 18 to 2 defeat. A make-up game Monday found the Indians whipping the Yanks 6 to 1.

The Dodgers, along with a few players from other teams, were scheduled to play a Plainview team here Wednesday afternoon. The score was unavailable at press time.

Bob Miller Takes Insurance Agency

A transaction which has been underway for several weeks was completed effective August 1 when Bob Miller assumed the ownership of the Pinner Insurance Agency here. The firm will be known now as Bob Miller Insurance Agency, will operate in the same location as the Pinner Agency and will represent the same reliable companies, the principals in the transaction said.

Mr. Miller was until recently a partner in the Lockney Drug Company, a firm which his father owned for many years. He held that interest and went into a contract to buy the Pinner Agency about two months ago. He passed his state board examination with a high grade and received his recording license as a general insurance agent last week.

Mr. and Mrs. Fay Pinner, who have operated the agency for several years, will continue to live in Lockney at present. They have no definite plans for the future, they said Wednesday, but will be available to help Mr. Miller when needed.

Packing Shed Is Being Built By Local Men

The Hi-Plains Gin Co., a corporation formed by five local men, started construction Monday of this week of a 40x100 foot packing shed on the Santa Fe right-of-way in South Lockney. The local group have signed a lease contract with the Troutman Bros., a vegetable processing and shipping firm who has been active in this area this year.

The building will be a quarter-type with concrete floor. It has been designed especially for the packing of vegetables according to Troutman Bros. specifications. Construction is expected to be completed within two weeks, and the building will be in use within three weeks, the owners said.

Contractor on the building is the Lubbock Steel Building Co. of Lubbock.

Troutman Bros. have a contract on 90 acres of Honeydew melons in this community which will be ready for packing within two weeks, and for that reason construction is being hurried. They also have some 400 acres of other vegetables in this area which includes carrots, tomatoes, cabbage, lettuce and bell peppers. They have been very pleased with their vegetable crops in the Lockney community this year, it was reported to The Beacon, and are planning on asking for 4500 acres of mixed vegetables here next year. The company is willing to finance the planting and growing of the crops if the farmer so desires, it was said.

Owners of the Hi-Plains Gin Co., Inc. are Horton Howell, Leslie Ferguson, Ray Sissney, Harmon Handley and Raymond (Dick) Ford.

He which soweth sparingly shall reap also sparingly; and he which soweth bountifully shall reap also bountifully.—2 Cor. 9:6.

WITH ONLY two sets of candidates on the ballot in the second Democratic primary in Floyd County may be light though it should not be. The offices of Governor, Lieutenant Governor and Attorney General will appear on the ballot in this county. Lieutenant Governor Ben Ramsey will be unopposed because of the withdrawal of A. M. Aiken Jr. The hottest race, of course, will be that for governor with Price Daniel and Ralph Yarborough battling it out. Mr. Daniel's more than 364,000 vote lead over Yarborough will be mighty hard to overcome. As we figure it Daniel will get most of the votes going to Senterfitt and Haley since all three men are known conservatives. A rough estimate on this basis shows that Yarborough must get six out of seven of the O'Daniel vote to win over Daniel. That's a big job.

JUST WHAT are the issues in the governor's race? So many charges have been made and so much talk has been going around that most of us are slightly confused as to what the two candidates are driving at. But we believe a little quiet, clear thinking will produce some conclusions.

ONE OF THESE conclusions must be that the farm program isn't an issue. Mr. Daniel was in the Senate and voted and worked against the Benson farm plan in spite of what some Yarboroughites say. He not only worked against the Benson plan but he worked for the farmer in raising the support prices of grain sorghums and other products. He has proven

his interest in the farmer. Yarborough claims a similar interest though he has never had an opportunity to prove it. Besides all that the farm program is settled in the national Congress, not by the governor of the State of Texas. So how could the farm program be an issue?

IS CORRUPTION in state government an issue? Certainly if a man responsible for the corruption was running it should be an issue. But the fact that Price Daniel was Attorney General for a short time while Bascom Giles was laying plans for the big steal shouldn't condemn Mr. Daniel. He actively opposed the block selling of veterans' land, the medium through which Giles was able to work his scheme to defraud the state and veterans, but after Mr. Daniel went to the Senate apparently this opposition was dropped and Giles was able to carry out his nefarious plan. Price Daniel, even in his present campaign, has proven himself to be a clean, honest man. It appears that Mr. Yarborough is finding it difficult to keep his campaign as clean.

THE REAL BASIC ISSUE in this campaign is conservatism vs. liberalism. Are you a liberal or a conservative? If you are a liberal you would vote for Yarborough. If you are a conservative, then Price Daniel should be your choice. The conservatives believe that states should have the right to manage their own internal affairs, run their schools as they like, and that business should be run on a free competition basis with as little government interference as possible. The liberals hold to the theory that the national government knows best. They would centralize government powers in Washington. They favor forced integration of the schools, they work for legislation that favors the big labor unions, and they would pass fair employment practices legislation aimed directly at the South. Which theory of government do you favor?

YARBOROUGH lost lots of support in Floyd County as he did over the state comparing the first primary this year with his vote two years ago. Actually he hit his peak in support in the first primary of 1954. He lost ground in the second primary of that year and much more ground in the first primary this year. In Floyd County Yarborough received 622 votes this year compared to 1395 the first primary in 1954 and 1341 in the second primary of that year. In the state he polled 460,961 votes this year compared to something over 700,000 two years ago. This despite the fact that more people voted in the primary this year than in any previous Democratic primary in the state. The total vote in the governor's race this year was 1,569,990. Daniel received about 40% of the vote or 624,833.

WHEN YOU go to vote in the second primary it shouldn't be hard to determine which candidate you prefer because the issues are plain. Will you have a conservative government or a liberal government. The choice is that simple.

THEY SAY a man's neighbors know him best. If that is true the vote in the first primary is very revealing. Price Daniel received 87% of the vote in his home precinct. He also received 73% of the vote in Yarborough's home precinct. Those figures are over all five opponents too.

IN HOMETOWN AMERICA

With Our EXCHANGES

WE CAN GET A \$140,000 PAYROLL

How would you like to have a \$140,000 annual payroll in Muleshoe, every year from now on? It is possible to obtain the equivalent of that much money in active circulation or on deposit in local banks if the proposals of the Hoover Commission on decreasing the cost and increasing the efficiency of operation of the Federal Government, are put into practice. The actual cash dollars saved in federal income tax pay-

ments from Muleshoe trade area business firms and individuals, would amount to a yearly saving of \$140,000, our percentage of the \$55 billions that would be saved if the program were voted into law and carried out in Washington. The Muleshoe Chamber of Commerce, in cooperation with the US Chamber of Commerce is carrying out a campaign to arouse local interest in urging our lawmakers to pass some of the more than 240 bills now before the two lawmaking bodies in Washington, which deal directly with recommendations made by the Hoover Commission. The Hoover Commission, a non partisan group, appointed by President Truman, and again by President Eisenhower

has made more than 300 recommendations as to how the federal government could be operated more efficiently and economically. primarily by having the government get out of competition with private enterprise.

The Chamber is also urging that the federal Civil Service system be overhauled for more efficiency and economy. Government competition with private business does not all exist on the Washington level. Right here in Bailey county the federal government is in direct and inefficient unfair competition with Muleshoe area merchants and individuals. In the banking and loan business, in the printing business, and in the actual sale of merchandise, the federal government is in direct competition with local firms, and in many other instances also.

It amounts to the taxpaying businessman supporting his own competition from his own pocket. Every citizen should inform himself of the bills now pending, and which might not otherwise see any action in this election year, and insist that his representatives in Washington work to pass the bills that will put \$140,000 in circulation in Muleshoe. YOU CAN'T CLIP A TV PROGRAM

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter. "You can read on a train crossing the desert or on a plane 17,000 feet above the Atlantic — no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging onto a pole in a crowded bus. You can read as much or as little as you want, as fast or as slow as you want. And if you read something you like, you can tear it out and save it to read again some day. I enjoy radio and television, and I am gainfully employed by both, but I must admit they have their drawbacks.

Miss Stewart Bride Of Edwin Langford

The Broadway Church of Christ, Lubbock, was the scene Friday evening, August 3, for the wedding of Miss Gloria Ann Stewart and Edwin Dent Langford. She is the daughter of Mr. and Mrs. Robert E. Stewart, Lubbock and his parents are Mr. and Mrs. D. D. Langford, Lockney.

Horace G. Coffman officiated in the double ring service which was read before an altar embanked with white magnolia leaves and arrangements of blue chrysanthemums.

The Broadway Church of Christ Chorus sang "I Love Thee" and "Thine Alone." Gordon Anderson, soloist sang "At Dawning."

Given in marriage by her father, the bride wore a waltz-length gown of white embroidered organza. A pleated tulle insert outlined the V neckline. The short shirred sleeves were complemented by organza mitts. She wore a fingertip veil of silk illusion and carried a bouquet of orchids and blue stephanotis.

Matron of honor was Miss Kay Burnam and Miss Sue Moore was bridesmaid. Their dresses were of blue and white checked gingham and were accented at the sleeves and neckline with blue velvet. Velvet bows at the back created bustle effects. They wore large straw picture hats and carried arrangements of blue chrysanthemums.

GO TO CHURCH SUNDAY.

Travis A. Taylor was best man with Merwyn Igo and Robert Stewart Jr. serving as ushers.

Following the service a reception was held at the Church in Fellowship Hall. White magnolia leaves and blue chrysanthemums decorated the serving table. Background music was provided by the Broadway Church of Christ Chorus.

Assisting with hospitalities were Mrs. Ona Williams, Minnie Scott, Olton, Hugh Ford, Horace Coffman, Wener Haggood, Roy Burnam, Bill Rogers, Cecil Chance, Fraser Moore, and Misses Sandra Sherrod, Becky Allen and Martha Mack.

For a wedding trip to Denver, Colorado, the bride selected a sheath dress of blue and black weave silk. Her accessories were white and blue.

The bride plans to continue her studies at Tom S. Lubbock High School this fall. Her husband, a graduate of Texas Tech, is employed with Conday, Pratas and Smith. The couple will be at home at 2507 A Ave. T after August 15.

Janet Lloyd Weds Wayne T. Webb

The First Baptist Church, Floydada, was the scene for the marriage of Miss Janet Lloyd and Wayne Truman Webb Sunday, August 5, at 4 o'clock. Her parents are Mr. and Mrs. John A. Lloyd, Floydada and he is the son of Mr. and Mrs. Truman Webb, Childress.

Rev. R. Earl Allen read the double ring ceremony before an archway of white chrysanthemums and green fern. Aisles were marked with white satin cords.

Mrs. Bob Copeland presented prenuptial selections and later accompanied Mrs. Leonard Grigsby, Lubbock, as she sang "I Love Thee" and "We'll Walk With God."

The bride, given in marriage by her father, wore an original creation fashioned of imported Sulpioni silk. The basque bodice featured a low, round neckline outlined with French Alencon lace. Sequins and tiny seed pearls highlighted the lace and small French covered buttons extended down the back. The voluminous skirt gathered from a low waistline and fell into a sweeping chapel-length train.

The bride's veil of white French silk illusion fell in tiers to fingertip length from a crown of white orange blossoms and rhinestones. She carried a white orchid atop a white Bible surrounded with stephanotis and showered with

white satin streamers.

Mrs. Ann Sowell attended her sister as matron of honor. Bridesmaids were Mrs. Louis Lloyd and Miss Freida Smith. They wore identical floor-length gowns of blue crystal taffeta. The dresses were styled in princess lines and featured bouffant skirts. Bias taffeta marked both the neckline and the hipline. Their hats were of matching blue net with scallops around the wide brims. Their bouquets were crescent and semi-crescent arrangements of blue and white dilpheniums.

Miss Glanel Webb, sister of the groom, and Miss Goldi Sowell, were candlelighters. They wore dresses similar in style to the attendants with matching satin slippers.

Floyd Koen Jr., Lubbock, was best man. Ushers were Dorman Stanley, Dallas, Johnny Lloyd, Lewis Lloyd and Dale Smith.

For traveling, the bride wore a peacock blue silk ensemble fashioned in sheath style with a fitted bolero jacket. Dusty rose accessories completed the attire.

The bride is a graduate of Floydada High School and Texas Tech. She is a former employee of Tiche-Goettinger of Dallas. The groom graduated from Childress High School and Texas Tech and at present is serving in the Armed Forces at Fort Chaffee, Arkansas.

Following their wedding trip, the couple will be at home at 1315 1/2 S. Dallas, Fort Smith, Arkansas.

FIVE months or FIVE dollars?

Even with hospitalization or insurance, time spent being sick still costs you money! In the past it often meant long periods of recuperation and absence from work with loss of income.

Luckily today these expenses can be largely avoided thanks to the effectiveness of modern miracle drugs. The wonderful curative powers of the antibiotics, the sulfas and other present-day medicines have practically eliminated the long periods of recovery for many illnesses. When you realize this, the few dollars that your prescription costs are indeed a bargain.

Mother Goose School To Open September 12th

I wish to announce the opening of "The Mother Goose School" Wednesday morning, Sept. 12, at 9 o'clock, for this fifth year in Lockney. This is a private school for four year olds (by request this year and five year olds).

I attended Wayland College, Texas Tech and T. C. U. Previous teaching experience: kindergarten for several years in both the Plainview and Fort Worth schools, and the first grade begin. The latter I leave kindergarten ends and the first grade begins, the latter I leave for the Lockney public teachers, next year. Location: at my home, 614 S. W. 2nd st. Hours: 9 to 11:45 a. m. all school days, observing all holidays as will the local public schools. Course of study: For "Seniors" only (those who were 5 before Sept. 1); various work books pertaining to the "Steps" between the home and school. For Juniors (those 4 years old) as well as the seniors: scrap book work; Children of Other Lands, Homes, health, science, music, 3 times weekly, singing, rhythmic work, etc. But this is not a year of only work. All birthdays will be observed with cakes, candies and polio pennies. Last year we donated over \$150.00 to the Polio Drive through our school. All holidays will be gaily observed, too. There is much directed play, in which the child learns to give-take, from his little playmates, and the cooperation of the teachers.

Those interested in enrolling your 4 or 5 year old child for the vacancies left, may do so by calling me at 2235, or come by my home. Thanking you for your continued interest.

Estacado Reunion Set For Sunday

Former and present residents of the Estacado community of Crosby county, the old Quaker colony, will hold their annual reunion Sunday, August 12, in Aggie Grove on the Texas Tech Campus southwest of the Administration building.

Registration will begin at 10:00 a. m. and dinner will be spread picnic style at noon.

Talks on the history of the community will be made by Dr. Ernest Wallace of the Tech History Department and Dr. "Ike" Conner of Tech Museum. Following lunch, there will be a guided tour of the Museum.

Estacado was established in 1878 by Paris Cox as a Quaker settlement. For a while the community thrived, and the first college on the Plains was established here. Then, most of the Quakers moved away, and they were succeeded by other settlers. Today, only a store and church remain, but the area is one of the richest irrigated farming sections of the Plains.

Mrs. Frank Hill and Mrs. Harley Henderson of Tahoka were instrumental in organizing the reunion a few years ago. Mrs. Margaret Carter of Lubbock arranged this year's program.

The kids in the grandstand are yelling, "Strike him out!" and our young pitcher is going to do exactly that. This is his day for a shut-out game . . . his day to win.

He's feeling pretty good about it, and who's to blame him? But what if things had gone the other way? What if some other boy had been warming up in the bullpen, about to have taken his place? But he is a well-balanced youngster, and he would have taken that in stride, too.

He has learned about being a good sport, about regard for his fellow men, and about many other equally important things in Church. For, like thousands of other American youngsters, the Church already plays an important part in his life. That is one reason why his parents have faith in the fact that he will grow up to be a pretty fine man.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Frank Moore Wants Change In Farm Plan

(From the Plainview Evening Herald)

Frank Moore, dirt farmer, civic worker and student of agricultural problems as well as a worker to help solve them, is going to the national Democratic convention Chicago as a delegate from Hale County.

He writes The Herald seeking expressions from farmers of the area on what they think, so that he can have the benefit of these suggestions as a guide.

Frank expresses himself clearly and distinctly. Here's what he has to say on the subject:
I have been talking with farmers of Hale County and quite a few of them would like to see allotments of crops discontinued. They seem to prefer a reduction in the size of their farm by 15 to 20 percent and to be allowed to plant as they please on the remaining acreage at a support price of about 75 per cent of parity.

It seems reasonable to me that if all the crops that are now supported both basic and non-basic were supported on the same parity formula and at the same rate there would be an automatic adjustment in acreage and the crops that were overplanted would be cheap enough to sell on the world market. Crops that were neglected and underplanted would be reflected by a higher market. No allotments would end one farmer having a better allotment than another and one farm being more valuable than another because of a better allotment.

If the land that is laid out with no pay were followed by legumed and rotated each year its fertility would be increased and noxious weeds and Johnson grass could be controlled and eradicated. This would also conserve our water supply in Hale County and in the case of dry land farmers cause yields to be more certain. This type of farm program would save the taxpayers billions of dollars and could possibly lead to an income tax rate reduction. As I am a delegate to the National Democratic convention which begins August 13th, I would like to know what the farmers of Hale County really want. Do they prefer a plan like this or do they prefer the original Plainview Farm Plan or neither? I would certainly like to be able to tell the leaders of the Democratic Party what we want if the opportunity arises and I think that I can manage to make it arise. Ideas in this farm plan actually came from farmers in Hale Center, Abernathy, Petersburg, Edmonson, Prairieview, Plainview and other parts of the county. I hope that the farmers will let me know what they are thinking either by mail, telephone or personal contact in large numbers.

Urge Contacting USDA In Favor Of 2% Reserve

George W. Pfeiffenberger, executive vice-president of the Plains Cotton Growers, Inc., has sent out letters urging cotton farmers and others interested in cotton in this area to contact the Secretary of Agriculture, Washington, D. C., urging the issuance of a proposed regulation limiting the state cotton acreage reserve to two percent. The matter is before the Secretary at this time, Mr. Pfeiffenberger said, and the proposed regulation limiting the reserve to two percent has been published in the Federal Register.

Farmers in Eastern Texas, of course, are opposing the move and are deluging the Secretary of Agriculture with demands that the proposed regulation be withdrawn.
The regulation should be identified as a notice in the Federal Register, of July 7, page 5065, concerning state cotton acreage reserve. Farmers are urged to write in their own words pointing out the injustice done to this area by last year's actions of the State Committee.

The Plains Cotton Growers, Inc., will send a delegation of two or three of its members to Washington to back the effort, it was said.
Charles Duran, president of the First National Bank here, joined this week in urging that farmers contact the Secretary concerning the matter.

Farm Bureau Leader To District Meeting

District 2 of the Texas Farm Bureau Federation will hold a meeting in Lubbock August 14 at the Lubbock Hotel, W. R. Puckett, service man, said Wednesday.
Floyd County Farm Bureau policy development committees and office, will attend and be instructed at the meeting on wider participation by members in the formulation of policies for the ensuing year.
Issues and policies will be discussed and debated in community meetings all over the state in September and October. County Farm Bureaus will then hold their annual meetings for the adoption of 1957 policies. Recommendations on state and national issues will also be adopted and forwarded to the state resolutions committee.

The state Farm Bureau convention will be held in Houston in November. County Farm Bureau delegates will meet and decide upon state policies for the coming year. They will also make recommendations to the national convention in Miami, Florida next December.
Resolutions adopted on national issues in the Miami convention will become policies for Farm Bureaus everywhere. Local participation in community-level policy development is urged since it is the only medium through which the public sentiment can be expressed on relevant issues.

Mrs. Lura Buckner and daughter, Mrs. Gene Lawson, left Saturday for San Antonio, El Paso and the Gulf Coast on a vacation trip.

2. There will be a layout of the total cropland of 15 per cent, 20 per cent or a percentage with no pay which will make supply meet demand.
3. All presently price supported crops will be supported at 75 per cent of parity both basic and non basic.
4. All crop price supports will be figured on the same parity formula.
5. A penalty of 50 per cent of parity shall be invoked on any farm which does not comply if there is a price supported crop being grown.
6. The non-revenue layout acreage can be followed or legumes planted. Grazing or any cash crop will not be permitted.
7. The non-revenue layout acreage must be rotated each year until the entire farm has been covered.

Frank Moore Wants Change In Farm Plan

(From the Plainview Evening Herald)

Frank Moore, dirt farmer, civic worker and student of agricultural problems as well as a worker to help solve them, is going to the national Democratic convention Chicago as a delegate from Hale County.

He writes The Herald seeking expressions from farmers of the area on what they think, so that he can have the benefit of these suggestions as a guide.

Frank expresses himself clearly and distinctly. Here's what he has to say on the subject:

I have been talking with farmers of Hale County and quite a few of them would like to see allotments of crops discontinued. They seem to prefer a reduction in the size of their farm by 15 to 20 percent and to be allowed to plant as they please on the remaining acreage at a support price of about 75 per cent of parity.

It seems reasonable to me that if all the crops that are now supported both basic and non-basic were supported on the same parity formula and at the same rate there would be an automatic adjustment in acreage and the crops that were overplanted would be cheap enough to sell on the world market. Crops that were neglected and underplanted would be reflected by a higher market. No allotments would end one farmer having a better allotment than another and one farm being more valuable than another because of a better allotment.

If the land that is laid out with no pay were followed by legumens and rotated each year its fertility would be increased and noxious weeds and Johnson grass could be controlled and eradicated. This would also conserve our water supply in Hale County and in the case of dry land farmers cause yields to be more certain. This type of farm program would save the taxpayers billions of dollars and could possibly lead to an income tax rate reduction.

As I am a delegate to the National Democratic convention which begins August 13th, I would like to know what the farmers of Hale County really want. Do they prefer a plan like this or do they prefer the original Plainview Farm Plan or neither? I would certainly like to be able to tell the leaders of the Democratic Party what we want if the opportunity arises and I think that I can manage to make it arise. Ideas in this farm plan actually came from farmers in Hale County, Abernathy, Petersburg, Edmonson, Prairieview, Plainview and other parts of the county. I hope that the farmers will let me know what they are thinking either by mail, telephone, or personal contact in large numbers.

Plainview Non-Allotment Farm Plan

1. There shall be no allotments of any crop.

VETCH SEED for Sale.

Baxter & Smith Grain Co. Dial 3377 Lockney

Mrs. Lura Buckner and daughter, Mrs. Gene Lawson, left Saturday for San Antonio, El Paso and the Gulf Coast on a vacation trip.

2. There will be a layout of the total cropland of 15 per cent, 20 per cent or a percentage with no pay which will make supply meet demand.

3. All presently price supported crops will be supported at 75 per cent of parity both basic and non basic.

4. All crop price supports will be figured on the same parity formula.

5. A penalty of 50 per cent of parity shall be invoked on any farm which does not comply if there is a price supported crop being grown.

6. The non-revenue layout acreage can be fallowed or legumes planted. Grazing or any cash crop will not be permitted.

7. The non-revenue layout acreage must be rotated each year until the entire farm has been covered.

8. A 6 months to 1 year supply of all price supported storable commodities must be kept by the government to take care of any emergency.

Sincerely, Frank Moore 1402 W. 7th St. Plainview, Texas.

To The Farmers Of This Area: Urgent - Write Today Do Not Delay

The U. S. Department of Agriculture has proposed that regulations for 1957 cotton crop will **LIMIT** the size of the **STATE ACREAGE RESERVE** (except acreage reserved for small farms) to **TWO PER CENT** of the State acreage allotment. This means that the State Agricultural Stabilization and Conservation Committee will be limited in what they might do with the State acreage reserved heretofore. The State ASC Committee could withhold the maximum of 10% for State Reserve purposes. If the proposal is adopted by the Agriculture Department we feel that it will **DEFINITELY** benefit our South Plains cotton farmer.

During the recent statewide cotton hearing at College Station, we, along with the Plains Cotton Growers, and the Trans-Pecos Cotton Association strongly supported the proposed regulation. The Department of Agriculture has encountered strong opposition from East Texas. They have sent a delegation to Washington, and many farmers have protested by letter.

Without delay, write or wire the Secretary of Agriculture, United States Department of Agriculture, Washington, D. C., in support of the proposal which will limit the size of the State reserve to two per cent. In addition, get as many of your friends or neighbors as possible to send their letters in pronto. This proposed regulation appeared in the Federal Register under the date of July 7 on page 5064.

We need your help—act now.

Price Daniel Says Thanks For Support

Senator Price Daniel this week thanked the 622,000 Texans who gave him an overwhelming lead in the first primary race for Governor, putting him more than 162,000 votes ahead of his run-off opponent.

"This is the widest lead a candidate for Governor ever has had in a run-off," Daniel said. "I am confident that, with hard work, we can win a landslide victory on August 25."

Daniel, a native of Liberty County, maintains his family home on a small ranch near his birthplace and is a member of the REA.

As a U. S. Senator, he supported 90 per cent of basic crops, authored an amendment of the farm bill which placed grain sorghum supports at a comparable level as corn, and helped obtain more realistic farm credit provisions.

Daniel is advocating a state-wide water and soil conservation program, and a state drought relief program that would include loans to farmers and ranchers facing mortgage foreclosure.

His program also includes stepped-up research into proposals to create additional water supplies, such as conversion of salt water and artificial "rainmaking."

Daniel said that as Governor he would "put the full power of the State Government behind our farmers and ranchers, to help them regain their fair share of the national income and to help them fight the worst drought disaster in our history."
