Bank Officers, Directors Are Named Tuesday

Officers and directors of the First National Bank were named Tuesday in a meeting of stockholders at 4 p. m. and a meeting of the directors immediately following.

Present officers were re-elected as follows: Charles Duran, president; Claud Holley, executive vice-president; Floyd Neil, vice-president; Joe Wilson, cashier; June Bybee, assistant cashier and Virgil Thomas, assistant cashier.

B. C. Drinkard was named chairman of the board of directors replacing L. A. Cooper who is ill and unable to serve.

In the stockholders meeting, a report on income and expense for 1957 showed total income to be down from 1956, due in part to late collections of notes, while total expense was above 1956.

Net addition to undivided profits was \$50,965.42.

Although the year of 1957 was a poor crop year, President Duran said that the economic condition of the community was better than he had anticipated at one time.

Deposits as of Tuesday, Jan. 14, stood at \$4,754,371.97 compared to \$5,918,926.96 a year ago on the same date.

No Change In County Salaries

The Commissioners Court, in regular session Monday, reviewed county salaries but made no change in the present salary schedule, County Judge J. D. McBrien said Wednesday.

The Court also discussed the selling of road bonds, approved last fall for the purchase of right-of-way in the county's road improvement program. No action was taken but it appeared to the Court that the bond market is improving.

Judge McBrien said that no one had been assigned to the Floyd County welfare office, replacing Mrs. O. C. Bailey who retired January 1st. Mrs. Johnny Weaver of Spur, area supervisor, has been in the Floydada office at various times the past two weeks. A representative of the department from Paducah will be in Floydada January 21 to take applications, Judge McBrien said.

Two Mexicans Returned On Theft Charges

Two Mexicans, Alberto Silanes, 20, and Rafael Puente, 18, were returned to Floyd County from Edinburg, Texas, the first of the week to answer to theft charges. Sheriff Walter Hollums and Deputy Ray Hardin went after the two, returning Tuesday night.

UNITED FUND DRIVE STALLS WITH LESS THAN HALF OF GOAL

The Floyd County United Fund drive, reflecting one of the poorest crop years in the history of the area, is just about stalled with less than one-half of the goal secured, a survey Wednesday revealed.

The county goal, designed to provide funds for four separate organizations, was set at \$12,000. On deposit in both county banks Wednesday was \$4762. Of the amount \$2976.00 was at Floydada and \$1786 here.

The Lockney City Council voted to postpone a decision on a requested raise in telephone rates for 30 days in regular meeting last Thursday night. The request was presented by District Manager Clay R. Styles of Lubbock and Manager J. C. Oakley of Plainview.

Southwestern Bell Telephone Co. is asking for an increase of \$2.00 per month on business telephones, 85 cents per month on one-party residence phones and 25 cents per month on two-party residence phones. If granted, the new rates will be \$10.00 per month for business, \$5.60 for one party, and \$4.25 for two-party phones. Although the local council has no control over this phase, the telephone company also plans to raise rural business phones 50 cents per month to \$6.50.

Promise Line Extension
Mr. Styles told the Council that the telephone company would agree to extend their lines to a number of farm homes in the southern edge of Briscoe County north of Lockney if an existing co-operative telephone line there was removed and the Council would grant the requested raise. He said that a work order had already been signed to extend the lines northeast of Lockney to the Herman Thornton and Harry Hartman farms.

Styles and Oakley told the Council that their net earnings at the present on their local investment was only 28 of one per cent and that if the raise was granted, they would still be earning less than 1 per cent on their investment. They cited increasing costs of labor and materials as the primary reason for the need of increasing rates.

The last raise in rates was granted here in February of 1954. Mr. Styles said and he told of a number of wage increases the company had been forced to grant since that time. He quoted the local investment in plant and lines at \$340,000, and said the requested rate raises would increase local revenue by \$5,500 per year.

Representatives of the Lockney Chamber of Commerce present questioned the telephone officials about their expenditures here and also about long distance revenues. Styles admitted that long distance revenues were not considered directly in the quotations of revenues and disbursements presented to the Council but said that long distance revenues were credited against local investment and in an indirect way affected the earning rate on the local plant and lines.

After many questions and answers and much discussion on the matter the Council voted to postpone a decision for 30 days.

In other business attended to by the Council they agreed to run 300 feet of water pipe to furnish two residents in northeast Lockney, discussing the filling of holes in city streets and approved the routine bills.

Members of the Council present were Mayor J. E. Cox, Councilmen Claude Brown, Charles Baxter, Jimmy Hodel, Kelton Shaw and Lloyd Wofford.

INJURED IN FALL

Mrs. Joe Foster was able to return to her home Wednesday after spending nearly a week in Lockney General Hospital receiving treatment for a broken foot. Mrs. Foster fell Thursday evening after a missionary service at the Methodist Church and broke three bones in her right ankle and foot. The injured limb has been placed in a cast to the knee. She is getting along fine but will have to remain off of the foot for some time.

CONGRATULATIONS are in order to John Hanst and Jerry Williams for their honorable mention on the all-state AA football team selections. Actually many local fans had hoped that one or both would be named on the all-state team but under the circumstances it seems they were doing well to get honorable mention. It seems West Texas didn't even have a representative on the all-state selections committee and therefore probably no member of that committee ever saw any of our boys play.

IT SEEMS that the committee to select the all-state teams is afflicted with selectional jealousy.

ousy and the matter of trying to name the 11 or 22 best boys in the state is a farce. It is difficult enough in a district where all the boys play each other, and then sometimes jealousy or prejudice crops up and mars the choices. Anyway we were mighty proud of all our boys and we think some of them are all-state whether the committee does or not.

THE STATE AFL-CIO organization now is proposing statewide water control, including state control of underground water, according to the president of the organization, Jerry Holleman. Holleman, in an interview with a Lubbock Avalanche reporter, Kenneth May, in December said that he would propose a statewide water commission with "absolute power" to build dams and control water in the same manner as the State Highway Commission now controls highway building. He said that underground water districts such as the High Plains District No. 1 would "necessarily" have to be included under state control instead of being left under local control.

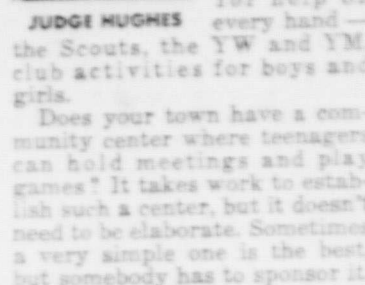

HOLLEMAN'S suggestion is about as stupid as another he made in the same interview, that of raising wages of organized labor in order to offset the danger of a threatened depression. He probably never stopped to think that an employer must be making more money before he can pay his employees more since most of us do not have a Santa Claus around ready to hand out additional finances when we need them. It reminds us of the famous "Townsend" plan for pensions originated some 29 years ago wherein everyone would be given a large pension with the understanding that the turn over and taxes on the spending would bring prosperity to all.

TAX-MAN SAM SEZ: The Internal Revenue Service offices are having tax information days every Monday morning again this year in the North Texas offices, between January 1 and April 15. Every year more taxpayers are learning that the best way to figure their tax is to spend time studying the tax instructions and figuring out for themselves just what they owe. Once upon a time a few taxpayers took all their checks and a tow sack full of receipts down to the Internal Revenue Service office and the tax people spent a lot of time adding up their income and deductions for them. The Revenue folks decided, however, that it was the taxpayer's job to do his own accounting and that the tax folks should spend their time answering questions and showing the taxpayer where to put the figures instead of doing a whole lot of simple accounting for a few taxpayers. If you have any questions or need help in getting your income on your tax return, the tax folks will be glad to have you come in. If you need help in doing your adding and subtracting, you probably need to find a good tax practitioner to help you.

PROSPERITY NOTE: Last year, according to the Economic Report of the President, employed people took vacations aggregating 79 million weeks, 35 per cent of them with pay. This is a new high.

Reduce Delinquency YOU ARE IMPORTANT II.

(A distinguished Texas judge offers pointers on combating our fast-increasing juvenile delinquency problem.)
By JUDGE SARAH T. HUGHES

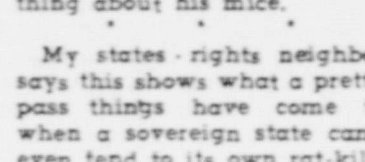

Many more individuals are needed for work with young people. You can volunteer to serve in one of the numerous organizations crying for help on every hand— the Scouts, the YW and YM, club activities for boys and girls.
Does your town have a community center where teenagers can hold meetings and play games? It takes work to establish such a center, but it doesn't need to be elaborate. Sometimes a very simple one is the best, but somebody has to sponsor it.

You Are Needed
We should also remember that after a community center is established, your help will be needed. It doesn't just run itself, of course. Ideas and volunteer help are a MUST.
There is need likewise for constructive activities for boys and girls in the churches. Get together a group of young people. They will have ideas about what they want to do, but they need your suggestions as well as your assistance.

Catching at Home
Make your home a center for young people. Have a barbecue party in the back yard; start a song fest around the piano in the living room—or sing without a piano. Teen-agers enjoy home more than we imagine—if there is something to do.
This job of promoting activities for young people is a tremendous one, but it is well worthwhile.

Dear Editor:
I see where they are having trouble with mice up in Oregon, and Governor Holmes thereof wants the federal government to quit horsing around with missiles and sputniks and come do something about his mice.

My states-rights neighbor says this shows what a pretty pass things have come to when a sovereign state can't even tend to its own rat-killing.

But maybe this is not just an ordinary case of passing the buck. The Supreme Court has taken schools, subverters, etc., out of the State's hands; maybe they have taken jurisdiction over mice.

D. E. SCOTT
NEIL MacNEIL, writing in National Review, says that "We have in the U. S. 116,743 units of government, almost all of which levy taxes of one sort or another." He goes on to say that there are "116 taxes on a suit of clothes, 151 taxes on a loaf of bread, and around 100 on an egg. The tax gatherer takes so much now, that he can't leave anything untouched."

With Our EXCHANGES

GOOD LUCK WALTER

I was glad to read last week that Rep. Walter Rogers plans to sponsor legislation this year that would reduce the supreme court from a dictatorial "law making body" back to the realm relegated to it by our founding fathers. His solution appears to be the simplest that I have read, although there is some question as to how to make it a legal part of our constitution.

Rogers hopes to give the legislative body, (our elected representatives) the same right to override the supreme court that it has in respect to overriding the veto of the president. In recommending this type legislation, Rogers stated, "The three divisions of our government—the legislative, executive and the judicial—were unquestionably intended as balances, one against the other. Yet, speaking from a frank and realistic standpoint, the Supreme Court is presently vested with powers, based upon precedent, that actually could constitute it a dictatorial tribunal from which there is no appeal."

The original idea behind the Soviet system was a supreme court of dictators. It is not a great step from our present system to that of Russia. If the people are to be self governing then their elected representatives must make the laws, not a group of men responsible to no one except themselves. — Cecil Waggoner in Claude News.

PROPER SHARE

From the little town of Anthony down in South Texas comes an idea that also makes sense. Hubert F. Heath, an alderman of the town, has written letters to some 800 towns in Texas urging that former mayors or aldermen be elected as state representatives. Besides making good state officials, Mr. Heath believes this is the only way the towns can get their share of tax money they paid for road maintenance. These former city officials would pass a law making it mandatory for county officials to give a proportionate share of road and street service inside the towns based on the percentage of taxes paid. Crosbyton has been fortunate in having a county commissioner willing to furnish his equipment and men for city

street work when possible, but many towns have not been so lucky. It might be a good idea to find out how our own representative stands on this matter. — Hubert Curry in Crosbyton Review.

TOO THRIFTY

Thrift has a noble purpose but it is not without limitations. The country is filled with tragic examples of people who have saved too long to ever again spend money with satisfaction. The possession of money has defeated its value and they might as well have stones hoarded away. They have become slaves of thrift from which there is but one emancipation; the grave. Prudent spending with a comfortable amount kept intact for eventualities, is the policy of those who would use money as a servant. — Douglas Meador in Matador Tribune.

Dear Editor:
I see where a British citizen got put in jail here the other day because he hadn't been keepin' up with the times.

Seems he hadn't noticed that it's not considered proper any more for a man to whip his wife, even when she needs it.

My backward-looking neighbor says society keeps taking away more of mankind's privileges every day. But says he won't ever miss the right to chastise his wife, on account of he never could get up nerve enough to try it anyway.

Plainview Office Offers Help On Tax Returns

Every Monday morning is Taxpayer Assistance Day at the Plainview Internal Revenue Service Office, 118 E. 7th, according to D. L. King, Administrative Officer, of the Plainview office. Mr. King gave five guidelines for preparing your 1957 income tax return:

1. Read your instructions carefully. This saves time, trouble, and money. You often find that you are eligible for deduction that you were not aware of.
2. Get your records ready early.
3. Figure your tax return as soon as possible. 60% of taxpayers have refunds coming and many other taxpayers owe very little tax. You don't worry about your income tax return on April 15 if you file on January 15.
4. If you hit a snag, call or come in to the Plainview office on Monday morning, Taxpayer Assistance Day. We will be glad to answer your questions. Unfortunately, the Internal Revenue Service does not have sufficient personnel to help taxpayers do their accounting. We are able to serve many more taxpayers by simply answering questions and showing taxpayers where to put the figures on the tax return.

CARD OF THANKS

We want to express our appreciation for the many cards and letters of encouragement we have received since Mr. Graham became ill.

This Family Had A Friend

WARREN G. MOORE of Tyler, Commander of the Texas Department of the American Legion, points to the March of Dimes container that represents a friend in need to the 1958 March of Dimes Poster Family. With the exception of the father, Maj. Joseph L. Solomon, USAF, of Warner Robbins, Ga., the entire family were stricken with polio in a single week in 1953. Still faced with extensive March of Dimes-financed treatment are Little Joe, 9, and twins, Sandy and Lindy, 6.

CROSS ROADS REPORT

Dear Editor: A learned character who teaches biological facts of life to boys at a big A&M college says man didn't evolve from the monkey. Says our first father was actually a seaweed.

Which theory will now be taken up by many science worshippers who look down on the ignorant whose Gospel is the Bible instead of the Science Digest.

My cynical neighbor says he has studied this new theory from what he read in the papers and it is all clear to him except one thing; where did this human-gene seaweed come from in the first place?

LUTHER DAVIS DIES

Luther Davis, a former resident of Lockney, passed away at a Lubbock Hospital Sunday and funeral services were held in Lubbock Monday morning. Mr. Davis, who had lived in Hart a number of years, was a brother to Tom Davis of Hamlin, Texas, a long-time former resident of Lockney.

POTATO TURNIP CROQUETTES

Equal parts of mashed turnip and potatoes, seasoned and formed into cakes makes a delicious accompaniment for baked ham or pot roast. Roll them in cornmeal so they will have a nice crisp crust and saute quickly over a medium flame. If you have an automatic top burner heat control on your range, set it at 300 degrees.

90% Tech Students Have Religious Preference

Still other Christian denominations represented include Assembly of God, 42; Christadelphian, 1; Christian Science, 20; Church of God, 2; Congregational, 4; Foursquare Gospel, 4; Greek Orthodox, 5; Latter Day Saints, 14; Mennonite, 1; Nazarene, 24; Pentecostal, 3; Seventh Day Adventist, 5; and United Brethren, 1.

HAPPY CAKES FROM SHINY PANS

A happy cake is light, high and evenly browned on top, bottom and sides. A sad cake is heavy, bumped and much too brown all over. Pans can make the difference. Shiny pans reflect the heat in your oven, allowing the cake to rise and brown evenly. Cake pans that are dark or discolored on the outside hold the heat, making the layers bake too fast and rise and brown unevenly.

Chas. Brannon To Speak At Farm Meeting

Lubbock—An all-group farm program development conference will be held in Lubbock Municipal Auditorium Jan. 31 at which time the former Secretary of Agriculture Charles Brannon will speak.

Brannon now is general counselor for the National Farmers Union, Denver. Alex Dickie Jr., Denton, president of the Texas Farmers Union, which originated the idea for the conference, explained the meeting is open to all groups and urged the various farm groups to send representatives.

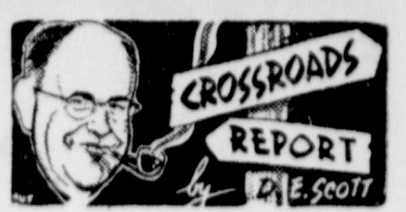

Producers of all agricultural commodities and all farm organizations in the state are formally invited, he said.

The primary purpose of the conference will be to develop a comprehensive farm program that would have the backing of the producers of all agricultural commodities.

After a round of speeches during the morning, the conference will be broken down that afternoon into commodity groups with the producers in each session working up a program to suit their particular needs. The conference will then reconvene in a general session to map an overall farm program acceptable to the entire group.

Selected to head the commodity group discussions were R. G. Peeler, Hereford, president of the Grain Sorghum Producers Assn.; George Pfeifferberger, executive vice president of the Plains Cotton Growers, Inc.; Russell Hogge, Panhandle, president of the Texas Wheat Growers Assn.; Harold Nelson, New Braunfels, executive secretary of the Texas Milk Producers Federation; and Eck Brown, Dalhart, a former president of

the United Livestock Producers Assn.

Dear Editor: I see where Mr. Agriculture Secretary Benson reports that the team he is supposed to be pitching for is not getting its share of the gate.

My un-urban neighbor says he is glad to note this change of pace by Mr. Benson who has heretofore done so much hollering for lower farm prices.

Must be, he says, that Mr. Benson has just now looked on his office door and found out who he is working for. Evidently he has been thinking all this time that he was Secretary of Consumers.

NATURE'S PREPACKAGED FOODS

We are very much aware of man-made convenience foods in supermarkets today. But Margaret Spader, home economist, suggests we include in the daily diet plenty of the foods Nature has packaged. Bananas, oranges, apples, pears and tangerines are nutritious, delicious, ready-to-eat foods. They provide quick energy. They come in individual portions. They have a beneficial effect on the digestive tract, and they are available now in all parts of the country at reasonable prices.

Water will boil at less than 212 degrees F. at high altitudes because of the reduced atmospheric pressure.

NOTICE TO HOME BUILDERS WITHIN THE CITY OF LOCKNEY!

The City of Lockney has electrical wiring and plumbing regulations designed for the protection of the citizens of the city, which result in lower fire insurance rates within the city limits and work for the good of the general public.

These regulations, which apply to new building, have been overlooked by some, especially those who have moved ready-built houses into the city.

To familiarize you with these regulations, we quote them here:

"CONCEALED WIRING: All wiring which is to be hidden from view shall be inspected before it is covered against ready access, and any person, firm or corporation installing such wires, shall notify the electrical inspector, giving him twenty-four hours in which to make the required inspection before the wires are concealed."

"SECTION 8. No soil, drain or vent pipe shall be covered from view or concealed until after work has been tested or examined and approved by the plumbing inspector, and the plumbing inspector shall be notified when the work is ready for inspection and said plumber shall prepare the whole system of plumbing for the plumbing inspector to make a proper test of same by filling the pipes with water or an air pressure of five pounds to the square inch."

To save yourself trouble, we ask that you consider these regulations when building or moving a house into the city limits.

Cost sharing help will be provided as long as you reasonably need it. However, it can not be less than three years nor more than 10 years.
Measures eligible for cost sharing include: Establishing permanent plant cover, field strip-cropping, improving range cover, planting trees or shrubs for windbreaks or shelterbelts, establishing waterways, building terrace systems, chiseling or pitting rangeland, improving dams or ponds for irrigations, constructing wells for livestock water, installing pipe land leveling and controlling brush.
The amount of cost-share you will get depends on the cost of doing the needed work and the rate established by the state and county program committees. The maximum cost-share rate will not exceed 80 per cent of the average estimated cost of installing each eligible practice.
There is no limitation on the amount of cost-shares you may

Parent-Teachers Hear F. T. A. Views

After the invocation by Paul Epps, minister of the Main Street Church of Christ, the Forrest M. Smith Chapter of Future Teachers Association presented an inspiring program at the Lockney P. T. A. on Tuesday evening, Jan. 14.

Gayle Rucker announced the numbers on the program, and Kay Golden, president of F. T. A., gave a brief history of the Forrest M. Smith Chapter which was organized during the 1956-57 school year as a project of the P. T. A. Last spring the members of F. T. A. were permitted to go to the elementary school one day to practice teaching. Jan Widener, secretary of the P. T. A., gave her version of the "Bewildered President"; Sally Cox, president of F. T. A. for 1958-59 discussed "Education and Teaching" giving the advantages and opportunities of teaching as a profession. Aubrey Green, past president of F. T. A., discussed "The Future of Teaching"; Jean Wofford gave an amusing monologue "Good Morning Teacher"; and Elaine Cope sang "Our Inspiration."

Paul Epps, accompanied by Mrs. C. L. Record, sang "Calm as the Night", "Dear Hearts and Gentle People," and "In a Kingdom by the Sea."

"What's New in Our Schools" was given by H. H. Nicholas, superintendent of Schools. At the request of local school officials, a committee from the State Department of Education will visit and evaluate the Lockney schools before the close of this school year. This committee will examine the following phases of the school program: school plant and facilities, instructional aids, the instructional program, school records, and administration.

Pre-School Talent Show Set For Tots

An annual talent show given by children under school age and sponsored by Mother Goose School is set for Tuesday night, January 28 at 7:30 in the High School Auditorium, according to Mrs. J. D. Wood, teacher, and the committee on arrangements, Mrs. Jimmie Stennett and Mrs. Sterling Cummings.

Theme for this year's program will be "The Land of Make Believe".

Any child under school age is eligible to take part on the program provided his mother calls Mrs. Wood or the above committee by Friday, January 24 giving the child's name and what he is to do. Each child is invited to make a poster advertising the show and place it in a show window or other public place. All those on the program will recite in unison "The Lord's Prayer", the pledge to the United States Flag and sing the first verse of "America". These should be learned by those planning to take part.

Mothers of the children are all asked to meet Monday, Jan. 20 at 7:30 p. m. at Mother Goose School to help work on stage decorations. Each mother is responsible for notifying at least five persons about the program, Mrs. Wood said.

No admission will be charged, but a silver offering will be taken for polio benefit.

Asks Time To Report Crops As Income

Alex Dickle Jr., president of the Texas Farmers Union, has wired Congressman George Mahon, Senator Lyndon Johnson and other Congressional officials asking for more time to report receipts from 1957 crop on their 1957 income return. According to Kenneth Wofford, Floyd County president.

Dickle's wife said, "Warehouse receipts on grain sorghum coming through very slowly and slow cotton grading is holding up marketing of both these 1957 crops. Farmers need leeway to report these late marketed crops as 1957 income if they desire. If you can assist speeding these grain sorghum warehouse receipts and cotton grading please do so."
