Cotton Blooms Are Plentiful Here Monday

Cotton was blooming all over the place Monday morning of this week. L. L. Rhodes was the first to bring a wide open bloom to The Beacon office early Monday. The bloom was taken from cotton on the Miller place northeast of town. It is Paymaster 54B, Mr. Rhodes said. "I had hoped to have blooms by July 4th, but I have quite a few today (June 30)."

Leslie Ferguson also brought in a bloom Monday morning from the Carl Ferguson place, just northwest of Lockney. The cotton was planted April 29 and 30 and is Paymaster 54B.

George Worsham also reported blooms Monday from some Paymaster 54B cotton. His cotton was planted May 5th, came up May 14th and bloomed on June 30. That is just 46 days from planting to bloom. J. R. Belt, four miles west of Lockney, was also reported to have some blooms in his cotton Monday.

If the old saying, "60 days from bloom to open cotton" holds good, the Lockney area may gain some August cotton this year. County Agent Cecil Lewis said Wednesday that the insect threat to Floyd County cotton is not too bad at this time. Only one field has flea-hopper infestation bad enough to warrant control. There are some false chinch bugs showing up in the edges of cotton fields.

Mrs. Marshall Funeral Rites Held Saturday

Funeral services for Mrs. D. M. Marshall of Aiken were held Saturday last week at the First Methodist Church in Plainview. Rev. Ollie Apple of Coolidge, Texas, and Rev. Bryan Clemens, pastor of the Aiken Methodist Church, conducted the rites at 2 p. m. Burial was in Plainview Memorial Park with Carter Funeral Home of Lockney in charge.

Mrs. Marshall died suddenly late Thursday afternoon at the Plainview Hospital & Clinic. She has been hospitalized a week after falling at her home, just west of Aiken, and breaking her hip the previous Thursday. She underwent surgery Saturday morning and was reported to be doing fine until the attack late Thursday. Death was believed to have been caused by a blood clot.

Mrs. Marshall was born June 14, 1880 at Cupulo, Mississippi. She was married to D. M. Marshall on August 2, 1899 at Waxahachie, Texas. The family moved to this county in December of 1915, settling on their present home place near Aiken.

Mrs. Marshall was a member of the Aiken Methodist Church. She had been a church member most of her adult life and was noted for her great Christian character.

Survivors include her husband, D. M. Marshall; three sons, J. S. of Aiken, Marvin Glenn of Plainview and Lloyd Douglas of Lockney; three daughters, Mrs. Clyde Farish of Lockney, Mrs. Clayton Terrell of Plainview, and Mrs. Ruth C. Allen of Amarillo; one sister, Mrs. Grace Bell, Houston; 14 grandchildren and 11 great-grandchildren.

Palbearers were her six grandsons, Donald Farish, Floyd and Cloyce Terrell, Marion, Maurice and Duwayne Allen.

Dr. Mangold Attends Nat'l AMA Meeting

Dr. and Mrs. W. J. Mangold returned Sunday evening from San Francisco where they attended the annual national meeting of the American Medical Association. They were accompanied on the trip by Dr. and Mrs. Newell Boyd of Kingsville.

Monday Is Dollar Day In Lockney

Next Monday, July 7th is Dollar Day in Lockney and Lockney merchants are ag in offering many outstanding bargains in quality merchandise. It will pay you, Mr. and Mrs. Shopper, to look through the advertisements in this issue of The Beacon for Dollar Day specials and take advantage of the many fine values offered. Permit Granted For New Radio Station At PV

Leroy Durham of Lockney is one of three partners, organized under the name of "Plainview Radio" which have been granted a permit to operate a new radio station at Plainview, Mr. Durham told The Beacon last week end. Other members of the partnership are Earl Walden, owner of Radio Station KERV at Kermit, and Rev. Homer Goodwin, an Assembly of God minister of Plainview.

The permit to operate was granted on May 14 of this year. Mr. Durham said, and the group is now waiting on the construction permit to build the station. It is expected this week.

The new station will be a powerful one, broadcasting on 1,000 watts. The wave length will be 1050 kilocycles. It will be on the air from sunup to sundown as the Floydada station is now. The new station's two towers will be 230 feet high. Their exact location hasn't been determined as yet. The Beacon was told. The station will operate a directional beam, going west, but can be heard as far east as Matador, it was said.

The partnership was formed in May of 1955 and they made application to the Federal Communications Commission for permit to operate in July of that year.

Durham is a farmer living southwest of Lockney. He is active in farm co-operatives, is president of the Lockney Co-op Gin and Plainview Production Credit Association.

George Mahon Is Asking Re-Election

GEORGE MAHON, Congressman from this district, requested this week that The Beacon formally announce his candidacy for re-election to Congress. He had filed for a place on the ticket some time ago.

"A long statement would serve no useful purpose," Mahon said, "but I would like for the people to know of my feelings of appreciation for the wonderful support and good will which they have given me through the years."

"And I would like to add this," Mahon said. "We seem always to be living in uncertain and difficult times. Under all conditions and at all times I am doing everything in my power to serve the best interest of our district and of our country. I am always pleased to have the people of our district call upon me. I will always appreciate a continuation of your support and confidence."

Beedy Wins Trustee Suit

In a judgment rendered by Judge L. D. Ratliff in the trial court at Floydada last week Bill Beedy was declared winner of the race for county school trustee in Precinct No. 3 over Leigh-Teple.

Teple had been declared winner of the election by the Commissioners Court and was sworn in as a member of the board early in May. He has sat in two meetings of the board.

The decision of Judge Ratliff threw out six ballots that were cast for Teple, leaving Beedy winner, 34 votes to 33 for Teple.

The cast was decided on points of law, all the facts being agreed upon in conference of opposing attorneys. Four voters who resided in Precinct Two (and South Plains School District as well) were declared ineligible to vote in the election. Two ballots were cast by residents of South Plains voting precinct but who are in Floydada Independent School District also. These were declared ineligible to vote at South Plains.

Attorneys for the defendant gave notice of appeal to the Civil Appeals Court for the Seventh District at Amarillo.

A strong wind Sunday and Monday following the rain kicked up sand and caused some crop damage. The Beacon was told.

Weed Control District Plans Fall Action

The Floyd County Weed Control District is making plans to start operations in earnest this fall, according to a statement Tuesday by Robert Lee Smith of Sterley, chairman of the four-man board. Coordination and programs of work are being developed with the Commissioners Court and the Texas Highway Department in an effort to control Johnson grass and bindweed.

The weed district is financed by a 3 cent per acre land tax and their first revenue will be received this fall. Mr. Smith said. For that reason they must wait until fall to start work. The board met Tuesday in Floydada and furthered their plans. They are now receiving applications for a weed district supervisor which will be a full time job. Mr. Smith said. Any person interested in applying for the position should do so to Fred Battley, secretary of the board, at Floydada. All applications should be in by Tuesday, August 5.

The Commissioners Court has agreed to co-operate with the weed district in the treatment of Johnson grass and bindweed along county road ditches. Exact plans for the joint program will be announced at a later date.

Mr. Smith said that the weed board had received several complaints and petitions from farmers asking them to intercede with the Highway Department about the department's latest directive ordering farmers to discontinue the practice of plowing weeds in the highway right-of-way. Upon contacting the Highway Department, members of the board were told emphatically that plowing of right-of-way must stop.

However, the Highway Department has agreed to institute control measures on bindweed on the adjacent right-of-way in places where the farmer was making a determined effort to control the bindweed on his land. They said that Johnson grass and other weeds would be mowed or clipped as time and finances will permit.

Any person who has treated or is treating bindweed may submit a request for bindweed control in the state right-of-way to the Texas Highway Department. The following information will be necessary on the application: block and section number, highway number on which the weeds are located, location from highway intersections, and location of bindweed from corners of section.

Other members of the county weed board are Shirley Irwin and Cephus Fortenberry.

EDITORIAL

And they were all amazed at the mighty power of God. — Luke 9:43

MEMBERS of the City Council have called the editor's attention to the fact that the money the city has on time deposit and drawing interest is money from the interest and sinking fund of the city and cannot be used for other purposes. We mentioned this money last week in our discussion of a city park. It is true that the city is in very good financial shape as to bonded indebtedness with a fairly large surplus in this department. We're sure the city is also in good shape financially in the general fund. As we remember they laid several blocks of sewer line and ran a seal coat on 100 blocks of city paving a year or so ago and paid cash for all this out of the general fund. As we said last week, the Council is to be commended for their fine handling of city finances. It is obvious to all they have done a very good job.

BUT GETTING back to the park business, we feel that if the city can pay for paving and sewer lines out of the general fund, they can afford to set aside a few hundred dollars to maintain a city park. Many other local people are also of this opinion as they have expressed in the past week. But the people within the city are not the only ones interested in a park. The Beacon editor received a letter this week from a lady living outside the city but in the community who says in part:

"I WANT to express my appreciation for your editorial. I'm glad some one had the courage to express what is the view of a number of people that surround Lockney. . . I also believe if the schoolboard had spent one day in the backyard of our grade school with just

gravel and dirt they would have realized how much our grade school children enjoyed going to the park on picnics. . . If people have to take their children to other towns to play, they may also trade there."

SOMEONE MUST take the lead in planning recreation facilities for the city if we are to ever have any. Perhaps a Chamber of Commerce committee would be the proper way to do it, or perhaps the Mayor could assign the problem to one member of the City Council. Someone must spend some time studying the matter and make some long range plans if anything is ever accomplished on the matter of parks and recreation for the youngsters. We hope the Council will see fit to give this matter some consideration. A lot of other people are interested in it.

FARM & RANCH is a magazine that has been around a long time. It is published in Nashville, Tenn., and has its circulation mostly in the South. Recently the magazine conducted a poll among Southern farmers with some surprising results. Either all Southern farmers do not think alike or we don't know what local farmers are thinking. Here are some of the results of the poll:

72% said that co-operatives should be taxed on the same basis as other corporations, 63% said that postal rates should be raised, 27% favored government guarantee of support prices at 90 to 100% parity, 88 per cent favored a return to a free supply - and - demand system as soon as possible with minimum government controls, 85% said public utilities should be developed and operated by private companies instead of the government, 81% said states should run their own schools without interference from federal government and federal aid to schools should be stopped, 78% said integration of schools should be prevented by any legal means, and to top it all off, 55% said that Secretary Benson is doing a good job as Secretary of Agriculture.

NATIONAL PETROLEUM News reports that 20 major oil companies plan to spend a total of 210 million on marketing capital expenditures this year. The biggest chunk—57 per cent—will go for building and rehabilitating service stations.

DANIEL AND THE DOT

Price Daniel always has carried Floyd County in his races and there is no reason to anticipate that he will not repeat again this year. Which makes us realize that the reason the executive committee of the Democratic party in Floyd County is loaded against the governor is that those who oppose him got there firstest with the mottos: at precinct conventions.

The governor's charge that DOT is a splinter party trying to play the role of the majority has some merit in the fact that the people voted for the governor to head the party and the state, his opposition, however, being unwilling to admit defeat and bide the time when they can rally enough votes to take over. DOT has set up a rival organization and announces "we are the Democrats."

Floyd County Democrats, for the most part, including most of the members of the county's executive committee, are more

conservative than liberal. They are having to wear the brand of Liberal in its recently accepted political sense, and run with the "wrong" crowd, because the leadership and the money is coming from that source. Floyd County Democrats who are running with the DOT are not wacky. They are just mad.

Our experience has run along the line that you don't make friends and influence people by pouring on the vinegar and gall. In politics we always welcomed back the erring sons who strayed from the fold, and we have recognized the fact that a man's conscience must be his guide whether he holds

office or is a private in the ranks. Woodrow Wilson and Franklin D. Roosevelt "bolted the party" when they could not stomach a candidate. And made no bones about it.

But Price Daniel, when he made the fight to save Texas Tidelands for the school children, gets no credit for great courage in facing swift and sure efforts at reprisal from his political foes. He must have known that he'd have a rough future in politics when he decided to brave the wrath of party regularity for the sake of one of the state's heritages from the days of the Republic. —Homer Steen in Floyd County Hesperian.

"A sense of humor goes hand in hand with independence of thought and an eternally questioning mind." — President Eisenhower.

Dear Editor: I see where the National Council of Churches is pretty upset because they found out that two-thirds of our Protestant ministers are in debt.

My dotted-line addict neighbor says what is wrong with preachers being that much like the rest of us? Maybe it's actually a good thing for them to be in debt.

You take a man with a temptation resistor powerful enough to keep him out of debt, and he wouldn't be much good in the preaching business, on account of he never could really understand and sympathize with us weak people.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

Texas — Texas has a heavy responsibility for defense preparedness on Texans, McGill told the annual State Defense Advisory Council conference in Austin.

Officially designated "aiming areas," as they are called, are Fort Worth, Dallas, Houston, Austin, San Antonio, Galveston, Beaumont, Port Arthur, Amarillo, Corpus Christi, El Paso, Laredo, Lubbock, San Angelo,

Waco and Wichita Falls. Others considered possible targets because of nearby military installations are Abilene, Beeville, Big Spring, Brownsville, Bryan, Dalhart, Del Rio, Killeen, Marfa, Pecos, Pyote, Sherman, Victoria and Wink.

Texas has received a \$320,000 federal grant, conferees were told, to draw up a state Survival Plan. Several larger city plans are complete, and the state plan, a massive and complex thing affecting the lives of millions, is due to be finished by December 31.

Rural residents cannot feel themselves invulnerable, the Council was told. In case of a large-scale bombing, it is felt likely that radioactive fallout would cover most of our terrain, contaminating crops, cattle, pasturage and ponds.

Under the present national civil defense plan, considerable responsibility for advance training and preparation rests with the individual family. Each would be responsible for feeding itself for the first two weeks of a post-disaster period. After that, state and local government would take over for two weeks, and after that, if necessary, the federal government would step in.

Persons or organizations wanting to obtain official civil defense information and study materials may write the State Defense and Disaster Relief Office, Capitol Station, Austin.

PRICE ADS OK AGAIN — In a rare reversal of one of its own rulings, the Texas Supreme Court has held it is not unlawful for optometrists to advertise the prices of their eye-glasses.

Last spring the court upheld a temporary injunction issued by a Beaumont court prohibiting Lee Optical Co. and others from advertising prices. Suit was brought by a competitor, Texas State Optical.

At issue was how to interpret a law passed by the Legislature in 1957 barring optometrists from advertising that is "fraudulent, deceitful, misleading... including statements of bait, discount, premiums, price gifts."

In its more recent ruling the court decided, 7 to 1, that the apparent Legislative intent, or sense of the thing, is only to prohibit price advertising that is false or misleading.

Effect of this is to knock out the injunction against Lee Optical.

HOT POTATO — Atty. Gen. Will Wilson is being asked to give an official ruling on a highly controversial question. It is whether Texas, under present law, can accept additional federal funds to extend the period of unemployment payments. Texas Employment Commission and Gov. Price Daniel are asking for the opinion.

Pros and cons already have been the subject of heated discussion. A recently passed federal law would allocate to the state, funds to provide an additional 12 weeks of \$14-a-week payments to persons who had already come to the end of their 24-week benefit period. An estimated 60,000 Texans are in this category.

But, to receive this money, the state must repay the funds to the federal government. If it doesn't get the money by some other means, such as the normal accumulation during high employment periods, it would be pledged to raise the tax on employers after Jan. 1, 1963.

Some argue that this would violate the constitutional prohibition against pledging the state's credit. Others say there is no obstacle since the state merely serves as a collecting and distributing agent for the federal government, with no state money involved.

Spokesmen for organized labor have strongly urged that Texas enter into an agreement to receive the extra money.

FREE RIDES EYED — State Auditor C. H. Cavness, watchdog of departmental spending practices, has questioned use of railroad and bus passes by Railroad Commission employees.

Commission Chairman Olin Culberson declared the passes were used only for official business. Use of passes for state business is specifically authorized by law for certain Commission employees.

Cavness noted that 30 employees had passes and that some apparently had not traveled on state business during the past year. He said he felt it violated the new code of ethics law which prohibits a state employee's using his official position to receive special privileges.

HOLIDAY HEARTACHE — Department of Public Safety predicts 28 Texans will die in traffic accidents during the July 4-5-6 holiday week end.

Col. Homer Garrison Jr., DPS director, said the Highway Patrol would do all in its power to make the prediction false. Every available patrolman will be on duty, plus extras from the licensing and weights and vehicle inspection divisions, to remove dangerous drivers from the roads.

Beyond that, said Garrison, it's up to each driver to do his part by following the law to the letter and not trying to drive too long.

NEW ASSISTANTS — Atty. Gen. Will Wilson has named four new assistants to his department.

Two who will be on temporary assignments are Clyde Kennelly of Roseberg and Neal R. Allen of Amarillo. Kennelly is to become Fort Ben County judge next January.

Other two appointees are Robert Hamilton Wells of San Antonio and Richard Owen Jones of Wichita, Kansas.

Dear Editor:
My always commenting neighbor says "Yank Go Home" seems like is getting to be the national anthem of nearly every other country in the world.

Says apparently some of the Old World people don't like to associate with us because we haven't got much culture, but she thinks maybe time and another generation or two will fix this.

Always her small son is acting like a cultured foreigner. Next birthday he wants the other kids to send their gifts instead of bringing them.

Dear Editor: I see where a famous editor pretty near swallowed his chewing gum here the other day when he noticed a frying size girl right out in plain sight on Main street dressed in a dress.

I guess he had just about forgot how cute they can look when sort of frilled up instead of stripped down.

My teen - queen neighbor says she wears shorts on account of modesty and not wanting to attract attention to herself like the editor's subject did by going around with her clothes on.

TWO TYPES OF MEASURING CUPS

Can you tell the difference between cups designed for measuring dry ingredients such as flour, sugar, etc. and cups designed for measuring liquids? Both types are made in glass and metal. They may be flared or straight-sided. However the right cup for measuring liquids, such as oil or milk, has an extra rim above the 1-cup line. The extra space guards against spilling when the cup is tilted. It also provides an accurate measure when the liquid is at eye level. Measuring cups for dry ingredients are filled to the top. They are leveled with the edge of a knife. Home economists and the Gas Appliance Manufacturers Association recommend types of measuring cups for every kitchen.

Wayland To Stress American Way

Plainview — Wayland Baptist College professors and administrators have stopped talking about the need for a better understanding of the American Way of Life. This fall they will do something about it on the college level.

"As people are more conscious of their American heritage around July 4, we are happy to be able to announce now the establishment of an American Studies Program," says President A. Hope Owen.

Under the direction of Edward McMillan, associate professor of history, assisted by Dr. E. W. Jones, chairman of the division of social science, and Loyd Hilton, instructor in English, Wayland's American Studies Program with attempt five things:

1. Provide ways and means for Wayland students to absorb and later disseminate the culture of America;
2. Emphasize the worth of and respect for the individual;
3. Install an appreciation for rich and hard won religious liberties;
4. Analyze and evaluate the American free enterprise system, the lynchpin of America's rich material legacy;
5. Prepare students to meet the insidious advances of enslaving collectivism with a deep devotion to the American Way of Life, built upon a sincere appreciation of its cultural worth.

Juniors who have completed their core of curriculum requirements and who have selected a major in history will probably be able to complete the required work in the next two years, according to McMillan. To major in this program a student will take a concentrated group of courses in American history, political science, economics, American literature and aesthetics.

VET Land Purchases Are Increasing

Austin — More veterans are buying land every month through the Veterans' Land Program, Land Commissioner Bill Allcorn reported this week.

In March, the Veterans' Land Board bought 37 tracts of land for Texas ex-servicemen. In April this number increased to 95, and in May the Board bought 127 tracts.

Through June 20, 118 tracts have been purchased through the Program, and before the month is ended, this figure is expected to rise to 175.

In October, the Board expects to level off its purchases at about 350 tracts a month, Allcorn says.

This land is being bought with money from three sales of Veterans' Land Bonds since December, 1957, which have made \$37½ million available for land purchases.

GASOLINE TAX REFUND — This claim may be filed by the owner, tenant or operator of a farm.

This is to include gasoline purchased before July 1, 1958, which you used on the farm after June 30, 1957 and before July 1, 1958.

This claim should be filed with your U. S. District Director of Internal Revenue on or before September 30, 1958.

Records should be kept to prove your claims in case they check on the applications.

The application forms and instructions are available in the County Agent's Office.

COTTON INSECTS — Fleahoppers are beginning to show an increase in numbers in many fields, other fields show no fleahoppers at the present.

False Chinch Bug is doing damage on both cotton and feed and is usually noticed next to wheat fields or fence rows. This insect should be watched because it is killing the crops wherever it builds up.

COTTON IRRIGATION — The proper time to apply the first application of irrigation water is when blooms appear and squares are set. Too early an application will cause vegetative growth and a reduction in quality due to late maturity. Cotton can make a bale to the acre with 24 inches of water from both rainfall and irrigation. Many farmers put on 10 to 12 inches of water per acre in one irrigation and our soil profile can only hold about 9 to 12 acre inches of water. Excess water will cause leaching of soil nutrients, and reduction of air in the soil.

This is wasted water as well as profits. Be sure that you apply the proper amount of water and not too much.

What does he see? A school of minnows? A shining pebble? Or his own wavering reflection?

Whatever it is, he sees through the wonderful eyes of a child. God's creations are new and bright to him. He is fascinated by the sight of a bee searching for pollen. He marvels at the color of autumn leaves. He is enchanted by the brilliance of a star.

Somewhere along the line, most of us lose our childhood vision. We forget to wonder. We forget to marvel. Sometimes we even forget God.

We can get our perspective back into sharp, clear focus through the Church. We can recapture and strengthen our love for God.

If you haven't noticed, lately, how many miracles take place in your daily life, start going to Church. You'll soon see.

THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

New Telephone Directories Are In The Mail

The new Lockney directories were mailed to subscribers here July 1, J. C. Oakley, Southwest Bell Telephone Company manager announced today.

The new directory contains approximately 1,100 alphabetical listings, Oakley said.

Old directories should be thrown away as soon as the new issue is received. However, care should be taken to remove any items such as photos, letters, and notes which might have been placed between the pages, the manager advised.

The Lockney directory has a gray cover and contains 12 "white" or alphabetical pages and 23 "yellow" or classified pages. Approximately 1700 copies of the directory have been printed.

"A number of extra copies are printed as replacements for those used in public telephone booths and other places where much use occurs", Oakley explained.

John Hanst To Play In All Star Tilt August 15

John Hanst, star tackle and linebacker on the Lockney Longhorn football team for four years, is one of forty-eight boys selected to appear in the Ninth Annual Greenbelt Bowl game. The battle of area All Stars will be held in Childress Friday evening, August 15.

The forty-eight performers were picked from a field of over 100 boys nominated by coaches from 69 area high schools. Boys were selected on the basis of their high school football performance record and on the basis of their coaches' recommendation as to character and attitude.

Hanst, Lockney captain last fall, is one of five tackles listed on the East squad. The 6' 1 1/2", 200 pound griddler sparked the 1957 Longhorn team to the district title and the first district championship in the school's history.

John was elected to the All District, All Regional, All South Plains, and Honorable Mention All State Teams while a student at Lockney High School. He was highly recommended for the Greenbelt game by Rudy Heile, Longhorn coach last season. John has been awarded a four-year athletic scholarship by Texas Tech.

Another Longhorn star, Weldon Jones, appeared in the 1956 battle at Childress and gave a good account of himself. Jones, a guard, was the first Lockney boy to perform in the All Star game.

Coaches of the East team will be Claude Gilstrap and Burley Bearden of Arlington State College. They will face a team coached by H. A. "Sandy" Sanford and Johnny Dunn of Tarleton State College. Head trainer for both teams will be Bobby Layne of Arlington State College. Last year Gilstrap coached the East team to a thrilling hard fought 6-0 victory over the West squad. Records show that the East team leads 5 to 4 over the history of the All Star game.

If history repeats itself there will be standing room only in the 3,000 seat Childress Municipal Stadium. This game each of the past eight years has drawn an overflow crowd of

TL&D Records Given To Tech

Lubbock — Business records of a land company that played a big role in developing modern farming on the South Plains have been given to the Southwest Collection at Texas Tech.

Dr. Seymour V. Connor, Tech history professor and director of the Southwest Collection, said business records and papers of the Texas Land and Development Co. have been presented to the collection by Peyton Randolph and Mrs. Luther Bain, both of Plainview.

Randolph was attorney for company throughout its history and Mrs. Bain is the daughter of the late Gayt. Winfield Holbrook who was general manager of the company from 1920 until his death. The company offered improved farms for sale to qualified farmers.

The Texas Land and Development Co. was organized in 1912 by M. D. Henderson of Plainview and Dr. F. S. Pearson of New York City, a well known enterpriser of the period. Pearson had previously promoted railroads throughout the country and the Medina Dam properties (near Hondo) in Texas.

"At the time of his death," said Connor "Pearson was trying to promote a railroad from Plainview to Fort Worth."

Connor said that the company spent well over \$1 million purchasing more than 60,000

acres of farm land in the vicinity of Plainview during its first year of operation.

With an eye to the future of the High Plains, the company's plan was to develop these tracts into irrigated farms for later resale.

"The Texas Land and Development Company was one of the real pioneers of irrigation in this area," Connor said.

He added that the Plainview operation was financed by capital subscribed by Pearson and by New York and Boston investors as well as those in Canada and Great Britain.

The company built houses and barns, fenced the land and drilled wells, then offered them for sale as developed farms on an easy installment plan to qualified farmers.

When it was unable to sell the farms profitably, the company began leasing them to competent farmers. It retained ownership of most of the property until the late 1940's.

"For years, the company employed a group of carpenters to erect the buildings and later maintain them," Connor added. The company liquidated its assets in 1954.

Baptist Camp In Progress

Plains Baptist Assembly is the site for Baptist Youth Camp July 2-4. All Baptist churches plan to send young people, aged 16-24, to this camp.

"His Way" is the theme for this year's session, with Dr. James Coggin as the principle speaker. Five other Baptist speakers who will head the conference are: Dr. Ivyloy Bishop, Wayland College; Dr. Hope Owen, President of Wayland; Rev. Ed Bowles, Floydada First Baptist pastor; Mrs. Tom Loyd, Secretary of Plainview First Baptist and Mrs. Ralph Davis, District YWA Director, Abertown.

Song leader will be Mrs. Royce Dowell, former Lockney resident, Lubbock Trinity Baptist, and recreation leader is Mrs. James Bottorff, Plainview First Baptist.

This begins the schedule of many different camps for the summer. About 400 or 500 are expected for this camp alone.

"A WAVE OF alcoholism has struck the Soviet Union and its satellites," writes Charles W. Thayer in The Reporter. Consumption of liquor has risen by as much as 40 per cent in the countries concerned. Sheer boredom, he says "seems the chief cause of drunkenness."
