Cox Will Buy And Merge Two Ins. Agencies

J. E. Cox, mayor of Lockney and sales manager of the Lockney Auto Company here for the past several years, will purchase two local insurance companies, merge them and set up his own agency, he revealed this week. Mr. Cox has passed the examination required by the State Insurance Commission for insurance agents and has his license.

He has already purchased the Carl McAdams Agency here from Mr. McAdams and is on a deal to buy the J. H. Cooper Agency. He expects to close that deal by December 1st. The new combined agency will office in the Baker building now occupied by the Cooper agency. Mrs. Luther Fowler and the Lockney Retail Merchants Association will also continue to office in this building.

Mr. Cox will sever his connections with the auto company, where he has been employed for more than 31 years.

May Resigns As City Officer

Alton May has turned in his resignation as City Officer to the Lockney City Council effective January 1st, Mayor J. E. Cox said this week. The Council is now accepting applications to fill the place and have received two or three. Probably no action will be taken by the Council until their December meeting, Mayor Cox said.

May has served as City Officer here for several years and formerly was Floyd County deputy sheriff.

May has accepted a position to operate county road machinery for Bob Jarrett, Commissioner-elect, after January 1st. The reason was told.

"I really appreciate the cooperation of the people while serving as your officer," May said this week. "And I have enjoyed working with the City Council."

PROSPECTS BRIGHT FOR GOOD SEASON

BASKETBALL TEAMS IN SEASON OPENER AT CROSBYTON TUES.

Basketball season is here.

The Longhorns and Longhornettes play their opening games against Crosbyton there Tuesday evening. First home games are scheduled for Tuesday, Dec. 2, when the Floydada teams invade the local gymnasium.

Coach Troy Lemley thinks prospects are good on both the boys' and girls' squads. Seven lettermen return to pace the Longhorns. Milton Mickey, 6' 5" seniors who missed most of 1957-58 season due to an ankle injury, is being counted on to carry a big load.

Other lettermen are Jimmy Minter, 6' 1" senior; Terry Clark, 6' 1/2" junior; Donald Ivey, 6' 1" junior; Oyama Buchanan, 5' 11" junior; James Davis, 5' 11" junior; Don Smith, 5' 9" senior. Jack Ford, junior letterman, is unable to play due to a bad knee which was injured early in football training.

Another fine prospect is James Ansley, 6' 2" senior. Ansley has not participated in basketball since he was a freshman, but is showing up well, according to Coach Lemley. Another new prospect is Doyle Pinner, a 6' 1" senior.

Doyle Freeman, outstanding sophomore, is showing up well in workouts, but is ineligible this season. Other sophomores who may make the traveling squad are Mickey Mosley and Bill Mangold. Some 30 boys are working out.

Six letter winners bolster the Longhornettes team. The girls have a young squad — no seniors and only three juniors — which should show steady improvement throughout the season.

Pat Buchanan, the lone junior letterman, heads the list of forwards. Sophomores Janice Boedeker and Gayle Kendricks have won letters at the forward post. Beverly Poteet, sophomore who attended another school last year during basketball season, and freshman Nancy Webster are given a good chance to make the starting lineup. Beverly will be used at both forward and guard.

Vicki Cook, Charlotte Taylor and Gay Lynn Roberson, all sophomores, are available for duty at the guard posts. Other guards on the squad are juniors Jody Pate and Corrine Sanchez, sophomore Doris Eiland, freshmen Willie Mae Woody and Arlene Purcell.

Other freshmen trying out include Judy Thomas, Dixie Ford, Jo Readhimer, Donna Sammann, Lynda Poole, Kathy Potts.

The Longhornettes have scrimmaged Floydada twice and are improving, Coach Lemley said.

In the district races, Lemley rates Morton and Abernathy boys as the teams to beat. "With no injuries and good luck the Longhorns could be in the thick of the race," the coach stated. The Abernathy girls, defending state champs, are favored to repeat as district winners. They have three returning starters including an all-state forward. Lemley figures Morton's girls will also be near the top.

Lockney will hold its first tournament this season. The meet is scheduled for January 8, 9, 10 with six boys and girls

teams now entered. Entered in the tournament are boys and girls squads from Floydada, McAdoo, Post, Muleshoe, Lockney, Tulia girls and Longhorn "B" team will also play, but two teams are needed in each bracket.

Coach Lemley will work with all the girls and "A" squad boys. Don Beck will coach the "B" boys with R. L. Rhoten handling the freshmen and junior high boys. Mrs. Glenda Rhoten coaches the junior high girls. The freshman and "B" boys schedule is not yet completed.

Mrs. Cap Carthel Dies Friday

Mrs. W. F. (Cap) Carthel died suddenly Friday afternoon at the Medi-City Surgical Hospital here. Mrs. Carthel had complained of a pain in her arm Thursday night and early Friday morning, when the pain persisted, she was carried to the hospital for treatment. She died unexpectedly about 2 o'clock. A heart attack was described as the cause of death.

Funeral services were held at the First Baptist Church Sunday at 2:30 p.m. with Rev. Charles Broadhurst, the pastor, and Earl Cantrell of Silverton officiating. Burial was in Lockney Cemetery.

Mrs. Carthel was born Irene Harrison on July 3, 1910, near Vernon, in Wilbarger County. She came with her parents, the late Mr. and Mrs. J. S. Harrison, to this community in 1923 and had made her home here since that time.

She was married to W. F. Carthel on September 10, 1927, in a double wedding which also united her brother, Doyle Harrison, and Mr. Carthel's sister, Velma Carthel.

EDITORIAL

And all thy children shall be taught of the Lord, and great shall be the peace of thy children. — Isaiah 54:13.

IT MAKES US appreciate our community when we read of some of the things happening in other communities on the South Plains. Not that this community is any special example of morality but it does seem that law enforcement officers have less trouble with local residents than in some other places. Take Hallowe'en night, for instance. We have had no information of any mischief to amount to a hill of beans in the Lockney community while we read of extensive damage done in some other communities. In fact, seems that not enough "spooks" were out here because some people were disappointed when they had no "trick or treat" callers after they had prepared to treat them. Juvenile delinquency is giving trouble in some communities but thus far we have had little trouble in this area. Our neighboring city of Ralls had a minor riot on the high school campus recently but in Lockney High School the Student Council co-operates in overcoming some dissatisfaction with the lunchroom menu. Maybe it's a bad policy to boost. Sometimes that invites the unexpected, but we can't help but be a little proud of the young people of this community. Pretty nice bunch of kids, we think.

INSURANCE COMPANIES are threatening to raise auto liability rates again. The amount of money awarded by juries in personal injury suits is going up fast. The average sum has increased better than 300 per cent in the past 10 years, and that is causing the insurance companies to howl. In one county in Oklahoma, the average sum of money awarded for personal injury has increased 3400 per cent in 11 years. The insurance companies claim that some are using this as a means of getting rich instead of looking merely for just claims for injuries received.

SPEAKING of law enforcement and crime, the State of Texas can certainly not be classed as a worthy example. A recent report in a special magazine prepared for distribution to law enforcement officers, showed the following statistics:

- Every 3.4 minutes a major crime is committed in Texas.
- Every six minutes a theft takes place.
- Every 13.6 minutes a burglary is committed.
- Every 35 minutes an automobile is stolen.
- Every 49.77 minutes, a homicide, rape or aggravated assault is recorded.
- Every day the state's tribute to crime includes 2.96 murders and homicides, 3.25 rapes and 7.42 robberies.

THE SEED of a common variety of flowering sweet pea may hold many of the answers which will help to determine the cause of arthritis and other degenerative diseases, according to a report made by three Iowa scientists at a symposium sponsored by the American Medical Association. By using two specific chemical compounds derived from this seed they have been able to create in animals symptoms of degenerative diseases found in man.

PAUL HEFFERNAN of The New York Times writes: "... With the Treasury required to raise \$10,000,000,000 in cash over forthcoming months, the Government (bond) market is in a state of near exhaustion—that is, what is left of it. At the moment a true market in long-term Government obligations—one where bonds can be bought and sold readily in substantial amount—can hardly be said to exist..."

THE TOTAL COST of Federal, state and local government in the last fiscal year was \$124,400,000,000. This was \$11 billion greater than in the preceding year.

THE AMERICAN WAY

A Needed Constant Reminder

With Our EXCHANGES

MONOPOLIES

The engineers aren't alone in requiring lockstep performances of their members. State boards of one kind or another hold a club over the heads of people in various businesses: architecture, public accounting, optometry, medicine and law, to name a few. Most laymen don't know it, but the best lawyer in Texas can't try a case in court unless he has a paid-up dues card in the Texas Bar Association—and that includes the boys who beat their breasts most furiously over the excesses of Walter Reuther & Co. Special legislation permits this sort of business, legislation always piously described as "in the interest of, and for the protection of, the public." Actually, when any business or professional group is given control over the competition within its ranks it is the dear, old public that gets it in the neck by way of higher fees and charges.

Boards which hold economic life - and - death control over their luckless members can save postage and stationery by not sending us "news" releases about how somebody in their ranks has been barred from

working because he has declined to pay tribute to his betters. That's no more news than the fact that a hod-carrier has been dropped from his union for non-payment of dues—and the only difference is, the hod-carrier can get a job on a non-union project, but the professional guy can't.—The Plainsman in Lubbock Avalanche.

FOR THE WANT OF A NAIL. The battle is apparently lost. We're headed for the brink of economic disaster and centralized government. The election proved one thing, most voters want a parental government. You now expect both parties to encourage and increase their liberal, free spending, big government candidates. With all due respect to Marie Antoinette, we shall have cake until the sugar runs out.

We have been on a spending binge since the end of depression days and have reared a generation that knows no other source of economic strength than that handed out by the federal government. Debit spending and credit buying has become our way of life. We are so entrenched today that a slight depression brings us to the edge of disaster.

As you look over the candidates who won their election November 4th, you will find everyone of them dedicated to socialistic aims, i.e. a govern-

ment check in every pot.

Few people know it but during the last session of congress the conservative element barely managed to defeat such legislation as a plan to "relocate" or "retain" workers in certain areas; 8 million dollars dedicated to "social and recreational guidance"; and millions for other social developments. The crying need for establishing the area of state and national rights, curbing the Supreme Court, outlawing labor goons, and cleaning the country of subversives fell by the wayside due to a small margin of votes. In the next congress this type legislation will have virtually no chance whatever of passing.

What to do? Get yours before someone else does! We haven't a long way to go anyway, just over the brink! — Cecil Waggoner in Claude News.

Dear Editor:

I see where a couple of women are asking the courts to edict them into Texas A&M College which girls have heretofore been segregated out of.

My coffee-bar lawyer neighbor says they will get in this school all right on account of it seems the amended 14th Amendment makes it a bayonettable offense to shy off from associating with any fellow citizen, presumably even a girl one.

Says the same law will likely fix it so forward-looking young men can enroll in schools like Texas Women's University and major in girl-ology.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Exodus	4	12-15
Monday	Isaiah	6	1-7
Tuesday	Jeremiah	1	4-10
Wednesday	Matthew	10	7-16
Thursday	II Timothy	4	1-5
Friday	Acts	26	16-18
Saturday	Ephesians	4	11-12

No, he doesn't predict the future. From antiquity the prophets have been those who speak for God. In every generation they have explained His promises . . . pointed out His warnings.

Some men believed the prophets, and saw God's promises fulfilled. Others were skeptical—until their own bitter experience vindicated God's warnings.

No wonder many thought the prophets were reading the future. To every *thus saith the Lord* a later historian had to add *and it came to pass*.

In a pulpit not far from your home there will stand next Sunday an earnest, thoughtful, consecrated man. He is a prophet! He can't predict whether you'll come to hear him. But he's preparing right now to speak for God—TO YOU.

It is the One who calls the prophets who knows . . . whether you'll come . . . whether you'll believe . . . and all the future holds in store for you.

Dillard-Morrison Vows Are Repeated Saturday Evening

Miss Joyce Lorene Dillard of Plainview and Herman Lee Morrison of Claude, both former Lockney residents, were united in marriage Saturday evening at 8 o'clock. Rev. Horace M. Reeves, assisted by Rev. Eddie Hundley, read the double ring ceremony in the Southside Assembly of God Church, Plainview.

Parents of the couple are Mr. and Mrs. Charlie Dillard, 1201 Berger Street, Plainview, and Mr. and Mrs. E. W. Morrison, Claude.

Baskets of pink gladioli tied with turquoise bows, palm greenery and candelabras with pink tapers formed the setting for the ceremony. Larry Morrison of Claude, brother of the groom, and Brentie Dutton of Lockney, lighted the candles.

Mrs. John Warrick, organist, played the nuptial music and John Ridener, Amarillo, cousin of the bride, sang "I Love You Truly", "Whither Thou Goest" and "The Wedding Prayer," while the couple knelt on a white satin prayer bench.

Dee Pierson and Wendall Williamson served as ushers. Jerry Turner was best man and Jerry Virden, cousin of the groom, and Bob Dillard, brother of the bride, were groomsmen.

Her two tiered, elbow length veil of illusion was held by a bandeau of seed pearls and iridescent sequins, and she carried a bouquet of white satin.

The maid of honor's street length dress of turquoise polished cotton had tiny white lace around the neck and down the front. She carried a fan shaped bouquet of pink carnations.

The candle lighters wore turquoise polished cotton dresses styled similar to the other attendants and waistlets of pink carnations.

The bride's mother wore a blue suit with matching accessories and her corsage was of pink Sweetheart roses. The bridegroom's mother wore a black suit with orange accessories and a corsage of white Sweetheart roses.

Following the ceremony a reception was held in the home of the bride's parents. Decorations were baskets of pink gladioli. The table was covered with a white linen cloth. The bride's bouquets arranged with pink tapers formed the center piece, the three tiered wedding cake topped with a miniature bride and groom and

the punch service completed the table setting.

Mrs. Eddie Hunnacy and Mrs. Thelma Day served the pink punch and wedding cake. Others assisting at the reception were the bride and groom's parents and brides attendants.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

Austin, Texas. — Texas state colleges and universities should concentrate on doing the best job possible of one thing—higher education.

To do this, some other things—like student medical services, intramural athletics and certain extension services—will have to be cut loose from tax support.

This is the gist of a report to

be presented to the next Legislature by the Commission on Higher Education. Reached after prolonged study and discussion, the Commission's recommendations, if adopted, would be a significant and far-reaching step toward directing state spending on higher educational institutions toward "pure academic pursuits."

Commission will ask the Legislature for the largest appropriation in history, about \$67,000,000 annually, for the state's 18 tax-supported colleges and universities. This would be \$10,000,000 a year more than is presently provided. Extra money would be used to provide more teachers, better faculty salaries, improved library and research facilities.

On the other hand, the Commission turned thumbs down on the conducting of a number of extra-curricular activities at state expense. Things which the Commission recommends the Legislature NOT include in the higher education budget:

- (1) intramural athletics, (2)

LEGISLATIVE HORIZON — Beginning of the 56th Legislature is a little more than seven weeks away. Each week brings forward more touchy problems the lawmakers will have to wrestle.

Some are new; some have been chewed over in many previous sessions. Examples:

CITIES vs. CITY EMPLOYEES — Texas League of Municipalities recently voted to ask the Legislature to step out of the field of regulating city employees' salaries, hours and benefits. It's a purely local concern, said the League. State Association of Firefighters and Police Officers Association look a dim view of the proposal. Executives of the two groups met in Austin, promised a fight against "legislation which would erase all the progress of the past 20 years."

FARM IRRIGATION — Texas Farm Bureau delegates voted to ask the Legislature to make it a little easier for them to get a permit to use small ponds on their property for irrigation. At present, farmers may dam up to 200 acre feet and use it for household and domestic purposes. To use it for irrigation, they must get a special permit, reportedly difficult and expensive. Irrigation from farm ponds brought a hot contest between city and rural forces during the water legislation debates in the first special session, fall, 1957.

TRAFFIC SAFETY LAWS — Texas Safety Association, plus other groups, are pushing for legislation aimed at reducing road fatalities. Points in the program: (1) allowing for the results of "drunkmeter" (chemical tests for alcohol) tests to be introduced in court as evidence in driving-while-intoxicated cases, (2) stronger traffic law enforcement, (3) provision for enough highway patrolmen to do the job, (4) changing speed laws to meet standards of new roads, (5) improved traffic courts, (6) a uniform drivers license law and (7) universal driver education.

MEDICAL PAYMENTS — People approved a constitutional amendment to allow for medical aid payments to persons who receive state welfare checks. Next Legislature will have to pass a new law to put this into effect. Question is, how big should payments be?

ADVERTISING — Voters also approved an amendment allowing for state-supported advertising of Texas' advantages. But margin of approval was narrow, foreshadowing some wrangling over how big a thing the program should be.

MORE SCHOOL DAYS — Less fishing and more studying time may be in the offing for Texas school students. State Board of Education voted to recommend to the Legislature that the present 9-month school year be extended to 10 months. Earlier this month the Hale-Aikin study committee decided to recommend 9½ months of schooling.

A spokesman for the Texas State Teachers Association said he thought teachers were generally favorable to a longer year. More will be known after TSTA has its annual convention in Fort Worth over the Thanksgiving holidays. Among groups that already have expressed opposition are the operators of summer camps and resorts. A longer school year would mean less time for them to be in operation.

CREDIT RATES UPHELD — State Insurance Department's drastically reduced credit insurance rates are back in effect again.

Last spring the Department issued an order which, in effect, cut in half the legal rate that could be charged for credit insurance. Cosmo Ins. Co., Amarillo, and others sued in an Austin district court and obtained a court order preventing the Department from enforcing the new rule. But the Fourth Court of Civil Appeals reversed this. It held that Cosmo was entitled to a court hearing as to whether the new rates were just and reasonable. Meanwhile, they're in effect.

ICT-SUIT RE-FILED — A suit charging scores of well-known persons and financial institutions with a share of the blame for ICT's ill-fated history has been re-filed in an Austin district court. It was originally filed last June when V. F. Taylor was receiver for the case. Then there was a complicated shake-up and turnover in the liquidator-receiver's office, bringing in an almost all-new team. Now the suit has been filed again with the name of the new receiver, C. H. Langdeau, substituted on the papers.

Dear Editor:
I see where it is being recommended by some that U. S. elections all be held on Sundays, so working people can make it to the polls easier.

My laboring neighbor says this is just a new trick by the employing class to keep from giving workers a vote-break on election days.

Says somebody is always trying to cut in on our best time for spirit-recharging activities like sleeping and highway roulette, and wanting us to use it up on projects of theirs, such as voting and going to church.

ORLON SWEATER GROOMING
Before washing orlon sweaters, turn them inside out. Pre-treat the soiled neckbands by wetting and sprinkling with a full sudsing detergent. Rub gently. If your automatic washer has a fine-fabrics cycle, use it. Otherwise allow 2 to 4 minutes washing time. Do not wring or prolong agitation as that causes "pilling." Sweaters may be dried in the clothes dryer. Check the instruction manual for approximate time. Remove from the dryer while damp and shape the sweater on a flat surface to finish drying.

This probably is the granddaddy of all damage suits. It asks \$15,000,000 damages. Defendants include such renowned names as Lloyds of London and Republic National Bank of Dallas.

What Do You See... when you look at a BOLL OF COTTON?

Do you see the number of people (including yourself) that depends on the cotton industry for their means of living? Do you see the part cotton has in the defense of your country?

Do you see the part cotton plays in our scientific research and development? Do you see the many towns and cities built from the cotton industry... the many improvements in our daily comfort and standards of living?

Ask yourself these questions, think them over — THEN — help yourself and your neighbors by buying more products made with cotton.

LOCKNEY TIES FOR THIRD IN 2-AA STANDING

Longhorns End Grid Season With 20-8 Triumph Over Scrappy Morton

The rugged 1958 football edition of the Lockney Longhorns closed out their season Friday evening with a 20-8 victory over the scrappy Morton Indians. Several local fans made the long trip to Morton.

The Longhorns, plagued by injuries and illness throughout the grid campaign, posted a record of four wins, five losses, one tie. The Big Red reached their peak when they upset the mighty Abernathy Antelopes, 22-12. Coach Elvin Lyon's charges tied with Olton for third place in District 2-AA with Abernathy and Muleshoe sharing the title. Morton wound up in the cellar.

Lockney could have tied for the conference championship and won the right to represent 2-AA in the state playoffs with a victory over Muleshoe. The score ended 6-6 and the penetrations were also knotted, 1-1. At one point the hard-luck Longhorns lacked only one yard for a game-winning penetration.

Fifteen seniors ended their high school football careers Friday. They include: center Duane Griffith; guards Byron Brock, Ronnie Harris, Larry Elam; tackles Ricky Duvall, Stephen Handley; ends David Robertson, Milton Mickey, Wyman Cooley, Leslie Wilkes; quarterback, Jimmy Minter; halfbacks Jackie Calahan, Ronnie Thornton, Alvin Hayes; fullback Bill Race. Brock, Minter, Calahan missed several games at the end of the season due to injuries.

Two managers — Kenneth Calloway and Joe Holmes—are also seniors. Lockney coaches are Elvin Lyon, Don Beck, Troy Lemley, R. L. Rhoten. No captain was elected by the team at the beginning of the season. The boys showing the most determination and leadership in each contest served as captain the following week.

Morton's small, but spunky, eleven held the Longhorns at bay during the first quarter. Lockney moved ahead, 8-0, midway in the second stanza, driving 50 yards to paydirt. Quarterback Jake Wofford ended the drive when he scored from two yards out. The extra two points were tacked on by fullback Bill Race.

Morton tied the contest just before intermission: The Indians marched 52 yards for the tally.

Halfback Alvin Hayes returned the second half kickoff from the Big Red 12 to Morton's 31. Four plays later, on a fourth down situation, hard-charging Race sprinted 28 yards for a touchdown. Try for extra points failed.

Bruising tackle Stephen Handley picked up a blocked punt and scored the final Longhorn six-pointer.

Lupe Sanchez Ends 4-Year Navy Duty

Lupe Sanchez, son of Mr. and Mrs. Urban Sanchez of Lockney, has completed four years of duty with the U. S. Navy and received his discharge at Seattle, Washington, on Oct. 28. Lupe is now attending a barber college at Lubbock.

Lupe entered the Navy in 1954 and took his boot training at San Diego. His first ocean trip was on the U.S.S. Merrick in 1955 to Point Barrow and other points in Alaska. He saw the Northern Lights at Point Barrow for the first time. In 1956 he sailed overseas, staying at Yokosuka, Japan, for nine months on one trip and six months on another trip. On the second trip his ship stopped at many ports including Hong Kong, B. C. C., Inchon, Korea, Philippine Islands and other places.

Sanchez was a member of the U. S. S. Merrick's first drill team and he participated in the Shimoda's Black Ship Festival in Shimoda, Japan, which was attended by Douglas MacArthur. The Navy Band from the U. S. Hornet, also of Shimoda during the festival, furnished music for the occasion. Crews of both ships gave a salute to MacArthur.

Lupe returned to Long Beach, via Pearl Harbor, in July and thence to Seattle, where Lupe was discharged.

Reports are that Mrs. Mattie Baird's condition continues to improve and we are all hoping she will be able to come home from Lubbock very soon.

The Schools of Missions began Sunday night at Sand Hill Baptist Church. Brother Gunn from Oklahoma City was the speaker. He is a missionary for the deaf and dumb there and is a very inspiring speaker.

This school will last through Friday evening and everyone is extended a special invitation to attend. A different missionary will speak every night this week.

I would like to pass this thought on to you from the church bulletin this week. "Those who think it permissible to tell white lies soon grow colorblind."

Expanded 4-H Club Tractor Program Given

College Station — Better care and maintenance for Texas' 300,000 farm tractors and the 2.5 million pieces of allied equipment is the aim of the 4-H club tractor program which gets underway in the State next week.

"We have designed the program this year to reach more people in the areas where farm tractors are more numerous by doubling the number of training schools for adult 4-H club leaders," said W. L. Ulich, agricultural engineer for the Texas Agricultural Extension Service.

He said 30 training schools would be held to train local 4-H adult leaders in such fields as safety, the importance of kinds and uses of lubricants and the proper maintenance of cooling, ignition and fuels systems of farm tractors. The leaders in turn will instruct 4-H club members in the communities and counties.

"This is a care and not a repair program," Ulich emphasized. It has been proved that much of the money spent for tractor repairs could be saved if operators would follow a wellplanned maintenance program.

Primary objectives of the program are to provide increasing opportunities for adult leaders and 4-H club members to learn to operate and care for tractors, skillfully, safely, and economically, and to share their knowledge with other club members and tractor owners and at the same time develop their leadership and citizenship abilities. The program is nationwide and its sponsors provide awards on the county, state and national levels for outstanding achievement.

In Texas the 4-H tractor program is sponsored cooperatively by the Humble Oil and Refining Company; the National Committee on Boys and Girls Club Work, Inc., Chicago and the Agricultural Extension Service with assistance from the machinery industry of the State.

Tickets are \$4.00, \$3.50, \$3.00 and \$2.50 and military personnel and Texas Tech students are admitted for \$2.00. Tickets will be on sale at 7 p.m. Friday night at the main entrance to the coliseum.

HANDSOME MUFFINS

Delicately browned, pebbly top (no peaks or cracks), high, light as a feather and even grained with no tunnels or holes where butter gets lost — that is the way a good muffin looks. Don't let muffins sit and sulk in a slow oven. The oven should be preheated to 425 degrees. Another factor, don't beat muffin batter! Stir it gently until all ingredients are wet.

Quality Of High Plains Cotton Is Very Good

Lubbock — The third Texas High Plains Cotton Quality Report for the 1958 cotton crop continues to show this year's crop is one of the best quality cotton crops as well as one of the best yielding crops in many years, George W. Pfeifferberger, Executive Vice President of the Plains Cotton Growers, said on release of the Quality Report this week.

Ginnings on the High Plains passed the million-bale mark November 11, and the cooperative Quality Report of the PCG and the U.S.D.A. classing office shows that more than 85 per cent of the cotton harvested thus far is white cotton. This Quality Report covers only a

FIFTH BEEF WEEK IN TEXAS—Governor Price Daniel, himself a rancher, proclaimed December 1-7 as Beef Week in Texas at his ranch in Liberty, Texas. Receiving the salute for the cattle industry which "has built for Texas an international fame as the world's foremost beef producing area" is Leo J. Welder, president of the Texas Beef Council, sponsor of the annual event.

about three-quarters of a million bales of cotton harvested as the statistics run about a week behind actual ginnings, Pfeifferberger explained.

White cotton accounted for 85.2% of the crop with 42.9% being Middling light spot and above. Full spotted cotton was only 0.2%.

The average staple length was 31.6 thirty-seconds, with 51.9% being one inch and longer. Only 2.9% fell below 15-16 inch. Micronaire average was 4.3 with 95.7% above the tenable micronaire limit of 3.5. The majority of the crop, or 71.2% fell between 4.0 and 5.0. Pressley fiber strength averaged 76,000 pounds per square inch, with 51% between 75,000 and 90,000 pounds.

The Cotton Quality Report with correlations between grade staple, micronaire and Pressley is being mailed every two weeks to textile mill officials and cotton buyers throughout the nation. It is published to give buyers and mill officials up to date information on the kinds and type of cotton produced in the Texas High Plains area.

Wayland Students From Many States And Nations

Plainview — Boasting a cosmopolitan campus is not just idle talk at Wayland Baptist College, Plainview. Recently compiled fall enrollment figures show that approximately 30 per cent of the college's students come from other states and foreign countries.

Of the college's 532 students, 379 are Texans. The remainder of the school's enrollment comes from 23 other states and 10 foreign countries.

Adding an international flavor are the 15 students from the far countries of the world. Three students come from Colombia, South America, and one is from Cuba. Another is from the British West Indies. Asian students are from Formosa, Hong Kong, Okinawa and the Philippines. Others are from West Africa and Israel.

Students have come to the campus from all parts of the United States. Neighboring New Mexico has sent the most out-of-state students, with a total of 43. Oklahoma is close behind with 30.

Two students from the newest of the 49 states, Alaska, are enrolled at Wayland.

Other states and number of students from each are Alabama, 3; California, 11; Colorado, 12; Florida, 2; Georgia, 2; Idaho, 2; Iowa, 2; Kansas, 3; Louisiana, 3; Oregon, 7; Tennessee, 4; and Washington, 2. Eight other states each having one representative are Arkansas, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, Pennsylvania and Virginia.

In the 19th century TB sufferers flocked to the Southwest in hopes the climate would cure them. Today's TB patients are treated in hospitals near their homes.

DEAVENPORT TRAGIC DEATH IS CAUSED BY DRUNK DRIVER

The tragic death of Norman Wade Deavenport at Trumann, Arkansas, on October 31 was caused by a drunken truck driver, late reports from officers of that city have revealed. Mr. Deavenport was a brother to Mrs. Herman B. Thornton and Noel Deavenport of the South Plains community in this county and was reared at South Plains. He apparently was killed instantly in the accident.

Deavenport had quit work a little early, and was enroute home to help his 5 1/2-year-old son, Norman Jr., celebrate Halloween. He was driving a 1958 GMC pick-up which collided head-on with an older model 1 1/2 ton Chevrolet truck driven by Henry Welch, who lives near Trumann. Welch was seriously injured but will recover, the reports indicate.

The front of the pick-up was almost demolished and the cab was smashed back almost to the driver's seat.

City and state police, who investigated the wreck, said that it was apparent that Welch's truck was either traveling on the wrong side of the road or had just pulled to the wrong side when it collided with the Deavenport pickup. The officers said that Welch had been drinking and had caused some trouble at a pool hall previous to the accident. He had been carried from the pool hall and put in his truck to "sleep it off." Apparently he started the truck shortly afterward and the accident resulted.

The Trumann Democrat, local newspaper which carried an account of the accident, also contained a well written editorial titled "Most Lethal Weapon" and condemning not only the man who would drink and then drive when unable to properly control his vehicle but also those who knew he was drunk and yet allowed him to drive off in his drunken condition. The editorial concludes with these words, "The responsibility for that death lies in part with all persons who knew a driver held such a lethal weapon (the truck) in his hands and failed to send out the warning."
