Floyd County Finances Are In Fine Shape

Floyd County finances are in good shape according to a report from the County Treasurer's office this week. Records reveal that Floyd County Commissioner's Court was able to operate during the calendar year 1959 without borrowing any money. This is the first time in more than 10 years that the county has been able to do this. It was also pointed out that the County still has sufficient money to operate without borrowing during the current year.

This excellent financial condition came about without any increase in the county tax rate and also in spite of a substantial increase in county salaries during 1959.

The figures reveal cash on hand January 1, 1959, at \$135,539.01 and cash on hand January 1st, 1960, at \$189,238.65, a substantial increase despite the fact that tax collections on January 1st, 1960, were 0.72 percent behind that of a year ago.

Warrants and notes paid since January 1st, 1960, total \$15,000.00 while there are no warrants and notes outstanding. For the first time in over sixteen years all precincts are clear of debt, and there is enough money in the bonds and sinking funds to meet all requirements.

The excellent condition financially is due to good tax collections, and efficient operation of the county government over the past several years, according to The Beacon's information.

Safflower Meeting Set At Floydada

Meetings at which contracts to grow safflower will be offered farmers have been scheduled in several cities in the area. The first meeting will be held at Crosbyton tonight (Thursday) and the second one at the courthouse in Floydada Friday at 10 a.m. No meeting is scheduled in Lockney.

The third meeting will be held at the courthouse in Silverton at 2 p.m. Friday.

The meetings are sponsored by the Farmers Union Co-op Marketing Association.

A number of local farmers planted safflower last year with disappointing results.

Council Takes No Action On Annexation

The City Council had taken no action, up to Wednesday morning, on annexation of adjacent areas to the city although it was indicated Monday night that they would probably annex at least two small areas. Two residents requested annexation following the Monday night public hearing on the matter.

Some 50 to 60 people crowded into the small city hall Monday night to attend the public hearing on annexation with a big majority of them members of the Lockney Co-op Gin. Leroy Durham of Plainview was spokesman for the co-op gin group and expressed the desire of the co-op not to be taken into the city. He said "It would not be to our advantage." The point was brought out that the gin would be required to build a jug-type burr burner should they come into the city.

Mayor J. E. Cox, who presided over the meeting, pointed out the benefits and advantages offered by the city, including police and fire protection, as well as city water and sewer services.

City Attorney W. P. Kermickel stated that there were three ways to come into the city, 1. by annexation by the Council where there is no objection, 2. by petition by the majority of qualified voters in the affected areas where there is no objection, or 3. by election where the majority favor such annexation. He explained that only those who were qualified to vote in the area to be annexed could sign the petition or vote in an election.

Three residents of the affected area south of Lockney, Fred Cooper, The Griffith and Earl M. Robison, voiced their objection to annexation. R. E. Marr approached the Council following the meeting saying he would like the area in which he lives to be annexed.

Those attending included members of the City Council and several members of the City Zoning Board.

Eroneous Report

Mrs. Fullerton was much concerned this week over an erroneous report which was being repeated over radio and in the daily press concerning the "sample" households. Every fourth house the enumerator calls on will be considered a "sample" household and this family will be asked additional questions. The erroneous reports, apparently originating in Washington, have said that these "sample" census blanks would be mailed to the head of the family and he was to mail them in but such is not the case. Mrs. Fullerton says the census enumerator will have the "sample" household blanks with her and she will ask the questions, will fill in this special form and will keep the blanks in her possession at all times. Mrs. Fullerton emphasized that all information given to the enumerator is given in confidence and that each enumerator is sworn to secrecy and cannot divulge any information to any other person.

The list of enumerators for the county was announced by Mrs. Fullerton as follows:

Inside Lockney, Mrs. Eura Robertson and Mrs. Irene Morgan.

Northeast corner of the county, Keith Reeves.

Northwest corner of the county, Mrs. Pat Danford.

North center of the county, Mrs. Lilly Cooper.

Inside Floydada, Mrs. Joyce Kimble, Mrs. Frances Weathersbee, and Mrs. Martha Brown.

Southwest part of county, Mrs. Evelyn Huggins.

All across the south part of the county, John Fred Brown.

The reviewer for the north part of the county will be Mrs. Gladys Ruth Badgett, who will check all census forms turned in this part of the county. She will probably set up headquarters in Lockney at least part time.

Rotarians To District Meet At Plainview

A number of Lockney Rotarians and Rotaryans will be attending the various sessions of the District 573 Rotary Conference at Plainview this week end. Highlight of the affair will be the governor's banquet on Friday evening.

Registration will begin Thursday at 2 p.m. with the remainder of the day spent in recreation and fellowship.

The conference will get down to business Friday with a breakfast meeting at 7 a.m. followed by the first plenary session at 9 a.m. and luncheon meetings at 12:15. The second plenary session will be held at 2:30 p.m.

On Saturday a breakfast meeting for presidents and presidents-elect and their wives along with other special officers will be held at 7:30 a.m. Final plenary session will be at 9:30 a.m. and the meeting will adjourn following the all conference luncheon at 12 noon.

Many local Rotary Anns will attend the Friday noon style show luncheon at Plainview Country Club.

Other events will be at the Hilton Hotel with the exception of the governor's banquet on Friday night which will be held at the National Guard armory near the airport.

Weed District Contracts To Spray Highway Right-Of-Way

The Floyd County Noxious Weed Control District signed a contract this week with the State Highway Department under which the District will do the treating of bindweed on the Highway Rights-of-way, to become effective April 1, according to Douglas Degge, Supervisor. Full details of the contract will be given at the Annual Weed Meeting of the District on April 25 at 7:30 p.m. in the Floyd County District Courtroom. Door prizes will be given at this meeting and a grand prize of a stainless steel electric coffee pot will go to some lucky lady attending, Degge said.

The bindweeds are coming through the ground and the District is anxious to apply the chemicals for those desiring to control this noxious pest, according to the announcement.

The District is planning to make a concentrated effort to spray every patch of bindweed on the County Rights-of-way as soon as the vines reach the 6 to 8 inch runner stage. Cooperation on the part of all farmers will be needed in this effort, by notifying the District of small patches of bindweed and also letting the vines grow so there will be plenty of leaf surface when the spray application is made, Degge said.

CENSUS ENUMERATORS WILL BEGIN WORK FRIDAY MORNING

County will begin work Friday morning and expect to complete counting noses of Floyd County people within two weeks, according to information Wednesday from Mrs. Paul Fullerton of Floydada, county crew leader.

A full crew of 10 enumerators and one reviewer plus the crew leader have been in school this week and are all set to start calling on people. Mrs. Fullerton urged all citizens to give the enumerators all co-operation possible so that the job can be completed soon. A census blank has been mailed to almost every family in the county, having been put into the post office Wednesday of last week. The head of each family should fill in this blank carefully and keep it ready to hand to the census enumerator when they call. Under no circumstances should it be mailed in.

Local Women Will Visit Germany In May

Mrs. Johnny Cline and Mrs. J. C. Anderson will leave May 6 for a visit in Germany.

Mrs. Cline will join her husband at Fishbauch, where he is stationed with the 64th Ordinance Company of the U.S. Army occupation forces. He has been there five months and the couple expects to remain there another year or fifteen months. Mrs. Cline has been employed at Byrd Pharmacy since her husband went overseas. She is the former Peggy Williams, daughter of Mr. and Mrs. Lois Williams of Aiken community.

Mrs. Anderson, a native of Augsburg, Germany, will visit for six weeks with her parents, Dr. and Mrs. Rudolf Engler and brother in Augsburg. Her father is now retired and the family expects to do some extensive traveling while Mrs. Anderson is there. It had been a life-long desire of Mrs. Anderson to see America and her dream was realized ten years ago when she accompanied her husband to this country.

War prevented her from visiting Italy and that country is at the top of her travel agenda. She spent a year in France with her husband after the couple were married in her hometown during the war. It has been three years since she has visited her family. This will be her fourth trip back to Germany, however.

The local women will leave Lubbock via plane on Friday, May 6, at 7:30 a.m. At Dallas they will board a jet airliner for Idlewild Airport, New York, from there on to Germany, arriving there Saturday morning, May 7. Mrs. Cline will be met at Frankfurt by her husband and Mrs. Anderson will go on to Munich where her parents will meet her. The Engler family home is only a two-hour drive from there.

Irving Bennett Is Seriously Injured In Fall Wednesday

Irving Bennett, prominent rancher and farmer of this area, was seriously injured late Wednesday evening of last week when he fell at his home east of Lockney.

Mr. Bennett was walking on the top of a feed trough, spreading feed for his cattle, when he fell across one end of a trough. He did not think he was seriously injured but came to the Lockney General Hospital for x-ray for possible broken bones. Finding none he returned home Wednesday night.

The pain in his side continued and he returned to the hospital Thursday morning and tests showed he was injured internally. He underwent major surgery Thursday afternoon and it was found that he had a ruptured spleen and a split kidney. The spleen was removed, the kidney repaired and he was reported to be improving this week. He will remain in the hospital for some time.

EDITORIAL

Behold, what manner of love the Father hath bestowed upon us, that we should be called the sons of God.—1 John 3:1.

THE CITY'S annexation plans will result in the addition of a small acreage to the city, it appeared Tuesday after the public hearing Monday night. The Council waited too long to get started on the project it seems now, else it might have been worked out with better results. According to The Beacon's count, there were only three people present who objected to annexation and who were qualified to make a legal objection but the Council is not wanting to force annexation on anyone and will probably annex only those areas where there is no objection.

CITY ATTORNEY Wilson Kermick explains that the law says the City must have the consent of the majority of the people who are qualified to vote in the affected area. Of the estimated 70 people at the Monday night meeting, not more than 6 or 8 are residents of the affected area and could vote on the matter of annexation, should it come to a vote. Of these only three voiced an opinion contrary to annexation, though probably others opposed it. Two men favored annexing their property. Probably the best way to approach annexation is to consider only one small area adjacent to the city at a time, and not take too big a bite.

ONE WONDERS exactly what chance Senator Lyndon B. Johnson has to secure the Democratic nomination for president. Some of the big wigs say Kennedy has the nomination in the bag but past experience has taught us that big wigs don't always speak with knowledge of the situation. On the other hand, a local man who attended a LBJ meeting at Brownfield recently told us that "inside dope" indicated that Johnson has more than 600 electoral votes already committed to his candidacy, most of them secretly. Although we favor Johnson for the nomination, we find it hard to believe that he has that many votes this early. But we do believe that there are several things we can all be certain of: 1. Johnson will be much stronger than a lot of Texas people think he will be. 2. The liberal element in the party, including some in Texas, will fight his nomination to the last ditch; 3. If the contest gets down to a battle between Johnson and Kennedy, more of the "also-rans" will throw their support to Johnson than to Kennedy. As always, the national convention will be an interesting affair.

THE CITY is due to spend a lot of money on street repair once the weather settles down to fair and warm. Not only are intersections developing holes but some soft spots are appearing in the middle of the block sections. Highways have also been damaged by the extremely cold, wet weather and rumors say that the state highway system was damaged extensively, more than in any previous year. One thing that asphalt paving must have and that is continuous care and repair. Without that it is soon lost completely.

NATION'S BUSINESS predicts that food purchases in 1965 will be 45 per cent greater than in 1958, with the greatest growth in fresh fruits and the second greatest in meats, fish, poultry and dairy products.

DR. THEODORE G. KLUMPP, a member of the American Medical Association's Committee on Aging, told the 15th National Conference on Rural Health that society has been illogical and inconsistent in its attitude toward compulsory retirement and a more realistic approach is necessary. In his words, "Whenever society adopts a rule that eliminates the fit with the unfit, destroys the good with the bad, or punishes the innocent with the wicked, it is not a good rule. Civilization progresses by changing rules of this kind."

CIVIL RIGHTS

Regardless of what noble aspirations are ascribed to the civil rights war now being waged in the Senate, there is a great deal more behind it than meets the headlines.

Those who would cry crocodile tears about the poor, voteless southern Negro had better take a good second look at what is being proposed because it affects every state in the union, not just the south. Regardless of how noble a cause the surface may seem, it could also end any freedom the Negro, White or any other hue or stripe may have.

Congressman John Dowdy of Texas, a member of the House Judiciary Committee, said of the Civil Rights Act on June 14, 1957, "When the Attorney General can haul a citizen into court, enjoin him because of what somebody 'thinks' he is 'thinking,' deprive him of his legal rights, convict him without due process and subject him to criminal punishment for an alleged civil offense, we will have achieved the ultimate in absurdity and the height of tragedy."

Do you believe the civil rights alone? Get your head out of the political sands. These ultra liberal mush heads intend to include as much of the following as possible:

- (1) Recognize Supreme Court decisions as amendments to the Constitution.
- (2) Amend the Constitution by simple statute.
- (3) Declare it to be a felony when state or local officials resist a naked court order affecting local schools.
- (4) Appropriate federal funds in the effort to "bribe" local officials to accept the Supreme Court orders on integration.
- (5) Open records of state and local officials to representatives of the NAACP (provided they be appointed also as "representatives" of the Attorney General of the United States.)
- (6) Authorize federal agents to determine who is qualified to vote in a state or local election.
- (7) Reopen the attempt to enforce FEPC control over hir-

ing and firing of employees in private business.

It all simply means that eventually the federal government will appoint an inspector to see that you button your pants right each morning.

This isn't a southern problem and reports are now coming out that people of the northern states are beginning to wake up and organize in an effort to run those who would place legislative and court control over them, out of office.

Reports show that something big is stirring above the Mason and Dixon line. Strong opposition groups are beginning to form in New York, Maryland, Pennsylvania, Michigan, Illinois, California and Wisconsin.

According to one report these Northern organizations have no theories about States' Rights or constitutional conservatism. The theme is simply "We've had enough!" They now have their belly full of government telling them how and with whom they shall live, educate their children and run the social affairs of their personal life.

If the ultra-liberals win it will no longer be a free society. It will be a class society by edicts of a faction controlled legislature and the Supreme Court. — Cecil Waggoner in Claude News.

Dear Editor:

I see where the census takers are due right away, and my obsolete neighbor says after seeing them come around six or seven decades. It gets monotonous.

Says they will be wasting their time on him, anyhow, because he hasn't changed his name, birthdate, color nor sex since the last time they asked him, and he does not have a bath tub for them to count.

But says this doesn't mean the government needs to out a health squad to fumigate him, on account of taxes are keeping him pretty clean.

"Can Prove Anything By The Bible"

Many religiously inclined people claim any doctrine can be proven by the Bible. This is as far from right as darkness is from light. The Bible does not teach contradictory doctrines. Truth does not contradict truth. The gospel is the word of truth (Eph. 1:13).

PERVERTING THE GOSPEL

The apostle Paul wrote, Galatians 1:7, "... but there be some that would trouble you, and would pervert the gospel of Christ." The language of the Bible can be perverted and abused and made to appear to teach things it does not. Many did corrupt the word of God in Paul's day (II Cor. 2:17). According to the following scripture many more are perverting God's way since that time. "But evil men and seducers shall wax worse and worse, deceiving, and being deceived." (II Timothy 3:13). There are many other warnings throughout the Bible of the danger of being led astray by a perverted gospel.

We should study God's word diligently that we may not be led astray. "Ye therefore, beloved, seeing ye know these things before, beware lest ye also, being led away with the error of the wicked, fall from your own steadfastness" (II Peter 3:17). "Wherefore be ye not unwise, but understanding what the will of the Lord is" (Eph. 5:17). We urge you to examine what we teach in the light of God's truth. If it is the truth accept it because it is God's word. If it is not His truth reject it no matter who teaches it.

Poage's Farm Plan Must Wait For Next Session Of Congress

By John C. White
Commissioner of Agriculture

The vague outlines of Washington farm legislation for the 1960's is beginning to appear dimly in patterns of controversy, and a better idea of what to look for next might be gained by glancing at what has happened in the past three decades.

Each of these three decades has been marked by different and distinct attitudes in Washington toward the problems of agriculture.

Going back to the 1930's, the decade of the Great Depression there was an economic disaster that stifled the entire economy and pushed one out of every four farmers into bankruptcy. The problem then was strictly a dearth of markets instead of excessive production, and the Washington remedy was to plow up crops, kill little pigs and put the government into the cattle-buying business.

The beginning of the 1940's saw the technological revolution in farm production coming to the front, producing what at that time appeared to be huge surpluses. But there was war and post-war recovery that took up these apparent surpluses, with high prices encouraging maximum production. Prices went up from 38 per cent of parity in the 1930's to 123 per cent of parity in the 1940's.

But in the 1950's the vast increases in production again developed serious surplus troubles. Eventually, in 1955, a Democratic Congress gave the Republican Secretary of Agriculture the authority to flex price supports between 75 per cent and 90 per cent of parity for basic crops. This was done on the theory that since high supports had encouraged excessive production, lower supports would cause farmers to reduce production.

The theory, however, has not been borne out by the facts, with total farm production continuing to set new record highs year after year.

This year, the best collective thinking of Democratic farm-minded congressmen perhaps is reflected in the "Family Farm Income Act of 1960" by Rep. Bob Poage (D-Tex.). The bill is not expected to pass this session of Congress, but it indicates what can be expected next time if the Democrats retain control in the House and Senate. It has two fundamental aims: First, to strengthen the income and security of family farms; second, to provide farmers with a variety of programs from which to choose. It is based on higher price supports with production under strict controls.

GO TO CHURCH SUNDAY.

American Legion Urges Church Attendance

By Paul Teuton, Adjutant

Part of the "Back to God" movement for America, sponsored by the American Legion, is to urge its members to attend the church of their choice. If we encourage someone else to do something, first we should set an example for them to follow.

The American Legion is non-partisan in religious belief. It is made up of members from all faiths, and do not tend to over-emphasize any particular belief. That is left to the individual's own free choice. To worship God as he chooses is part of his religious freedom.

Religious freedom was one of the reasons this country was founded by our forefathers. If we let this part of our American heritage die, then part of our America will die with it.

Many of our Social science professors, as well as some of the most learned ministers, believe that America has reached the "peak" of her Christian progress and has started on the down hill journey. Our history books will tell us of other nations older than ours that have traveled this path to desolation and ruin. This will only lead to the breakup of our moral standards, as well as our "code of ethics" toward our fellow man. This breakdown is something we are witnessing today in other countries. It can well happen in our country if we neglect our religious freedom and duty.

The National American Legion is sponsoring a "Back to God" movement throughout the nation. Let us as members of our local post take part in this vast crusade by attending church services regularly in our community. May we, at the same time, urge the people of our community to attend the church of their choice.

All members are urged to remember the regular meeting of the local post next Monday evening at 8 o'clock.

Co-op Expects \$40 Per Bale Slash In Cotton

A price slash of about \$40 per bale of cotton is ahead during the next three years for Plains cotton farmers under existing price support legislation, says Dan Davis, general manager of the Plains Cotton Cooperative Association in Lubbock. By 1962, it appears that allotted acres for all growers will be down to the "Choice A" acreage and the price will be supported at the "Choice B" loan level, he predicted.

Unless the present law is changed, the 80% of parity support of the 1959 crop will slide to 65% by 1962. In addition, a change in the quality base for computing support prices will chop some \$7.50 from the price of cotton from 1961 onward. The present price support schedule for Middling 1" cotton at Lubbock is: 1959-34c; 1960-31c; 1961-27c; and 1962-25c. These projections are in round figures based on the minimum levels authorized by the present law, Davis said.

The 23 Plains counties have been producing about two million bales annually. A cut of \$40 per bale will reduce the value of the Plains cotton crop by some \$80,000,000. There are no indications at present that the upward trend in such production costs as labor, machinery, fuel, taxes, etc., will be reversed, according to Davis.

Few have realized the impact of such a calamity, either farmers or people whose business depends on buying power of the producers, he continued. There is a general feeling that the outlook for cotton is bright. For the farmers who grow it, the outlook is certainly dark, a heavy reduction in price with no increase in acres, Davis said.

One-third of all auto accidents are due to fatigue.

Boar Testing Station At West Texas State

Dale Laceywell, local Chester White swine breeder, has recently had occasion to use the boar testing station at West Texas State College, Canyon. The station is operated by the agriculture department of that college.

Laceywell has sent two different pens of swine to the station in recent months and is well pleased with the results. Requirements are that two boars and two littermates, either barrow or gilt, be included for the test. The swine must be of registered stock, any breed, and must be from a litter weaning at least eight pigs. The eight per litter requirement makes the tested group eligible for Production Registry, and PR data can be used for certification of the swine, Laceywell said.

The swine are tested for feed conversion and quality of meat. They are kept until they reach 200 pounds and careful records is kept of their consumption of feed and daily gain. The station is now accepting applications for pigs born during the month of February and through March 15. The litter must be entered soon after birth, but the station wants them at about 58 days of age.

Style Trends for Spring and Summer

Big sleeves, full skirts and costumes with waist length jackets take the limelight in style trends for spring the summer.

Waistlines mark the current normal position on many fashions instead of last year's high waisted effect. But gradually shifting to the other extreme, lowered waist lines, either in fitted long torso bodices or shallow hip yokes in full-skirted dresses are appearing on the scene. Soft pleats around the waistline are being used to develop a rounded hip-line. Circular skirts are re-appearing after an absence of several years. Many slim skirts taper to the hemline to form a new cone shape.

Black makes big news in color for midday. The trend toward pale colors is also evidenced by widespread use of beige, chalk-white and pearl gray. Soft fruit colors of lime, orange, mint and strawberry appear in solid colored silks and silk prints. Designs range from giant florals through interesting abstracts. Checks are quite popular.

Texture is important with dobby weaves, eyelash fringe and woven checks adding surface interest to silk, cottons and blended fabrics. On the other extreme, many lightweight fabrics are being used to give a soft feminine look to daytime and evening costumes.

Dear Editor:
I see where a New Jersey child welfare board tried to take a little girl away from her foster parents on account of their IQ is lower than hers, and they are not rich and cultured enough.

My anti-IQ neighbor says next the know-besters may try for a law to switch all children around, as soon as their IQs jell, so as to put the smart ones with smart parents, and vice versa.

But he figures there will be some payola-prone officials around, so any ambitious couple with a low IQ can get bright children to raise, if their IQ is high enough.

STATE CAPITAL Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Texas Democrats have marked June 14 on their calendars. Austinites have circled it in red.

June 14 is the day some 5,000 Texas Democrats will converge on the Capital City for their state convention.

It's expected to be many big days rolled into one.

It will be the first time in recent memory that the huge colorful gathering has come to Austin. A large new city auditorium and convention center makes it possible.

It's the day that comes only once every four years when Texans name delegates to a national presidential nominating convention.

But more excitement centers on the fact that Texas Democrats will be assuming what is usually a once-in-a-lifetime role — that of supporting a major contender for the presidential nomination.

Work is under way in every part of the state to insure that the delegates to Austin will give rousing support to Sen. Lyndon B. Johnson for favorite son nominee and chairman of the Texas delegation to Los Angeles.

Senator Johnson's chances of becoming president were re-emphasized by Gov. Price Daniel and cheered by the State Democratic Executive Committee when the party leaders met to plan the June convention.

Committee members selected Dallas for the second state Democratic convention on Sept. 20. Their meeting also was made an occasion for honoring Mrs. Hilda Wiener of Seguin for a quarter century of loyal service to the Texas Democratic party.

COURT REJECTS VOTE HAS- SLE — Texas Supreme Court refused to consider a direct appeal from the City of Austin that it order a complete recount of votes in a hotly contested urban renewal election.

Issue has had Austinites in a stew for months. It was originally announced after the election in December that urban renewal had carried by a 52-vote margin. Eight property owners contested the election results on grounds that ballots were cast by persons not qualified to vote.

After 9 of 18 contested boxes had been opened, District Judge James K. Evetts of Belton declared the election void. He said there were so many disqualified voters and improperly marked ballots that it was impossible to determine the election outcome.

Austin's city attorney petitioned the Supreme Court for a writ of mandamus to compel Judge Evetts to open and examine all the ballot boxes. He contended the qualified voters had a right to have their votes counted.

 In a letter to The Beacon Tuesday, Mrs. Whitfill asks us to express her heartfelt thanks to all who remembered her with so many lovely letters, cards, and visits. Among the recent visitors, she writes, was Sidney Reeves, former Superintendent of Schools in Lockney, who now lives in Dallas where he holds a position with the State Board of Education. Mrs. Bill Beedy went to Canyon Tuesday to take some things to newlyweds, Mr. and Mrs. Eugene Beedy, who are getting settled in an apartment at Canyon where Eugene is a sophomore at West Texas State.

Mrs. Skeet Thornton went to Santa Fe, N. M., last Sunday to see a brother who was ill. She was accompanied by another brother, Em Childers of Lockney.

Mr. and Mrs. J. P. Taylor branded Saturday and Monday at their ranch. Besides the Taylor boys, helping brand were L. N. Johnson, Mike Wood, Frank Jones, and Claburn Stewart. This week saw the last of the cattle branded. Staying the night with the Taylors Friday were Mr. and Mrs. Joe Taylor and Gregg of Lockney.

Mr. and Mrs. Thomas Pierce and children from Sand Hill were in our vicinity Wednesday night visiting Mr. and Mrs. Sylvain Kinnibrugh, Marilyn and Beth.

Mrs. H. S. Calahan Sr. was in Lockney General Hospital from Thursday night to this week and she is hoping to go home this Monday. Mr. and Mrs. H. S. Calahan Jr. visited her Sunday afternoon, and all the relatives from here have been to see her at the hospital.

Rain which started in the night Wednesday and continued throughout Thursday and Friday left over an inch of fine moisture in our area, with ranchers and farmers happy over the gentle showers.

Each of the four school rooms will have entertainment and the film, "An Alaskan Adventure" will be shown. OS MAKE READY FOR T PRIMARY ON MAY 7

Floydada. — Floyd County's Democratic Executive Committee in their meeting Saturday of last week, made up all the plans for the first early spring primary election in the history of the county.

Preparing for election day on May 7, six weeks hence, the committee:

- (1) Drew lot for places on the ballot for the respective races. There are contests in seven state races, one in the judicial district race, none county-wide, and one in a commissioner's precinct. And unless more heat develops in the governor's or attorney general's contests, the primary will be a tame affair in all of Floyd County except in the Precinct One contest for County Commissioner.
- (2) Named presiding judges

for the 21 voting precincts, set the rate of pay for election officials, and estimated the number of persons needed to man the polls at 127 including the presiding judges and assistants. Election clerks will receive \$5 for the day's work and the presiding judge an additional \$2 for making the returns. A majority primary is provided for.

Afternoon Precinct Conventions

(3) Set the hour and place for holding the precinct conventions for 2 o'clock p.m. on first primary day, May 7, and the hour and place for holding the county convention May 14 at 2 p.m. in the district court room in Floydada. Precinct conventions will name a total of 41 delegates to the county convention.

The afternoon convention hours were determined upon after some discussion. The conclusion arrived at was that voters interested in the conventions would have voted and would have their "Democratic" stamped identifications by mid-afternoon. There would be more general participation in an afternoon precinct convention than in a night session, the committee decided.

Since practically no Floyd County voters can find their poll tax receipts when election day rolls around, having filed them with their "papers", the committee came up with the idea of furnishing all presiding judges with a supply of affidavits that the poll tax had been paid. These affidavits marked "Democratic" will be recognized at the door of the precinct convention halls as valid.

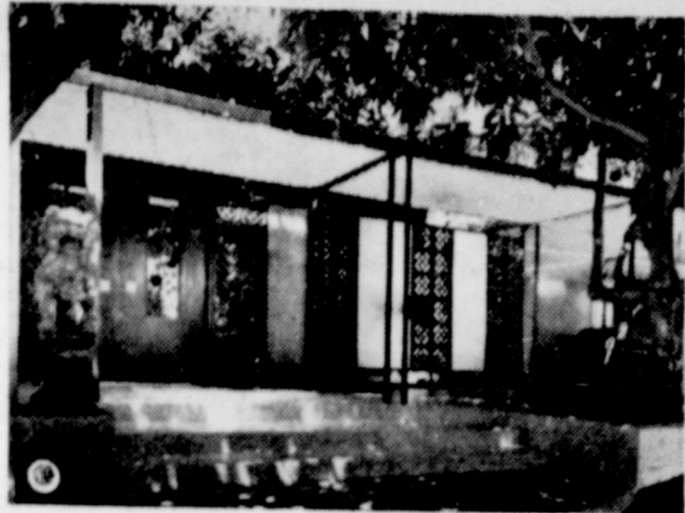

This is a new wrinkle in the state law, growing out of the hassle over voting one party's ticket and attending the precinct convention of another party. So far as known this question has not been raised in this county. It is a big city problem.

In the assessor-collector race Fred A. Cardinal, given a place on the ballot, will be stricken off. He announced his withdrawal from the contest on Monday following the committee meeting on Saturday.

Election Presiding Judges

Presiding judges and the places for holding the election in the respective precincts were named as follows:

- Southwest Floydada No. 1, Lighthouse Electric lobby, Rex Brown.
- Starkey No. 2, Starkey Club House, W. L. Davis.
- Allmon No. 3, Allmon Gin.

Crippled Children Clinic Is Scheduled

Plans to conduct a clinic for all crippled children of Floyd and surrounding counties have been announced by Dr. C. A. Pigford, Director of the Lubbock City-County Health Unit. The clinic will be held Wednesday, April 13, at the Lubbock Central Palsy Treatment Center, 3502 Avenue N, in Lubbock.

Registration for the clinic, sponsored by the Lubbock County Society of Crippled Children, Inc., the Lubbock-Crosby County Medical Society, the Lubbock City-County Health Unit and the Crippled Children Division of the Texas State Department of Health, will begin at 9:00 a.m. No charge will be made for examination.

It will be open to all children, under 21 years of age, who are crippled or who have conditions which might lead to crippling. Parents are requested to accompany the patient.

Services rendered by the Crippled Children's Division of the State Department of Health include the location of crippled children through the establishment of clinics similar to the one planned in Lubbock. The program includes the financing of hospitalization, medical and surgical care, artificial limbs and related services from funds of the State and Federal Governments for children whose parents cannot finance their care, provided their eligibility has been established under the State Law.

A few of these crippling conditions include: Infantile Paralysis, Osteomyelitis, club feet, cleft palate, harelip, burns, curvature of the spine, dislocated hips and many others.

The overall purpose of the sponsors of the clinic is to provide a means of examination of all children with crippling conditions, in order that no crippled child should go without needed attention.

"Worst roads in the world, but this new Chevy takes all the roughness out!"

Out near Wathena, Kansas, farmer Milt Roundy tends 800 acres with only one helper—his 1960 Chevrolet pickup. The truck almost never runs on Kansas's fine state highways—instead it averages about 2,500 miles a month on unimproved back-country trails or on hauls into the fields, off the road. "In my book, these are the worst roads in the world," Mr. Roundy says, "but this new Chevy takes all the roughness out. It doesn't fishtail or whip around like other trucks — I can steer it with one finger!"

They're speaking right up, these owners of '60 Chevrolets. Everywhere you go, they're giving out glowing reports on a revolutionary new truck ride that leads to a bigger day's work at less expense; praising truck power that knows the most about saving money.

It's Chevy's total newness they're talking about. And you'll be talking, too, once you turn a new Chevrolet loose on your money runs. Your dealer can get you started, right away!

It takes Chevy's new Torsion-Spring Ride to smooth out a road like this!
