Funeral services for Randy Teeple, 4-year-old son of Mr. and Mrs. Ray Teeple, were held Monday at the Silvertown Church of Christ conducted by L. L. Thorn-Christ minister. Burial was in Silvertown cemetery.

Randy was killed about 4:30 p.m. Thursday in an auto collision at a dirt road intersection in southern Briscoe County. His mother, driver of the car, was seriously injured as was Mrs. Joe Montague, driver of the other car involved. Mrs. Montague's son, Quinn, age 6, was also injured. All three were reported to be improving this week and out of danger. They are receiving treatment at Plainview Hospital.

The two women had attended the same club meeting and were enroute home when their cars collided, reports here said. They are sisters-in-law.

Survivors of the boy are his parents, two sisters and a brother, all of the home; and the grandparents, Mr. and Mrs. Raymond Teeple of the South Plains community and Mrs. Lorene Montague of Silvertown.

Open House Will Honor T. L. Griffiths

Mr. and Mrs. T. L. (Theo) Griffith will be honored with an open house at the home of Mr. and Mrs. Carl McAdams Sunday, in celebration of the Griffiths 50th wedding anniversary. Calling hours are from two to five o'clock and friends and acquaintances of the couple are invited. Mrs. McAdams said. A number of other friends of the couple are assisting Mr. and Mrs. McAdams in the affair.

The couple was married Dec. 18, 1910 at the Methodist parsonage here with the Methodist pastor, Rev. J. L. Laney, performing the ceremony. They have lived here most of their married life, but did spend a few years in New Mexico where they filed on some land in the early days.

Mr. Griffith was born in Bell County and came to Lockney in 1891 with his parents, Mr. and Mrs. Daff Griffith. His mother is still living though she is very feeble and is in a rest home at Littlefield.

Mrs. Griffith was born at Lebanon, Tenn., and came here to visit her sister, Mrs. John White, in 1909. Her maiden name was Sarah Puryear. Mrs. White now lives in Greeley, Colo.

A unique coincidence is that in Mrs. Griffith's family there were seven sisters and one brother and in his family there were seven brothers and one sister. His father operated a store here at one time called "The Seven Brothers".

The couple has no children.

The Lockney City Council, in regular meeting Thursday evening of last week, granted an approximate 10 percent increase in rates to Pioneer Gas Company. The company had filed a request for the raise on October 6.

This is expected to take place some time next Spring. Lubbock is the biggest city affected by the request for raise and it is expected to take the matter to the Railroad Commission.

The Council also decided to run a water line to serve a number of residents in northeast Lockney. To be served by the line will be residences of Mrs. T. T. Threet, J. P. Truett, George Warsham and E. Cemetery Assn. Needs Funds Now

The heavy rains in October has caused an excess of work on the Lockney Cemetery and the Cemetery Association is in need of additional funds immediately, according to Mrs. L. M. Honea, secretary. She asked that those who wish to donate to the upkeep of the cemetery, mail or bring checks to her or to E. A. Carter, president of the association, at Carter Funeral Home.

The keeping of the cemetery is paid for by the association and their only source of funds is from donations by those who have loved one buried in the cemetery, it was said.

All donations will be appreciated and the money used wisely in the upkeep of the cemetery, officers said.

THE L. R. WORLEY family of Amarillo escaped with only slight injuries when their car overturned in front of a switch engine in West Lockney last Saturday.

Four Escape In Freak Mishap

Four members of an Amarillo family escaped with only minor cuts and abrasions last Saturday morning when their 1957 Plymouth car turned end-over-end, landed on its top on the FW&D rails in southwest Lockney and was pushed down the track some 70 feet by a diesel engine. They were rushed to Lockney General Hospital where they were examined and released.

The car was driven by L. R. Worsley of Amarillo and accompanying him were his wife, Billy, a daughter, Sheryl, age 7, and a son, Steve, age 5. The Worsleys were traveling east and approached the FW&D crossing on Highway 70 just as a switch engine from Sterley came in from the northeast. Apparently the driver didn't see the train until near the crossing despite the blinking warning lights and then he slammed on his brakes. The car left the highway on the right, plunged into the bar ditch, struck the railroad bed embankment, gently turned end-over-end and landed on its top astride the rails just in front of the moving train engine some 45 feet southwest of the crossing.

The engine struck the car and pushed it about 70 feet down the rails before it could stop. The four occupants remained in the car during the accident and were still in it when the engine stopped.

The train had stopped at the gate on the north side of the highway where the FW&D crosses the Santa Fe tracks and had just begun to move again when the accident happened. It was traveling only 4 or 5 miles an hour, train men said.

T. S. Dial of Sterley was conductor of the train. M. L. Crome was engineer and H. C. Young was brakeman. The switch engine was traveling to the Panhandle Compress here to move some box cars when the accident happened.

The Worsleys were enroute to Patton Springs to attend a reunion of Mrs. Worsley's high school graduating class.

Investigating the accident were Highway Patrolmen Carl Mullins and R. C. Dunn, Plainview; assisted by local officers, Lowell Bihrey, W. F. Carthel and Ray Harden.

Prospects Good For Lockney Cage Teams

Prospects are bright for a winning season by Lockney High basketball squads. Coach Troy Lemley is especially optimistic about the Longhornettes, girls squad.

Local teams will journey to Crosbyton Friday night. Next Tuesday the Crosbyton squads will return the visit. The girls' contest will begin at 7 o'clock and the boys' game will follow Tuesday night.

The Longhorns began workouts Monday afternoon with five returning lettermen, including one starter from the 1959-60 quintet. Doyle Freeman, a 5'11" senior is the lone returning starter.

Other lettermen include Bill Mangold, a senior; Johnny Belt, Robert Holland, James Ray Wofford, all juniors.

An especially fine corp of sophomores — Lavon Baughman, Ronnie Belt, Ronnie Kidd, David Cates, and Donnie Hanst — is on hand to bolster the "Horns. Baughman, 6'4", Belt, 6'2", and Kidd, 6'1", add good height to the team.

A 6'1" freshman, Thomas Moore, will probably complete the traveling squad.

Coach Lemley indicated that the outside boys are experienced protection. Boys manning the inside posts are young and their development could be the key to the Longhorn's success.

Probable starting lineup for the Longhorns against Crosbyton will include five of the following: Freeman, Mangold, J. Belt, R. Belt, Baughman, Kidd, Holland.

The Longhorn "B" squad will play a schedule, but their state has not been completed.

Lockney's girls have had trouble winning the past several years, but should get back on the victory trail this season.

Pacing the Longhornettes will be Janice Boedecker. Coach Lemley terms her the finest forward in this district and possibly the best in the state. Miss Boedecker, a senior, has been an all-district selection the past two seasons.

Only other senior girl on the squad is guard Charlotte Taylor, a starter last year. Both seniors have earned three letters.

A trio of junior grace the squad. They are Nancy Webster, forward; Arlene Purcell and Judy Thomas, guards. Miss Thomas has one letter and the other two girls have two letters.

Jane Reynolds and Janie Rhodes, forwards; Juanell Potts and Cheryl Rucker, guards, are the sophomores on the Longhornette squad. Two other sophomores — Betty Nelson and Katy Fewell — are working out, but have not attended Lockney High long enough to be eligible for varsity.

Create in me a clean heart, O God, and renew a right spirit within me. — Psalm 51:10.

NOW THAT the Democrats have won the election and have not only the president and vice president but also a working majority in both houses of Congress, most of us are interested in what kind of legislation we may expect. Mr. Kennedy and the Democratic platform together made a lot of promises, some of them pretty wild, to our way of thinking. But perhaps an inkling as to what type of legislation may be presented to Congress can be found in the writings of one Professor Arthur M. Schlesinger Jr., a Harvard man, who is one of the leaders of the famed ADA, an ultra left-wing political organization, and also one of Jack Kennedy's top economic advisors.

PROF. SCHLESINGER writes: "There is no reason to suppose that our living standards or tax rates are sacred. There are unexplored possibilities in taxation — not only plugging loop holes, such as percentage depletion on oil, but taxing things to help people, such as, for example, a tax on advertising. . . . The answer to the Soviet success is as plain as day. It lies in the power of the Soviet Union to focus its national energies. It allocates its talents and resources according to an intelligent system of priorities. The Soviet Union spends two or three times as large a share of its annual gross national product on defense and

on education as we do in the United States. Our country spends a much larger share on such things as automobiles, cosmetics and smoking tobacco. . . . We can change this situation any day we want to."

WHAT THE prof is saying is that the average individual is wasting his money spending it on such things as automobiles, cosmetics and smoking tobaccos. And he blames advertising for selling an abundance of these items so he is advocating that advertising be taxed so that there would be less advertising and as a consequence less goods would be sold and more money would be funneled into government channels where big government could spend it "intelligently" rather than see it wasted by the individual on his own selfish desires. This is a prime example of the thinking of some of the "experts" who want every facet of our lives controlled by big government.

WE MAKE this prediction: If Congress allows such absurd and dictatorial laws to get on the lawbooks of this nation, there will be a lot of office changing in the next election. But it is something that the average citizen should watch for and guard against.

TOM ANDERSON is the editor of The Farm & Ranch, a magazine most farm families are acquainted with. He is an "extremist to the right" and we don't always agree with his "Straight Talk" but he does say many worthwhile things. For instance he recently came out with an article telling what he is "for." Some of these were: "I'm for J. Edgar Hoover, who can catch communists faster than the Supreme Court can turn them loose. . . . for a law requiring that the number of federal agricultural employees shall not exceed the total number of farmers. . . . for putting Christ back in Christmas. . . . for taxing co-ops like corporations. . . . for Sammy Davis Jr. as the first space man. . . . for nuclear war in preference to slavery. . . . for Senator Kennedy, the Roosevelts, Soapy Williams, Atdai Stevenson, Nelson Rockefeller, Averil Harriman and other super-rich-by-inheritance, built-in-guilt-complex do-gooders sharing their own wealth, not mine. . . . for Earl Warren for impeachment. . . . for inequality of man, since equal men are not free and free men are not equal. . . . for more expensive school teachers and less expensive school buildings. . . . for giving Red China a seat in the UN — our seat. . . . for Khrushchev's idea of moving the UN out of the US and for moving US out of the UN. . . . for practically everything the socialist Americans for Democratic Action are against. . . . for all the millions of American boys whose daddies will never be able to buy them the Presidency."

YE OLDE EDITOR is for a few of these things himself.

THE AMERICAN WAY

The Big Bully

With Our EXCHANGES

TE DEUM, YOU BIGOT

Nobody but bigots believe that the Catholic Church engages in politics. Nobody who has ever read a history book is bound to know that this church never engages in politics. Every protestant clergyman (even those chased out of Italy and Spain) knows that Catholics are under a strict papal command not to allow the church's published policies and interests influence them in their civic and patriotic duties as citizens of their particular nation. All this being true, nobody in his right mind is going to believe there's any truth in the Associated Press dispatch from San Juan, Puerto Rico, dated Oct. 21, stating that three Roman Catholic bishops on that day ordered a country-wide reading of a pastoral letter forbidding Catholics to vote for Gov. Luis Munoz Marin and his popular Democratic party. This ban (which of course can't possibly have any influence) was also published in the daily newspaper, El Mundo. The bishop's ban, or suggestion stemmed from Gov. Morin's policy of wanting no religious instruction in Puerto Rico's schools, of proposing a law to permit the teaching of birth control and allowing sterilization, and of urging public tolerance of common-law marriages. (In a lappier non-political time, the governor would have been non-

politically burned at the stake for the same non-political crime.) The story was published in the Oct. 22 issue of the New York Times, and is undoubtedly an editorial hoax cooked up by the publishers who have already announced in favor of Kennedy for president; or by Tricky Dick, a Quaker (and all Quakers are, naturally, liars and conspirators who do engage in politics.) In Washington, Catholic authorities told reporters "no comment," but did permit this for the record: "Like all other Bishops of the church they (the Puerto Rico Bishops) are autonomous in the dioceses, subject only to the authority of the Vatican (N. Y. Times, Oct. 22). Certainly this proves that the Pope and his bishops have no interest in politics, and that the Pope has no authority over members of his flock, and that his church never, repeat never, seeks to influence the political thinking of its individual adherents.

Obviously, some Communist slipped into the editorial rooms of the Vatican newspaper, Osservatore Romano, and planted these statements in a front page editorial in the issue of May 17, 1960: "The Roman Catholic hierarchy has the right and the duty to intervene in the political field to guide its flock." The editorial rejected what it termed "absurd split of conscience between the believer and the citizen." With forked tongue in cheek, the writer continued: "The Catholic may never disregard the teachings and directions of the church, but must inspire his private and public conduct in every sphere of

his activity by the laws, instructions, and teachings of the hierarchy." — Ernest Joiner in Rails Banner.

FARTY OF THE PEOPLE?

Editor Ben Ezzell wrote, in part in last week's Canadian Record:

Is it really "basically dishonest" for the voters of Texas to call themselves "Democrats"? (and vote Republican). Who has a better right? Because the majority of Texas voters have expressed themselves, consistently, as favoring the candidates who represent the basically conservative views which once characterized the Democratic party, are they no longer Democrats? This, remember, is the party of majority rule. . . . or it used to be, before the Labor Czars who distrust the rule of the majority took over its national headquarters.

And then . . . Why the fear of intellectual and social planning? It depends entirely on the planners. Most free Americans prefer to do their own planning. — Cecil Waggoner in Claude News.

ARMAGEDDON?

I never thought I'd live to see the day when a great metropolitan daily would make such a statement but there it was in their lead editorial. Tuesday of this week The Dallas News said in part:

"But there is no peace with dictatorship, no truce with world conquest, no treaty with the gravedigger of civilization, save surrender or death. Let us, then, have an end of talk of parley with godless evil and apology to boorish insult. Let us go down to Armageddon, if Armageddon it must be, freemen faithful to all the free, fearless against all the enslaved, trusting in God the final Arbiter of the affairs of men." — Cecil Waggoner in Claude News.

Dear Editor:
My conniving neighbor says we could fizzle the population explosion overnight by offering a government bonus of \$1,000 to each citizen agreeing to have himself taken out of reproduction.

Says this would also cut down the cost of living, on account of couples taking this offer wouldn't ever need anything but a compact car, one bathroom and one telephone.

Claims his idea would also improve the race, because no more babies would have to live with parents who would rather have a motorboat.

LONGHORNS OUTSCORE INDIANS 34-26 FRIDAY IN FINAL CONTEST

In a free-scoring affair in Morton Friday afternoon the Longhorns outlasted Morton's Indians 34-26 in the season final for both squads. Bill Mangold sparkled for the 'Horns by scoring four tallies on scampers of 25, 54, 44 and 46 yards.

The victory gave Lockney a 5-4-1 season mark and a 2-3 record in 2-AA. The Big Red wound up in a tie with Muleshoe and Abernathy in the district standing behind Olton and Floydada. Morton finished in the cellar, winning no 2-AA encounters.

The lead see-sawed in the first two quarters.

Morton broke in front early in the second period following a 67-yard drive. Key play was a 51-yard pass from quarterback Steve Middleton to halfback Johnny Vanderventer.

The local lads came roaring back. Three plays after the kickoff Mangold galloped 25 yards for his first six-pointer. Try for points failed and the contest was deadlocked 6-6.

Taking the kickoff on their 30 the Indians were goalward bound once again. Middleton carried the final three yards to paydirt to give the home eleven a 12-6 margin.

With only 50 seconds showing on the clock before intermission, Morton quarterback Johnny Belt and Billy Dan Rolling with a 50-yard aerial to knot the count.

Fullback Fred Gant plowed in for the points to hand the Big Red a 14-12 advantage at halftime.

Early in the third period the Lockney eleven added two quick tallies to jump into a 27-12 lead. Mangold carried for both touchdowns — breaking through the middle on a 54-yard scamper and circling end on a 44-yard scoring run. Belt kicked the PAT after Mangold's third tally.

The Indians got back into the game with a touchdown early in the final period. Vanderventer carried over from the one.

Less than a minute later, Mangold padded Lockney's margin by scooting 46 yards to paydirt. Belt kicked the point to round out the Longhorn scoring. This pushed the Big Red ahead 34-18.

Morton's final score came late in the game on a three-yard keeper play by Middleton. The star quarterback for the Indians passed to Mike Houston for the extra points.

In the early stages of the tilt the Lockney boys were a bit stiff and sluggish due to the long ride. After they loosened up the 'Horns played good ball. The pass defense was impressive as the Big Red put a lot of pressure on quarterback Middleton and intercepted five aerials.

Members of the defensive unit Cooper, Donnie Hanst, Russell Davis, Terry Mosley, Rayland Brotherton, Gant, Ronnie Belt, Joe Allard, Clarence Ansley, Kenny Clark, Rolling, Mangold, and others.

Nine boys ended their grid careers for Lockney High. The eight seniors were Captain Wayne Cooper, Co-Captain Fred Gant, Bill Mangold, Joe Allard, Billy Dan Rolling, Warren Mitchell, Mickey Mosley, Rodney Rigby. A junior boy, Clarence Ansley, will be ineligible to play next season.

Gant and Ansley were hampered by injuries but saw considerable action against the Indians.

MUSTANGS BATTLE DIMMITT FRIDAY NIGHT

Olton Moves Into Bi-District Clash; Season Ends For Other 2-AA Teams

Olton walked off with the big prize in 2-AA, the district championship, by blasting Floydada 22-13 in Floydada Friday afternoon. The two teams were undefeated for the season and each owned a 9-0 mark going into the encounter.

Relying chiefly on the running of big Robert Priest and Rande Buchenau, the Mustangs from Olton High tallied first, then came from behind to hold a 15-13 lead at halftime. They scored in the third period to ice away the victory.

Quarterback Rodney Teague was Mr. Offense for the 'Winds all afternoon.

A freak play in the third period cost the Floydada eleven a temporary lead and possibly the game. Halfback Richard Marier cut through the line and broke into the clear. The speedy back was several steps ahead of the nearest defender when he dropped the ball and Olton recovered.

Both elevens made several mistakes but the opposing team was rarely able to capitalize.

The battle was the lone game in the state last weekend between a pair of undefeated squads.

Olton will face the Dimmitt Bobcats at Dimmitt Friday night at 7:30 for bi-district honors and the right to advance in the Class AA state playoffs.

Season Ends In 2-AA

Friday marked the end of the schedule for the Floydada lads and four other district teams. Lockney closed out its season with a 34-26 victory over the Morton Indians and Muleshoe surprised Abernathy with a 22-20 victory over the Anteiope.

Dear Editor:
 I see where a Michigan town council has made it unlawful for any family in their city to harbor more than three cats at a time.

My cat-addict neighbor says making everybody's cat ration the same size seems unjust, on account of some families may need 10 or 12 cats, while one cat could be too many for others.

Says he guesses this type of household control is constitutional under the general welfare gimmick, and he expects the Republicans are sorry now they didn't invoke same to put on a legal limit of one Democrat per family.

NEWS from the High Plains Research Foundation

Field drying grain sorghum by the use of flame cultivation was a new experiment conducted at the High Plains Research Foundation in September and October. The objective was to reduce the moisture content to the 10% acceptable for safe storage or government loan, without dockage.

The results secured were encouraging enough to justify continuation of the tests. During the winter months the experiment will be continued on grain sorghum in the Rio Grande Valley and at the Foundation at Halfway in 1961 by Dale Price, agricultural engineer.

A high clearance tractor equipped with a flame cultivator was used in the tests. Two additional burners were added per row and the burners placed opposite each other. The flame was directed at the base of the plants in the row. Where the flame from the burners collided, the flame

CHRISTMAS SEALS, THE GOVERNOR AND MARY ANNE—Christmas Seals have a special meaning to Mary Anne Copeland, 5, of Austin this year since Christmas Seals provide funds to fight tuberculosis—and tuberculosis is the special enemy which took her father away from her last Christmas. She and her father, E. B. Copeland, (left), visited Governor Dan Claitor on the occasion of his proclaiming the period November 14 to December 24 as "Christmas Seal Days in Texas". Mr. Copeland was a truck driver for the city of Austin before he became ill with tuberculosis. Released from a TB hospital in January, he is presently restrained by medical advice from working for more than two hours each day. He is very grateful, however, that he will be able to spend this Christmas with Mary Anne, her mother and two brothers. Governor Dan Claitor recently appointed a statewide committee on tuberculosis to coordinate activities of all organizations concerned with the disease. Said Governor Claitor in his proclamation, "Texas has a vulnerable spot as far as tuberculosis is concerned. This State has not attained relative freedom from the disease as have a few of our sister states. . . . Through Texas' purchase of Christmas Seals each year, funds have been provided to aid in research and to improve patient care. . . . Therefore, I, as Governor of Texas, do hereby designate November 14 to December 24 as Christmas Seal Days. . . and urge all citizens to make a sound investment in their own and their fellow citizens' health by buying and using Christmas Seals during the holiday season."

MASS GRAVE AT LEANDER

The terrible story of the Webster Massacre is now written in stone above its victims, in a cemetery at Leander, in Williamson County, north of Austin.

In 1839 the Comanche Indians attacked John Webster and his party of about thirty settlers. They were trapped by the Indians in the open prairie after attempting to escape under darkness.

Mrs. Webster and her two children were imprisoned, but all others were killed.

Victims were buried in one box, about the size of a wagon body. Their remains still are there.

During the dry seasons, salt water pushes up the Hudson River for 90 miles.

moved upward, drying the leaves and reducing the moisture in the head.

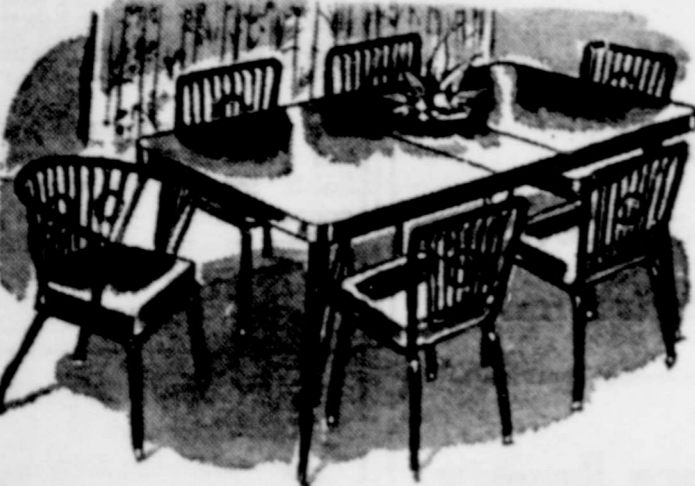

Dr. Tom Longnecker, in commenting on the procedure, stated "Although it is too early to predict whether this artificial drying of grain sorghum in the field has a place, the results so far are very encouraging. In good dry weather grain sorghum will dry at the approximate rate of 0.5% per day after maturity, under the same conditions the application of heat increased the drying rate to around 1% per day. We are definitely not recommending the use of artificial field drying as yet, but we believe that the techniques can be developed so it will be possible to speed up field drying and make it possible to harvest grain ten to fourteen days earlier."

Land Levelling Irrigated Land Is Important, Soil Men Say

As water conservation becomes more important, more farmers are leveling their land for irrigation efficiency. To have irrigation efficiency, water must be applied uniformly in the correct amount to apply all the moisture the crop requires. This water must be applied when the particular crop being grown requires it with no erosion or runoff, officials of the Floyd County Soil Conservation District point out.

With these goals in mind, level or near level irrigation is the first requirement. To level land for irrigation, any outside water coming onto the area to be leveled must be controlled. This may mean a diversion terrace and

waterway in some instances. Most of the soil in Floyd County will average absorbing about 1/4 to 1/2 inch of water per hour. When high intensity rains such as fell in some parts of Floyd County during July and again the last of October is received a large part of this rainfall is lost by runoff. By leveling, maximum use is made of rainfall by slowing runoff water and distributing it evenly over the field. This helps to conserve irrigation water by allowing more rainfall to be taken up by the soil.

The kind of leveling to be done on a piece of land will depend on the slope of the field. On flatter land as much as a whole field

MACHINERY HERE is at work installing a conservation irrigation system on land that was uneven and had too steep of slope to efficiently use irrigation water on the K. E. Probasco place, four miles north of Barwise. Cuts are being made on the upper side with the elevating type buggys and fills made on lower side so a uniform grade of .2 foot falls per 100 feet will be the finished grade. — USDA-SCS photo by J. J. McEntire

may be leveled in one block while on the more sloping land what is commonly known as bench leveling may be required. This system of fitting the leveling to the slope of the land so that a complete conservation irrigation system may be installed enables the farmer to make maximum use of rainfall and to irrigate uniformly without erosion or waste of irrigation water.

The Floyd County Soil Conservation District urges all farmers to help conserve soil and water resources. Over 1000 acres of land leveling have been completed in the district during the last year. Those who need technical assistance in planning their conservation irrigation system should contact the Soil Conservation Service office in Floydada.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Luke	15	11-32
Monday	Exodus	20	1-6
Tuesday	Ephesians	6	4
Wednesday	Luke	1	5-17
Thursday	Mark	11	20-26
Friday	Proverbs	6	20-24
Saturday	II Samuel	18	1-33

Who said there is no such thing as juvenile delinquency?

Look at the record! Millions of boys and girls under twenty-one in trouble with the police; traffic among teen-agers—organized crime by minors.

But this is not always juvenile delinquency. This is often the tragedy of ADULT DELINQUENCY. It is frequently the result of neglect, indifference, and lack of Christian training in our homes. It is the failure of parents that has led to the wreckage of many of these young lives.

Bring your child to Sunday School and Church. Give him the spiritual care that he wants and needs. Remember, Mother and Dad, we cannot always say, "juvenile delinquency." Be sure it is not your failure which may cause your child to ruin his life.
