Longhorn Football Workouts To Begin

School is still about a month away, but football is just around the corner. Shoes will be issued Wednesday, Aug. 3, and two-a-days will begin Monday, Aug. 8, according to Lockney High School athletic director and head football coach Jim Warren.

Each boy planning to play football must have a physical. Forms can be obtained from the coaches or from the

superintendent's office.

Coach Warren, Buddy Comer, Tommy Gregory, Steve Culwell and Mike Bellar, the new basketball coach, will be in Dallas next week to attend the Texas High School Coaches Association school.

Registration begins Sunday, and the all-star football and basketball games will conclude the activities.

Fair Pageant Entries Now Accepted

Entrants are now being accepted for the Queen Pageant at the Floyd and Surrounding Counties Fair. The pageant will be held on Thursday, September 15, at 7:30 p.m. at the fairgrounds in Lockney.

Girls must be high school age and sponsored by a department store. All entrants will model sportswear (to be furnished by their sponsor), will model a formal gown, and will answer a question on stage. A Coke party and rehearsal will be held Saturday, September 10, at 2:30 p.m.

Bus Driver Safety Course August 8

Every full or part time school bus driver must take the state required safe driving course that will be held one week beginning August 8 in Duncan Elementary school in Floydada.

The course will begin at 6 p.m. each night and will conclude with the Saturday session from 8 a.m. to 1 p.m.

There is no charge for the course which will be taught by Tommy Cathey. Cathey reports the class is limited to 30 persons and anyone wanting to enroll should call him at 983-3498.

Pinch Hittin'

TEXAS SCHOOL TEACHERS did not get near the salary increase for which they had asked the State Legislature. Think the beginning teachers will get a little over \$400 raise the next two years.

Teachers with several year's experience got a larger raise. Of course all teachers get a week's less work, as the school term will now be 175 days instead of 180 days.

VETERAN SCHOOL TEACHERS will receive around \$1400 per year raise for the next two years.

Danny Andrews sports column in the Plainview Daily Herald recently carried this comment: "I'm glad to see Lockney is putting up new aluminum seats and a press box at Mitchell-Zimmerman Field. The stadium always has had a great turf on the field and the new and much-needed improvements should give the Longhorns one of the finest stadiums around."

Kevin Turner holds the distinction of being the first person to water ski on Mackenzie Lake. Kevin and his dad Billy Joe Turner, a new director of the Mackenzie Municipal Water Authority, were there on June 10, the first day the lake was opened to boats.

Frank Hawkins accidentally snagged a 20 lb. yellow cat on his trot line at Horner Lake near Flomot. The Billy Turners assisted with reviving the big fish that seemed tame, even when released back into the lake where he is probably still residing. We've heard tales about big fish that got away, but this story of kindness is rather unusual. Of course there was a reason: yellow cat eat mud cat, which fishermen don't want around.

Wish every merchant would really go out to have sidewalk sales, etc. for the Old-Fashioned Saturday Night celebration here Aug. 13.

Jim Huggins is vacationing in the cool mountains this week, and will still be on vacation until Aug. 1. The substituting editor, Gayle Jackson, welcomes news tips from Lockney locals to broken legs to fender-benders to whatever you think might be newsworthy. Summertime traditionally brings a shortage of the usual news so we need the help of the townspeople to fill The Beacon with local news.

THOMAS MARR, left, receives the rural carrier driver of the month award from Harry O. Eastus, area safety manager with the U.S. Postal Service. Also in the picture is Douglas Meriwether, Lockney postmaster.

Lockney Postal Carrier Receives Section Award

Thomas Marr was recognized Wednesday morning as rural carrier of the month in the Lubbock section office. Harry O. Eastus, area safety manager with the U.S. Postal Service in Lubbock, was here to make the presentation.

Winning the monthly award makes Marr eligible for section rural carrier of the year, an honor that he won in 1974.

Marr has already been recognized as a safe driver by the Postal Service. He

was given a One Million Mile Award Medallion in 1974 at a banquet in Oklahoma City. The medallion is pure silver. Also, he has a 36-year National Safety Council Safe Driver award.

The rural carrier of the month is selected by a safety board in the section office. Consideration is given to safe driving practices, attention to duty, courtesy in driving practices, maintenance of vehicle, off and on-the-job driving record, customer relations, and accident exposure.

Lockney Telephone Books Arriving

The telephone number for Southwestern Bell's business office and repair service bureau changes in Lockney effective with the issuance of the new telephone directory here this week according to the company's Manager Jim West.

The business office number changes to 1-951-7481. The number to call for telephone service problems is 1-954-3131. Both numbers may be dialed without charge, according to West.

West said delivery of the 1977 directory will take about two weeks. "Initially, almost 1,700 books will be delivered out of the 3,900 total printing," West said.

The new book has 9 alphabetical pages and 32 Yellow Pages. "The cover of the new directory was painted by Texas Hill Country artist Warren Martin of Ingram," West said. "The painting, titled 'Royal Family,' depicts the majestic beauty surrounding the birth of a golden eagle."

Martin, who was born in San

Antonio in 1932, grew up on the N. J. Hans ranch at the head of the Guadalupe and Sabinal rivers.

West said the artist has had numerous shows in Texas, Arizona and New Mexico since his first show in a roadside diner near San Antonio in 1962. Martin has held one-man shows at Central Park Gallery in San Antonio, David Studios of Arizona, Fort Huachaka Historical Society in Arizona, Kendal Memorial Gallery in San Angelo and Guadalupe Galleries in Kerrville.

With his brother, Robert, who is a Texas sculptor of modern mobiles, Martin owns the Texas Gallery in Ingram, which is near the Hill Country Arts Foundation.

Most residential subscribers will receive one directory," West said. "Business customers will receive their directories according to usage."

Customers needing more directories may call the telephone business office after July 28 when initial delivery is completed.

\$2,212,000 In U.S.

Grants Locally

NEW YORK, July 9—Are residents of Floyd County paying a high or a low price for the benefits their area receives from the Government in the form of grants-in-aid and revenue sharing?

To what extent did the local area share in the \$54.7 billion that was distributed by Washington in the past fiscal year, compared with the amounts that went to other areas?

According to a state-by-state analysis of Treasury Department figures, made by the Tax Foundation, a non-profit organization that monitors Government spending, Floyd County's share was relatively small.

An estimated \$2,212,000 in aid was allocated to cover a variety of programs in the local area.

The total amount of grants in the State of Texas as a whole came to \$2,602,000,000 in the year.

The funds were awarded for such programs as urban renewal, child

welfare, job training, hospitals, health, road construction, schools and the like.

The figures take into account only grants-in-aid and revenue sharing and do not include Federal spending in local areas for goods and services.

As to the cost of the benefits, they are met by each community, in whole or in part, by the portion of their Federal taxes that are allocated to the aid programs.

Floyd County's share of the costs, exclusive of matching funds, came to approximately \$2,677,000 in the past year. Statewide, the bill was \$3,148,000,000.

In some parts of the country, the costs involved were greater than the value of the aid received. In others the reverse was true.

All in all, the study shows, 21 states paid a premium for the aid they got, one broke even and 28 came out ahead. Connecticut was the biggest loser. It paid \$1.45 for every \$1 of aid. The chief

Peggy's Meddlin's
BY PEGGY MEDLEY

WE need someone in the Lakeview area to write the community news. Penny has helped us out in this chore for several months but finds its too time consuming with her other job as well as being a mother and housewife. Anyone in that community interested in the job may call the Hesperian for additional information. Our readers are always interested in happenings in the rural areas and we dislike not having a reporter in every community.

IN meddling I have found an adventure in nostalgia, family and history, and a gift which can be treasured for years. Its a spiral-bound book that contains 300 questions a child could ask his grandparents. The grandparents fill in the answers in the appropriate blank spaces to questions such as how you met your spouse, were you ever in a war, the big events in your life, and other family history that will be meaningful to the grandchildren and their descendants in later years. Psychologists have pointed out that children and grandparents often understand each other better than they do the parents in between. This, they say, is good since young people need to know about the past and how it effected their own families; and older people need to know that their lives mean something to future generations.

THE combination of children on fresh air and buds in bloom often produces proudly presented bouquets. Whether they're violets or dandelions or the neighbors prize roses, an appropriate vase to set them off is needed. I saw a container recently which was beautifully decorated with yarn, rick rack, buttons

and beads put on with glue. A child can decorate his own, the smaller vase from a baby food jar or a larger one from any type jar. Let him use his own imagination when it comes to decorating.

THE age of blimps may be dawning again. Both military and business men are looking into its use to cut costs in transportation of expensive fruits and vegetables, small cars, mail and even passengers not in a hurry.

BETTY crocker has come out with a delicious summertime rhubarb dessert. She gives some timely rules in case you are not familiar in making her Sweet 'N' Tart Shortcakes or Rhubarb Sauce. One pound of rhubarb makes two cups and whether you grow your own or pick from the crop at the supermarket, you can add strawberries to make it summertime simple. For a mild flavor the early pink takes less sugar and if the stalks are tender there is no need to peel, just sauce it in the skin. You can also have a pretty combination with pineapple, blueberries or pears, fresh, canned or frozen.

Here is her shortcake recipe followed with the rhubarb sauce:

2 1/3 cups Bisquick baking mix
3 tablespoons sugar
3 tablespoons butter or margarine, melted
1/2 cup milk
Sugar
Slivered almonds
2 cups strawberry halves
1 1/2 cups sweetened cooked rhubarb
1/4 cup sugar
Whipped cream

Heat oven to 425°. Mix baking mix, 3 tablespoons sugar, the butter and milk until soft dough forms. Gently smooth into ball on lightly floured cloth-covered board. Knead 8 to 10 times. Roll dough 1/2 inch thick. Cut with floured 3-inch cutter. Place on ungreased cookie sheet. Brush tops with cream; sprinkle with sugar and almonds. Bake until golden brown, 10 to 12 minutes; cool. Mix strawberries, rhubarb and 1/4 cup sugar. Split shortcakes; fill with fruit mixture. Top

Campsites To Be Reserved

CANYON-Reservations will be accepted on weekends for campsites at 17 state parks running through September 4, 1977. Texas Parks and Wildlife Commissioners on June 24 approved a plan for the reservation of 1,624 campsites at Palo Duro State park and 16 other state

parks scattered across Texas. A total of 91 campsites will be available at Palo Duro according to Elon Baker, park superintendent, and for a \$2 non-refundable reservation fee, park visitors will have a guaranteed place to camp. The reservation fee is in

addition to the usual entrance and facility use fees. "The reservation system is experimental and generally includes those parks with heavy demands for campsites on summer weekends," Baker continued. "Such a reservation system has become necessary because of increased visitation in state parks during the summer. Many visitors to parks drive long distances only to find no camp-

sites available to them when they arrive. A reservation system could prevent them from being turned away and also keep visitation within capacities of the park." A potential park visitor can either go to the park and make reservations or it can be done by mail or phone. Telephone requests for campsite reservations must be made at least seven days in advance of

the first day of occupancy. If the fee has not been received within five days, the campsite will be removed from the "reserve" list. Reservations for camping after September 4, 1977 or any succeeding calendar year will not be accepted. Campsite reservations may be made at the designated parks daily during the hours between 8:00 a.m. and 5 p.m. All the campsites at the 17 State parks

participating in the 1977 reservation system are available for reservation. However, those campsites which have not been reserved, and those reserved campsites which are not claimed by 6:00 p.m. will be available on a first-come, first-served basis to campers arriving at these parks without advance reservations. If a one day's user fee has been paid in advance,

the site will be held until 2:00 p.m. the following day. Those areas open to reservations at Palo Duro State park include Hackberry, Mesquite, Juniper, and Sunflower. Campsites at all other State parks not participating in the reservation system are available on a first-come, first-served basis. Additional information on state parks and other

camping facilities in the Texas State Park System is available by calling Palo Duro State Park 806/488-3622 or by writing the park Route 2, P. O. Box 114, Canyon, TX. 79015.

Floydada Nursing Home Happenings

By Faye Walters

This has been a busy week at the nursing home. Agnes Anderson returned from a Lubbock hospital and everyone is so happy she is back, especially her room mate, Pearl Carrick. We have a new resident, Mary Smith. We hope she will feel at home here and be happy.

Monday we had our music therapy class and several attended.

Wednesday we went for a nice field trip. Everyone enjoyed seeing how the crops had grown. We had wonderful devotions all week. May God richly bless everyone who came.

Thursday the women from City Park Church of Christ came and had the birthday party of the month. They always give nice parties. They served punch and cake to all the residents, employees and visitors. Their thoughtfulness is always appreciated. Two residents observed birthdays in July, Annie Smith and Lola Grider. There is only one day difference in their ages.

We want to thank the Sunshine Sunday school class for the cup cakes and ice cream they brought all the residents and the candy that Fred Warren also brought for them.

Agnes Anderson had two daughters and families from out of town visit her last week. Other visitors at the home included:

Mr. and Mrs. Bill Smallwood, Thanie Smallwood; of Matador; Eula Bramlet, Lockney; Doris Snodgrass, Floydada; Mrs. Carroll D. Butler, Ardmore, Okla.; Lewis and Ona Pesch, Otis and Dorothy Anderson, Mr. and Mrs. J. M. Williams, Mr. and Mrs. Clarence A. Guffee, Floydada; Mr. and Mrs. Wayne Crisp, Christopher and Bryan, Mrs. Goodon Wright, Levelland; Mrs. Jackie Jackson, Amarillo; Stephanie Butler, Ardmore, Okla.; Gwen, Suz and Shell Holladay, Amarillo; Ruby Pharis, Fort Worth; Artie Webb, Mrs. Hubert Davis, Sue Moore, Mrs. Paul E. Wilson, Mr. and Mrs. Gene Lawson, Mrs. Gracie Riggle all of Floydada; Mr. and Mrs. Lewis Bostie, Lindsay and Erin, Matador; Josephine Smith, Lockney.

Farmers, Ranchers Petition Governor For Tax Relief Consideration

WACO, TX—In the midst of the special legislative session dealing with school finance, Texas Farmers Union President Jay Naman is calling on Governor Briscoe to open the agenda to a bill which would partially relieve tax-burdened farmers and ranchers through a change in land tax assessment.

The tax relief bill would assess rural, open-space land according to its average agricultural production rather than by its speculative market value. The difference between the two would mean quite a bit to farmers and ranchers since land values are skyrocketing under inflationary pressures while returns on agricultural production are at their lowest relative point since the Depression.

"It would be a tragedy," said Naman, "if the members of this special session were to spend a billion dollars for public education and not also consider the direct effects on taxpayers. This is especially true when you consider that the local burden continues to fall onto the shoulders of real property owners. It's discriminatory, particularly to farmers and ranchers who must own land in order to make their living."

Naman continued by pointing to the fact that more and more of the wealth of the state is being kept by individuals in the form of intangibles which are untaxed. "The man struggling to make a living in agriculture has for too long been called upon to foot a disproportionate bill for his local schools. He wants to pay his share, but the unfair system long ago passed an equitable level. It's time something is done to try to alleviate that unfair burden, and this bill is a good place to start."

During the regular session of the legislature, the productivity value tax was sponsored by Sen Tom Creighton in the Senate and Rep. Bill Sullivant in the House. The measure finally fell when time expired after the House and Senate voted it back and forth trying to determine whether or not corporate agricultural entities should also be granted the tax break.

Naman stated that the farmers and ranchers are, at this point, not so much concerned about whether or not corporations are included as they are about their own survival. "Taxes are eating us up," repeated the state farm official. "The lawmakers know it; the Governor is certainly aware of it; and it will be a tragedy if farmers and ranchers are forsaken again, even after the second chance has presented itself."

The 9,000 member farm organization has officially written to the Governor urging consideration of the ag-value tax, but has received no reply at this time.

STATE 4-H CENTER ADDS STAFF—Two new staff members are on board at the Texas 4-H Center at Lake Brownwood. They are Miss Collene Nan Herring, a dietitian and food specialist, and Joe Arl Bailey, new superintendent of the facility. Both of these individuals will play a key role in the effective functioning of the 4-H Center, says the state 4-H and youth leader with the Texas Agricultural Extension Service.

The Railway Labor Act, passed in 1926, required employers to bargain collectively and not discriminate against their employees for joining a union. The act also provided for the settlement of railway labor disputes through mediation, voluntary arbitration and factfinding boards, according to a U.S. Labor Department publication, "Important Events in American Labor History."

Certification To Be Offered At Plainview

AUSTIN—Testing for pesticide applicator certification will be provided by the Texas Department of Agriculture (TDA) in Plainview, beginning at 1:00 p.m., July 22. Agriculture Commissioner Reagan V. Brown has announced.

The testing will be conducted following training sessions being offered by the Texas Agricultural Extension Service 8:30 a.m., July 21-22 at the Hale Co. Agricultural Bldg. in Plainview.

Training by Extension Service personnel as well as testing, coordinated by TDA entomologist Danny Arnold, will be provided for four

categories: 1) general, 2) fruit, nut, and vegetable, 3) weed and brush control, and 4) field crop pest control.

Applicants wishing to take the tests may sign up during the training session and pay their fees at that time. While there is no charge for the general test, a \$10 fee will be assessed for each other category.

"Christ said we'd have the poor with us always—but he didn't say the deprived."

HIDDEN COSTS OF ACCIDENTS—Accidents not only kill some 2,000 farm workers each year in this country but also cause a combination of economic losses which can be termed "hidden costs," says an agricultural safety engineer with the Texas Agricultural Extension Service. There is a loss in earning power, increased medical and insurance costs, and possible public liability and litigation costs. Production also suffers.

Baptist Men's Rally Slated

Pastors and laymen as well as other church staff members from five Southern Baptist Associations will attend a Baptist Men's Rally on Saturday, July 23, at the Plains Baptist Assembly located between Floydada and Ralls.

Keynoting the affair will be Dr. William E. Thorn, president of Dallas Baptist College since 1975. A former Lubbock pastor, Thorn has been credited with salvaging Dallas Baptist College at a time when it continued to face serious financial problems.

Thorn, 54, a native of McAlester, Okla., holds a bachelor of arts degree from Hardin-Simmons University, a master of divinity degree from Southwestern Baptist Theological Seminary, and a doctor of divinity from Hardin-Simmons. He also received a doctor of sacred theology

degree from Southwestern Baptist Church.

He has written three popular religious books, "A Bit of Honey," "Wake Up, Make Up and Go," and "Famous for the Gospel."

He has served as a director of the Baptist Standard of Texas and on the Board of Development at Hardin-Simmons, the Southern Baptist Foreign Mission Board and the Executive Board of the Texas Baptist Convention.

He served as a pastor of Metropolitan Baptist Church in Wichita, Kansas from 1964 to 1975.

The Baptist Men's Rally will start with a fish fry at 5:30 p.m. and the program at 7 o'clock. Thorn will serve as inspirational speaker.

LUBBOCK—The 68th annual edition of the Texas Agricultural Experiment Station Field Day for Lubbock and Halfway, which highlights a variety of crop research programs on the Texas High Plains, has been set for Tuesday, Sept. 13.

The Texas Agricultural Experiment Station at Lubbock, is host this year, according to Dr. Bill Ott, resident director of the Lubbock-Halfway Experiment Stations, and Dr. Bill Lyle, field day chairman. The Lubbock Station is part of the Texas A&M University Agricultural Research and Extension Center complex located three miles north of the Lubbock Regional Airport, just off Highway 87.

Scheduled for this year's event is a five-stop field tour of the Lubbock Station research plots and facilities. Machinery displays presented by area implement dealers, grape vineyard tours and a garden information booth will be added attractions.

Stops along the field tour

research plots for weed control, cotton varieties, cotton disease control, soil fertility, nematode control and water-use efficiency of the row diking system.

Professional staffs of the Texas Agricultural Experiment Station, Texas Agricultural Extension Service, Agricultural Research Service-USA, and the National Weather Service Agricultural Meteorology Office will be on hand for the special occasion, says TAES officials.

Young people today are less likely to take on work which they consider "meaningless, unsatisfying and authoritarian in nature," says Debby Johnson, family life education specialist with the Texas Agricultural Extension Service. NEWS OF SPORTS

Until now it was par for the course for professional women golfers to win less money than men. But this year women will be able to get more green stuff.

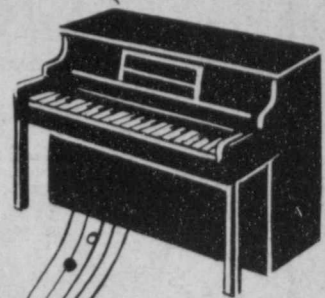

A \$100,000 Ladies Professional Golf Association Tournament this fall will go a fair way toward putting women on a par with men when it comes to golfing purses.

The tournament will be a four-day, 72-hole event at the Round Hill Country Club in Alamo, California. An 18-hole celebrity pro-amateur tourney will also be held. The sponsor is Sarah Coventry, the World's largest distributor of fine fashion jewelry.

Two charities will benefit, the Cousteau Society, through which Jacques Cousteau expresses the world's

need for clean water and healthy undersea life, and the Children's Home Society, which has placed 38,000 children in foster homes.

TETANUS IMMUNIZATION FOR ADULTS TOO

Tetanus immunization is not kid stuff. Adults need its protection, too.

More than half of the reported cases of tetanus occur in persons 50 or older.

Tetanus also known as lockjaw, can often be fatal. It is caused by spores of

bacteria which can enter the body through a wound. The spores are almost everywhere, but particularly in manured soil.

Because the tetanus germ cannot grow in the presence of air, deep puncture wounds or cuts are a favorable growing environment for the germ.

Once in the wound, tetanus germs secrete a toxin. This toxin is so powerful that one-fourth teaspoonful is enough to kill 100,000 people.

For children, protection against tetanus usually start with the basic immunization series-in which the tetanus toxoid is given in combination with diphtheria toxoid and pertussis vaccine-at two, four, six, and

eighteen months with a booster when they start school.

To continue the protection, physicians generally recommend a booster every 10 years. Adults should consult their physician or local health department about their immunization status.

Everyone should be protected against tetanus, but is particularly important for pregnant women and agricultural workers and adults in occupations in which tetanus-favoring injuries are frequent.

WHAT'S WRONG WITH JUST BEING AVERAGE?

"We thought this was good," stated a note from the county agent's office. It was written by Kermit W. Graf, Extension 4-H and youth agent for La Crosse County, Wisconsin.
It describes a nine-year-old girl who has found a key to a successful and happy life, something many persons never find. We like the message and hope you do also. Here goes:

"Often the 4-H program gets caught up in competition and we spend a great deal of time praising those few members who go all the way and bring home the top awards. But the 4-H program belongs to all members and being realistic, not everyone can be number one and more important, not everyone wants to be.

"Kris Ehlen, 9-year-old member of the Sugar Creek 4-H in Wisconsin asked the question, "What's Wrong With Being Average?" and

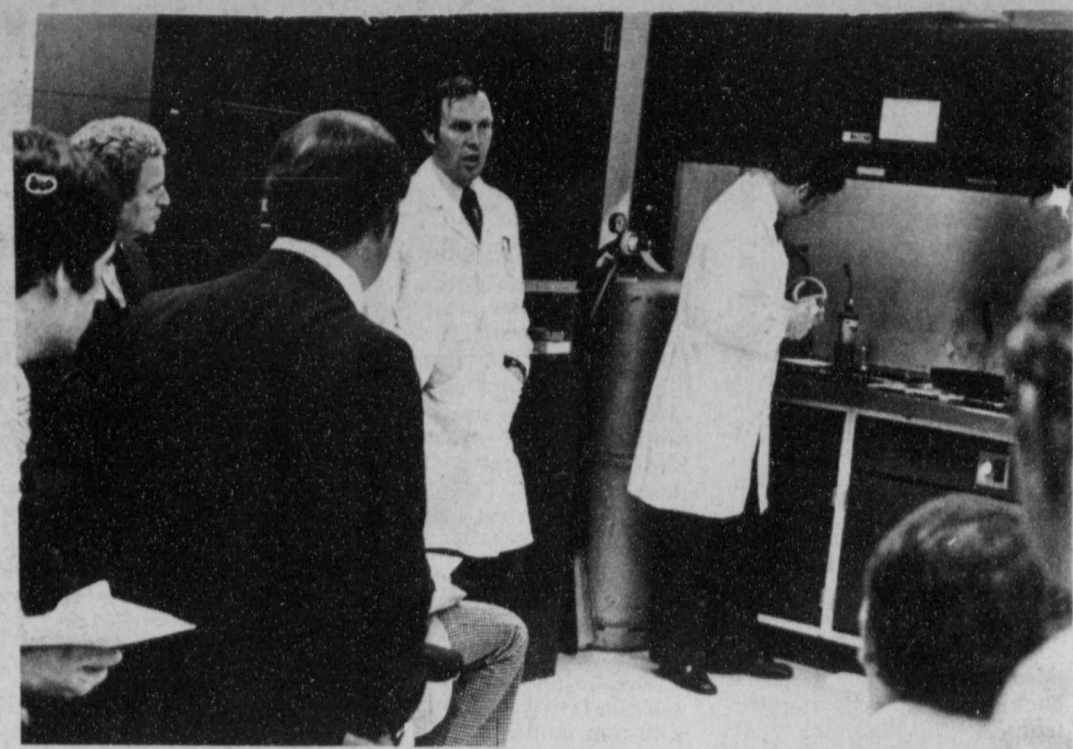

won the speech contest's elementary division in the process. This is Kris' speech:

"I'm an average girl. I get average grades. I'm of average height and I wear an average size shoe. It seems to be that today everyone wants to be a super brain, have super good looks, and be super popular. Whatever happened to being average?"

"Just pick up a magazine and thumb through it. You know what you'll find? Beautiful girls, in beautiful clothes, advertising something to make you beautiful.

"In one magazine alone I found 49 advertisements that claimed they could make you more beautiful, two even claimed to make you look younger. Who wants to look younger? It seems to me everyone has this big hangup over being number one. Darn if I'm going to get ulcers trying to get straight A's. I like being average and I like my average friends. If I'm happy with my B's and C's, why should I get all frustrated trying to get A's? Maybe we all should try harder at being super human beings. Kindness and consideration of others doesn't take super intelligence.

"Everyday we run into people who are having problems. Some of these people need our help. A super human being knows when to give a helping hand to a troubled friend. He knows what to say at the right time. Sometimes saying nothing at all, but just being near is all a troubled friend needs. Don't get me wrong, I'm not knocking the people who have super brains, and are super beautiful. But let's hear it from the average person, who happens to be a super human being."

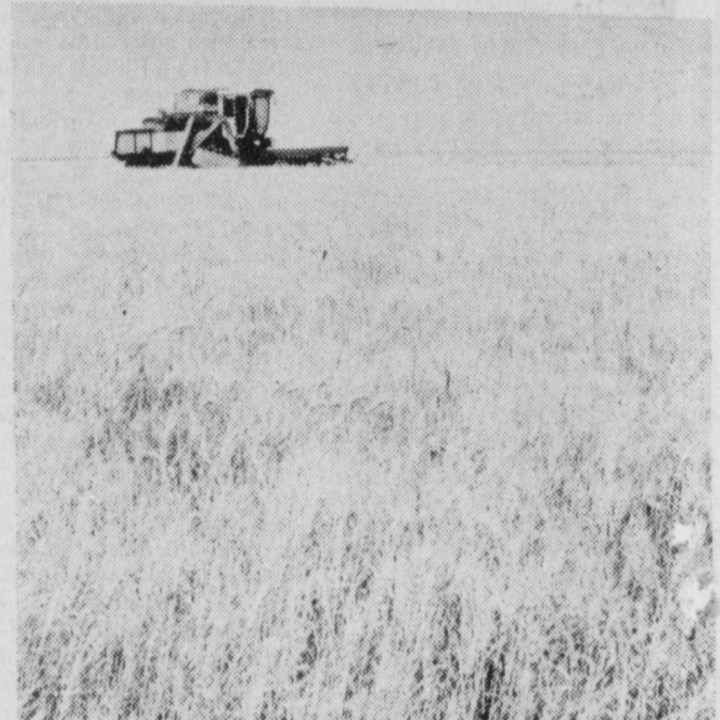

GUESTS AT Cotton Incorporated's protective clothing seminar watch as McDaniel Beard (right), fire retardance research chemist, performs a test demonstrating the comparative performance of flame retardant treated cotton and DuPont's Nomex R III aramid fiber. Describing the test to some of the 45 protective clothing users and suppliers who attended the seminar is William Baitinger (white coat, center), manager, fire retardance research. The seminar at Cotton Incorporated's Research Center in Raleigh, North Carolina, launched a major marketing effort for 100 per cent cotton safety apparel... Firemen, steel workers, forest service rangers, airline personnel... Together with thousands of other people who face the potential risk of fire in their jobs, they are getting the work, in growing numbers, that "the best safety apparel on the market today is made of flame retardant, 100 per cent cotton fabrics."

Total acreage this year is 4,400,000.

Harvest began in mid-May in South Texas and is now underway in the Southern Low Plains.

"Good rains during April and May provided needed moisture and allowed remaining dryland stands to reach full maturity," Brown said. "Scattered hail hit the High and Low Plains, but overall crop prospects are excellent.

"If prices for farmers were excellent too, this large crop would surely send Texas over the top in cash receipts," he commented, "but the average price in Texas last month was down to \$2.10 a bushel."

WHEAT HARVEST--Against a backdrop of a clear, summer sky, this combine makes its way through one of Texas wheat fields. The Texas Department of Agriculture estimates this year's crop at some 110 million bushels -- 6.6 million more than harvested last year.

Commissioner Reagan V. Brown. "Supplies are abundant," Brown explained, "due to transportation problems which have hampered Texas producers from marketing their melons out of state. Brown also said Texas onions were more plentiful than earlier anticipated. Preliminary estimates indicated that this year's harvest would be very limited, but the crop has come in increasingly strong," he noted.

Coloradoan Dies Inhaling Fumes From Aerosol

TULIA -- A 16-year-old Hayden, Colo., girl was dead on arrival at 4:30 p.m. Monday at Swisher Memorial Hospital after apparently inhaling fumes from an aerosol mixture, Briscoe County Justice of the Peace Barbara Pigg said.

The girl, Debra Elaine Gilmore, was visiting relatives in Silverton with her mother and stepfather and was taken to the hospital at Tulia by Silverton Ambulance Service, said Mrs. Pigg. Services are pending in Craig, Colo. Survivors include her parents, Mr. and Mrs. James Gilmore; a sister, Becky Ann of the home; and a brother, Shane of the home.

'77 Wheat Crop Is Predicted To Exceed Last Year's Total

AUSTIN--Increased yields per acre boosted this year's Texas wheat crop over totals for last year, even though some 300,000 fewer acres were in production, according to Agriculture Commissioner Reagan V. Brown.

Total production this year is expected to yield 110 million bushels, according to Texas Crop and Livestock Reporting Service statistics, Brown said. This is 6.6 million more bushels than harvested in 1976 due to the yield increase of three bushels per acre.

Charley Pride Returning To Panhandle South Plains Fair

LUBBOCK Country singer Charley Pride, top box office draw in the history of the Panhandle South Plains Fair, is being returned to the 60th annual exposition, Steve L. Lewis, general manager, has announced.

The signing of Pride, along with the popular trio Dave and Sugar, completes the lineup for the Sept. 24-Oct. 1 fair. Pride will appear here for two shows, at 3:30 p.m. and 7:30 p.m. on the second day of the exposition, a Sunday.

Earlier, Lewis announced these attractions for Fair Park Coliseum:

Sept. 26-Danny Davis and Nashville Brass, 3:30 p.m. and 7:30 p.m.

Sept. 27-Mel Tillis and the Stateliders, 7:30 p.m. shows only.

Sept. 29-30-Barbara Mandrell and Ronnie Prophet, 7:30 p.m. shows only.

The popular fiddlers contest will be on stage in the coliseum on opening day and a free entertainment package will be arranged for the closing Saturday, Lewis noted.

Tickets for all shows will be available next month.

Pride holds the coliseum house record for a single performance, drawing 5,510 here in 1969.

Pride has 22 albums in his catalog, including a dozen gold albums. In addition, he has had a steady stream of chart-topping singles, including the million selling "Kiss an Angel Good Morning."

His other credits include a string of top awards, such as artist of the year, best male country vocalist of the year, entertainer of the year, top country artist, top male vocalist on singles and albums, and several Gram-

mies.

As a stage performer, he is one of the hottest tickets in country music, drawing sellout houses on completely booked-up tours and in the top country music rooms in the nation, like the Longhorn in Dallas (his home town), Panther Hall in Ft. Worth, Randy's Rodeo in San Antonio and the Playroom and the Domino in Atlanta.

Television network exposure has ranged from the Lawrence Welk show and the Kraft Music Hall to Hee Haw and the Johnny Cash Show.

Today, what moments of leisure he is able to squeeze into his schedule is spent in his Dallas home with his wife and their children, Dion and Angela.

The Floyd Philosopher Cuts Letter Short While He Takes Time To Think About Human Nature

Editor's note: The Floyd Philosopher on his Johnson grass farm takes a brief look at some aspects of human nature this week.

Dear editor:

Right after Watergate when most of the culprits had been tried and convicted, newspaper pundits began writing about the post-Watergate morality, how the lessons of that big scandal would slow down law-breaking in high places, would frighten the short-cutters into towing the mark, for a while at least.

Most big-city columnists seem to know more about typewriters than human nature. Skulduggery kept right on going.

Witness the news about the rip-off of millions of dollars from the Small Business Administration by people who elected janitors as presidents of their company in order to qualify their firms as minority-run

outfits.

Or how about all those Congressmen who're now checking their records and admitting that, by-the-way, they did get some of that South Korean money?

It looks like Watergate had as much effect on morality as hanging pickpockets in England a hundred years ago had on other pickpockets still on the loose.

The pickpockets discovered that the best time to lift people's purses was while they were staring goggle-eyed at the public hanging of a convicted pickpocket. They learned that when the trap door was sprung, the spectators were so transfixed by the gruesome sight that even an amateur could pick a pocket without being noticed.

This is a short letter this week. I'm going to go off by myself and think about human nature.

Yours faithfully,
J. A.

More than 240,000 migrants and seasonal farmworkers received services such as day care, classroom and on-the-job training, job placement, health care and emergency food under special programs for this group during fiscal 1976, the U.S. Labor Department reported. The department awarded \$63.3 million in grants to groups serving these workers.

About 1,000 unemployed persons will get skill training at night under a one-year experimental program conducted by the Opportunities Industrialization Centers of America, Inc. (OIC) at five of its training centers. The U.S. Department of Labor awarded OIC \$1 million for this effort.
