

Most Floyd Crops Going In Government Loan

Floyd County ASCS manager Tom Moore Reported Tuesday

that most of the crops are going into the government loan. "The farmers need their money now to pay debts and can get the government money while they watch market prices go up and down," Moore said.

Moore said the government loan on

wheat is \$2.25 per bushel with a net of around \$2.00 when storage is paid. Current market price in Floyd County Tuesday was \$2.15.

Grain sorghum now going into the loan program is \$3.37, or about \$3.05 for 11 months of storage. The current market price Tuesday was \$2.80.

Corn now going into the loan is \$3.70 per hundred, or around \$3.40 after 11

months of storage. Current market price Tuesday was \$3.05.

COTTON MARKET

Good grade strict low middling white cotton with one inch, 16th inch staple will bring about 50 cents on the current market. This quality cotton in the

government loan will be worth about 44.60 cents per pound.

Floyd farmers anticipate an earlier than usual cotton harvest as the hot dry fall is fast maturing the crop. The quantity and quality of the cotton crops appears now to be above average for the county production records.

Home game for 'Ragin' Red'

Longhorns To Try River Road Friday

The Lockney Longhorns take on the River Road Wildcats at 8 a.m. Friday in the Lockney football stadium. The Longhorns, 2-2 for the 1977 season, are favored to win the contest with the 0-3 Wildcats, who are playing only their second year of varsity football at the new school.

Longhorn quarterback Billy Sessom, who was knocked out in the third quarter of the Littlefield game last Friday, has received doctor's clearance to play this week and Tuesday afternoon was listed as the starting signal caller. But kicker Johnny Arjona, also injured in the game with Littlefield, probably will not play. The Longhorns' kicker will probably be fullback Joe Rodriguez.

River Road is led offensively by quarterback Randy Rogers, who's also listed in Top-O-Texas football magazine as one of the top area AA players on defense (at halfback). Ronnie Kennedy,

a 190-pound fullback-linebacker, will see action in the Wildcat backfield, and

diminutive split end Curtis Bull (5-4, 125 pounds) is a deep threat and has good speed. Bull was River Road's leading pass receiver last year.

The Wildcats have some good-sized players in defensive tackle Larry Cook (6-2, 220 pounds), guard Allan Hill (6-0, 195), guard Jim Bob Walsh (6-0, 195), and tackle Tommy Hiller (6-1, 210).

There will be no junior varsity game for Lockney Thursday. The scheduled game with Lubbock Christian High School has been cancelled.

Lockney Junior High teams play at Floydada Tuesday. The seventh grade game starts at 5 p.m.

A WOMAN INTERVIEWING a prospective family cook asked how much salary she expected. "That all depends," answered the cook. "Do I peel or thaw?"

"THAT'S QUITE A slice you had on that golf ball," said the angry policeman to the sheepish duffer. "It curved clear off the course and broke the windshield of my squad car. Just what do you intend to do about it?"

"Well," said the golfer, "I was thinking that probably the best thing to do would be to try moving my thumb a little farther up on the club."

Rising Number Of Floyd Self-Employed

NEW YORK, Sept. 10 In Floyd County, new businesses are being born all the time.

Despite the pitfalls and difficulties involved in getting started, each succeeding year finds an additional number of local residents, eager to be their own bosses, embarking on new ventures.

Some of them have been unemployed for a long time and are taking this step in the hope of improving their situation.

Others, who are employed, give up their jobs and the security of a weekly paycheck, gather together the money they have saved or can borrow, and make their move.

Many of them fail because they are inadequately financed, according to the Bureau of Labor Statistics. They do not have enough capital to carry them through the lean early years. Some are handicapped because they lack sufficient know-how.

However, although the hazards are great and the odds are heavily stacked against a new business lasting more than a year or two, there are many succeed very well.

Evidence of that is to be seen in the

fact that no less than 1,100 residents of Floyd County are making their living from businesses of their own.

The majority of them operate small retail stores. Others have restaurants, service stations, repair shops and the like. Still others are engaged in professional work or in operating farms.

In relation to the number of Floyd County people who are employed, the self-employed represent 29.5 percent of the total. The ratio is bigger than in many sections of the country.

The average in the United States is 8.6 percent and in the West South Central States, 10.4 percent.

The Labor Department's figures show that there has been a 14 percent growth in the last seven years in the number of self-employed men and women in the nation. It has gone from 6,827,000 in 1970 to 7,806,000 at the present time.

For people who want to take off on their own but do not have the necessary expertise, the Bureau of Labor Statistics suggests the purchase of a franchise, an arrangement for selling or distributing the products or services of a well-known, established parent company.

Mrs. Carthel Wins Contest

Mrs. W. L. Carthel of Lockney was the first-place winner in the Beacon football contest last week. She won \$10 for an entry with seven misses, in a contest that included several "toughies," including Oklahoma-Ohio State, Boston College-Army, Canyon, Hereford, and A&M-Tech.

Mrs. Carthel edged out second-place winner, Connie Comer of Lockney, by guessing nearer the total score in the Lockney-Littlefield tie-breaker. Mrs. Carthel guessed 30, closer to the actual 41 total than Mrs. Comer's 26-point guess. Both picked the wrong winner (Lockney) in the tie-breaker. Mrs. Comer collected \$6 for second.

Third place and a \$4 check went to Lockneyite Kenneth Wofford. He missed eight games, and circled Littlefield

and indicated 28 points in the tie-breaker section. He was eight points closer than T. L. Holland of Floydada, who missed eight and said Littlefield and 20 points for the tie-breaker.

Three other contestants—Jack Ragland and Leo Montandon of Lockney and Tommy Cathey of Floydada—had eight misses in the regular games section but finished out of the money by circling Lockney as the tie-breaker winner.

Close to the top with nine wrong picks were John Wisdom, Roy Saucedo and Mrs. R. W. Meriwether, all of Lockney, and Ron Pingleton of Floydada.

FOR FLOYD COUNTY HISTORY BOOK

Family History

Guidelines Given

The prospective publishers of the Floyd County book of history have drawn a simple guideline for persons to use when writing family histories.

"Starting is often the hardest part. Here is an excellent way to start your story: 'In the beginning...'

"Familiar? Of course. Put down those words, then say where your parents or grandparents lived to begin with (what country or state); then tell how and when they came to what is now Texas—and to Floyd County.

"List the children. Tell where they went to school and went to church.

"Did your parents or grandparents homestead? These are all personal things that will add flavor to your family's history.

"We do not want the family history

written like a news story, or a fiction novel. We want it in your own words. Once you get the dates and names together and start 'in the beginning...', you will see how easy it really is to write the family history. But please hold it to about 500 words. If you feel you cannot contain your history in 500 words consider a memorial or tribute page or partial page."

Project chairman Virginia Taylor of Lockney notes that a story is wanted from each household—not one story on the whole clan.

The number of pages in the book will depend directly on the number of books sold. The pre-publication price is \$24.50 plus tax. Send checks to the Floyd County Historical Museum, P.O. Box 304, Floydada 79235. Include \$1.75 if the book is to be mailed.

Floyd County swept the finals Saturday night at Silverton when Floydada's Adeana Morris was crowned the new "Miss Mackenzie", and two Lockney misses, Dawn Daniels and Melinda Wilson were chosen as first and second runner-up respectively.

Miss Morris was given the title from a field of 26 contestants from Tullia, Silverton, Lockney and Floydada.

She received a gold necklace and bracelet and a \$50 savings bond along with her title. Daughter of Mr. and Mrs. Dean Morris, she was sponsored in the pageant by the 1956 Jr. Study

Club. During the pageant she was asked "If you could share a value of America with any other country what would it be?" Her answer was "Freedom".

The 17 year old senior at FHS has been varsity twirler for four years serving as head twirler for the Whirlwind Marching Band for two years. She has been awarded over 10 gold medals in UIL competition.

The blue eyed blonde has served as class officer, named "Most Friendliest Girl" and named to "Who's Who in America". She has also received num-

erous other state and national awards.

Currently Adeana is Floyd County's Our Little Miss stockshow sweetheart, was a finalist in "Ideal Miss World", FFA officer and sweetheart, president of her 4-H club where she recently received the "I Dare You Award" and Foley Award.

Adeana enjoys being active in school, church and community activities, as well as being involved in hobbies, water skiing, horseracing, and cooking. After graduation she plans to attend college and major in mass communications and traveling.

FLOYDADA NURSING HOME HAPPENINGS BY DARTHA WESTBROOK

to that area.

Wednesday we went to Lockney Care Center to visit on our field trip. Those making the trip were Mollie Jones, Henry Love, Hope Hammonds, Florence Badgett, Dora Langford, and Agnes Anderson and Grady Freeman, our driver. All seemed to enjoy visiting with residents in Lockney, and we thank the Administrator for inviting us.

On Thursday we had another exciting time playing Bingo. Our players were Hope Hammonds, Colesta Caffee, Agnes Anderson, Willie Stambaugh, Clara Williamson, Pearl Carrick, Hallie Bertrand, and Ray Reed. Big winners were Hope Hammonds with 3 games, Colesta Caffee and Agnes Anderson with 2 each. We would like to express our sympathy to the family of Mildred Crowley who passed away in our Home last week. She was a very sweet person and we will miss her.

Thanks to all the people who helped with our devotions last week, and to all our visitors.

Meddlin's BY PEGGY MEDLEY

WHAT'S your fashion image? There was a time when we all used to be carbon copies of everyone else from our little black dresses (some not so little) down to our short white gloves. We wore a specific kind of outfit for a special occasion, and we had a different assortment of cloths each season. Fashion was safe, but not much fun.

Next came the upheaval of the Anything Goes way of dressing in the 1960s and early '70s. Happily, both the old rigid thinking about

cloths and the more recent costume party looks have gone by the wayside, leaving a wonderful new freedom in the way we choose to dress.

NOTICED where some guy in Plainview had tickets for sale to the Texas-OU game October 8th. Possibly you think "who needs them, when I can watch it over the TV tube. However that isn't so, the American Broadcasting Co., announced Monday that the Oklahoma-Texas game definitely will not be telecast.

DR. Abner McCall, Baylor University's president, and brother of the late Irene Dobbs of Floydada, was listed in a stable condition Tuesday in a Waco Hospital where he entered Monday. He is being treated for a blood clot in a lung, according to school officials.

SOMEONE was really pulling an Aggie's leg last week. Evidently someone told him the Hesperian had a classified ad in the paper for someone wanting to sell a ticket to the A&M-Tech game. No such luck....probably a Tech ex pulling a funny on an Aggie.

HURRAH...some of our city alleys are being weeded and cleaned up. There are several tho that are really an eyesore to the town...as well as some vacant lots which need attention.

PHILIP Smitherman has departed the states for another overseas job, this one on a barge out of Bombay, India. Philip has been home with his family for a month after spending some 10 months in Saudi Arabia. He called his wife, Mildred, from Singapore Monday, 5:30 a.m. our time, 6 p.m. there, and related he was preparing to leave for Bombay aboard the barge he would be working from.

EVERYONE seemingly is trying to conserve energy and with winter just around the corner, I'm sure most will tighten up more. What this leads up to is the style of home you're living in which may require more heat. If its colonial, it was built prior to the second Eisenhower administration...with a brook on the property which runs through your cellar. It has a carriage house which means you have a garage leaning against a '48 Dodge. If its a gracious colonial, move out you can't afford it, especially this winter. Victorians are known to be drafty. A leisure home, habitable during July and August, usually has a family room in the basement lighted with a 100 watt light bulb. If you plan to buy a leisure home I know of one which has many extras, the former owner left behind oil cleaning rags, all his coat hangers and a half bottle of cough syrup. Then there is a small cozy cottage, meaning its teeny-weeny. It needs fixing up a little as one of the legs on the bathtub is protruding through the kitchen ceiling, however it does have a patio near the back door where a cement truck turned over....

AS a young man pushed his son's carriage down the street, the youngster howled with rage. "Please, Bernard, control yourself," the father said quietly. "Easy there, Bernard, keep calm!" "Congratulations, sir," said a woman who had been watching. "You know just how to speak to infants - calmly and gently." Then, leaning over the carriage, she said, "So the little fellow's named Bernard?" "No, madam," corrected the father. "He's named Sam. I'm Bernard."

Letter To The Editor

DEAR EDITOR

As in the case of welfare reform, National Health Insurance is a top priority of the Administration. The Secretary of Health, Education and Welfare, Joseph A. Califano, Jr., is calling for an all-out HEW effort to ask the general public how national health insurance can best be achieved.

Because national health insurance will affect almost everyone, it is particularly important to consult with a broad cross-section of the American people as the Department prepares a proposal for the President.

For more than fifty years, national health insurance and related health care financing questions have been debated in this country while over the same period, national health insurance systems of various types have been implemented in all other major industrial nations. Now more than ever there is a need for a program in which every citizen would be entitled to the same level of benefits; a program which would have uniform standards with strong quality and cost controls.

An estimated 26 million people in fiscal year 1976 (about 12 percent of the U.S. population) had no health insurance coverage through private insurance or public programs such as Medicare and Medicaid. A majority of the uninsured comes from families WITH INCOMES but less than \$10,000.

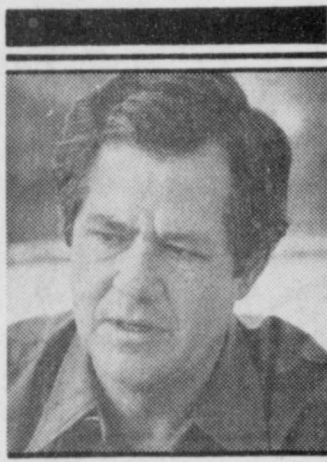

While a large majority of Americans do have some form of health insurance, there are some serious problems with respect to the adequacy of protection provided. An estimated 25 million persons covered by private insurance policies have inadequate protection against very high catastrophic expenses. For the elderly, the Medicare program currently pays less than 40 percent of their health care costs.

An important consideration in a national health care program is the equal access to health services. Today, over 35 million Americans live in areas where there are not enough health care providers. Lack of transportation prevents many aged and poor persons from seeking care. Many physicians refuse to accept Medicaid patients. Some

FLOYD DATA

Mr. and Mrs. C.W. Denison visited Mr. and Mrs. W.B. Parraack in Anson last Tuesday and Wednesday. The two women are sisters. They returned by way of Post where they visited former Floydada resident, Mrs. M.B. Johnston, mother of Ralph Johnston of Floydada.

FEEDGRAINS TO BE PLENTIFUL—With this year's feedgrain crop expected to reach the level of 1976, prices to farmers will continue under pressure.

"I have announced my candidacy for Governor of Texas. I'm confident I can and will win.

"According to a statewide poll, 6 out of 10 people are ready for a new governor. The poll only confirmed all over Texas this year. People are against the idea of anyone holding the state's highest office for 10 years. No governor has asked for 10. No governor has been given 10. It goes against a tradition that's as old as Texas itself.

"There are other reasons folks are ready for a new governor. State spending has jumped from \$3 billion to \$8 billion the last 6 years. The Dallas Morning News reported, 'during Briscoe's years in office, nearly all state government will have gone on a spending spree.' And the Governor has done nothing to discourage it. He's vetoed less than two-tenths of one percent of the two previous budgets and not one penny's worth of the current appropriations; it's the first time that's happened in twenty years. In a related story, the News pointed to the fact that during the Briscoe years the number of employees paid by the state has risen by 50,000.

"And, while we've heard the boast of 'no new taxes,' we've seen our property taxes increase by \$1 billion along with substantial hikes in state licensing fees.

"I've traveled the state this year, visiting with folks. Whatever their overall assessment, most Texans lacked confidence in the present governor's persuasiveness and vision. They felt he had failed to measure up to their expectations and to live up to his promises.

"Texans are hungry for an effective gubernatorial spokesman on energy policy. They are frustrated that our governor hasn't been able to get the Texas viewpoint across in Washington. They are wondering, too, why our governor hasn't been speaking out forcefully for a farm policy that would help our beleaguered farms and ranches.

"I fully agree with the people's assessment; that's why I'm seeking the office of Governor.

"I'm proud of my record as Attorney General and Secretary of State. It shows that I'm not afraid to roll up my sleeves and work hard. It indicates that I have the ability to assemble a capable staff, that I prefer to work closely with people, and that I'm not reluctant to make changes when they can benefit the state. I'll be this kind of governor, given the job."

state Medicaid programs will not pay for services provided by clinic (a primary source of care for poor people). A new system must be devised to provide facilities, care, services to all Americans.

Of grave importance is the cost, financing and administration of any national health insurance program. Rampant inflation in health care prices threatens to erode the protection of many Americans with private commercial insurance. Federal expenditures for health services are rapidly escalating, accounting for an over 40 percent yearly increase in Medicare and Medicaid programs. Who should pay for health insurance, either through individual premiums or increased taxes; who should run the program, whether it should be federal, state or local or private insurance companies; and how to hold costs to a reasonable rate of increase are vital questions which must be addressed.

A public forum will be held in this state in October to gather comments on these issues. Persons may express their opinions on national health insurance by writing to the Principal Regional Office, Department of Health, Education and Welfare, 1200 Main Tower, Dallas, Texas 75202. Comments must be received by October 31, 1977.

Sincerely,
/s/ S.H. Clarke

Dear Wendell,

I thought you might find a place to use this so I sent it along. The farmers at Spearman really need a boost because we don't have cotton, down there count your blessings.

Sincerely,
Tim Assiter

WHAT IS A FARMER?

He is an overall executive with his home his office; A scientist using fertilizer attachments; A purchasing agent in an old straw hat; A personnel director with grease under his fingernails; a dietitian with a passion for alfalfa, amino acids, and antibiotics; A production expert with a surplus; and a manager battling a price-cost squeeze. He manages more capital than most of the businessmen in town. He likes sunshine, good food, county fairs, dinner at noon, auctions, his neighbors, his shirt collar unbuttoned and, above all, a good soaking rain in August. He is not too much for droughts, ditches, thruways, experts, weeds, the eight-hour day, grass hoppers or helping with housework.

Farmers are found in fields, plowing up, seeding down, rotating from, planting to, fertilizing with, spraying for, and harvesting. Wives help them, little boys follow them, the Agriculture Department confuses them, city relatives visit them, salesmen detain them, and wait for them, weather can delay them, but it takes heaven to stop them.

Might as well put up with him...he is your friend, your competition, your customer, your source of food, fiber and self-reliant young citizens to help replenish your cities. He is your countryman...a denim-dressed, businesswise, fast-growing statesman of stature.

South Plains News

By Mrs. Murray Julian

South Plains, Monday, September 26.

Elementary School children are out of school this afternoon so they might go to the South Plains Fair at Lubbock. Several of our band students of the Whirlwind Band in Floydada had to be at school early so they

could go to march in the parade of school bands this morning.

Mr. and Mrs. W. S. Simmons of Truscott, and Mrs. W. H. Smith of Odessa came Saturday to spend that day and Sunday with the woman's sister and husband, Mr. and Mrs. Sylvan Kinnibrugh.

Kinnibrugh is getting along just fine at his home, following a short time in Plainview Central Plains Hospital. Others who visited them Sunday were the Kinnibrugh's daughters, Mr. and Mrs. Hank Dickens and son, and Mr. and Mrs. Teddy Horne and Melissa. Melissa is to go back to school part time this week following her illness.

Mr. and Mrs. Sylvan Kinnibrugh received word of the illness of his brother, Orval Kinnibrugh of Vera, who is in a hospital at Wichita Falls, with a heart attack. He is recuperating well, according to relatives.

Those in South Plains celebrating birthdays and anniversaries during the month of October are Darla Milton Chappell, Oct. 7, Bruce Julian, Oct. 9, Bryan Henderson, Oct. 10, Dee Earle Sanders, Oct. 13, Lillie Mae Milton, Oct. 22, Harold Hamm, Oct. 27, and anniversaries of Kay and Royce Bethel, Oct. 7, and Mr. and Mrs. Terry Julian, Oct. 5.

Rev. Fred Blake of the South Plains Baptist Church and Rev. Nathan Mulder of Faith Baptist Church in Wellington will go each Thursday night to Plainview for the coming semester to take a Bible course in Galatians, under Dan Kent at the Art Center. This is a Seminary Extension Course.

Tracy Johnson, 3, son of Mr. and Mrs. Nathan Johnson, is spending from Sept. 24 to Oct. 1 at the home of his grandparents, Mr. and Mrs. R.Q. Botkin in Leveland.

Nathan Johnson's grandparents from Denton, Mr. and Mrs. Harves Powell, spent the evening and night of September 18th, with Mr. and Mrs. Nathan Johnson, and boys, Tracy and Troy.

Mrs. Dale Roberts and her daughter, Pam, from Plano, spent part of last week visiting in Floydada with Dale's parents, Mr. and Mrs. Aubrey Stewart and in South Plains they visited with Mr. and Mrs. Kendis Julian, Kristi, Mitzi and Tim.

Around 53 were present for last Sunday morning Baptist Church services. Little Tanner Johnson was at church for his first visit with his parents, Mr. and Mrs. Carlton Johnson. Rhonda and Candy Taylor were also present from Amarillo. Mrs. L. T. Wood held a WMU Council meeting at five o'clock, with eight present for the meeting. Monday, Oct. 10, there will be a Caprock Youth Association Rally held at First Baptist Church in Spur, at 7:30 p.m. Also that week, Oct. 13, there will be a Caprock Associational annual meeting at the First Baptist Church in Matador.

Hobby Club members will meet at the home of Mrs. J. P. Taylor Wednesday, Oct. 12, at 9:30 a.m. for all-day quilting. Bring a salad for the noon luncheon. Roll call will be: An Heirloom which I have.

Little Kelvin Kendall Cummings will be honored with a pink and blue shower, given by several hostesses at the Fellowship Hall of the South Plains Baptist Church Wednesday afternoon, Sept. 28, from 2:30 to 4:00 p.m. The baby's parents are Mr. and Mrs. Kelvin Cummings, who live west of South Plains.

E. C. Cox, father of Mrs. Alvin Nichols was taken from Lockney Convalescent Home to Lockney General Hospital Thursday of last week, and is getting along fairly well at this time. His daughter and her husband, Mr. and Mrs. Tom Davis of Arlington visited him last week.

Mr. and Mrs. Roy Bledsoe of Brownfield were in South Plains Saturday visiting with Mr. and Mrs. Raymond Upton. The Bledsoes were enroute to Atus, Oklahoma, where they were to attend a reunion of Bledsoe's old Army Air Force buddies which he had not seen for 32 years.

Mr. and Mrs. Alvin Nichols received news of a wreck which occurred between Elizabeth City and Moick, North Carolina, in which their granddaughter, her husband, and little daughter, Mr. and Mrs. David Allen and Daveyonna were involved. The family was waiting for a red light to change, as they sat in their car, and they were struck from behind by another vehicle. David had his right arm broken, among other injuries to each, but the little girl was not hurt. David and family are stationed in Moick, North Carolina where he is with the U. S. Air Force. We are glad to hear the young folks were not hurt any worse than they were. Both Judy and David are in the hospital at Elizabeth City at this time.

FOCUS on FUN

Scenes Too Good To Miss

Outdoor picture-taking is fun in any season—and scenes of golden leaves or sparkling snowfalls are just too good to miss. Here are some seasonal picture-taking hints:

- Shoot when the sun is shining from behind or the side of your subject.
- Check the composition of the scene through the viewfinder as a vertical as well as a horizontal before you take the picture. If you are using a Kodak Tele-Instamatic camera, which gives you a choice of normal and telephoto lens, be sure to flip from one to the other to see which view you prefer.
- Midday is a good time to capture the dazzling colors of fall foliage.
- Try backlighting or sidelighting to produce a three-dimensional effect in your snow pictures with sharp, contrasting shadows.
- Personalize scenes with friends and family dressed in bright clothing to liven your pictures. Frame your models by including foreground objects such as fences or overhanging branches.
- Imagine the beautiful Christmas cards you'll create as your family hunts for the perfect evergreen, or lounges indoors around a cozy fire.

For more tips about cold weather photography, send for the free booklet, "Winter Photography—Better Pictures in the Snow." Include publication code, AC-65, and a self-addressed stamped envelope when you write to Dept. 841, Eastman Kodak Company, 343 State Street, Rochester, N.Y. 14650.

"RIGHT TO FOOD" IS CONFAB THEME—The "Right to Food" Movement is one of the major issues today and is a source of potential conflict between agricultural producers and religious groups. That's why this issue will be discussed in depth at the upcoming Town and Country Church Conference, Oct. 6-7, at Texas A&M University, says a sociologist with the Texas Agricultural Extension Service. Keynote speakers will be Allan Grant, president of the American Farm Bureau, and Arthur Simon, executive director of Bread for the World, Washington, D.C.

Donna Davis Receives Nursing Cap At WTSU

WTSU—Donna Davis, a nursing major at West Texas State University, was one of 90 students to receive their nursing caps during the recent fall convocation in the WTSU Activities Center ballroom.

seniors, females receive a maroon stripe on their caps while males receive an additional bar.

"Receiving caps means they've passed their first step in nursing. From this point on, they'll be involved more with clinical areas in the community and in the hospital areas," said Betty Henry, assistant professor of nursing at WTSU.

The Floyd Philosopher

Lists Some Of The Fundamental

Rules Of The Art Of Writing Checks

Editor's note: The Floyd Philosopher on his Johnson grass farm reflects on check writing this week.

Dear editor:

Have you noticed how the newspapers and television networks concentrate on about one story a week? One week it'll be the Panama Canal, the next maybe Andrew Young, the next the Late Elvis Presley, and last

week it was check-writing.

Some people in Washington were outraged because Bert Lance had written a check for \$100,000 or so when on that very day he had only \$27,000 in his account. However, when a few days later the check had made its rounds and gotten back to his bank, it was good because in the mean time he'd deposited enough to cover it.

This underscores a fundamental, Constitutional principle: All checks are presumed good until proven bad.

You see, if one man had \$5 in his bank account and another has \$1,000, and each writes a check for \$2.50, one check is just as good as the other. Rockefeller couldn't write a sounder one. It's when the first one writes a check for \$6 or the other for \$1,001, that trouble starts.

I said that all checks are presumed good until proven bad but that doesn't always hold, not if the store you're giving a check to is holding one of yours that bounced. The principle then turns over and all your checks are presumed bad until proven good. It's the surest way on earth to get on a cash basis.

Some people may not know it, but one of the greatest threats to check writers on a tight budget is the prospect of completely computerized, electronic, instant banking, the kind where every financial transaction is done in split seconds.

Like it is now, with the Postal Service on his side, a man can mail a check to pay a bill, even if he doesn't have quite enough money in his account to cover it, and know that by the time it finally reaches the bank he'll have had another pay check deposited and his credit stays intact. People cuss the post office without realizing that sometimes it's on their side. They're going to be in trouble if the Postal Service ever improves, which it will just as soon as the Middle East problem is solved, or certainly by the time we solve the energy problem.

Yours faithfully,
J.A.

Ten Ways To Enjoy Picture-Taking More

Taking snapshots to illustrate contest entries and reports are two of 10 ways you can get more pleasure out of picture-taking, according to winners in the Kodak Junior Miss Photo Awards.

Kjorina Peterson, the top winner who also is Utah's Junior Miss, used photography to help document entries in other Junior Miss competitions. Through them she won almost \$3,500 in scholarships—part of more than \$5 million the Junior Miss Program gives annually in recognition of the nation's outstanding high school senior girls.

First runner-up in the Kodak competition was Allyson Wells, Virginia's Junior Miss from Fairfax, who recommends a practice she recently followed. Allyson got an "A" when she used her camera to illustrate a report on hazardous road conditions for a drivers' education class.

Ideas from the other eight Kodak finalists for achieving through photography include:

... "Photography is a great ice breaker at parties. When you take someone's picture, naturally you have to talk to them. It's a wonderful way to meet someone who looks interesting, but who hasn't noticed you yet."—Sara Viessman, Missouri's Junior Miss, from Rolla.

... "I like to glue snapshots to construction paper, write a message and then post them as birthday or get-well cards. If the snap-

shot happens to be of the recipient, so much the better."—Cynthia Johnson, Nebraska's Junior Miss, from Potter.

"In Scott City we have a music club called the Tempo Setters. Last year when I was president, we entered a state competition and won a blue ribbon for our scrapbook. All of us wanted it to include lots of snapshots and it did. I think the snapshots helped us win."—Brenda Cejda, Kansas' Junior Miss.

... "If you take 'before' snapshots to help you save the environment, you won't need 'after' ones. Use your snapshots to illustrate a plea to a local governmental body or the media. Photographs tell the story better than you can in words."

—Maile Apau, Hawaii's Junior Miss, from Honolulu.

... "Photography is a way to be creative. Each year my sister and I compile 10 or 12 recent family snapshots into a photo greeting card we have printed for all of us to send. We think it's a very personal way to say 'happy holiday.'"—Mary Beithon, North Dakota's Junior Miss, of Wahpeton.

... "Photography is a way to help you improve at sports. Have someone take your picture playing tennis or riding a horse. Then study the results."—Susan Fowell, Arizona's Junior Miss, of Phoenix.

... "I like to cover inexpensive frames with fabric and decorate them with fabric flowers. Then I insert a snapshot. This makes a nice gift for friends for birthdays and Christmas."—Delane Ingalls, South Dakota's Junior Miss, of Opal.

... and "One of my favorite gifts for friends is a photograph of the beautiful scenery in New England. Having the negative blown up makes the snapshot even more impressive."—Sue Paquin, Massachusetts' Junior Miss, from New Bedford.

Among the photographic techniques they use to accomplish these results are including people to add interest ... varying the distance from camera to subject ... aiming for simple backgrounds ... holding the camera steady and keeping it handy for the unexpected.

County Agent's Corner

By Doyle Warren
Floyd County Agent

In the past, the Parks and Wildlife Department has provided fish for stocking private ponds at no charge to the pond owner. Due to present economic conditions and a change in the law, the Department will no longer provide this service free of charge.

This year, the Texas Legislature passed legislation allowing the Department to charge for fish delivered to private waters. The rates are designed to reimburse the Department only for cost of providing this service. The Parks and Wildlife Commission has adopted the following charges to apply to fish delivered in 1978:

BASS - \$2.00 per acre
CATFISH \$4.00 per acre
SUNFISH - \$5.00 per acre
APPLICATION CHARGE \$2.00

Ponds 75 acres or larger that require on-site delivery will be charged 25¢ per mile round trip from the hatchery.

The Department will also discontinue the practice of delivering fish to every county seat. Such deliveries are very costly and increase the price of the fish. It will be necessary for you to pick up the fish at a central distribution site for your area; or if you prefer, you can pick them up at the hatchery. Distribution sites will be announced at a later date.

To apply for fish, please write:

TEXAS PARKS AND WILDLIFE DEPARTMENT
4200 Smith School Road
Austin, Texas 78744

APPLICATIONS FOR FISH AT THE ABOVE PRICES WILL BE ACCEPTED UNTIL NOVEMBER 1, 1977. If you have further questions, call 512-457-4931.

NEWS 'N' NOTES

(by Sharon Hillis)

BOOTS FOR FALL
Step into boots this fall in fashion and with warm, dry feet. Boots lend the finishing touch to any costume—skirts, dresses, gauchos or pants. Boots are usually expensive, so consider them an investment and choose style, height, fabric and color with PURPOSE in mind. To wear from season to season, select a classic style and a basic or neutral (earth-tone) color. For fashion wear, style is probably the first consideration, and for functional boots, look for quality—in both construction and fabric.

While suede or leather boots may be the most comfortable—because natural fibers "breathe"—boots made of rubber or vinyl are more water resistant, especially those that are molded without seams. However, suede and leather can be treated—at the factory or at home—to repel water. Special sprays will shed light rain and snow (but heavy rain and snow will generally still soak through).

For greater warmth and dryness, seams should be securely stitched, sturdily made, and lined.

Smooth trikot linings make a boot easy to pull on and off and may provide adequate warmth for mild winter weather. Pile linings provide greater warmth; the denser the pile, the greater the warmth. Pile may be wool or synthetic. Synthetic linings may be more durable, but are not as absorbent as wool, often leaving feet with a clammy feeling.

Boots with ridged or skid resistant soles, whether leather or synthetic, are safer on ice and snow. Avoid smooth soles.

To assure fit, try on both boots. Sizes vary from brand to brand. Be sure that boot tops provide adequate width for your calves, whether pull-on or zip-up style.

Pile-lined boots may fit more snugly; you may need a slightly larger size.

Also remember in selecting boots—trim and ornaments should be firmly attached—back seam should be centered and firmly stitched—zipper closure should work smoothly and have a protective placket underneath—inside should be free of rough spots, wrinkles, bulky seams or loose threads.

Charges Filed Against Two

For Liquor Violations

Floyd County sheriff's officers arrested Louri D. Buchanan of Floydada Sunday night and he was charged with transporting liquor. Sheriff's officers reported 15 cases of beer and 48 half pints of whiskey. Buchanan's automobile was also confiscated by the officers.

Buchanan pleaded guilty and was given a \$600 fine plus court costs and 60 days in jail.

Charged with possession of alcoholic beverages Monday was Harold Rogers. He had 13 cases of beer according to officer's report. He pleaded guilty and received a \$100 fine plus court costs.

They all paid MORE per KWH than we pay!

EISENHOWER ROOSEVELT TAFT TRUMAN WILSON ROOSEVELT HARDING HOOVER COOLIDGE

The average cost per KWH of electricity is lower today than it was for the first 70 years of the electric light but we use a phenomenal amount of power. From an average of 121 KWH per month in 1948 we are now averaging more than 850 KWH per month and our use of power grows each year.

The member-owned electric cooperative can't do much about wholesale power prices nor the higher cost of generating fuels. But we can and do exercise every economy to deliver power at its lowest possible cost.

Where the electric cooperative controls the costs—the costs stay under control.

4-H'ERS To Celebrate 4-H Week.

The 490 4-H members in Floyd County will be among 5.8 million youth from across the United States celebrating National 4-H week, October 2-8.

"4-H-Freedom to Be" is the 1977 theme and incorporates the American free enterprise system and the responsibilities held by 4-H members into special activities planned during the national celebration.

On October 3rd, Floyd County 4-H Clubs will launch a meeting designed to define what 4-H is and how it works. A slide set entitled "Freedom to Be-in 4-H" will be presented by Sharon Hillis, CEA. The meeting will be at 7:30 p.m. in the First National Bank Community Room, Floydada. Parents of 4-Hers and others interested in 4-H are urged to attend.

This year's National 4-H week is dedicated to the inner growth of each member through his own personal freedom to search for knowledge and acquire new skills.

The 4-H way of "learning by doing" emphasizes the freedom of a youngster to choose his own path of learning to help him achieve his goals.

Whether a 4-H youth's activities lead him through programs in foods, nutrition, clothing, leadership, or the newer projects in aerospace, karate, and dramatics, he learns to express himself individually.

ACCIDENT CONTROL
Tractor accidents are the No.1 cause of farm machinery deaths. Take time to instruct family members and employees on safe tractor use and enforce the "operator only-no riders" rule, advises the Texas Agricultural Extension Service.

Water Conversation Director To Be Elected October 4

An election for a director to serve in zone 4 on the Floyd County Soil and Water Conservation District Board is scheduled for October 4th at the Booth Spur Elevator located in the Baker Community. According to G.L. Fawver, Chairman of the board, the election will be held at 8:00 p.m.

State law decrees that to be eligible to vote in a soil and water conservation district director's election, a person must own agricultural land within the subdivision where the election is being held. The person must also live in the county and be at least 21 years of age. Qualifications state that a

candidate for the office of district director must own land in the zone, live in the county, be at least 21 years of age and be actively engaged in farming or ranching.

Zone 4 of the district includes an area that is bounded by the Floydada-Ralls Highway (west boundary), the south boundary is the Floyd-Crosby county boundary, the east boundary is the Floyd-Motley county boundary and the north boundary is the Floydada-Matador highway with the exception of 7 sections that lie north of the highway, these are sections 69, 70, 71, 72, 73, 74, 75.

Current members of the board of directors of the Floyd County Soil and Water Conservation board are G.L. Fawver, R.G. Dunlap, Herman R. King, Gerald D. Lackey, and Cecil Purcell. The purpose of the Floyd County SWDC is to promote sound soil and water conservation programs on farm

and ranch lands within the district.

The district board of directors coordinates the conservation efforts of various local, state and federal agencies and other organizations and has the authority to enter into working agreements with these governmental agencies and private concerns to carry out its program.
