

# Cotton Farmers Learn About That \$1.90 Per Bale Promotional Money

By Wendell Tooley

Years our cotton farmers don't get \$1.00 per bale to help promote the sale of cotton merchandise to the American people. Then two or three years ago the farmers voted to increase the amount to around \$1.90 per bale (adding to the price of cotton).

A meeting at the Massie Activity Center in Floydada Thursday night drew 100 farmers from all over this area. Marv Grant, Cotton Incorporated Market Researcher from New York, explained the use of some \$22 million in promoting cotton per year. He used both movie and slide films to show Cotton Incorporated's expenditure for better production, harvesting and marketing methods.

"We feel that the cotton modulator we've developed saved American farmers \$7

million dollars last year....and will save them more this year," Grant said.

A member of the CI board, Floyd farmer Don Marble, served as moderator of the meeting, introducing Grant, also Bob Weatherford of Lubbock, a member of the National Cotton Council and Jim Adams of Tahoka.

## COTTON MARKETING STABLE

Grant outlined the huge buildup of bales of cotton after this year's near record crop and outlined future plans of developing more and better cotton products for the American consumer.

Some of the more interesting information:

1977 increase in cotton production was 14.4 million bales over 1976 production of 10.6 million bales....11.5 million forecast 1978 40 percent of U. S. cotton production is exported. 1976 4.8

millions bales were exported, and in 1977 it was down to 4.4 million bales.

The overall world production is expected to be down in 1978 to 60 million bales....from 1977's 65 million bales.

Polyester took the textile market some 20 years ago on a theme of "no iron" fabrics....but "natural cotton" is gaining every year on the synthetics.

The major breakthrough has been the new "natural blend" which is 60 percent cotton.

Denim is the big market today as women are buying more denim jeans.... ten percent of cotton production goes into making denim jeans.

Advertising program on cotton (mostly TV) in only four years 46 percent of the American people recognize the Cotton Incorporated emblem.

Corduroy that is 100 percent cotton

is coming....some slack off in denim.... 800 million yards in 1976 down to 600 million yards in 1977.

There isn't a lot of material inventory at this time in the textile industry.

## QUESTION AND ANSWER PERIOD

Farmers from as far away as Paducah were present to get more details on how the \$22 million is spent. Marble and Grant were able to answer most of their questions.

Question: Why don't we wrap our bales in cotton bagging? Answer, not economically feasible.

Question: Should not the price of cotton jeans go down as the cotton market goes down? Answer, it should but it hasn't.

There are 1 1/2 pounds of cotton in a

AT COTTON INCORPORATED MEETING Thursday night Floyd farmer Don Marble (left) and New York Market Specialist Marv Grant were in charge of the program and discussion about the future of cotton. (Staff Photo)

pair of jeans....it takes a yard and a half of denim to make a pair of jeans. There is 90 cents worth of cotton in a \$15. pair of jeans. There is \$3.80 involved in the denim process, and the wholesaler sells to the retailer the jeans for \$8.00.

Suggestion from one farmer: Let's spend more money advertising to the consumer that "it isn't the farmer who causes the high price of jeans."

How many cotton farmers ask for their \$1.90 per bale Cotton Incorporated money back? Answer, over the

entire United States about two percent.

Grant wound up his talk by saying that more money would be spent in advertising and promoting cotton next year....less money for experiments in production and harvesting. He said Dupont held a 20-1 lead in advertising over cotton....and that the U.S. farmer has just experienced the best yield of cotton per acre ever....and that there is now a 6.3 million bale carryover in the United States.

## American Agriculture Movement Reviewed

The American Agriculture movement was conceived to preserve the family farm system, the most efficient producing unit in this nation. We have little time left as more than 25 percent of farmers and ranchers will be liquidated or refinance operations this year. We have equity and enormous sums of money for the last four years, and we

are now on the verge of bankruptcy. Unless something is done, only big money entities, or possibly the government, will be left to produce the food.

The American Agriculture movement is not another farm organization. There are no memberships, dues, secretaries, or presidents. We are a group of individual farmers, ranchers, and agribusinessmen, unified together in order to achieve the fair price of 100 percent parity for all agricultural products.

The American people today pay only 16.8 percent of their total disposable income for food. The people of other nations purchase food in a relatively raw state; yet these nations spend a minimum of 28 percent of their income for food. By achieving parity pricing, it will increase the percentage by 3.1 percent to a total only of 19.1 percent. This is by far the cheapest and best food in the world. By eliminating speculation, boom and bust from the market, and excessive profits from some middlemen, we can achieve parity and raise the price to consumers very little. The 3.1 percent shift of total disposable income is only a small shift in priority, but means the difference between existence and non-existence of the family farms.

We do not want government subsidies. At this time we are actually subsidizing this nation and the world with cheap food and fiber. For each unit of agriculture products produced, the American farmer and rancher must put part of his equity with it when it is sold and consumed. It would be the same as a laboring person receiving no payment for his work each week and instead, having to pay \$100 from his own pocket for the privilege of having that job.

We are a minority of people, less than 4 percent of the population, and consequently have no political voting power. We are tired of government dominance, speculation, manipulation, and big money influence in our market place. In 1973 when cattle prices were close to parity, the government put on a price freeze. In 1974 the government

said plant "fence row to fence row", and we could sell these products to hungry nations. We planted fence row to fence row and an export embargo was placed on agricultural products which destroyed our market and created a surplus. This cost the American producer and the American economy billions of dollars. Whether we like it or not, we no longer have a free market system. We can no longer exist with those types of manipulations. Our only hope is to tie Agriculture prices to the parity concept through law.

When we speak of parity, we are not speaking of a guaranteed income. All parity insures is a fair price. In order to achieve an income, we still have to produce. The risks of droughts, floods, hail, pests, and management still make production a very risky undertaking.

Furthermore, parity pricing would insure a thriving agricultural sector which would revitalize the entire economy. If we would have had 100 percent parity instead of 63 percent in 1976, cash receipts from agriculture would have increased from \$95 billion to approximately \$150 billion dollars. This is new wealth injected into the national economy and is renewable each year. Tax rebates and other efforts to boost the economy and reduce unemployment have had limited success.

AMERICAN AGRICULTURE producers REJECT the current farm program and instead DEMAND the following:

1. 100 percent of parity for all domestic and foreign used and/or consumed agricultural products.
2. All agricultural products produced for national or international food reserve shall be contracted at 100 percent of parity.
3. Creation of an entity or structure composed of agricultural producers to devise and approve policies that effect agriculture.
4. Imports of all agricultural products which are domestically produced must be stopped until 100 percent

of parity price is reached. Thereafter, imports must be limited to the amount that the American producers cannot supply.

All announcements pertaining to any agricultural producing cycle shall be made far enough in advance that the producer will have adequate time to make needed adjustments in his operation.

These demands dictate the need for possible production and marketing curtailments that will allow supplies to match demand. We are willing to accept these conditions. All commodity groups will participate in the formulation of policies from the local level that

effect their respective commodity.

Our proposals are reasonable. Our goals are obtainable. Our ultimatum is justified. We ask your support. Strike for your homes, farms and ranches and businesses. Strike with the same dedication you have long employed to make this the greatest food producing nation the world has ever known.

1. Disperse handbills....talk to your neighbors.
2. Park your tractors and other farm equipment with a sign saying that we will strike for 100 percent parity. Park the tractors on private property next to the highway or right of way.

WE WILL NOT ADVOCATE VIOLENCE  
WE WILL NOT  
CONDONE VIOLENCE BUT  
.....WE WILL STRIKE.....

## BEACON LIGHTS

By Jim Huggins

PROMENADERS Square Dance Club of Plainview is sponsoring a series of square-dance lessons starting at 8 p.m. Thursday, January 12, at the shelter house in the Broadway Street Park, Plainview. Come to the shelter house Thursday night and see if you like square dancing. I think you'll like it a lot of fun.

### The Value Of A Smile

A smile costs nothing but creates much. It enriches those who receive, without impoverishing those who give. A smile happens in a flash and the memory sometimes lasts forever.

We are so rich that they can get it without it and none are so poor but are richer for a smile.

A smile creates happiness in the home, it's good will in a business and is the countersign of friends.

As rest to the weary, daylight to the discouraged, sunshine to the sad nature's best antidote for trouble. A smile cannot be bought, begged, borrowed or stolen, for it is something that no earthly good to anybody until given away.

And if it ever happens that some one should be too tired to give you a smile, why not leave one of yours? Nobody needs a smile as much as who have none left to give.

IT'S GONNA BE a cold winter. The old Indian has forecast a cold winter because he sees a lot of white smoke out gathering wood.

The oldest to another: "I got so cold last night, I couldn't sleep. I just shivered." "Did your teeth chatter?" inquired a friend. "I don't know. We don't sleep together."

THE FIRST THING a child learns when he gets a drum is that he's never going to get another one.

ONE POLITICIAN TO ANOTHER: "We must push the health program. Getting people to live longer is the best way to get more taxes out of them."

CONVERSATION BETWEEN doctor and patient. "You're in bad shape. You need an operation."

"How much will it cost?" "Eight thousand dollars."

"Gee, doc, I don't have that kind of money."

"I'll make it easy for you. Give me \$1000 down and pay me the \$100 a month until the bill is paid."

"That's like buying a new car!" "I am."

## Revisions On Cable TV Franchise Application

Lockney city attorney Paul Lyle told aldermen at the regular monthly city council meeting Thursday that a franchise agreement between the city and TV Signal Service, a cable television company, is "basically alright" but recommended several minor changes in the agreement. The changes involve details of the installation and maintenance of equipment, and liability of the city.

A representative of the cable service had met with the city council last month and requested the franchise. The council had no objection to the project at that time, but reserved final approval of the franchise until the city attorney okayed the application.

Lyle said he would inform TV Signal Service of the requested changes in the franchise agreement.

The council voted not to enter into an agreement with other governments in the county to partially finance a "criminal investigator" for Floyd County Sheriff's Office and the two cities' police departments. The council also expressed no interest in an offer by the criminal justice department to pay for part of the cost of a second patrol car for the city police department.

ment.

Mayor Claude Brown reported on an unofficial request to tear down the old city auditorium building. The mayor pointed out that the building is not "the old college building" and alderman J.D. Copeland said that it was built using the bricks from that building, and the first floor is "about the same structure." Some of the aldermen recalled that the building (locally called "The Alamo" because of its fancied resemblance to that San Antonio mission) was last used as a community center and auditorium in the late 1940's and early 1950's.

The building is cracked "all the way down on the south side," needs a new roof and windows, and has been described as "...possibly a fire hazard..."

The mayor recommended that the city take an active hand in restoring it or give permission to raze the building. Copeland suggested asking city engineer A.C. Bowden to inspect the building and make recommendations.

Brown also reported that "We have a lot of places in town that are just a mess...a disgrace..." (Referring to vacant lots, dilapidated houses, weeds

and junk on property in the city limits). City attorney Lyle suggested that he (Lyle) write letters to persons violating the city's ordinance against health or fire hazards.

### DEPARTMENT REPORTS

Alderman Thurman Davis reported on the ambulance service. Alderman Jerry Perry reported on damage to the police department patrol car, which was hit by a soft-drink delivery truck last week as it was parked in front of the police station on Main Street. Copeland reported that unpaved roads in the city have been recently graded. And Brown said that he had told County Commissioner Bob Jarrett that the precinct could start immediately filling and digging pits at the city dump. (The city pays the precinct for county work at the dump.)

ROLLING UP THEIR SLEEVES to show their readiness to donate blood at the community blood drive scheduled Tuesday night at Lockney High School are LHS seniors Monty Hulcy (left) and Terry Roberts. Mrs. Sheree Cannon, Lockney schools counselor and blood drive chairman for Athena Junior Study Club, local sponsor of the blood drive, is also in the picture. Most healthy people seventeen years of age or older can give blood. (Staff Photo)

## Newcomers' Family Stories Needed For History Book

The Floyd County Historical Museum wants to convince newcomers of their importance to Floyd County and is urging newcomers to submit a family history story for publication in the upcoming Floyd County History Book.

Deadline for submitting stories to the museum is January 15. Orders for the books (cost is \$24.50 plus tax) also are due on that date.

Oldtimers have provided the development, culture and the growth of the county as it is today, but newcomers share an equally significant role in

providing new blood for increasing growth and change. So no one should discount or eliminate themselves from this project because they are new. "Newness" can provide unique and rich insights into Floyd County that otherwise might be unnoticed or overlooked. The book sponsors want and need to know why newcomers chose to live in Floyd County and what they did prior to moving here.

(see NEWCOMERS, page 1)

## Wedding Vows Unite Nancy Lloyd And David Barker

A double ring ceremony in the chapel of the First Baptist Church of Floydada, joined in marriage Nancy

Lloyd, daughter of Mr. and Mrs. Fred Lloyd and David Barker, son of Mr. and Mrs. A.L. Barker of Amarillo.

Reverend Floyd Bradley officiated at the ceremony Friday, December 23, at 6 p.m.

MR. AND MRS. DAVID BARKER

A brass heart-shaped candelabra flanked by a pair of hurricane-type candelabra all holding arrangements of white spider mums and salad foliage formed the wedding scene. The aisles were lighted with pew candelabra with hurricane candles and garlands of white baby's breath.

The bride carried a white colonial bouquet of sweet-heart rosebuds and baby's breath and from her bouquet she removed a long stem white rose to present to each mother as she entered and as she left the chapel.

Kathy Howard of Lubbock was Maid of Honor and wore a blue crepe empire waist dress with bell sleeves. She carried long stemmed blue carnations.

The groom wore a white tuxedo coat and black pants with white ruffled shirt edged with black.

Standing with the groom as best man was Richard Barton of Floydada. He wore a black tuxedo accented with a blue ruffled shirt.

Ushers for the occasion were Oscar Santos and Robert Barnes.

Pre-nuptial music as well as the traditional wedding march was played by Sharon Huggins, who accompanied Janet Lloyd as she sang THE WEDDING SONG. Richard Burton accompanied her as she sang

YOU LIGHT UP MY LIFE.

A reception followed the ceremony in the parlor of the church. The bride's table was covered with a white lace cloth over blue, centered with a bouquet of blue and white carnations. The three-layered cake was heart shaped and was served by Karen West. Leanne Ferguson served punch from a silver punch bowl.

A BUNCH OF GOOD EGGS...went into preparing this omelet served in the County Ag Bldg Thursday afternoon. In upper photo is Dr. Dave Mellor of Texas Agriculture Extension Service showed the 4-Hers how to prepare two egg omelets. Dr. James Denton, Mellor's associate is in photo with 4-Hers in lower photo.

**4-HERS OMELET RODEO**

There have been chili suppers, spaghetti suppers, pancake suppers before basketball and football games to raise money for various organizations. Now, Floyd County 4-Hers plan an Omelet Rodeo just before the Lockney-Floydada basketball games, Friday, January 13 in the Floydada Junior High Cafeteria.

Tickets are available from the 4-Hers or may be purchased at the door for \$1.50. Omelets will be served from 5:30 until 8:00 p.m.

About 30 4-Hers, their parents and sponsors practiced making...and eating egg omelets, toast, hot sauce, jelly, coffee or tea in the Ag Building Thursday afternoon. Comments were that it was "an enjoyable meal".

**LINE SYSTEM**

A line system of making omelets so that the customers are on one side of a long table observing their special omelet being made, is used. Each customer has a choice of available omelet fillings so that it becomes their own omelet.

With the line system, five individual butane burners are lined up with five omelet pans, five spatulas and five cooks. The first cook butters the pan with melted butter or margarine and a pastry

## 4-Hers To Sponsor Omelet Rodeo

brush, measures the egg mixture into the pan and places it on the first burner. When the first bubble appears, the pan is passed to the second cook who moves the cooked egg toward the handle portion of the pan with the spatula and allows the uncooked portion of the pan. The second cook watches for more bubbles and moves the pan to the third cook. The third cook moves more of the cooked portion back toward the handle of the pan so that the uncooked egg moves to the pan surface. The fourth cook usually finishes cooking the mixture so it will not run, but is still a little moist on top. The secret of a good omelet is not to overcook it. The fifth cook

puts in the desired filling, folds the omelet and turns it out of the pan onto a plate. The empty pan is then returned to the first cook by placing on a back table or given to a "Runner" and the process starts again.

The fifth cook is the key to the entire operation. As this cook turns out the finished omelet each pan moves down one cook. In this way all omelets turn out at the same place, pans stay hot, five omelets are going at the same time, and only one set of ingredients and one pan of egg mixture is needed per line. The best cook should be placed at the fifth stove to start the process. After things are underway, the cooks can rotate if desired so that everyone gets a chance to do all jobs. A new cook is always started at the first stove. Pan handles are always held in the left hand if the person is right handed. As the mixture begins to cook, a spatula held in the right hand is used to move the cooked portion toward the handle. The handle is tilted up from the heat so the mixture will flow down to the hot front of the pan. Don't stir the mixture, but try to keep it as flat and even in the pan as possible. When the mixture is cooked it will not run, but will still be moist on top. It should cover the bottom of the pan and be round.

The customer moves along the front of the table and watches the omelet being cooked. The fillings and plates are put beside the fifth stove. The desired filling is chosen from the choices available. After the omelet is turned out onto the plate the customer adds salad, toast, etc. to the plate, obtains a drink and moves on. If the customers are interested, they can go home and easily make an omelet for themselves.

A three egg omelet is usually served to each customer. The egg mixture is made by mixing eggs and water in the proportion of one flat of eggs (30 eggs) and

### WHY STARVE TO LOSE WEIGHT...

### WHEN YOU CAN EAT TO LOSE WEIGHT?

Most diets take away food but not hunger. Today's Weight Watchers\* Program has a better and more satisfying way to lose weight.

We've developed a nutritionally-balanced plan that lets you eat cheeseburgers, potatoes, tortillas, bagels, ham and egg and more - within limits - and still learn to lose weight.

For a diet that's not from hunger, join a convenient Weight Watchers meeting today.

Losing weight never tasted so good.

# Floydada judge to hear Potter removal suits

A district judge from Floydada has been assigned the removal suits filed against Potter County Sheriff T.L. Baker and Potter County Commissioner Bob Hicks. The Hon. George W. Miller, judge of the 110th Judicial District of Briscoe, Dickens, Floyd and Motley counties, will come to Amarillo on Monday in connection with the oyster suits. Judge Miller was assigned the cases by Judge Howard C. Davison, president judge of the administrative district which includes Amarillo and Floydada.

A new state law, effective last summer, requires a removal suit to be heard by a judge outside the county in which the suit was filed.

Separate removal suits were filed Dec. 13 by Larry

Kelly, operator of an oyster and shrimp bar here. Kelly, as relator in the suits, is joined by the State of Texas, represented by the office of District Attorney Tom Curtis of Amarillo.

Removal petitions against the sheriff and commissioner allege offenses also mentioned in criminal indictments returned against them.

Sheriff Baker was named in an indictment Nov. 17 accusing him of felony theft and official misconduct in connection with a county-owned air compressor confiscated Oct. 19 from Commissioner Hicks' Allstar Sheet Metal and Roofing firm at 306 S. Bowie.

The sheriff was named Dec. 8 in an indictment accus-

ing him of aggravated perjury in a sworn statement he made about the air compressor.

Another indictment, returned Nov. 17, accuses the sheriff of attempted official misconduct and attempted official oppression through efforts to uncover information embarrassing to Jim Durham, private practice lawyer who investigated the sheriff's department while serving as special counsel for a court of inquiry into county fiscal procedures.

Commissioner Hicks was named in an indictment Nov. 3 accusing him of felony theft and official misconduct in connection with the county-owned air compressor confiscated from his sheet metal shop.

A Dec. 8 indictment returned against the commissioner accuses him of felony theft in connection with construction and remodeling of county buildings. The indictment accuses Commissioner Hicks of 19 thefts of money from the county, a total of \$6,617.66.

Judge Miller presided over the capital murder trial of Larry C. Fortenberry, who was convicted Aug. 11 of the slaying of Motley County Sheriff Jalmar "Jinks" Wilson. The case was moved from Motley County to Hale County on a change of venue last summer and was tried in Plainview.

The trial resulted in an assessment of the death penalty.

**News & Reviews**

First Baptist Church Media Center

For cancer patients and those who minister to them, **MORE THAN YOU DARE ASK** is an honest record of courage, inspiration, and faith. Anne Shaw Turnage underwent surgery in 1973 for the removal of a malignant tumor. This book is a record, written by Anne and her husband, about this time of testing, hoping, fearing, praying and waiting. This journal offers an intimate look at the devastating effects of this major illness and how they found strength not only to cope, but to overcome. Without minimizing the seriousness of the situation, they maximize hope for every person dealing with this disease. The Turnages emphasize the constant refocusing of the patient's perspective in such a way that the person discovers that cancer, death, and the unexpected treasures of daily living are all a part of life itself. They identify the day-to-day oases of hope that are available to the cancer patient who may not be attuned to look for them.

The flavors of lemon and orange zest (the fine outside skin) are unique in the modern kitchen. The residual flavors are extraordinary and, when stored in sugar cubes, remain fresh and available without presenting texture problems as the grated or sliced peels do. Best of all they're FREE! Graham Kerr, in his book **THE NEW SEASONING**, goes on to give the details about how to use lemon and orange peel in this way.

In this personal and practical cookbook, he shares with you the story of his newfound faith and his joy in the simple pleasures of cooking good food and sharing it with family and friends. Throughout the book, Kerr emphasizes economy and sound nutrition, and he tells how to phase out many "convenience" foods and replace them with fresh foods that are not only much cheaper and better-tasting but much better for you.

**THE ANITA BRYANT STORY** tells Anita's side of the story in the recent controversy over her public stand against homosexuality. Seldom in recent years has one person been subjected to the kind of attack Anita Bryant has endured in the last few months. Boycotts and criticism have threatened her livelihood. Bumper stickers and T-shirts assail her. She has been the butt of jokes on radio and television. Most disturbingly, her family has received death threats, crank phone calls, bomb scares, and "hate" mail. In this book she explains what sustains and motivates her.

**SCHOOL MENU**

JANUARY 9-13, 1978

**Monday**  
Vegetable Beef Soup with Crackers  
Pimiento Cheese Sandwiches  
Pickle Spears

**JAMA LEWALLEN OUTSTANDING STUDENT**

Jama Lewallen was chosen Outstanding Youth of December by the 1956 Jr. Study Club. The club felt she has outstanding qualities that was most representative of our youth.

Jama is a senior at FHS this year. She is very well liked by all who know her. Fellow senior classmates named her Class Favorite recently. She has been Class representative for the past 3 years. She has lettered in golf 3 years, been a district medalist runner-up in golf and gone on to state in golf. The Student Council is proud to have her as a member. Jama also spends time as a photographer for the annual staff and as a reporter for the Whirl. She was chosen a member of the National Honor Society because of her scholastic achievements.

Jama serves her community in choir work at the First Baptist Church. She was raised in this community and is the daughter of Mr. and Mrs. Jamie Lewallen. After graduation this spring, Jama will attend Texas Tech. The 1956 Jr. Study Club is proud to name Jama Outstanding Youth because of her honesty and friendly personality.

**Scouting is . . .**

**Cub Scouting**  
For boys ages 8 - 10  
A family and home centered program that teaches self-confidence and personal reliance under adult supervision. As a cub scout boys will learn respect for others while developing team spirit and good personal habits.

**Scouting**  
For boys ages 11 - 15  
Offering endless opportunities for self-development and leadership in an adventure oriented program. As a scout boys can participate in outdoor hiking and camping, sports, trips and community projects. In addition, working with his patrol becomes a real life lesson in team work.

**Exploring**  
For young men and women ages 15 - 21  
Where young men and women have an opportunity to experience the world of work in career fields of their choosing. The firms sponsoring an explorer post give these young people an opportunity to test their interests and talents and thus decide at a relatively early age what they would like to do with their lives. As an explorer the South Plains Council can put your son or daughter in direct contact with people in areas of medicine, television, data processing, aviation, electronics, oceanography and more than forty other fields.

WE'LL BE RUNNING SPECIALS SOON SO WATCH OUR SIGN BOARD.

# FARM & RANCH NEWS

THE FUTURE OF COTTON was the big subject Thursday night in Floydada as representatives of Cotton Incorporated told of future plans to sell more cotton merchandise. (Staff Photo)

CARLOS HERNANDEZ escaped injury when this burr truck he was driving overturned Wednesday morning about a mile south of Floydada on the Ralls Highway. Wheels ran off the truck, causing the accident, according to the owner, Boone Adams. (Staff Photo)

## NEWS 'N' NOTES

(by Sharon Hillis)

### JANUARY SALES

January is good for sales, to help smooth the rough seas of a tight budget. Watch this month for white sales, storewide clearances, and furniture sales. It's important to understand why a price is reduced, and to know the difference between "Special Purchase" and "Markdown."

Either might be a good bargain, but the Special Purchase is usually merchandise bought from the manufacturer at a low price for a special role. A markdown is a lowered price on merchandise that has been in stock in the store through the season. Markdowns appear in store-wide clearances.

Check clothing mark-downs carefully for flaws, missing buttons, belts, or stains such as lipstick or make-up. (Make-up can often be removed by washing or dry-cleaning.)

Set a dollar goal for yourself when shopping sales, since staying within your budget. Also, comparison-shop the "on sale" item with another not on sale. It may cost less at another store.

heater type, consumers may want to consider the entire energy picture with its predictions about rising fuel costs before buying.

In line with that, the energy efficiency of different types is important, too. Specifically—

"Gas costs are generally less now than electricity costs, but some forecasts say gas prices may increase even perhaps twice as much as electricity, so gas-heating costs may increase."

"Gas water heaters are only two-thirds as efficient as electric water heaters, although gas units cost more per gallon than similar-quality electric units, buying a smaller gas-heated tank keep purchase prices of both types comparable."

Consumers, then, face decisions in which they must weigh fuel costs now against fuel costs of the future.

In other words, all of the factors together could mean that for today, with present fuel costs, gas models are more economical to operate than electric models but in the future, they might not be.

Finally, one other factor to consider is "hookup" cost for changing fuels on water heaters. Generally in replacing a water heater, a new one that uses the same fuel as the old one costs less initially, because it avoids the cost of installing a different fuel system, but that savings might be only a short-term cost cutter.

Compare the length of warranty periods offered by different manufacturers. Also make note of the parts and labor costs that are included or excluded from a warranty.

Most manufacturers provide a one-year warranty against tank leakage with a 10 year limited warranty for defective parts.

Compare the length of warranty periods offered by different manufacturers. Also make note of the parts and labor costs that are included or excluded from a warranty.

Most manufacturers provide a one-year warranty against tank leakage with a 10 year limited warranty for defective parts.

PLACEMENT DETERMINES "SHAPE"

In deciding on which shape to buy—either a round or square, let placement of the unit in the home determine the choice. Round units are most popular and fit many areas, but a square might fit best in a kitchen cabinet, for example.

MATCHING "SIZE" TO FAMILY NEEDS

Consider the home's present water-heater size and with the United States Air Force S.A.C. base in Omaha and accompanied the Carter party. Col Pyke was recently transferred from Andrews A.F. Base in Washington D.C. Their son, Jimmy, was also a visitor from the University of Maryland. Mrs. Pyke is the former, Myrna Wilson.

## Life After Death Experiences

There is a definite pattern to what everyone has said about 'life after death,' as revealed in Sunn Classic Pictures new motion picture "Beyond and Back."

According to Charles E. Sellier Jr., executive producer, here is what happens:

"A loud buzzing sound is heard, an intense white light overwhelms the person, people find themselves floating over their beds looking down at their bodies below, their lives race before them and most have seen something they knew represented a borderline between this world and the next—a door, a bridge, a small body of water. And somehow, they knew if they ventured beyond that point they would never return."

The film, rated G, is based on extensive documented research. It re-creates the 'life after death' experiences of more than a dozen persons. It plays at the Capada Theatre this week.

### LEGAL NOTICES

OFFICIAL PUBLICATION NOTICE OF TAX RENDITION 1978

I, Jack Samford, Assessor and Collector of Taxes, Lockney Independent School District, Lockney, State of Texas, do hereby give public notice that all persons, firms, corporations, and associations, public, or bonded warehousemen, and others, beginning January 1st, or before the last day of each and every year, shall furnish the Assessor and Collector of Taxes of Lockney Independent School District a complete statement, list, and schedule verified by affidavit, of all real and personal property situated in Lockney Independent School District, and all personal property located elsewhere, subject to taxation in Lockney Independent School District, owned, held, or controlled by them, or in their possession, agent, bailee, warehouseman, or custodian on the first of January next preceding, and shall in said statement, schedule, state the name and address of the owner or possessor of such property. Such list, statement, and schedule must be filed with the office of the Assessor and Collector of Taxes of Lockney Independent School District, located in the old bank building at the corner of College and Main Streets.

WITNESS my hand this 30th day of December, 1977.

/s/ Jack Samford  
Jack Samford  
Assessor and Collector of Taxes  
Lockney Independent School District

Lockney, Texas

Texas Law specifically state that everything of value is specifically exempt by the State Constitution from the meaning of taxable property. Courts have ruled for that where cattle are being fed, pastured, or otherwise on property owned or leased by another, the owner or possessor of the cattle himself and under certain circumstances, assessed for the cattle himself and under certain circumstances, required legally to pay the tax. The same example applies to equipment on lease, merchandise on consignment, and uses. Found any type of personal property, controlled by persons other than owner.
