Rain Breaks Long Dry Summer

Summer and much of the fall will go into the record books as the hottest, driest summer in the history of Floyd County in many years.

And, although grain harvest is in full swing and some farmers were stripping cotton the cool front that Tuesday night set off general rainfall was welcomed. Early morning reports were that just about all areas of the county

had received over an inch of rainfall. The rain was swept into the area on a cool front that included high winds and tremendous electrical display. Flooding was reported in Amarillo and Lubbock underpasses.

Over two inches were received in the Matador area. Floyd County had received only 12 inches of moisture for the year, missed getting any appreciable rainfall during the downstate floodings last month.

It was still raining Wednesday in some areas of the county and wheat farmers still look for more rainfall. Cattlemen also need the rain to get grass back into good condition before wintertime.

Weather "experts" felt the cool front and rain would break the September heat wave that was hitting the 90's most days.

Longhorns To Host Olton's Mustangs Friday

Longhorn-Olton Mustangs Friday night will match up in a gridiron war. Both teams won their previous games (Lockney 10-0

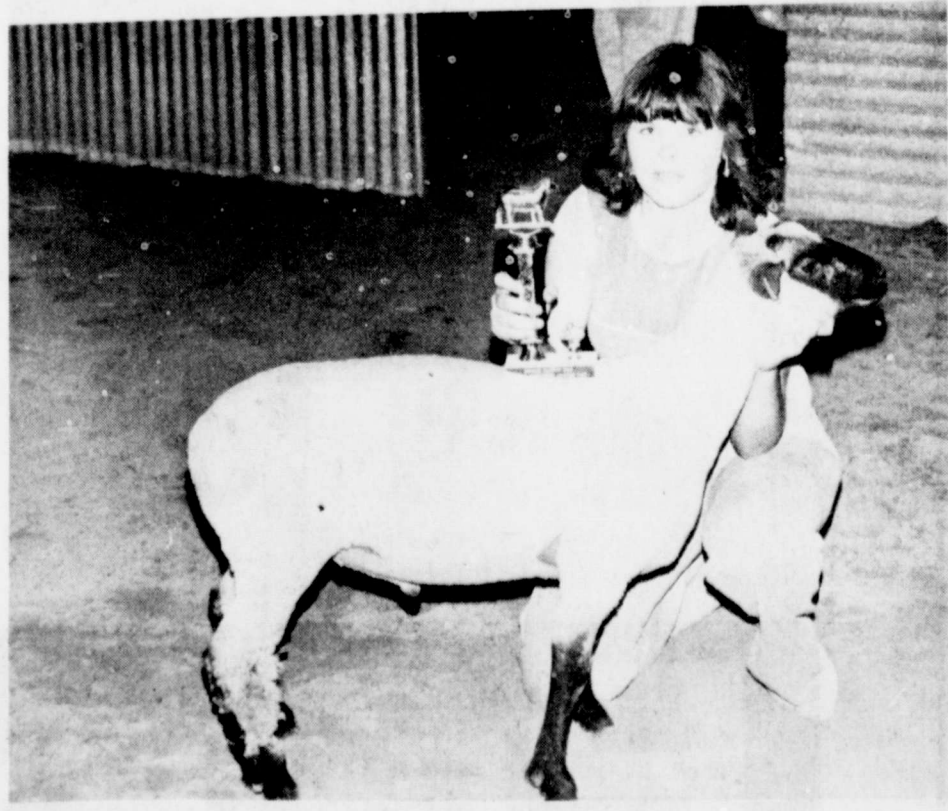

over favored Post, Olton 6-0 over Farwell); both lost close games last week (Abernathy beat the Mustangs 9-7 and Friona downed the Longhorns

7-5). So each team in the Friday-night tilt (scheduled to kick off at 8 in the Lockney Stadium) stands 1-1 even

though each defensive unit has given up but one touchdown in two games. The Mustangs are led offensively by Brad Allcorn, a 6-1, 176-pounder who's playing quarterback this year after quarterbacking the Ponies last season, and Charles Brown, 5-9, 173 pounds who started for Olton in '77.

Defensively, Olton's leaders are Steve Coffman, a 200-pound linebacker, and 195-pound tackle Steven Rose. "We're looking for a very physical game," head coach Jim Warren said Tuesday. "Olton is well-coached and they play aggressively." Warren said the Mustangs are extremely competitive—"They hit!" and a dangerous team. "We're going to need a super effort to beat them," Warren declared.

The Harris Rating System has tabbed the Longhorn-Mustang game at dead even, giving both teams strength ratings 193.8 and ranking them 88th and 89th in the state among Class-AA teams this week. Harris installs Post as a four-point favorite over Floydada.

School Board Takes Barker Insurance Bid

Independent School District trustees accepted the insurance, Lockney, for the school district Monday night at a special meeting of the board.

came after several months of study by the trustees on the school insurance matter. Floyd County Insurance Company and Bob Miller insurance also submitted insurance bids. Also Monday night, the trustees approved appeal of school tax valuation figures recently released by the State Tax Assessment Practices Board. Assessment values in the Lockney school district were set at a little over \$85 million in a study by the Governor's Office of Educational Resources, but new figures from the STAP Board placed assessment values at over \$154 million, an increase of over 76 percent.

Property use categories approved for appeal include single-family (15.6 per cent increase), land acreage (42.9 per cent increase), farm and ranch improvements (81.8 per cent increase), personal property, tangible (1,365.9 per cent increase) and personal property, intangible (1, 481.2 per cent increase).

Retha Wofford Is Football Contest Winner

Winner of the \$10 first prize in the Beacon contest last week was Retha Wofford, Box 611, Lockney. She missed only five games: L.A.-Dallas, Mulshoe-Floydada, Georgia-Baylor, Penn State-Ohio State, and Farwell-Morton.

everybody missed the Muleshoe-Floydada game, although Mosley and Ragland got it right. Other toughies were Georgia-Baylor (the Bears were favored by two points but lost by two), Penn State-Ohio State (the Buckeyes lost 19-10), and Farwell-Morton (Farwell 10, Morton 3).

Rick Mosley, Box 633, Lockney, missed six games and nosed out Homer Ragland, who also missed six, by guessing closer to the actual total score on the tie-breaker contest. Mosley guessed the total score at 21, eight points away from the actual total of 13; Ragland guessed 23 on the tie-breaker total, missing by 10. Both (in fact, everybody who entered the contest this time) picked the wrong winner (Lockney) in the tie-breaker. Mosley gets \$6 for second place, and Ragland receives \$4 for third.

NHS Slates 'Work Day'
The National Honor Society chapter of Lockney High School will have a "work day" on Saturday, September 23. Call Kevin Stennett, president of the Lockney NHS 652-2252, to arrange for a National Honor Society student to come to your home. They'll be doing jobs around the house. Pay what you feel it's worth.

Hostesses for the occasion were the year book committee: Mmes. J.P. Moss, Floyd Bradley, Alleningham, W.O. Newberry, J.R. Turner and Dennis Dempsey.

El Progreso Starts Club Year

The El Progreso Study Club began its new year Saturday, September 16 with a brunch in the home of LaVerna Sams with Faye Holmes as co-hostess.

A menu of sausages, scrambled eggs, Angel biscuits and fruit plate was prepared by the first half of the membership. Invocation was expressed by Arla Copeland.

The meeting was called to order by new president Anna Dell Quebe with a quote from the last year book, "Contentment is happy memories of things past, enjoyment of things present, and hope of good to come. She announced the theme of the new year, "Let us take time for all things," as a challenge to make this a good year for all the members.

Secret pals were revealed as a roll call with many lovely gifts and surprises. New names were drawn for the coming year.

The meeting closed with a reading of the Club Women's Collect. The next meeting will be in the home of Hazel Johnson, September 27, with a program on Stamp Collecting presented by Doug Meriwether.

Members present besides those mentioned were Katherine Ball, Ann Brock, Marie Brock, Arla Copeland, Faye Ferguson, Polly Gilbert, Juanita Jenkins, Bobbie Kellison, Pauline Sams, Dimon Schacht, Dorothy Smith and Jesie Taylor.

MENTAL DEPRESSION is a major mental health problem in America, reports Debby Johnson, a family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System. Statistics show that 15 percent of the nation suffers from depression, the specialist says.

Don't buy food in leaking, bulging, or damaged cans, cracked jars or jars with loose or bulging lids, cautions Mrs. Gwendolyn Clyatt, consumer marketing information specialist, with the Texas Agricultural Extension Service, The Texas A&M University System.

Although botulism is found more often in home canned foods than in commercial products, be careful either way, she urges.

A CONSUMER CAN CANCEL a home solicitation transaction up until midnight of the third business day following the day the contract was signed, reports Linda McCormack, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Others attending were Mr. and Mrs. Richard Nelson, Autumn and Crystal Aiken; Mr. and Mrs. Kelvin Cummings and Ken, South Plains; Donnie Myrick, Plainview; Dick Bunnell,

Drug Abuse Problems

STATION-Posible problems can be "prescribed" as well as "illegal" drugs.

people think of "drugs" only in terms of those that are bought and sold on the streets. But there are many other drugs that are prescribed by doctors. Some of these are necessary for health and well-being, but others can be abused and lead to serious health problems.

(1) Am I defensive if a friend or relative mentions my drug or alcohol use?

(2) Am I sometimes embarrassed or frightened by my behavior while under the influence of drugs or alcohol?

(3) Have I ever gone to see a new doctor because my regular physician would not prescribe the drug I wanted?

(4) When I am under pressure or feeling anxious, do I automatically take a tranquilizer or drink or both?

(5) Do I take drugs and drink alcohol at the same time?

(6) Do I take drugs more often or for purposes other than those prescribed by my doctor?

(7) Do I regularly drink alcohol or take drugs to help me sleep?

(8) Do I have to take a pill to wake up in the morning?

If you answered "yes" to any of these questions, you may have a problem with drugs, alcohol or both. Ms. Shearer cautions.

Funeral Services

Today For A. E. Baker

Funeral services for Floydada School Superintendent Alvin Estle Baker, 58 will be at 2 p.m. today in the Floydada First Baptist Church.

Mr. Baker died at 1 p.m. Tuesday in Health Sciences Center Hospital in Lubbock following an operation two weeks ago.

Pastor of the church Dr. Floyd Bradley will conduct the services and funeral directors will be Moore Rose Funeral Home.

Mr. Baker was born in Prairie Grove, Arkansas and moved to Floydada with his family in 1928. He graduated from Floydada High School, then went on to Hardin Simmons University where he played football and graduated with a major in history.

He then served four years in the Air Force which included service in England working on aircraft instruments.

He taught for a short period in Holiday School, before coming to Floydada schools in 1945 as a high school history teacher and assistant coach.

'Horn Frosh Take Post

Lockney High School freshmen notched a 12-0 football victory over Post here last Thursday. The Longhorns' scores came on a one-yard run by quarterback Jeffrey McCormick and a 22-yard run by tailback David Peralez.

Phillip Kidd caught four passes in the contest. Getting coaches' mention for good defensive play were linebacker Victor Villalon, end Rodney Smith, tackle Mack Sherman, and McCormick, who played halfback on defense. Giving good offensive performances, according to coaches, were McCormick, Kidd, and lineman Sherman, Karl Race and Martin Tickle.

Post won the junior varsity game 22-0. The Antelopes got a couple of quick, easy touchdowns and a safety, but other than that, the Lockney defense played well, coaches said, considering the amount of time they were on the field.

Quarterback John Cummings threw well, Johnny Rodriguez had two fine catches in the game, Oseas Alaniz ran "tough", the coaches said, and there was some good effort by new people in the offensive line.

Defensively, coaches mentioned Cummings, Joe Luna, Roy Moody, J.D. Gonzales, Javier Rodriguez and Nick Christian.

The ninth-grade and junior varsity teams play at Olton this evening. The freshman game starts at 5; the JV game follows.

Shorthorns 0-1-1 At Post

Lockney Junior High School football teams lost one and tied one last Thursday in grid contests at Post. The Shorthorn seventh-graders lost in a 22-14 cause, and the eighth-grade teams battled to a 0-0 draw.

In the seventh-grade contest, Lockney scored a 50-yard run and a four-yard plunge, both by Robert Rendon. Jackie Cunyus ran for the conversion points after the first TD. The second came on the last play of the game.

The Post team had lots of speed and managed to get outside of the Shorthorns. Moses Blanco and Moses Rodriguez did a good job defensively for the 'Horns.

Lockney was in poor field position most of the time in the eighth-grade game, as Post kept the pressure on defensively. But the Shorthorn defense was able to stop Post although the antelopes were in better field position. Kyle Brock picked off a Post pass, and Mario Arellano and Aurelio Salas had good, hard-hitting efforts on defense. Coach Lyndall Favor said.

The junior-high teams play Olton here today, starting at 5 p.m.

John Hill is attacking State Budget waste . . .

"I've already started my search for waste in the state budget. I want to be ready to tackle overspending the minute I take office as Governor in January. My budget office already is paring down big state agency budget requests, to keep spending within available revenues. We'll have to live within our means, because I'll veto any new taxes."

. . . because he knows our taxpayers need relief from inflation.

Lockney Care Center Family News

By Yvonne Steele

The watchwords for "family" this week were "enjoyment!" The parade began as we prepared for the parade. Helping us were Bill Pitchford, Sue and Cherilyn. Our thanks go to Anderson for the use of his pickup and for the float. Getting the float was only half the fun. Those of us who rode it were Myrtle Burke, Lewis Roberts, Lula Mae and also thank Jerry Miller for driving the bus for us. We are excited and looking forward to the Cecil Boyer Gospel Quartet Wednesday afternoon at 4:00 p.m. Many have expressed a desire to hear them sing and we would like to extend a welcome to the public.

Our returning resident, Randall Whitworth from Matador, seems happy to join our family again. Our family members in the Lockney General Hospital are Grace Byars and James Turner. Alpha Roach had surgery at Central Plains Hospital in Plainview. We look forward to their returning.

GETS NTSU MASTERS

North Texas State University awarded 1,036 degrees Aug. 12 at the summer commencement. In addition to 507 bachelor's degrees, the university granted 473 master's and 56 doctorate degrees, during ceremonies in the NTSU Coliseum. South Plains News

By Mrs. Murray Julian

South Plains, Sept. 18th. Members of the South Plains Community Church Women's Union met Thursday morning at 9:00 o'clock for breakfast and a program. Mrs. Mamie Wood, hostess, served the Mary Hill for the Mary Hill Missions. They completed the program and sessions starting at 10:00 a.m. Theme for the week was, "Worship - Give Me Reason to Give..."

John 3:16 as the theme. Coffee and doughnuts were served on the table. Tillman Dick Lyons, Fred Fletcher Powell, Mrs. Mulder and Mrs. Wood, hostesses, were present. A tape from August WMU House was enjoyed during the program.

Mrs. Sylvan Kinney and her cousins, Mrs. J.D. Horn from City, Okla. left for a tour of the Big Bend National Park. They plan to be home on Wednesday. Baptist Church there had a first GA, RA, Mission Friend meeting on the new church year. The meeting was during the summer.

B.F. Harper from San Antonio have been married September 2nd, and are making their new home in Plainview. Mrs. Peters will be teaching the first and second grade pupils here this coming year. We add our best wishes to the young couple.

George West and his nurse, Mrs. Dorothy Merrell, arrived back home this week from Ruidoso, New Mexico, where they have been staying the past three weeks at the West home in the Ruidoso mountain area. Mr. and Mrs. Tom Taylor and family have moved to Ruidoso, now and are making their home there.

Mrs. Bonnie Moore, who has been residing in the Herman Thornton home the past months, will leave Sunday for Florida, where she will be spending the coming months with relatives in Jacksonville. Mrs. L.T. Wood is taking her to catch her plane in Lubbock.

Miss Dee Julian and Dr. William Barnes from Abilene spent Sunday visiting here with her relatives, Mr. and Mrs. Kendis Julian where they had Sunday dinner, and with her grandparents, Mr. and Mrs. Murray Julian.

Sunday night, September 10th, Rev. and Mrs. Fred Blake, pastor and wife of the South Plains Baptist Church were surprised with an anniversary party at the Fellowship Hall of the Baptist Church. A week of Prayer for the Mary Hill Day State Mission study was held after church services Sunday night, and then all gathered for refreshments

and the surprise anniversary party, honoring the Blakes on their 41st wedding anniversary. Mrs. Bessie Myers from Tulsa was an overnight guest at the home of Mrs. Mamie Wood Saturday night, and was a visitor with her at the South Plains Baptist Church for Sunday morning services. Christmas in August, was started with a Baptist Church breakfast on August 30 at 8:00 a.m. and there was a nice crowd in attendance for the get together. The Christmas Tree was set up, and gifts were piled there for the needy, with the gifts that were given, to be taken to Greeley, Colorado to be given to a Mission Church there.

Atha Blake left last Saturday for Plainview where she will be attending college classes at Wayland College during the coming year. Grady Spivey of Navasota, visited here with his sister and family Mr. and Mrs. Sylvan Kinnibrugh on Friday and Saturday a week ago.

Mrs. Glen Whitfill and her daughter, Mr. and Mrs. Terry Micheals of Dallas came from Sweetwater on Sept. 3rd and 4th to visit here with Mrs. Whitfill's parents, Mr. and Mrs. Alvin Nichols. Hobby Club members met at the home of Mrs. Harold Hamm for their first meeting of the fall on Wednesday, Sept. 13th, at 2 p.m. Mrs. Hamm president called the meeting to order, and roll call was answered with "Something I have done with Nails." Mrs. Dick Lyons gave the Thought For The Day, a story about Frank Norwath, of Joliet, Ill. who has gathered nails from 40 countries, and has about 15,000 varieties. Mrs. Willa Dee Smith who resides near Hale Center, was the demonstrator for the work, which she presented and helped individuals. Nails in sculptor work and windmills made from nails and fixed

upon boards, especially made for the plaques were used. Mrs. Hamm served angel food cake, strawberries, cream, and coffee and punch at the refreshment hour. Present for the demonstration with the gracious Mrs. Willa Dee Smith were Mrs. Nathan Mulder, Kendall, Cummings, Tillman Powell, J.P. Taylor, E.J. Kinslow, Dwight Teeple, Alvin Nichols, Fred Fortenberry, Howard Staple, Arby Mulder, Murray Julian, Fred Blake, L.T. Wood, Richard Lyons, Fred Marble, Leighon Teeple and hostess Mrs. Hamm. December 8, was set for the Christmas get-together for the Hobby Club and gift exchange, with the meeting to be held at the Far East Restaurant in Plainview. Mrs. Nathan Mulder will be hostess for the next Hobby Club Meeting, and this will be on October 11, at 2 p.m. in her home near the Silverton Highway. Bring a coffee can to this meeting to be used in Hobby Club work.

Mr. and Mrs. E.J. Kinslow left a week ago Sunday for a trip to Greenville, Arkansas where they visited her sister, and several other relatives while they were touring the state. The crops of corn being cut were in evidence everywhere, they

PUBLIC NOTICE
SUMMARY OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION NOV. 7, 1978

"The Tax Relief Amendment" (H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homestead of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the revaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

authority where the property tax is imposed. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to provide that the legislature may permit political subdivisions to issue revenue bonds to develop employment opportunities for its citizens."

NUMBER THREE (S.J.R. 44)

S.J.R. 44 proposes an amendment to the Texas Constitution which would allow the legislature to authorize cities and towns to issue tax increment bonds to finance the redevelopment of blighted areas. The bonds are to be paid solely from revenue from municipal tax increments. Payment cannot be made from the revenue of municipal taxes, utilities, or other services.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to give the legislature the power to authorize cities and towns to issue bonds to finance the redevelopment of blighted areas within any city or town from granting its money or lending its credit for such purposes."

NUMBER FOUR (S.J.R. 53)

S.J.R. 53 proposes an amendment to the Texas Constitution to allow the legislature to exempt from taxation solar or wind-powered energy devices. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing the legislature to exempt from taxation solar and wind-powered energy devices."

NUMBER FIVE (H.J.R. 37)

H.J.R. 37 proposes an amendment to the Texas Constitution to grant exclusive jurisdiction to justices of the peace in civil cases where the amount in controversy does not exceed \$200, except where the legislature gives exclusive jurisdiction to another court. The amendment grants justices of the peace concurrent jurisdiction with county courts where the amount in controversy is between \$200 and \$500, except where the legislature gives the county court exclusive jurisdiction. The amendment also grants justices of the peace concurrent jurisdiction

with both county and district courts where the amount in controversy is between \$500 and \$1,000, except where the legislature gives the county or district court exclusive jurisdiction. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to extend the jurisdiction of justices of the peace in civil cases."

NUMBER SIX (S.J.R. 45)

S.J.R. 45 proposes an amendment to the Texas Constitution to allow the legislature to expand the number of judges on any court of civil appeals. Presently courts of civil appeals are limited to a chief justice and two associate justices. The amendment also would allow the courts to sit in sections, with the concurrence of a majority of the judges sitting in the section necessary to decide a case.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment permitting the legislature to increase the number of justices on a court of civil appeals, permitting a court of civil appeals to sit in sections, and requiring a concurrence of a majority of justices to decide a case."

NUMBER SEVEN (S.J.R. 48)

S.J.R. 48 proposes an amendment to the Texas Constitution eliminating the State Building Commission and the State Building Fund. The authority of the State Building Commission has been transferred by law to the State Board of Control. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to repeal the constitutional authority for the State Building Commission and the State Building Fund."

NUMBER EIGHT (H.J.R. 42)

H.J.R. 42 proposes an amendment to the Texas Constitution allowing certain political subdivisions or districts in the state that can presently issue bonds or otherwise lend their credit to engage in fire-fighting activities and to issue bonds or otherwise lend their credit to support such activities. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendments authorizing certain districts to engage in fire-fighting activities and to issue bonds or otherwise lend their credit for fire-fighting purposes."

UN RESUMEN DE LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION ELECCION GENERAL 7 DE NOVIEMBRE DE 1978

LA ENMIENDA PARA ALIVIO DE IMPUESTOS (H.J.R. 1)

H.J.R. 1 propone una enmienda a la constitucion de Texas permitiendo a la legislatura que exente propiedad personal intangible; requiriendo que la legislatura exente ciertos articulos caseros y efectos particulares; y permitiendo a la legislatura que exente toda o parte de la propiedad personal del hogar seguro, de la imposicion de impuestos estatales y locales sobre propiedad.

La enmienda requiere a la legislatura que disponga la imposicion de impuestos sobre tierras agricolas y rancheras basada en su capacidad productiva en vez de su valor de mercado y permite a la legislatura que disponga la imposicion de impuestos a bosques de madera basada en su capacidad productiva.

La enmienda permite a los gobiernos locales que exentian la exencion actual de no menos de \$3,000 del hogar seguro residencial para personas de 65 años o más de edad para incluir ciertas personas incapacitadas.

La enmienda concede una exencion de \$5,000 en el valor de mercado del hogar seguro residencial en los impuestos para escuelas publicas sobre propiedad. Autoriza a la legislatura que conceda una exencion adicional de los impuestos para escuelas publicas sobre propiedad de una cantidad que no exceda \$10,000 del valor de mercado de hogares seguros residenciales de personas 65 años o más de edad y ciertas personas incapacitadas. Si la persona de 65 años o más de edad es elegible para esta exencion la cantidad total de los impuestos para escuelas publicas sobre el hogar seguro de aquella persona no puede incrementarse.

La enmienda previene que gobiernos locales incrementen los impuestos sobre propiedad a menos que el cuerpo administrativo provea aviso público y lleve a cabo una audiencia pública. La enmienda requiere a la legislatura que disponga por ley que cada propietario reciba aviso de la revaluación de su propiedad y la cantidad de incremento en sus impuestos.

La enmienda limita las apropiaciones de los ingresos de impuestos estatales en una cantidad que no exceda la tasa de crecimiento económico estatal que se anticipa, con la legislatura autorizada para conceder exenciones de emergencia.

La enmienda prohíbe la valuación de propiedad inmueble a través del estado para los fines de impuestos sobre propiedad. Se requiere que la ejecución de

normas y procedimientos uniformes para la valuación de propiedad con el propósito de impuestos sobre propiedad, se origine con la autoridad que impone los impuestos sobre propiedad.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue: "La enmienda constitucional disponiendo alivio de impuestos para hogares seguros residenciales, personas mayores de edad, personas incapacitadas, y tierras agrícolas; extensiones de bienes muebles; la verdad en procedimientos de rehabilitación de impuestos; incluyendo participación de ciudadanos; de nuevo definiendo la base de impuestos; limitando los gastos del estado y la administración de impuestos sobre propiedad."

Dear Sir:
My name is James W. Moore, I am presently confined in the Federal Correctional Institution at Lompoc, Calif. The reason for my letter is I am a very lonely person so I thought that I would write to you and ask if you would publish an ad in your newspaper for me, for perhaps there may be someone else as lonely as myself who would like to exchange letters with me.
Also in closing this letter, I would like to say thank you for your time and trouble in considering this letter.

Minutes Of Floyd County

Grievance Committee

At the request of Floyd Commissioners the complete report of the Floyd County Grievance Committee is hereby reported.
The Floyd County "Grievance Committee" met at 10:00 o'clock a.m. on August 22, 1978, at the Floyd County Courtroom in the courthouse in Floydada, Texas, pursuant to a petition filed in writing by H.E. Porter, Justice of the Peace of Precinct 1-4, and notice of such meeting sent out by County Judge, J.K. Holmes, for the purpose of passing on the petition of H.E. Porter, a copy of which is attached hereto and made a part hereof.
The following members of the Grievance Committee being present: The County Judge, J.K. Holmes, who acted as Chairman, the sheriff, Fred Cardinal; the county tax assessor-collector, Jonelle Fawver; the county treasurer, Glenna Mae Orman; the county clerk, Margaret Collier; the district clerk, Mary L. McPherson; the county attorney, Kenneth Bain, Jr. and three residents of the county as provided by law, to-wit: Mrs. Robert Ward, Kenneth Poole, and Jerry Miller.
The meeting was called to order by Judge Holmes.
Judge Holmes had Judge H.E. Porter present his petition to the committee. Questions were asked and a general discussion had.
A motion was made by sheriff, Fred Cardinal, and seconded by tax-assessor-collector, Jonelle Fawver, as follows: "Motion is made to raise the salary of the Justice of the Peace of Precinct 1-4 of Floyd County, Texas, the sum of \$125.00, and in addition to consider that the present travel pay of \$125.00 be considered as all salary, so that the total salary per month of the Justice of the Peace of Precinct 1-4 of Floyd County, Texas, be set at \$714.00 per month with no travel pay."
Motion passed unanimously by all 9 voting members of committee. The above is the written recommendation of all nine members of the Floyd County Grievance Committee.

Smaller Crop Brightens Cotton Price Outlook

COLLEGE STATION—Prospects for a smaller cotton crop than was expected earlier this year have improved the price outlook despite sagging demand.
With deteriorating crop prospects in West Texas and California, U.S. production may be down to about 11 million bales instead of the 11.8 million estimated by the U.S. Department of Agriculture Crop Reporting Board on Aug. 1. The 1977 crop totaled 14.4 million bales.
"The shortfall points to a price level somewhat higher in the second half of 1978 than the average of 49 cents per pound received by Texas producers during the first half of the year," notes Dr. Carl G. Anderson, cotton marketing specialist with the Texas Agriculture Extension Service. "However, supplies are expected to be adequate to meet disappearance. This means that carry-over of cotton at the end of the 1978-79 season will be only slightly less than the 5.4 million bales on hand when the season started."
While the close balance between production and takeoff will cause the market price to be sensitive to news about any changes in worldwide production, the overall price increase will likely be small. Due to the sluggish demand, a much larger drop in production than now anticipated will have to develop to trigger a substantial jump in price, believes Anderson.
Even though planted acreage in Texas is close to that of last year, the crop is suffering from lack of moisture and hot weather. So it may fall short of the 3.7 million bale crop estimated by the Texas Crop and Livestock Reporting Service in early August. This compares with 5.5 million bales last season and 3.3 million bales in 1976. However, production prospects are better in other major cotton growing areas.
"The higher price earlier this year has apparently encouraged foreign producers not to reduce cotton acreage as much as planned earlier," notes Anderson. "Foreign production is expected to slightly exceed the 49.3 million bale crop estimated for the 1977-78 crop year."
Foreign consumption is also expected to change little and will likely exceed production by about 5 million bales during the present year. That would be about the same size as the gap in 1977-78 and should maintain a strong export market for U.S. cotton, believes the marketing specialist. Cotton consumption in foreign countries is lagging as slow economic growth and a high rate of inflation are reducing the purchasing power of consumers, especially in Japan and several European countries.
"In the U.S. mill consumption of cotton continues to shrink while use of man-made fiber is increasing."

What One Person Can Do
HATTIE FIELDS, PROBLEM-SOLVER
As part of a community-help program in Belle Glade, Florida, Hattie Fields visits elderly people. When they ask, "Have you any vegetables that I can spare?" she usually has. These people live in gardens most of their lives, but now they are old or too old to do the thing for themselves. Fields had been a worker for 26 years now, she wanted to help the people with the vegetables they had. One day, she had a large piece of land growing at the north end of the property. She didn't seem to be doing the superman wanted to grow for the poor and she had him for one year. The idea and program for State approval called with good results. Fields, I got her 13 acres.
Then, Hattie Fields for workers. She was director of the government-assisted project that had been poor. He said he was what we can do. morning they were preparing the ground. men showed up. was available. still, they set a That first harvest of greens was not enough for the families Mrs. Fields was helping.
And in the first year, the garden was giving.

The Floyd Philosopher
Thinks He Has Found A Way To Get
The World To Rid Itself Of Bombs

Editor's note: The Floyd Philosopher on his Johnson grass farm has been thinking hard about the world's plight, his letter this past week suggests.
Dear editor:
Although everybody may not have turned in all his figures, the latest calculation is that the world is spending 400 billion dollars a year on armaments, with enough bombs already on hand to kill everybody ten times over. It's one of the worst ways I can think of to rid New York of its dog problem.
If the world would suddenly disarm, think what could be done with all that money, although you don't have to think hard because the politicians would be miles ahead of you figuring out what to do with it.
Here's the situation: Russia and the United States and a lot of other countries if they can borrow the money have guided missiles in place, each aimed at a pre-determined city, a Russian one aimed at Washington, a U.S. one aimed at Moscow, and on down the list of other cities and targets throughout the world, although it's possible Floyd County towns may not have made the list yet. Those bombs cost real money and the cost-benefit ratio of hitting Floyd County towns might exceed governmental efficiency standards.
In other words, the world has got itself in a precarious mess and something needs to be done about it.
Now the idea of all nations voluntarily disarming is a beautiful theory but isn't suited yet to the human species. What it'll take is forced disarmament and I think I've hit on the way to do it.
As I understand it, a laser beam has now been perfected that'll shoot down an incoming guided missile. Aim the beam traveling at the speed of light at a missile and POW, the bomb inside explodes.
There's the key to world disarmament. If you can make a laser beam that'll explode an enemy bomb in mid-air, why can't you make one that'll explode it on the ground in enemy territory on in a silo or in a submarine under the sea?
With such a beam, a hydrogen bomb in hand would be a million times worse than two in the bush. Who'd want one of the things in his country? When all somebody had to do was push a laser button and have it blow up in your face? There'd be the wildest scramble you can imagine to get shed of the things.
The laser beam may be the hope of man, until he can invent a laser-proof bomb.
Yours faithfully,
J.A.
