

The Lockney Band Boosters annual bazaar will be Tuesday, November 21 in the building recently occupied by White Auto Store, 119 South Main Street. The bazaar will be open "from 8 a.m. until —". Gift items and baked items for Thanksgiving will be sold.

Longhorns Lose 26-9 In Football Finale

The Lockney Longhorns lost their 1978 football game Friday night, 26-9 to Idalou. The Wildcats scored playoff berth by winning, finishing district 4-AA play with a 3-1 record and a victory over Floydada, also 3-1 in district.

The Longhorns scored first, on a field goal by Johnny Arjona. The Wildcats took the opening kickoff and played into the game, had three plays on the board. First play from scrimmage, Arnold Alanz picked up 27 yards on a reverse. Earlee Mathis got a 10, and a facemask penalty against the Wildcats moved the Horns to Idalou 21. They advanced to the field goal. Arjona stepped in and booted the field goal.

The lead lasted three minutes, as it took the Wildcats just seven plays after the kickoff to score again. Fullback Ricky Hobbs got the TD from 25 yards away after the 'Cats had moved from their 30 on carries by Gary Smith (one for 15, another for 13 yards), Bryant (a seven-and-a-five-yarder) and Hobbs (a pair of five-yard totes). Bryant ran for the extras but didn't make it. The count stayed at 13-9 until halftime, thanks to a Brad DeBusk interception of the Lockney 27, half a minute before intermission.

Doyle Warren Moving To Hidalgo County

G. Warren, Floyd County agent since 1970, has accepted position in Hidalgo County as county agent and agricultural promoter.

In July, Warren received the highest recognition given by the National Association of County Agricultural Agents, its Distinguished Service Award. It is presented annually to county agents throughout the nation who have made outstanding contributions to agriculture and rural living for 10 years or more.

Warren began his Extension Service career in 1965 after graduating from Texas Tech University. He served six months in Lynn County as a junior assistant county Extension agent, and then became assistant county agent in Dawson County for two years. He served three years in Lubbock County as assistant and county agent before

being named county agent for Floyd. Since moving to Floyd County, Warren has given major emphasis to educational programs designed to increase the net profit of agricultural producers. Gunter said, Marketing and management have been combined with programs in crop production and soil fertility.

Lady Horns Lose Opener

The Lockney High School Lady Horns played their first varsity five-player basketball game every Thursday night. The Lady Horns suffered a cold-shooting evening and lost to the Owlettes by a score of 43-38.

Rebecca Evans and Stephanie Turner shared high-point honors for Lockney, netting nine each, and Karla McCarter scored eight. Julie Frizzell put in six, Rise Taylor four and Jody Nance two for the Lady Horns. Mayfield led Silvertown with 21 points.

Boedeker's Grandparents Came From Germany

Charlie Boedeker doesn't have a answer when he is asked about the making of the Providence Community made up of such family names as Schaefer, Boedeker, Ratzin, Koenig, Quebe, Stoerner and German names.

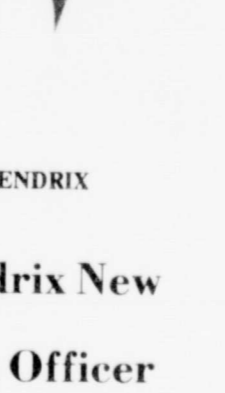

They came by train to Plainview. The father, who had come earlier, met them there. Near the Plainview railway station was the Plainview Lake. "It was the prettiest thing you ever looked at. There was an island in the middle of it. Swans swam all around. It was a beauty spot."

Charlie Boedeker

It was during the depression that Charlie and Gussie married. "At one time, I was working for Fields Keffler, who owned a bunch of farms. My dad had sold them the place near Providence. They had put down irrigation wells. I rented from them. They hired me to look after the farms at 25 cents an hour."

Billy Hendrix New Probation Officer

Cosmetics With Care

ly. If a reaction occurs, such as redness, itching, swelling, soreness or blisters, stop using all cosmetics that may be affecting that area. If the reaction persists, see a doctor immediately. Take the suspect cosmetic along. If that cosmetic was responsible for the reaction, write a letter to the product manufacturer whose address is on the package. Send a copy of the letter to the Food and Drug Administration, 3032 Bryan Street, Dallas, Texas 75204.

EXTRA PRECAUTIONS

- Use aerosols carefully and avoid inhaling them.
- Keep all cosmetics out of children's reach.

Dwane Mark Martin on Who's Who

The 1978-79 edition of WHO'S WHO AMONG STUDENTS IN AMERICAN UNIVERSITIES COLLEGES will name one Trinity student from Floyd.

Dwane Mark Martin of Mr. and Mrs. M.E. South, has been selected for the purpose of sale, and those being among the most outstanding leaders.

Students included in the directory are chosen on the basis of their achievement, service to the community, leadership in curricular activities and future potential.

Selection is made by a committee of higher institutions of higher learning in all 50 states, District of Columbia, and several foreign countries.

Outstanding students have been named in the directory since it was first published in 1934.

Safety

An estimated 120,000 injuries and more than 200 deaths occur each year in a bathroom and shower. The most serious bathroom accidents involve falls, electrocution and drownings, she points out.

FALLS

Soapy water and the smooth surface of bath tubs is a slippery combination. Use a rubber mat or rough face adhesive strips to keep footing more secure when getting in and out of a tub or standing while taking a shower, she advises.

BURNS

The young, aged and handicapped are especially vulnerable to burns from hot water because they are less able to react quickly to agencies, she continues. Always test the bath water before bathing an infant or small child. Also, never leave a child in the tub. The child easily be scalded by gently turning on the hot

Mr. and Mrs. Jake Colvin of Lockney announce engagement of their daughter, Lynette King, to David King of Mr. and Mrs. Jimmy Green of Floydada. The wedding vows will be read December 9 at 7:30 p.m. in the home of the bride-elect's parents. She is attending high school in Lockney. He is employed in Lubbock. They will be married in Lubbock.

Increased Demand In Fur Trade

Increased demand for Texas furs has been reported for the 1978-79 season. The estimated number of fur-bearing animals harvested increased from 277,535 in 1972-73 to 1,026,800 in 1977-78. The value of these furs rocketed from \$1,205,809 to more than \$16 million during these six years.

Wholesale and retail fur dealers increased from 34 to 106 respectively in 1972-73 to 191 and 448 in 1977-78. In addition to the growing army of trappers, there are about 25,000 con and cat hunters and 30,000 fox and coyote hunters who enjoy pursuing these fur-bearing predators with packs of baying hounds entirely for sport alone. Their expenditure alone could be in the realm of \$75 million annually for their sport.

Even though hound men and trappers are the primary users of the fur-bearing resource, they are not the only Texans whose recreational needs are fulfilled and interests stimulated by these animals.

Landowners on whose land these animals dwell also have a vital interest in them. The predators fill an ecological niche and maintain a balance necessary for the existence of all living things in a healthy state upon the land.

In March 1978, a statewide program was established for fur-bearing management with the primary objective to provide the greatest possible sustained yield of fur-bearing animals throughout the state. A certain percent of this yield will be considered available for hunters and trappers to harvest for monetary gain.

The P&WD must obtain accurate information regarding the population of fur-bearing animals, their distribution, reproduction, limiting factors, sociological and economic factors and implications.

Cooking Good - Looking Great Winners!

Others winners are John Koonsman, 2nd place, and Sherry Kinard, 3rd place, both of Lockney, who had side dish entries.

All participants were blue ribbon winners scoring between 90 and 100. Agent Sharon Hillis said. Weather, illness, and sports functions took its toll at the last minute on the original thirty-eight who planned to enter. Ms. Hillis stated. The youth who participated are to be highly commended, she added.

All Senior, Junior I winners and Junior I Breads and Desserts winners will compete on Saturday, December 2, at Texas Tech with youth from twenty other counties for top honors in the District 2 Food Show. Senior winners are eligible to go on for State competition.

Spelling theft

Before Noah Webster compiled his dictionary, he produced one of the most useful volumes ever printed in English, the Blue-Back Speller. Unscrupulous publishers pirated the Speller and reprinted it without payment or credit. This led Webster to devise and champion the federal copyright law which Congress enacted in 1790 to protect the rights of authors. An 1870 law made the Library of Congress the first central agency for the registration and custody of copyright deposits in the U.S.

What One Person Can Do

Whenever I see handicapped people I try to treat them as though they didn't have any handicap at all. Partly this is because I know that's the way they like to be treated, and partly it is because I've learned that the handicapped are normal human beings with one difference: part of their body doesn't work properly. The fact of their normality is beautifully dramatized in the person of Susan Davidoff. She is deaf. Her hearing loss began at the age of seven; at sixteen, her honor grades were slipping and she got her first hearing aid. Today, at 26, Susan holds two college degrees, teaches modern dance to the deaf in Montgomery County, Maryland, and recently made her national TV debut in a musical entitled "Sing a Sign." She wrote the theme song and starred in the show. Susan believes the show provides deaf people with a new kind of entertainment, proves that the deaf can be good performers, helps make

Get Land Owner's Permission To Hunt

LUBBOCK--Hunting on someone else's land is a privilege and should be regarded as such.

It takes time and effort to get permission to hunt and much less time to close gates

that you have opened. A display of thoughtfulness of the rights of the one on whose land you hunt will insure future hunts.

Problems between landowners and hunters affect all

of the sportsmen and the Texas Parks and Wildlife Department. More often, the problems are left with the landowner and excellent hunting areas are posted by the owner who has had

enough of policing up trash, chasing livestock that have wandered through open gates and examining damage caused by a very small minority of hunters each season.

The majority of hunting in Texas is on private lands and continued violations of the landowners rights can only reduce the total prime hunting areas this fall for you and your children.

Let's show our good manners as the hunting seasons continue this fall.

HUNTER PREPARATION

LUBBOCK--There is something about our national character that makes most Texans feel they are born with a natural flair for shooting well which is not necessarily so.

Preparation for hunting should include sighting-in of rifles and practice with shotguns, physical conditioning to be able to cope with the unaccustomed physical effort, study of the game, its habits and identification of game as well as other hunters.

It is not enough to shoot well. The hunter must also know when to shoot and when to lift his finger from

the trigger. Responsible conduct toward the sport of hunting demands that the hunter do it well. The general public, while continuing to be tolerant of hunting, is less

tolerant of ill-prepared hunters going afield.

GIVE TO THE SALVATION ARMY

OBITUARY

W. M. (Dub) Day Jr.

Rankin, Texas (Special) Services for W. M. (Dub) Day Jr., 53, of Rankin were held Tuesday November 14, in the First Baptist Church. Burial was in the Rankin Cemetery under the direction of Larry D. Shepherd Funeral Home of Crane.

Day died at 6:15 p.m. Saturday in M.D. Anderson Hospital in Houston of an illness.

The Ralls native was born March 9, 1925. He finished high school in Ralls, and was a graduate of A&M University, a veteran of World War II, and was a member of the Texas A&M Association and Texas Agriculture Agents Asso.

He was married to Hazel Christeen Yocham, on June 28, 1949 in Rankin. He was county agent for Upton County 30 years.

Survivors are his wife; his mother, Mrs. W.M. Day of Ralls; three daughters, Debra J. Burwines of Des Moines, N.M.; Diane Sigman of Odessa; Dennis, L. McBee, Midkiff; two sisters, Ozella Wright, Ralls; Bozenna Denton, Stockton, Calif.; one brother, Alius Day, Houston; and a grandchild, and other relatives.

The family suggest memorial go to a scholarship fund in the First State Bank, Rankin.

Day had several aunts and uncles in Floydada. Those who attended the funeral in Rankin, Tuesday were Mrs. Theima Jones, Marie Tardy, George Smith, Mr. and Mrs. Robert Smith, unable to attend the rites were Leonard Smith, Mrs. Otis Murry of the Floydada Nursing Home and Mrs. Virgil Martin, Hale Center.

Ruby F. Leonard

Services for Ruby Leonard, 82, were Saturday November 18 at 3 o'clock in the First United Methodist Church in Floydada. Officiating, Burial was in the Rankin Cemetery under the direction of Moore-Rose Funeral Home.

Mrs. Leonard was August 17, 1896 in Mehan County. She was married to Olin M. Leonard in 1917. He preceded her death in 1960. In 1970 she married Troy M. Leonard who died in February of last year. She died Thursday, November 16 at the Floyd Nursing Home. She was a home-maker and a member of the First United Methodist Church.

Survivors include one son, O.M. Leonard, Jr., and granddaughters, Louise and Patricia Leonard.

The family requests memorials be made to First United Methodist Church, the Floyd County Library or the American Heart Association of the National Bank in Floydada.

Pallbearers were Joe Pilling, Wayne Appling, Miller, Kenneth Bain, Choise Smith and O. Guffee.

Frank Baughman

Frank Baughman, 68, of Route 2, Plainview died at 1:30 a.m. Friday, November 10 at his home after a lengthy illness.

Services were held Saturday afternoon in Main Street Church of Christ in Lockney with the minister, Jerry Klein, officiating. Burial was in Plainview Memorial Park directed by Lemons Funeral Home.

Charles Frank Baughman was born Jan. 24, 1910 in Archer City and grew up in Edgewood where he attended school. A resident of Plainview since 1927, Mr. Baughman farmed until his retirement in 1973.

He was a member of Main Street Church of Christ in Lockney. He and the former Grace Cross were married Sept. 3, 1938 in Plainview.

Surviving are his wife; two daughters, Donna Crumpler of Lubbock and Carol Sue Baughman of Finney; one son, Charles Baughman of Amarillo; one sister Mrs. Joe Edwards of Plainview; and six grandchildren.

Newell A. Curry

Survivors of the couple will be giving to include Schacht Flowers, Gills, Davis Lumber, Rockland's Auto Sales, Thomason Auto Store, Parker Furniture, Baccus Motor

Mr. Curry was born 1913 in Parker, Okla. He moved to Quittaque in 1938 from Tupelo, Okla. He lived in Plainview since moving here from Quittaque.

He retired in February this year after 11 years in the Texas Highway Department. Mr. Curry was a member of Fairmont Baptist Church in Quittaque.

He married the former Jeffee Parsons Aug. 14, 1938 in Clovis, N.M.

Surviving are his wife; son Jerry Turner of Poston, Calif.; one daughter, Lewis Walker of Kress; sisters, Mrs. Loy Jeffrey Hale Center and Mrs. Hunter of Quittaque; brother, John Turner Lockney; and five grandchildren.

Pallbearers were Sam Wilson, Bill Caslin, Al Buhkühl, Howard Noble Cross and M. Bennett.

Ola E. Curry

Joint services for Newell and Ola Esther Curry of Meadow were held Friday afternoon in the First Baptist Church in Lockney with Rev. Glenn Wilson, pastor of the First Baptist Church of Amherst officiating. John Leroy, of the Church of Christ ministered.

Burial was in Lockney Cemetery under direction of Moore-Rose Funeral Home in Lockney.

The couple was married Nov. 13, 1937, at Lockney and had lived at Farwell Meadows six years ago.

Curry, 71, was a realtor and member of the Church of Christ. Mr. Curry, 73, was born in City, Okla., and was a Baptist.

Survivors of the couple include a son, Newell W. Curry of Meadow; a daughter, Patsy Lacey of Lubbock; and two grandchildren.

Curry also is survived by a brother, Clyde Farmington, N.M.; sisters, Edith Stanton of Plainview, Vera Hollan of Lubbock, Lois Moore of Phoenix, Ariz., and a daughter, Bird of Fort Morgan, Okla.

Mrs. Curry also is survived by a brother, J. Williams of Portales, N.M. and two sisters, Mary of McAdoo and Jewel of Hale Center.

Emergency Loans Available For Farmers And Ranchers

Emergency loans for farmers and ranchers are available through county offices of the Farmers Home Administration (FmHA). Gary L. Brown, FmHA County Supervisor said today.

Gary Brown asked that those who need farm credit as a result of one or more of the following disasters make their needs known at the FmHA office at 107 W. California, in Floydada or at the FmHA office in Crosbyton on a Wednesday. The disasters are as follows:

CROSBY: Tornado high winds, and excessive rain April 4, 1978 and August 16, 1978; hail and excessive rain May 19 through 20, 1978; excessive rain and col

weather May 25 through June 5, 1978; hail and high winds June 7, 1978; excessive rain June 13, 1978; hot, dry winds June 18 through June 30, 1978; and hail July 26 and August 9, 1978.

FLOYD: Hail and high winds April 8, May 26, June 3, June 4, June 6, June 10, and August 9, 1978; excessive rain and cool weather May 25 through June 5, 1978; excessive rain June 13, 1978; and hot, dry winds June 18 through June 30, 1978.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until July 31, 1979 for physical losses and November 5, 1979 for production

losses. FmHA loans covering actual physical and production losses may be used to replace installations, equipment, or buildings, (including homes) lost through one of the disasters. Funds may be used to buy feed, seed, fertilizer, livestock or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming or ranching operation.

"Funds can be used for essential operating and living costs," Brown said. Loans covering actual losses are

made at an interest rate of three percent and are scheduled for repayment as rapidly as possible, consistent with the applicants reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon the purpose of the loan.

The interest rate for both short and long term loans is currently 8 1/2%. To be eligible for an emergency loan, an applicant must have suffered losses from one of the disasters and must be unable to get credit from private sources.

Mr. Brown stresses that a producer must have all of his 1978 crops harvested and the producers current

lender must refer him to FmHA before a loan can be processed.

Fuel Bills Have You In Hot Water?

Heating water is the second biggest item in your home energy budget, second only to your heating and cooling costs. A typical family draws 50 gallons of hot water from the heater each day. To cut your hot water fuel bills, The Alliance to Save Energy suggests the following: Set your heater thermostat at 110 degrees F., which is adequate for washbasins, baths, and showers. A 140 degrees F. setting is necessary if you have a dishwasher. Add a flow restrict-

or to your showerhead and... Resulting savings in both hot and cold water use of over 50 percent have been reported. Take showers instead of baths, though this depends on whether your showering is confined to the bathroom or the world and how the industry is effected. The program will begin at 7:00 p.m. on Monday, November 20. Items are not made in Panama.

FALL SOIL TESTING AND 1978 SITUATION

Floyd County producers are harvesting corn and are beginning to edge into the soybean and sorghum harvest period. The cotton situation generally points toward reduced or poor dryland yields in many localities.

A look at the results and 1978 will be remembered as a rough year to fight the wolves away from the doorstep, however there are always thoughts about next year and thoughts for the need to manage closer. Soil testing is just one of the many management tools available, but it helps remove fertility guesswork and unwarranted fertility cost.

If we are not taking advantage of soil testing, then many of us are guessing about crop fertility needs over one square mile, that guess covers a sizeable area, but Texas farms will average only one soil sample from every 630 acres while the national average shows a sample is taken from every 144 acres. This low rate of soil sampling in Texas points toward a need for more soil testing. Also, a higher probability exists that a good management tool is not being utilized.

Why is the use of soil testing so important for 1979? Three reasons exist. The first is that we are ending a drouthy summer. Generally, a dry year is associated with lower plant nutrient uptake from lower crop yields. This situation will be especially true for some of our drylands this year.

Secondly, now is the best time to identify the cause of problems or weak cropping areas through soil testing. One good method to identify these areas is to observe fields while standing in the bed of a pickup. Look across your irrigated fields for areas that have shorter growth, lighter crop color or differences in maturity. Each of these symptoms can be related to a soil fertility problem and cause loss of crop profits.

When these problems are overlooked, a producer fails to realize that these areas are costly. He is also overlooking a fact that is best illustrated this way: When deficiency or excess plant nutrient levels begin to show within fields, these occur similar to the way an old blanket develops worn or thin places. Try to identify these areas this year.

A third reason is a trend toward earlier fall fertilization. This fertilization practice is adaptable to tillage practices that can save trips over the field. With this system, the best management includes applying fertilizer rates from soil test recommendations. Ample time for soil testing exists prior to rigging equipment. Each of the reasons listed point to better crop production profits from soil testing.

Your Personal MONEY Management

You can be confident you are getting the best buy in clothing when you follow these helpful tips from The Consumer Credit Institute, a counseling service of over 800 consumer finance companies.

Remember that, with today's high cost of clothing, good workmanship in garments you buy will save you money, so look for firmly attached hems that are invisible on the outside, fabrics that are cut with the grain of the material, buttonholes that do not have loose threads and seams that are wide enough to let out and finished neatly to prevent fraying.

American Economy Meeting Set

American Ag Movements of Cottle and King Counties are sponsoring a program on the American Economy, with guest speaker Gene Schroeder of Springfield, Colorado. Schroeder is urged to attend and hear Schroeder speak about the world and how the individual farmer and ranchman is affected. The program will begin at 7:00 p.m. at the Veteran's Building on Monday, November 20.

Water heaters are not made in Panama as many people believe. The water heaters are made in the United States.

Hightower To Visit Japan, China; Cotton Promoted

(Washington, D.C.)—The House of Representatives Committee on Agriculture announced last week that Congressman Jack Hightower of Texas is one of eight members of the committee invited to participate in an Interparliamentary Symposium in Tokyo, Japan starting November 14.

Hightower will be the principal speaker for the United States delegation on concerns in trade with Japan in the areas of wheat, feed grains and beef. Citrus, cotton and soybeans will be among the other commodity areas discussed in the symposium.

The United States delegation will go from Tokyo to Peking in the Peoples Republic of China November 20th. The China meetings will focus on cotton with the official hosts being ChinaTex and the China Council for the Promotion of International Trade. ChinaTex is the official organization for purchasing imported fibers and for the sale of exporting fibers for the country.

In the Japan meeting Hightower is expected to address the problems of access to Japanese markets and the overall trade deficit problems existing with Japan. In response to questions about trade with the two countries, Hightower stated, "While Japan is the United States best customer of agricultural commodities with the dollar level reaching over \$4 billion this year, there still exists a very distressing over-all trade deficit between the countries. This deficit has played no small part in the problems the United States dollar has had this year in overseas valuation." "China, on the other hand is a sleeping giant in potential as a customer for our farm products. They now rank fifth as a buyer of our cotton and can very well become a leading customer of the short staple cotton that we grow in my area of Texas," Hightower emphasized.

FB Reports Membership Increase

WACO—Membership in the Texas Farm Bureau now stands at 228,079, according to TFB President Carol Chaloupka.

In the membership year just ended, the state's largest farm organization recorded a gain of 13,882 member families, he said.

"This is the 26th consecutive year for the Texas Farm Bureau to show an increase in members," Chaloupka said. "The size of our increase this year indicates that farmers and ranchers are more determined than ever to work together to solve their problems."

A total of 185 counties gained in membership over last year. Two new counties—Gregg in east Texas and Kendall in southwest Texas—were organized during the year.

The top ten counties in terms of membership size are Harris, McLennan, Fort Bend, Van Zandt, Wharton, Fayette, Ellis, Hidalgo, Bell, and Nacogdoches.

The gain in members this year is larger than the total membership of all other general farm organizations in the state. Texas Farm Bureau now ranks third behind Indiana and Illinois among state Farm Bureaus.

The Texas Farm Bureau is affiliated nationally with the American Farm Bureau Federation which has a membership of almost three million member families in all states except Alaska.

The present Texas Farm Bureau dates back to 1933-1934 when it was organized as the Texas Agricultural Association. The name was changed a few years later when it affiliated with the AFBF. The first Farm Bureau in Texas was organized in 1920, but was dissolved in 1933.

Russian Government Buys Santa Gertrudis

AUSTIN—A purchase of 460 head of Santa Gertrudis breeding stock from six Texas ranches has been made by the Russian government, reports Agriculture Commissioner Reagan V. Brown.

The 450 purebred heifers and 10 bulls were selected from ranches in Bay City, Palo Pinto, Fort Worth, Alice, Riviera and Waco.

"The Russians are just now going into the beef business on a large scale," said Brown. "Because Texas has the finest breeding cattle, they came to us."

Representing the Soviet government were Dr. Ivan I. Yashenko, deputy director of the All-Union Williams Fodder Research Institute, Moscow region, and Dr. Yuriy Shatokhin. They also purchased some Holstein dairy cattle.

Texas Department of Agriculture (TDA) export personnel provided transportation for the Russians during the three-week visit. TDA personnel also took blood

Avoid buying clothing that needs extensive alterations, styles or colors that are too far out, hard-to-care-for fabrics and colors or expensive outfits bought especially for rare occasions.

State Of Texas Enjoys \$2.7 Billion Surplus

AUSTIN, Tex.—State Comptroller Bob Bullock Monday reported that Texas state government ended the last fiscal year with a \$2.7 billion surplus.

Bullock filed with the Governor's office the 1978 annual financial report for the fiscal year which ended August 31, 1978.

This year-end cash balance was \$244.8 million greater than the cash balance at the beginning of the year.

"The economic environment of Texas government should be the envy of budget-makers in the other 49 states and is closely linked to the state's prospering economy," Bullock said.

The report showed that Texas government had total revenues and beginning cash of \$11.1 billion during the year and spent \$8.4 billion.

The favorable position was made possible by record revenues from all major sources, including \$5 billion in tax collections, \$2 billion in license and fees, \$665 million from investments of state funds and \$405 million in income from state-owned lands.

Support for public education at all levels accounted for the biggest state expenditure, \$3.7 billion or about 46 percent of state spending.

Public welfare was the second largest function of state government with outlays of \$1.6 billion. Spending for state highways amounted to \$921.8 million.

Texas' predominant role in the rise of the Southwest as a major economic population center has resulted in substantial increases in state revenues, the report notes.

Economic indicators such as population growth, personal income, employment and energy production were detailed. These developments include:

* For the year ended June 30, 1977, the Texas population was estimated 12,830,000, a 1.8 percent increase above previous years. For the past ten years, the state's population had an annual increase of 1.7 percent, more than double the percentage increase of the nation as a whole.

* Texas per capita personal income averaged \$6,803 in 1977—a 10.3 percent boost above the prior year.

* Texas employment tota-

led 5.07 million in May 1978, excluding agricultural workers. This is a 4.3 percent increase over the previous year.

* The number of state employees in Texas declined relative to the state's population in 1977.

* Although Texas crude oil production has continued to decline in recent years—it averaged a 3.3 percent annual increase over the last six years through the second quarter of 1978—higher pri-

ces have kept the value of production roughly constant.

FLOYD DATA

FLOYD DATA
Mr. and Mrs. Carl A. Moosberg spent the weekend in Duncan, Oklahoma, with their daughter and husband; Donny and Carla Winslow.

Facts from a pro on driving to survive.

Q. Is it illegal to put a police radio monitor in my car? S.S., San Marcos.

A. A monitor, no... a transmitter, yes. If you take this monitor along with you on a trip, be warned that it is illegal to have either transmitter or monitor in some states. You might also be interested to know that, even in Texas, passing on information received over a police radio monitor is a violation of the Federal Communications Act of 1934.

Q. A couple of months ago someone asked for clarification on the "right turn on red" law. Even though you answered it, many people still don't understand the law or they try to take advantage of it. Would you please restate the law? R.L., Austin

A. The "right turn on red" law is still rather new and it will take people a while to get used to it. The law says that, unless prohibited by a posted sign, you may make a right turn on a red light after you have made a complete stop and have yielded to traffic in the intersection and pedestrians. Also, you may make a left turn on a red light if the intersecting streets are both one way and a left turn is permissible.

Q. I have seen an increasing number of motorcyclists ride with their headlights on during the day. I'm new in the state and wondered if this was a law? J.K., Freeport

A. Not in Texas. Some cyclists ride with their headlights on at all times so that other motorists can see them better. Too many car-motorcycle accidents occur because the car driver simply didn't see the cyclist. The motorcycle's small size causes it to "disappear" into the background on busy streets. Some states (like Virginia) require cyclists to have their lights on all the time. Some manufacturers are making cycles so that the headlight comes on whenever the engine is started, but there is no law to that effect in Texas.

If you have a question on driving, send it to: Texas Office of Traffic Safety, P.O. Box 1165, Austin, Texas 78767

FARM & RANCH NEWS

Trio Builds Operation

By KATHLEEN HARRIS
Avalanche-Journal Farm Writer
SOUTH PLAINS — About 27 years ago, three brothers, Don, Fred and Keith Marble, rented 200 acres, borrowed some equipment and began a farming partnership.

With determination and the knowledge of economics, that partnership has grown to 64 farm units spread over Castro, Floyd and Hale Counties.

"The thing I've noted through the years is that you have to crawl before you can walk and walk before you can run," Don said. "When we first started, we couldn't buy all the latest equipment—we only could afford what we absolutely HAD to have."

Although most people maintain that farming opportunities for young people today are almost nonexistent, Don said that if a person has the determination, it may be easier now to get into farming than it was for the three brothers.

"There is a large amount of land available to be rented and a new farmer could get by with less popular or less modern equipment until better could be afforded," Don stressed.

The Marbles, who own 25 percent of the land they farm, said they don't cash lease any because the owner should be able to enjoy the fruits of a good year and accept his part of the risk in bad years.

How does a farmer or partnership grow from a 200-acre venture to a vast three county, 64-unit operation?

"After hail storms and drought, the biggest problem for a farmer is the market," Don pointed out. "One of our successes could be attributed to the proper use of marketing tools."

"You must always look down the road. Commodity prices are never cheap over a significant period of time. A farmer has to take long term positions to get across the valleys."

Don's wife, Nancy, who is the bookkeeper for the partnership, said the secret to a good operation is good workers. "We have a number of hands who have been with us for as many as 20 years and the average is 10 years. In one family the father and his six sons work for our farm operation," she said, showing a bulletin board sporting the picture of all the workers' children.

The producers of cotton, grain sorghum, corn, wheat and sunflowers said keeping good help requires paying well and furnishing benefits.

"In addition to housing, the employees and their families are offered group health and life insurance," Don added. "Since we began this program, the employees have done so much better financially."

"Actually, what we are doing is helping the worker with financial planning. We feel that this will keep their families happier and, therefore, more stable."

On the average, the operation employs 30 workers throughout the year. The brothers said they decided several years ago that the labor problem most everyone experiences may be more of a management problem.

Another problem farmers must deal with, conservation of the soil and water, is not overlooked on the Marble brothers' farms. "We have always felt the need to use those conservation methods that were feasible for our land. A total of about three sections have parallel terracing and there is an extensive system of underground pipelines and tailwater recovery pits," Don said. About half of the acreage is irrigated.

Rotation and some minimum tillage are practiced on the farms and row damping will be used next year. "We will either use the newly developed dammers that knock down the dam in front of the tractor and rebuild them behind to avoid bouncing up and down, or we will run open rows on the two rows the tractor rolls on," Don said.

"A farmer can't afford the luxury of walking anymore," he noted, referring to the five buggies the operation uses to spray herbicides. Often the children of employees run the machines.

"We also have four recirculating sprayers. When the minimum wage was raised, we had to significantly reduce the amount of hand labor," he said.

"Some people play golf, some have other hobbies, but I'm a 'new projects' man," Don admitted. The partners purchased portable drying units in 1975 enabling corn drying to be done at each farm. Next, they bought three module builders, then bought a gin at Lockney and added a module feeder in the following years. Because cotton and cattle don't complement each other, the Marble brothers decreased their steer calf herd to 400 head.

"It takes 10 strippers about 40 working days to harvest the crop," Don said. "Even though the farms are scattered from Castro to Hale to Floyd counties, we just go from one farm to the next. The workers know what farm to go to next and we leave the equipment in the field each evening rather than bring it all in. Servicing the machinery is done in the field, too."

Much communication in the operation is done with two-way radios and mobile phones.

Another time saving feature of the Marble brothers' farm system is the harvest lunch wagon. Each day Fred's wife, Carolyn, and Keith's wife, Nita, prepare

a hot meal and take it to the harvest crews in a school bus turned traveling canteen. The seats were removed from the bus and replaced with window-side tables and benches.

"The lunch wagon saves down time," Carolyn said, "because the workers don't have to go all the way home."

"It's also nice for them to have a hot meal and a warm place to eat on cold or windy days," Nita added.

Time is one of the most critical factors affecting the extensive operation. "A farmer often spends more time growing the crops than looking at the economy," Don pointed out. "But a farmer needs to know today what it cost yesterday to operate."

Because time is so important, the Marble brothers are installing a small computer in their recently expanded office building. The 64K Intelligent Terminal with printer and storing disks will write labor checks and keep accounts payable and accounts receivable. Each disk is able to store 3.2 million characters.

According to Darrell Miller, the office manager who will operate the computer, the terminal will keep records of each crop on each farm. "We are trying to develop an accounting system like manufacturers have. This will give us immediate results."

"For example, we will be able to know how much it costs to hoe on one farm before we go to another unit. Also, by charging the utilization of equipment to each farm, we can determine an hourly rate for each item used."

"The purpose is to know, with reasonable certainty, what it costs to grow corn, milo, cotton and wheat and supervision and overhead costs, to name a few."

Farm manager Dick Lyons said such a system would be necessary for a farm operation if it takes more than two people to do the bookkeeping or if it becomes difficult to find where the costs are going.

"The toughest thing is the decision making," Don said. "And the best days are the ones where I can go out and do some actual work."

HASTY HARVEST — Because the Marble brothers' 64 farm units are scattered over Castro, Hale and Floyd counties, it takes ten strippers 40 working days to harvest the cotton crop. These eight strippers paused briefly as two of the brothers, Don and Fred, and Fred's son Mike viewed the harvest process. (Staff Photo)

Silverton Young Farmers Meet

The Silverton young Farmers held their regular meeting Nov. 9. The group heard a tape on the American Agricultural Movement. Plans were also finalized for the turkey shoot.

The Silverton young Farmers held a club party Saturday Nov. 11. The members and guests played cards and had refreshments. Attending were Tobe Riddell, Calvin Shelton, Clinton Dickerson, Manual Aguilera, Mr. and Mrs. Orville Turner, and Mr. and Mrs. Fred Minyard.

The Silverton Young Farmers held a club party Saturday Nov. 11. The members and guests played cards and had refreshments. Attending were Tobe Riddell, Calvin Shelton, Clinton Dickerson, Manual Aguilera, Mr. and Mrs. Orville Turner, and Mr. and Mrs. Fred Minyard.

Turner, and Mr. and Mrs. Fred Minyard.

The Silverton Young Farmers will hold a turkey shoot Saturday Nov. 18 from

9 a.m. until dark. The fee will be \$2.50. The range is 2 miles west of

Lockney. Call 983-3144 for details.

These loans may be made only in counties where property damage or severe production losses have occurred as a result of natural disaster (including drought) and the county has been designated a disaster area. Disaster areas are declared by the President or designated by the Secretary of Agriculture following requests from state governors. And where no more than 25 farms or ranches are involved, the State FHA director may authorize emergency loans.

Interest rates on emergency loans, depending on type and size, range from three to five percent. Applications for such loans should be made at county FHA offices.

The Agricultural Trade Act of 1978, passed just before Congress adjourned in October, seeks to promote export sales of farm products. It improves the credit terms under which commodities can be sold to foreign countries, adds China to the list of countries eligible for credit, and instructs USDA to open six to 25 overseas sales promotion centers.

COTTON TALKS
FROM PLAINS COTTON GROWERS, INC.

Officials of Plains Cotton Growers, Inc., reviewing the record of Congress in 1978, note three actions that can be of benefit to High Plains cotton producers either in the short or long term. The Emergency Agricultural Act of 1978, although aimed primarily at rescuing hard-hit grain farmers, did put a 48-cent minimum loan rate on cotton; changed for the better the formula to be used by USDA in setting the cotton loan level, and authorized an increase in the cotton target price when a set-aside is in effect on cotton or other commodities.

The 50.23-cent loan announced for 1979, according to PCG Executive Vice President Donald Johnson, would have been the same without the minimum or the revised loan-setting formula, but the Act could influence the loan level in future years. Also, in the event set-asides are required, the Secretary could raise the 1979 target price under the new law. An increase in the loan level for 1979 would require new legislation.

Effects of the Agricultural Credit Act of 1978 may be more significant for 1979, Johnson believes. "The disastrous crop experienced by many of our producers this year will make financing 1979 operations difficult for some," he says, "and the Farmers Home Administration now has authority to be of much more help to these producers than before."

Under the emergency section of the new Act, FHA can now

CARDS OF THANKS

Thanks to all the good people who were praying for me while I was in surgery and the hospital. I felt their prayers and entered surgery feeling all would be O.K. The two doctors who saw me each day, said they never saw anyone do any better. We are so thankful for the prayers, visits, food, flowers, calls, and nice cards. Christian Love, Frank & Ora Brown

We wish to express our sincere thanks to our many friends and faithful relatives for the love and concern shown us during the passing of our loved one Gayno Wright Scott.

For the cards, letters, flowers, memorial gifts and your prayers that sustained us in this unexpected time of shock and grief, we are grateful.

To Mr. Moore and Mr. Rose we extend our appreciation for their patient and effective services. To the telephone operators who somehow seemed to sense our need and gave their help; to our tried and true friends of Harmony Community and the Order of Eastern Star of Floydada, who prepared and served the bountiful noon day meal for our needy bodies; to Brother Bradley for his visit and comforting words at the Funeral Home; to Brother Jim Smith for his message of faith and hope; to Bobbie Rainer and the organist who brought the messages of music and songs which gave solace to our hearts, we will always remember.

To the members of the American Legion and Veterans of Foreign Wars who so efficiently gave the Military presentation at the cemetery, we again express our gratitude, and thanks.

To any others we may have failed to name, we say "Thank You and God bless you."

The family of Gayno Wright Scott, Mrs. Mary Scott, Suzanne and John Zant and Becky Scott
Lennie Hal Scott
R.L. and Blanche Rutherford Zant and Ruth Scott & family
The Family of S.W. and Martha Wright, 11-19p

LEGAL NOTICE

PUBLIC NOTICE
The City of Floydada has been notified by the Texas Department of Health that the water being supplied by our system exceeds the maximum constituent level for Fluoride established by the Department's "Drinking Water Standards" which were promulgated as required by the "Safe Drinking Water Act", Public Law 93-523 (U.S.).

The limit for this area has been set at 1.6 milligrams of Fluoride per liter of water. The samples of water from our system contained 3.1 milligrams of Fluoride per liter. There is no immediate health hazard for drinking water containing Fluoride at this level.

The Fluoride may cause mottling (brown staining) of the teeth in children under 14 years of age.

All dentists in this area are aware of the Fluoride level. Bobby Welborn, Water Superintendent
City of Floydada
11-5, 11-2, & 11-19c
