NETH BROSEH (right) gets a nice plaque of appreciation for ing as president of the Floyd County Jr. Livestock Show this The congratulations comes from Edwin Nutt, this year's

Over\$89 Million In '77

The Texas Department of Agriculture recently published its "1977 Texas Agricultural Cash Receipts Statistics book which reveals Floyd County now in the top ten in agriculture income.

Floyd agriculture income amounted to \$89,707,000 in 1977 for crops, livestock and government payments. County Agent Doyle Warren is advancing from the number nine county to the number one county in the state. Here are the state top ten:

Hildago \$220,445; Deaf Smith \$209, 403; Parmer \$164,232; Hale \$157,582; Castro \$156,272; Lubbock \$116,507; Lamb \$112,368; Swisher \$110,059; Floyd \$89,707; Cameron \$89,097. Floyd County income breakdown includes a little over \$74 million for

crops, 11 million for livestock, four million government payments. Most of Hidalgo's money was from crops, mostly cotton. Deaf Smith cattle feedlots made it strong in livestock income. Castro, Swisher and Parmer

were all strong in livestock money.

Floyd County vegetable income was a little over a million dollars in 1977. Of course the number one Floyd income is cotton, second is corn, third grain sorghum, cottonseed nosed out wheat for fourth place. Soybean income ranks sixth in crop

WHAT ABOUT 1978

Obviously, it will be down, although farm prices are up over last year. Floyd farmers produced the poorest wheat crop in maybe 30 or 40 years and no doubt the cotton crop will be off from last year's very good harvest.

GOING BALLOONING...In the gondola with owner Elaine Kramer: Ida Palomin, Boyd Jackson and Sandra Castro. Also in the picture: Ben Reecer, Paul Reecer, Jeff Reecer.

Ballooning Returns To Lockney

By Jim Huggins High above northwest Floyd County we floated majestically, surveying the landscape, able to see forever across the plains from our viewpoint, the gondola

of a seven-story hot-air balloon. Well, actually I was maybe 50 feet off the ground on the end of a tether line, and could see Aiken and the top of the grain elevator in Lockney. But the experience did qualify as a first-time balloon flight for this reporter and entitled him to participate in the postflight ceremony, which involved kneeling facing the east, hearing a "balloonists prayer" and getting doused with the contents of a half-pint can of what,

It happened like this: A hot-air balloon, piloted by Elaine Kramer of Albuquerque, was inflated and flew from the Lockney Elementary School playground about 7:30 Friday

morning. Nearly two hours later, she set down in a pasture north of Aiken. From several miles away, the pinkand-purple balloon looked like a floating advertisement for Brach's Candy. The pilot later said she hoped someday it

After the landing, Kramer told about the balloon. It's co-owned by her and another Albuquerque woman, Paula O'Brien. They purchased the craft, a Barnes Firefly II, nearly two years ago "....you've said it all...." (Which took for about \$8300), and dubbed it "The some explaining when I returned to the . Ladies Choice" for the obvious reasons. The partner didn't make the trip

to Texas-the lady balloonist was assisted on her Floyd County flight by her fiance, Ben Reecer, a former Lockneyite who now lives in Albuquerque. (He's Paul Reecer's brother.)

Both balloonists have FAA licenses, obtained after passing written tests and flight tests with FAA examiners on board. The balloon must be inspected every year or every 100 hours air time. whichever comes first.

Propane tanks in the gondola provided the fuel to heat the air to lift the

Inflated, the "envelope" stands about 50 feet tall and has a volume of 55,660 cubic feet.

After learning about the balloon, I accepted an invitation to go on a "tether flight". The balloon crew inflated the envelope, using a fan powered by a small gasoline engine. I climbed in the gondola, being careful not to get mud from my boots on the padded leather section which topped the sides on the gondola. The pilot opened the valve on the propane burner momentarily a couple of times, and shortly we were airborne, waving to the people on the

Salinas, Cox Vows Pledged

In Plainview

Sandra Lee Salinas of Lockney and Leonard B. Cox of Levelland were united in marriage November 23 in the First Spanish Baptist Church in Plainview. Glen E. Godsey, minister of the church, officiated at the 6:30 p.m. double ring ceremony. The special Thanksgiving marriage service was scheduled to "change the family Thanksgiving tradition."

The bride is the daughter Mrs. A.Z. Salinas of Lockney and the late Mr. A.Z. Salinas. Mr. and Mrs. Emory H. Cox of Floydada are the parents of the groom. The groom is a police officer in Levelland. Rev. W.C. Carrasco gave

the bride in marriage. Miss Salinas wore a floor length dress of lime satin organza which featured a high waist, U-neckline, and lace edged chiffon sleeves. The backskirt fell into a chapel train, which was outlined in lace. The dress was made by her mother. She wore a crocheted headpiece trimmed in pearls and carried an arm bouquet of voile material roses, beige shade, with baby's breath and crystals trimmed in greenery. She also carried a white Bible in a lime satin cover given to her by her father on her 15th birthday. She wore a diamond dinner ring given to her on her 15th birthday by Mrs. V.E. Robles of Lubbock and the late Mr. V.E. Robles.

Trilateral Government **Plot Seen**

By SHAUNA HILL

Avalanche-Journal Staff LEVELLAND - The Trilateral Commission, a group of prominent business and finance leaders, and the Council on Foreign Relations, a national study group, is "trying to bring a loosely knit world government into existence by 1980," charged an Oklahoma farmer here

Monday night. J. C. Lewis, a retired Air Force colonel and a member of the American Agriculture Movement, told about 1,000 persons at a junior high school here that "the Trilateral Commisssion and the CFR can control the world through our food, energy and international commodi-

ties systems." Trilateral Commission members include business, finance and political leaders from the U.S., Japan and Western Europe. The CFR is a group of prominent educators, professionals and public leaders from across the U.S.

Food, Energy Threat During his two hour speech, Lewis claimed the two groups could control "our food, energy and money by destroying our families, our willingness to sacrif-

ice for our country and our belief in God. "The methods they will use have been used throughout history by all of the dictators in the world. They will use power over education, the media and the national police force," he said.

"Eighteen members of President Carter's executive staff are high ranking officials in the Trilateral Commission," Lew-

"Every president since Franklin D. Roosevelt, with the possible exception of Lyndon B. Johnson and all presidential candidates except Berry Goldwater have been members of the CFR, and you can bet the next president-elect will be a member,too," the former officer said **Textbooks Criticized**

He also alleged that "every textbook published since World War II has helped destroy Americans' belief and sacrifice for their country.'

According to Lewis, the national media is virtually controlled by members of CFR. He cites statistics showing 121 of the top brass of the New York Times, the Washington Post, the three television networks and Time and Life magazines are members of the CFR.

"Local media in Washington covered the national agricultural strike earlier this year, but the national networks ignored the whole issue. The 27,000 farmers who participated might as well have stayed home, judging by the national cov-

erage," Lewis said. Cited "American Conspiracy" What Lewis called "the American conspiracy" controls world food and energy

supplies. Lewis said the American corporations which have supposedly lost control of Middle East oil production still have a great deal of control.

"The oil companies would not still be there unless they were making a profit through the prices they helped to raise," Lewis said.

He claimed the U.S. branch of the Trilateral Commission controls food supplies to Japan and western Europe because those countries are dependent on

Incredible Edible Cut-Outs

Deck the boughs with edible decorations made from a basic confection mixture. Pack wafers into gift boxes. This treasured recipe uses Certo fruit pectin and gives the option of flavoring or tinting the mixture. It's time to get out your cookie cutters!

QUICK CREAMY WAFERS

2 pouches liquid fruit pectin* 2 pounds confectioners sugar 1 pound (about) confectioners sugar 1/2 teaspoon peppermint, rum, almond or

orange extract (optional) 6 drops food coloring (optional) * Or use 1 bottle (6 fl. oz.) liquid fruit pectin

Pour fruit pectin into a bowl. Gradually add 2 pounds confectioners sugar, mixing well after each addition. (Mixture will be very stiff.) Divide into four parts; wrap in wax paper or cover with a wet cloth. Use remaining 1 pound

(about) confectioners sugar to dust board and rolling pin.

Place one fourth of the mixture at a time on a pastry board, well dusted with sugar. Add flavoring and food coloring, if desired. Knead until smooth, adding sugar to board as needed and lifting with a spatula to prevent sticking. (Any unrolled portion may be wrapped in wax paper or plastic wrap and stored at room temperature

Roll out with sugar-dusted rolling pin, about 1/4 inch thick, turning often and dusting with sugar to prevent sticking. Cut with cookie cutters dipped in confectioners sugar. If desired, make a small hole at top of each wafer with a wooden pick. Place, top side down, on wax paper on baking sheets or trays. Press leftover mixture together; knead again until smooth, roll and cut, or shape into small balls. Allow to dry, uncovered, for 24 hours, turning once. Pack wafers in layers between wax paper in a loosely covered box. Makes about 2.3/4 pounds.

Bill To Benefit Veterans More

An increase from \$17,500 to \$25,000 as the maximum guaranty for Veterans Administration home loans is one of several important features of the "Veterans Housing Benefits Act of 1978," according to Jack Coker, Director of the Waco VA Regional Office

VA Regional Office.

The legislation, which was signed on October 18, by President Carter, also permits certain severely disabled veterans to obtain a VA grant of up to \$30,000 to buy or adapt a residence to meet their special needs, Coker

VA grants for these socalled "wheelchair homes" were formerly limited to

\$25,000.

Coker pointed out that the new bill should be of special benefit to an estimated \$168,000 Vietnam Era veterans because it reduces the length of active duty service required for eligibility for VA home, condominium or mobile home loan guaranty

benefits.

Vietnam Era veterans now need to have served only 90 days on active duty--one day of which must have been during the period of August 5, 1964, to May 7, 1975--to be eligible for these VA benefits

In addition, the law authorizes VA to guarantee loans for converted condominiums as of July 1, 1979. The agency currently is authorized to guarantee condominium loans in buildings constructed and sold as this type of dwelling.

Coker said another significant section of the legislation restructures VA's mobile home loan program--setting a \$17,500 loan maximum and extending the maximum loan term for single-wide mobile homes to 15 years, an increase of 36 months.

Our Basic Economic Need

be billed as a major national problem, personally we can't become too excited over the problem.

For one thing, not since we became associated with this newspaper 32 years ago have we been able to find competent help. . . with a VERY FEW exceptions. And this is the experience of most every businessman in Tulia, whatever his field. It just seems to us that if there was "legitimate" unemployment, things would sort of straighten themselves out over a period of 32

Before we start talking about 6 per cent unemployment rates, let us examine the figures a little more closely.

Racially, 11.9 per cent of blacks are unemployed compared with only 4.9 per cent whites. It isn't that we must not be concerned about black unemploymentquite the opposite. But the problem is somewhat different. We must ask ourselves in this day when unskilled labor is no longer in demand at any time, are these unemployed blacks only unemployed-or are they unemployable? All the boosts to the economy we can dream up, all the shots in the arm the government can give, all the new jobs made available by industry aren't going to do anything for the unemployable-those without skills!

Women have a harder time than men in finding work. Their unemployment rate is 6.1 per cent, against 3.9 per

There are many situations where women MUST be breadwinners. There are many times when it is highly desirable that women hold jobs as well as their husbands. . . but there are also many situations where unemployment figures should not be inflated merely by wives who want to supplement their husbands' incomes so that they can have some of the economic goodies they could not otherwise afford.

The rate of unemployment among teenagers, those aged 16-19, is 14.2 per cent as against 4.8 per cent for everyone 20 and over. Again, this is a problem to be dealt with. Teenagers need jobs, especially those who have graduated from high school. However, many without skills are not worth minimum wage. Perhaps this group needs some-

While unemployment continues to thing other than a stimulus to the economy, new jobs, and the like. Perhaps they need on-the-job training at a figure a business can afford to pay.

> Comparing the extremes, unemployment for minority teenagers, 37.1 per cent, is more than ten times as high as the 3.4 per cent rate for adult men.

In 1950, only about one third of all women over age 16 had jobs or were looking for work; today almost half of all

women are doing so. The preponderance of adult male workers has been sharply reduced. In 1950 men over age 24 accounted for 59 per cent of the work force; by 1975 their

share had fallen to 46.9 per cent. Changes in the work force have added 1.5 percentage points to what

would be considered the "full employment" rate. That means that if unemployment could drop to four per cent in the 1950s without spurring inflation, today the trigger level would be 5.5 per

Deducting our chronic unemployables among our adult white work force, our low unemployment figure is no problem among that group.

If we have a large number of female breadwinners who are unable to find jobs, the problem deserves national

If we have large numbers of black breadwinners who are unable to find jobs due to lack of skills, certainly the problem deserves national attention. . .

but not created jobs! Certainly something should be done for teenagers of all colors who are

Lowest priority should be given jobs for the second or more breadwinners within a family unit. If a community wants to develop jobs for wives who want to work, fine! But this should not be the concern of either the state or local government and this category should NOT be considered in setting goals in connections with Humphrey-Hawkins type legislation.

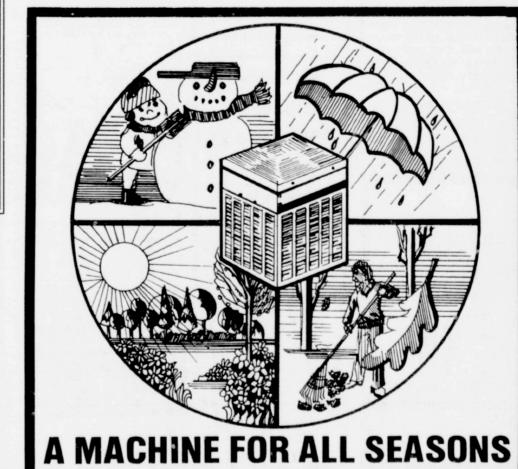

Our basic need today is not for WPA-type or artificially created jobs. . . our basic need is for skills for all breadwinners and teenagers.

Mrs. Dockery has written. While she was a weather lady for a TV station in Tennessee, she wrote "Weather Or Not," a book aimed at explaining the causes of weather to elementary school children.

The Dockery family moved to Lubbock from Nashville more than three years ago when, as Red Raider fans all know, Rex joined the coaching staff then headed by Steve Sloan. Wallene, who was 8 months pregnant at the time of their Lubbock arrival, came prepared to dislike Texas. But such has not been the case. "I love traveling with my husband and the team, but it always feels good to be back home in Lubbock," she says. Although she grew up in large cities in the South, she thinks Lubbock is just about the right size to have a good atmosphere in which to raise children

While obviously quite comfortable with her own professional identity, Wallene Dockery also takes pride in her involvement in her husband's work. "It is fun to watch the boys grow; you do get attached

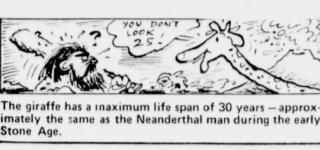

to them," she says of the football team. The couple also enjoys entertaining informally, especially on weekends of home football games. Their home has a comfortable charm and they enjoy sharing it with their friends

The story of "Gabby's Christmas Wish" is very special to its author. The basic story of an evergreen tree which wanted to be big and beautiful enough to become a Christmas tree was told to her by her father in her childhood. She started with that idea and developed it into the present story which includes many animal characters. The book is dedicated to her father, Oscar W. Threadgill, who died last December. Ironically, his death occurred the same day Coach Dockery was being interviewed for the job of head coach at Tech.

What's ahead for the author and her young reading public? "After the football season," she says, she will work on another children's book. Its subject will be

A special book review and autograph party for Wallene Dockery will be presented in the Floyd County Library in Floydada on December 7. Mrs. Dockery will present an entertaining program for parents and their children from 3:30 to 5 o'clock. Everyone is invited to att-
