HOSPITAL DISTRICT DIRECTORS — Chester Carthel, R.D. (Rusty) Baccus and Kenneth Tate received the highest numbers of votes in the Lockney General Hospital District directors' election Saturday. Carthel was re-elected to the hospital board with 189 votes. Baccus received 161 votes, Tate 145.

They will succeed R.V. Webster and H.E. Frizzell, both of whom were ineligible for re-election this year. Austin Beedy received 74 votes, Charles Huffman 56, and Rainey Davis one write-in. A total of 216 ballots were cast in the hospital district election.

Davis, McCormick, Brown Re-Elected

COUNCILMEN, MAYOR RE-ELECTED — Claude Brown was re-elected mayor Saturday, and Thurman Davis and Bobby McCormick were returned to the Lockney city council. Brown and Davis received 92 votes each; McCormick got 97. There were 100 voters in the uncontested city election.

School Board Changes Tax Exemption Policy, Hires Secretaries, Custodians

During the state legislature to the 1979-80 term, the Lockney Independent School District board of trustees rescinded the voluntary \$7,500 homestead exemption. The board during the regular monthly meeting Monday night, recommended cancellation of the homestead exemption.

PAY RAISES — The school board hired secretaries and custodians for the 1979-80 term. Resignations from several positions and approved pay raises for custodians and cafeteria

secretaries hired for next year. Billie Huggins, Dorothy Jarrett, Marjorie Sandra Turley, and Jackie

Whitlock by the board approved raising the hourly pay of cafeteria employees to a minimum of \$2.90 an hour, and the hourly pay of cafeteria employees to \$3.75 a

RESIGNATIONS — The school board accepted resignations from Charlotte Mitchell, Maxine Loran, and Katie

WRITER LEASE — The board approved Monday the lease of 15 typewriters for the High School, on an educational

use of the school building next August for a basketball camp to be conducted by Coach Marsha Sharp. The high school principal James

Whitlock, who was elected to the

school board Saturday, and Tom Duvall, who was re-elected, took oaths of office. The trustees re-elected Duvall president of the board, named Kenneth Brosech vice president, and chose Jerry Williams as secretary.

Austin Beedy, who did not seek a second three-year term in the Saturday election, accepted a plaque from Duvall, who represented the school board in presenting the token of appreciation.

The Lockney city council approved the city budget for the coming year, passed an ordinance continuing the city sales tax on gas and electricity, and asked for bids on seal coating city

streets Tuesday morning during the April council meeting. Mayor Claude Brown and councilmen Thurman Davis and Bobby McCormick took oaths of office for new terms, after the council

had canvassed the vote in the April 7 city election.

BUDGET — Total amount of the city budget for the April 1, 1979 through March 31, 1980 fiscal year is \$270,448.

SALES TAX — The city has been collecting the one-percent sales tax on all residential use of gas and electricity in Lockney, but because collection of the four-percent state sales tax is being discontinued, an ordinance was necessary for the city to continue imposing the one-percent tax.

SEAL COATING — A.C. Bowden, the city's engineer, met with the council and discussed street seal coating. Bowden said approximately 21,400 square yards of seal coating had been scheduled for this summer.

The 1979 schedule calls for seal coating in southwest Lockney, on blocks of Fourth, Fifth, Sixth, Seventh, Poplar, Willow, Spruce and Wilson streets which were last seal coated about five years ago. Councilman J.D. Copeland mentioned large cracks in several other streets which need to be repaired when the seal coating is done.

The city will advertise for bids, which will be considered at the May Council meeting.

VOTE CANVASS — The council canvassed results of the city election and declared the election "legal and valid." Brown, Davis and McCormick were sworn in by city secretary Erma Lee Duckworth.

At the meeting, in addition to those already mentioned, were councilmen Jerry Perry, police chief Bill McConnell, and city attorney Paul Lyle.

MRS. MONTE LYNN HALL

Leslie Kim Myers and Monte Lynn Hall United In Marriage

On Saturday, March 24, Leslie Kim Myers and Monte Lynn Hall were united in marriage at 3 p.m. in the First United Methodist Church of Shallowater. The bride is the daughter of Mr. and Mrs. Jimmy Myers of Lubbock, and the groom is the son of Mr. and Mrs. Marvin Hall of San Antonio. Officiating in the ceremony was Rev. Murry Brewer of Lubbock.

Attending the bride were maid of honor Sue Ann

Spradlin of Garland, cousin of the bride, and bridesmaids Susan Hayes of Whitesboro, Tammy Wilson of Anson, and Jamie Myers (cousin of the bride) Allison Terry and Shirley Stewart, all of Lubbock. The groom's attendants were best man Murry Hall, brother of the groom, and groomsmen Mike Hall of Houston, brother of the groom, Bob Cooper of USAF Academy, Colorado, cousin of the groom, Wayne Tannery of Austin,

cousin of the groom, Eddie Berndt of Lake Geneva, Wis., and Tony Wright of Paris, Texas.

Mrs. C.L. Record of Lockney presented a medley of arrangements at the piano prior to the ceremony and the traditional wedding march at the organ. She accompanied Jan Kelley, soloist, Arlington, cousin of the bride.

Given in marriage by her father, the bride wore a formal gown of white bridal satin fashioned with a Victor-

ian neckline of ruffled Chantilly lace. Full-length sleeves were accented with lace inserts and lace cuffs.

The empire bodice was accented with a deep sheer yoke edged with Chantilly lace and medallions. The full A-line skirt had a chapel length train. A band of lace formed the hemline of the skirt, and tiny seed pearls adorned the gown, with lace at the waistline. The headpiece was a pearl-studded Juliet cap of matching lace, holding a lace-edged veil. The bridal bouquet was fashioned with gardenias, white rosebuds, and baby's breath, accented with pearls. She wore pearl ear studs belonging to her grandmother, Mrs. Alvin Nichols, the traditional blue garter, and a penny in her shoe.

The maid of honor and bridesmaids wore floor-length dresses of spice colored quiana, fashioned with a scoop neckline extending

into soft flowing cap sleeves and blouson bodice. The skirt was of permanent press pleats.

Flower girl was Rhonda Catlett of Plainview, niece of the groom. She wore a full-length dress of ecru with ecru lace and spice-colored ribbons, and carried a basket of tangerine carnations and baby's breath.

Kim Hellman of Lubbock registered the guests.

A reception followed the ceremony in Fellowship Hall. The bride's table was covered with a white cloth of dotted swiss. The centerpiece was a five-point silver candelabra — flanked by the bridesmaids' bouquets. The three-tiered cake of white was topped with interlocking wedding rings and doves.

The groom's table was covered with a sheer white cloth. The centerpiece was a spice candle on a gold colander surrounded by a fresh fruit arrangement, and the

For crash diets lack of the essentials of a balanced weight reduction program, says a registered dietitian, Mary K. Sweeten, also a foods and nutrition specialist with the Agricultural Extension Service, The Texas A&M University System.

"A diet that is too restrictive; provides all the nutrients; fits life-styles; helps curb appetites; develops regular eating; prevents excessive weight gain; contains familiar foods; helps lose weight; and helps lose weight of two pounds weekly.

Over, there is a counter-balance and variety of crash diets used for weight loss, the specialists out.

Currently popular fad diets are "Scarsdale Diet," Mrs. Sweeten says.

The father is a 14-day diet that is high in protein and low in carbohydrates and fat. This diet may find some success in this diet limiting, specialists suggest.

Expensive Foods

A diet contains some expensive food choices as lamb chops and several times throughout the week.

Get-minded dieters eat lean ground meat and tender choices with fewer calories and less fat.

Portion of lean meat is seven grams of pure protein no matter which cut.

Repetition

Other limiting food would be eating a diet every day for a variety of fresh fruit or could serve the same diet as a source of Vitamin C and for some dieters.

Eating the same food over periods could cause an allergy to that food, Mrs. Sweeten says.

Milk Groups Foods

Group foods are limited—cheese slices, cottage cheese are not milk to drink.

NEWS 'N' NOTES (by Sharon Hillis)

Easter Eggs—Before And After

Eggs become an important holiday food with Easter just around the corner.

In ancient times, eggs were sacred symbols and, later, were glorified in paintings and sculpture.

Today, eggs are honored around Easter and can be dyed, painted and trimmed.

Be imaginative—use paper, lace, buttons, even ribbons—there is no end to the fun of decorating.

Before decorating, cook the eggs properly following these steps:

1) First, selected top-quality eggs—Grade A or AA.

2) Place selected eggs (not too many) in a medium size saucepan.

3) Add enough cold water to come at least one inch above the eggs, and heat to boiling.

4) Remove from heat, cover and let stand 15 to 20 minutes.

5) TIP: To prevent an egg from cracking while cooking, add a few drops of vinegar or lemon juice to the water.

6) Cool immediately in cold water for about 20 minutes.

7) To properly dye Easter eggs, follow these steps:

1) Prepare the egg dye as directed on the package.

2) Or, use a few drops of food coloring in custard cups or muffin tins.

3) Dye only uncracked eggs.

4) Cover the eggs fully with hot water while dyeing, and spoon dye over eggs with a tablespoon.

5) Let stand, turning occasionally, until evenly colored.

6) Spoon out eggs, and place on paper towels.

For some economical variations in dyeing eggs, cut designs from cellophane or adhesive tape. Paste on eggs before dyeing. Remove tape when dry for white designs.

Refrigerate Easter eggs promptly after dyeing—use the eggs within a few days.

Discard all cracked eggs after the Easter egg hunt or use immediately—exposure to harmful bacteria can be dangerous.

Here is a quick-and-easy recipe for those after-Easter eggs:

Simple Deviled Eggs

6 hard-cooked eggs

3 tablespoons mayonnaise

2 tablespoons hot dog relish

1/4 teaspoon salt

Paprika, if desired

Remove shells from hard-cooked eggs, and slice eggs in half lengthwise.

With a teaspoon, remove egg yolks and place in a mixing bowl.

Mash egg yolks with mayonnaise, relish and salt.

Fill center of egg white with egg yolk mixture. Sprinkle paprika over egg, if desired.

Chill and serve. Makes six servings.

Bike-A-Thon Route

Drawbacks Of Fad Dieting Cited

Adults require two or more servings of milk daily. Milk group foods provide three-fourths of calcium needed daily, she continues.

When dieting, drink slim milk instead of whole milk and save 90 calories per cup.

Limited variety. This diet is so limited in variety that it strays from traditional eating habits.

Most overweight or obese people need to learn improved permanent eating habits.

About the best result they can expect from any fad diet is the possible loss of a little weight to give them incentive to lose down to their normal weight, the specialist adds.

Re-Education. To lose weight successfully dieters need to be re-educated to a new way of eating and maintaining this for the remainder of their lives.

They also need sound reduction diets which are nutritionally adequate so health is not endangered, she recommends.

This is done by reducing food quantity without taking away essential nutrients by cutting foods out.

Cut down on serving sizes but do not cut foods out. The lower caloric food choices of the basic four food groups provide the guide for reducing diets.

HUMANISTS SUCCEEDING IN INFLUENCE

The basic premise of Humanism is not that man is God's equal, but His superior. In 1933, 34 practicing atheists collaborated in the forming of what they called The Humanist Manifesto. The signers were among the most prominent writers, educators, and philosophers of that day.

Among the original signers of The Humanist Manifesto was John Dewey. It was Dewey who introduced the destructive humanist theories into our public schools. Every Christian needs to read The Humanist Manifesto I and II to see how that theory has crept from public school to Christian schools — even into our homes and churches.

The first statement of the humanists' religious rule and practice is: "Religious humanists regard the Universe as self-existing and not created." (Page 8).

The first Manifesto ended with the concluding statement, "Though we consider the religious forms and ideas of our fathers no longer adequate, the quest for the good life is still the central task for mankind. Man is at last becoming aware that he alone is responsible for the realization of the world of his dreams, that he has within himself the power for its achievement. He must set intelligence and will do the task."

And the humanists began that task in our public schools, colleges, and universities.

Among the signers of the Manifestos are many of the most prominent psychologists, philosophers, and professors of this century: B.F. Skinner, Sidney Hook, and Albert Ellis are typical.

The leaders of almost every area of social upheaval signed those Manifestos: Betty Friedan, founder of NOW; Sir Julian Huxley, of UNESCO; Alan F. Guttmacher, president of Planned Parenthood.

The movement to remove God from America did not evolve by accident, it came by design. The "God is Dead" theology was born in humanism.

On pages 16-17 in The Manifesto: "No deity will save us; we must save ourselves. Promises of immortal salvation or fear of eternal damnation are both illusory and harmful. There is no credible evidence that life survives the death of the body."

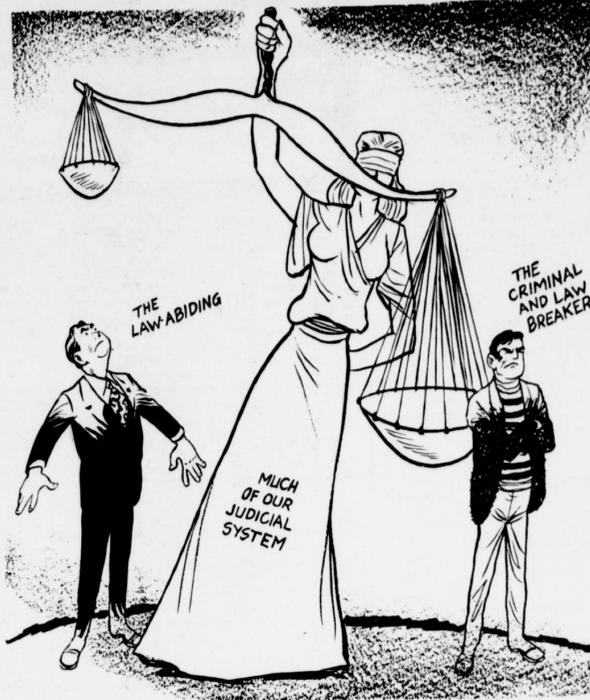

Situational ethics, sexual freedom, legal abortion, and world government are all products of humanism. Pages 18-19: "...intolerant attitudes, often cultivated by orthodox religious and puritanical cultures, unduly repress sexual conduct. The right to birth control, abortion, and divorce should be recognized."

It also includes a recognition of an individual's right to die with dignity, euthanasia, and the right to suicide.

The humanists have given up converting stubborn adults; they aim to program the minds of our children. And they began on Sesame Street.

If humanists succeed in their goals for mankind, it will probably do for us exactly what Satan's temptation did for Eve—get us excluded from God's fellowship.

Stenholm Treasurer Of Balanced Budget Caucus

Congressman Charles W. Stenholm was recently elected treasurer of the Balanced Budget Caucus in the U.S. House of Representatives. In his position of leadership on this panel the Congressman plans to explore ways to limit the growth of government spending and work toward a balanced budget.

He believes that deficit spending must be eliminated if we are to maintain the fiscal integrity of this country. He is sponsoring a constitutional amendment to accomplish this goal.

"For years Congress has succumbed to the temptation for more spending to solve our nation's problems. As additional demands have been made on the Federal bureaucracy, it has become

inefficient, expensive, and unwieldy. We are now finally beginning to realize that many of our social problems cannot be solved by throwing money at them," Con. Stenholm says.

Congressman Stenholm plans to look closely at the total cost of the Federal government and not just at the often superficial figures presented in the budget. The cost of our regulatory agencies is about \$5 billion a year and yet their regulations require \$150 billion in compliance costs for business.

Also, Congress throughout the years has routinely voted increased benefits without considering the costs. As a result future Congresses will be required to pay for our present obligations. It has

become vital for legislators to consider the effect their decisions will have on the total cost of running our society.

It is time to more carefully analyze the expenditures of the public sector and eliminate those outlays that are unproductive. Con. Stenholm believes society should rely more on individual initiative and less on government handouts.

Speaking of power, have you ever gotten mixed up with Super Glue? If you have you will know what we are talking about; if you haven't be careful of it when you do!

This stuff is quite powerful. Monday morning we were attempting to fix a part of one of our machines which required gluing together a piece of plastic and a piece of steel.

Naturally, we ignored the warning about not using too much of the Super Glue, and also, not get it on your hands.

Much to our surprise we found ourselves all glued together with a couple of fingers which we almost didn't pull apart.

Wanda Riffe, who came to our aid, also got into the act and between us we almost got glued to one of the machines in the office!

Despite my stupidity, we finally got the two pieces glued back together.

DIVIDE SALES TAX
We've preached a little in this column, from time to time, on shopping at home—not only for the benefit of local merchants but for the many advantages realized by the entire community. A bill has recently been introduced in the state legislature which really caught our attention and relates to shopping at home. State Rep. Ray Keller of Duncanville is sponsoring a bill aimed at redistribution of the city sales tax. At present, the 1 percent sales tax is paid to the state and then

allocated back to the city where it collected. Keller's bill calls for the rebate to be made on the population rather than where it collected.

He argues the sales tax is for the government to provide services to citizens. When someone shops at home town, the tax money does not go to the citizen in the form of services to another city for services. This is without representation, says Keller.

A study of Keller shows that 91 percent of the cities in Texas would receive gain under his proposal. This means that 10 percent of us are subsidizing those 9 percent gain under the present system.

Here's the shocker: Figures hereof show the 1978 tax revenue \$392,304. Under the proposal on population (based on 16,200 for Hereford) total would be \$673,434—a net gain of \$281,130!

The rest of the towns in the state come out ahead, too. Even Amarillo come out a few thousand dollars in good, while Lubbock would only lose a million, and Dallas, \$13 million. The other 9 percent who lose are very close. Austin would lose about \$2 million, Midland, \$1 million.

This would seem to support the argument that too many local shoppers go to Amarillo, and too many Amarillo shoppers go to Dallas.

The bill sounds good. Not only does the present system create a windfall for who happen to have many businesses arbitrarily located there, but many persons taxed in these cities have no say in how the revenue should be used.

LETTERS from READERS

Dear Sir:
Like cockroaches you thought you got rid of that keep coming back, so again the proposed bills to open Texas to gambling are on the Capitol's doorstep. Already there are bills to legalize betting on horse races, bingo games and lotteries. Some people just won't take "No" for an answer.

Only a few months ago, the majority of the people of Texas voted against pari-mutuel gambling. The main idea of a democracy is that the will of the majority should be respected and honored. But there are bad losers.

It is appalling that selfish private interests lusting for lots of fast easy bucks from hard working Texans will not take "No" for an answer, but push and push. I hope that our elected officials will have the wisdom to vote against these bills and keep the gamblers and Mafia out of Texas.

Sincerely
s/s Dick Thomas

South Plains News

South Plains, April 3rd — Temperatures below the freezing mark were prevalent this week at South Plains, and this Tuesday a short rain and hail storm cleared dust from the air. Most of the farmers have been in their fields from daylight until all hours, as they get their land ready for the planting time which is almost upon us. The frost and ice Wednesday April 4, killed most of the fruit in the area. Temperatures fell into the twenties.

The South Plains Baptist Church is holding their spring revival the week of April 1-8. Evangelist is Harvey W. Hulse of Leaky, Texas, and singer is Bill Gilbreath from Floydada. Many visitors have been at the church for the morning and evening services. Mrs. Jo Payne and daughter Tammy Payne and Keith Marrice were present Monday night for services.

Hosts for the visiting preacher on Sunday Rev. Hulse, Rev. and Mrs. Fred Blake, Mr. and Mrs. Bill Gilbreath of Floydada, Mrs. Ruby Higginbotham, and their daughter, Mrs. Johnny Wilson (Sue) and son, Loran, of Crosbyton were Mr. and Mrs. John Wilson who had dinner and supper for the evangelistic teams and others. Mrs. Johnny Wilson and Loran were Sunday morning visitors at church services here at South Plains.

Mrs. Arby Mulder had as house visitors with her during all the past week her two granddaughters, Ronda and Candy Taylor from Amarillo. Sunday after church services, which they all attended, they left for Amarillo. When Mrs. Mulder took them home she spent Sunday night and part of Monday with her daughter and family with her daughter and family, the Jerry Taylors.

Mrs. M.M. Julian returned Thursday in all that bad dust storm from a week which she spent in Roscoe with her son and family, Mr. and Mrs. Terry Julian. They did not have Thursday's dust storm down that way.

Those from here who went to Floydada on Sunday afternoon at 3 p.m. to attend the Secret Granddaughters Tea were Mrs. L.T. Wood, Mrs. M.M. Julian and Mrs. Bonnie Moore. The tea was held in the lunchroom at Floydada High School; and delicious assorted cookies and punch were served to everyone. Secret granddaughters revealed the names of their Secret Grandmothers, with a gift for each one. D'Lee Marble was Mrs. Wood's secret grandmother, and Irene Alvarez was Mrs. Julian's secret granddaughter. They are from South Plains. Games of Bingo were enjoyed, and Mrs. Wood was the winner of that game.

Mrs. Rogene Bethel was hostess at a Tupperware party Saturday afternoon in her home in South Plains. The time was 2 p.m. and hostess for the event was Mrs. Danice Cash of Crosbyton. Games were enjoyed, and refreshments were served to guests Mmes. Mrs. Bethel's mother, Mrs. Dorothy Mitchell, her sister, Mrs. Lola Box and Steve, and Mrs. Bethel's grandmother, Mrs. Edythe Caldwell, all from Plainview. Those from South Plains were Mmes. Nathan Johnson, M.M. Julian, Dwight Teeple, Rance Young, Raymond Upton, demonstrator Mrs. Danice Cash, and hostess Mrs. Rogene Bethel.

Spending the day in Lubbock on business last Thursday were Raymond Upton, Rev. Fred Blake and Bobby Ramsey.

Hobby Club of South Plains will have the March meeting in the home of Mrs. Murray Julian, in South Plains, on Wednesday afternoon at 2 p.m. with a program by Kathy Burk from the Lighthouse Electric.

Lady Luck Frowns On 'Horns At Amarillo

The Longhorn track team ran into some hard luck last weekend at the Amarillo Relays. Quartermiler Curtis Ford, unbeaten in the 440-yard or 400-meter dash until Saturday, was picked second in a photo-finish race, losing to the state Class-A champion. Both were clocked in 50.2 seconds. The Longhorn sprint relay team was

running second in the finals when they dropped the baton on the final handoff. Coach Roland Murry said the sprint relayers were running their best race of the season when the drop occurred. The LHS mile relay team failed to qualify for the finals, running a 3:40.4 in the preliminaries. Mile relay split times in the prelims were as follows: Danny Delgado 56.4, Ford 50.5, Joe David Gonzales 56.5, Cecil Clark 57.0.

Delgado placed third in the 880-yard dash at Amarillo, and Gonzales was sixth in the half-mile event. In spite of the 'Horns' disappointing showing at Amarillo, Murry says the team looks strong for the district meet. "If anyone can beat Idalou, I think it will be us," Murry said, speaking of winning the District 4-AA track title. But he added: "It will take a super effort and maybe some luck."

The top 2 sorghum hybrids on the High Plains are both from Pioneer.

Even in a rough sorghum year like 1978, farmers all over the High Plains brought in good yields with 8451 and 8451 from Pioneer. Both of these hybrids have outstanding qualities that make them ideal for High Plains growing conditions. Talk to your Pioneer dealer soon about one . . . or both of these hybrids for your place.

8451 Greenbug tolerance without sacrificing yield! Even in marginal conditions this outstanding hybrid makes a good stand. Extremely good early-season vigor coupled with outstanding stress tolerance makes 8451 the kind of sorghum you'd choose even if it weren't tolerant to greenbugs. In side-by-side yield comparisons over a three-year period, 8451 has proven its performance potential by out-yielding later maturing hybrids by almost 350 lbs. per acre. If you need greenbug tolerance, but don't want to give up yield, plant 8451 from Pioneer.

High Yielding Greenbug Tolerant

8501 Drought tolerance with high yield potential. In 56 tests over the last three years 8501 has shown a yield advantage of 339 pounds per acre over competitive varieties. A strong stalk and root system give 8501 excellent standability and add to its exceptional drought tolerance. 8501 has good tolerance to smut and MDMV. Very uniform head height, excellent head exertion and beautiful, bronze grain help make its field appearance outstanding.

Nuggets Win Little Dribblers Tournament

The Nuggets beat the Knicks twice Saturday to win the Lockney Little Dribblers Basketball post-season tournament. Going into the final day of the double-elimination tourney, the Nuggets had lost once and the Knicks were undefeated.

The Nuggets won the first game 24-14 and clinched the tournament title with a 26-22 victory in the second contest.

Little Dribblers commissioner Eddie Teeter expressed thanks to several persons who helped make the Dribblers season a success:

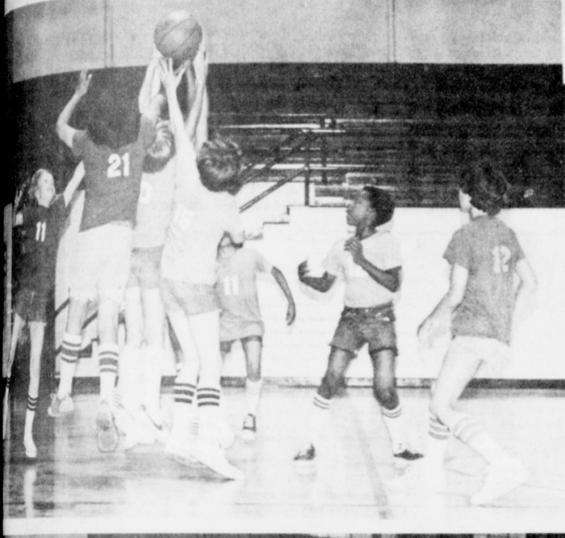

To Katie Ansley and Judy Jackson for being responsible for the concession stand and gate;

To the officials — Larry Christian, Joe Cunyus, David Frizzell, Paul Koonsman, Bob Lane, and Bill Turner — for taking time from their busy schedules and doing an excellent job of calling the games;

To Peggy Hallmark and Lockney High School for typing and mimeographing schedules;

To the coaches — Dub Hallmark, Jerry Miller, Ricky Mosley, Randy Henderson, Lanny Barnett, Jerry Johnson, Don Sutterfield, James Poole, Dickie Lambert and Danny Lambert — who did an excellent job of teaching the 42 boys and fundamentals of basketball.

And especially to the parents, for their great conduct as spectators and for their willingness to help with the gate and concession stand.

the sign comes down, but the business Stays In!

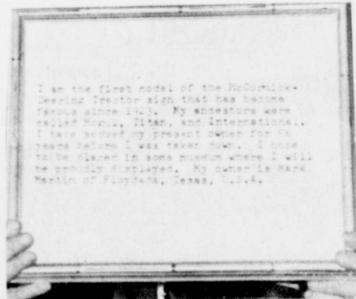

Yes, we're still in the parts and shop business.

We will continue to operate, handling repairs and keeping the repair shop open to handle allied lines such as Krause, Cisco, Yetter and M&W, and possibly more as time goes by.

We appreciate our successor, Don Brown, and other International Dealers who keep us in repairs until we make future arrangements.

When we cancelled the contact effective 1/1/79 we were in hopes, as all obligations with the Harvester Company had been paid for, that we could operate on a 30-day agreement made by both parties until a successor was named to take our place. This agreement was denied by the Harvester Company.

This denial to get repairs has been hard on us and has hurt the Harvester Company on future sales as several good customers have switched to other brands of machines. But with friendly cooperation between us and our competitor, in time some of this business can be recovered. Anyway, Martin & Company would like to give it a try.

Signup Period Announced For '79 Wheat And Feed Grain Programs

Farmers who plan to participate in the 1979 Feed Grain and Wheat program need to sign-up, according to Jack Stansell, Chairman of the Floyd County Agricultural Stabilization and Conservation (ASC) committee.

Stansell said Secretary of Agriculture Bob Bergland has designated February 15 to April 30 as the period for farmers to file intention to participate in 1979 set-aside.

He emphasized that farmers must sign-up to be eligible for price support loans, target price and disaster payments for barley, corn, sorghum and wheat on participating farms and on other normal crop acreage grown on the farm.

Farmers must also sign-up for voluntary diversion payments on corn and grain sorghum. However, Stansell said there will be no advance voluntary diversion payment for 1979 crops.

Stansell said farmers can get further information and details at the Floyd County ASCS Office, 211 E. Missouri St., Floydada, Texas.

Replace Your Home What It Would Cost

If you had to replace your home today, how much more would you have to pay to have it rebuilt? To find out consult the chart below, which was compiled by the Journal of American Insurance. Multiply the original construction cost of your home by the percentage opposite the year it was built, then add the percentage increase to the original cost. If your residence is a frame home, use the percentage found under the column marked "frame"; if masonry, use the "masonry" column.

TODAY'S LOGIC

By James W. Phelps

A Lifetime Pension For A Penny

In a typical con game, the con man promises the sucker he will double his money every ten months. This averages out at ten percent a month.

The sucker gives him \$100 and he pays the sucker \$10 "profit" each month. He can pocket \$50 and still have enough left to pay the "profits" for five months.

The sucker tells all his friends and they come running, money in hand. As long as more and more suckers keep coming, he stays there, takes their money, and pays the early investors.

For every hundred past investors he needs ten new ones each month just to break even. Eventually not enough new investors show up to enable him to make his payments to the old investors so the scheme collapses. Those who invested in the beginning all made money. It's the latecomers who got burned.

The greatest, most fantastic con game of all time was the promise of a lifetime pension for a penny.

It started back in the 1930's. The con men who started it were U.S. politicians. They called it "Social Security."

The suckers were the American people who worked in "covered employment."

The essence of the scheme was "vote for me and I'll give you a lifetime pension for a penny."

The American people voted for them and the politicians started taking one penny out of every dollar of wages, plus an equal amount from the employers.

In the beginning, as with all con games, there was lots of money. The maximum amount paid in by any employee was \$30 a year from 1937 to 1949.

How could any reasonable person believe that \$30 a year was enough to pay a lifetime pension large enough to live on?

Well, it was enough in 1940 when only 1 person was drawing benefits for every 145 who were paying into the scheme.

But by 1950 only 12 were paying into the scheme for each person drawing benefits. By 1960, 4 were paying in for each recipient. Now it is down to a 3 to 1 ratio.

As the ratio changed, the \$30 a year wasn't enough. So, instead of letting the scheme collapse, the politicians raised the price. By 1959 the charge was \$120 a year. By 1969 the charge was \$374 a year. For 1976 it is \$895 a year. Plus an equal amount each year from each employer.

Even with these fantastic increases social security is bankrupt. It owes trillions more than it has on hand. It pays out billions more each year than it takes in. It is the greatest fraud ever perpetrated in the history of man.

Three "Ones" were awarded in sight reading. They went to Seminole, La.

Show

Floyd County residents are making a concerted effort to aid residents of Wichita Falls, Vernon and other areas which sustained extensive losses in Tuesday tornadoes which ravaged that area.

County officials started the Good Samaritan project Tuesday and have since been joined by Floydada and Lockney Lions club, churches, and others.

Contributions of food (primarily canned goods), good clothing, cases, quilts, and blankets) are being accepted at three receiving stations within the county, as well as at most churches.
