Chamber Directors Set Old-Fashioned Saturday Night

Saturday Night has been held for Aug. 18 by the Lockney Chamber of Commerce Monday morning at

Strickland's Restaurant for breakfast and a business session. Omar Burleson, president, led the meeting.

Discussion was held on the possibility of having an arts and crafts sale in

conjunction with the Old-Fashioned Saturday Night celebration.

The directors voted to donate \$50 to the fund for Tammy Adams' trip to the national FHA convention.

Because the vocational agriculture boys from LHS assisted with the recent clean-up days in Lockney, the chamber directors voted to contact Elvin Lyon to see if there was anything the chamber could do to benefit the ag department.

Memorial Page Final Deadline June 15

County History Book is preparing the last shipment of memorial pages to the project committee is

wants everyone who is interested in having a page to honor one loved one to have an opportunity to buy the space. For that reason, the committee is reminding everyone

that it is still possible, for a limited time, to buy memorials.

Members of the history book committee will be glad to assist in any way — answering inquiries, making suggestions, assisting with writing stories, etc. It is felt that there are many who have not bought a memorial but would really be happy to have a page or portion of a page to honor one dearly loved by family and community.

The committee feels that a Floyd County history will not be complete

without these pages, which provide lasting remembrance and recognition to the deceased.

The cost of the pages is as follows: one-fourth page \$45; one-half page \$80; full page \$150. Deadline for tribute and memorial pages is June 5. The committee must have the information by that date for it to be included in the book.

Anyone who has questions about the memorial pages is asked to call the museum, Ann Swepston, Virginia Taylor or Nancy Marble.

Welding Course Scheduled June 18-21

An Oxy-Acetylene Welding Short Course for adult farmers will be held June 18-21 under the sponsorship of the

Lockney High School Vocational Agriculture Department and Young Farmers according to W.H. Hallmark, Superintendent, and Mike Glenn, teacher of vocational agriculture.

Mr. Charles Yeates, welding specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University will be the instructor for the course. He is headquartered at Texas A&M University.

Anyone interested in attending the short course should call or write the superintendent of schools, Mr. Hallmark, or the teacher of vocational agriculture, Mr. Glenn. An entry fee of \$15 will be charged. Oxy-Acetylene Welding short course certificates will be presented to each enrollee who attends all the training sessions.

Mr. Yeates states that the short course will be adjusted to wishes and interests of anyone enrolled but that he

expects to cover such subjects as safety in handling and using oxygen and acetylene, proper flame types, cutting and welding mild steel, brazing and welding cast iron, hardfacing, and welding aluminum.

Short courses in welding, as well as in other areas, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University. This cooperative program is designed to make the services of specialists available to conduct short courses under the supervision of the public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people.

Specialists are now available in the fields of Beef Production, Farm Wiring and Safety, Swine Production, Tractor Maintenance, Farm Arc Welding, Oxy-Acetylene Welding, Pasture Improvement, and Horticulture.

Summer Reading Program To Begin

Wednesday, June 13, the children again will be participating in the Summer Reading Program at the Lockney branch of Floyd County Public Library.

The Summer Reading Club program will be conducted June 4 through August 17 at the library.

Purpose of the club is to encourage children to come to the library and become familiar with its resources.

Instead of having to read a certain number of books to receive a certificate, children this summer will sign a "contract" when they enroll. In the contract, each child will specify the number of books that he or she will read during the program. The child receives a certificate only if the contract is fulfilled.

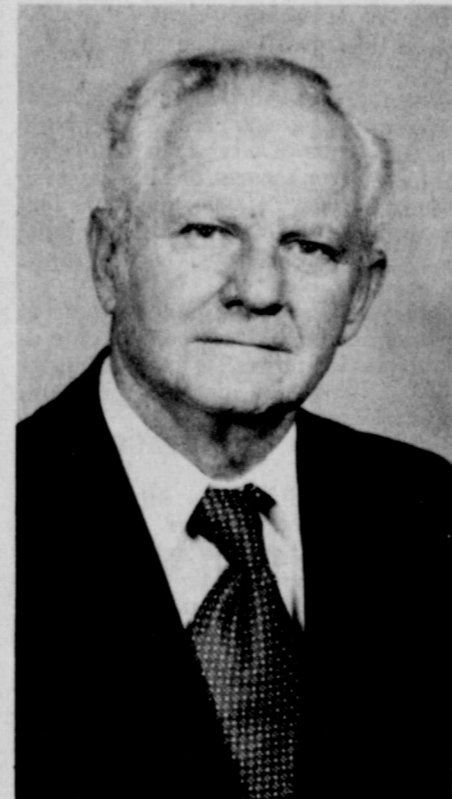

Children who are too young to read can be given credit for books read to them by their parents.

Theme of the reading club program will be "In Search of Texas Treasures". Children participating in either or both the story hour or the reading program will be rewarded with a party of some kind near the end of the summer.

Tennis Club To Meet

Lockney Tennis Club will meet Friday, June 15, to elect new officers and plan summer activities.

The meeting will begin at 8 p.m. at the new tennis courts in west Lockney. Everyone who is interested in tennis should attend this meeting. Current president is Cheryl Bradley.

Fortenberry Hearing Set In Floydada

A pretrial hearing for Larry C. Fortenberry, 30, who is accused of killing Motley County Sheriff Jalmar "Jinks" Wilson and has been convicted once in this slaying by a Hale County jury, is scheduled at 10 a.m. tomorrow (Friday) in the courthouse in Floydada.

The hearing was originally scheduled Tuesday morning but was transferred to Friday because two of the attorneys involved could not be present Tuesday.

The Hale County jury sentenced Fortenberry to death in 1977, but the conviction was overturned in March by the Texas Court of Criminal Appeals. The Court of Criminal Appeals found that jurors had not been properly

instructed on corroboration needed to convict a suspect on the basis of an accomplice's testimony. The alleged accomplice, Stacy Albert Carter, testified that Fortenberry knew Wilson was a law officer when Fortenberry shot Wilson. The appeals court ruled that the jury should have been told that Carter's testimony was not sufficient evidence to prove Fortenberry knew that Wilson was a peace officer.

District Attorney John R. (Randy) Hollums, the prosecuting attorney in the case, said Tuesday that the date and time of the second Fortenberry trial had not been set, and might or might not be set at the pretrial hearing Friday.

NEWS 'N' NOTES

(by Sharon Hillis)

By Sharon A. Hillis
County Extension Agent

Electronic sewing machines — some with a "brain" (computer) and pre-programmed touch buttons — have advantages and disadvantages, so shop carefully before buying.

Not all are fully electronic. Many are a combination of mechanical and electronic parts, but if a machine has just one electronic feature, the company may label it "electronic."

Electronic features on these machines range from simple electronic needle power to the complex touch-button pre-programmed stitches.

ADVANTAGES

Advantages of electronic machines start with their having more reliability and cooler-running motors than mechanical machines. Electronic machines have more sensitive foot power. Also, they generally have full needle power at all speeds — enabling you to sew through several thicknesses of heavy fabric, such as denim, without speeding up the machine.

In addition, electronic machines with touch-button control let the home-sewer change from straight stitching to zig-zag to decorative stitching with the simple touch of a finger.

These machines almost "sew for you."

DRAWBACKS

On the other hand, electronic machines have some drawbacks.

Repairs may be expensive and difficult to obtain. Many machine repairmen don't know how to repair electronic machines, so a machine may require shipping to the company for repair.

If the "brain" is damaged in a pre-programmed touch-button machine, the entire part usually must be replaced. This can be costly.

Also, if the programming was not done correctly by the manufacturer, adjustments will be needed.

Parts may be difficult to obtain, too, because a particular model may have been discontinued.

Some machine companies change models as often as they perfect the machine.

Finally, in selecting any machine, trade with a reputable dealer, know where repairs or adjustments can be obtained, buy only the features you'll really use, and get warranties or adjustment agreements in writing.

Dear Sir:

We parents have the responsibility to raise our children and to teach them right from wrong. We teach our children that they are to respect officials and obey the laws of our country. When we come down to the one small celebration of our County something happens to our children that makes them wonder why their parents are teaching them to respect law officers.

On old Settlers day our Sheriff's Department went around taking water guns away from children, simply to exercise their authority. They were not provided a place to go, to play with water guns such as an empty lot or street. Children lost respect for law officers for taking away their toys. Instead of helping make a relationship with the children, they made them dislike all law officers. The officers made mention to the fact that the kids could have guns back later or at all. And the kids had no good reason. Why didn't the officers take candy and cokes away from them, too? After the wrappers and empty cups are an eye sore on the courthouse lawn.

I believe a place should have been provided for the kids to play. After all there is entertainment for these kids. Only adults are allowed to have entertainment.

Thanks, Concerned Parent

New Magazine Is Scheduled

A new magazine is scheduled to be introduced to West Texas in early August. The magazine, South Plains Agriculture, will be devoted exclusively to the agricultural industry on the South Plains. The magazine will be headquartered in Wolforth and published by West Texas Ag Publishers. Texas Tech graduate, Billy Huckaby will serve as the magazine's editor.

A special advisory board will be formed at a later date to lend the magazine editorial guidance. The board will be composed of prominent area agribusinessmen. According to Huckaby, with the problems facing the farmer today, he needs a periodical which can specifically address itself to area needs.

"We hope our magazine will keep the farmer informed on what's happening in Washington and Austin which could affect him," Huckaby said. "The magazine will also carry regular features on such problems as energy."

Guests for lunch Friday June 1 in the home of Mr. and Mrs. Weldon McClure of Floydada were Reverend and Mrs. Ernest Stewart of Omaha, Nebraska. The Stewarts were enroute to the Southern Baptist convention in Houston. Reverend Stewart is pastor of the Harrison Street Baptist Church in Omaha.
