STILL A BARGAIN!

City Water Rates Up

Lockney residents will soon be paying more for city water, but they'll still pay less than citizens of most other area towns.

The city council voted Thursday morning to raise the city's minimum water rate from \$4 to \$5. That's for the first 3,000 gallons — city water customers who use more than 3,000 gallons per month will pay 75 cents for each additional 1,000 gallons. The old rate was 60 cents per thousand.

City water users who reside outside the city limits still pay double the in-town rates.

The council made the water-rate change after studying a survey of rates in other area towns. The survey indicated that the Lockney water rate was lower than most surrounding towns' rates. Even with the increase, Lockneyites still enjoy the distinction of paying less for city water than most of the towns surveyed.

Nobody showed up for an announced public hearing on the next year's proposed city budget.

Southwestern Public Service manager Kenneth Tate appeared before the council to discuss SPS's recent request

for electric rate increases. The council passed a resolution allowing the county tax appraisal district to appoint a review board.

Attending the meeting were mayor Claude Brown; aldermen Thurman Davis, J.D. Copeland, Bobby McCormick and Pat Frizzell; city secretary Erma Lee Duckworth; police chief Bill McConnell; and Paul Lyle, the city's attorney.

A special meeting of the council is scheduled at 9 a.m. Monday. The council will act on the purchase of a new police car at that time.

Remember this is the last time I'm mentioning it...

Roy Holly Wednesday added his name to the list of candidates in the election to name three city council members. Three others — Jimmy Stennett and incumbents Paul Reece and J.D. Copeland — had filed earlier. The council terms of Copeland, Reece

and Pat Frizzell expire next month. There are four candidates — Buster Terrell, Bill Race, and incumbents Eddie Foster and Eugene Tannahill — for three positions on the Lockney Independent School District board of trustees. Trustee Jerry Williams is not

running for another term. Francis Montandon and Les Ferguson are the candidates for the Lockney General Hospital District board of directors. Ferguson is seeking re-election. Helmut Quebe, whose hospital

board term also expires in April, has served three terms and is not eligible for another. Saturday, April 5, is the date set for all three local elections.

Lockney Fisherman Lands A Big One At Amistad

DEL RIO, TEXAS - Jack Gaskins of Lockney, Texas pulled a 12 1/2 pound striped bass from the deep, blue waters of Lake Amistad February 26.

He was fishing with a black and white hellbender in the Rio Grande area of the 85 mile long Lake Amistad, located just north of Del Rio

on the border between Texas and Mexico.

The dam at Amistad restrains more than 5 million acre feet of clear water from three famous and scenic rivers, the Rio Grande, the Pecos, and the Devil's River. This catch is among many good ones being reported this season on Lake Amistad.

American Viewpoints

Physical education classes adjust to today's students

COLLEGE STATION — The old-fashioned gym class led by a whistle-toting, military style PE teacher is disappearing from the schoolyards and gyms.

Physical education classes now are being designed for individual activity and structured to help youngsters learn lifelong skills, say physical education experts at Texas A&M University.

With the rising incidence of heart disease and other ailments, schools are realizing they have a responsibility to help children maintain healthy bodies through adulthood by teaching a variety of physical skills, notes Dr. Charles Shea.

On the elementary level, there is less emphasis on competition, he adds. Instead teachers work on motor skills, encouraging children to learn the best way to do a movement or a series of movements. In high school students are being taught things relevant to their world now and later in life, including outdoor recreation activities, ballet, tennis and equestrian skills.

Whozit

LOCKNEY WHOZIT — All these youngsters, pictured at the start of a 1925 dog race, still live in the Lockney area. Anybody know who they are? Call The Beacon, 652-3318, by Thursday to

identify them. Last Week's Lockney Whozit subject was Lawson Rowell. An anonymous caller correctly identified the Lockney variety-store man.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN — Gov. Bill Clements promised voters he would improve relations with Mexico, and he apparently is working to comply on that issue.

Last week the Governor escorted visiting Mexican Gov. Manuel Bernardo Aguirre of Chihuahua around the Capitol and Austin. The two officials reportedly discussed a variety of issues, including illicit drug flow, energy tourism, agricultural and beef imports and other economic developments.

Both Clements and Aguirre are cattlemen and Chihuahua is a major cattle producer and beef exporter to the U.S.

Aguirre is the second Mexican border governor to visit Clements this year.

Touring around Austin is not the only traveling Clements is planning for his near future.

The Republican governor, who has said he will do anything to defeat President Jimmy Carter, said last week he will spend about \$50,000 traveling extensively throughout the state and nation with an anti-Carter message.

That news prompted Texas Democrats to speculate Clements is really going off on a campaign to win the vice presidential nomination for his party. Should his fellow Texans John Connally and George Bush deadlock in their efforts to get the top

spot on the ballot, Clements would be a likely compromise choice for a winner—Reagan for example, seeking Texas and regional votes.

A spokesman for Clements said that wasn't the case, and two days later announced the plan had run into snags.

Clements' top political fund raiser Jim Francis said a provision in federal election laws might force Clements to give up the trip idea.

Since the Governor plans to spend more than \$1,000, he would have to file with the Federal Election Commission, as he had intended all long. However, the commission interprets federal law to mean that Clements would have to stop spending independently once he has consultation with any presidential candidate.

The legal problems are being examined, apparently with an eye on continuing as planned.

New Hampshire Fallout

What will happen to two Texas Republicans following former California Gov. Ronald Reagan's primary victory last week in New Hampshire?

George Bush, despite earlier caucus wins, is not going to pull a sweep to the national Republican convention—he placed second behind Reagan.

And former Texas Gov. John Connally, who gained only two percent of the New Hampshire vote, is suddenly fighting a "loser" image, a new twist in his political career.

Connally reportedly is banking on a comeback in the March 8 primary in South Carolina, hoping to split conservative votes with Reagan and draw independents and conservative Democrats.

Texas Poll

Meanwhile, a Texas Monthly magazine poll tracking presidential candidates' progress in this state, shows President Carter out in front of party rival Ted Kennedy and a winner over either Reagan, Bush or Connally.

Dr. Milam To Speak At WTSU

WTSU — A graduate of West Texas State University who now is president of a women's college, will be the speaker for the Texas Panhandle Award for Distinguished Service Luncheon, Saturday, April 19. Dr. Evelyn Milam, presi-

dent of Cotney College in Nevada, Mo., will deliver the program for the fifth consecutive luncheon which begins at 11 a.m. in the WTSU East Dining Hall. Theme of the luncheon is "A New Decade: Enter Women of the '80s." Women involved in educa-

tion, medicine, business, civic service and professional areas in the top 32 counties

of the Texas Panhandle and South Plains will be honored. Deadline for nominations is Friday, March 28.

Dr. Milam received a Bachelor of Arts degree from WTSU in 1942 where she majored in Spanish and speech and studied English as a minor. Several years later she earned a Master of Arts degree in educational psychology at Texas Tech University, Lubbock.

In 1968, she received a Ph.D. in counseling psychology from the University of Wyoming at Laramie and is certified as a psychologist by the Texas State Board of

Examiners of Psychologists. Dr. Milam, who is the ninth president of Cotney College, went to Missouri from Austin College at Sherman where she was professor of education and psychology.

She also was visiting professor at the Bank Street College of Education in New York City, a counselor with the Pampa Independent School District and a high school teacher in Herford and Perryton before assuming her position at Cotney College.

Cotney College, a two-year liberal arts college for women founded in 1884, has been owned and supported for more than 50 years by the PEO Sisterhood, a philanthropic educational organization of more than 205,000 in the United States and Canada. PEO is dedicated to projects which advance higher education for women. Dr. Milam has been listed in "Who's Who of American Women," "Dictionary of International Biography" and "Who's Who in the South and Midwest."

Her travels have taken her throughout the U.S., Canada, the British Isles, Australia, Mexico, Europe and the Orient.

She is a member of the American Association of University Women; the International Society of Delta Kappa Gamma, a teachers honorary society; and the board of directors of Nevada-Vernon County Chamber of Commerce.

Tickets for the luncheon are \$6 and may be obtained at the luncheon.

Agri-Facts
By Jerry Perry

Eliminating hunger... feeding the world... wiping out the malady of malnutrition. These are worthy and respected ambitions. To be obtained, causes and solutions need to be better defined. Most simply stated the problem is not lack of food. It is lack of money. Therefore, it is a common error to look to the farmers of this country to solve the world's hunger problems. If we want to eliminate the malnutrition around the world, if we want to feed the world... then everyone must share the cost. Not just the producers. Farmers and ranchers will be doing more than their share because they will be working harder, spending more money and taking greater risks. Discussions of possible solutions will be included in upcoming policies. Hopefully, those decisions will be fair to the men and women whose agrarian abilities have made it possible to even consider solving the problem.

Public Notice

Southwestern Public Service Company,
pursuant to law and the rules of the Public
Utility Commission of Texas, hereby gives
notice of its intent to apply for a general rate
increase affecting all classes of its retail con-
sumers in the county of Floyd whose rates are
subject to the original jurisdiction of either
the municipality of Lockney or the Public
Utility Commission of Texas. A copy of the
Company's statement of intent and proposed
tariffs has been filed with said municipality
and said Commission.
The revised tariffs are proposed to become
effective April 4, 1980. Applied to all af-
fected consumers in the 31 counties com-
prising the Company's Texas service area,
they will increase the Company's retail
operating revenues by approximately 14.8
percent.

Epilepsy Society To Meet March 11

James S. Lock Jr., Director
of Project Review of the
South Plains Health Sys-
tems, Inc. will speak to the
Epilepsy Society of the South
Plains on "Barriers because
of stigma..." at their regular
meeting, Tuesday, March
11, 7:30 p.m. at Hodges
Community Center, 41st &
University Ave., Lubbock.
Anyone interested in epi-
lepsy and/or other convul-
sive disorders are invited to
attend these regular meet-
ings or they may write the
society at Box 2412, Lub-
bock, TX 79408.
At a recent meeting of the
task forces of the Texas
Planning Commission on
Epilepsy held in Austin it
was stated that persons with
epilepsy have all the con-
cerns and problems that
disturb most of us in America
but their frustrations are
compounded by a misunder-
standing society.
Although new drugs have
been developed to control
seizures in eighty percent of

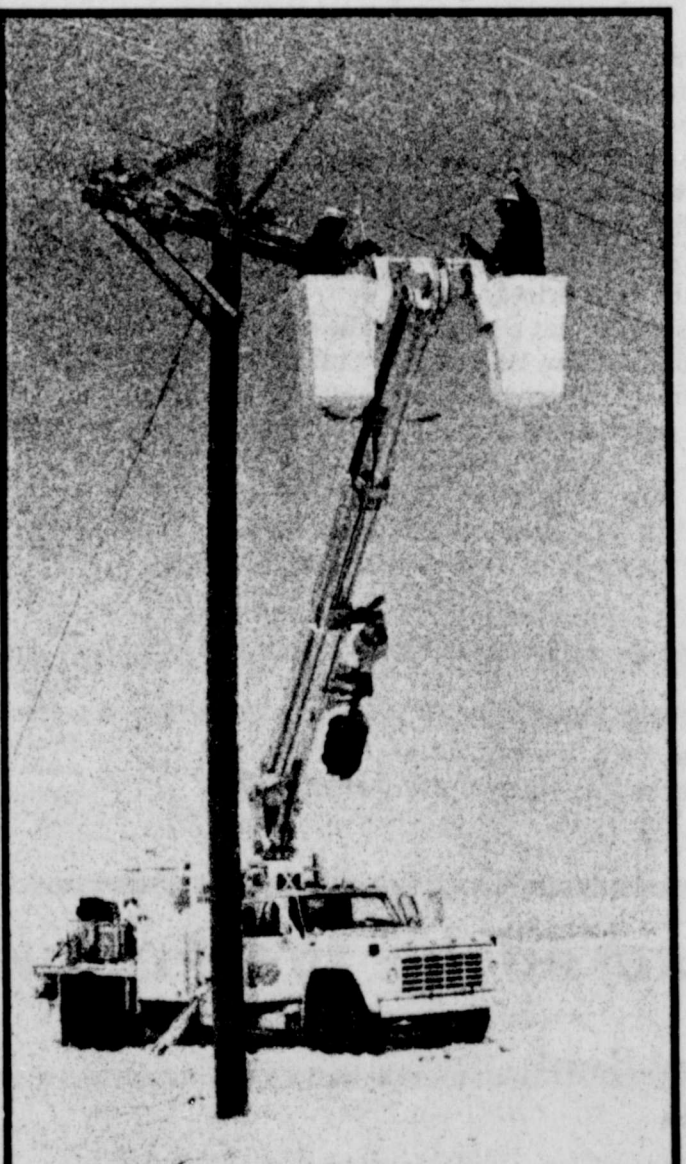

those afflicted, persons with
epilepsy continue to bear
painful and needless suffer-
ing in seeking jobs, mingling
socially with other people,
and generally, trying to lead
fruitful lives. In Texas more
than 180,000 persons still
suffer from the legacy of
neglect.
Many people with epilepsy
are without jobs, and those
with them are often under-
paid and underemployed.
Health Insurance is unavail-
able to them and other
necessities needed for coping
in this ever changing society
are unaccessible.
The major goal of The
Texas Planning Commission
on Epilepsy is to ascertain for
those persons with epilepsy
and their families in Texas
the most cost effective, com-
