day, July 13.
new office with
street will al-
low the present
2800 square

There will be 1122
boxes in the new office.
The 820 boxes from the
old office will be moved to
the new location and the
remainder will be new
boxes. The postal service
installed the old boxes a
year ago and they are still
in good shape. Meriwether
said that with the addi-
tional boxes avail-
able, only one household
will be able to receive mail
through a single box. Also
all the equipment from
the old office will be
moved into the new build-
ing and will be repainted

as soon as possible.
Meriwether said that
the box lobby will con-
tinue to be locked at dark
each day during the sum-
mer and at 9 p.m. during
the winter. The north door
on the building will be
locked at 4:30 p.m. each
day but the south door will
remain open until the
above hours.
The traffic pattern at
the new office will be
one-way traffic from the
north to the south. No
parking will be allowed
after hours on the parking
lot. Also, the parking
spaces on the south side

of the building will be
reserved for postal em-
ployees.
There is one parking
space reserved for the
handicapped.
The new building is
owned by Gene Owens
and Jim Kelly of Plain-
view. The postal depart-
ment has leased the build-
ing for 30 years. Since it is
an individually owned fa-
cility, it will be taxed the
same as any other city,
county, and state taxes.
No open house is
planned at this time.

For What It's Worth

BY NANCY CARTHEL

I should write
about the heat.
I think that
everyone knows
how hot it is.
That kind of
travels fast. Also,
I may have es-
timated the heat
and the need to
use the air con-
ditioner.
I heard Carson
say so hot that...
I have heard sev-
eral comments
about this past
week. One I heard
reminded me of
I did a long
time ago. The ex-
pression was hot
enough that the
eggs on the
table were too
hot to make. I
heard someone else
say they'll have to

admit that I did. It took a
lot of talking to get the
egg, and after watching
the thing out there on the
sidewalk for about 15
minutes, I got interested
in doing something else
and Puppy Dog Webster
ate the results of the great
experiment so to this day I
still don't know if it can
get that hot. Maybe I'll try
it again.

Seriously, it is hot and
the heat is doing it's
damage. The crops and
yards are beginning to
show the effects. Laverne
Carthel, City Water Su-
perintendent, said today
that the daily water con-
sumption is running
around 600,000 gallons.
The high was 640,000
gallons on the June 22.

The normal usage is
500,000 gallons at this
time of year. He said that
there are no plans at this
time to ration water and if
everyone will be a conser-
vative as they can, we will
be okay.

This is our first edition
of the weekly paper. We
still have a long way to go
to publish the kind of
paper we want but I for
one feel that this is a step
in the right direction. The
response has been good. I
have had some question
about the Monday dead-
line for news and adverti-
sing. The reason for this
early a deadline is to
enable us to have one
section of the paper print-
ed on Tuesdays. The prin-
ters' schedule made this a
necessity.

Crime Call Works

The Crime Call pro-
gram has paid off. A theft
from Andrews Ward El-
ementary School was
averted, the stolen prop-
erty recovered, and a
witness was rewarded, all
before the program was
officially in effect. It hap-
pened like this.

Just after midnight,
June 28, the sheriff's
department received a call
that someone was trying
to remove an air condi-
tioner from a window at
the east side of Andrews
Ward School on White
Street in Floydada. The
Crime Call phone hadn't
been hooked up yet so the
call came in to the dis-
patcher.

The time was 12:10
a.m. A police cruiser in
the vicinity answered the
call immediately and ap-
prehended a man carrying
an air conditioner away
from the school. The ar-
rest was made at 12:14
a.m.

When the police arrived
the man, Gilberto Rodrig-
uez, dropped the air
conditioner and hid be-
hind some trees. The po-
lice ordered him to come
out which he did. "I don't
know why I did it. I've
never done anything like
this before," Rodriguez
told the police officers. It
must have been the heat
and the beer that caused
me to do it."

Rodriguez, 22, who
lives in Plainview, was
booked and then released
on bond Sunday morning.
The Crime Call infor-
mant picked up the reward
money on Monday morn-
ing at an appointed "drop
site."

"I'd rather have them
(the Crime Call Commit-
tee) pay off to prevent a
crime," Sheriff Fred Car-
dinal said. "But either
way we know it will
work."

The Crime Call tele-
phone has been installed
in Sheriff Cardinal's of-
fice. The number is 983-
5200.

Informants from around
the county can call collect.
There is no need to give
the operator a name.
When she asks for a name
they can simply give the
Crime Call. The Sheriff
will accept the call and the
informant can give the
information.

Notice

The Texas Department
of Public Safety will con-
duct "Operation Motor-
cide" for the 1980, 4th
of July. It will begin at 6:00
p.m. July 3rd and end
midnight July 6th, 1980.

The most tragic part of
a National Holiday, such
as the 4th of July, is the
wasteful loss of human
life upon our highways.
The Department of Public
Safety predicts 47 persons
will die in fatal traffic
accidents during this pe-
riod in Texas.

The two most danger-
ous things the driver can
do is speed and drink.
Each driver should be
aware of both the condi-
tion of the road and
vehicle, as well as his
personal condition before
he gets behind the wheel.
Drive as if your life de-
pends on it - because it
does!

The Texas Department
of Public Safety urges
each and every driver to
do his part this holiday
period by "Driving
Friendly" and practicing
defensive driving to stay
alive.

When the witness calls
in with the information
they are given an identifi-
cation number and told to
call back. After the arrest
has been made, and the
information given by the
witness is sufficient for
the district attorney to
make a case the informant
calls back to Crime Call.
The witness specifies
where they want to pick
up the reward money. A
member of the Crime Call

drop committee takes the
money, in cash, to that
prearranged destination.
The committee member
then checks back later to
make sure the envelope
has been picked up.
The informants never
gives their name. No one
ever knows who they are.
The success of the Crime
Call program depends on
the fact that no one ever
knows the identity of the
informant.

Citizens Can Now Combat Crime

"People are sick and
tired of crime and Crime
Call is a way they can do
something about it," said
Carroll Anderson, chair-
man of the Crime Call,
Inc. finance committee.

Crime Call offers the
public two ways to combat
the growing crime prob-
lem. It gives them a way
to report the crime and
remain anonymous and it
offers them an opportuni-
ty to contribute to the
fund.

"People are accepting
the program well and
believe in it," said Ander-
son. "This speaks highly
of the community. They
are willing to back up
their feelings with their
pocketbooks."

The Crime Call is de-
signed to give the public a
way to report their knowl-
edge of the crime without
getting involved and with-
out fear of reprisal. The
reward is an added incen-
tive. Right now, the pro-

gram is paying \$100 for
information leading to the
indictment on a misde-
meanor and \$200 on a
felony indictment.

In order to fund these
rewards, the finance com-
mittee will be contacting
businesses and individ-
uals for their help dur-
ing the next two weeks.

If you are not contact-
ed by one of these represen-
tatives and wish to con-
tribute, you may do so by
bringing your check or
money by either the First
National Bank in Lockney
or Floydada. Make your
check payable to Floyd
County Crime Call, Inc.
The Crime Call tele-
phone has been installed
in the sheriff's office in
Floydada and the number
is 983-5200. Anyone wish-
ing to report information
on a crime can call collect
to this number and indi-
cate to the operator that is
a crime call.

Renovation Contract Let For High School

The firm of Atkinson,
Wofford, White and
Prutzman, Inc. of Plain-
view was awarded the
contract for the renovation
of the halls and restrooms
in Lockney High School by
the Lockney Independent
School District Board of
Trustees in a called meet-
ing on Friday, June 28.

The bid of \$45,600 was
accepted over the \$52,000
bid offered by Belk and
Cook also of Plainview.
Plans call for paneling the
walls in the halls,
stairs, and restrooms and

some renovation in the
two restrooms. All work is
expected to be completed
before school starts on
August 28.

The board also worked
on the budget for the
coming school year.

Present for the meeting
were board members Tom
Duvall, Eugene Tannahill,
Kenneth Broeseh, Kelton
Shaw, Eddie Teeter, and
Bill Race, Superintendent
W.H. Hallmark, Jack
Sanford and Claudette
Hulcy.

Local Man Injured In Accident

Freddy Gonzales, 27, of
Lockney was injured in a
one-car turnover at 7:30
p.m. Sunday 4.7 miles
east of Lockney on a
county dirt road.

He was reported Mon-
day to be in critical con-
dition in Lubbock General
Hospital. Gonzales was
taken by Lockney Volun-
teer Ambulance to Lock-
ney General Hospital for
emergency treatment and
transferred to the Lub-
bock hospital.

Gonzales was thrown
from the car which turned
over one time and landed
upright, according to
Texas State Highway Pa-
trolman Joe Lopez who is
investigating the acci-
dent.

Because of witness re-
ports, another person
might be involved, said
Lopez, who added that the
driver apparently lost con-
trol of the car.

FARM & RANCH NEWS

ONION HARVEST in full swing at the Floydada Pepper and Vegetable Co. Onion Shed.

Local Onion Growers Not Affected By Hereford Workers Strike

The onion workers strike in Hereford didn't effect this area. "We started out paying higher than they did," Gene McFarland with the Floydada Pepper and Vegetable Co., said, "so we don't anticipate any trouble."

McFarland predicted a stronger market in the next 10 days. "The sheds get bogged down with onions and no delivery over the Fourth," he said. Then after July 4, Pecos

and New Mexico will be cleaning up so there should be more demand. Price on yellows is \$3.50 on prepacks and \$5.00 on jumbos. The white market is \$4.00 on mediums and prepacks with jumbos selling for \$6 to \$9 depending on size.

The market is very sluggish on mediums and prepacks. The only demand is for jumbo whites.

McFarland said the quality of the crop is excellent although the heat is effecting somewhat. The whites

are showing some sun scald and the yellows show a loose skin. There has been no problem with transportation this year, the trucks are easy to get, but he does anticipate a rate increase as the season progresses.

Cucumbers should start about July 5 and peppers will begin about August 10. "The market looks good on both cucumbers and peppers," McFarland said.

USDA Announces Interest Rates

The U.S. Department of Agriculture recently announced that effective June 16, interest rates for many loan programs would be reduced to reflect the lower cost of money to the federal government.

The announced changes included:

*CCC crop loans, reduced from 13% to 11 1/2%.

*FmHA economic emergency loans from 14% to 11%.

*FmHA operating loans from 12.5% to 10.5%.

*Emergency disaster loans, reduced from 14% to 12 1/2% on land, 13.5% on production loans.

*FmHA real estate loans from 12% to 11%.

Interest rates were left unchanged for the farm storage facility loan program at 13%, FmHA disaster loss emergency loans at 5% and FmHA "limited resource" loans at 5% on real estate and 7% on operating loans.

Texas Wheat Estimates Down

Texas wheat crop estimates for 1980, which remain at 125 million bushels in the June report issued by the Texas Crop and Livestock Reporting Service, are down nine percent from a year ago.

Estimates for the total U.S. wheat crop point to a record-breaking 1.76 billion bushels, based on June 1 conditions. Texas, however, is expected to have a harvest that falls 13 million bushels short of the 1979 crop, Agriculture Commissioner Reagan V. Brown reported.

"Despite the fact that Texas farmers will harvest 400,000 more acres this year, the yield is estimated to be around 25 bushels per acre, 5 bushels less than in 1979," Brown said.

He attributed the drop in yield mainly to the drought that extended over South Texas and parts of North Texas and the Panhandle.

Rains in the latter part of May helped to keep the yield from falling lower. Slightly over 13 percent of the 5-million-acre crop has been harvested.

"Combines are just now moving into the Low Plains, and our yields could be better there," Brown said.

The overall U.S. total was increased by 3 percent over May estimates with 49.5 million acres to be harvested for grain this season.

Floyd County Farm Report

BY NANCY CARTHEL

The hot dry weather is beginning to take its toll on area crops. The corn and milo has been affected the most. Wells have not been able to keep up with the need. Also, many farmers have started watering cotton. I heard one farmer tell his wife to get the camera and take a picture of his corn crop because it would be the last one he plans to raise.

Because of the stress the milo and corn is in, spider mites have been doing some damage. Quite a bit of spraying has been going on to control the infestation.

Since wheat harvest and the dry grass in pastures, grasshoppers have been moving into the cotton and soybean crops. The soybeans have been hit hardest, especially in the southeast part of the county.

For those of you not making 60% of your farm's projected wheat yield and are interested in a payment, the application must be made to the ASCS Office within 15 days from the date you completed harvest on that farm.

Also, applications for measuring service will be accepted through July 7th.

The market report as of Wednesday afternoon is:

Cost-Price Squeeze To Cut Into Revenue

Farmers and ranchers are suffering from an old and persistent ailment—the cost-price squeeze.

Net agricultural income in Texas is expected to decline to about \$1 billion this year despite higher cash receipts, points out Dr. Carl Anderson, economist in marketing with the Texas Agricultural Extension Service, Texas A&M University System. That would put it at the 1978 level.

Cotton growers, cow-calf operators, sheepmen and dairy farmers will likely fair somewhat better than wheat, milo, corn and soybean farmers, swine producers and poultrymen, speculates the economist.

Anderson foresees production costs this year jumping up around 12 percent, with fuel, fertilizer and interest expenses leaping much higher. Although this rise trails last year's big jump, cash receipts may increase only 4 to 6 percent. With the cost of pumping water skyrocketing, Texas farmers will be especially hard hit since production from irrigated farms represents about 60 percent of the state's total crop sales.

While money is generally available for farmers to borrow, the greatest concern is the cost of that money and the income that it might generate, says Anderson. With the current cost-price squeeze, farmers and ranchers will be hard-pressed to repay high-cost loans.

All this is putting a growing number of agricultural operators in financial stress, particularly young farmers and those depending heavily on credit capital to run their farming business.

It's also changing the financial potential of operators using a lot of credit compared with more conservative farmers that depend less on credit and more on debt-free capital. When the rate of inflation exceeds the cost of money, it generally pays to borrow money to expand your operation.

Inflation boosts the net worth of assets which helps support weak cash flow statements. But interest rates higher than inflation shifts the financial situation in favor of the operator with a large proportion of equity in his business and little

The cost-price squeeze places a premium on financial management skills of farmers, contends the economist. Some operators will reduce their dependence upon credit capital to minimize financial risk by reducing replacement livestock and machinery purchases. Farm expansion will also slow down and marginal cropland may revert to grassland for grazing livestock.

High cost of money tends to cut down on cash leasing agreements and increases crop-share renting arrangements, adds Anderson. However, prolonged inflation strongly favors landowners relative to tenant operators. Farming systems using the least amount of inputs for maximum returns and minimum tillage practices gain more rapid acceptance.

Pressures from the cost-price squeeze also encourage forward pricing. More producers decide to contract for an agreed price upon delivery. Hedging in the futures market is an alternative for some individuals who understand this forward pricing strategy. It is easier to finance an operation when assured a reasonable price for at least a part of the expected crop or livestock production. High money costs also encourage farmers to sell at harvest time to avoid storage and interest costs.

A possible "plus" from tight and expensive credit is that producers take a stronger interest in marketing, notes the economist. Year-round marketing strategies become essential, and there is an increased tendency to shift some of the financing burden to the marketing agency. Emphasis is on a total production-marketing system that is cost-effective.

With the overall supply-demand relationship for farm commodities affecting farm prices regardless of production costs, producers will need to look at different enterprises in the years ahead, suggests Anderson. With reasonable efficiency, diversification of enterprises may substantially reduce the possibility of financial disaster resulting from long periods of low prices and income for a given enterprise. The old saying, "Don't put all your eggs in one basket," is still worthy of consideration.

Double-Ring Ceremony Unites DeAun Wilson, David Lee Criswell

The First United Methodist Church of Floydada was the setting for the Saturday evening double-ring ceremony uniting in marriage Kella DeAun Wilson and David Lee Criswell. Tom Pauley, minister of the City Park Church of Christ, officiated the ceremony.

The bride is the daughter of Mr. and Mrs. L.G. Wilson of Floydada. The groom is the son of Mr. and Mrs. Elmer Lee Criswell of Plainview and the grandson of Mr. and Mrs. E.L. Criswell, also of Floydada.

Guests were registered by Mrs. Drew Lloyd of Floydada. The register table was decorated with an aubergine and mauve silk flower arrangement in a brass container. A prelude of musical selections on the piano was presented by Mrs. Bill Orman of Floydada.

The church was centered with a floral arrangement of white mums with greenery. Arched candelabra holding white tapers were entwined with greenery and ivory satin bows. On either side of the area were large potted palms and white Grecian urns containing aubergine silk flowers. Ivory bows and greenery marked aisle pews.

Given in marriage by her father, the bride selected a formal length gown of candlelight chiffon and silk venise lace. The gown featured a Queen Anne neckline edged in lace and the fitted bodice was accentuated with a sheer yoke of English net and detailed with lace motifs and pearls. A double capelet of chiffon covered the arms and dipped in back. The flowing chiffon skirt fell from a slightly raised waistline and formed a chapel train.

The candlelight bridal hat was edged and banded in venise lace. Silk roses spilled over one side

of the brim and the other side was caught up with a cluster of roses. French veiling covered with crown and draped to form a face blusher.

The bride wore a diamond drop necklace, a gift from her parents. She also wore her maternal grandmother's wedding ring and diamond earrings given to her by the groom. Pennies minted in the years of the bride and groom's birth were worn in her shoes.

She carried a nosegay of mixed white baby mums, sweetheart roses, and aubergine baby's breath tied with long ivory streamers.

Matron of honor was Mrs. Ricky Mosley of Lockney. Bridesmaids were Mrs. Mike Giesecke of Floydada and Mrs. Van Steed of Bryan. All wore floor length gowns of aubergine Quiana jersey. They featured a Grecian bodice, cummerbund waistline, and flowing skirt of sunburst pleats. Aubergine silk roses, a gift from the bride's mother, were worn in their hair. They each carried a long stemmed white rose tied with satin streamers.

The groom's brother, Don Criswell of Plainview, was best man. Serving as groomsmen were Stan Wilson of Albuquerque, New Mexico, brother of the bride, and Paul Pierson of Bartlesville, Oklahoma. Seating guests were Tracy Dickson of Plainview and Keith Poe of Midland.

The Mothers of the bride and groom were escorted to their seats by their sons, Stan Wilson and Don Criswell.

RECEPTION

Following the ceremony, a reception was held in the fellowship hall. The bride's table was covered with a white floor length cloth with a white lace overlay. It was centered with a silk floral

arrangement in the bride's chosen colors set in a lead crystal bowl.

The three tiered white wedding cake was decorated with aubergine roses and topped with satin bells. A crystal punch bowl and mints in a crystal dish completed the table setting. Serving at the bride's table were Miss Laurie Shedd of Sweetwater, Mrs. Mike Brownlee and Mrs. Don Green, both of Floydada.

The groom's table was laid with a brown cloth covered by a hand crocheted tablecloth made by Mrs. Buddy Brown of Silverton. Centering the table was an arrangement of brass candlesticks on a brass tray. Brown candles entwined with ivy completed the centerpiece.

Coffee was served from a brass coffee service, and a chocolate cake made in the shape of a western boot was served by the groom's aunts, Mrs. Wayne Dunnam of Abilene, Mrs. J.B. Smith of Plainview, and Mrs. Buddy Brown of Silverton.

Quartet tables, placed throughout the reception hall, were covered with gingham and lace cloths made by the bride's mother. Each table held a small white vase filled with aubergine silk flowers.

Gingham rice bags in aubergine and white were distributed by Shannon Paty and Jennifer Paty, daughters of Mr. and Mrs. Joe Paty of Floydada. The girls wore identical gingham dresses and carried white wicker baskets filled with the rice bags.

After a wedding trip to New Mexico, the couple will make their home in Plainview.

BRIDAL COURTESIES

A buffet rehearsal dinner was hosted by the groom's parents Friday evening in their home south of Plainview following the church rehearsal.

The bridesmaids luncheon was hosted Thursday by the bride's mothers, Mrs. L.G. Wilson, at the Ice House in Ralls.

Other courtesies honoring the couple included a miscellaneous shower in the home of Mrs. Durward Lynch of Plainview; a pounding and cookout in the home of Mr. and Mrs. Mike Cocanougher, co-hosted by the members of the Floydada coaching staff and their wives; a linen shower and luncheon hosted by Mrs. Ricky Mosley of Lockney; a kitchen shower in the home of Mrs. Drew Lloyd; and a surprise shower and party given by the bride's co-workers at the Floyd County ASCS Office.

The bride graduated from Floydada High School, attended Abilene Christian University where she was a member of Delta Theta, and is currently employed by the Floyd County ASCS Office.

The groom is a graduate of Plainview High School and Texas A&M University. He also attended Abilene Christian University and did graduate work at Texas Tech University. He is engaged in farming near Plainview.

The mother of a college student said recently her daughter's love of reading and subsequent success in school dates back to her becoming involved in the summer reading club at the media center and discovering that reading could be fun.

"As a second grader, reading was hard work and she wasn't too interested in joining a summer reading club, but we encouraged her to try it and see and she discovered the joy of reading for personal pleasure."

Reading skills have declined as parents have failed to realize the importance of encouraging children to read. The television set has been a handy baby sitter but it cannot replace the time a parent spends reading to a child. The most valuable skill parents can encourage in children is the ability to read well.

Dr. Vera Simpson, professor of speech at Texas Tech University, said, "Success in college is directly related to the reading habits and abilities of the student and a non-reader has an almost insurmountable handicap."

Dr. Vera Simpson, professor of speech at Texas Tech University, said, "Success in college is directly related to the reading habits and abilities of the student and a non-reader has an almost insurmountable handicap."

Digesting many ideas and opinions through extensive reading enables the reader to better evaluate the flood of information available through television, radio and newspapers.

Mats and glass are generally used with most pictures except oil paintings. Oil paintings and pictures sprayed with a protective coating don't need glass.

Parents who read to their very young children are giving them a head start as well as creating an atmosphere of caring that contributes immeasurably to emotional well-being. Begin while they are young and as the children become old enough to participate in summer reading programs, encourage them to enroll. Help your child make a time each day for reading.

Television can be a stimulant to good reading by introducing children to new ideas and information, but it should never become the primary source of learning. Complete dependence on the electronic media for information promotes shallow understanding of issues and makes a person far more vulnerable to thought patterns easily manipulated by the programming director.

Rehearsal Dinner Given Williams Couple

The fellowship hall of the First Baptist Church was the setting for the rehearsal dinner for Miss Kellie Brian and 2nd Lt. Monte Williams, their wedding attendants and relatives on Friday, June 20 at 7:30 p.m. The dinner was hosted by Mr. and Mrs. Q.D. Williams, parents of the groom.

Tables were covered in rose and white, the bride's colors. Lighted tapers were held in candle

rings of light and deep shades of rose pink. Place cards were decorated with wedding symbols.

The bride presented gifts of dried flower arrangements under glass domes to her bridal attendants. The groom presented his groomsmen and ushers with rock paintings of Blanco Canyon scenes.

A catered dinner was served.

You can transform drab walls into areas of interest and beauty by starting with pictures you already have around the house and adding the right frame and mat.

First, decide whether to use a mat with the frame or a frame only. Some pictures don't need a mat. To help you decide, consider each of these questions. If you answer yes to any of them, your picture needs a mat:

1. Is the wall where the picture will hang patterned?
2. Does the picture seem to need a rest space between it and the wall?
3. Is the picture too small for the space it is to occupy?
4. Does the picture show motion?
5. Do the lines in the picture carry your eye quickly away from it?
6. Does the object in the picture need more background space to set it off?

Mat may be of any color, smooth or rough finished, or they may be covered with a fabric. Other ideas for mats include a large desk blotter, cork, wallpaper, velveteen or other materials you need to create the individual effect you want. Remember that the mat should never seem more important than the picture. You can get regular mat board at art and stationary stores. Although it's harder to cut than other materials, it does give a firmer border for framing.

White or off-white mats are the most popular, and they are suitable for most pictures that need matting. If a colored mat is preferred, choose one that will accent one of the colors in the room or in

the picture. The texture of the mat you select should harmonize with the picture. Strong, large pictures or maps can be used successfully with coarsely textured mats such as burlap, linen, or cork. Small, delicate pictures need fine textured mats, such as silk. If you choose to cover a mat with fabric, reduce bulkiness by carefully mitering the corners of the fabric.

Mats generous in size are fashionable now. You may choose large mats for large pictures if the space where they are to hang allows this, or use large mats for pictures strong in character.

New Braceros?

Texas Governor Bill Clements says he wants to work out a program whereby more Mexican nationals can obtain temporary work permits here, but Hispanic leaders say his proposal is just a warmed-over version of the controversial 1942 bracero program which was branded as a form of modern-day slavery.

The Governor, as the founder of a large oil well drilling firm SEDCO, is more interested in Mexico's oil and natural gas reserves, said Ruben Bonilla of Corpus Christi, national president of the League of Latin American Citizens. The outspoken Bonilla is not known for pulling his political punches, nor is Clements.

R's or inches

It's not the thickness of insulation that counts; it's the R factor—a measure of its resistance to heat.

Batts, blankets, rigid board, loose fill or foamed in place insulation are the most common types of insulation. But within these types are a variety of substances; rock wool, cellulosic fiber, glass fibre, all with varying R factors. While FHA minimum specifications call for R-11 in the walls and R-19 in the attic, R-11 to 15 in the walls and R-26 to 30 in the attic is recommended in Texas.

South Plains News

Mrs. Merry Julian

Hot searing winds, and high temperatures are with us. This Monday it is somewhat cooler, and wheat harvest is about 95 percent complete, according to Lon Colvin at the Lockney Co-operatives here in South Plains. The wheat turned out pretty fair this year, making 10 to 20 bushels an acre. Some of the irrigated wheat made much more than this. Children have surely enjoyed the swimming pools during this hot season, and the gardens and lawns have really had to have the water to stay alive.

Burt Reiff preached at the South Plains Baptist Church Sunday morning with a nice audience present and visitors included Mrs. Mary Grisham of Plainview, here with her daughter, Mrs. Nina Sanders and family, Melissa and Niky Powell came Saturday to visit grandparents, the Tillman Powells, and were present at church.

Center News

Mrs. J.E. Green

Here it is nearly July—and I think the last week has been the hottest June of all. How nice a good rain would be! Good, though, that wheat harvest must be nearly over.

The T.E.L. Sunday School class of Calvary Baptist Church had their lesson in the home of Miss Vera Meredith, a member of our class who is a shut-in.

Miss Meredith's company last week included: Mr. and Mrs. Hal Thomas, who came Tuesday, Mr. and Mrs. Elvis Warren, who visited Thursday afternoon, and Bro. and Mrs. Clay Muncy and Miss Mary Pearl Cowand, who came Sunday afternoon.

Mrs. Vida Cook of Amarillo spent the weekend with Mrs. Fred Battey.

We have a letter from our missionary to Mexico, Mrs. Ruth Jordan Moss. She reports they were embarking on two weeks of meetings; one on the other side of Mexico City and one at their associated camp.

We are proud of this former Center girl, her husband, J.U. Moss and their family—thankful for their great work. They send greetings.

Mrs. Odam visited Mrs. Green Friday evening. Mrs. Green had her lawn mowed Saturday. It helps the looks of this part of town, and there are fewer mosquitoes.

Melinda Warren, daughter of Mr. and Mrs. John Warren, of Lubbock, is spending a few days with her grandmother, Mrs. Elmer Warren.

Mrs. Roe Jones spent Sunday night with the Mayfields. Mr. and Mrs. M.A. Davenport of San Francisco, California spent several days last week with Mr. and Mrs. Mayfield. The women are sisters. The Davenports went on to Hill County for more visiting with relatives.

Mrs. Mayfield attended the bridal shower for Miss Sandra Ferguson.

Mrs. Green and all the rest are proud of her first grand-grandbaby, who arrived June 24. The nine-pound son of Sarah and Doug Chandler of Hubbard, and grandson of Dr. and Mrs. J.M. Ryman of Hubbard has not been named yet.

Mr. and Mrs. Henry Brewer and son Harry Glen went to Wichita Falls Tuesday and visited relatives. They will be returning home in a day or so. Temperatures are about 112° and 114°.

Mrs. Brewer and daughters, Mrs. Millard Watson and Mrs. Fred McDougale were in Lubbock Saturday. One attraction there was the new great-granddaughter baby of Mr. and Mrs. Ken Robinson.

A son and family, Irvin Brewer of Lubbock, were involved in a wreck with a truck one day last week. Irvin and some others got broken bones, but all were thankful no one was killed.

Mrs. Ed Warren is home again after a few days in a Lubbock hospital.

The Thomas Warrens had all their children home for Sunday dinner except the Paul Stouts of Muleshoe.

The Mayfields are looking forward to a July fourth visit with the Leo McPhersons of Idalou.

Mrs. Wiley Rogers has been home but goes back to Lubbock for check ups.

Let us remember our sick, at home or hospitals.

Mrs. Bonnie Moore is back home and was present at morning services. Cecil Osborn from Plainview will be with the church for morning and evening services next Sunday.

Burt Reiff spent last week back in Atlanta, Georgia, and around that area. He plans to

enter Auburn University this fall. He reported it very hot and humid in the area he visited.

Congratulations to Mr. and Mrs. Gary Sanders of Lubbock on the birth of their first child, a daughter, named Kellie Elizabeth. She

was born Tuesday, June 24 at Methodist Hospital, and she weighed seven pounds and one ounce. Grandparents are A.P. Sanders, and Mr. and Mrs. G.E. Reeves. In Dalhart, grandparents are Mr. and Mrs. Don Stout. Gary grew up in South Plains and went to school here.

Mrs. Bonnie Moore arrived here last Thursday from Lubbock and Jacksonville, Florida where she has been the past months with relatives and friends. She is now staying with Herman

and granddaughter Melissa Horne of Plainview went to Truscott and Vera to spend the weekend with relatives. They had Friday dinner with Mr. and Mrs. John Kinnibrugh and spent the night with a sister, Mr. and Mrs. W.S. Simmons, Saturday, they went to the home of Mr. and Mrs. J.A. Kinnibrugh, Sylvan's parents, where the mother is an invalid, and stayed Saturday and Sunday helping and caring for them. They report it was very hot and dry down that way.

Mrs. Letha Mulder and granddaughter Cindy spent Wednesday and Thursday in Amarillo with Mr. and Mrs. Jerry Taylor and children, and they returned home over the weekend, bringing Candy and Ronda home with them to spend this week here with their grandmother. The little girls went to Wellington with Mr. and Mrs. Nathan Mulder and children Sunday to the Faith Baptist Church and enjoyed dinner on the grounds with pastor, Nathan Mulder, and his congrega-

Mother Nature Is In Full Swing Operation

Everywhere You Look!

Photos by Nancy Barker

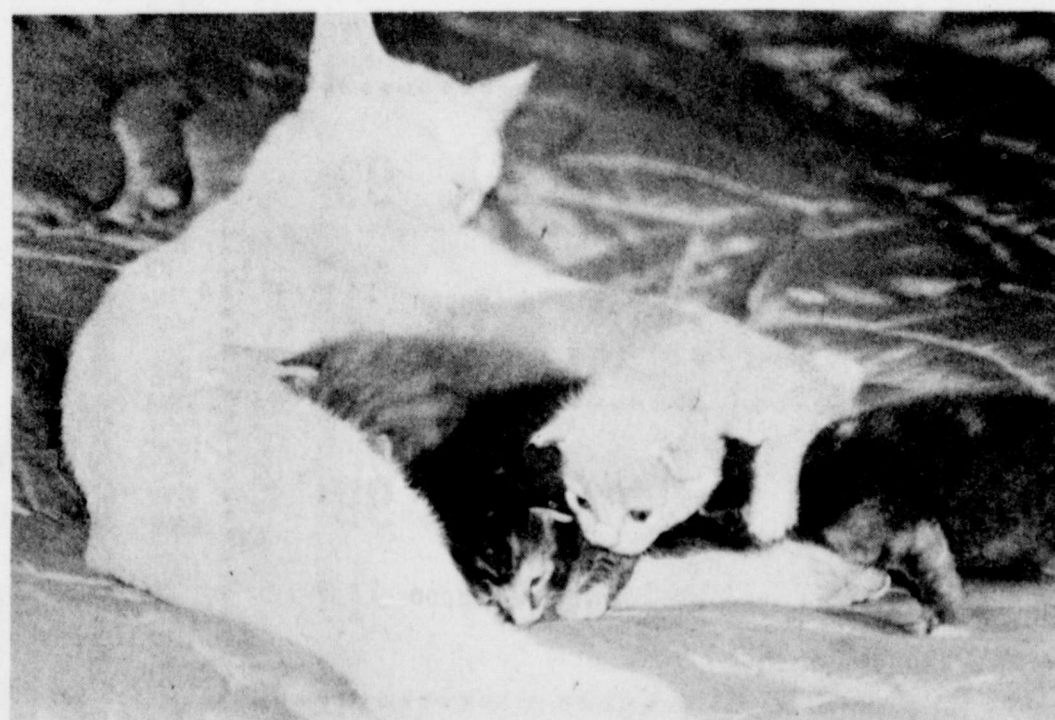

One young chick isn't quite sure what all the fuss is over, especially things that come off the dirt!

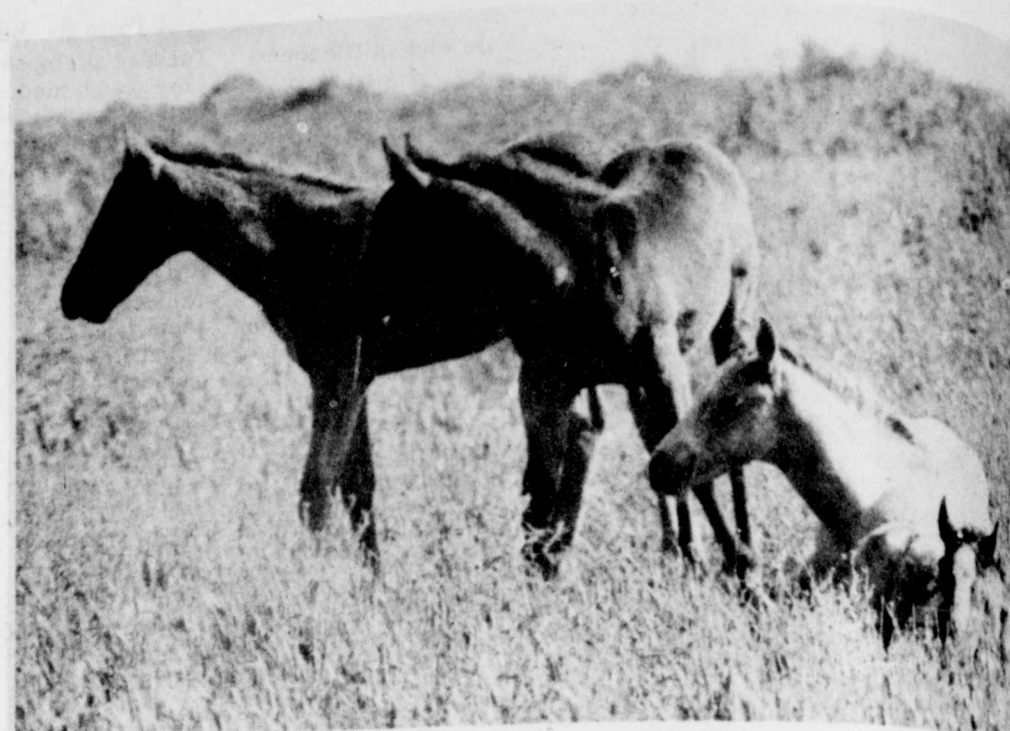

Well, not everyone can be photogenic, this young bull bat is no exception.

This calf seems to have gotten her feelings hurt, when her mother told her to stay put.

It's hard to get in any chow line, Especially This One.

Getting ready to take their morning naps, these colts seem to take the heat pretty well.

Ever heard of wall flowers, these young birds are great examples. Can you find all four of them?

"This little piggy went" and these little piglets are heading for their favorite Mud Hole!?!"

"Children! Children!" Well I guess these youngsters have summer on their minds.

Mom looks like she's hunting help, anyone would, trying to keep these two straight.

I know I need better health insurance. A friend suggested a Major Medical policy but I don't know what areas to consider in comparing different policies.

Investigate the current rates for hospital, surgery and physicians. Use these figures to compare policies. What will each policy cover? Do benefits consist of a flat amount or a percentage of the actual cost? Are both illness and accident covered? What miscellaneous costs are covered? How does the deductible apply . . . per family, per person, per condition or per year? Which expenses may be applied towards the deductible? How long does the benefit period run? What is the maximum benefit payable? In all these considerations, a qualified insurance agent can be your greatest asset.

Boy Hangs On for Dear Life To Save Mother From Flood

By GENE WHITE
Globe-News Staff Writer

Mrs. Helen Bryan says her 10-year-old son Tuesday night "became my protector at a time I felt I should be protecting him—but had no strength."

Mrs. Bryan was speaking of her son, Ralph, from her hospital bed where she is recovering from a life-or-death struggle in the flood waters of Swisher County.

She and Ralph survived the raging waters in a night of fear, but "Rowdy" as folks call her son, is credited with saving his mother from death in the flood.

Mrs. Bryan and Rowdy Tuesday were returning from a Little League ball park in Happy where Rowdy was to participate in a softball game. But heavy rains caused the game to be cancelled. The boy and his mother stopped at a restaurant before going home.

"We live about 10 miles northeast of Happy," said Mrs. Bryan, "and my husband was out of town, so I had not cooked that night."

The Bryans operate a small trucking firm as well as their farm, and her husband was on his way to Wichita, Kan.

"While we were eating we heard the tornado siren," Mrs. Bryan said. "It kept going for the longest time without a letup, and everyone thought it was shorted out or something. After a while we didn't pay much attention to it."

Mrs. Bryan and her son finished their meal and started home. Along the way they saw hail on the roads, but it had fallen before they came along.

"The water was up over the road, and pretty deep," said Rowdy. "Big hailstones were washing across the road, and our car stalled."

Mrs. Bryan said they sat there a few minutes thinking the car would dry out and start after a while, "but instead of getting bet-

ter, things got worse."

As the water rose, she said they decided to leave the car and try to find shelter.

"By that time the water was so high on the car we could not open the doors against the pressure," she said. "And when the water began filling the car, we got a little air."

She said when the water inside the car covered the seats, the pressure was equalized enough that they got a door open and left the car.

"We got out and started walking toward a house, and when we stepped away from the car the current was so swift it swept us off our feet and began washing us toward the field."

Mrs. Bryan said the car had stalled on a large culvert, "about 12 feet high," and she and her son were washed over the side.

As they were washed down the ditch filled with water, Mrs. Bryan grabbed her son with one hand and a barbed-wire fence with the other. The force of the current was so strong it continued to move the two a few feet downstream as the mother gripped the wire, her hand slipping along the sharp barbs.

Flesh from the four fingers on her left hand was ripped to the bone. Nerves and tendons in the fingers were torn and cut.

"We finally got braced against the current and thought we would be all right until the water went down," said Mrs. Bryan.

They positioned themselves at the fence with Rowdy hugging a post and Mrs. Bryan holding to the top strand of wire, one hand on each side of the post and her son between her body and the post. They were set to hold on until the water subsided.

"But it didn't go down. It kept rising," said Mrs. Bryan.

When it became apparent the water soon would be over their heads, mother and son began to inch their way along the fence toward higher ground.

"We were doing OK until my mother got her feet tangled in loose wire from the bottom strand of the fence," said Rowdy. "When she turned loose of the wire with one hand to get her feet untangled, she lost her grip and was washed away."

Mrs. Bryan said she began screaming at Rowdy: "Don't let go. The water will go down pretty soon. Hang on."

Instead of hanging on, Rowdy turned loose and let the water carry him toward his mother.

Mrs. Bryan had the strap of her purse hanging around her neck, and as Rowdy reached his mother, he grabbed for the purse strap.

"Then I began to dog-paddle as hard as I could and tried to pull her back to the fence."

Rowdy said he doesn't know how to swim, "but they taught us how to dog-paddle in Cub Scouts."

Mrs. Bryan said by then she was so weak she couldn't help much.

"I am still recovering from major surgery I had a few months ago and was just about out of strength," she said. "But when I saw him working so hard, I tried to help as much as I could. He kept reassuring me by promising God would take care of us."

She said she is sure she would have drowned if her son, who cannot swim, had not somehow pulled them back to the fence.

"When we got back to the fence, we were in shallow water," she said. "By then we had lost our bearings. We didn't know where we were or how far we were from our car. But we saw the outline of a house."

On their hands and knees they began to crawl through the shallow water and mud toward the house.

"We couldn't walk because we didn't have enough strength left to stand up," said Rowdy.

Finally, after hours of struggle, they reached the house they had

seen against the dimly lit sky.

It was boarded up.

"It was probably about 5 o'clock — just before daylight. We had been out in the storm since about 10:30 the night before and were so exhausted we could barely move," Mrs. Bryan said. "We thought we had found refuge, and when we discovered everything was boarded up, we sank pretty low. All we could see in any direction was water."

Rowdy worked his way around to the back of the house, where he found an enclosed porch with the door missing. Inside the small enclosure was one bale of alfalfa hay.

"Rowdy broke it up and spread it out, and we lay down — wet, cold, muddy, exhausted and confused," Mrs. Bryan said.

The two rested for perhaps an hour and a half. The sun was coming up, and the rain had stopped.

Just then, Rowdy, who said he never went to sleep, heard the sound of a car on the road. He left the house and went toward the road as fast as he could.

"The car passed within a few yards of me, and I was waving to the driver. But he was looking out at the field on the other side of the road and drove on by."

It was another hour before anyone came that way again.

"It was Mr. and Mrs. Dick Ratten and Larry Harvey," said Mrs. Bryan. "They were out searching for us."

The boy and his mother later learned that other neighbors and deputies from the Randall County Sheriff's Department also were searching for the missing pair.

"Lee Dougherty had been down the road about 12:30 the night before, after the worst of the water came through, and had seen our car," Mrs. Bryan said. "He had looked until 2:30 and then went home to wait until he could see. At daylight he took his brothers, Joe and Glenn, and began searching. He had notified the sheriff and our neighbors, and they

all were looking."

When they were found about 7:30 a.m. Wednesday, they were taken to their home. From there an ambulance was called, which took them to Palo Duro Hospital in Canyon. Mrs. Bryan's hand was so badly torn that she was transferred to High Plains Baptist Hospital here, where plastic surgery was performed.

And Rowdy? Well, he's subdued somewhat, but doing well. Both hands and one arm have barb punctures which are sore and will be slow healing. But physically and mentally he's no worse for the experience.

He appears to have taken the ordeal philosophically.

His mother forgets the pain in her left hand as she tells about her

"He saved my life," she says. "I would have drowned if he hadn't left the fence post and come after me. I was taking care of me."
