**THE NEW ENERGY FRONTIER:** Coal, America's new energy frontier. Black Thunder Coal Mine near Gillette, Wyoming, sits on part of 50 billion tons. Tapping this huge new reserve of raw energy is a job that takes a combination of resources and pioneering spirit. The kind that fuels booms of opportunity. And we're here helping.

Last year, 3 million tons of this coal was used as fuel to make electricity at Southwestern Public

Service power plants. Coal is being used more now because other fuels cost too much.

In Wyoming alone, there's enough coal that some areas of Black Thunder won't be mined until the year 2013. That's a lot of electricity. Coal. It's good to know there are some things you can depend on.

# Royal will accompany Williams

Darrell Royal, popular Texas coach and long time friend of Don Williams, will join those in Floydada honoring the singer as he receives the key to the city on the last day of this month.

September 30 has been declared "Don Williams Day" in Floydada and a ceremony has been planned to be held on the grounds of the county courthouse to welcome Williams back for the first time to the place of his birth.

Williams was born in Floydada, but left the county as a child. This is the first time his busy schedule has permitted him to return to his birthplace.

Sandwiched in between performing dates in Lubbock on the 29th and Arkansas on the 30th, he will be restricted to only one hour in Floydada.

Darrell Royal, who coaches at Texas University, has been a friend of Williams for many years and describes himself as one of Don's biggest fans.

The news media, including television coverage from Lubbock, a remote radio broadcast, and metro newspaper coverage, will fill Floydada with cameras and microphones.

Time will be too short for Williams to sign autographs, but anyone wishing to take pictures with their personal camera is encouraged to do so.

Williams, who describes himself as a quiet and private man, will say a few words at the ceremony.

"It will probably be a very few words," said Kathy Gangwisch, who handles public relations for the singer.

"Public speaking is hard on him, but he is very moved by this honor being given him and does have some things he wants to say."

Mayor Parnell Powell will present the keys to the city for the first time in the city's history in a ceremony on the courthouse lawn at 11 a.m.

At 12 o'clock noon, Williams and members of his band must leave in order to make their performing date in Arkansas.

Many residents have inquired about Williams' family. His wife, Joy, and two boys, are at the family farm in Tennessee.

An article on Williams describes it this way: "Just as the Constitution calls for a separation of church and state, Williams' own personal credo is based on a separation of career and family.

For him, it's like drinking and driving—the two simply don't mix. In order to keep his dual careers as an entertainer and father-husband separate, Williams has gone to great lengths to be

somewhat of a recluse when not touring on the road. He lives on a farm in Ashland, Tennessee, some 20 miles from Nashville, and never allows the press to visit his home or photograph his wife and two sons.

Don Williams' philosophy of life mirrors the lifestyle of the South Plains where he was born. Seen as unique in Nashville and other metropolitan areas, the South Plains belief in God and family, above all, has provided Williams' background.

His struggle to keep his personal values high, yet at the same time simple is reflected in his music. It has "the ring of truth in its simplicity."

It is for these reasons that he is being honored by Floydada.

## Farm Lenders Take 'Closer Look'

Agricultural lenders in wheat-producing areas are taking a closer look at loan applications and particularly at the borrower's repayment ability, according to Ben A. Jordan, Jr., Regional Director of the Federal Crop Insurance Corporation. He notes that wheat growers who carry insurance at least equal to their debt obligations are in the strongest position to obtain the credit they need.

There are a number of reasons why applications for loans are receiving closer scrutiny this year," Jordan says. "One of these is the generally tight credit situation. Another is the combination of increased production costs and high interest rates. The more a farmer must borrow and the higher the interest rate he must pay, the higher the yield he must have in order to be able to repay his loans."

Still another reason is the scheduled expiration of the ASCS disaster payments program which some farmers who had crop losses last year used to repay their current loans. The widespread 1980 drought has also made it more difficult for many farmers to borrow money, particularly those who experienced losses and still have outstanding loans from a year ago or who had to refinance land or equipment. In either case, the result is a strain on loan repayment ability, says Jordan.

"Under the all-risk insurance now being offered for 1982-crop wheat, a farmer can choose insurance coverage that's roughly equal to the amount of money he will need to borrow. Or he can carry insurance that, in most cases, will cover his total investment in the crop."

"One of the attractions of the FCIC insurance program, which is now available in all counties, is that the government pays up to 30 percent of the premium cost. The net cost is further reduced by claiming the balance of the premium as a farm business tax deduction. In addition, policyholders who have a record of few or small insured losses qualify for discounts," Jordan points out.

Having an insurance policy can make a big difference when it comes time to borrow money, according to the FCIC Regional Director. He notes that most lenders today carefully analyze prospective borrowers' cash flow projections and insurance can eliminate up to three-fourths of the income uncertainty associated with such projections. In fact, if he wishes to do so, a farmer can actually assign his insurance indemnities to the lender as loan collateral.

For information on this year's wheat insurance program, its benefits and the cost, contact the local FCIC representative or a private insurance agent who is handling FCIC insurance before September 30.

## A tribute to D.G. Ayres, Floyd County Veterans' Service Officer for thirty-seven years

Here was a man, small of stature, but big in heart, big in spirit and big in love for his country and his fellowmen.

He was a veteran himself, and he took great pride and satisfaction in being able to help other veterans who were entitled to government benefits, regardless of their race, color or creed.

He never asked for publicity, praise or applause — his chief pleasure was derived from the satisfaction that he felt when he had completed the task at hand. He worked diligently through the years, six days a week, on holidays, and even on Sundays, many times, at the tedious task of completing all requirements made by Government regulations, just to help one more veteran get the benefits he was entitled to.

A letter of commendation, addressed to him, from the Veterans Affairs Commission in Austin, Texas, dated June 10, 1981, stated that in the year 1980 alone, a total of \$814,758.00 in benefits was mailed to the various Veterans of Floyd County, as the result of outstanding work done by this one man!

He was a quiet, shy individual, but he had a fierce dedication and loyalty to the real values in life. He loved his work, his fellowmen, his Country and its Flag.

He died September 8, 1981, and was buried September 10, 1981, with his hand lightly placed on the American Flag, which was folded in military fashion and placed in his casket. His work is over, but the result of his labors will live on and on and on!

MAY THERE BE MORE DEDICATED AMERICANS LIKE HIM!

REGIONAL DIRECTOR, R.G. Dunlap accepts a plaque given in appreciation of his service as a director. The Co-op also presented him with a gift.

## Dunlap is re-elected Co-op board

Re-elected Roger Dawson, term and elected Ted Dunlap to the board of directors at an annual meeting of the Floyd County Co-op, Inc., last week.

Ferguson, co-op manager, and Ferguson director R.G. Dunlap was an original stockholder in the Floyd County Co-op, which merged with Ferguson in 1973 to become Ferguson Co-op, Inc.

Cooperative has rebated to its members since 1977," Dunlap president Jack Stansell reports indicate the coop returned more than two million to farmers in its nine years, in addition to the rebated credit.

Daryl Lindsey, speaking for Plains Cotton Growers, briefly described a recently developed cotton marketing tool. Referred to as "on-call contracts," selling is based on the futures market price and is similar to using the commodities market to hedge prices on a commodity. The group has been conducting meetings in the area to explain the new concept to those who are interested.

Ferguson told members that 73 percent of the cotton ginned in 1980 came in on modules, enabling the gins to run almost continuously. Full utilization of equipment and labor results in a more profitable season he explained. A total of 32,910 bales was ginned in 1980.

Stansell recognized guests from the Regional Cooperatives and managers from other local cooperatives.

### TERMINATING A RELATIONSHIP

Every day, thousands of doors close on relationships that once had meaning, special feelings or even love and commitment. For some, separations is forced on them. Others want out.

Those who are abandoned expect to feel bereft, frightened and depressed. Those who want out expect to feel liberated, confident and euphoric. Rarely is a broken relationship so simple.

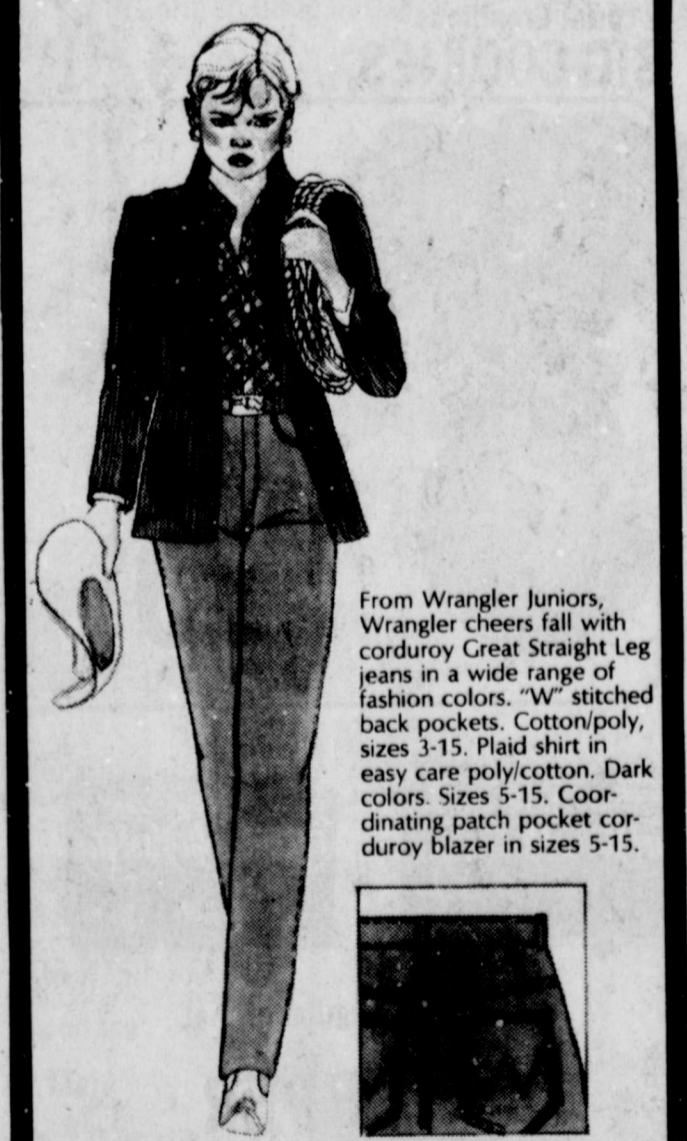

Love relationships for an increasing number of young and mature adults are vulnerable to pain and loss. The divorce rate is accelerating in today's society (it's up 65 percent over 1970), more single parents are choosing to live spouse-free, and more couples are living together (up 157 percent over the last decade).

No matter who breaks off the relationship, both parties will face enormous mood swings that continue not just for the first few hours but for days and weeks. Loneliness, guilt, yearning, self-pity and

## 7th annual Allsup's Marathon scheduled

The Allsup's Marathon will feature some world class runners this year on October 3rd, its 7th annual running.

Topping the list is a pair of brothers, Al and Stan Waquie, both from Jemez Pueblo, New Mexico. Al was last year's winner of the half marathon in Clovis, New Mexico, and he recently took the 1981 Pike's Peak Marathon in Colorado Springs, with a time of 3:24:00. En route to his winning, he set a new ascent record as well as an over-all record on the full run. His brother, Stan, holds a personal best time 1:09:00 in the half marathon and took second place in the 5,000 meter Los Alamos Mini Marathon.

Over 500 runners are expected to enter the race in Clovis, New Mexico, to include: Matthew Sequara, with a personal best time of 29:19:00 in the 10 kilometer and 2:20:00 in the full marathon; Dennis Williams, former track and field standout

with Eastern New Mexico University and first place winner of the 1975 Fiesta Bowl Marathon; Jack Anderson, first place winner of the 1980 Navajo Nation Cross Country Championship; Web Loudat, winner of the old Santa Fe Trail Run earlier this year, and Marlow Eldridge, who took first place in the 1981 AAU 15 kilometer run.

The Allsup's Marathon, sponsored by Allsup's Convenience Stores, Inc., is sanctioned and certified by the Amateur Athletic Union (AAU) and will offer runners a choice of three courses: 26.2 mile marathon, 13.1 mile course, and a 10 kilometer race.

Persons interested in participating in the race may obtain a registration form by writing to Royce Jones, 3532 Bryhurst Court, Clovis, New Mexico 88101, or by calling (505) 762-5010. Registrations may be made through October 2nd.

## Seniors to receive the Texas Excellence Award

Outstanding high school seniors across the state will be interested in a new \$10,000 scholarship at The University of Texas at Austin. The Texas Excellence Award for Scholarship and Leadership is the first of its kind in the state. Funded by alumni through The Foundation for Texas Excellence of The Ex-Students' Association, the award is based solely on academic accomplishment and leadership in extracurricular activities. The first five Texas Excellence Award winners will be announced in March, 1982. Each award will be granted over a four-year period (\$2500 per year).

To be eligible, students must rank in the top 5% of their class at the end of their junior year. Beyond scholastic achievement, students must demonstrate leadership ability. Approximately ten finalists will be selected in a process involving University deans, distinguished alumni, and other UT officials.

Following on-campus interviews, five recipients will be chosen. Announcements and awards will be made in the winners' hometowns by local Texas Exes Clubs.

Almost 100 years ago, the Texas Legislature established The University of Texas at Austin to serve the State of Texas as a "University of the first class." Today, the Texas Excellence Award celebrates that tradition by

# Longhorn victorious over Mustangs

Riding on the productive passing arm of Quarterback Jeff McCormick and the running of tailback Junior McDonald, the Lockney Longhorns roped and tied the Olton Mustangs for an impressive 35-7 gridiron victory Friday night.

The rugged Longhorn defense carried most of the first half load, holding the Mustangs to near zero yardage, as the offense marshalled its forces for the second half explosion which resulted in the run-away win.

McDonald, who totaled 78 yards on 24 carries in the contest, broke the ice in the first quarter with a two yard scamper for his lone score for the night. Victor Villalon kicked the PAT for a 7-0 lead.

The Mustangs galloped back to tie the score shortly before the half on a forty yard touchdown pass from quarterback Gluke Buchenau to split end Cirillo Pedroza. The conversion kick by Jonny Hutson was good. The score remained deadlocked at intermission, but it wasn't to last for long when play got underway in the second half.

The Longhorns took the lead for good early in the third quarter on a 30 yard toss from McCormick to split end Robert Rendon. The kick by Villalon was good, making the score 14-7. That strike triggered the avalanche, and from there on out it was Longhorns all the way.

The hapless Mustangs had trouble holding onto the pigskin as the slashing Longhorn defense repeatedly separated the man from the ball and recovered three fumbles inside the opponents 35 yard line. The Horns capitalized on each of the miscues with six pointers and topped them off with three conversions, one a two point pass play from McCormick to split end Jeff Reece.

Twice in the fourth quarter McCormick threw long distance strikes to Tyke Dipprey who hauled in two passes for fifty yards and two scores. The last six point tally came on a 20 yard end-around by flanker Refugio Vasquez with three minutes left on the scoreboard clock.

The Longhorns displayed a remarkably balanced attack, compiling 118 yards rushing and 97 yards via the airwaves, keeping the Mustangs off-balance throughout the game. Their strong defense kept the Olton offense in close check, surrendering only one net yard to their ground offense. It was a different story in the air, however, as the Mustangs compiled a total of 168 yards via the pass.

McCormick displayed an accurate passing arm, completing six of 14 tosses for 97

yards, three touchdowns and no interceptions. He also did the punting chores, kicking seven times for an average of 38.9 per kick.

This was the most impressive effort so far in the short season for the Longhorns, bringing their record to two wins and one loss. They have subdued Olton and Petersburg in their last two out-

ings, after dropping their opening game to Post.

They will probably face their biggest test of the year Friday night as they go up against Littlefield in Wildcat Stadium. The Wildcats are presently rated at the top of Division 3-A in the state.

The Longhorns will need all the fan support they can

get in Littlefield and are looking forward to seeing a lot of Red in the stands Friday night.

## Wellness short course to be offered at SPC

A short course on the concept of "wellness" as a life-style alternative is being offered by South Plains College at Plainview. The short course will be open to individuals wanting to gain information about changing their current life-style to one that allows them to gear their lives to optimal health rather than fighting off illness, stress, tiredness and obesity.

The class will begin on September 24, 1981 at 7:00 p.m. in room 102 of the Wheeler Building, located at 8th and Yonkers. The classes will be composed of six sessions meeting on consecu-

tive Thursdays, except for October 22.

Registration will be at the first class meeting and the cost of \$8.00 will be payable at registration.

Instruction of the course will be by Mr. Tom Sickmann, Program Coordinator of the Nichols Health Fitness Center. He will cover six areas of interest: Introduction to the Five Dimensions of High Level Wellness, Self-Responsibility, Nutritional Awareness, Stress Management, Physical Fitness, and Environmental Sensitivity.

For further information, contact Bill Pohl at (806) 293-1605.

## Perspectives

Stanley McCaffrey has an admirable goal. He wants to bring about world peace. He even has a plan to do it. The only problem is that it won't work.

McCaffrey is the international president for Rotary International and was in Lubbock for a meeting with local Rotarians. The accounts of his speech indicate that McCaffrey intends to do his part by helping to open lines of communication between various countries through his Rotary contacts. Local Rotary groups are being urged to do their part, through exchange programs and the like.

McCaffrey is to be commended for his efforts in the direction of world peace; after all the Bible does invoke blessings upon the peacemakers. But the tactics he has chosen are old ones, and they have been proven to not have any long term effect.

Certainly communication is a good place to start. It is important for people to really listen to what the other side is saying, and to try to understand the other position. Understanding is enhanced by direct contact with other cultures, as in exchange programs, but these alone will never be able to bring about world peace.

Neither will certain other highly touted solutions. One of those is to end poverty and hunger. One of the Biblical writers recognizes that a prime cause of war among people is that they "want and do not have." Still, if all the have nots suddenly became haves, you can be sure someone would develop a scheme to take it all away from them again.

Some have said what we need to do is simply to liberate everyone from whatever oppression they are under. A noble goal to be sure, and yet no one has ever come up with a satisfactory solution for accomplishing said liberation. Besides, in some forms of this philosophy, the method of accomplishing liberation is by forcibly overthrowing the oppressor — certainly not conducive to peace.

Until we deal with the basic cause of war, that man is sinful, we shall never see world peace. The roots of unrest lie in the unrestful state of man's soul. Societies are corrupt because people are corrupt. Therein lies the real mission of McCaffrey, and of all, to ferret out the unpeacefulness in individuals, and then we shall see peace among all men.

## War on Drugs Committee honors work by Representative Whaley

State Rep. Foster Whaley, D-Pampa, was recently honored by the Texans' War on Drugs Committee for his leadership in the battle to curtail drug abuse by children and adolescents in Texas.

The Texans' War on Drugs Committee, established by Gov. Bill Clements and headed by Ross Perot, was formed to combat illegal drug trafficking in Texas. The committee's weapons are the education of parents, support of anti-drug legislation and improved communications among state law enforcement officers.

Whaley and several other

legislators went above and beyond the call of duty to support the Texans' War on Drugs program," said Perot, chairman of Dallas-based Electronic Data Systems Corp. "He heeded the call from parents all over the state to protect the children of Texas from the drug culture."

Perot emphasized that without the effective teamwork of state officials like Whaley and concerned Texas parents, the five-part legislative package developed by the Texans' War on Drugs Committee would never have been passed. Perot also stressed that support from

House Speaker Billy Clayton and Lt. Gov. Bill Hobby was also an integral part of the program's success.

"The record number of letters and personal visits to state officials from their constituents during the regular legislative session indicates that illegal drug trafficking is a major concern for Texans," Perot said.

New statutes passed in the session toughen penalties for delivery of drugs to minors, tighten the laws against drug trafficking and make it illegal to manufacture, deliver or possess drug paraphernalia. Also passed was a triplicate prescription bill that will help

identify persons who divert prescription drugs to the illegal market. The fifth new law permits immediate revocation of licenses of health care professionals convicted of drug-related felony crimes.

All of the laws became effective September 1, with the exception of the triplicate prescription bill.

## Social Security News

BY RAY PURCELL

This week we are continuing our discussion of the 1981 amendments to the social security act. In the past two weeks we have covered changes in the minimum benefit, student benefits, young parent's benefits, and the extension of the annual earnings test to age 72 in 1982.

The law has also been revised to redefine who may qualify for the \$255 lump sum death payment. In the past, this benefit was paid to the surviving spouse living with the deceased at the time of death. If no such spouse was present, the money was paid to the funeral home (providing they had an outstanding bill) or to the person who actually paid for the funeral.

Effective September 1, 1981 the priority of payment has been changed. The \$255 is still payable to the surviving spouse living in the same household. However, neither the funeral home nor individuals who paid for the burial expenses will be eligible for the lump sum death payment.

Instead if there is no surviving living-with spouse the lump sum is paid to a widow or widower who would be eligible for benefits based on the deceased's records for the month of death. When there is no such person, the \$255 is paid to a child or children entitled to benefits on the record of the deceased for the month of death.

This is a major change. Because of the variation in possible recipients of the lump sum, it is very important that anytime a person dies a family member or friend notify social security immediately.

Another change concerns the first month a person may qualify for benefits. It is now necessary that a person meet all qualifications for the entire month in order to be entitled. There are only three specific instances of this revision.

First, a person who turns 62 in or after September, 1981 must be 62 the entire month to receive a benefit. For example, John Smith was born September 15, 1919. He files for social security September 24, 1981. John will be eligible for his first check November 3, 1981, payment for October, as October is the first full month he will be 62 years old.

The second instance involves claims for child benefits. A child must meet all requirements throughout the month to receive a check. That is he or she must be a child of the worker, be dependent, unmarried, under 18 or if over 18 a student or disabled. Likewise if a spouse is claiming benefits based on having a child in his or her care, in-care must occur throughout the month. And thirdly, this provision will apply to hospital insurance benefits (Part A of medicare) effective September, 1982. If a person becomes 65 September 14, 1982 and applies for medicare, his hospitalization coverage will be effective the first full month he is 65 - October, 1982.

## Youngster follows mother's steps in AFS program

Youngster old Stefano Rome, Italy is Larry and Jill home for two

thing he hopes his family can do when they arrive is go to the water slide in Plainview. He stated, "My family would love this very, very much." Never had he seen anything like this and he never got enough of it!

The main sport in Italy is soccer, which Steve excels in. He was chosen to play with a group which eventually the professional players are selected from. Since arriving to America during football season he has been interested to learn about the game. Now that he understands it, he really loves it. He's attended a Flovdada

What a wonderful experience for both families to have a second generation foreign exchange student to come for a visit with the original American family.

## Vietnam Veterans Memorial Chapel honors servicemen

The Vietnam Veterans Memorial Chapel is located 10 miles south of Eagle Nest, New Mexico.

Built by Dr. Victor Westphall, his wife and younger son to honor another son, David Westphall and 12 fellow Marines killed in Vietnam in 1968.

Dedicated to all who served in Vietnam, but especially to those who gave the most precious gift of all, life itself.

One of Floyd County's casualties of the

Vietnam War, Tim Hartman of Lockney is honored in the Chapel. Hartman died in 1967.

The Vietnam Memorial Chapel will be featured on TV's "Real People" on November 11, Veterans Day.

Photographs of servicemen killed in Vietnam are solicited by the Chapel. More information may be obtained by writing to: Vietnam Veterans Chapel, Box 666, Springer, New Mexico, 87747 or from Mark Montandon, 652-3488, Lockney.

## BBB Warnings

The Webster Publishing Co., Ltd.: Advertising currently being run in local newspaper classified by the Webster Publishing Company, Ltd. of Toronto, Canada tends to be misleading, according to the Better Business Bureau of the South Plains.

The ads offer work at home opportunities to consumers. The consumer is asked to send in \$35 and in return receives a free dictionary and instructions for selling at home.

Claims made by the company, in regards to potential earnings, have not been substantiated. The greatest problem is that consumers are confusing this company with the company that sells the famous Webster Dictionary; however, there is no connection between the two companies.

Illegal Heaters Marketed Locally: Lubbock consumers

should be careful this fall when purchasing heating units that are not vented. One such unit is the "Kerosun Heater" that was advertised on the Thursday Night NFL football game on September 17th.

Fire Marshall Robert Stokes has informed the BBB that such heaters are illegal in the city limits of Lubbock because of fire and plumbing codes.

Wholesalers for the units are currently in the South Plains trying to market the heaters.

Stokes states that the heaters are fine for campers and other non-permanent applications.

Further information can be obtained from the Lubbock Fire Marshall's Office. Consumers living outside of Lubbock should consult their local fire department before using these heaters in a permanent building.

All entries must be from 1981 crops.

Perishable fruits and vegetables entered are not returnable and will be disposed of as the items spoil.

Competition will be in the following divisions: cotton,

grains and seeds, sheaf grains and seeds, grain sorghum heads, hay (baled), corn, vegetables, fruit and miscellaneous crops.

Premium money includes \$5 for first, \$4 for second and \$3 for third place.

This year's exposition runs through October 3 and will feature seven stage shows in Fair Park Coliseum as well as daylong entertainment on the outdoor stage, plus other free attractions.

## Hagman, ACS to sponsor Quit Smoking Contest

Hagman, star of "Hagman" series, is asking readers to help in a contest this month to quit smoking. The contest, which will be conducted primarily by radio stations in cooperation with participating units of the American Cancer Society, will also be involved.

Some 40 ACS units in Texas have already begun contest preparations whereby participants may write — in letters of 100 words or less — their original ideas on how to quit smoking. Judging will then be done on a local, state and national level based on these criteria: Originality, Practicality and Clarity. The contest is open to residents of the United States except employees

and Board and Committee members of the American Cancer Society.

Texas judges for the contest are Elbert D. Glover, Ph.D., chairman of the Health Education Department at TCU; Penny Reeves, Smokeout chairperson; and Leon Hale, columnist for the *Houston Post*. These judges will review the five finalist letters from each participating ACS unit and select from these the three state finalist letters for national competition.

As an added incentive to all Texas participants, the Larry Mahan Boot Collec-

tion in El Paso has arranged to present each of the three Texas finalists a pair of western boots made from exotic leathers.

The national prize features an all-expense paid three-day trip for two to Hollywood to have dinner with Hagman, which has been underwritten by a national sponsor. The national judges are William G. Cahnan, M.D., of the Memorial Sloan-Kettering Cancer Center; Camille McMennamin of the McCaffrey and McCall, Inc. advertising agency; and John Mack Carter, editor-in-chief of *Good Housekeeping* magazine, all of New York City.

Both state and national contest winners will be announced prior to the Smokeout.

Hagman's involvement with the Smokeout is only part of his interest in the anti-smoking activities of the ACS. According to Ms. Reeves, Hagman plans to take an active leadership role all year long. He has already made a number of anti-smoking TV and radio spots and will be the Society's media spokesman for its quit-smoking programs.

Our p.a. system has been a joy to us this past week and I know it will be in the future. The residents can hear the devotions so much better.

The residents had a big disappointment Monday afternoon. Everyone was set for ceramics painting, however Chuck was on vacation and forgot to call and let us know. We will all be looking forward to next Monday.

Curb that urge to get that cotton crop out of the field and on its way to the gin when the bolls begin to open on a nice crop of cotton. This is the advice of W. E. Woodall, University of Arkansas Extension cotton specialist. Waiting until the crop is ready and conditions are right, he believes, is the best way to get the most out of your defoliant, although often a compromise between a late maturing crop and the early onset of bad weather. However, a new technique might help defoliate as early as possible, while doing minimal damage to the top crop. Researchers suggest growers slice open a few developing bolls and examine the seed coat color to determine maturity. What's the right color? Plant scientists say when the seed coat begins to change from pearl white to black - when it takes on a light buff color - sufficient maturity will have been reached. Also, if the seed fills up the seed cavity, and is changing color, it's mature.
