The Bobcats play host to Springlake in their first conference game of the season Friday night. If they play the same type ball against them that they played against Price College, we predict a score of 50 to 0 in favor of Springlake. The game could be very close if the Bobcats would settle down to playing football, and realize that this is the season of 1952, not 1951. Will they? That is a question we would like Coach Fields and the Bobcats to Dimmitt P. T. A. answer before they take the field Friday night. Should they do that To Hand Band we would say the game should be a toss up.

Anybody care to run for this office?

Candidate Wanted: Must be efficient, honest, experienced. Pay and term of office uncertain, since public will vote every day to see if candidate stays in office.

We bet you don't want that job of being forced to get elected every day. Yet it's a reasonably accurate description of what a manufacturer must do to hold his job.

Every day at the sales counter, millions of women and men vote General Electric in or out of a job. When you stop to think of it, we don't hold office for

four years-or even two. We have a daily fight on our

Hands at the sales counter pick up G-E products-hold them, turn them over, inspect them, try them against competitive articles for value and price-then decide for or against.

The only way we can win the election is by constantly improving our product. Thousands of engineers are paid to think up ways to improve, redesign, simplify. We use every known device of mass production to deliver more for the money. And our employees are as keen on winning our daily "public election" as is the salesman at the counter.

Manufacturers sell products on the basis of "be good every day-or get out of office." The result is the American public has the world's highest standard of living.

You'll discover this about a Buick:

The more you drive it, the more you like it; the longer your trip, the louder your praise.

That's what people tell us. And we'll tell you why.

You can drive a Buick three, four, five hundred miles in a single day, and feel fresh enough to keep right on going.

You can romp up high hills, cruise straightaways, ease through traffic-tangled towns. clock off hour after hour of relaxed and pleasurable driving-and be no more tired than a neighborhood jaunt would make you.

How come this comfort-rich ground-covering ability in a Buick?

There's the ease of deep, soft seats for one thing - and plenty of move-about room for arms, legs, shoulders.

There's Dynaflow Drive* taking all the chore out of driving, and giving your whole ride a satiny smoothness without trace of jerkiness or driving tension.

There's a hoodful of thrilling, tireless power from a high-compression, valve-in-head Fireball 8 Engine that whips out miles like a tarpon reels off line.

There's the soft, steady, solid swerve-free going of a coil-spring-cushioned ride that's well worth the million-plus dollars it cost to engineer.

There's all this and more-much more-that makes your heart grow fonder of this trim and thrifty traveler.

But words can't do justice to a Buick in motion. Only you can.

When will you come sample this experience yourself?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Optional at extra cost.

The Dimmitt Bobcats B team fell before a fine Plainview Jr. High team 20-7. Thursday, Oct. 2. The Bobcats played on even terms with Plainview throughout the ball game but was unable to go the final yards needed to score. It was a very exciting ball game to the finish when Plainview Back with 1 minute to go rambled 90 yards for the score.

The entire Dimmitt ball team played exceptionally good ball. But Chad Moore and Richard Wood played outstanding ball throughout the game.

"...like the easy maneuverability of our Dodge trucks"

"My men ask for the Dodges first when they are loading up for a job. They seem to like the easy maneuverability of our Dodge trucks and it's no secret to any of us that they ride better.

"We're sold on Dodge "Job-Rated" trucks because they're available in a large range of sizes and with a big selection of special equipment to fit all of our jobs—or as you people put it, they're 'Job-Rated'."

Dodge "Job-Rated" trucks are engineered for greater maneuverability, easier parking, less driver fatigue.

Turn in tighter circles, thanks to short wheelbase and wide front tread. For ease of handling, there's the improved

steering wheel position, easy-acting wormand-roller steering gear on most models. Driving convenience is increased by steering
