Denies Running Away.

MR. EDITOR:

I see in The News of January 10th, you claim that I slipped away and could not be found to make that speech you seemed to have me down for. Now you or I must have been dreaming about that speech, as I have no recollection of making any such an agreement with you, and my wife said for me not to go and make a fool of myself and I thought I had better take her advice, as I have missed it many times by not doing so. But as I think these sale days might be quite an advantage to both city and county, and you know little beginnings sometimes make good endings, as we used to read in our old school books, "Large trees from little acorns grow; large streams from little fountains flow,"—so I hope you will drop on to better timber for a speech the first Monday in February, and that day will show much more interest taken by the farmers as the city and county must work together for their mutual good and development of this part of our beautiful country, and if everything works well I will try to be on hand with my Plymouth Rocks again. I have sent to Kansas for a new invoice but as the merchants says I will be compelled to add freight, they will be a little higher than my own raising and maybe a little better stock.

Now as to chicken raising, I think a farm without poultry, eggs and butter, like a house without a baby, not much good. I know families between here and Amarillo who are keeping the family expenses paid in this way and perhaps make from one to three hundred dollars per year off of their poultry and dairy products, while perhaps the man has lost from five hundred to one thousand dollars on his stock during that same time. In my opinion it is a mistaken idea to leave all this work and worry to the wife and daughters of the family, but they should have more encouragement from the fathers and sons, prepare good places for the poultry, keep these places clean and well ventilated. Dry goods boxes about in different places so the chickens can be scattered are a great help. Furnish plenty of good feed and water, without which no stock of any kind can do well. How often it is that the farmer feeds most of his crop to hogs or cattle and then ships to Kansas City and when he comes back and you ask him how he came out on his shipment, and just a little blue he will say, "Oh, we had a slow run and got in a day late, cattle looked bad, and it was snowing all day—poor day to sell—and of course got it in the neck." I have been watching this one thing for the last forty years. The farmer who stays strictly at home and raises some stock to eat the grass and roughness of the farm and sells most of his crop on the market comes out the best.

Well, Mr. Editor, I must bring this to a close, but I thought I would have to write you a few lines to make up for slipping

away and not making that speech. Yours for the advancement and best interest of our New Country.
JOHN H. BELL.

The New Postal Ruling.

The new postal ruling requiring publishers of weekly papers to drop from their list subscribers who are in arrears twelve months or over has been referred to in these columns once or twice before. Neglecting to comply with this new law a newspaper is barred from the mails as such. The News can't afford to do otherwise than obey this law and so it asks county subscribers to please notice the date following their names on the paper. It will tell how they stand on our books.

A Kansas farmer sought the advice of a lawyer, with the following result:

"It's this way," explained the client. "The fence runs between Brown's place and mine. He claims that I encroach on his land, and I insist that he trespasses on mine. Now what would you do if you were in my place?" "If I were in your place," replied the lawyer, "I'd go over and give Brown a cigar and take a drink with him and settle the controversy in ten minutes. But as things stand I advise you to sue him by all means. Let no arrogant, domineering, insolent pirate like Brown trample on your sacred rights. Assert your manhood and courage. I need the money."

The Mayor's Court.

In the Mayor's Court several cases have been filed against John A. Wallace, W. H. Hicks and others alleging violation of city ordinances, particularly the one prohibiting the keeping of more than one hog on the premises etc.

The cases against Hicks and Wallace grew out of their keeping a mixed lot of cattle and hogs in the lots lying east of and adjacent to the Rowan livery stable. Defendants, in these cases, claimed exemption first, by reason of the hog ordinance suspension act, and second, an alleged permission of certain members of the city council including the honorable mayor himself.

The first of these cases, one against W. H. Hicks, was taken up for trial before a jury on Monday evening. Defendant was represented by J. C. Hunt and B. F. Buie. The city, according to the mayor, being unwilling to pay counsel was unable to secure it on the basis of the usual contingent fee and so that portion of the case, the prosecuting attorney part, necessarily fell on the mayor.

The jury consisted of L. L. Monroe, J. E. Rogers, W. T. Moreland, J. F. Hood, J. W. Ballard and J. A. Cavett.

The testimony, and there was much of it, developed the fact that the ordinances in question, those pertaining to hogs, their filth and other bad smelling and

disease breeding nuisances, have been overlooked to an alarming extent by too many of our good citizens. Even members of the city council, according to several witnesses, were violators of these ordinances. In fact the jury itself, from the evidence, was not altogether free from this taint of disrespect and disregard for city sanitary regulation. A bad state of affairs, truly. Good, however will come of it, for either these ordinances or similar ones will be enforced from now on or the city government be wiped out entirely. Such is the present healthy public sentiment and that being the case, public events to come will be governed thereby.

The jury in the case was out some ten minutes returning a verdict of acquittal.

The City vs. John A. Wallace and other similar cases have been dismissed.

A small prairie fire in the West End Tuesday evening came near burning out Mrs. Geo. Palmer. It had approached within a few feet of the barn when the timely arrival of W. H. Hicks and others, an alarm having been phoned to town, saved the property.

Local Weather Record.

FAIR.

Since last Friday the weather, to use a common expression, has been "just splendid." Cool nights, of course, cold to some folks maybe, but pretty clear days and gloriously bright moonlight nights.

Not much winter so far and none wanted. The News weather man, picture above, is very well satisfied with present conditions and has placed his order for another month similar to the past week.

Woman's Book Club Notes.

"When you educate a man, you educate an individual; when you educate a woman, you educate an entire family."

A most delightful program was given Wednesday evening at the meeting of the Woman's Book Club, at the home of Mrs. Sterling Coffee. The subject was "Our National Scenery," and interesting and instructive papers were read by Mesdames Haney, Sowder, and Stewart. Mrs. Walter Cranford favored the club with a vocal solo that was much appreciated.

At the next meeting the club will take up the study of "Wordsworth" to be continued for two or three months, perhaps.

We are very busy women, yet we are determined to do a little each year toward self-improvement. We aim to keep in view that which is most valuable, following Franklin's counsel: "An investment in knowledge always pays the best interest."

By the next regular meeting, it is hoped that all the new books recently ordered, will have arrived and be properly indexed, ready for use.

While we have lost a few valuable members, our membership list continues to grow and much enthusiasm is manifested, and the attendance was never better.

For County Treasurer.

The News is authorized to announce P. H. Young as a candidate for treasurer of Randall county. Canyon City has no better men than Pat Young; he is also qualified for the office and capable of attending to all its duties. He has many friends here who think he ought to be our next county treasurer, and if elected there is no question but that he will give satisfaction in that capacity.

Excursion week and many prospective land buyers are looked for today. Give them the glad hand when opportunity offers and extend it especially to those who might be induced to come down and assist in the development of town and county.

J. M. Burkhalter of Ceta, was in town Saturday. Referring to The News' request for wheat acreage reports he said that in his immediate neighborhood 350 acres would cover the amount sown and that it was doing well.

Brother Dillard of the Lubbock Avalanche warns his delinquent subscribers that if they don't pay up he will have to raise the price of subscription. If his delinquents are like some of ours, we think they could stand the raise without detriment to their pocket-books.—Tulia Standard.

Getting ready to go to his ranch early Friday morning of last week, R. W. O'Keefe had an ankle dislocated. He was trying to catch a horse in a stable and the animal, making a break to get out, knocked him over with the result stated. He has been laid up since and altho not seriously hurt, it may be some time before he can walk about freely.

Beware of Pneumonia.

If you have weak lungs, you have reason to fear pneumonia, and should keep at hand a bottle of Chamberlain's Cough Remedy. It counteracts any tendency of a cold to result in pneumonia. For sale by S. V. Wirt, druggist.

Card of Thanks.

We are very grateful to the people of Canyon City for their kindly ministrations to us and to ours while the hand of sickness and of death was laid upon our family. While the duties of life call us away to another home, at Lake Arthur, New Mexico, we shall ever hold in loving remembrance the kind hearts and willing, helpful hands of the citizens of this town.

J. B. LATHAM,
MRS. J. B. LATHAM.

The Best is Always Cheapest.

In buying medicine a few pence from each bottle is no inducement to the buyer. He wants that which is most effective, as it is cheapest in the end. This is why Chamberlain's Cough Remedy is so popular here. It is guaranteed to do all that is claimed for it and its cures of coughs, colds and croup are always satisfactory. For sale by S. V. Wirt, druggist.

Canyon Chapter R. A. M.

At the regular monthly meeting, held Monday night, twelve applications for the Royal Arch degrees were received and favorably acted upon and arrangements made to begin conferring them next Monday afternoon. Applicants will take due notice of this and govern themselves accordingly.

Companions C. M. Hardin of Amarillo, and F. P. Wilson of Hereford, were present Monday night and will also be here again next Monday to assist in the work on hand.

Do Not Experiment With Croup.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years, and has never been known to fail, viz: Chamberlain's Cough Remedy. Give it, and a quick cure is sure to follow. For sale by S. V. Wirt, druggist.

"No Hogs in Town."

Such is the edict of Plainview over the signature of her mayor. Plainview will no longer tolerate the keeping of ONE HOG within her limits and we, the people of Canyon City, should do likewise. The one and only one sensible way for a town the size of Canyon City to deal with the hog is to banish him entirely out of the city limits.

Guthrie-Wallace.

Sunday evening at the residence of Mr. and Mrs. John A. Wallace Rev. T. A. Robeson said the words which made the daughter of the home, Miss Edna, the wife of John Guthrie. Aside from the family Miss Caddo Gorman and Sam Marshal were the only ones present at the wedding.

Miss Edna is one of Canyon City's fairest and most lovable young ladies and her husband, John Guthrie, comes very near being the most popular man in town. As "central" everybody liked John Guthrie and as "groceryman" with the "Mercantile" he still maintains his hold as a popular favorite. He and his wife have known each other always, The News may say, and beginning married life under these favorable conditions and blessed with fine physical health, they ought to be happy thru its course, and that such may be their lot is the sincere wish of many friends including the Canyon City News. Mr. and Mrs. Guthrie are in their own home, the residence purchased by John Guthrie from Wade Stephenson.

Mattress Factory Burned.

Thomas Bros' mattress factory, situated near the depot, burned down between 4 and 5 a. m. Tuesday morning. Building and contents, all except the engine, is a total loss to them as there was no insurance. This

loss will amount to \$3,000 at least and coming at this time, with money and its accommodations so uncertain, it is a severe blow to these progressive and enterprising brothers.

The origin of the fire is put down to some rambler or tramp who after spending the night there had perhaps lighted his pipe prior to leaving and hence the conflagration. It must have been thru some careless act of this character for enemies the boys have none so far as anybody knows.

The business has been a good one from the beginning and was getting better every day. The capacity of the plant was some fifty mattresses per day and large orders were on file when the burn came.

Thomas Bros. are inclined to rebuild this factory, but say that they cannot well do so now unless help is forthcoming. They are willing to put what they can command of means into it provided some other citizen, or citizens, will take stock in the enterprise.

Just at this time The News knows of no enterprise, for the money invested, that would pay so well as this one. And again, a mattress factory, already a proven success by Thomas Bros., can be made by a little effort of even greater benefit to the town than it was before. The News says this advisedly because the business of Thomas Bros. in that particular line has already gained a substantial foothold.

Why not, then, some of our citizens who possess the ready means lend their aid to Thomas Bros. in getting this enterprise on foot again and by so doing not only encourage them in this their day of misfortune, but reap good dividends for the investment on their own account.

December	.75	5.00
Total	27.87	7.00

The account from the Amarillo station is practically the same thing and so the rainfall in Randall county may be taken as the same thing. We should have a station at Canyon City.

For County and District Clerk.

The News is authorized to announce J. A. Tate as a candidate for re-election as county and district clerk. Every voter in the county knows Mr. Tate and most of them, if not all of them, like him both as a citizen and officer. As county clerk he has given satisfaction, so far as the knowledge of this paper goes, and having been in the clerk's office long enough now to be thoroly familiar with its duties he is in a better position than ever before to give satisfaction to all having dealings with that department of the county government. The chances are that he will have an open field and succeed himself, as to run against him at the present time is to invite almost certain defeat.

Canyon City—the place for a great city. Abundance of running water; natural drainage; located on the Santa Fe, now being made the trans-continental line from Chicago to California. The Santa Fe (Gulf line), is now building South from Canyon City. Randall, is the best county in the Panhandle. The general price of land is from \$7 to \$25 per acre. Property in town a specialty. Don't fail to see me.
