CITY COUNCILMEN ARE INTERESTED.

MEETING OF CITY DADS HELD WEDNESDAY
FOR DISCUSSION OF PROTECTION

Estimates Invited for Cost of Fire Fighting
Apparatus and System. Bid will be
Submitted at Early Date.

It now appears that some active interest in the matter of fighting destructive fires in this city is being taken by the city council. For some time this body has had under consideration some plan for the protection of property of all kinds in this city and these considerations have resulted in a meeting which was held at ten o'clock last Wednesday morning when a special meeting was held in Mayor Haney's office.

It will be remembered that sometime ago the council asked for estimates on a system of waterworks since which time a civil engineer has submitted the estimate for an eight inch pipe to run down two streets a distance equal to the distance from the court house to the depot, around the square making connection with each other, together with 100,000 gallon water tower with well and pumping plant, the estimate aggregating about \$19,000.00.

On Wednesday, A. B. Casgrain, representing the Howe Engine Company appeared before the council and explained to them their engines and a plan for the protection of the property. Briefly speaking they propose to install an engine run by gasoline motor, of sufficient power to throw two streams of water at the end of a hose 1000 feet long to the top of the court house. They also propose to install concrete underground reservoirs at different portions of the city from which to get water in case of fire.

There was considerable discussion of the different plans by the council at this meeting some of the members preferring the waterworks system which would allow the citizens to use water thereby giving a revenue to the city and allowing an extension from time to time as the financial ability of the city allowed. Others thought that on account of the cost of installation the fire fighting plan alone was the better.

In order that some definite idea of the proposition might be had the city dads, by resolution, requested Mr. Casgrain to submit a proposition to the council at an early date covering the details of his proposition, giving specifications as to the costs of installation and the various items necessary for the system including not less than five reservoirs of a storage capacity of 40,000 gallons each, together with 1000 feet of two and a half inch hose of good quality. This Mr. Casgrain agreed to do within ten days from this time.

In conversation with the News reporter Mr. A. B. Casgrain, the representative of the Howe Engine Company said that he had no doubt but that his proposal which he will make to the city would meet all the requirements of the town for many years to come.

"Our fire fighting system will meet the requirements and regulations of the underwriters of fire insurance and will raise your city from the present rating to a third class, thereby saving your people many dollars each year in insurance rates alone not to speak of the other financial saving and the advance

that your city would receive in the commercial world. The system will protect any and all of your buildings within the corporate limits if adopted. It will include a powerful Howe No. 70 Fire engine capable of throwing 300 to 350 gallons of water per minute through 1000 feet of 2 1/2 inch standard cotton rubber lined fire hose at a pressure of from 150 to 175 pounds. It will also include two 500 foot hose reels of standard manufacture and equal to any on the market today, with 1000 feet of rubber lined cotton fire hose manufactured by the leading hose manufacturers in this country which is guaranteed to withstand a pressure of 350 pounds per square inch for a period of five years and will be in fifty foot lengths with patent couplings.

"So far I have not had time to ascertain the number of reservoirs that will be needed to cover the entire town but think that two of them of 50,000 gallons capacity each should be placed on the square and the others as needed in other portions of the city in order to reach all the residences. I shall have to investigate as to the needed number before making my proposition. These cisterns, however, will be made of reinforced concrete and will be placed at least two feet under the street grade and will be guaranteed for a period that will thoroughly test their permanency. Arrangements will be made with adjoining property owners for the filling of these cisterns after they have been emptied by the use of the engine in case of fire. In any ordinary town they will not be required to be filled much oftener than once in six months as they will only be emptied in case of fire.

"I expect to return to your city within the next fifteen days with a full set of blue prints showing in detail the proposed location and construction of the reservoirs and we shall test the engine in your city before the city council will be asked to make a purchase of it, or any of the other supplies for that matter though of course we shall not install the reservoirs until the city is thoroughly satisfied that our engines are of sufficient capacity to protect the property from fire."

GREAT SCRAMBLE FOR TEXAS LANDS.

Farmers in Dakotas and Minnesota Seeking
More Genial Climate and Richer Soil.

Kansas City, Mo., Jan. 24.—"People are simply land mad, that's the best way to put it," says W. F. Halsell, one of the richest men in Oklahoma, in speaking of the great scramble for lands in the Southwest. Mr. Halsell lives at Vinita, Ok., and probably owns more land in Texas, Mexico and Oklahoma than any living man.

He refused to state just how much land he owns, but he admitted he refused nearly \$2,000,000 for his Texas holdings.

When asked why he refused such a large sum, he replied:

"What would I do with that much cash in Oklahoma? The land in Texas doesn't eat, and is growing more valuable every day; taxes down there are so low at present and getting lower every year, that a man doesn't miss the amount. 'John D.' and his crowd have been so completely 'skinned' down there lately that Texas has money to burn."

"Practically every cattleman in Texas is forced out of the business by the hungry horde of landseekers. The day of the so-called 'cattle barons' has passed and gone, and the man with the hoe is supreme. The farmer is

the coming baron of the cattle and the poor 'longhorn' raiser will soon be a thing of the past. In fact he has been walking around for several years to save funeral expenses.

"There never was a time in Oklahoma and Texas when common dirt was so eagerly sought after by a class of men who produce wealth by honest industry and true American thrift. I am glad to see this wonderful transformation. It only teaches the old time cattleman that it don't pay to graze an onery old cow, worth \$15 to \$20, on lands that will produce that much every year per acre. I have about all the money I want, and I am willing to see the other fellow get his share."

As a further evidence that people are becoming "land mad" Dan Donovan and Sanator Wing of Minneapolis have just returned from the Texas Panhandle with a dozen or more North Dakota farmers, who bought, all told, nearly 25,000 acres. Senator Wing stated last night that hundreds of North Dakota farmers are flocking into Northwest Texas to avoid the rigors of the North, and that Minnesota farmers are going to the southwest in droves. He said the great Southwest offers many flattering inducements to Northern farmers on account of the climate and that Missouri and Kansas lands are also being bought by them.

A New One on Maud.

We've heard of Maud on a hot summer day, who raked, barefooted, the new-mown hay; we have read of the maid in the early morn, who milked the cow with the crumpled horn; and we've read the lay that the poet sings, of the rustling corn and the flowers of spring; but of all the lays of tongue or pen, there's naught like the lay of the Texas hen. Long before Maud raked the hay the Texas hen began to lay, and ere the milk maid stirs a peg, the hen is up and laid an egg! The corn must rustle, the flowers spring, if they hold their own with the barnyard ring. If Maud is needing a hat or gown she doesn't hustle her off to town; she goes to the store and obtains her suit with a basketful of fresh hen fruit. If the milkmaid's beau makes a Sunday call, she doesn't feed him on milk at all, but works up eggs in a custard pie and stuffs him full of chicken "fry;" and when the old man wants a horn, does he take the druggist a load of corn? Not much, he simply robs the nest, and to the town he goes—you know the rest. He lingers there and talks perchance, while his poor wife stays at home and scowles, but is saved from want by those self-same fowls, for while her husband lingers there, she watches the cackling hens with care, and gathers the eggs and these she'll hide, till she saves enough to stem the tide. Then hail, all hail, to the Texas hen, the greatest blessing of all to men. Throw up your hat and make Rome howl, for the persevering barnyard fowl. Corn may be king but it's plainly seen that the Texas hen is the Texas queen.—Exchange.

We believe in today and the work we are doing; in tomorrow and the work we have to do, and in the sure reward which the future holds. We believe in courtesy, in generosity and in good cheer. May we serve you?

WOULD PURCHASE PALO DURO CANYON.

REPRESENTATIVE BOWMAN FAVORS STATE
OWNERSHIP OF SCENIC GRANDUER.

Money From Fine Against Water-Pierce Oil
Company Should be Invested in
Great State Park.

Austin, Feb. 1.—Unless there is a miscarriage of plans by the time this is read, Hon. Richard Bowman, who represents the Panhandle section in the lower house of the Texas legislature, will have a bill before that body seeking to use the money obtained from the big Waters-Pierce Oil Company fine for the purpose of purchasing Palo Duro canyon and converting the same into an enormous State park for the benefit of all the people of Texas.

"It is my honest belief," says Mr. Bowman, "that the people of this great State do not wish to pay their officials, nor discharge their obligations with tainted money. While it is true that to the pure all things are pure, it is likewise true the he who lies down with the dogs may expect to get up with, the fleas and furthermore he who plays with smut may expect to get smutty."

"To my mind it would be little short of criminal to use the money obtained from criminals for the purpose of escaping taxation or for the purpose of paying the salaries and the expenses of this State. This money will be obtained as the result of crime. Before it is decodized it will have to be purified by Mother Earth, the birthplace of the wealth of the world.

"Texas needs just such a park, a State-wide park, as the Palo Duro canyon will make. The season-tired people of Texas will be able to go there for a camping trip in the summer time and during a stay that will be so brief that those who take advantage of it will count the seconds as golden periods of pleasure, these South Texas inhabitants will be able to stock on a supply of energy that will stand them in good season for a twelve months.

"The State of Texas needs such a park, for there is no place in the entire State where every prospect is so pleasing to the eye and every scene so delightfully harmonious with the greatest of the landscapes painted by the Great Artist, as Palo Duro canyon. This ideal area, this Yellowstone park of the south can now be purchased by Texas for a comparatively nominal sum. Texas, when this huge fine against the Waters-Pierce Oil Company is collected, will have ample means on hand to make this purchase without taxing the property owners of Texas a single penny. In addition to having enough money to purchase the entire Palo Duro canyon this enormous fine will be large enough to create a fund, the interest on which will be sufficient to keep the Palo Duro canyon park in good shape for the balance of the time. I cannot say whether or not this proposition will be received with favor by the legislature. I can and I do say, however, that this is the wisest and the best use to which this big fine could be put, and if the legislature will give favorable heed to this prayer generations yet unborn will rise up and call the members of the Thirty-first blessed."—D. L. C. McCaleb in Fort Worth Star-Telegram.

Good quality calling cards—
100 25 cents.

EARLY SPRING BUYERS

will find it to their advantage to come in and let us show them the many pretty goods we are offering for spring. We can truthfully say that never before have you had the opportunity of looking at lines in Canyon that compare with the ones we will spread before you this season. We are enthusiastic, but why shouldn't we be? We have the goods and are more than glad to show them.

"Give us a chance and be convinced." Ask to see the following:

	42-inch Net waistings, already tucked, in ecru and white. White Madras. Novelty Waisting. Linens. Embroideries of all kinds. Gambic, Nainsook, Swiss. Valencines, Torchon, Venician Laces.	Ladies' Muslin Underwear. Corset Covers. Skirts. Gowns. Muslin Combination Suits. Drawers. Oxfords for Men. Oxfords for Ladies. Oxfords for Misses.
--	---	--

These are only a few of the many things that we wish to show you. Don't order your shirt waists, lingerie dresses, or any of your ready-to-wear clothes until you have seen our line, which we are expecting any day.

THE LEADER

DISTRICT COURT IS IN SESSION.

REGULAR FEBRUARY TERM OF COURT BEGINS TO GRIND MONDAY MORNING.

Criminal Cases Occupy Most Attention on Part of Attendants—Enoch Wilson Adjudged not Guilty.

Randall county has two terms of the district court, one beginning in August and one beginning in February, each of the terms lasting two weeks. The regular term for February convened last Monday, that being the time set for the regular meeting. There was a comparatively full docket in both the civil and criminal divisions.

The criminal docket attracted the most attention, there being two murder cases transferred to this county from Parmer county which have assumed proportions which attract the attention not only of Randall county citizens but also the citizens of the entire Plains country on account of the prominence of all parties concerned in the killing which occurred at Bovina in Parmer county in November of last year in which John Armstrong, the manager of the X. I. T. ranch lost his life and John W. Williams and his brother, Doby Williams, being charged with his murder. Then there are other cases against citizens of this county of a much less serious nature which have attracted local attention. Among these was the case of Enoch Wilson who stood charged with the theft of cattle. This case was tried the early part of the week and the defendant was adjudged not guilty and was discharged by the court. The jury was out only a few minutes, not over ten, returning a verdict just as soon as a foreman could be selected.

The civil docket has several important cases of importance the principal one of which was the suit of Dicey May Smith, et

al, Vs. The Pecos and Northern Texas Railway Company, which was tried before Judge Browning in which the defendants secured judgment against the railroad company for the sum of \$8500.00. This case originated from the death of Mail Clerk Smith who was killed in the head on collision at Haney's switch just north of town on December 6th last.

Just what the grand jury is doing no one seems to know but they received a straight charge from Judge Browning when the jury was empaneled and it seems from the number of people who are being summoned to appear before the grand jury that they are determined to give a thorough investigation of all matters submitted to them.

The following are the orders of the court as shown by the minutes and the dockets so far this week.

The grand jury was empaneled and sworn and consists of J. W. Ballard, R. E. Baird, J. L. McReynolds, J. M. Burkhalter, Dave Currie, J. M. Craig, L. G. Conner, H. E. Wesley, W. L. Garner, C. H. Still, L. E. Cowling and M. N. Gallagher of whom L. E. Cowling was appointed foreman by the Court.

M. L. Coffee was appointed door bailiff for the grand jury and J. H. Jowell and J. R. Steen walking bailiffs and J. A. Tate and J. H. James as the riding bailiffs.

The criminal dockets were set for Tuesday morning, Feb. 2, at 9 o'clock.

The petit jury for the first week was empaneled and consists of W. B. Walters, Jessie Pierce, W. W. Stephenson, W. J. Wood, George Reynolds, W. F. King, R. H. Caler, J. M. Emery, Tom Cochran, Travis Shaw, H. J. Cavett, M. O. Slack, A. M. Smith, J. M. Meyers, C. P. Hutchings, Jim Dawson, M. S. Lusby, Frank Beavers, J. D. Key, C. S. Dison, E. D. Harrell and J. A. Carris.

J. M. Boydston, No. 373, vs. G. R. Ward, et al. Defendant's general demurrer and special exceptions heard by the court

and overruled to which defendant excepted.

State of Texas, No. 406, vs. John W. Williams, charged with murder; States Attorney's motion for special venire sustained and clerk ordered to issue special venire writ for 85 special veniremen returnable, Thursday, Feb. 4 at 9 o'clock A. M.

State of Texas, No. 407, vs. Doby Williams, charged with murder. Same order as in preceding cause.

J. M. Boydston, No. 373, vs. C. R. Ward et al, Defendant's general demurrer and special exceptions No. 2, heard by the court and overruled to which defendant excepted.

First National Bank of Canyon No. 409, vs. C. C. Marshall, suit on note and for foreclosure of lien; continued until next term of court to perfect service.

First National Bank of Canyon No. 410, vs. Wm. Harvey, Suit on note and for foreclosure of lien; continued to perfect service.

J. T. Jennings, No. 401, vs. Mrs. J. A. Hagg, et al, foreclosure; continued for service.

Minnie M. Chase et al, No. 402 vs. Mrs. J. A. Hagg, et al, foreclosure, continued for service.

State of Texas No. 406, vs. John W. Williams, Sheriff E. T. Stephens of Parmer county adjudged in contempt of court and fined \$100 for failing to return subpoena for witnesses.

Dicey May Smith, et al, No. 408, vs. P. & N. T. Ry. Co. damages; judgment for \$8500.00 as follows: To P. P. Smith and wife, \$500.00 and to Dicey May Smith and Adarian Smith each \$4000.00.

Pecos and Northern Texas Railway Company, No. 404, vs. M. H. Bogar, et al, Injunction; Temporary injunction dissolved and judgment rendered in favor of defendant, with costs.

Jasper N. Haney, No. 322, vs. J. F. White, et al, damages; continued by agreement.

Panhandle Townsite Company, No. 343, vs. Mrs. S. L. Long, et al, continued by agreement.

C. T. DeGraffenreid, No. 399, vs. Silas Lake, et al; both parties have leave to amend their peti-

tions and answers.

J. M. Boydston, No. 373, vs. G. R. Ward; continued by agreement.

H. A. and T. E. Turner, No. 341, vs. Lonis Lehrman, et al, for partition of land; continued by agreement of parties to suit.

J. W. Cummings No. 364, vs. C. S. Morris, damages; continued by agreement of parties.

J. W. Cummings, No. 331, vs. Lois Cummings, motion to reopen suit; continued by agreement of parties.

Fulton Lumber Co., No. 372, vs. H. H. Saul, et al, foreclosure of material man's lien; Geo. A. Brandon appointed as guardian ad litem to represent minor defendant.

General Electric Company, No. 400, vs. Canyon City Ice and Light Co., et als., debt and foreclosure with petition for injunction and for receiver; Hobson Electric Company, et al, granted leave to intervene. Property ordered sold by receiver by agreement of all parties.

State of Texas, No. 384, vs. Frank Lester, maiming; State's witness, Ed. Wicker, a defaulting witness, was adjudged in contempt of court and fined \$250 and attachment for witness to Ellis county issued. Cause passed until Monday, Feb. 8.

The State of Texas, No. 385, vs. Enoch Wilson, charged with theft of cattle; trial by jury with verdict of not guilty. Defendant discharged.

State of Texas vs. Newt Reeves, No. 388; swindling over the amount of \$50; dismissed upon motion of the district attorney for reasons filed in this case.

This morning the Williams cases were called for trial and a legal battle right was begun. The State desired to use Doby Williams as a witness against John Williams and therefore made a motion to dismiss the case against Doby Williams and the defendant wanted the dismissal made permanent so that no future indictment might be brought against him, whereupon the State withdrew the motion to dismiss and the Doby Williams case was continued until the

next term of the court upon the application of the State's attorneys. When the John W. Williams case was called the defendant made a motion for a continuance which was granted. Thus ended the cases for this term.

These two cases attracted wide attention. There had been summoned about seventy-five witnesses from Parmer and adjoining counties nearly all of whom were present. The special venire which had been summoned in the two cases was dismissed.

Jim Cagle came up from Harper this week to mix and mingle with the court attendants.

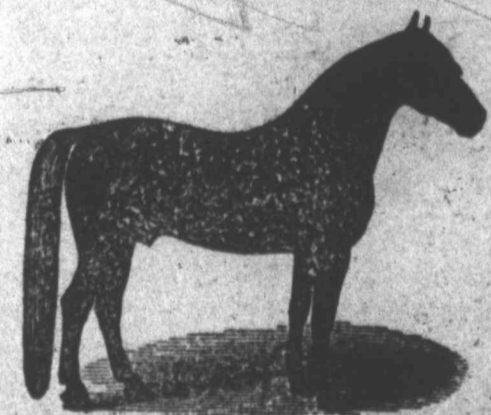

Joe Black left yesterday afternoon on a tour through the northern cities with Louis Maloney who left for the markets.

Rev. Dr. Carroll, the noted Baptist minister of Waco, was in this city Wednesday on his way home from Plainview where he had been in connection with his Christian educational work.

Just received Thursday afternoon, the latest in shirt waists, both lingerie and net, also a few advance styles of lingerie dresses. THE LEADER.

The Canyon Tailoring Company do good work. Dunbar building, South side of square.

ATTENTION, HORSE RAISERS

Ranger R, 31428, Standard and Registered Registry; will make the season of 1909 at the

East Wagon Yard, Canyon City.

Ranger is a beautiful Mahogany Bay, 16 hands, weighs 1180 pounds. A1 saddle and driver.

Ranger was sired by Rabelias 11122; Rabelias by Belmont, 64. Ranger R, dam Mattie Mont, by Norwood Star 1395, dam Daisy H.

For size, style and action his progeny are just right. As saddlers and drivers they are unequalled.

Care will be taken to prevent accidents but will not be responsible for any.

TERMS:—\$15 to insure live colt. Mare parted with or removed from county, services will become due and payable at once.

C. S. DUNCAN

East Wagon Yard

Canyon City, Texas

IMPROVEMENT CLUB TO MEET.

Ladies' Organization Hold Regular Meeting Next Monday Afternoon—Some Plans for Future.

The Civic Improvement Association of this city will hold their regular meeting next Monday afternoon at three o'clock at which time several matters of importance will be discussed and plans adopted for some of the future work of the organization.

Among the most important matters to be discussed will be the naming of the cemetery, and the president of the association has requested that every member of the association be present and that they suggest names for the cemetery. There were also several other items relative to the work at the cemetery which are to be discussed including the digging of the well, the erection of a windmill, the planting of trees and like items.

Some suggestion has been made by the leading members of the club that steps be taken for the erection of a modern drinking fountain to be erected on the square to take the place of the unsightly drinking tank at which people water their stock. This will also be a matter of discussion and if need be steps for the work will be taken.

Poll Tax Payments Light.

This seems to be an off year in the matter of payment of poll taxes in this county. All poll taxes, in order to entitle the person to vote, had to be paid by February 1, but a great many people who had been assessed failed to pay. Tax Collector Sanford reports that only 371 people in this county paid their poll taxes and took out receipts and that they are distributed as follows: Canyon City, precinct 1, 244; Jewell, precinct 2, 11; Nina, precinct 3, 25; Ceta, precinct 4, 22; Park School House, precinct 5, 25; Costley, precinct 6, 6; Hoffman School House, precinct 7, 18; Umbarger, precinct 8, 25.

The collection of state and county taxes during the month of January were very heavy, in fact the heaviest ever had in this county and up to noon yesterday the office force in the collector's office had not completed their report so that the amount collected could be shown.

A penalty of ten per cent upon the amount of all taxes not paid on February 1, is due after that date and all taxes not paid are subject to enforced payment by legal proceedings on the part of the county officials.

A Fairly Good Hog.

John H. Bell, a northern farmer who located in this county some two years ago is a believer in Randall county and the Panhandle as a hog raising country. He has fed a large number of these animals from time to time and says that Kaffir fatten the swine as well as any feed that he has ever used and he fed a large number in his northern state before he moved here.

He reports that he this week killed a hog which he had fed on Kaffir corn for just ninety days before killing and that the animal weighed 655 pounds and that the fat was solid and firm and made very fine lard. He is going to feed more Kaffir corn in the future as he a believer in its great value.

Thompson's Drug Store Has Moved.

After some delay the Thompson drug store has moved into their new quarters on the east side of the square in the middle one of the three new brick buildings. This will give the drug store much larger and better quarters for the conducting of their business and the manner in which the store has been finished and in which the fixtures have been placed therein makes the store one of the nicest in the Panhandle.

Palo Duro Offices.

The Palo Duro Land Company have been busy this week in moving into the building vacated by Thompson's drug store on the east side of the square. The company have entirely renovated the place and have had the inside refinished and have placed elegant partitions through the building making modern offices which would be a credit to any city.

JOHN HUTSON WEDS.

Prominent Canyon City Man Joined in Wedlock at Amarillo—Will Make Their Home Here.

For some time there have been rumors of a wedding in high circles and concerning Canyon City people and there has been much speculation as to just who the fortunate person might be. Last Monday all of these speculations were allayed when John Hutson of this city was married at the Saint Matthew's Episcopal church in Amarillo at high noon to Kathryn, the daughter of the late United States Senator E. M. Hewins of Kansas, the Rev. M. R. Worsham conducting the ceremony.

The newly married couple arrived in this city Wednesday and will make their home with us. However they expect to leave within a short time for quite a wedding tour to the leading points of interest in the United States, the wedding trip being deferred on account of some very pressing business matters in which Mr. Hutson is concerned in closing up just at this time.

The bride was a member of one of the leading families of the State of Kansas but for some time has made her home in Amarillo where she was a member of the very best society, having made many friends, by her friendly and kindly manner.

As for the groom we cannot better describe him than is described in the society columns of the Daily Panhandle of Amarillo as follows:

"John Hutson, English by birth but American by preference, is one of the few remaining picturesque pioneer plainsmen whose sturdy progressiveness have done so much to make of this plains country a prosperous thriving community. His friends are limited only by his acquaintances both at home and abroad. Those who are most intimate with him apply the term of "Uncle John" as a special mark of affection. The announcement of his marriage today comes as a surprise to many of his friends but is most welcome news to all and is universally conceded to be the crowning event in a useful and active life."

The people of this city will welcome this couple here as a valuable addition to the social circles of this city.

Lovejoy-Davis.

Last Saturday S. T. Lovejoy and Miss Goldie Davis, supposedly from Texico, presented themselves to County Clerk Garner and after satisfying him of all legal requirements received the necessary papers with which to present themselves to Justice W. J. Redfearn for the performance of wedding ceremony. Justice Redfearn acquitted himself in the performance of his portion of the program in his usual happy manner declaring the couple duly wedded for all life to come. The couple left on the afternoon west bound train for their home.

Lame Shoulder.

This is a common form of muscular rheumatism. No internal treatment is needed. Apply Chamberlain's Liniment freely three times a day and a quick cure is certain. This liniment has proven especially valuable for muscular and chronic rheumatism. For sale by the City Pharmacy.

LARGE INCREASE IN BUSINESS.

Local Post Office Receipts Show Large Per Cent of Increase in Receipts Over Last Year.

Business of all kinds has been on the increase in this city for several years past and the increase during the past year has particularly been large. The local post office receipts are very good indices to the general increase of all kinds of business.

Postmaster Oscar Hunt stated to the News reporter this week that the receipts for January was the largest in the history of the city and that the increase over January 1907 was 44.5 per cent which is quite a large increase considering the very large business done during January 1908. By the way it might

be noted that during the month of January 1894, the local postmaster sold \$1.03 worth of stamps and cancelled stamps to the value of \$1.00. This year's receipts would make a whopping average if compared with that year. By the way, the postal records show quite a record for the increase of the Randall County News. For the quarter ending June 30th 1908, the postage account was \$1.82 and for the quarter ending on December 31st, 1908, the postage account was \$11.56 and the postage is paid only on papers which go to bona fide subscribers and not on sample copies sent out.

The Canyon Tailoring Company.

IS MADE A STATE DEPOSITORY.

National Bank of This City is Selected as Place to Keep Money for State in This District.

In this state we have a State Depository board consisting of the Hon. Sam Sparks, State Treasurer, R. V. Davidson, Attorney General, and J. W. Stephens, Comptroller. They have charge of the depositing of the state funds into the banks of the state. In each senatorial district one bank is selected in which to deposit state funds as they accumulate in that particular portion of the state, the bank paying interest on the amount on deposit.

On the first day of this month this board met in Austin for the purpose of making this selection

among which was the First National Bank of this city which was appointed as state depository for this, the Twenty-ninth, Senatorial District.

The Canyon Tailoring Company.

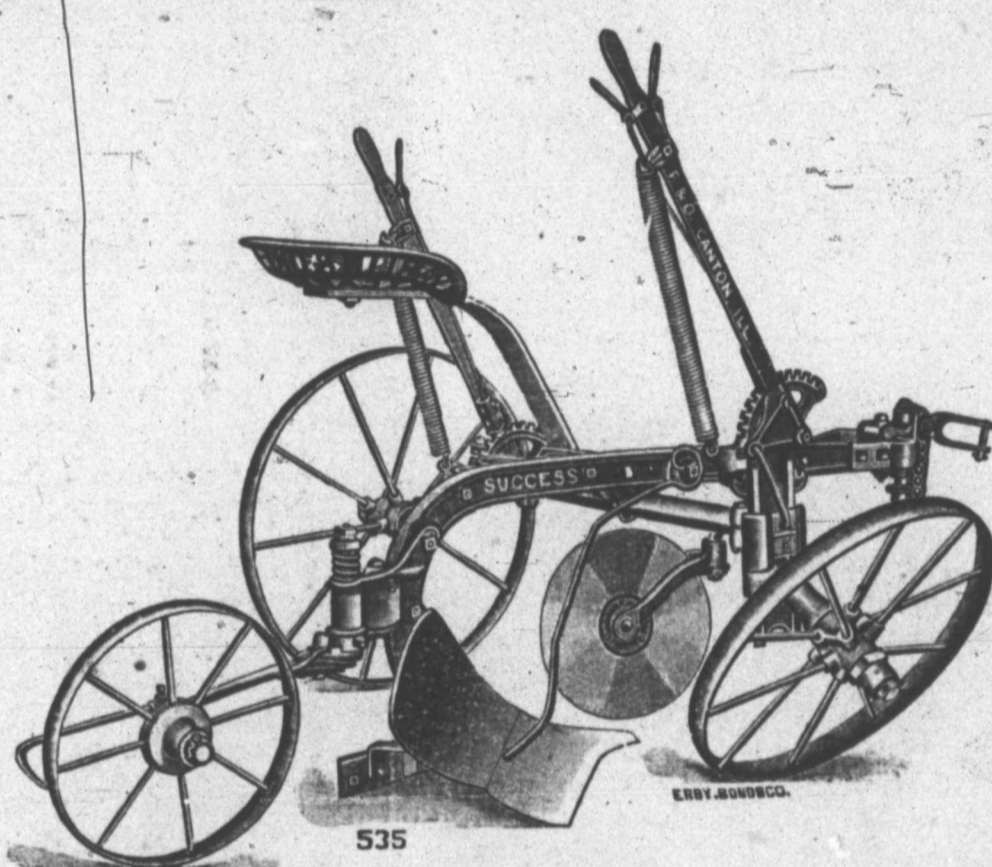

Mr. and Mrs. T. C. Thompson returned last Wednesday from Dallas where they had been with their little daughter whom they took to a sanitarium at that place for treatment. They brought their daughter back with them and we regret to report that her condition is not much, if any, better.

The Canyon Tailoring Company.

J. T. Wesley of Ceta was here attending court last Tuesday.

For Farmers' Uses

It is the purpose of the Thompson Hardware Company to keep in stock everything needed by any person in the line of Hardware, implements and builders' supplies. We have gained a most enviable reputation for the large stock, the high quality and the low prices and therefore are confident of the continued patronage of those who have been our customers. We are now especially well stocked with all kinds of implements and call your attention to the following:

The Success Sulky and Gang Plows

with sod attachments--the plows that have been the standard of excellence ever since they were placed on the market. They are the

Reliable and Durable

and adapted to all kinds of work in this country.

We can also supply you with any other plow or tool you may desire and of the best make.

The Bain Wagon

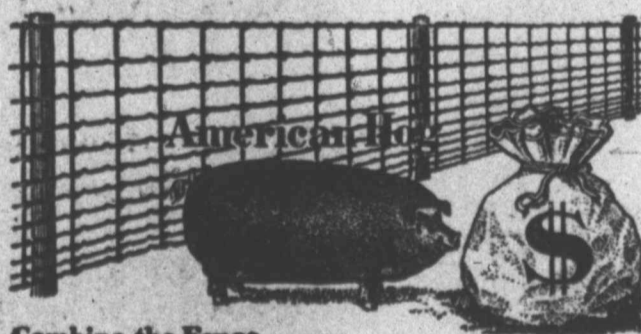

We have a large stock of these excellent wagons both in the regular wheel and the low truck. This is so well known that special mention of their merits are not necessary. People who have used the Bain wagon do not hesitate to recommend them.

The New Bettendorff Wagon

A wagon with steel axles and one that is guaranteed to hold up twenty tons and the time of the guarantee is unlimited. Light draft and durable.

American Fence

Combine the Fence and the Hog and get the Dollars American Dollars

Fence your fields with wire that will protect your crops as well as keep your stock within your enclosures.

American Fence

field wire will do the work. It will be a good investment.

The Genuine "Baker Perfect" Galvanized Barbed Wire for General Fencing.

Eclipse Windmills

Without any hesitancy whatever we recommend and guarantee this windmill above all others. It is made right and from the best materials and will do the work when all others fail.

Every Tub Stands On Its Own Bottom.

And so does every town.
If the bottom of this town drops out, what are we going to stand on?
And the bottom will drop out—
If we fail to stand together and work together for the good of the community—myself, yourself and the other fellow.
In order to build to the top, there must be a solid bottom.

GET PLENTY OF WATER FIRST.

It seems that the Daily Panhandle and Chamber of Commerce of Amarillo are shedding great drops of tears over the fact that the head officials of the Santa Fe are not making the great extensive improvements in shops, roundhouses and yards which Amarillo expected when she coughed up between \$75,000, and \$80,000 as a donation to that company.
To an outsider who watches the matter it is a matter of no surprise. The Daily Panhandle in a recent edition said in part: "Mr. Ripley's reply to the Chamber of Commerce may say that "considering existing hostile sentiment in Texas toward capital it is not expedient that we extend improvements; etc, etc." That answer will not suffice, if that be the answer, or something akin to it."
The Daily Panhandle evidently knows there is something behind other than the "existing hostile sentiment" and if it cared it could come out and tell just what it is. No railroad can run its shops and round houses without a good supply of water

and we think that here lies the trouble at Amarillo. If that city will come down near to Canyon City and put down some wells and pump the water into Amarillo for the road instead of having the Santa Fe haul water from Canyon City to Amarillo for use in their engines as the railroad has been doing, or if the town will buy ground on the Palo Duro near Canyon City and dam the stream and then pump to Amarillo so that the railroad need not haul its water supply, then we doubt not but that Mr. Ripley would make the much desired improvements.

At any rate Amarillo will have to show more water than just a few tears before the Santa Fe will make very great improvements there.

REDUCED PASSENGER RATES.

A bill has been introduced into the legislature of this state which is now in session which seeks to reduce the rates for passenger service in the state to two-cents per mile. While there might be good arguments in favor of the law still in our opinion it is not so much a reduction of traffic rates for passengers that we need so much as a greater amount of railway mileage. This great western country is awaiting the coming of a large number of railways and it appears to us that if the railways are permitted to secure an adequate compensation for their passenger traffic, it will offer them encouragement in the matter of railway building and extension. There may be cases when people cannot afford to pay the present three cent rate but where there is a case of this kind there are numberless other cases where the rate can well be afforded. Lets have more railroads and then the lower rates. If we had four competing lines from Canyon City to Fort Worth there would be ways by which the railroads would give reduced rates and even if they did not reduce to two cents by their own volition they would be compelled to give better service and better equipment thereby making travel safer on account of competition.

LUMBER IN DEMAND.

The two local lumber yards of this city are certainly busy in loading and sending out wagons for the large number of new farm houses which are being built in this county. Monday the editor went to the two yards and tried to secure some information about the approximate number of houses being built but was told that there were so many that the companies would have to go over their books in order to tell anything definite as to the number, but one connected with one of the firms stated that there was at least forty new houses being built at the present time within Randall county.

In its last issue the Plainview Herald announces that they will install at once a linotype machine of late model. The papers all over the Panhandle seem to be prospering and are giving to the best papers published in any portion of the state or any other state for that matter and the Herald is not behind them in matter of "gettin' there."

The News is in receipt of an artistically arranged and printed booklet entitled "From an Interurban Car Window," published by the Northern Texas Traction Company. It shows scenes along that company's electric line between Dallas and Fort Worth and is a credit to that wide awake, energetic company.

The future building for store houses in Canyon City depends largely upon the protection that is offered to the builders or rather owners in the matter of fire system. If they can be properly protected from the ravages of

the flames, we look for several new brick buildings to be erected within the next few months. In fact one person stated to the editor this week that if the town had some sort of fire protection he would at once buy two lots on the square and erect a double brick building for the use of a firm who desired to come here and enter into a business much needed at this time. Even if it does cost a little money lets issue some bonds and put in a small system for the protection of the business portion of town at least.

Death Visits the Force.

The editor is called upon this week to record the death of a lady who has been in his employ for the past few months, Miss Fannie Struthers. She was taken sick on Tuesday of last week with pneumonia and gradually grew worse until Saturday morning at 6:30 when death came to relieve her sufferings.

The body was carried to San Angelo for interment by the side of her mother who rests in a cemetery at that place, shipment having been made Saturday afternoon in charge of her brother W. L. Struthers, a resident of Ft. Worth who arrived that afternoon after his sister had passed away. Short services were held at the residence of I. N. Hicks where Miss Struthers roomed, by Rev. Hawthorne.

While Miss Struthers had only been a resident of Canyon City for a few months she had made friends of those who had formed her acquaintance. Her unobtrusive manners, her thoughtful attention of the comfort and welfare of others, her diligence in her work and her general high character had won for her in the estimation of this editor an esteem that could only be broken by the separation of earthly ties and the regard which the editor holds for her will grow stronger as he realizes more and more the worth of her strong character.

The entire News force grieves over the loss of this good woman. It is seldom that any one ever meets her equal and never her superior.

Miss Struthers, whose death occurred last Saturday morning was a firm believer in the Creator and Savior and was an earnest member of the Presbyterian church. The Sunday school class of which she was a member in the local church have passed the following resolutions which we publish in full:

Whereas, It has pleased our Heavenly Father to take from our midst our sister in Sunday school, Miss Fannie Struthers. Therefore be it

Resolved, by Class No. 3 of the Presbyterian Sunday school that the family of our deceased sister and Sunday school have suffered an irreparable loss. That we meekly accept the workings of our Heavenly Father and recognize that the affairs of life are guided by Him.

Though she has been with us but a short time, she has proved her true relationship to her Father by her noble Christian acts. While we miss her and mourn her loss, we know she shall receive her reward in the better land. Therefore be it further

Resolved, That a copy of these resolutions be placed upon the minutes of the Sabbath school record, that a copy be furnished to the bereaved family and a copy be sent to the Randall County News for publication.

Signed—H. E. Muldrow, teacher; Frankie Gober, Grace Winkelman, Madie Cavet, Susie Knight, Sallie King, Robert Campbell, H. Holt, Joe Black, H. R. Long, J. B. Langendorfer, R. C. Langendorfer.

Amarillo Man After It.

You can always count on Amarillo. If there is about to be anything loose anywhere, there is always an Amarillo man after it, whether he is entitled to it or not. Up in Amarillo they can smell a plum further away than doomsday. They can see a chance to get after something quicker than any other folks in the Panhandle or elsewhere, for that matter.

Well, why not? The "queen city" must keep on being queen or we will dub it something else.

There is some likelihood that the legislature this session will create one or two new judicial districts in this part of the state. They ought to make two, those fellows down at Austin ought, but it looks like only one now. And that is not a sure shot, by any means. But the noise had no more than reached Amarillo before "friends" were out with petitions asking that one of the attorneys of that city be appointed to the new judgeship.

The man is O. K. doubtless, and would make a good judge if there were a district for him to preside over. He has had nothing to do with those petitions, probably, but it seems to a man up a tree that it would have been much better and much more considerate if those hustling friends of his had waited till some definite action had been taken by the legislature.

But we all know Amarillo.—Hereford Democrat.

Man, why didn't you say "Pigs" and be done with it?

For Sale—One section of land six miles from Canyon City: also one-half section, mostly alfalfa land, one mile from town. Address "Land Owner No. 2" care of this office.

Every Farmer

As well as every business man should have a bank account.

Why?

Because: Your money is safer in the bank than than anywhere else.
Paying your bills by check is the simplest and most convenient method. Your check becomes a voucher for the debt it pays.
It gives you a better standing with business men.
Money in the bank strengthens your credit.
A bank account teaches, helps and encourages you to save.
This bank does all the bookkeeping.
Your bank book is a record of your business.

To those desiring Banking Connections with an Old Established Bank, we extend our service.

Wealth in Land.

Land which was bought near Dodge City, Kansas, three years ago for \$30 an acre, has just been sold for \$72, an increase of nearly 150 per cent in the short space of three years. Dodge City is well towards the western portion of the State is a dry belt, where a few years ago a man would have been considered feeble minded had he declared it would ever be worth even \$30 an acre except for grazing purposes. Now methods of agriculture have rendered valuable all that immense dry belt lying east of the great Rocky mountain chain from North Dakota clear through to Texas. The Panhandle of Texas where a few years ago jack rabbits and coyotes were pitied for their lonesomeness and congratulated on their long legs that enabled them to cover a wide range of territory in search of food, is now settling up with tremendous rapidity. Towns and farms have sprung up on all sides, and the railroads are carrying away the products of the soil by train loads. And so it is throughout all the once despised dry belt.

Elsewhere it is the same. Wherever there is land to be had from the government or to be purchased from private owners there is a rush of those eager to secure it. Never was there such land hunger in the history of the country. It is bound to increase and in a few years the natural result will be a land famine. The man who wants a hundred acres or even ten acres ten years from now, will have to pay a big price for it or go without. No matter in what section of the county he may look for it. The demand for land will be so intense and so far in excess of the supply, that every acre of land at all capable of productive use will command a high price. This includes land in the Ozarks of Missouri and Arkansas not now attracting attention because land seekers find what they want elsewhere. The healthful fertile but small area of Ozark farm will come into its own when the dweller on the Plains can no longer find a large patch of level land to meet his idea of what should constitute a farm.

What offers a safer investment than land, in view of the undisturbed trend of conditions? What nam, owning land valued at anything less than \$200 an acre, can look in the future without seeing a great increase in the value of his property. Consider the tremendous increase in land values during the past twenty-five years, in spite of the vast area of government land and cheap private lands in the West and Southwest, and then think of what must be the increase in the next quarter of a century with all those openings for new land seekers closed. Such considerations ought to make any possessor of land feel satisfied and confident of the future, whether he thinks the land he has is now worth what it cost him or not.—St. Louis Star Editorial, Saturday Jan 9, 1909.

Chamberlain's Cough Remedy the Most Popular Because it is the Best.

"I have sold Chamberlain's Cough Remedy for the past eight years and find it to be one of the best selling medicines on the market. For babies and young children there is nothing better in the line of cough syrups," says Paul Allen, Plain Dealing, La. This remedy not only cures the coughs, colds and croup so common among young children, but is pleasant and safe for them to take. It contains no opium or other narcotic, and may be given to a baby as confidently as to an adult. For sale by the City Pharmacy.

Send Catalog—A postal will bring it. ROSWELL SEED CO. Roswell, N. M.

Diversified Farming on the Plains.

It has been repeatedly demonstrated, beyond peradventure that diversification is the secret of successful and profitable farming in any agricultural country, and it applies with equal, if not greater force, to this section of the country than any other, for the simple reason that our soil, climate, seasons and general conditions are adapted to a greater variety of field, garden and orchard products than any other locality in the "Great Southwest." It is a sure proposition, that with the proper system of diversification, the farmers of Swisher county can have some profitable cash crops on the market at any season of the year. And, again it is a sure proposition, that with the proper system of diversification, there can be no possible complete failure of crops here, for if one crop should happen to miss, the others will make.

The Plains country is particularly adapted to many of the staple crops, such as wheat, oats, barley, rye, millet, alfalfa, Indian corn, kafir corn, milo maize, broom corn, cotton, etc., a diversification of which, taken together with the cattle and hog products of the country, will insure a cash income every month in the year.

Besides the field crops, truck farming and orchard products are reliable and profitable, and the variety is so great that a cash income from this source can be depended upon each month in the year, to say nothing of sandwiching in between times with the poultry industry, which flourishes to an extent in this section that would open the eyes of all who had never tried it.

There is no country on earth that offers as good opportunities and as profitable results for diversified farming as this country, and there is no other country on earth where the farmer has the same opportunities to have cash in his pockets all the year around.

We encourage our farmers to diversify their crops—plant several different kinds—it matters not how treacherous the seasons might be, they cannot miss all, and when this admonition is more closely observed the country will grow and prosper to an extent never before known.

It is not our intention to create the impression that the country is not prosperous at present, or that it is a common thing to have crop failures in this country, for indeed the country is in a most prosperous condition and complete crop failures have never been known since the farmers began to invade this country and sow and reap, but we encourage diversification because it will make doubly sure successful farming and prosperous times.—Tulia Standard.

Over in Dallas the other day while a Mr. Wood was conversing with his friend, Mr. Stone on business street, a handsome young lady with a Venus-like figure, and attired in a directorie gown passed by. Immediately Stone turned to Wood, Wood turned to Stone and they both turned to rubber.—Ex.

Norris Root has arrived from Illinois and will make his home in this county. He has made a contract to break 160 acres of land for Ed Leigh and a like amount for Jim Wable on their land southeast of this city.

We believe in the goods we are selling and in our ability to succeed. We believe that honest goods can be sold at honest methods. CANYON LUMBER CO.

M. K. & T. REPRESENTATIVE TALKS.

Sees Great Influx of Homeseekers and Predicts Great Future for Panhandle District.

"The Panhandle of Texas," declared J. T. Roberts, traveling representative of the "Katy," who was here from Wichita Falls yesterday, "is destined to do great things within the next few months. There is a spirit of greatness in the atmosphere, so to speak.

"People of the country have discovered the Panhandle of Texas. They are learning the worth of the great western section of the state. Fertile acres are being made to respond to the touch of the farmer. The fruits of honest toil are being reaped and proving a blessing to all from the least to the greatest.

"While it is simple truth to say that I have a paramount interest in the city in which I live, (Wichita Falls), and believe its possibilities second to none, that very interest leads me to a fair investigation of the worth of other

cities and towns. The tide is coming in and the harvest is here for those who will gather it in."—Daily Panhandle.

Hutson's Steer Coming.

Fort Worth, Tex., Feb. 1.—Among the exhibits of registered Hereford cattle just promised for the National Feeders and Breeder's show here March 13 to 20, is one of John Hutson's Outdoor Hereford herd, near Canyon City, in the Panhandle. Last year Mr. Hutson exhibited for the first time at the show here and his stuff came in the money in almost every class he entered. At the Western National in Denver last year he captured firsts and seconds with his Outdoor stock on practically everything he exhibited. He has bred carefully for years toward producing a hardy strain which will thrive on outdoor conditions in the Panhandle and at the same time be able to compete successfully in the prize ring with the more gently reared animals from Eastern States.

CINCINNATI ENQUIRER PRAISES.

Noted Ohio Paper Gives Glowing Tribute to the Growing South—Prospects are Great.

Fifty years ago the reported words of Horace Greeley, "Go west, young man, go west," were heard upon every side, and the advice of the noted journalist was the very epitome of wisdom. A half century has proved the accuracy of his judgment, the clearness of his foresight, and the sentence he uttered has made thousands of persons comfortable and happy by their adoption of this thought.

If he could speak today, undoubtedly he would change the direction he would give to the young men of the rising and present generation, and the prophetic spirit would impel him to say: "Go south, young man, go south." The bright rays of the shining sun of prosperity are illuminating the Southland from the Susquehanna to the Gulf of California. From Havre de Grace to the Salton sea, from the Ohio river to Key West, there is neither stop nor stay to the tide of development which is rising steadily throughout the states and territories of the South. It is no temporary stream, no contracted flood, but it is the beginning of a sweep of prosperity as enduring as the everlasting hills and as solid as the rocks of granite.

This republic is witnessing the commencement of an epoch that will bring the people of the South to their own again and make their section the powerful and directing force it was in the earlier days of the Union. The term "New South" never appeals to us. The glorious memories of the old South are not to be tarnished, supplanted or uprooted by latter-day terms, and it is the worthy sons of heroic fathers, men true to the traditions, the ideals, the creeds of their ancestors who have at last conquered all difficulties and placed their native South once more in the front of progress and prosperity.

Blood will tell, and, despite the carnage and destruction of civil war, the robberies and military spoils, the hosts of the people of the South have risen above all difficulties, and their superb courage, unsullied honor and civic virtues compel the admiration of the people of the world today. With their great heritage of rich agricultural domains; their magnificent ports, strung like pearls from Baltimore to Galveston; their waterways and mineral treasures, and a climate most inviting, the people of the South hold today the richest, the fairest and the most attractive region of the known world. There opportunity beckons to every eager seeker after wealth; fortune smiles and waits for those who would follow her, and success stands ready to crown those who are worthy of her laurels. To every one, rich and poor, the South today offers the fairest prospects and the most abundant rewards.—Cincinnati Enquirer.

D. A. R. McKinstry of Athens, Ohio, was in this city this week and was a pleasant caller at this office. To the News man Mr. McKinstry stated that he was more than pleased with the Panhandle and that he thought very seriously of returning to his home and disposing of his large property interests there and move to Randall county for the purpose of engaging in stock raising and feeding. He has been particularly well impressed with the advantages offered here for such an enterprise on account of the mild winters and the exceedingly high quality of feed stuffs raised here.

Judge M. D. Garwood of Roswell was in the city the first of this week in attendance upon the District Court being interested in some of the criminal cases on the docket.

LOCAL GRAIN MARKET

The quotations here given are from the Canyon City grain dealers and show the market the day before the issue of this paper. The prices are for grain in sack unless otherwise stated.

An Entirely New Stock

Harrell's Confectionery
East Side Square in New Brick Block.

640 Acres For Sale

A fine section of land cornering with the city limits: 250 acres in cultivation; 100 acres of sub-irrigated alfalfa land. Living water in a running stream across the north end and plenty of fishing. Has a fine natural park with a beautiful grove of native trees.

This tract of land is finely located and will make an ideal home. It is close to school and is within the Canyon City Independent School district.

The soil is as good as any on the Plains and the price is attractive. See me if you want a fine tract of land for an ideal home.

ADJOINING TOWN

I am offering for sale 160 acres of land, the west portion of Section 30 in Block B5, adjoining the town plat of Canyon City on the north.

This property is finely located and has a running stream of water with fine fishing place with about 50 or 60 acres of very fine sub-irrigated alfalfa land about half of which is already planted and the remainder is plowed ready for planting.

The place is located convenient to town and good public schools and a bargain is offered to the man who wants a good home. Would subdivide tract to suit purchaser.

W. E. BATES,

Spring Goods. ARRIVING

It has always been our purpose for our store to be the first to show the articles suitable for the season. Our buyer has returned from the northern and eastern markets and the latest goods of all kinds for our Dry Goods department are already beginning to arrive.

Mr. R. S. Pipkin, our buyer, found the conditions in the market just right—the stocks were complete and the wholesalers anxious to sell their goods to our firm on account of our well known ability to take advantage of all discounts when cash counted.

Never Before

in our history have we been able to show all the good things—articles that are strictly the very latest things in styles—that we will show you this season and to our mind the most satisfactory thing is the fact that we bought so that our PRICES will be the LOWEST that can be offered by any one.

FULL line of novelties, belts, collars, hand bags and like articles are on exhibit. They must be seen to be appreciated. This line composes the best stock of high grade goods in their class that has ever been shown here.

OUR nice line of net goods—tuck nets, dotted nets and plain nets with edgings and bands to match are just the correct thing and the ladies will appreciate them when they see them. They are here now.

Special Line of Pieces FOR FANCY WORK

The ladies will take special delight in our store on account of the large assortment which we are offering.

WORK DRAWING TO A CLOSE

Brickmasons Will Soon Have All Brickwork on County Court House Entirely Finished.

The people of this county can now form some definite idea of the new court house for this county as regards the outside appearances. Nearly all the brick work is completed and with four or five more days of favorable weather all of it will be done as the tower is all that remains to be finished and that is more than half finished. A smaller crew of men have been working on this tower this week on account of the lack of space in which to work and the great height of the work has also tended to make this part of the job somewhat slower.

After this tower is completed the inside work will be rushed with all the force that can be secured. Electricians are now wiring the building and, by the way, they seem to be doing a good job if we are any judge. Most of the work is what is called conduit work, which is to say that the electric light wires are strung through piping, thereby making the building more fire proof than before.

The roofing crew is also at work and the asbestos slating on the mansard part of the roofing is rapidly being placed in position. It is thought that the entire roof will be completed within two weeks after the tower shall have been completed.

The News reporter the other day took a swallow at his heart and made a trip to the highest part of the work on the building and from that dizzy height took a good view of the country and, by the way, you can see many new houses going up around Canyon City if you care to look. When completed there will be a stairway to the top of the building. The contractors are particularly anxious to finish the work as soon as possible in order to get to work on the new Hall-Abbott building and the new building for the First National Bank as well as the new court house for Hemphill county at Canadian, for which building they have secured the contract.

A Report From Nina.

This is our first report from our place and we wonder just what will be the result. Nina is located eleven miles south of Canyon and six miles north of Happy, one of the thrifftiest little towns in the whole state.

P. A. Wiggins of Tullia came up to Nina last Sunday and on Monday morning in company with his brother, Sam F. Wiggins made a quick trip to Canyon on business returning to Tullia in the afternoon.

As us nesters are all idle just at present we dismissed school last week and built an addition to our school house. We have a nice place now for a literary society. Why can't we organize something of the kind? We might meet every Saturday night.

Will Roles and E. Stith are in New Mexico this week.

A number of our Nina business men are attending district court at Canyon this week.

We are getting rather dry and the breaking of land is somewhat hindered on account of it. A good rain or snow would be greatly appreciated. We could stand some more dry weather, however, and not cry about it. Stick and stay, that's the way to play.

GUESS WHO.

Just received Thursday afternoon, the latest in shirt waists, both lingerie and net, also a few advance styles of lingerie dresses.

W. G. Ingham of Oklahoma City, arrived here last Saturday and spent several days with his brother, Dr. S. L. Ingham, this week.

NEW TELEPHONE IMPROVEMENTS.

Reconstruction of a Portion of the Local System is to Begin at a Very Early Date.

For some time this city has been promised decided improvements in the matter of the local telephone service and this promise is about to be redeemed. Yesterday morning a car of telephone poles was received here and to the News reporter Manager Stephenson stated that he expected to put his gang at work at once in reconstructing a large portion of the city system. All the small poles will be taken down and replaced with the larger ones, the lines tightened and numerous other improvements are to be made.

By the way, the News reporter was in the exchange the other day and found that nearly every telephone that could be put in under the present system was taken and it is very likely that new switchboards will have to be put in at once in order to meet the demands of the growing population.

ANOTHER NEW BRICK BUILDING.

One Story Brick Structure in Course of Construction in East Side Block—Increasing Capacity.

As an indication of the increasing business of this city work was begun yesterday on the foundation of another new brick building which is to be erected on East Houston street adjoining the grocery department of the Canyon Supply Co. The building is to be one story and is to have a frontage on Houston street of thirty feet and extend back for a distance of sixty feet. Messrs. Moreland, Black and O'Keefe are the owners of the new building and it is to be occupied by the grocery department of the Supply Company. Interior improvements are also to be made in the inside of the present building. The floor in the storage room back of the grocery department is to be lowered to the level of the other floors and the partition is to be removed so that the grocery department will have a very large room for the transaction of the business.

Nash Hicks, son of Mr. and Mrs. I. N. Hicks of this city, who has been at Plainview for the past six months, has returned to Canyon City and will be with the local yard of the Fulton Lumber Company.

Mrs. Ella Kunkle, who has been in this city for several weeks on a visit with her sister, Mrs. David Thomas, left last Monday for Mexico, where she will visit another sister. Mrs. Thomas accompanied Mrs. Kunkle as far as Amarillo.

Cleaning, pressing and repairing neatly and quickly done by people who know how. Canyon Tailoring Company, are the people, in Dunbar building, south side of square next door to News office.

R. E. Foster has returned from Mineral Wells, where he went last week to accompany his father and mother, Mr. and Mrs. T. A. Foster, who went there to try the waters for the benefit of their health.

Mose Wesley came up from his home near Ceta this week and is kinder helping Dick Sanford in his work as sheriff. Some of his friends say that Mose won't carry a pistol because he is afraid of them.

Louis Maloney, manager of the dry goods department of the Canyon Supply Co., left yesterday for the northern and eastern dry goods markets to be gone about two or three weeks.

Luella, the little daughter of Mr. and Mrs. J. A. Tate is reported as being sick at the family residence.

Canyon City was visited by a refreshing shower last night which laid the dust, well upon the streets.

**OUR
New Quarters**

in the middle one of the three new brick buildings on the east side are much more commodious and give us a better opportunity for serving the people with

Office Building, North Side of Square, Canyon City, Texas

Wayside Items.

Because of this community lying outside of Randall county and of its distance from Canyon City it might be well to locate the place for the benefit of the readers of the News. The neighborhood comprises the southwest corner of Armstrong county being cut off from the main portion by the Palo Duro canyon which is here nine miles wide. It is touched on the south by Briscoe and Swisher counties and on the west by Randall, being twenty-eight miles from Canyon City, at which place the people do the greater part of their trading.

The new church here is again receiving attention and the painting and outside work is about completed. It is an ornament to the community and is certainly needed, the old school house being unsightly, uncomfortable and unsuitable either for school or church services.

It is hoped that our able and slowly becoming enterprising citizens will contemplate building a school house next.

According to reports, about four sections of land have been sold near here and a number of new people will occupy it soon.

Prospectors have been taking note of the fine lands of this vicinity and its splendid location for some time past.

Messrs. W. D. and Marvin McGehee each carried a large load of hogs to market Saturday.

Mrs. Mayo and her two daughters have returned from a visit in Amarillo.

Ewing McGehee and B. H. Kirk spent Saturday on the canyon hunting for quail. It seems that the birds had quit the field

a day or two before the close of the season.

Mr. and Mrs. Marvin McGehee went to Tulia Monday.

LOAFER.

A Common Cold.

We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria, scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by the City Pharmacy.

We believe in giving value received, and we believe we have done so only when we give a man the full worth of his dollar in satisfaction and service. We believe working, not waiting; in laughing, not weeping, and it is a pleasure in selling our goods.

CANYON LUMBER CO.

Oles, the American violinist, Feb. 11.

Cats Rustlings.

Mr. Breithaupt was a visitor at Happy Saturday.

W. B. Walters, as a jurymen, is spending the week at Canyon City.

Mr. and Mrs. Ed Wesley were guests of W. B. Walters and family Sunday.

P. C. Buckner and wife were business callers at Tulia Thursday.

Ed Wesley, J. A. Currie, Mrs. Wilson and Bolla Mayo are all attending court at Canyon.

Mrs. H. E. Wesley spent Sunday with Mrs. J. James.

Mr. Painton and family came in Sunday and will make this their future home. Having lived here a few years ago his old neighbors extend a royal welcome to them.

E. M. Beasley and wife entertained Mr. Sluder and family Sunday.

Miss Leah Lawson spent Monday evening with Miss Alta Beasley.

Ed Diffendaffer is visiting his children and other friends at Covington, Ind.

Wm. Lemons was a Canyon City visitor Sunday.

With a large force of hands the new house on the Woodward place is nearing completion.

Just Lacs.

"Say, maw!"

"Well, what?"

"How do they get the holes in lace?"

"Why, they make the lace round the holes, my son."

"But it aint lace, tho it's got holes, is it, maw?"

"No, Edwin."

"Well, how to they get the hole in the lace that they put round the hole to make the lace, then?"

"Child you will yet drive me to distraction."

"Where do they get the holes, maw?"

"Why, the holes are just air."

"Oh, they're air holes."

"I suppose so."

"Well, there's air holes in paw's hat. Does that make it a lace hat?"

"No. No. No."

"A Swisschees has holes in it. Does that make it a Swiss lace?"

"Hold your fool tongue! Do you hear?"

"Didn't you say all lace had holes, maw?"

"Yes."

"Well, I've got shoe laces, but they ain't got holes in 'em."

"Leave the room and permit me to finish 'Lady Lingerie's Lost Lover, or How Lord Lumbago Was Lured Away by a Lissome Little Lallapalaza of a Lace-maker'."

"Maw, can you make lace?"

"No, Edwin; that is not one of my accomplishments."

"I didn't think you could maw. Mrs. Knockenberger said you was so fat lacing wouldn't do you any good."

"But 'maw' wasn't too fat to give Edwin a lacing that did him some good.—Chicago Journal.

The Presbyterian ladies are fortunate in having secured Prof. Geo. W. Oles, the American violinist, for Thursday, Feb. 11, in the opera house. While ill health put a stop to his career in the east eleven years ago, he had already attained a rank with the leading violinists of the world. Musin, Kubelik, Rumanyi and Ole Bull. Of late "he" has again taken up his concert work and has been welcomed by ever increasing crowds in Colorado towns. This year he ventures a tour through the higher altitudes outside. It is your opportunity to hear the very best on the greatest instrument invented. He plays things amusing and popular as well as classical music.

Notice of Dissolution.

The partnership heretofore existing between J. H. Garrison, C. N. Harrison and C. R. McAfee, composing the firm of Garrison-Harrison & Company, doing a Real Estate business with principal offices at Canyon, Texas and Belleville, Illinois, has this day been dissolved, the said C. N. Harrison retiring from said firm.

C. R. McAfee takes over the interest of said C. N. Harrison and all obligations to or by said firm will be liquidated by J. H. Garrison and C. R. McAfee.

Dated at Canyon, Texas, January 23rd 1908.

C. N. HARRISON,
C. R. MCAFEE.

Wanted—An experienced man to get timber out of the canyon east of the city.
