SWEET CLOVER AS HAY AND FORAGE

IORE INFORMATION CONCERNING THIS NEW PLAINS CROP.

W. McMillen, of Amarillo, Gives h Views on this Crop and its Advantages.

The following article was written by G. W. McMillen, of Amarillo, the pioneer sweet clover raiser of the Plains:

It closely resembles alfalfa and has the same origin, but alfalfa requires a lot of moisture while sweet clover will produce an excellent crop of hay and seed on a much less rainfall than the average precipitation on the plains. The time has come when more revenue is needed and demanded on these broad plains, and as it is a stock farming country, we must have a forage plant that will reduce the number of acres required to keep a steer and, at the same time produce sufficient hay to tide the stock over the chilly winter of the great open plains. There is sufficient sweet clover now growing luxuriantly on the plains to convince any one of its adaptability easily be done by referring to kinds of soil and with but a small McGehee. Sweet clover matures in two years when it produces a prolific crop of seed and dies. The succeeding crops, which never fail to come from the seed after the soil has been inoculated with the initial crop, grow more abundant than the first. The large root decomposes and leaves the ground very porous, thus permitting the moisture to get down to a good depth and the decomposed root supplies a lot of vegetable matter. So sweet clover as a fertilizer is very valuable, supplying nitrogen, humus and decomposed vegetable matter which produces life and plant activity in the soil like yeast produces life and substances to

Total Attendance for the Year is Now 357-Other Items of General

The second term of school began Tuesday and the students have been busy straightening out their courses of study for the winter months the earlier part of the week. Nineteen new students were registered last Tuesday and several more are expected to enter school next week. The total attendance for the year is now 357. Several young people who attended the Normal last year, but who are now teaching in different parts of the state, spent Thanksgiving visiting the students and faculty. A few stayed over Friday and Saturday and visited their old classes.

Miss Rambo made a hurried trip to her old home in Illinois where she attended a teachers convention during Thanksgiving. She made a fine talk on the work done in the Illinois meeting in Chapel Tuesday morning.

The first term reports were given out last Saturday and the majority of the student body are well pleased with the results. Only a few cases of weeping was evidenced on account of the failure in making the required "S."

The basketball boys organized for the coming season Tuesday and will probably start the schedule Dec. 20th with a game with Wayland College, of Plainview, at the Normal gymnasium. Efforts are being made to secure games with all the schools in the Panhandle.

The girls basketball team will play the Clarendon College girls Saturday night at the gymnasium at 7:15. They will also play Amarillo high school at Amarillo the following Saturday. This will make the third game with the high school this season.

Mr. Editor, I thought I would give an account of myself on the 28th inst. I had been informed that the Rebekahs were going to give a Thanksgiving dinner at the Hall. After I got there the Rebekahs began to come in, every one with baskets full of good things to eat. There were about fifty present, there were two tables set and they were loaded down with turkey and everything that could be thought of that was good to eat, and every one present was made to feel welcome and all seemed to enjoy the occasion and the good dinner.

These goods were purchased last spring to be delivered in November and we have just received two cars of new crop canned goods that we are going to offer you for the next four days for at least ten per cent less money than we can buy them for today. Better lay in a supply while you can get them at prices quoted below and for less money than we can sell them for in the next twelve months. We have three reasons for putting on this sale; first, we want to show our appreciation for the nice business you have given us this year; second, we want want to cut our stock down by invoicing time and third, we are striving to make this month's sales the heaviest in the history of the company. Get your orders in early for we will be rushed from daylight till dark. We only have space to quote you few prices. Our phone number is 25, ask us for prices.

HOME ENDORSEMENT.

Hundreds of Canyon Citizens Can Tell You All About It.

Home endorsement, the public expression of Canyon people, should be evidence beyond dis pute for every Canyon reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

J. D. Bailey, carpenter, Canyon, Texas, says: "I used only one box of Doan's Kidney Pills but they did me so much good that I did not think I needed any more. I had pains across my back and sides. Seeing Doan's Kidney Pills so highly recommended by people I knew, I got a box and used them as directed with the result told above. I cau highly recommend Doan's Kidney Pills, for they do just as advertised."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole Agents for the United States.

Monday evening the Philathea and Baraca classes of the Baptist church held their regular monthly meeting at the home of Mr. and Mrs. B. T. Johnson, their teachers. Although the night was a little disagreeable the event was well attended.

All remained in one room for the devotional services which were conducted by R. N. Hicks. Then each class had its business meeting separately. The Baracas elected the following officers: Mr. Lester, pres.; Mr. Pretty, vice-pres.; William Gatewood, sec. and Marshal Nichols, treas. After some good talks and several suggestions, a committee was appointed to confer with the superintendent about putting curtians across the church to divide it into class rooms. If this could be done it would add greatly to the convenience and efficiency of the school.

When the business part was over hot chocolate was served to all by the Philathea girls. All enjoyed themselves and fine spirit was shown throughout.
