CASTRO FARMERS SAVE YOUR TIRES: TRADE IN DIMMITT

VOLUME NO. XVI

DIMMITT, CASTRO COUNTY, TEXAS, THURSDAY, JUNE 18, 1942.

NUMBER 9

Hail Sweeps 100 Sections Grain

SHOOTIN' STRAIGHT

By DE WITT LAMB

Pen up your roosters.

What will they think up next?

The population of Texas increased 94.5 per cent between 1870 and 1880.

Fire is man's greatest friend. It also can be his bitterest enemy. Which reminds us that only about every two or three years does the town of Dimmitt have a fire.

We know how to stretch rubber. Miss Grindstaff is teaching us how to "stretch" sugar, and now for someone to show us how we can stretch that weekly pay check.

Next time you buy sugar the grocer can take your two stamps, numbers 5 and 6, and give you two pounds, but the sugar must do for 30 days, instead of one pound doing you for 15 days.

Every man, woman, and child in the United States stands to lose everything if this nation is not victorious in the war, Col. E. O. Thompson says. Each person stands to lose the same amount—everything.

Killed, 9,600; injured, 900,000; cost, \$300 million dollars. That was July, 1941. Last July 4, we were celebrating our independence. Last July we were killing 13 persons every hour—with automobiles. Next July 4, we will be fighting for our independence—and saving our rubber.

Dimmittites don't go in much for flag waving and patriotism with fireworks the only music. Army Day came, and the streets of Dimmitt flaunted one flag. Flag Day came last Sunday, and there were two flags up. Dad's Day next Sunday, and we'll wager there won't be any; but watch out for July Fourth—we're looking for two new ones, one at the post office and one at the court house, which will make four.

Boone McClure field representative of West Texas State College, Canyon, is compiling a list of former students of the institution who now are in the nation's armed forces, and has reported that, although far from being complete, the list includes the names of 320 persons. Incidentally, the list will be displayed in the Panhandle-Plains Museum, along with a large American flag.

Men out here in this rugged country know how "to take it." When they lose, like 200 of them did last Sunday in a devastating hail storm, they lose with "poker" faces, uncomplaining, jokingly, always ready with a smile and a cheerio—just as if nothing at all out of the ordinary had occurred. Who could help but love such men? Monday morning, when the news about the disaster came trickling in to Dimmitt, nobody wrung their hands and cried, "Woe is me!" Nobody thought of such a thing. The few weaklings like that who migrated to this wind-swept, weather-beaten prairie country either starved to death or trooped back east years ago. We can say this better than anybody else in Castro County, because we came out of the swamps. We like it here. We don't want to go back. And we betcha we don't starve. The county has a lot of almost virgin land and tangible wealth, and we want to see it raise a lot more crops, the most tangible and valuable being the generation of men and women who are shrewd enough to see, and rugged enough to stay and hope for the comforts and enjoyments that are sure to be the ever-mounting reward of the man with patience and guts to stick with something—something precious like a home, wife, babies, and the happy, clean living conditions surrounding the pretty and mildly cheerful little town of Dimmitt.

Candidate

Beauford H. Jester

Beauford H. Jester of Corsicana, attorney, World War vet., is running for state railroad commissioner, to succeed Jerry Sadler, resigned.

DIMMITT'S GARDEN CLUB FETES FORTY

About 40 guests enjoyed the Friendship Party given by the Dimmitt Garden Club, June 10. Setting for the party was the beautiful back yard of Mrs. Henry Staleup.

The program was a sketch of life with Mary (Mrs. Mark Cowser) and John (Mrs. Atticus Webb) reviewing the events of their married life, with appropriate songs for the different stages, provided by a chorus concealed behind a screen. Those composing the chorus were Mrs. Ozro Stephens, Mrs. Glenn Hickman, Mrs. Raymond Wilson, Mrs. Dilmond Neumayer, and Misses Juanita Singer and Catherine Easter. The program was planned by Mrs. Frank Easter, Mrs. Raymond Wilson, and Mrs. Ray Cowser.

At the close of the sketch, golden punch and cookies were served to the guests, with Mrs. E. B. Wright, president of the club, presiding over the bowl.

The Entertainment Committee consisted of Mrs. Alta Gladman, Mrs. W. A. Womack, and Mrs. Homer Newton.

As a climax to the evening's activity, Mrs. Ray Sheffy offered a very lovely toast to the Garden Club.

A letter from their son, John Hardy Wood, to Mr. and Mrs. Clem Gilliam, from Camp Cooke, California, reports that Rev. Frank Grafton, a former Dimmitt pastor, is a Chaplain there. The Rev. Grafton was stationed here in 1933-1934.

Devastating Storm Lays Waste Part of Best Wheat

The devastating sweep of a late afternoon hailstorm laid waste to 24,000 acres of Castro County's best wheat and barley last Sunday.

Two hundred farms west and north and south of Dimmitt took the worst beating since the first wheat was sprouted in the Panhandle Plains country forty-odd years ago.

In the aggregate, the value of crops destroyed easily totals a half a million dollars. The storm rolled down from the northwest just before dusk, behind a curtain of sand and dust kicked up by a howling wind. Within 15 minutes after it struck the hail had done its mean work and passed

on southeastward in the general direction of Flag and Sunnyside communities, then on toward Lamb County. The cloud covered a 15-mile-wide scope of this county, extending westward, reports say, all the way to New Mexico.

Less than one farmer out of four had bought hail insurance this year. Individuals lost from \$1,000 to \$50,000 apiece. Many fields showed a total loss of all crops, and the land will be plowed. The grain was ripening rapidly, and combines were in tune to begin cutting several fields this week. The grasshopper plague had not threatened seriously in the western part of the county, seasons had been almost perfect, and the wheat was the best in the Panhandle, certainly the best in

Castro County. Many fields had been conservatively estimated at 50 bushels an acre yield.

A number of Dimmitt citizens lost heavily. Ulys Davis and his father, farming together, are said to have suffered a loss of from \$35,000 to \$50,000, with no insurance protection. Ward Golden, mayor of Dimmitt, lost about 1,400 acres of fine wheat, partly covered. T. A. Singer and Pete Whitlow, publishers of The News, lost 75 per cent of 100 acres four miles west of Dimmitt, partly insured. Night Watchman Moore lost a section; no insurance. B. J. Brannan, dairyman, lost 150 acres; no protection. Ray Sheffy and his brother, Sid, county commissioner, both lost heavily. Many others were losers.

FLY TRAP RIDS COWS OF PESTS

The old story about the mouse-trap and the well-beaten path is revived in Castro County this week, but it's a fly trap this time.

Colin Walton stock farmer southeast of Dimmitt, is showing his friends a new way to lessen the torment to livestock caused by flies.

Walton has followed government specifications and blueprints, at a cost of about \$30 for materials, and has a fly trap in operation that he claims really works.

The trap is in the form of a covered shed, or schute, through which his cattle must pass, one at a time, when they visit the watering trough. Inside the well-screened shed, or schute, are loosely swung folds of material which fan and brush the back, sides, belly, and legs of the animal as it walks through. These flaps and screens are so arranged that a cow can pass through, and she quickly learns to do so, emerging at the exit end minus all the flies she carried when first she entered. The flies are brushed off and "shooed" against the screen or ceiling, to later be destroyed.

The trap is said to be in practical operation at some of the big dairies, but the one built by Colin Walton is the only one we have learned of being in operation in Castro County among the beef cattle owners.

Postmaster Tom Bice was yet in Fort Sill, Oklahoma, this week, in awaiting orders for definite assignment. Bice left two weeks ago to re-enter the Army, having made application to the Quartermaster Corps.

Campaigns Against Liquor and Racing

Hal H. Collins

Hal H. Collins of Mineral Wells has opened his campaign for the office of Governor of Texas on a platform which opposes the return of race track gambling and favors more stringent control of the sale of whiskey and beer in the state. Hal H. Collins, a Mineral Wells hotel man, is touring the state in company of Senator W. Lee O'Daniel, to save rubber and gasoline.

MISS MERRITT ENTERS RACE FOR JUDGE

Miss Hazel Merritt, native Castro County woman, 32 years old, farm bred, educated, well known, experienced in public life, entered the race for county judge today.

Miss Merritt's announcement is published in the regular column. She filed with the clerk and paid the legal fee as a Democrat before the deadline last Saturday.

By law, the office of county judge in this county also carries with it the duties of county school superintendent.

Miss Hazel holds a Bachelor of Science Degree she earned at West Texas State College, Canyon, where she majored in Geography, History, and Sociology. She also had two years in Government.

The woman candidate said she expects to make an active campaign in each of the county's 13 voting precincts. Judge Posey L. Cunningham is the other candidate, and the two will be able to finish it off in the first primary, July 25.

NORTH EDGE H. D. CLUB HAS INTERESTING MEET WITH MRS. C. A. HANCE

The North Edge Home Demonstration Club met June 4, in the home of Mrs. C. A. Hance, with 10 members present.

Roll call was answered by "A Way to Serve Canned Fruit. Miss Grindstaff gave a very interesting demonstration on canning sliced pineapple, also crushed pineapple, and pineapple juice, using white Karo syrup and sugar.

Refreshments were enjoyed by all present.

Mrs. Curtis Tate, Patsy and Jimmie, returned home Tuesday, after a two weeks' visit in Oklahoma.

HARVEST TIME STARTS BIG WHEAT CROP TO ROLLING

MAY BE GOVERNOR —SOME DAY

Boyce House, Fort Worth newspaper man, has entered into the race for Lieutenant Governor. "I am not running against anyone; I am running for the office," House said.

Rubber Salvage Nets Five Tons

The first three days of the rubber salvage campaign in Castro County netted approximately 10 pounds of the waste material.

Boy Scouts collected about one thousand pounds, the Magnolia Service Station bought about two thousand pounds, and Choe Lay's Conoco Station bought the remaining 7,000 pounds brought in up to last night.

Citizens generally are taking President Roosevelt's appeal, and that of Gov. Stevenson, much more seriously than they did the request for salvaging scrap iron.

Seriousness of the war situation, need for tires, threatened rationing of gasoline to lessen the use of rubber, together with two other factors, are said to be responsible.

Scrap rubber is more easily collected and transported. Then, too, filling stations, which would be more directly affected than any other lines of trade, are having an important part in the drive.

Service stations will continue to buy and ship scrap rubber until the intensive part of the drive is over, on July 1. In the meantime, dealers say waste rubber here is plentiful, and the bulk of collections is yet scattered throughout the homes, yards, back lots, and farms of the county.

More than one-half of Texas' population lives in 31 of the 245 Texas counties.

The Panhandle wheat harvest got under way in earnest this week.

There has been no rain here since Sunday. Perfect harvest time weather has prevailed since then. More than 100 loads of wheat were brought to town yesterday. Today the elevators are just as busy. The grain is turning out heavy—better even than many expected. Storage space, while short, has not yet presented a serious problem. There are a large number of empty freight cars spotted in the local railroad yards.

Within another week, weather permitting, activity should be of such scope as will make this harvest look like a real boom. It is estimated now that approximately two million bushels of Castro County wheat will be ready for storage, or shipment, within the next two weeks.

'Hopper Bait Well Scattered

The grim, but bloodless, battle against the invading armies of grasshoppers goes on, relentlessly.

Farmers, working with government agencies, last week scattered more than 60 thousand pounds of poisoned bait, all of which was mixed at the plants, one in Hart and one in Dimmitt.

M. U. May, county farm agent, said plenty of poison mixture is on hand for several days to come, at least. He does not believe the wheat, now rapidly maturing, is seriously threatened by 'hoppers, but even so, the campaign to rid the county of the pests will not be slowed, because of the danger to row crops, and because killing them this year ought to lessen the numbers that are hatched next year.

Agent May had conservatively estimated the Castro County crop of wheat this year would yield two million bushels, but that was last week, before Sunday's hail. Many persons can be found today who say May's estimate was low, and that a two-million bushel crop still is in prospect, barring further disasters, and this in spite of the destruction last Sunday by hail of an estimated 500 thousand bushels in the western part of the county.

Scouts' Paper Must Be Moved

Boy Scouts are looking for some good neighbor with a truck who will pick up about two thousand pounds of scrap paper and haul it to Amarillo. The local warehouse where the boys placed the paper, collected before they went to Camp Post in May, must be given up and made vacant at once.

The mills are loaded with scrap paper, all because the Scouts of America did such a swell job of collecting the waste, but they are under promise to take all that was collected, provided it is sent on its way quickly.

The Scouts will collect paper again, and right on, but householders and everyone, for the time, are requested to not bring the paper in until notice is given of available warehouse space for its temporary storage.

Right now the boys are busy in the rubber salvage campaign.

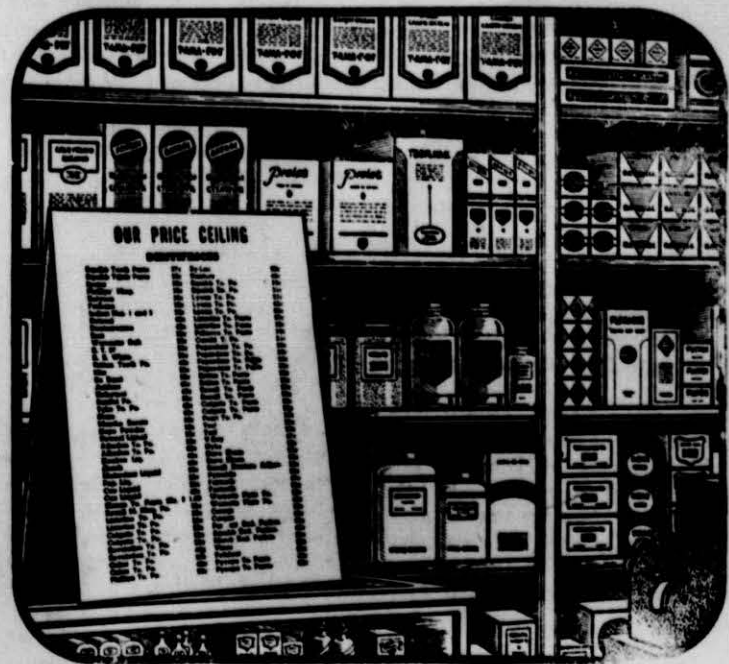

William D. Scoggins of Springerville, Arizona, (near Holbrook) is spending several days in Dimmitt, a guest in the home of his son-in-law and daughter, Mr. and Mrs. Monroe Wilkins. Mr. Scoggins is a native of Bell County, but went to southern Arizona a good many years ago. His 80 years, spent mostly out of doors, rest lightly on him, and he still enjoys the wonderful fishing and hunting of his adopted Arizona.

How to Display Ceiling Prices

Ceiling Price may be shown for a group of identical items on the same shelf—such as canned tomatoes.

How to Display Ceiling Prices

A single poster may show the ceiling prices for a group of related items—such as dentifrices. The list should be located near the place where the merchandise is sold and should be printed in letters large enough to be clearly readable from the point of purchase.

FLAGG

(By Mrs. Sid Sheffy)

Mrs. Lindy Scarborough and Evelyn are visiting the Mundells in Montague County.

Mr. and Mrs. Clarence Irvin are visiting for two weeks with Mr. and Mrs. Bill Mundell in Gainesville, and with Mr. and Mrs. Pittrell in Clarksville.

Mrs. W. L. Loucan is home after being away in east Texas.

Mrs. Sid Sheffy, Mr. and Mrs. Ed Lust and Lloyd, and James Bradford, were business visitors in Plainview Saturday.

Mr. and Mrs. Vernon Simmons and girls of Arney, Mr. and Mrs. Albert Waltham and Bettye, Mr. and Mrs. James Bradford, and Mr. and Mrs. Sid Sheffy and Don and Ruth and Tammye, were Sunday guests of Mr. and Mrs. George Bradford.

Judge and Mrs. P. L. Cunningham were visiting friends in Flagg Sunday.

Mr. and Mrs. Bob Ivey of Elida, and Mr. and Mrs. Floyd Ivey, were Sunday guests of Mr. and Mrs. Gene Ivey.

Arch Johnson and Louis Coke were business visitors in Lubbock and points south last week.

The Flagg Home Demonstration Club will meet with Mrs. Clyde Emerson next Wednesday evening at one. Come.

Mr. and Mrs. Vernon Newton are visiting relatives in Wellington this week.

Mr. and Mrs. Giles Tate of Tulsa, Oklahoma, are visiting Mr. and Mrs. Edna Tate, and other relatives.

Mrs. Helen Slover of Lubbock, and Mrs. John Turner of Sunnyvale, visited Mrs. Claude Johnson Wednesday.

Mr. and Mrs. Noel and son of Plainview and Mrs. Ted Cox of Dimmitt were Sunday visitors in the W. J. Booher home.

Mr. and Mrs. J. W. Hawkins and Wilda, and Mrs. Corlye Birdwell and Norville, visited Mr. and Mrs. Lloyd Hamar at Melrose, New Mexico, Sunday.

Mr. and Mrs. Roland Shepard, and Mrs. C. J. Johnson, were Sunday guests of Mr. and Mrs. Claude Johnson.

Jay Taylor of Amarillo was a business visitor in Flagg. His friends will be interested in knowing he has enlisted in the Army.

Mr. and Mrs. Wade English have returned from Richmond, California, for the harvest.

hosts at a party on Thursday evening honoring Loren Thomas, who left Monday for training. It was a "hobo" affair. Games were played in the yard until a late hour, when refreshments of beans, onion, pickle, and coffee in a can were served to 70 guests.

Toast to "Our Boys"
Here's the grandest fellow in this great big State;
Uncle Sam is calling—he'll be there and won't be late.
We'll be proud of you, you bet,
When the "Rising Sun" is set;
We'll be generous with our "mon,"
and help you whip the Hun.
Uncle Sam has a big job to do,
But we know he can depend on you.
The girls will miss you while you are gone,
But they will be waiting when you come home.
—By Josephine Bradford, to Loren Thomas.

With its six million inhabitants, Texas ranks sixth in population among the 48 states.

AIM TO GET THE BEST OUT OF YOUR COOKING

Follow These Rules:

- Roast meat at low temperature in your Gas oven and reduce shrinkage.
- Remember that the flexible Gas flame can be regulated to any degree of heat you need, eliminating scorching and overcooking of food.
- Use any remaining vegetable liquids in soups, gravies, sauces, or cold in tomato juice.
- Plan one casserole dish a week to use left-overs.
- Cook vegetables by the "waterless" method for which your Gas range is especially suited. The flexible Gas flame will give you the exact degree of heat you need.
- Bring vegetables to boiling point quickly over full Gas flame, then turn flame low and cook gently.
- Keep utensils covered and do not use soda in vegetables.
- Do not pre-heat your Gas oven or broiler too long. Remember, Gas is fast.
- Plan complete oven and broiler meals, to make full use of Gas.
- Avoid using small pans on large or giant top burners.

West Texas Gas Company

Home Demonstration Notes

(By Miss Ava Grindstaff, Castro County Home Demonstration Agent.)

PLANTING THE FIELD GARDEN

PLANTING VEGETABLES FOR HOME CANNING: To provide sufficient vegetables for filling one hundred number two cans in the home canning program, the following varieties and quantities should be planted:

Tomatoes—100 plants, to yield 200 pounds; preferred varieties, for canning, Marglobe, Pritchard, Rutgers.

Green beans—500 row feet, to yield 125 pounds; preferred varieties, Stringless Green Pod, or Refugee.

Shelled green peas—1,400 row feet, to yield 108 pounds; preferred varieties, Blackeye, Purple Hull or Cream.

Corn—1,500 row feet, to yield 175 pounds; preferred varieties, Honey June or Sure Cropper Sugar.

Sweet potatoes—600 slips, to yield four bushels; preferred variety, Porta Rica (to store).

To assure sufficient supplies for canning, locate the garden in the field where there will be ample mid-season moisture, and plant tomatoes, beans, sweet corn, and peas in quantities sufficient to fill the pantry. Other vegetables which also should go into the field garden are winter squash, cantaloupes, watermelons, cucumbers, and pumpkins.

Plant in wide rows and cultivate with field tillage tools. Choose a rich spot to stimulate quick growth and yields, and to obtain the best quality of vegetables.

Length of growing season and availability of fresh vegetables must be taken into consideration in determining the quantity of canned vegetables which will be needed. Fresh vegetables and fruits ordinarily are not available here more than 100 to 150 days,

leaving 215 to 265 days of the year when canned and stored foods must supply the family needs.

A family averaging five persons needs at least 100 No. 2 cans of snap field peas, 65 to 75 No. 2 cans of green beans, 40 to 50 No. 2 cans of English peas, 75 to 100 No. 2 cans of corn, and 250 to 300 No. 2 cans of tomatoes.

It will take at least an acre to grow plenty of these vegetables. Let's take time out from our regular work now and get this job done.

JUMBO

Mr. and Mrs. Ben Fortner visited with Mr. and Mrs. Addison Hunter Sunday.

Miss Margaret Simpson left Saturday for Amarillo, where she entered St. Anthony's School of Nursing.

Saturday, June 20, will be "Sugar Day." All those wanting to obtain sugar for preserving and canning, please register at the school building between 9 a. m. and 7 p. m. Do not forget your War Ration books. You can not get your sugar without them.

Mrs. M. T. Sparkman, Mrs. M. L. Simpson, Mrs. Sam Hunter, Mrs. Ullman Hunter attended the Auxiliary meeting Thursday. Mrs. May Allen and Mrs. Dan Allen are new members.

Ullman Hunter went to near Flagg Monday to help James Cox brand his calves.

The M. I. Simpson's were in Amarillo Saturday.

The Floyd County Grand Jury has indicted one of the county commissioners of that county for cattle theft, according to the Floyd County Hesperian.

Coming Events--

Dad's Day, June 21.

Dimmitt Lions Club meets next Tuesday, at 1, Methodist Church.

First state-wide Democratic primary, July 25.

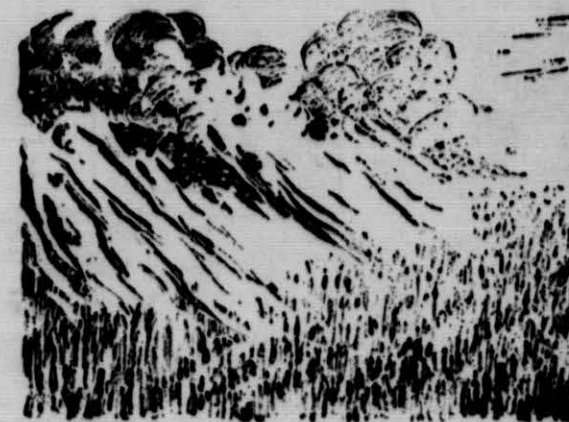

Texas Aviation Week, June 22-27.

Retail establishments to sell War Bonds instead of merchandise, July 1.

Texas of 250 million years ago was inhabited solely by insects, a large percentage of which were mammoth cockroaches, according to geologists.

According to paleontologists, horses one foot high, camels the size of jack rabbits, and rhinoceroses the size of dogs inhabited Texas 50 million years ago.

A Fire Like This

Can happen to any field of Ripe Wheat. We have Insurance Protection that will insure your standing crops; also gives you protection as long as your wheat is anywhere on the farm, during the policy period.
