

NORMAL SUMMER SESSION CLOSES

Program is Given at the Auditorium Last Friday Morning.—Sixteen Are Graduated.

The summer session of the West Texas State Normal College closed last Friday, commencement exercises being held on the morning of that day. Rev. Ernest C. Mobley, pastor of the First Christian church at Amarillo, delivered the closing address to a large crowd assembled in the auditorium.

Rev. Mobley's speech was enthusiastically received. He pointed out the life of Christ as a model for the teacher, dwelling upon the preparation of Christ for his life's work. In order to prepare one's self for useful public service there are four fundamentals; a strong body, strong intellectual powers, favor with God and man and fellowship or society with man.

After the period of preparation comes that of obscurity in which the person passes out from public notice and if he is strong enough mentally, physically and morally, he then passes into the stage of popularity. Then he is prepared for his life's work if he is able to stand the natural opposition given to all popular men in public life.

The program started with a processional hymn. The seniors and certificate students marched in from the rear of the auditorium led by the chorus and the glee club. The chorus class gave a very excellent rendition of Barcarolle and the Glee club sang Excelsior by Balfe—Nevin.

These two clubs were trained under the supervision of Miss Davis of the Normal faculty. The audience sang Alma Mater by Freemont Mead of the 1914 class at the close. Alma Mater is given in another column of this issue.

Following is the program as rendered:

Processional—National Hymn Henry Carey. Chorus, Glee Club, Seniors and Certificate Students.

Invocation Music—Barcarolle Offenbach Chorus Class.

Announcements Music—Excelsior Balfe—Nevin Glee Club

Address—Rev. E. C. Mobley Delivery of Diplomas and Certificates

Music—Alma Mater Fremont Mead.

Benediction. Following is a list of those graduating:

THIRD YEAR

William T. Brumbalow, Leon Junction;
Nell G. Burdett, Childress;
James Guy Harp, Winnsboro
Ruth Emanuel Montier Happy;

Harry Lee Starr, Stephenville;
Fannie Stephens, Cisco;
Nathaniel A. Terrell, Slaton;
Anna Zerwer, Ft. Worth.

FOURTH YEAR

Elmer Burrell Brown, Sunset;
Mary Dale, Canyon;
Lawrence-Francis, Hill Lockney

Ohmer W. Kirk, Floydada;
Alfred Day Payne, Canyon;
Earl Sylvester Sparks, Canyon;

Earle Glenn Goss Standlee, Huckabay;
Sadie A. Winkelman, Canyon.

Mrs. D. R. Black and daughter of Burkett, Indiana, are visiting at the parental E. F. Miller home.

Moving to Canyon.

Canyon is soon to have several new families in its midst. Several people have been in the city the past two weeks renting houses and preparing to move by Sept. 1st. They realize that Canyon has the best educational facilities and the most congenial people as well as its share of the business of any town in the Panhandle. Therefore they have decided to locate here.

Below is given only six or seven of those who will move and where they will locate.

Mr. Doak of Silverton has rented the Myer's house down by the Normal.

Mr. Gazeaway of Silverton rented Mrs. Moreland's place for the winter.

Claude Dowling of Washburn has rented a place and will move soon.

Mrs. Freeze of Silverton has rented the house on West Evelyn street just vacated by John Guthrie.

W. E. Schoot of Silverton rented the Ab Thompson place.

Mr. Stewart who has been living north of town, rented the Prichard place just east of the Methodist church on Houston street.

Mr. Freeze of Silverton rented the Christian parsonage.

The J. W. Caraway family moved Monday from the N. Thompson home to the rooms located over the First National Bank.

Old Students Appear on Program.

In last week's issue of the Floyd County Hesperian is a copy of the program of the Floyd County Teachers' Institute to be held at Lockney September 10th. It is interesting to note that the majority of the speakers and those who make talks are old Canyon Normal students. All these teachers are making good down in Floyd county.

The appearance of these names on the program shows the confidence the Panhandle people hold in the preparation given at the Normal and also that the majority of the students leave the institution to take up the profession of teaching.

City Schools Will Begin.

Just two weeks from next Tuesday morning the little boy and the little girl will hear the old familiar sound of the school bell calling them away to school and ending a three months' vacation. The winter session will begin September 14th and the enrollment is expected to be a great deal increased over last year's attendance on account of the many families who are moving to Canyon to take advantage of the good schools.

The school building will be cleaned and everything in readiness for the pupils at that time.

Brown-Palmer.

On Sunday August 15, Miss Grace Brown and Thomas Palmer were married at a friend's house near Canyon. The bride is the second daughter of Fulton Brown and has attended the Normal the past two years. Mr. Palmer is a prosperous farmer, owning a farm six miles south of Wellington where the young couple will make their home.

Will Study in California.

Prof. J. A. Hill, head of the History department in the Normal, left Saturday morning for California. Mr. Hill has a fellowship in the University of California and will spend the winter studying in that university.

CANYON BALL TEAM TO PLAY AT FAIR

Will Play Three Games at Floydada During Floyd County Fair on Sept. 9th, 10th, 11th.

The Canyon baseball team has three games scheduled at Floydada during the Floyd County Fair on the 9th, 10th and 11th of September. The Floydada fans are preparing to see some real classy baseball and the announcement of these series of games has interested all baseball enthusiasts over the Panhandle, since the Canyon team has such a long string of victories to its credit.

The Floydada team has a record of eighteen games won out of twenty played. The contests promise to be the hardest fought of the season for the locals, but they will probably return home from the invasion the undisputed champions of the Plains with three bloody scalps hanging to their belt.

Manager Fred Luke has arranged a game with Newton, Kans., a fast ball club, for September 4th. This game will be played in Canyon if the Normal corner stone laying is near that date. But if there is no chance to get a large crowd at Canyon so that expenses can be fully met, then the game will be played at Amarillo.

The Newton aggregation does not believe Canyon has a faster club, and they want a chance to retrieve their broken record and atone for the drubbing received at the hands of the locals not long ago.

House Warming Party.

A genuine house warming party was given by H. J. Webber at his home north of town last Saturday night. Mr. Webber has just completed a fine addition to his house and the event was given in dedication thereof. A large number of friends and acquaintances both from town and country gathered to enjoy the entertainment. At the close refreshments consisting of ice cream and cake were served.

Death of B. L. Cook.

News of the sudden death of B. L. Cook reached his many friends at Canyon just recently. Mr. Cook is the father of Mrs. Will Myers and was at his home in Denton at the time of his death which occurred on Saturday a week ago. He came in, ate supper with the family, went to bed as usual and the next morning was found dead in bed by the family. The doctors pronounced the cause as heart trouble.

Mr. Cook had lived in Canyon with his sister about four years prior to his going to Denton nine months ago.

Frank Locke went to Ochiltree Wednesday for a visit.

JUDGE Q. D. CORLEY WILL SPEAK TODAY 3:00 O'CLOCK

Judge Quentin D. Corley of Dallas, the armless judge, will speak at the court house at 3:00 this afternoon. He will lecture on "Difficulties" and will tell something of his life, showing the devices he has made to take the place of arms. He will drive here in his car.

The lecture is free to all. A collection will be taken to pay his expenses. The lecture is well worth your while.

MIAMI IS DEFEATED BY CANYON TEAM

Twelve Innings Played, 2 to 2—Canyon Takes next Two 7 to 5, and 9 to 6.—Best Games Yet.

On Monday morning early, rumor was out that fierce Roberts county warriors entrenched at Fort Miami would invade Canyon to carry off baseball honors. The invasion lasted three days, the scene of the two battles being staged in the local baseball park.

At two o'clock the opposing army appeared on the streets and the call to arms was sounded for the locals, the big show being billed for 4:30. But J. Pluvius also had a little matinee performance to pull off at 3 o'clock in the shape of a nice shower which delayed military actions till over an hour after scheduled time. By this time the grounds were dry and Bill Word perched upon the mound opened fire on the enemy, shooting the pill across in his old style regardless of the cool wind. The rest of the men entrenched in their respective places on the diamond behind Bill put up stuff we can never forget.

The battle began, a battle that was a battle. There was no lull and no skirmishing on either side, but by far the best ball game Canyon has seen in many a day and she has seen many a hotly contested game. It lasted for twelve innings, until the opposing speed kings could not "see the whites of their eyes." Night fell and the score still stood balanced, 2 and 2, and umpire Shirley called it a draw, neither side showing the white flag. The agony ended and peace reigned supreme till 2:30 Tuesday when another battle started with renewed vigor.

MONDAY'S GAME

The game went along nicely for three innings, each army trying to find out the others relative strength. Word hit a hot one to Mophins who fumbled. Ballard ran for Word, who advanced to No. 3 on Shotwell's hit. Prichard then ups and poked a liner to the right garden and Fitz and Shot anteloped in home easily. The other two men next up sawed. Thus Canyon got her two runs.

This is how Miami busted into the run column; In the 6th frame R. Black almost got a free pass around. He hit a fast one down third baseline, got to first on an error, took up second on a bad throw to first, stole third, and ambled in home on a bad throw. In the 7th Cook uncorked a two bagger and Jones also took one from the same bottle labeled "two baggers" and Cook was on the bench before the ball was relayed to second. This was the only bad hole in which Word found himself, but

the invaders gained no more ground.

The opposing pitcher was some twirler and speed warrior, getting 16 strike outs and allowing 7 hits, walking 2. Word allowed 6 hits and got 8 strike outs, Prichard 2. Canyon made 7 errors, Miami 3.

TUESDAY'S GAME

The second matinee proved to be a walk over for Canyon, the final result being 7 to 5. There were no special grand stand stunts pulled off and the game did not seem as snappy as the first. Most of the runs were made on errors and wild throws. The visitors' hits were scattered throughout the game while the locals bunched the safe ones with telling results. In the second frame Reynolds and Black drew passes followed by Wallace's hit all of which netted three runs. Mose tightened and settled down to business, pitching an excellent game on out. H. Prichard struck out 10, Mose 9. Hits, Canyon 7, Miami 5.

The series was to have closed with only two games but the Miami gladiators, after looking over the list of casualties "allow as how" they were still in the ring and his honorable Umps. announced another melee and run fest on the morrow.

WEDNESDAY'S GAME.

Sad but fatal was the final spasm. At 3:30 the gong sounded and the fight was on with a vim, resulting 9 to 6 in favor of Canyon. A volley of solar plexus hits set the enemy on the run, not around the bases, but from the tally to the error column. Two telling volleys in the shape of home runs by Mophins and Henry, did slight damage to the local's fortifications.

Errors as well as timely hits is how the game was won. Wick held the error record. Canyon got 9 hits, Miami 8, Struck out by Reynolds 0, Word 1; Cook 3, Mose 2.

It is interesting to note that Canyon played strictly a home team, all of whom have lived in Canyon for more than ten years, while Miami brought two home men and imported new material for each game.

City Buys New Mower.

Last week the city bought a new mower with which to cut the weeds on the streets and vacant lots. The streets are looking a great deal better and if some of the owners of lots would get an introduction to a hoe and be shown the intricate mechanism of one of these valuable implements probably they would not be ashamed to say, "Look at our town", when the visitors came for the corner stone laying.

Mulkey-Smith.

License was issued on August 21 for the marriage of Chas. Smith and Miss Julia E. Mulkey. The young couple were married down near Happy which place is the bride's home. Mr. Smith is originally from Floydada. This marriage is the culmination of a winter spent together in the Normal.

Prize Awarded.

The committee from the City Federation awarded to H. W. Morelock the prize offered for the best arranged garden.

The other prizes will be awarded about Sept. 1st.

Miss Maude Brandon returned recently from a visit to the World's Fair in California. Miss Brandon says that the fair is worth the money, but that her trip back was not so enjoyable on account of the rough roads.

OLDHAM CO. TEACHERS TO ATTEND INSTITUTE

Judge Coss thinks Teachers of Castro County Will also attend at Canyon on Sept. 6.

Judge C. E. Coss, ex officio county superintendent, is in receipt of a letter from the county judge of Oldham county stating that the teachers of that county will attend the county teachers' institute held at Canyon on September 6th. It is also probable that the teachers of Castro county will be required to attend this meeting also. An excellent program has been arranged continuing for the specified five days and arranged so that every teacher will have a chance to express his thoughts on the given subject.

On Monday and Thursday nights of that week, prominent educators will make addresses to the teachers, to which the people of the town and surrounding country are cordially invited to attend. The subjects of these two addresses will be left entirely to the speaker's selection and of course they will be along the lines that will do the educational interests most good. Judge Coss and those most interested in the institute are expecting a large and enthusiastic attendance.

The meetings will be held in the auditorium of the public school building throughout the program, where the equipments of the school may be readily at hand for the use in illustrated talks.

The following are the teachers who will attend from Oldham county:

Messrs. Judson McCracken, Ben Short, Misses Grace McIntyre, Ona Morgan, Dorchie Morgan, Nettie Deu Pree, Bess M. Sisk, Anna Jacobson and Mr. and Mrs. F. A. R. Morgan.

Carroll-Denstitt.

Last Sunday evening at 7 o'clock Mrs. Corrollie Collie and Mr. H. J. Denstitt were joined in matrimony at the home of Mr. Denstitt on East Evelyn street. The bride originally lived at Gainsville and the groom has made his home in Canyon for the past two years, building up a successful tailor business. They will continue to reside at their snug little home on Evelyn street. We wish "Shorty", his bride and two children the greatest of happiness.

Tax Rolls Almost Completed.

The county tax rolls will be completed this week and everything brought up to date in ship-shape style. Assessor J. C. Black has made special efforts to get these rolls in as neat a form as possible. They are made out fully on the typewriter which stunt no other assessor has attempted to do heretofore. The inventories have been filed in regular order so that anyone can understand the system immediately and find what he wants.

Presbyterian Services.

Sunday, August 29
Sabbath school, 9:45. 11:00 service: Subject—"Show thyself a workman approved."
8:15 service: Subject—"The Man Jesus." Prayermeeting, Wednesday evening, 8:15.

All who are not regular worshippers elsewhere are cordially invited to the services.
David H. Templeton, Pastor.

Victor-Victrolas

The Ideal Instrument for the American Home.

There is a Victrola to suit everyone, from \$15.00 to \$200.00 and you can pay for it in easy monthly payments that you will never miss. Write for complete descriptive catalogue, showing style and finish of different instruments.

NOTED FOR SMALL THINGS

Great Men Not Always Held in Memory on Account of Deeds of Consequence.

It is said that the duke of Wellington once "chaffed" Lord Brougham as a man who at one time bade fair to go down to future ages as a famous advocate of law reform and popular education, but who, after all, would owe his renown in the name of the vehicle which had received his name.

Brougham retorted by saying to the duke that his name, which promised to descend to after-times as the hero of a hundred battles and the liberator of Europe, was to survive as the appellation of a certain kind of boots. The story is a good one, whether true or mythical, and suggests to us some of the strange ways in which men become famous.

One person acquires celebrity by his giant intellect, as Webster or Calhoun; another, by his dwarf stature, as Count Borowski, or Tom Thumb.

There are great men who are known to fame hardly less by their physical or moral eccentricities than by their intellectual might. Such was the case with Lord Brougham, who was long associated in men's minds with the queer twist of his nose, on which Punch hung so many conceits; and Lord Peterborough, who, walking from the market with a fowl under one arm and a cabbage under the other, quite threw into the shade Lord Peterborough, the hero of Almanza.

The same was the case with the great duke of Marlborough, whose haggings with the Bath chairmen and acts of petty avarice were talked of long after the conqueror at Blenheim and Malplaquet was forgotten.

REPRODUCTION IS MADE EASY

Perfect Copies of Masterpieces of Sculpture Secured With the Aid of the Camera.

A new optical method for making reproductions of sculptures consists in photographing the object from two or more points of view and then, with the cameras and lines of sight in exactly the same relative positions, projecting the images to an intersection on the modeling clay or block of marble from which the reproduction is to be made. While somewhat crude in its present state, this process, says Popular Mechanics, is one that apparently has great possibilities for future development. In making the reproduction the worker simply cuts away the material at any point until the corresponding points as projected from the different cameras coincide on the surface. As most sculptural objects do not have points that are sufficiently prominent for their coincidence to be determined with precision, it is proposed to use an additional apparatus for projecting a series of fine lines and letters on the object while it is being photographed. These lines and letters, of course, appear on the negative made by each of the cameras and are projected with the image. In this way the worker obtains a set of artificial points that are sharp and definite, and the coincidence of these is easily determined.

Afraid of Death.

"The pomp of death," said the wise Bacon, "frightens us more than death itself." The king of terrors has no terrors that we have not lent him. And yet who would disagree with the sentiment of the unhappy Oscar Wilde? "Death is the only thing that ever terrifies me. I hate it. One can survive everything nowadays except death."

But Wilde did not hate death when it finally came to release his harassed and broken spirit. Reason and common sense bid us neither to hate nor to fear death, but simply to ignore it until the hour comes, and then to accept it just as we accept life. A Roman stoic philosopher was discoursing one day on life and death.

"They are just the same," he said; "there is no difference between them." "Why don't you die, then, if there is no difference?" one of his disciples asked.

"Because there is no difference," returned the philosopher.—Boston Globe.

Feats of Cider Drinking.

Will cider—which was drunk in England even in the days of the Romans—increase in popularity as a result of escaping the new taxation? A century or so ago enormous quantities were consumed, more particularly in the cider districts, where the drink is still popular. In his Cambridge reminiscences Henry Gunning says that in 1788 when he was a tutor in Herefordshire he witnessed some extraordinary feats in cider drinking. Farm laborers were allowed to drink as much as they liked, and it was not unusual "for a man to put his lips to a wooden bottle containing four quarts and not remove them until he had emptied it."—Exchange.

Making a Concrete Buoy.

Re-enforced concrete during the last few years has been invading many fields which hitherto have been considered as belonging exclusively to iron and steel. One of the interesting illustrations of this fact is the construction of a concrete buoy at Kingston, Jamaica.

It is stated that the cost is only about 50 per cent of the cost of a similar buoy made of steel.

To prevent the mooring chain from injuring the bottom of the buoy the latter is made concave. The manhole cover was grouted into its place after the buoy was afloat. Leakage is handled by means of a pump-hole.

Thank You.

Hudson, Illinois, Aug. 16, 1915.

Mr. C. W. Warwick, Canyon, Texas.

Dear Editor:—

I wish to say a word of appreciation for the News which we have received during our summer's vacation in the North. It has kept us in touch with the events at home and has kept us acquainted with weather and crop conditions there in a very satisfactory way.

It may interest you to know that Randall County, Texas is quite on a par with McLean County, Ill., in the matter of crop yields and rainfall this year, and McLean County is the banner farming county of Illinois.

Mrs. Blough and I expect to leave for Texas on the 19th. We shall go via Ft. Worth where we will visit for a few days, arriving in Canyon about Sept. 2.

Yours sincerely,
A. W. Blough.

Do Not Pull the Blue Grass.

There has been several complaints recently against those who have been taking advantage of spending a few moments of rest out on the court house lawn on the blue grass. It has taken quite a great deal of work to grow, cultivate and take care of this grass and Judge Coss is to be complimented upon his successful attempts at beautifying the lawn.

It is not the lounging and playing on the grass which hurts it so much as pulling and cutting the grass loose and letting it lie in piles over the lawn. This pulling of the grass must be stopped or the officials will be compelled to deprive the citizens of a much needed lounging place and fine those who disregard the sign "Keep off the grass", which seems necessary to place upon the lawn.

Some unthinking persons have also been mutilating the trees by cutting the bark and pulling off the leaves and branches. There are not many beautiful trees on the Plains, but these are some of the beautiful ones, well taken care of and easily killed.

The officials will caution the patrons of the town this week and if these habits are not stopped, then they will be asked to stay off the grass.

Money to loan on Improved Farm Land. J. S. Ulm, Clarendon, Texas.

Writes a Popular Normal Song.

One of the songs, "Alma Mater" which was sung at the commencement exercises last Friday and which appears on the program elsewhere in this issue, was written by Fremont Mead. Mr. Mead graduated from the Normal with the class of 1914 and was made principal of the training school this summer. This song has proven very popular with the students and has been sung a great deal by them. Following is a copy of the words of Alma Mater:

We are young in life's great battle,
Young in word and deed;
May we'er in each dear classmate,
Find a friend we need.

CHORUS

Texas, West State Normal College,
Let our voices rise,
Call to mind our happy school days
'Neath Panhandle's skies.
May the best days that we've seen here
Be our worst to come,—
May the ties of friendship bind us
Round each faithful chum.

White and Red are but the symbols
Of the future's morn,—
May our lives sustain the standard
Of the colors worn!

RELIGIOUS CENSUS FOR CANYON

Thirty-Six Canvassers to Take the Census—Town is Divided into District for Convenience.

At a meeting of representatives of Canyon churches, at the Baptist church last Sunday afternoon, plans were formulated for the taking of a religious census of the community. The meeting was composed of the pastors of the local churches, Revs. Mayne, Fronabarger and Templeton, and the representatives of the Sunday Schools, Supts. Foster, Lester, Reed and Van Sant and Mr. Moreland, acting for the Christian church in the absence of a pastor.

The town has been divided into a number of districts, to each of which will be assigned a committee of workers. Thirty-six canvassers will take part, and will be furnished by the various churches according to plans already agreed upon. The time of the census taking has not yet been definitely fixed, but will probably be set for some day early next week. The canvass has been arranged so as to be completed in a few hours. The information asked for will be such as to afford accurate knowledge of religious conditions in Canyon so far as figures can represent them and to aid the churches in carrying on their general work.

The executive committee and canvassers will meet at the Presbyterian church next Sunday afternoon at three o'clock to complete plans and arrangements.

The cooperation of all the people of the town is solicited, so that the effort may be fully successful.

Money to loan on Improved Farm Land. J. S. Ulm, Clarendon, Texas.

Students Are Gone.

Business was picking up around the depot last Friday and Saturday. The students were leaving for their homes after spending the summer in the Normal. Very few tears were shed at parting but there seemed to be an undercurrent of sadness beneath the smiles and laughter of the crowd. The citizens of the town are missing the young men and young women so familiarly seen with books under their arms on the streets, and all are looking forward to the time when these jolly set of young people will return to take up their studies again.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect. LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 25c.

Baptist Meet at Hereford.

The annual meeting of the Terra Blanco Association of the Baptist church was held at Hereford from Wednesday to Thursday of last week. This is the best spiritual meeting that has been held in several years. There were two missionaries appointed and the association reported \$1100 out of debt. Rev. J. T. Burnett resigned as associational missionary.

Those attending from Canyon were: Rev. Fronabarger and wife, Mrs. J. S. Ballard, Mrs. Adkins, Mrs. Jennie Miles, Misses Minnie Reid, Erma Conner and Luella Younger.

Taxes Due.

Notice is hereby given that all city taxes are due and payable August 1st, and on Sept. 1st will be placed on the delinquent list and penalties added. J. H. Jowell, City Collector. tf

STOMACH TROUBLES

Mr. England Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. England, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. N. C. 12.

CLASSIFIED ADS

For Sale—In Randall County, Texas, 571 A. One mile east of Umbarger and eight miles west of Canyon. Can be divided in 3 farms, in 115 A., 216 A. and 240 A. For particulars, Box 597 Girdley, California. 19p9

Brightening up time! Get your paint, glass and wall paper of S. V. Wirt. Best line in the city. tf

GREAT POULTRY SHOW.

Dallas. The poultry exhibit at the State Fair of Texas this fall will in every way be indicative of the importance of this thriving industry. The big building at Fair Park which houses the poultry division has been thoroughly overhauled. New coops have been installed, especially the coops large enough to take care of "flocks"—a new classification this year. A flock will consist of one male and eight females. The usual generous premiums are offered for individual birds and for pens. The Texas Barred Rock Club offers a special prize of \$25 this year for the best dark and light Barred Rock exhibited.

MADE-IN-TEXAS EXHIBIT.

Dallas. A new feature for the State Fair of Texas this year is the Made-in-Texas exhibit. Displays of Texas manufactured products covering more than 40,000 square feet of floor space will be a big boost for home industry. In several of the exhibits machinery will be in actual operation making the products on exhibition. Texas factory products are equal in quality, price, desirability and usefulness to those made outside the State. The Made-in-Texas exhibit was decided on to impress visitors with this fact.

POLO TOURNAMENT ASSURED.

Dallas. This city will be the Mecca of polo enthusiasts during the run of the 1915 State Fair of Texas. Assisted by Captain A. J. Edmonds, the "father of American polo," the State Fair management has arranged for a series of games to be played the first and second weeks. Crack teams from civil life and from the United States Army have already entered—some of the best players in America are assured. Polo will be played on the big athletic field at Fair Park.

Polo is a popular game with all lovers of outdoor sport. It requires courage, keen and active thought, and expert horsemanship. It is now a part of the curriculum in the mounted service of the United States Army.

Wayside Items.

Rains are interfering very much with the threshers. Some complaint of birds eating the wheat in shocks in the fields.

A new kind of bird is eating the peaches very badly. They have a short stout beak and are very destructive.

Payne Bros. have bought a King automobile.

H. C. Evans, Misses Texie and Willie accompanied by Mrs. Reeves, Evans and Grace from Kenna N. M. came in last week. Mrs. Evans and Mrs. Reeves remained. The family expects to move to New Mexico soon.

A most sermon Sunday at Beula by Rev. Geo. Montgomery. He was accompanied by his sister, Mrs. Norah Welker and her daughter.

An ice cream supper was given at W. B. Walters last Thursday night in honor of Jas. Williamson and family. A large crowd present and a delightful time for all. Sweet peas were presented to the guests.

E. P. Wesley and wife and baby left Sunday for Dallas with their son Henry to have an operation performed on the latter for adenoids.

Jim Wesley left for Memphis Saturday returning Sunday with Mrs. Bob Wesley and child who are visiting Henry Wesley and family.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

Texas City Under Water.

Members of the Texas National Guard who live at Canyon are especially interested in the recent floods on the coast the past week. The place where the encampment was held at Texas City last summer was under water about ten feet. The oil tanks were washed up past the depot and a large ship is standing high and dry up near Main Street. The roof of the commissary was blown off and the contents are almost a total loss.

WORLD'S GREATEST AVIATOR TO FLY AT STATE FAIR.

Dallas. Art Smith, the most daring aviator of all time, has been engaged to make flights each-day and on six nights during the run of the 1915 State Fair of Texas. This "comet of the air" has recently out-beached Beachey in every phase of flying at the Panama-Pacific Exposition.

At the State Fair of Texas Smith guarantees to put on all his hair-raising thrills. In his contract he promises, among other sensations, the from an altitude of about 2500 feet; roll-over loops, finishing within 200 feet following. Ten straight up and over loop-the-loops in absolute succession of the ground—causing the machine to roll over side-ways, wing over wing until upside-down, and finishing by diving and leveling to right-side-up; vertical drop from about 2000 feet down to landing; wing slide in which the machine is rolled sideways until the wings point up and down, machine then falling sideways, tail slide, in which the machine is rolled sideways until the wings point up until it "stalls," then falling backward tall first; looping-the-loop at 1000 feet with hands off the steering wheel and arms outstretched; and flying upside down with hands off wheel and arms outstretched.

Smith's night flights are especially sensational when he loops-the-loop not less than a dozen times, his machine all ablaze with brilliant fireworks.

Pleasantview Items.

The camp of the regulars of course was under water and the men lost heavily while several soldiers lost their lives in rescue work. There is nothing left at Texas City Junction not even a mosquito.

Cures, Old Sores, Other Remedies Won't Cure
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

His Testimony Will Interest Every Canyon Reader.

The value of local evidence is indisputable. It is the kind of evidence we accept as true because we know we can prove it for ourselves. There has been plenty of such evidence in the Canyon lately, and this straightforward testimony has established a confidence in the minds of Canyon people that will not be easily shaken.

R. E. Hileman, Canyon, says: "Doan's Kidney Pills gave me positive relief from lameness across the small of back and trouble with my kidneys. I got Doan's Kidney Pills at Cassles' Drug Co., and I can recommend them for lumbago and trouble, caused by weak kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy get Doan's Kidney Pills—the same that Mr. Hileman had Foster-Milburn Co., Props., Buffalo, N. Y.

Miss Ethel Crowley who has been attending the Normal in Canyon has returned home, Mr. and Mrs. James Johnson and children spent Sunday with H. G. Breckenridge and family. The singing at Mrs. Schramm Sunday evening was a helpful as a pleasant pastime.

Miss Ethel Crowley and Archie visited the T. C. Jennings home Sunday night and Monday. Miss Ruth Schramm spent

MUST SWAT FLIES TO GET CLASS A

Before Perfect Grading Hereafter the Fruit and Vegetables Must Be Covered.

The inspection committee on Monday afternoon made their weekly tour of the business houses. Following is the classification:

- Class A.
 - City Pharmacy
 - Holland Drug Co.
 - Burroughs and Jarrett
 - Redfearn Grocery Co.
 - Canyon Grocery Co.
 - Canyon Supply Co.
 - Vetesk Meat Market
 - Redburn Market
 - Kandy Kitchen
 - Yates Short Order
 - Redfearn Confectionery
 - Palace Hotel
 - Baltimore Hotel
 - Peerless Bakery
 - Canyon Bakery
 - West End Grocery

- Class B.
 - City Restaurant
 - Court House
 - Redburn Grocery

- Class C.
 - Post Office

One place was dropped from the list because the door was locked.

We find more flies than at previous inspections and unless they are killed out a number of places will necessarily be lowered in classification. No place can deserve to stand in Class A with flies swarming over everything. We also recommend that the fruit and vegetables be covered with mosquito netting. These requirements will have to be met for perfect grading.

Inspection Committee.
Note—On account of an error

the Baltimore hotel was left off the list published in last week's issue. Mr. Scott, the manager of the Baltimore, has always kept a neat, clean place and deserves the Class A grade where the hotel should have been placed last week.

School.

School is out. Wouldn't it be a good idea to have a group photo made of the family at the Lusby Studio, now days are so peaceful and quiet? Prices are low. Latest styles in cards. It

McCormick and Deering

Corn Harvester

Corn harvester to handle.

Well known to every farmer to be the best Corn Harvesters on the market for saving all kinds of row crop. It matters not how high or heavy, it will harvest your crop when it is too low for any other

There are other Machines on the market that can be bought for \$5.00 to \$10.00 less money for reason they are worth less, and are cheaper machines and do not have the reputation. When you have a McCormick or a Deering machine you can always get any repair in a very few hours and be ready for work. When you have some new make of machine for which you do not know that you can always get repairs, you can lose many times the difference in price of machines so let us sell you one of the Old Reliable machines with all the latest improvements that you can depend on to get your crop harvested before frost, and take no chances.

THOMPSON HARDWARE CO.

Sheriff's Sale.

Notice is hereby given that on the first Tuesday in September, A. D. 1915, being the 7th day of said month, within lawful hours, at the Court House Door of Randall county, Texas, in Canyon, Texas, as Sheriff of said county, I will sell to the highest bidder for cash those certain two tracts of land situated in Randall county, Texas, about two miles north east from Canyon, Texas, described as follows, to wit:

1st. 349 acres, being the Southern portion of Survey No. 81 in block 6 located by virtue of Certificate No. 1540, issued to the International & Great Northern Rail Road Co.

2nd. 169-100 acres, being a strip off the west side of Survey No. 112 in block No. 4, located by virtue of Certificate No. 1571, issued to the International & Great Northern Rail Road Co.

Said sale will be made by virtue of an order of sale issued out of the District Court, 53rd Judicial District, of Travis county, Texas in Cause No. 31933, Ira Evans vs. Wilbur H. Young et al, upon a judgment in favor of said Ira H. Evans, rendered on May 8th, 1915, against Wilbur H. Young, Mary Loretta Hood Young and Helen Gault Graham for the sum of \$2628.95 with interest thereon from date of said judgment at the rate of 10 per cent per annum and the sum of \$362.90 with interest thereon from date of said judgment at the rate of 6 per cent per annum, and against said Wilbur H. Young alone for the sum of \$7809.63, with interest thereon from date of said judgment at the rate of 8 per cent per annum, and for the sum of \$780.95 with interest thereon from date of said judgment at the rate of 6 per cent per annum, with costs of said suit, and foreclosing the plaintiff, Ira H. Evans' vendor's lien on said land as it existed on September 10, 1907 and has at all times since existed, as well as his deed of trust lien as it existed on February 1st, 1910 and has at all times since existed against Wilbur H. Young, Mary Loretta Young, W. Murray Graham, Helen Gault Hood Graham, J. M. Sanford, as Administrator of the estate of R. H. Sanford, Deceased, Chas. H. Lantz, and Edna B. H. Lantz, which said order of sale bears date July 7, 1915 and the same was levied by me upon the aforesaid tracts of land on the 24th day of July A. D. 1915.

Witness my hand, this, the 24 day of July A. D. 1915. Worth A. Jennings, Sheriff of Randall County, Texas.

"Bell" Connection Valuable to You From seed time to harvest, and all the year through, every farmer occasionally has business to transact in distant towns. Letters go slow and traveling is expensive. Citation by Publication.

The state of Texas, to the Sheriff or any constable of Randall county—greeting:

You are hereby commanded to summon Mrs. Wm. Ross MacDonald and Wm. Ross MacDonald by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District court of said Randall county, to be held at the Court house thereof, in the town of Canyon, on the fifth Monday in August A.D. 1915, the same being the 30th day of August A.D. 1915, then and there to answer a petition filed in said court on the 13th day of July A.D. 1915 in a suit numbered on the docket of said Court No. 788, wherein George Phillips is Plaintiff, and Mrs. Wm. Ross MacDonald (formerly Mrs. A. J. Jennings) and Wm. Ross MacDonald, her husband, are Defendants, and said petition alleging in substance, as follows, to-wit:

That heretofore, to wit, on or about the 7th day of March, A.D. 1908, defendant Mrs. Wm. Ross MacDonald, then known as Mrs. A. J. Jennings, a widow, made, executed and delivered to one C. O. Keiser, of said Randall county, her two several promissory notes for the sum of Two thousand and eighty Dollars, each, bearing date on the day and year aforesaid, due, one of said notes, "on or before three years" after March 1908, the other note due "on or before four years" after March A.D. 1908, payable to the order of said C. O. Keiser, bearing interest at the rate of seven per cent per annum from said date of execution, said interest payable annually, further providing for seven per cent interest on all past due installments of interest, and further stipulating for ten per cent additional on the principal and interest due on said notes if placed in the hands of an attorney for collection, or if collected by suit.

That said notes were given for a part of the purchase money of the following described real estate and premises situated in Randall county, Texas, to-wit: Section No. One Hundred and Seventy-four (174), in Block No. M 9, Certificate No. 9-232, John H. Gibson, grantee, containing 640 acres, more or less, and situated about thirteen miles south and fifteen miles east of Canyon, county seat of said Randall county;

That said land was, on or about August 7th, 1908, conveyed by said C. O. Keiser to the defendant, Mrs. Wm. Ross MacDonald, then Mrs. A. J. Jennings, by his deed of that date, of record in Vol. 16, page 161, Deed Records of said Randall county, in consideration, among other things, of the two vendor lien notes herein described, and that in said deed of conveyance a "Vendor's Lien" was reserved on said land to secure the payment of said notes, as is expressly stated in the face of said notes.

Plaintiff says that he is the legal owner of said notes, that they are due and unpaid, and that he has placed them in the hands of an attorney for collection and for suit, and has contracted to pay his attorney the ten per cent attorney's fees provided for in said notes; that defendants, tho often requested; have failed and refused to pay said notes, each or either of them; and still refuse to his damage, the principal of said notes, \$4160.00, the accrued interest, interest on interest and attorney's fees, amounting in the aggregate to the sum of Five Thousand Three Hundred and Fifty Dollars. Plaintiff prays judgment of the court for said sum of money, \$5350.00, interest from this date and for his costs; for the foreclosure of his vendor's lien on said land, and premises; for an order that said land be sold to satisfy his debt; for a writ of possession, and for other and further relief, in law and in equity, as he may be entitled to.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Canyon, Texas, this 27th day of July A.D. 1915. T. V. Reeves Clerk, District Court, Randall county, Texas.

A true copy I certify, Worth A. Jennings, Sheriff Randall County, Texas. 1914

Large advertisement for 'The MAD of the FOREST' by RANDALL PARRISH, illustrated by D. J. LAVIN. It features a dramatic title and a copyright notice for H. C. McCallum & Co., 1915.

will yer? Oh, ho! but I know a better way than that to make yer cry. By all the gods, we'll roast that Yankee friend of yours to a turn, and you'll stand by and watch. That'll fetch the two of yer to yer senses. Here Shawnees, two of yer come here. Pick up this carrion, and throw it out of the way; over there in the edge of the wood. We'll want this place presently. Sis-te-wah!" "The chief is here," with dignity. "Twas your vote that the hunter die by torture!" "It was so spoken." "Then he shall—to spite this squaw of a Wyandot, if for no better reason. Bid your warriors tie the dog up." For the moment, in the confusion, the noise and rushing back and forth of figures dimly seen in the red light, I lost sense of what was being done. There was a babel of yells, a wild mingling of half-naked forms dancing about through the shadows. Those whose identity I could comprehend had been swallowed up by the rush of bodies. Occasionally Lappin's voice sounded above the din, as he cursed out some bribe. Then, forth from the surging, excited mass of savages, two braves came directly toward where I lay concealed, staggering under the weight of Hayward's dead body. I drew back my rifle, staking lower behind the rotten log. The weight of the dead man caused them to shuffle forward, grunting to each other, glad enough to be rid of the burden. In the first dark shadow they let go, flinging him down against the very log behind which I lay, holding my breath in fear. The one turned back, uttering a guttural exclamation of relief, but the other paused, gripping the soldier's hair. Then he also straightened up, and ran back into the open, giving sudden utterance to a wild yell. I peered across the log to see him dancing in the sunlight, waving a bleeding scalp in the air. Even as I gazed with eyes of horror, my mind a chaos, every nerve throbbing in physical pain, there came to me the one hope, the one chance for me to meet alone the situation.

CHAPTER XX. The Ghost of the Lieutenant.

With eyes on those figures blotting out the fire, their discordant yelling deadening all other sound, their whole attention centered now on savage vengeance, crept over the log, and crouched low beside the motionless body. Ugh! but I dreaded to touch it, to feel the awfulness of clammy flesh. As the upturned face, with staring dead eyes, revealed indistinctly by the red glimmer, met my gaze, it was like looking into my own. For an instant it seemed as if I stared down at myself, bent above my own insensate body. A shudder ran through me, my hands shaking as with palsy. Yet I rallied, crushing back the benumbing horror of that vision, as the hateful voice of Lappin rose above the din. Recklessly I stripped the red jacket from the body, ripped in the struggle with Lappin, and showing clearly the rent made by the knife, and crawled back over the log, to put it on. Beyond my cover, not a dozen feet away, was a shallow ravine, and the light streaming through tree branches, fell upon a clay bank, gleaming a yellowish white. I reached it on hands and knees, streaking my face with moist clay, until it must have been ghastly, and plastering even more on my hair in horrible representation of the scalped victim.

Still unsatisfied, yet knowing of nothing else I could add, and warned

Advertisement for 'OUR PUBLIC FORUM' by C. E. Schaff, On Railway Investments. It includes a portrait of C. E. Schaff and a detailed article discussing the importance of understanding and dealing justly with the railroad industry, particularly in the context of public investments and the welfare of the country.

President Wilson recently referring to our railroad problems said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice." When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowman can venture upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroads investments, said in part: "It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be further from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a life time into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundred-fold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles. Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called in question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very woof and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land. In blindly striking at the railroads our blows fall not merely upon those who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth becoming more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."

Advertisement for FRASER BRICK COMPANY, featuring illustrations of various brick wall constructions and a list of reasons why interlocking tiles are superior. The reasons listed include Economy, Non-Conductivity, Damp Proof, Light Weight, Interlocking, and Strength. The company's office and display rooms are located in the Sumpter Building in Dallas, Texas.

Advertisement for Hereford Thor-O-Bred Trees & Plants. It highlights the company's success in creating a demand for their products, noting a 300% increase in sales over the last year. The advertisement emphasizes the quality of their trees and plants and provides contact information for Hereford Nursery Co. in Hereford, Texas.

New York was treated to an interesting sight the other day when Sperry, in his stabilized flying boat, swooped across the bay and circled around a big harbor dredge.

To our people in the windows of our New York office, this performance had an interest aside from the spectacular. Sperry was using Texaco Motor Oil; the dredge was using Texaco Crater Compound—and to complete the circle, the very building in which our offices are situated gave another instance of Texaco service.

For in this carefully-run power plant, one of the largest isolated plants in New York City, Texaco Engine Oils lift the friction load and keep the big bearings cool.

Do you wonder we were impressed?

Here were Texaco Products used on land, and water, and in the air—used on the light, powerful engine of the aero—on the heavy Corliss engines and dynamos downstairs—and as a protection against wear and salt water on the cables of the dredge.

In each case we were able to meet the condition with a lubricant exactly suited to the purpose. We can do the same for you in engine room, mill, or machine shop, on tractor, or in harvester—wherever oil is needed. There is a Texas Company agent near you. Let him tell you which oil you need.

VICTORY ACHIEVED BY TACT

How Explorer Overcame the Objections of South American Natives to Face Camera.

After his startling experience, when he tried to photograph a group of South American savages, Mr. Algot Lange visited the Indians in their retreat and, after studying his hosts for several days, persuaded them to pose for him. He gives an account of his success in his book, "The Lower Amazon".

I judged it to be the proper moment for taking photographs because many of the more critical Indians were away working on a large canoe. It was a risky act to bring forth again "the little black thing that grows big and has an evil eye," but it was of vital importance for me to record my sojourn on a photographic film.

Slowly I lifted the camera out of the bottom of the knapsack. I took the back off and held the open kodak in front of the chief's eyes so he could see the empty bellows. He nodded and touched it. The tickling sound of the shutter amused the chief, and he imitated the sound by saying, "Tick! Tick!" Then I set the shutter on a time exposure, and let them look through the lens. That also pleased them. The chief even called the camera marakab, or plaything. I felt rather safe, and ventured to roll a film in place and set the shutter for business. I pointed it at the chief as he sat in the middle of the clearing, and saying, "Tick! Tick!" a number of times, I finally pressed the bulb.

Once only did I come near a break in their confidence. When I walked down the clearing and focused the chief and the man with the withered arm, who were standing near one of the tribal prisoners, they suddenly rushed toward me, but an assuring "Tick! Tick!" fortunately pacified them. The men objected to the motion-picture camera, and I was forced to give a few yards of the yellow ribbon to each member of the tribe before loading the machine. The innocent Indians wrapped themselves in the invaluable film and crowded round the camera while I sang, "Take Me Back to New York Town," and turned the crank.—Youth's Companion

BETTER HOUSING IN INDIA

Government is Giving Its Attention to Matter That Has Been Too Long Neglected.

One of the most prominent features connected with the present development of India is the zealous attention paid in some of the larger cities to providing more sanitary housing accommodations for workmen, says the Building Age. The need of this may perhaps be more readily understood by the statement that out of the total population of Bombay, 76 per cent live in one-room tenements, and many of the rooms are occupied by more than one family.

The tenement buildings in some instances are said to have their rooms constructed like the steerage quarters of a ship; that is, with bunks one over another. Bedrooms and kitchens are sometimes combined. Between the buildings are narrow passageways into which all manner of refuse is thrown by the tenants and which are used for drainage purposes. That these dwellings are unfit for human habitation is well recognized by the municipal authorities of Bombay, and in order to provide better accommodations, sanitary "chawls" or tenements have been built for nearly twenty thousand persons. A "chawl" in India means a building so constructed as to be suitable for letting in separate tenements, each consisting of a single room or of two rooms, but not of more than two rooms.

Frightful Record of Waste.

It is estimated that one-third of the gold and silver of the great Comstock lode was thrown away, and only a little can be recovered. Some authorities, doubtless pessimists, declare that for every five tons of coal used in industry in this country, two tons are wasted at or near the mine, lost in mining. Some of the finest natural gas wells on the continent "blew" their treasures into the air for days, weeks or even months before being capped.

Agricultural land, rightly used, renews its fertility year after year, and produces as good crops after 40 centuries as when first put under the plow. The mine has only one crop. All the more need that this crop shall not be wasted.

Coffin Made for Darwin Not Used.

The funeral took place at Downe churchyard, near Bromley (Kent), of John Lewis, aged eighty-one, carpenter, who made the coffin in which it was intended that Charles Darwin should be buried. It was afterward decided, says the London Daily Mail, to bury Darwin in Westminster abbey, and the coffin was not used, being subsequently exhibited in the district as a curiosity. Mr. Lewis twenty-five years ago made coffins for himself and his wife, and these were kept in their cottage.

Britain's Great Arms Factory.

The Woolwich arsenal in England covers 600 acres. Here are made guns of all sizes, every form of military wagon, shot, shell, torpedoes, cartridges, bullets, war signals, life-saving rockets, and high explosives. The arsenal is divided into three main departments—the royal gun factories, the royal carriage department, and the royal laboratory.

MILLINERY

NEW GOODS

We are proud of the beautiful showing we have for you in our Millinery Department this season. Miss Dehn

IS

again in charge of this department and will be glad to have her friends come in to see her.

OUR

new goods are coming in every day and our

ENTIRE

stock will be complete within the next few days. We can show you a very nice assortment now of Sunshine suits and coats. Dress goods and silks are all here. Curlee and Hart Schaffner & Marx suits

FALL STOCK

complete, \$12.50 to \$35.00. Just unpacked 200 pairs Dutchess trousers of all sizes. \$1.50 to \$6.00 Stetson and No Name hats. "IF IT IS NEW WE HAVE IT". Fall hats all here.

We are exceptionally proud of our selection of merchandise

THIS SEASON

and will be mighty glad to have you come in and let us show you, whether you buy or not.

A VISTA FROM LAKE AUSTIN

From University of Texas property, on south shore.

The completion of the gigantic dam across the Colorado River near Austin, supplies the one thing needed to make ideal the location of the State's greatest institution of learning, the University of Texas. The lake runs back winding among the evergreen hills of Edward's Plateau for 35 miles, offering students who are disposed to take their recreation out-of-doors, such wholesome sports as rowing, fishing, motor-boating, swimming, sailing and so on. A large part of the land bordering the lake near Austin is owned by the University, and the students have erected a boat-house at a convenient place where their canoes, rowing and motor-boats are kept at a nominal charge.

ATLAS
GRAIN
TANKS

Water Proof
Fire Proof
Rat Proof

Rats destroy thousands of dollars worth of grain every year. Atlas Grain Tanks are rat proof. The U. S. public health service have estimated that rats in the U. S. destroy one hundred million dollars worth of grain every year. The farmer without an Atlas Grain Tank contributes yearly his proportion of this vast sum—unless he sells at harvest time—thus losing the profit he would reap by holding his grain—and which he is entitled to, and not the speculator.

Order your Atlas Metal Grain Tanks and Silos from W. F. SCOTT, Canyon, Texas

Trade with the Advertised Merchants

"A FOOL and his money are soon parted." Very true. Fathers and mothers, you want your children to become MANLY MEN and WOMANLY WOMEN, not SQUANDERERS of time and health and money. Young joy riders on life's journey never come to any good. Urge your children to be FRUGAL. Start them with a SMALL SAVINGS BANK ACCOUNT. See that they keep it going. Set them a good example YOURSELF in YOUR OWN ACCOUNT.
