 J. G. PACE, President.

Advertising Dedication Day.

At a meeting of the Board of Directors of the Canyon Business Men's Association Saturday morning it was decided to get out postal cards to advertise the dedication exercises of the Normal. The association will pay half of the expense, while on the face of the cards will appear the business card of the firms who wish them printed, which firms pay the other half.

The directors appointed C. W. Warwick chairman of the chuck wagon feed committee, and to make arrangements to entertain the Panhandle Press Association on that day. The association will also buy tickets for the visiting editors for the Julia Culp recital.

An invitation will be extended to the railroad officials of the Santa Fe, Denver and Rock Island, who have offices in Amarillo. These gentlemen will be invited to both the chuck wagon feed and the Culp recital as guests of the association.

Fire in Jail Sunday.

There was considerable excitement down town Sunday afternoon when it was discovered that the bedding in the jail was on fire, a young man being confined in the cage at the time. The door and windows were broken out by men trying to get in, as the sheriff was out of town with the keys. The boy was suffocated by the smoke but not touched by the flames. No part of the building was burned.

Amarillo Depot Burns.

The Rock Island depot in Amarillo burned early this morning.

Cole Younger, the famous outlaw, who spoke in Canyon two years ago, died Tuesday at his home in Missouri.

What is to be gained by compulsory school law—J. M. Norman.

Miss Myrtle Cobb from Pampa visited with her sister, Miss Manda, from Friday until Monday.

Harry Starr, a former student, entered school this week.

Pres. and Mrs. R. B. Cousins and Mrs. B. A. Stafford motored to Amarillo Monday.

George Ragland, who was called home on account of his brother's illness, has returned to school.

Misses Esta Higdon and Jonnie Hurst were shopping in Amarillo Monday.

Miss Vivian Coffman left yesterday to take charge of a school.

Rev. David H. Templeton talked in chapel Tuesday.

New Trial Refused in Hazelwood Case.

A motion for a new trial of Robert Hazelwood was made before Judge Hugh L. Umphres Thursday in the district court, but upon consideration, he overruled the motion. Robert Hazelwood was charged with assault with intent to commit murder, and was convicted, given two years. Notice of appeal was made and he will be confined in the Potter county jail pending appeal.

H. M. Jackson and O. B. Jackson were fined for contempt of court.

The trial of Jose Gutierrez, the Mexican held for shooting another Mexican west of Umbarger, was transferred to Potter county, since there was not time this term of court to try the case in this county.

Good Program Saturday Night.

The Romanian program at the Normal auditorium Saturday night was highly interesting and instructive. Mr. Geller spoke on the various interesting phases of his native land, while the music and pictures offered delightful entertainment to the audience.

The entertainment was held under the auspices of the Cemetery Association.

Real Estate Deals Closed.

C. O. Keiser reports the following real estate deals which he has closed: C. E. Tarpinning of Nebraska gets 385 acres three miles northwest of this city.

F. E. Hains of South Dakota, 800 acres ten miles south of Canyon.

Josef Tucek of South Dakota, 400 acres four miles west of Canyon. Mr. Tucek has just arrived here with his family to take possession of his land.

Ira E. Fraser of South Dakota, 480 acres about 12 miles west of Happy.

WHAT IS A LIEDER SINGER? JULIA CULP ONE OF FOREMOST

Julia Culp, who will sing at the new Normal auditorium on April 21st, is called a "lieder" singer. A great deal of curiosity arose in Canyon regarding the word LIEDER. All recognized Julia Culp as one of the greatest contralto singers of the world, but what is "lieder"?

Miss Kline offered the following explanation: Some singers are at home on the concert stage and are highly successful in giving recitals. Other singers require the assistance of an orchestra and an acting part in an opera in order that they must do their best. These latter kind of singers have never been successful in recitals. Notable among this class is Caruso, who has been famous in opera but not in recital work.

The former class rely upon their individuality and upon their personality to appeal to the audience. They sing songs rather than opera. They are at home in recitals. Schumann-Heink and John McCormick are in this class, while both have appeared in opera. The foremost example of the lieder singer no doubt is Julia Culp who has always appeared in recital rather than opera work.

The price has been set for the Culp recital at \$1.50 for all seats on the main floor, excepting under the balcony, which are sold at \$1.00. The balcony is reserved exclusively for the students of the Normal and the high school and these will be admitted for 75 cents each. It is the aim of the committee to only make expenses and the prices are put at the lowest possible price.

Democrats in congress are trying to throw the switch on president Wilson's single-track mind.—New York Morning Telegraph.

ASSURANCE OF BUILDING COMPLETED BY APRIL 21

As the time draws nearer for the date of dedicating the building, the contractor gives assurance that all will be in readiness on that date for the dedicating exercises.

The third floor is practically completed. The second floor is in a very advanced stage of completion. The first floor was finished with the exception of the plumbing and heating fixtures, some weeks ago. The plasterers are now getting the work on the stairways completed. The basement is the most incomplete stage, as only the rough coat of plastering has been put on. The gymnasium is the only room in the basement that is nearly completed. There is a large force of workmen on this floor and work will be rapidly advanced.

Pres. R. B. Cousins states that the light fixtures will probably be here next week and that auditorium lights will be put in at once. He has a letter from the seating company stating that the seats will be shipped by April 1st and they should arrive here by the 10th.

Much of the equipment has been ordered for the new building, but will not be placed until after the dedication exercises. It is the plan of the faculty to move the work of the school to the new building as quickly after dedication as is practical. The heating plant is being rapidly constructed and the fixtures will be ready to heat the building by dedication time.

Tucek Family from South Dak.

Josef Tucek and family arrived Friday in the city from Mitchell, S. D., having bought the Mabry farm west of the city from C. O. Keiser.

Mr. Tucek is a good farmer and is welcomed to the county by all of the residents.

CANYON H.S. NOTES

Mr. King delightfully entertained the Senior class and the High School faculty last Thursday evening at his home. The guests began to arrive at eight o'clock and were immediately shown into the dining room where they were served punch by Mrs. Allen. After we had toasted to every one's health and had quenched our thirst, we were escorted to the parlor where we engaged in free-for-all conversation until progressive forty-two began. A geographical contest followed, at which we had much fun answering questions. We were then invited to the dining room to partake of delicious ice cream and angle food cake. At a late hour we departed declaring we had never spent a more pleasant evening.

The University Inspector was here to examine the school work Saturday. He expressed himself as being favorably impressed with the work, and thought we were doing better work than last year. We intend to get two credits in Spanish and one more in Latin, making four in all in Latin. The school now has fourteen credits and with the other three, which the Inspector thinks we can make if the written work is as good as the work he has seen, we will have the total of seventeen credits.

The baseball boys have elected Ross Craig captain and Sanford Black manager. They are planning to scrape off a diamond so they can begin their regular practice.

On account of the Inspector being here Saturday the seventh grade postponed their program but will give it next Saturday afternoon, as follows:

JURY DISAGREES IN THE FRANK HAGGART TRIAL

The case of the State of Texas vs. Frank Haggart, brought here from Potter county when to the jury on last Wednesday evening at six o'clock. The jury was out until Friday noon, when it reported to the Judge that the division was such that there was no possible chance to reach a decision. The vote stood six for conviction and six for acquittal. Judge Umphres dismissed the jury, seeing there was no chance for an agreement being reached.

While it has not been decided just what disposition will be made of the case, it is likely that it will be tried at the August term of court in Randall county.

1842 74 YEARS OF KNOWING HOW 1916

The P. & O. No. 111 Lister

This Lister is known by farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined—over 2,500 sold by one dealer, in one county in West Texas. The special features on this Lister made it deserving of its name. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soil of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West.

The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will find no such wonderful improvement of plow without employing them. Furnished with either disc or shovel covers.

This Lister has embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This Lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line. At the rear and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling, also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

Advice to Farmers.

"What are you going to do?" asks the Progressive Farmer:

What are you going to do about getting that gasoline engine?
About getting that library for your school?
About opening up a bank account and paying all bills by check as town business men do?
About getting those fruit trees and grapevines?
About getting your neighbors to subscribe for the papers you think will help them most—and your own subscription renewed, of course?
About getting the barnyard in shape so it will not be a quagmire of filth this winter?
About getting that rental contract put into writing?
About getting the farmers and farm women of your neighborhood organized?
About taking a short course at your state agricultural college?
About getting an incubator so as to make more money off of poultry in 1916?
About going in with your neighbors to get purebred sirs so as to have better livestock?
About taking an inventory and starting a system of farm bookkeeping?

A thought for the Week.

Men have certain work to do for their bread, and that is to be done strenuously; other work for their delight, and that is to be done heartily; neither is to be done by halves or shifts, but with a will, and what is not worth that effort is not to be done at all.—Ruskin.

The most heavily insured man in the world, according to newspaper reports, is Rodman Wanamaker, who several years ago increased his life insurance to \$4,500,000. His annual premium on that amount is estimated to be about \$125,000. When he added \$1,000,000 insurance to his policies in 1911, making the amount \$1,500,000 total, he was even then the most heavily insured man, even topping the late King Edward VII. Others who carry large insurance policies are George E. Nicholson, Kansas City, \$2,000,000; John Wanamaker, \$1,500,000; Mrs. F. J. Shepard, formerly Miss Helen Gauld \$1,000,000; Mrs. Leland Standford, J. M. Mack of Philadelphia, and perhaps a dozen other Americans, about \$1,000,000 each.

Do a Few Chickens Pay?

From Kansas Farmer—

A year ago I decided to see whether it paid to keep a few chickens. I began by arranging a book in which to keep a complete record of everything connected with the raising and handling of my flock. I started with a flock of twenty-eight hens and pullets and two cockerels. The cockerels were White Rocks, and the flock contained three White Rock pullets; seven Buff Orpingtons; seven Barred Rocks, and the balance were just chickens. This mixture was a drawback, but they were good utility stock. They were in the best of health and were laying well at the beginning of the year. I used disinfectants freely and kept the houses clean. On account of the cold, wet spring, I lost an unusually large number of small chickens, and some were drowned after reaching the broiling size. Thieves also paid us a visit which took some more from our profits.

According to my account book, the final results for the year are as follows: Feed, \$31.63; straw, \$1.20; insect powder, 10c; disinfectant, 70c; medicines, 40c; second-hand incubator, \$1.75; eggs for sitting, \$3.75; or a total of \$39.53. On the credit side, 3,569 eggs produced—358 used for hatching; the balance sold brought \$70.77; fifty-five chickens sold brought \$33.65; seven pounds of feathers, \$1.75; feed on hand January 1, 1916, \$4.35; total, \$110.52. Deducting the expenses of \$39.53, there remains a profit of \$70.99.—Mrs. F. W. Felton, Shawnee County.

Peanut Getting Publicity.

Austin, Texas, March.—The humble "peanut" is enjoying perhaps larger publicity in Texas papers than any other thing or person at the present time, and this in spite of the fact that various political campaigns are in full blast. People are being told to plant peanuts. The A. & M. College of Texas is telling farmers and gardeners just how to plant and care for the peanut in order to secure the largest yield, and diversification propaganda is urging more peanuts and less cotton.

It is not a good plan to count chickens before they are hatched, but it may be of interest to many farmers to know what uses may be made of the peanut, before he begins planting them extensively. This information is clearly given in Bulletin No. 13 (1915) of the Extension Department of the University of Texas. A detailed statement, elaborately illustrated, of the food value of the peanut is also included therein. Copies are furnished free by the Department to anyone in Texas.

Poultry Products.

The new settler often overlooks the value of a flock of good chickens and turkeys. There are usually chickens on every place, but not always of the profitable kind. Good poultry, well cared for is a material aid in supplying a living for the family until the broad acres and larger livestock yield returns.

But poultry is always a part of a well conducted farm. Egg form a very important commodity of commerce and are always salable. Just now the trade is making a survey of the entire country to learn what the spring egg production has in store. The report from about forty Texas points indicate no material increase over last season either in egg or poultry shipments.

The total shipment of eggs from Texas last season was 1,000 cars. Nearly one third of this amount was produced in the spring, several hundred cars going into storage in March, April and May. Texas, though the largest state, stands fourth as a producer of poultry products. The improved much of late years. The size

I have a friend who is interested in a large wholesale shoe concern. His house will not handle a standard shoe of proven merit.

Why?
For the simple reason that jobbers and retailers can exact wider margins of profits from unknown lines upon which there is no standardization of price.

My friend being an honest man admitted this to me and defended his admission with this statement: "The average shoe buyer doesn't know the difference between standard shoes and the other kind. Of course some of them are 'getting wise,' but there is a big new crop of suckers coming on every year."

Naturally I was impressed with the truth of his statement, although I consider it an insult to the buying public.

His argument relative to shoes applies to practically everything bought and consumed generally, and those of us who are making a fight for the buyers' best interests naturally are wondering how long it will be before enough of them will "get wise" to force these exacters of exorbitant profits to do business on legitimate margins or else get out and make room for others who will.

Save Your Waste Paper.

Old newspapers, books and magazines are becoming extra valuable these days. Time was when the paper on which they were printed was worth so little as to be hardly worth consideration, but conditions have undergone much change of late.

So much that Chicago firm is advertising for housewives to save their old newspapers, books and magazines. The company offers to pay one cent a

pound for books and magazines and half a cent a pound for old newspapers, and will send a wagon to the homes to collect the papers.

The advertiser says:
"The war has shut off a large percentage of the pulp-making material. We have taken a flyer to see if we can get somebody to open up on paper."

"There is a vast supply garnered up in attics and cellars, and we are making a bid for it. It will be of advantage in the production of book paper."
This waste paper is very useful in the manufacture of paper board and wrapping stock, but, unfortunately, cannot be made over into news print on account of it being impossible to properly remove the ink.

SWEPT BY BANDITS

Rural Districts in South Mexico Are Ravaged.

Robberies and Murders of Daily Occurrence, Some of Them Just Outside Vera Cruz City—Suspects Executed on Spot.

Vera Cruz, Mexico.—It is dangerous for unprotected travelers to venture into the region that lies between Vera Cruz and the City of Mexico. Bandits are in complete possession of the rural districts. Reports of robberies and murders by brigands are received here daily. Some of these crimes are committed almost within the precincts of the city. Railroad travel is so hazardous that few people care to undertake the journey between here and the capital. Almost every passenger train is held up and its passengers robbed. The old-time method of freighting by ox team was recently put into practice on the route between Jalapa and Vera Cruz on account of the uncertainty of transportation on the railroad. All of these freighting wagons are accompanied by guards of soldiers.

Never, even in the period immediately following Diaz's ascending to the presidency, has there been witnessed such widespread brigandage as is now going on all over southern Mexico. The bandits are numbered by the thousands. They operate boldly, without any attempt being made to molest them except in the larger towns. The villages and rural communities are at their complete mercy. Very few of the wagon trains that leave Vera Cruz for interior towns arrive with their loads; almost invariably they are held up and looted of the merchandise.

In the mountains around the beautiful city of Jalapa, capital of the state of Vera Cruz, brigandage is so rife that many of the coffee planters and other rural residents have been forced to seek refuge in the town.

In the state of Oaxaca, where an independent government has been in existence for two years, an effort is being made to put an end to brigandage by executing on the spot all persons who cannot give a good account of themselves. The more remote mining districts of Oaxaca are said to be badly infested. The more thickly settled portions, however, are now almost free from depredations.

Since the American troops evacuated Vera Cruz sanitary and health conditions here have grown gradually worse and they have resulted in much sickness—yellow fever, typhus and smallpox. The American soldiers left Vera Cruz the most sanitary city in Mexico. Some pretense of keeping the city clean is still made, but it is confined to the business districts. The outlying sections, where the poor people live, are neglected, and it is in those places that epidemics have occurred.

WANT STREET NAME CHANGED

Paris People Would Have "Avenue de Sofia" Made Something More Pro-Ally.

Paris.—Paris has long since renamed such streets as the Rue de Berlin, the Rue d'Allemagne and others of equally offending nomenclature. Why, then, asks the Figaro, is the name of the Avenue de Sofia allowed to remain?

"True, it is only 50 meters long, but its two name plates are constant reminders of the capital of a nation that is our enemy and a ruler for whom we have contempt. We have received many letters inquiring when this thoroughfare is to be renamed. The municipal council ought to take action."

The beautiful blooms of the fruit trees remind us that spring has come again. A large per cent of peaches and pears are killed by the cold, but up to the present time, there seems to be plenty left. Some plums, the wild goose variety show they will not bloom at all.

We regret to learn our M. E. pastor, Bro. McReynolds will probably be compelled to give up his ministerial work on account of ill health.

Mrs. E. L. Stockett from near Tucumcari, N. M., who has been visiting her son Jno. for the past month, left for home Monday.

J. C. Payne left the 15th for the fat stock show in Fort Worth and will spend some time with relatives near Bowie on his return.

The program of the literary Friday night was well rendered and highly enjoyed by the large crowd present. The 33 boxes and pies brought \$56.25. The cake awarded to the prettiest young lady fell to Miss Ina Wright of Vigo and brought \$48.50. Total \$104.75.

Little Inez, daughter of Earl and Lizzie Wesley is quite sick with Bronchitis.

Little Roy, son of W. R. and Fannie

Franklin has been on the sick list for some weeks, not confined to his bed, however.

W. I. Lane and family, with Agnes and Lorine McGehee autoed to Canyon and returned Sunday last.

Mrs. Julia Howard who has been quite ill with pneumonia at her father's was able to be carried home Sunday last Sunday.

Mr. Small of Indiana a cousin of D. L. Adams came in Saturday and will make his home with Mr. Adams for an indefinite length of time. He was detained some days enroute to Texas becoming very ill. We hope he will soon regain his health.

Last Monday, a fire broke out on W. Fisher's place near the canyon. Phones spread the news and neighbors flocked in and extinguished the flames. Loss, grass on a few acres and some timber in the canyon for Mr. Fisher.

Franking Graft.

(Houston Post.)

The Waco Morning News says: "Cyclone Davis has been in congress long enough to learn the advantages of the franking graft. He prepared a long and vigorous speech on the international situation in general, and as related to Mexico in particular, in which he announced his candidacy for re-election and had the whole incorporated in the Congressional Record without reading it. The next step will be the sending of that document broadcast throughout the state at public expense in the hope of making enough votes to re-elect Cyclone to congress." This statement by a prohibition newspaper of the prominence of the News is significant. It clearly indicates that the intelligent class of prohibitionists in this state are not pleased with the kind of representative Cyclone is making and will cast their ballots against him in the coming primary.

We Sell Chandler Coal from the Chandler Mine

Chandler is Mined in the Canon City District of Fremont County, Colorado

NOTE THE DIFFERENCE: Canon Coal is not Chandler. There is only ONE Chandler, but a dozen kinds of so called Canon. The coal companies say to us their Canon Coal is as good as Chandler. Never has one claimed to us yet their's is better. Now, if Chandler is so good (which it is) that competing companies acknowledge its merit, why take any risk? Buy the GENUINE Chandler, which is the best—and you can't better the best.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

SUBSCRIPTION, \$1.50 PER YEAR

Candidate for Governor, Morris, has begun to fight Gov. Ferguson on the present 55 cent tax rate. If Mr. Morris will show where the legislature and the Governor wasted the tax money, the people will consider his attack less of a joke. If Mr. Morris intends to lower the state tax rate in spite of the state's needs, he had as well get out of the race. All people are reasonable when they know the truth, and the people of Texas are pretty well satisfied that the money expended in the last legislature was needed and spent to good advantage. Therefore they will stand by Governor Ferguson until shown where he wasted money.

Every time a warring nation increases her taxes, the opponents to U. S. preparedness let out an awful howl and claim they have gained a point. Very muchly "no." This country is in favor of spending a little money now, rather than spending all she can raise in a war, speaking nothing of the needless expenditure of life and property.

The News is twenty years old today. Wonder is there are any people in the county who have been a subscriber to this paper ever since it started? It would be interesting to hear from you if there is such a person. The founder of the News, Mrs. R. W. Morgan now of Amarillo, will be at the "chuck" wagon feed in Canyon April 21.

The pros of Texas will make another attempt to carry submission in the July primaries. The convention in Dallas last week voted to petition the state executive committee to place this question on the primary ballot for the July primaries.

There is going to be a large attendance of Panhandle editors at the "chuck" wagon feed in Canyon April 21st. The Canyon Business Men's association will also entertain the press at the Club recital that night.

"We can see end of this horrible war," says the French Minister of Finance. "Enemies of Germany lose day of grace" says the Germany Chancellor.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell. I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Foster of Animal Inspector.

R. E. Foster announces this week that he is a candidate for the office of Animal and Hide Inspector in Randall county. Mr. Foster is serving the unexpired term of Virgil Young, who resigned. Mr. Foster being appointed by the Commissioners Court to fill the office. Mr. Foster states that he did not seek the office and only for the solicitation of his friends does he announce his candidacy for the nomination in July. During the few weeks he has served he has made a good official, and if elected he will continue to look after the business of the office in the same manner.

Amarillo Cancels Games.

The Amarillo Military Institute has cancelled all of the baseball games for this spring and will not put out a team. They were scheduled to play in this city with the Normal on April 21, and since they have cancelled, it is thought advisable not to try to have a game on that date since the dedication exercises will take most of the afternoon.

The team is developing in good condition and will be ready for Seth Ward on the 3rd and 4th of April when they come here to open the season.

The couple was accompanied by Mr. and Mrs. A. D. Dooley and returned with them to their home three miles south of town, where the young man makes his home. The bride's home has been in San Antonio. The young couple will make Randall County their future home.

Punch a Hole in Tin Can.

That tin cans filled with water are dangerous to heal has been demonstrated by the United States Public Health Service. A recent bulletin suggests that the housewives put a hole in the bottom of tin cans before throwing them into the trash heap. "Empty tin cans have no business about the premises, anyway," states the bulletin, "but if we must so decorate our back yards, let's see to it that the can has a hole in the bottom."

10 Months Old Bull, \$250.

T. A. Dowlen shipped a young registered Hereford bull to L. M. Faulkner at Plainview Saturday, for which he received \$250.

Mr. Dowlen has a fine herd of registered Herefords and has been making good sales during the past few years. He stated that he would have liked to keep this bull for the Panhandle State Fair, but Mr. Faulkner was just as anxious to get him for his own use.

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Dr. Price's Cream Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Some baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

DRESS WELL

EVERY WOMAN now recognizes the importance of "dressing her best" at all times. She needs only to be told WHERE to find the things to make a good appearance. We can promise all women that at our store they will find just the correct styles, the good quality and the reasonable prices that will make in easy for them to make their selections. Test our words by visiting our store.
EVERY MAN will find OUR store to be HIS store for buying clothes.

REMEMBER:

That we are still receiving each week, a number of ladies spring suits, and each week we find it harder to get the desired styles and patterns, if you are contemplating buying a spring suit we would advise that you not delay any longer but come in now and let us fit you up.

We are also carrying a very complete line of staple and fancy skirts, when in need of anything in this line be sure and come in and look over before placing your order.

It being only a very short time till you are going to have occasion to wear a nice spring suit, we urge the men to come in and place their order now with us, as, if we can't fit you out of stock, we can take your order and give you something that will please you in the way of a Tailored Suit. We represent Lamm & Co., as well as J. L. Taylor & Co., we don't feel that either of these concerns have an equal when it comes to tailoring clothes for men.

Taft's Body Blow.

(Dr. Geo. Fox in Jewish Mopitor.)
Ex-President Howard Taft leads six
other ex-presidents of American Bar
association in protesting against the
election of Louis D. Brandeis to the
supreme court bench. We believe it
comes with rather bad grace from Prof.
Taft, since he himself was a candidate
for the place. But Taft has always
been a friend of the Jews, and we can-
not credit this action to any anti-semitic
feeling. There are certainly power-
ful interests working against Brandeis,
and this last seems to be the
strongest of any of the blows that his
candidacy has yet received. Although
his hearing has been closed, it has
again been reopened, and the deter-
mined efforts against him are rather dis-
couraging. Of all that has been said
and written, not one specific unethical
transaction has been shown, and this
fact may be the salvation in his career.
One begins to wonder whether Brandeis
will be a martyr to the "inter-
ests."

Do You Know That.

**APPETITE MAKES EATING A
PLEASURE**

Loss of appetite is the first signal of
disorder and decay. The usual loss of
appetite is often caused by functional
disturbances in the stomach. The
stomach fails to do the work required,
the appetite is gone, and the body suffers.
Such a stomach needs to be
cleansed and sweetened.

TONIC DIGESTIVE

is made especially to assist the stom-
ach to digest food, and promote a health-

made three spectacular loops at a
height of 2,000 feet.

TO EAT TWELVE TIMES A DAY

**Surgeons Make a Stomach for a Bal-
timore Man That is Smaller Than
Tennis Ball.**

Baltimore.—Surgeons connected with
the University hospital are much in-
terested in an operation performed
several days ago, when a large por-
tion of the stomach of Harold B.
Arnold was removed and a new diges-
tive organ, formed from the unaffected
tissues, slightly smaller than the
ordinary tennis ball, was put in its
place.
His condition is now greatly im-
proved and he receives predigested
food through a glass tube.
In the event of the complete recov-
ery of Arnold, he will have to receive
nourishment at least a dozen times
a day because of the minuteness of
his stomach. It is so small now that
it will only contain the amount of
liquid held by an ordinary teacup.

SHELLS KILL 500 CIVILIANS

**Ninety Thousand Missiles Fall in Pro-
longed Bombardment of Reims,
is Estimate of Visitor.**

London.—Visitors who have been
permitted by the French military au-
thorities to go to Reims say that
much fresh damage has been wrought
by the latest bombardments of the fa-
mous cathedral city and that the ca-
thedral itself has suffered still further
despite the sandbags with which it is
now protected.

It is estimated by a special corre-
spondent of the Daily Chronicle, who
has just been allowed to revisit
Reims, that a total of 90,000 shells
have fallen upon the town.
It is believed that 500 inhabitants
of Reims have been killed and be-
tween two and three thousand injured
by German shells. About a hundred
more heavy shells have struck the ca-
thedral during the past few months.

MAY BAR "PROXY" BRIDES

**New Immigration Bill Would Abolish
Japanese Marriages on "Pic-
ture" Plan.**

Washington.—The "proxy" or "pic-
ture" bride system, by which Jap-
anese in this country select a wife
from pictures, have a friend at home
marry her by proxy, and then bring
her into the United States, is going to
be abolished if the new immigration
bill becomes a law.

Between 2,000 and 3,000 Japanese
women were brought into the United
States and Hawaii last year by this
method, Chairman Burnett of the im-
migration committee said. "Too often
these proxy brides become slaves and
their husbands proceed to obtain other
wives from Japan in the same
way."

SHOT KILLS AFTER 20 YEARS

**Paralyzed in Youth by Bullet, Phila-
delphia Man Finally Succumbs
to Wound.**

Philadelphia.—After suffering from
paralysis for 20 years as the result of
a gunshot wound he received when
six years old John Karns has just
died. The death was reported to the
coroner as being due to a gunshot
wound.

Several years ago Karns submitted to
an operation in the hope of being
cured. The bullet, that had been
embedded in his spine, was removed,
and for a time his condition seemed
to improve. He was never able to
regain the use of the lower part of
his body, however. The shooting,
which eventually caused his death, was
an accident.

PAIGE
The Standard of Value and Quality

Approved—by Thousands of Users

As we remarked several weeks ago—
"The Paige 'Six 46' is a good car—
not merely because we say so—but be-
cause it's owners have definitely es-
tablished this goodness in the gruel-
ing tests of more than a full year's
road work."

If you stop and consider the matter for
one minute, you will agree that no
automobile can be termed a success
until it has been tried and approved
by owners.

Factory tests are all right—and very
necessary so far as they go.

But a car only proves itself under the
strain and stress of day in and day
out service.

So, there is one little point that it may
be well for you to bear in mind.

This year there are a number of "ex-
perimental" six cylinder cars on the
market.

These cars, with their new "theories"
and new engineering features, may—
in time—prove altogether practical
in every way.

But until that time comes—until these
sixes have been thoroughly "tried out"
in the hands of users—the prudent
man will be inclined to buy the car
with a tangible record of accomplish-
ment behind it.

The Paige "Six 46" is an eminently safe
automobile investment.

"JULIUS CAESAR"

If a five-foot shelf of books can put
a man's education in the first class,
there in one monster photoplay that
can give him the polish of ancient
history and travel and the culture
that comes with the study of Ancient
Rome. The wonderful film classic,
Julius Caesar that will be shown at the
Photoplay House Saturday is the pearl
of all photoplays. Of deep interest
and wonderfully thrilling it contains a
subtle vein of educational strength
that really is one of the wonders of
modern picture results. In every land
on the globe the story has been told
and retold and in every country the
GEORGE KLEINE film a production
is making wonderful progress. The
picture tells the story as even words
cannot convey. In India, Africa and
even less enlightened countries the film
is already being used in colleges and
universities as a basis, not to supplant
the work of adding polish to funda-
mental education. In more civilized
countries—America for example, the
Kleine film is as standard as the dic-
tionary. Societies, clubs, schools,
churches and people of all walks of
life demand the showing of the classic
and never has there been a word of
disappointment from admirer, critic
not censor. The film is expens-
ively lavishly staged and wonderfully
played. Scene after scene is shown
with a remarkable building of strength
until the climax when the brain can
scarcely absorb the monster creation.
A hundred thousand dollars was a mere
incidental investment before the first
copy of the film was made. The
highest priced stars, the most costly
costumes and scenery as well as two
years spent in searching archives and
records—these were mere incidents of
the creation of the film which will be
shown.

The story of Julius Caesar is one of
wonderful strength and interest. Be-
fore reaching his twentieth birthday,
Caesar meets and falls madly in love
with pretty Cornelia, daughter of Lu-
cius Cinna. They are soon married
despite the advice of their friends,
who well know the bitter animosity
existing between Sulla, Dictator of
Rome, and Lucius. The immediate
result of this hasty marriage is an
annulment and the banishment from
Rome of Caesar. Twenty years later
he returns at news of Sulla's death
and plunges briskly into the campaign
for the consulship. Caesar robs the
Temple of Saturn to secure money for
his troops and purposes Pompey to

Pharsalus where a despite battle takes
place.
The result of this battle was the
annihilation of Pompey's army and the
flight of its leader into Egypt. Back
to Rome goes victorious Caesar to
fight no more and to be made Dictator
for life.
In 44 B. C. Julius Caesar now fifty-
six years of age, settles down to the
administration of justice with a tem-
perance and wisdom mellowed by age
and experience. But Cato, intent upon
the Dictator's destruction, hatches a
conspiracy in which he and Brutus are
the ring leaders. When yelled rumors
of this reach Caesar he refuses to af-

front the dignity of the senate with
armed guards and one day permits the
opening, long watched for by the con-
spirators. Brutus touches him upon
the shoulder and the next second a
knife flashes in the air. Caesar reels,
the target of a dozen blows. "And thou,
too, Brutus!" Then falls Caesar.
Pandemonium reigns. The city is
afire with riot and murder. Marc
Antony, concluding his oration in the
market place, smiles, "Mischief, thou
art afoot—take thou what course thou
wilt."

SUFFERED FROM BACKACHE, RHEUMATISM, DROPSY.

Dear Mr. Editor:—I wish to tell you of a recent experience I had when suffering from backache, weak back, rheumatism, dropsy, and congestion of the kidneys. I tried a new medicine, called "Anurie," which has recently been discovered by Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, N. Y., you have no doubt heard for years. This medicine acted upon me in a wonderful manner. I never have taken any medicine so helpful in such quick time. I do wish anyone who needs it would give it a trial.

(Signed) G. H. HERR.
NOTE.—If backache, scalding urine or frequent urination bother or distress you or if uric acid in the blood has caused rheumatism, lumbago, gout, neuralgia or sciatica, if you suspect that you have kidney or bladder trouble, send 10 cents to Doctor Pierce, at Invalids' Hotel, Buffalo, N. Y., for large trial package, or at all druggists in 50-cent package.

Adrift with Humor

Modern Blatant.

Passerby—What are you kids doing?
City Urchin—Chimmie's de prize boy in de block at runnin' across de street in front of de autos, and to-day he's going to do it wid 20 pounds of bricks and his kid brother on his back.—Puck.

The Outdoor Life.

"The doctor says I don't take enough interest in outdoor pastimes."
"Are you going to profit by his suggestion?"
"Yes. I'm going to sit down and read every word on the sporting page."

Fine Graft.

Madge—I don't think there'd be any fun in voting, anyhow.
Marjorie—Sure there would. If a woman you didn't like were running, you could get all the fudge and soda you wanted out of her and then vote against her.—Judge.

Nothing Like the Old Fool.

Mrs. Crawford—I hope you son and daughter haven't taken up the new dancing.
Mrs. Crabshaw—They indulge very little, my dear; but their father is at it all the time.—Judge.

He Agreed.

"Don't you think women are naturally more courageous than men?" challenged the champion of her sex.
"Of course," said the horrid cynic. "No man would dare to get off a car the way the average woman does."

IN OLDEN TIMES.

"There isn't much chance for an old man."
"That's so; it's getting so that a man can't get a job after he gets to be seven or eight hundred years old."

An Irrate Husband.

He gave his wife an angry look. Used language far from nice. It seems the same his razor took to shave some ice.

Sartorial Note.

She—Women are more resourceful than men.
He—I guess that's right. A man has to get his clothes made to fit his shape, but a woman can get her shape made to fit her clothes.

Seeing Her Lawyer.

"This client of mine is modest in her demands."
"What does she want?"
"Wants me to get her a partial divorce with the custody of about \$300,000."

How He Guessed.

"How did you ever guess that roses are my favorite flowers?"—she exclaimed.
"It was easy," he replied. "I inquired the prices, and found that roses are the most expensive."

Waiting for the Day.

"What makes you keep going to hear that great exhorter? Aren't you converted yet?"
"Yes. But I want to be on hand when he gets ready to give all his wealth away to the poor."

Contrariwise.

"That bad orator certainly went contrary to his intentions."
"How so?"
"He murdered a good speech while trying to deliver it."

A Common Need.

"We must have an organ to support us," said the practical politician.
"Just what I was saying to my monkey," observed the itinerant musician.

March Winds.
Oh, March is bad and boisterous, and rude and rough and roisterous, she's like a dippy squaw; she howls around us frightfully, and blows our hats off spitefully, the worst you ever saw. And as our lids go fluttering, the language we are muttering the air around us taints; of course it's rather rude in us to use oats platinous, but then we are not saints. We paw around in a swear again, and long for summer to again, for breezes warm and sweet; we think we'll then be happier, but doubtless we'll be scarpier, when summer brings its heat. Our language will be virorous, when our sore legs are chiggerous, when ants crawl up our backs; we'll still be cussing dearly, while we are swatting, wearily, the flies that stick like wax. Our discontent's inherited; we had out roasts unmerited, to all that comes along; instead of smiling merrily, we yelp and say, "yea, verily, whatever is in wrong." Man ought to face things cheerfully; complaining always, tearfully, betrays the spineless rube; man's head is largely ivory and he for sense must strive or he becomes a hopeless boob.

Cut Back the Peach Trees.
The peach crop for 1916 will total zero. The buds were killed by late fall growth and cold weather. This offers an excellent opportunity to renew the tops. Long, spreading limbs of old peach trees break easily, with their own weight and that of fruit. Cutting back will renew the top and keep the weight of limbs closer to the trunk. The fruit of the peach is borne on wood of the previous season's growth. A tree that has been cut back have quite a much or more new wood than will the uncut one that produces unthrifty wood far out from the main trunk. It is commonly said that peach trees are short-lived. The statement is true if the trees are given only the ordinary treatment. A number of peach orchards in Kansas are from 20 to 30 years old and still in a thrifty condition. This is made possible only by yearly pruning to insure a thrifty new growth. In commercial culture it is the practice to yearly cut back from one-half to two-thirds of the past season's growth, and when severe weather has injured the fruit buds, everything is cut back down to wood one and one-half inches in diameter. During March or early April the peach trees may be cut back severely if care is taken to cut to thrifty shoots or buds. Many a desirable tree—perhaps a family favorite—may be made to last several years by proper pruning.—George O. Greene.

Hereford Woman Burned to Death.

Mrs. Bascom Hughes of Hereford was burned to death Monday while rendering lard. An explosion of gas or the catching on fire of the grease caused her clothing to be caught on fire. Before assistance reached her, her body was horribly burned, resulting in death.

The quick assistance of neighbors saved the little baby and young girl, together with the home from the flames.

The entire community is shocked and grieved by the death of Mrs. Hughes.

A son was born to Mr. and Mrs. L. T. Jeffries Monday.

E. Edmonds delivered 24 fine steers in the city this week which he had sold to Otus Turner for shipment. He had been feeding the steers and they were in excellent condition.

Mr. and Mrs. Glen Bowen of Amarillo was in the city Sunday.

Judge C. E. Coss has moved his house to the lots just east of the Christian church. He will make extensive improvements, enlarging the home.

Sunday was W. B. Campbell's 53th birthday, which was celebrated by a big turkey dinner to which the following guests were invited: Messrs. and Mesdames J. H. Archambeau, Ed Harrell, Bob Stratton, Clyde McElroy, Mrs. Barks and Mrs. Neeley Brady of Amarillo.

Why be troubled with dirty gasoline when Guthrie has thoroughly filtered his before selling it to you. The price is right.

Mrs. Neeley Brady of Amarillo is visiting this week at the J. H. Archambeau home. She will be remembered as a former resident of Canyon, the daughter of Wm Muldrow.

Clark Dowlen bought a new Dodge Bros. car Saturday.

Big Paris Fire Tuesday.

Paris, Texas, was swept by fire Tuesday night. Fully 10,000 people lost their homes. The fire swept 30 blocks of buildings, including a large portion of the business section.

Other big fires Tuesday were reported in McKinney, Tulsa and Hobart. The winds were high all day, which was responsible for the spreading of the flames in these towns.

GO NO FARTHER

The Evidence is at Your Door.

Canyon proof is what you want and the statement of this highly respected resident will banish all doubt:

"J. D. Bailey, carpenter, Arkansas Hotel, Canyon, says: 'I had pains across the small of my back and in my sides, which bothered me a great deal. I used Doan's Kidney Pills as directed and they did me much good.'"

On November 17, 1915, Mr. Bailey said: 'I have the same faith in Doan's Kidney Pills today as when I gave my former recommendation for them. They have never failed to relieve me when I have used them.'

Price 50c. all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bailey has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Moving Back to Randall County.

S. E. Roberts and family arrived in the city this week from Winsor, Mo., and will make their home in the Panhandle once more. Mr. Roberts is well known among the old time residents of the city. He came here from Amarillo on a load of lumber with L. G. Conner when there were only four or five families in the county. He was the first man to start a store in the city of Canyon.

Mr. Roberts is a brother of Mrs. W. F. Heller and Mrs. John Knight and has many friends in the city who welcome him and his family back to the city.

Fire Inspector Here.

State Fire Inspector Barrow, of Austin was in the city Tuesday inspecting the new Normal building. Under the law all plans for state building must be approved by the insurance department before construction and after completion must stand the inspection of this department before accepted by the state authorities.

While here Mr. Barrow prepared a report from which the insurance rate on the new building will be made if the Board of Regents decides to insure the building.

City Election Notice.

The State of Texas, County of Randall. Notice is hereby given that an election will be held on the First Tuesday in April, 1916, the same being the 7th day of said month within the City limits of Canyon City, Texas, for the purpose of electing the following officers, to-wit:

One City Alderman for Ward No. One to fill the place held by C. S. Dixon, whose term of office expires at that time; One Alderman for Ward No. Two to fill the place now held by J. E. Winkelman, whose term of office expires at that time; and One Alderman for Ward Three, to fill the place now held by S. R. Griffin, whose term of office will expire at that time.

Said election will be held under the general election laws of this state, and the returns thereof made to the Mayor of Canyon City, Texas.

Witness my hand this 6th day of March, 1916.

F. M. WILSON,
Mayor of Canyon City, Texas
Attest, **C. R. Flesher,** City Secretary.

Precious Paper.

Grand Saline Sun: If gasoline continues to go up, and print paper continues to go up, and linotype metal continues to go up, and printing inks continue to go up, some country newspapers are going to blow up if their subscribers don't come in and pay up.

State Press in Dallas News—The print paper problem is becoming serious. Before the war most of us fondly believed the forecasts of our own country and Canada supplied practically all our wood pulp requirements, hence our print paper supply was assured for a long time. But now we are told that so much of our wood pulp comes from Norway, or some other out-of-the-way-place, and ship room is so scarce, we are being deprived of our normal supply of raw materials for the making of paper—therefore we must pay a great deal more than we have been accustomed to paying. As for that, some of the

paper makers are carrying on in a way to imply that they consider themselves very kind-hearted to permit anybody to buy paper at all; paper is becoming so precious that the manufacturers are inclined to hold their reserve stocks for souvenirs.

Forget It.

Forget the faults of others.

Forget as many disagreeable things as you can.

Forget your enemies, and remember your friends.

Forget all gossip as soon as you hear it, or before.

Forget doubts and fears, and remember hopes and faith.

Forget your own failures, and remember your successes.

Forget the pin-pricks, slights and trivial offenses incident to all life.

Forget to do anyone an injury, but remember to do everyone a kindness.

Forget the evil people of history, and remember the good ones who have made the world better.

Forget all bitterness, cynicism, misanthropy, and remember kindness, philanthropy and helpfulness.

Forget whatever uncleanness you have seen, read or heard and remember the health, purity, chastity and goodness.

Forget the pains you may have suffered, and remember the health and painlessness you have enjoyed for years.

Forget the dark aspect of nature, save in so far as to avoid perils, and remember the harvests and sunshine.

Forget blasphemies and vulgar words, and remember the clean and splendid words of our noble English language.

Forget the crimes told in the daily press, and remember the millions of decent people who are honestly doing their duty.

Forget your own gloomy moods, dark hours, pessimism and despair, and remember your brightest hours and your noblest visions.—Spare Moments.

Their Inheritance.

The babies of the warring nations will receive the burden of the war debts as their inheritance.

President Van Hise, of the University of Wisconsin, estimates the national debts of Great Britain, France and Germany at the end of 1915, giving the total as \$10,419,000,000 for the United Kingdom, \$7,275,000,000 for Germany, and \$10,314,000,000 for France. He points out that these figures do not include the local debts of these nations at the beginning of the war.

No wonder the statesmen of Europe are worrying about the increase in infant mortality. The fewer babies, the fewer workers—it will take millions of men to pay off even the interest on the debts.

And the war is not yet done. What the principal of this strange inheritance will amount to is too enormous for understanding.—Tampa (Fla.) Tribune.

Progressive.

Postmaster—No, not much doin' in taown. Did ye hear erbout Lem Huggins gettin' a telegram?

—give a wide berth to the fellow who is always talking page ads. He's after your money and doesn't care a whoop for your end of it. There are at times occasions for page ads, but for ordinary purposes better divide the page into several parts.

—don't overlook the value of small, well-worded, well-arranged ads, used frequently; they bring far greater results than the spasmodic big-flash.
