

C. C. DONIPHAN SHOT AND KILLED IN LUBBOCK TUESDAY

Young Man and Former Resident of Canyon—Leaves Wife and Two Children.

The people of Canyon were shocked Tuesday by the news of the death of C. C. Doniphan, a former resident of Canyon, who was shot and killed at 6:30 Tuesday morning by K. E. McDonald.

Various stories have been brought to the city, but probably none authentic. The people are awaiting with interest the investigation which is now being made by the Lubbock authorities.

The Doniphan lived for a number of years in Canyon, leaving here only four years ago. Mr. Doniphan was a clerk in the Thompson Hardware Co. and was highly respected.

The body was brought through the city yesterday on the way to Missouri where it will be laid to rest at the old family home.

Mrs. Doniphan and two children survive the husband and father. One of Mrs. Doniphan's sisters lives in Canyon. By chance her father arrived in Canyon Tuesday afternoon on his way home from an auto trip to Colorado, and first learned the news of the death of his son-in-law.

Probably two hundred people from Canyon went down to celebrate with our neighboring city. Practically all made the trip in cars. I. C. Jenkins broke a front wheel of his machine in the only accident reported for the trip.

MY LAST APPEAL

To the Voters of Randall County:

I want to appeal to you for your support for election to the office of County Treasurer. I ask you for your support, feeling that I am thoroughly qualified for the discharge of the duties, and feel that I am not out of my sphere in seeking the office.

It has been impossible for me to see personally every voter, but I want everyone to know that there is not a candidate in the race for any office who will more deeply appreciate your support than myself.

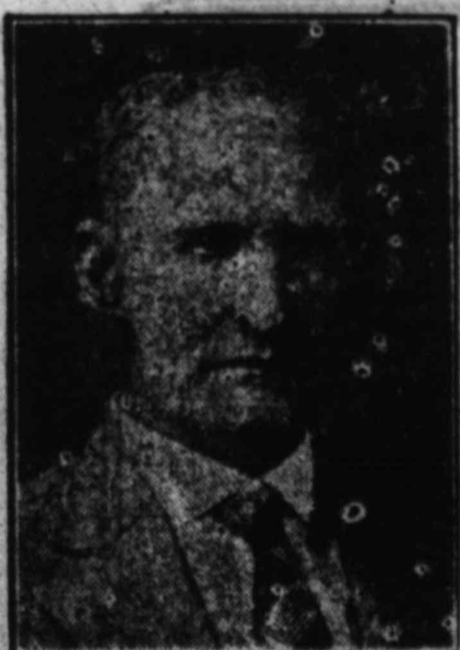

I. V. M. BUIE.

Precinct Meeting.

The democrats of precinct Number One, Randall County, Texas, are hereby called to meeting in precinct convention Saturday afternoon, July 22 at three o'clock for the purpose of selecting delegates to the county convention to be held in Canyon Saturday July 29th.

C. W. WARWICK, Precinct Chairman

Judge B. Frank Buie

Of Canyon, Randall County, Texas, Candidate for Associate Justice Court Civil Appeals, Seventh Supreme Judicial District.

was born and reared at Cerulean Springs, Trigg County, Kentucky, represented that county in the Legislature one term, practiced law at Hopkinsville, Ky., two years, then in 1881, moved to Jones County, Texas, and practiced law in that and surrounding counties till 1898, except two years he was County Judge of that county, then located at Canyon, Randall County, Texas, where his entire time and thoughts have been devoted to the practice of civil law, and if elected, will give his entire time and thoughts to his duties as Associate Justice of said Court. He is a life-time Democrat, but if elected, will not as judge, know any political party, or creed, but will, as Judge, follow the law, which is a rule of action and no respecter of persons. He desires the Democrats of his District July 22nd to select the best qualified man for its nominee; let the result fall on whom it may. (Political advertisement.)

Masonic Resolutions.

Canyon, Texas, July 13, 1916 To the Worshipful Master, Waitens and Brethern of Canyon City Lodge No. 730, A. F. & A. M.

We, your committee appointed to draft suitable resolutions upon the death of Brother W. T. Moreland, beg leave to report as follows:

That, Whereas, Almighty God in his wisdom has seen fit to call our worthy Brother from labor to refreshment and to transfer him to the celestial Lodge above,

And Whereas, we deeply deplore his untimely death and feel that this Lodge has lost one of its most enthusiastic members and the town has lost a most valuable business man and the family has lost a kind husband and loving father.

Therefore, be it resolved by Canyon City Lodge, No. 730, that we bow in humble submission to Him who doeth all things well, that in commemoration of his fidelity and unselfish devotion to masonry, that a page of the Lodge records be set aside to his memory and a copy of these resolutions be spread thereon.

Be it further resolved, that we extend to the bereaved family and friends our heart-felt sympathy in this sad hour of bereavement and pledge to them our support as a slight token of our love and esteem for him.

Resolved further, that a copy of these resolutions be furnished to the family of the departed Brother and a copy be furnished the Randall County News for publication.

Respectfully, R. G. OLDHAM, CYRUS EAKMAN, W. J. FLESHER, Committee

Capt. Tilson Here Saturday.

Captain T. J. Tilson of Plainview, member of the state legislature from this, the 123rd representative district, was in the city Saturday and spoke to the voters at the court house at 3 o'clock upon the issues of the campaign. Capt. Tilson has no opponent this year, but believes that a servant of the people should give an accounting for his public deeds.

Capt. Tilson reviewed his acts in the legislature, telling what he had accomplished for the state and this district in particular. Much credit is due to his untiring efforts for the splendid appropriations for the Normal.

Capt. Tilson says that Governor Ferguson has made a good governor. The Captain is opposed to the changes proposed in the Robertson law, and it was upon this ground that he is making speeches in the district.

Daily Live Stock Reports.

Out in this country, no matter what our particular line of business, we are all vitally concerned with live stock conditions and values.

The basis of the country's prosperity is live stock.

Whether teacher, preacher, merchant, banker, farmer, ranchman, or whatever line, we are interested in the condition, values and tendencies of the markets for cattle, hogs, sheep, and other live stock.

The interest is general and to supply this general desire for reliable information, the First State Bank of Canyon has arranged with the Kansas City Stockyards Company to wire them day at noon a full and complete live stock market report for that day. Receipts, top prices, bulk prices, and market tendency will be obtainable at the bank each afternoon.

The service is free, and public. No matter whether you are a customer or not, whether you have any cattle or other live stock or not, you are cordially invited to call at the bank each day and receive the latest market information.

There are absolutely no strings to the invitation, no obligations incurred in using it to the fullest extent. It is merely one more instance of the desire of the officers of the First State Bank of Canyon to be of the greatest and broadest service to the community from which they draw their business. A daily live stock report from the principal market is an asset to the community, and it is hoped each person interested will not hesitate to avail himself of the invitation the bank is extending.

Club Bath House Complete.

J. T. Service has completed the work on the bath house at the Canyon City Club. He has the contract for building the house. The work of installing the fixtures for the shower bath will probably be completed this week.

ELECTION COMES SATURDAY - CANDIDATES WINDING UP

Returns Received by the Baseball Team at the Palace Cafe—Candidates Closing

The county candidates are doing their last campaigning this week, and looking hopefully to Saturday night for the returns of the primary to give them the right of office. Of course some are going to be disappointed, but so far all are hopeful.

Through cooperation of the News, which represents the Texas Election Bureau, an organization of the leading newspapers of the state, and the Canyon Baseball Team, returns will be received not only from Randall County, but also from all over the state. A bulletin board will be at the Palace Cafe. The baseball boys will serve ice cream and cold drinks. All men will be charged admission, but the ladies are admitted free to the Cafe.

More Wheat Records.

Wm Woods has been helping thrash in the northwest part of the county and reports that Wm Ash made 9 1/2 bushels of wheat to the acre, while J. C. Bybee made 11 1/2 bushels. The quality was very fine, testing from 60 to 64 strong.

M. A. Bingham reports a yield of 13 bushels of wheat from his crop. Wheat is selling this week at \$1.06.

Baptist Church.

Sunday, July 23— 10 a. m. Sunday School. 11 a. m. Preaching by the pastor, subject: "Ethical Standards and where to find them."

2:30 p. m. Sunbeams. 7:45 p. m. Senior B. Y. P. U. 8:30 p. m. Preaching by the pastor. Subject: "Woman, her place in the world, the home and the church."

Buie in South District New.

Judge B. Frank Buie is spending this week in the south end of the district where there are the largest number of votes. He will campaign in the large districts all of the time up to Saturday.

Judge Buie has made a clean and consistent race and indications are that he will be elected by a handsome majority.

RAIN OF NINE-SIXTEEN INCH FALLS LAST NIGHT IN CITY

Covers the County Well—Early Row Crops Look Well in Spite of Long Dry Period.

The first rain for several weeks fell in this section of the county last night, 9-16 being the total precipitation.

Reports received this morning indicate that the county was pretty well covered by the rain.

This is the first rain Canyon and vicinity has received for several weeks. Showers have fallen at places in the Panhandle at various times but the entire northwest Texas has suffered from the drought.

In spite of the dry weather the early row crop has done well but it was beginning to need rain very badly. The most severe feature of the dry weather was the fact that the grass was so short and dried up that the farmers and cattlemen who did not have plenty of extra grass land were getting in bad shape. It is confidently expected that sufficient rain will fall during the end of this month and the first of August to put things back in their natural condition.

New School at Ralph.

A new school building is being erected at Ralph. The building will be 24x40 feet, have one room and be constructed along the lines of modern school architecture.

The school building is being constructed under the supervision of the directors, Wm Schmitz, R. W. Bruce and T. V. Slack, all of whom have a deep interest in the welfare of the school in this community.

Republican Convention.

To the Republicans of Randall County:

Notice is hereby given that a convention will be held at the Court House on Saturday, July 29th at 3 o'clock p. m., for the purpose of selecting delegate and alternate to attend the state convention at San Antonio which meets August 8th to nominate a state republican ticket and transact such other business as may properly come before it.

J. D. GAMBLE, County Chairman. C. F. HUNT, Secy.

Crudginton for Insurance Change.

One of the questions to be voted upon Saturday is stated as follows on the primary ballot:

"For the retention without modification or change of the compulsory investment feature of the Robertson Insurance Law."

And against the proposition as is above stated.

Judge J. W. Crudginton of Amarillo came down Monday to reply to the speech of Captain T. J. Tilson. Mr. Crudginton favors the change in the law. He pointed out the impracticability of trying to force money to do things, when the state needs investments so greatly. He spoke for over an hour giving facts to show that Texas was suffering from lack of investments, and recalled the fact that the legislature spent days last year considering delaying the payment of taxes and interest on school lands because of the scarceness of money.

Mr. Crudginton closed by speaking in the interest of the candidacy of Governor Ferguson. He spoke as a pro who had always lead the fights in Amarillo, and it was under his exclusive management that Amarillo went dry three years ago. He stated he was not fool enough to let prohibition stand between him and right. He scored Morris and the crowd that was running him, stating that it was the insurance trust that had gotten Morris out in this fight, and that it was not a pro fight.

Mr. Crudginton received a close hearing by a good sized crowd of voters and created a favorable impression.

Buie Strong at Shamrock.

Tuesday afternoon at four o'clock Shamrock citizens had the pleasure of hearing an address from Hon. B. Frank Buie of Canyon, candidate for Associate Justice of Court of Civil Appeals for the Seventh District.

Mr. Buie appears to be a very able gentleman and his talk made a very favorable impression, many declaring it to be the best speech made here this year.

Edwards Car Turned Over.

Sunday afternoon there were a number of boys and girls in the Edwards car out joy riding. Things went nicely until the girl who was driving turned a corner at a high speed, when the car turned over. The radiator was smashed, the wind shield broken and the top torn up. One of the girls received a bad bruise on her head and a deep gash in her knee from the broken glass of the windshield.

Felix Grundy, who is manager of the Mineral Wells Telephone Co., stopped off Sunday to visit at the J. A. Grundy home. He is on his way to Colorado.

TULIA CELEBRATION BRINGS LARGE CROWD ON TUESDAY

Estimated Ten Thousand People Attended Anniversary of Founding of Neighboring City.

Tulia was hostess Tuesday to the largest crowd that ever gathered for the 26th annual celebration of the birth of that county. The crowds came from far and near. They came in all kinds of conveyances, but principally in cars. The authorities state that there were one thousand cars in the city that day—and it looked as such.

The celebration started at 11 with a ball game between Tulia and Canyon, the former winning at the end of the seventh inning by a score of 5 to 4. The Canyon boys had not understood that the game was to have been called at the end of the seventh and were surprised when the Tulia team gathered up their outfit and walked off the field, claiming to have won the game.

The afternoon was devoted to speech making by some of the candidates and to the automobile races.

The races were attended by a vast number of people. Automobiles were well lined around the two mile track. The time make was good considering the softness of the track.

Tulia had prepared to take care of a large crowd, but the number was greater than the officials had expected. The barbecue did not last long, but all were fed at the eating houses after some wait.

As a whole the day was very successful and Tulia is to be congratulated upon the enterprise shown in pulling off these annual picnics.

First State Bank Moves.

The First State Bank has moved its banking offices from the old Canyon National building to the banking house at the southeast corner of the square, which it formerly occupied.

The new home has been fixed up very materially and is an ideal place for this growing institution. The entire building will be used by the bank, which gives ample offices for the directors and officers of the bank, together with large and commodious space for the use of their customers.

Britain Buys Photoplay House.

Manager Britain of the Lyric Theatre has bought the Photoplay House and is now owner and manager of both playhouses in Canyon. The deal was made Saturday. D. C. Caraway, former owner of the Photoplay House will remain with the business and will operate the machine in this place.

For the present Manager Britain expects to run both houses, but may close one during the winter. He will continue the use of such high class pictures as he has always shown in the houses he has operated.

Advertisement for C. R. Fleisher. Text: 'C. R. Fleisher CANDIDATE FOR County Judge Of Randall County, Texas. Subject to the action of the Democratic Primary, July 22nd. I am for an economical progressive administration. I believe in better roads and that every foot of road should be finished as it is worked. I have never been a candidate for public office in the past and therefore am not a chronic office seeker. It is as important for the County Judge to be a license Attorney as it is for a school teacher to have a certificate. I secured my education through my own efforts and in Texas institutions. With a Rural School, State Normal School and State University education, together with experience in teaching in the Rural Schools of Texas, I feel that I understand the needs of the Rural School, and if elected County Judge, I will use my best efforts to advance the Standard of the Schools of Randall County. Give the young man a chance. C. R. FLESHER'

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of his place, "with sick headache, and stomach trouble. Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old. I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried. We never have a long spell of sickness in our family, since we commenced using Black-Draught." Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms. It has been in constant use for more than 70 years, and has benefited more than a million people. Your druggist sells and recommends Black-Draught. Price only 2c. Get a package to-day. N. C. 12

Culberson Is Very Feeble.

Senator W. A. Johnson, of the Memphis Herald was in Washington City a few days ago, and in his paper says: "While in Washington we saw Senator Culberson in the senate chamber. We were really shocked at the feeble condition of the man. He is as white haired as a centurion and is palsied to a degree which almost prevents his getting about. His hands when he does not grasp something to steady them will jerk continually as much as a foot and he can scarcely walk about the senate. The fact is we never saw a man so badly palsied in all our life. He should be retired to rest and his friends are not favoring him when they insist otherwise."

The Telephone Saved a Life

When one of our men was badly injured by the threshing machine we telephoned the doctor, who told us how to patch the man up. The doctor then started for our place in a hurry. When he arrived the man was pretty weak, and without the doctor's advice the results might have proved serious. Thanks to the telephone, the man pulled through. Every farm should have Bell Telephone connection. Write our nearest Manager for information. The Southern Telegraph & Telephone Company. C. R. 14

PICAYUNES

No man questions a man's standing in a street car.
No, Virginia Elizabeth A football coach is not an ambulance.
Eggs are on the free list, but nobody has yet been heard crowing about their cheapness.
When out killing time do not kill your welcome at a friend's office by wasting his time.
Girls may go to palmists to have their hands read, but they don't go into saloons to get their noses red.
The fact that we shan't take our money with us when we die must be a great consolation to the legal profession.
We saw one of the most remarkable men in the city last week. He made the response of the marriage service loud enough for everybody to hear him.
That New York minister should have known better than to have preached from the text "Well done, thou good and faithful servant," at a recent cremation.

The Los Angeles correspondent of the Philadelphia Record says that the local policemen, having nothing else to do, are now making paper flowers to decorate the jail.—New Orleans Picayune

WORTH KNOWING

Some noted American trees are the following:
"Old Liberty tree," at Boston
"The Burgoyne elm," at Albany.
The Ash tree planted by Washington at Mount Vernon
"The Cary tree," a large arbutus near Mt. Pleasant, O.
The "Wawona tree" of Mariposa Grove, California, 28 feet thick.
"The Washington elm," at Cambridge, Mass., under which Washington took command of the American army, July 3, 1775.
The weeping willow over the grave of Cotton Mather, near Bunker Hill, taken from a tree that shaded the grave of Napoleon at St. Helena.

CONDENSED WISDOM

When respect departs love packs its grip and hikes.
Why owe any one a grudge when we can pay as we go?
The silent watches of the night—those we forget to wind.
Love may not be a disease, but it frequently shows a rash nature.
Unless a man possesses self-control he is little better than a slave.
Most of the golden opportunities offered you will not stand the acid test.
It's hard to convince a man that he ought to work when he doesn't have to.
Many a man would gladly take the bull by the horns—if the bull would stand for it.
We may discover a fault in a friend in ten seconds that we probably couldn't discover in ourselves in ten years.

INSHOOTS

Cruelty and cowardice are twin brothers.
A large yell does not always win the football game.
It is hard to pick the winner in another fellow's game.
It is difficult to render soulful music with a calloped voice.
There is no position so undesirable as that of the figurehead.
Bluff is not real worth, but it often helps to keep things moving.
When some fellows air their grievances the whole world seems bad.
There is a lot of petrified wood that passes for family trees in this age.

SCIENCE NOTES

Experiments by a large telephone company have proved that 1,500 wires can be crowded into the same size cable heretofore used for only 150 wires without impairing their efficiency.
A patent has been granted in England to a man who claims he has invented an airplane that will be able to float 1,000 feet in the air, his idea being to coat it with a metal that will reflect the atmosphere surrounding it.

For a Sore Throat.

A cleansing gargle for the throat when suffering from tonsillitis or an attack of quinsy can be prepared from bicarbonate of soda. Dissolve a heaping teaspoonful of bicarbonate of soda in a coffee cup of boiling water and add to this two drops of the essence of peppermint. Use the gargle while it is quite hot—not enough to burn the throat. Repeat the treatment every four hours. Do not go out of doors after using a gargle, as there is danger of aggravating the condition in the throat.

Get Salt From the Ocean.

Guam has no salt deposits unless the great Pacific ocean which surrounds it can be called such. All the salt consumed in the island is evaporated from sea water in kettles in the age-old fashion employed by the natives of all sea-coast countries and islands. When a "boiling" is in progress the natives take occasion to produce a quantity of sugar as well as salt, the sugar being derived from evaporating the sap from the coconut tree.

A Remarkable Lottery.

Perhaps the most remarkable lottery was that in France in 1660, when the conclusion of peace and the marriage of Louis XIV were celebrated. It was drawn publicly and under the inspection of the police, and the first prize 100,000 livres, was won by the king himself. He would not accept it, however, and it was left over to the next lottery in which he had no ticket.

What He Would Do.

"What would you do, Jimson," asked Professor Brainfag, "if you saw a man fall dead in the street without apparent reason?" "I really wouldn't know what to do, sir," answered the young student. "I think I should just let him lie there. It would certainly be wrong of any man to drop dead in the street without first giving his reasons for doing so."

Look Trouble in the Face.

It is well to learn to look physical trouble in the face; to cheerfully order one's life for better living, without making too much fuss about it; to take care of one's health as a simple obligation to one's self, to one's family and to the community; but not to regard every ache and pain as a national calamity.

Breathe Well and Keep Well.

To breathe well helps to keep well. To live longer and better make it a habit to take some breathing exercise each day. Are you aware that ordinarily you use only one-tenth of your lung space? Is it any wonder that diseases of the respiratory tract are contracted so easily?

Easy Way to Use Liniments.

Put the liniment in an atomizer, such as is used for perfumes, and when needed to use just squirt the liniment on the affected parts and rub with the tip ends of the fingers. I have tried this for some time and find it not only very convenient, but it is a great saving of the liquid.

Ready for Him.

(George (nervously)—"Madge, dear, I am about to ask you to—"
(Madge (breaking in)—"Wait just a minute while I fix my hair." (She runs out of the room, and returns holding a dictagraph behind her.) "Speak loudly dear, I've got a cold."—Siren.

Worth Knowing.

To remove rust from steel rub the rusted part well with sweet oil and allow it to stand for 48 hours. Then rub with a piece of soft leather and sprinkle with finely powdered unslaked lime until the rust disappears.

Their Reasons.

When a man is jealous of a woman it is because he loves her. When a woman is jealous of a man it is because her monopoly of him is threatened.

The Suicide Age.

According to an Italian scientist who has classified 4,000 cases of self-destruction, more suicides occur between the ages of fifteen and twenty-six than at any other period in life.

Can't Be Done.

"It's me" is an "idiot," says a Harvard professor, and is allowable. It is allowable largely for the reason that we haven't standing army enough to suppress it.—Houston Post.

He Probably Would.

"I am looking," remarked Diogenes "for an honest man." "And what will you do when you find him?" "I dunno, I'll probably have to lend him money."

Daily Thought.

Our grand business is, not to see what lies dimly at a distance, but to do what lies clearly at hand.—Carlyle

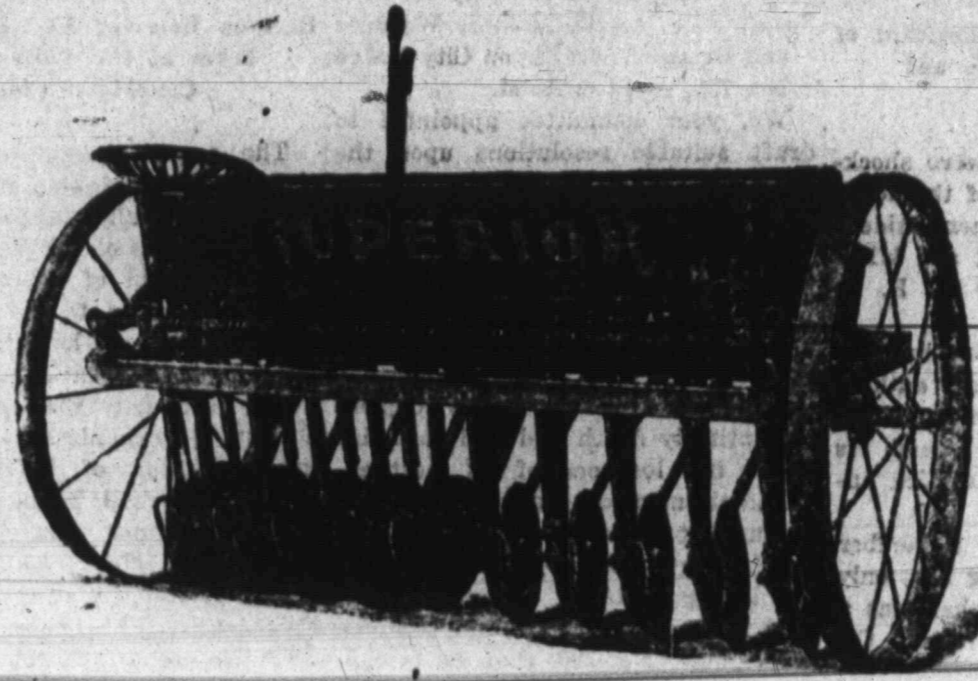

Work.

"Work is not man's punishment; it is his reward and his strength, his glory and his pleasure."—George Sand

Optimistic Thought.

It is not the greatness of a man's money that makes him independent as much as the usefulness of his work.

Superior Disc Grain Drills

The word "SUPERIOR" best expresses the qualities of this important farm implement—it is superior in workmanship, durability and simplicity and above all is superior in quality and work. More even distribution of the seed than from any other drill made. The control of the amount of seed planted is absolutely perfect. We carry in stock the 12 to 16 disc drill, with or without grass seeders and press wheels, and are selling them to the best farmers of this section, because these best farmers know that the Superior is a name that tells a true story and is a standard make for which repairs may be had on short notice.

Thompson Hardware Company

A Little Advice.

The Brownwood Banner-Bulletin offers the following good advice to its readers: Don't look for flaws in your neighbor. Differ with him if you must, upon subjects of religion, politics and science; argue with him and gain enlightenment, play with him and gain recreation, pray with him and gain understanding. But don't seek in him the things you do not wish to find.

Tulia Herald—Miss Fannie Lee

Hutchison returned to her home in Canyon Thursday, after a pleasant visit at the home of Roy Ross and family.

Roy Ross and wife and Mrs. Mack Crawford were in Canyon last Friday to witness the ball game played by the Memphis and Canyon ball teams—Tulia Herald.

 E. F. KING.

Kill Mexicans.
 Some of the Mexican railroad laborers on this road met death at the hands of a section boss in an Oklahoma town last week. It is reported that because he discharged one of the greasers the balance of the crew wanted to hang him. He promptly shot and killed the entire bunch. It is reported that they have been caught tempering with the rails with a view of wrecking the troop trains. We learn that all section foremen have been ordered to go armed. Better still, substitute white labor for these objectional characters—Pampa News

The triumvirate—the weather man, the cow man and the ice man.

One day of splendid weather atoned for a week of the worst.

Exercise never soars in price. If you can't afford a bicycle, try walking.

What has become of the old-fashioned countries that indulge in "pour parlers"?

Scarcity of dyestuffs may do something to counteract the tendency to over-decoration.

The dove of peace gets most of the advertising, but the stork manages to deliver the goods.

The high price of quinine is not causing half as much alarm as the high price of gasoline.

Too many men insist on coupling "There's no place like home" with "Better late than never."

Diplomacy sometimes asserts itself at the art of prolonging an argument until it wears itself out.

Of all glad words of tongue or pen, the gladdest—at this season—are these: to wit: "Fair and warmer."

Preachers are still issuing "don'ts" for husbands, but the set the latter observe is the one laid down by wives.

Some fellows think because a girl is pretty, she ought to be eager to cook and wash dishes for them for life.

There comes the occasional unbidden thought that the kind of a tablet to erect to a bicyclist victim is one of the same.

New styles for men have been announced, but the old-fashioned statesman will continue to wear a white flannel tie.

The average man feels that humanity will always be imperfect until it comes round to the point where it will agree with him.

A chilblain on one foot will do much toward keeping the mind off a corn on the other foot, thus maintaining a sort of mental balance.

The young man who never listens to advice need only gaze in the mirror to behold the reason why his pay check never increases.

Don't think the clerk is going to swallow your "four bits" when she puts it between her teeth; she's read about the counterfeiters.

The worst is yet to come. A national dressmakers' strike is among the many plots of the day against the joy of living.

A Philadelphia Judge has decided that chickens cannot be kept in the residential sections of the city. He must know the neighbors.

Our conception of a thoroughgoing idealist is a man who insists on sending one of the new spring seed catalogues to the suffering Poles.

A woman's magazine tells of a dozen ways to eat onions. The fellow we sat next to in the street car the other day had evidently tried 'em all.

A good deal of noise would be prevented if everyone who mouthed the words "act vigorously" were required to say just what he meant by the term.

Secret service agents have located another very poor counterfeit, but the average citizen can point out several among his acquaintances who are still at large.

Following the announcement that the college girl is a modern Venus, it is not surprising that the colleges have installed courses on love and marriage.

The welfare secretary who says society girls live on froth evidently has never seen what one of 'em can do to a brace of mutton chops in the privacy of the home.

Sometimes it happens that a woman will not leave home because she has nothing to wear, while her husband wants to get away from home because he has nothing to eat.

Two-thirds of all the automobiles in the world are in the United States. We suppose people in the other countries do not buy automobiles unless they can afford them.

Although Prof. David Starr Jordan protests against the rapidly increasing low-brow contingent, the fact remains that somebody has got to make a living for the highbrows.

An advocate of thrift argues that every family would save money if it would stop trying to keep up with the procession. But many families crave money to spend for that very thing.

Out of the waste of orange-wood the government has found a way to make a certain yellow dye which has heretofore been imported. Some day, maybe, after we have experimented with more of our waste and raw materials, we shall find ourselves independent in a good many more ways than we have ever suspected possible.

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain—sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real* reason for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheer-fullest investment you ever made!

the national joy smoke
PRINCE ALBERT

News in Brief.

Women students at Oregon Agricultural College are superior to the men in scholastic attainment.

Orders have been issued to the owners of dogs in Vienna and other Austrian cities to exchange the grass labels on dogs' collars for labels made of iron. Seventy thousand dogs' brass labels have already been handed to the war material department.

"Kashka," dry buckwheat and cold sour milk, is said to be a favorite staple food of the Russian troops, while another is "stchee," a soup of which the chief ingredients are cabbage, potatoes, oatmeal and fat meat, pork being preferred.

Investigations among the three great industries—the Southern cotton group, the glass industry, and the Pennsylvania silk group—show that more than two-thirds of the girls employed are under 20 years of age, while the proportion of married women runs from 10 per cent up to 60 per cent.

Under the rule of the monarchs of old Peru the birds were rigorously protected and the guano deposits carefully guarded. Three centuries later these protective measures materialized in a source of revenue to the country. Generation after generation of sea-birds had placed their breeding grounds deposits of guano which, in 1853, were estimated to be worth \$620,000,000.

Not red women alone, but white women in Oklahoma are subject to the vote of Indians. The Osage tribe of Indians to the number of 2,000 men have recently been made full-fledged citizens, and their votes will help to determine the government of Oklahoma, while women of college education women whose industry has assisted to develop the state, are debarred from having any part in the administration of affairs.

Raising fish in the ponds lying idle on their acres, as recommended to farmers by the United States bureau of fisheries, may look practical to the farmers themselves, but it can hardly look romantic to their sons. For when the scheme is carried into effect, the rare paternal word of a utilizing peach and apricot pits has morning. "Boys, let's go fishing," will become so very different from "Boys, let's go hoeing."

The government of Holland has made the woman suffrage measure a definite part of its legislative program. A bill making suffrage possible through amendment to the constitutional laws of the Netherlands has just been brought into parliament. The bill involves also other changes in organic law. It proposes to extend the right of voting to all male citizens who have reached the age of 23 and are not excluded by certain disabilities, and "also to female citizens who have reached the same age."

The passage of this bill will not bring suffrage into being, but will pave the way for it.

The department of agriculture has found that several valuable products are procurable from the cherry pits and juice now thrown away by canneries. The kernels of the seeds can be made to yield fixed and volatile oils as well as a meal suitable for cattle food, while the juice ordinarily wasted in the pitting process may be used for jelly, syrup or alcohol. It is thought that it may be possible to manufacture a very good substitute for imported almond oil. Some 1600 tons of cherry pits and 150,000 gallons of juice are wasted yearly at present, it is estimated. An industry utilizing peach and apricot pits has been profitably established in California.

Lax-Fos, A Mild, Effective Laxative & Liver Tonic Does Not Grip nor Disturb the Stomach.
 In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not grip nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

This dry weather is certainly fine for the fellow who don't like to push their breeding grounds deposits of citizens who have reached the age of the lawn mower and cut weeds.

SUBSCRIPTION, \$1.50 PER YEAR

PRIMARY ELECTION.

The News has not had a great deal to say during the present campaign as it believes that with the tons of campaign literature that has gone to every county, the voters have had a pretty good chance to find out who is running and what they are advocating.

The primary ticket for Randall County is printed on page three of this issue.

Randall County will vote for submission, as she always has done. The News favors it strongly.

For United States Senator, we believe that Dr. Brooks will get by far the largest number of votes in this county. His close friends say he will get more votes than all of the other candidates put together. He is a strong man and should be elected.

Nelson Phillips should be returned to the Supreme Court as Chief Justice. He is one of the brainiest lawyers the state has ever produced and he is an honor to the bench.

Our friend and neighbor R. W. Hall will get almost the solid vote of Randall county for Associate Justice of the Supreme Court. He will honor the place and the men who put him there.

There is no question about the governor's race. Governor Ferguson has made the best governor the state has had for years and it would be nothing less than a to elect the man who is opposing him upon the platform he is advocating over the state.

Looney, for attorney general, is a third term. He has done very well, but Woods is as capable a man. If you object to a third term, vote for Woods, since Rowland will cut no figure in the race. The News is for Woods. He is as good a pho as Looney and not half so full of egotism.

Mayfield has made a good Railroad Commissioner and no doubt will be re-elected. Rufus Daniel is no doubt his most able opponent, and if you don't like Allison Maffield, get Daniel a vote of encouragement, for we believe he will one day be a member of the commission.

J. M. Edwards has looked after the office of state treasurer well. He is a good man. Our neighbor Jno. W. Baker of Crosbyton is in the race. If you wish to support a Panhandle man, Baker will appreciate your vote.

A. J. Harper is asking for re-election to the Court of Criminal Appeals. He is a good judge, and will no doubt be re-elected. W. C. Morrow, a pro is opposing him. Harper is an anti.

Davis is asking for a second term as commissioner of agriculture. He will no doubt be re-elected. He is opposed by H. A. Halbert of Coleman, a good western farmer, whom we hoped would stay out of the race until Davis had had his usual two terms. However Halbert will get a big vote in the west and you will not miss it by supporting him.

H. B. Terrell is asking for a second term as comptroller of public accounts and will be elected. He is opposed by Chas. B. White. Terrell has made a good official.

For Congressman-at-large there is the usual large number to select from. Jeff. McLemore, an anti, and J. H. (Cyclone) Davis, populist-prosperational-spell-binder, is the other present incumbent. Jeff is the anti choice for re-election, while Hugh Nugent Fitzgerald, editor of the Ft. Worth Record, is the other anti choice. The News is interested in two men—the election of Daniel E. Garrett and the defeat of J. H. Davis. Take your choice for the other bunch. McLemore is almost certain to go back, and so will Fitzgerald be elected to the other place if the pros don't get solidly behind Garrett. The old Confederate soldiers are supporting S. C. Padelford, himself an old soldier, for Davis' place. Many pros favor H. L. Darwin.

We believe that the fundamental principle of the compulsory investment feature of the Robertson Insurance Law is wrong and that the people will vote to change it.

The people generally realize that John H. Stephens' time of usefulness has past without his having accomplished anything worth while. It looks better for Jones than any of the other opponents. This county will go for Jones and he claims he will win over Stephens and the other two candidates.

By all means vote for our friend and fellow townsman B. Frank Buis for Associate Justice Court of Civil Appeals. He is a man who can fill the place and you will be proud of

him in the event of his election. Vote Saturday, whether you vote for any of the men we have mentioned or not. You owe it to you state to express an opinion of the man most capable to fill the public offices. Don't forget your poll tax receipts.

Many people in this county are yet undecided as to how they will vote in the congressional race next Saturday. With many people it is simply a chance of picking the man whom they think will beat Stephens. Perhaps Jones has by far the largest following in Randall county of any of the candidates opposing Stephens. But it is a question in the minds of many whether he will be able to land sufficient to beat the old man. Jones claims he has a majority in the big populated counties of the east end of the district. Ellerd claims the same thing. Prescott is not in the race more than to get a few scattered votes. The News believes that Jones has the best chance of the three, but we are still doubtful of his being able to win enough to land over Stephens. However, his many friends in Randall county are working hard to carry this county for him, which would help in the grand total.

Dr. Brooks will carry Randall county by a large majority. It is almost evident that he will be one of the men in the second senatorial primary. The News has a hunch that Senator Culberson will be the other man. It looked months ago that Colquitt would be the anti leading candidate, but according to reports from down the state, there has been a great change favoring Culberson.

The coming of the submarine merchantman is another big surprise of the war. If Germany turns the submarines and their torpedoes loose, and are able to start trade with United States through the merium of the submarine merchantman and the zepelins, the war will not be terminated so quickly as some people think. The inventive talents of Germany are truly at work for the benefit of that country.

After Saturday a bunch of defeated candidates will be telling you "how it happened". But they should be satisfied that they can now turn their attention to as productive and probably as remunerative work as holding an office.

A country that can make 7 to 15 bushels of wheat to the acre without rain is pretty sure to do wonders in normal conditions. The Panhandle is a wonder whether dry or normal. It is the coming country.

Governor Ferguson not only is going after a second term, but he is looking out after the interest of his friends. It is a wise man who does not overlook the welfare of his friends.

Vote for submission Saturday if you are interested in seeing the sa-lours driven out of Texas.

Primary election next Saturday. Don't forget your poll tax receipt.

NOTES AND NOTIONS.

Mayor Henry D. Lindsley of Dallas runs a 2,500 acre farm, producing only small grain and feedstuffs. He also has a fine dairy herd. Mayor Lindsley, besides being a good mayor is an excellent farmer.

It is said that 90 per cent of the American men who have died during the past few years have left less than \$1000 for their families. Americans waste—and then keep on wasting.

The waves were rude. Head down she stood. "Some feat," said he. "You brute!" said she.

Hughes may be delaying active campaigning until all of the family pictures are printed.—Ex

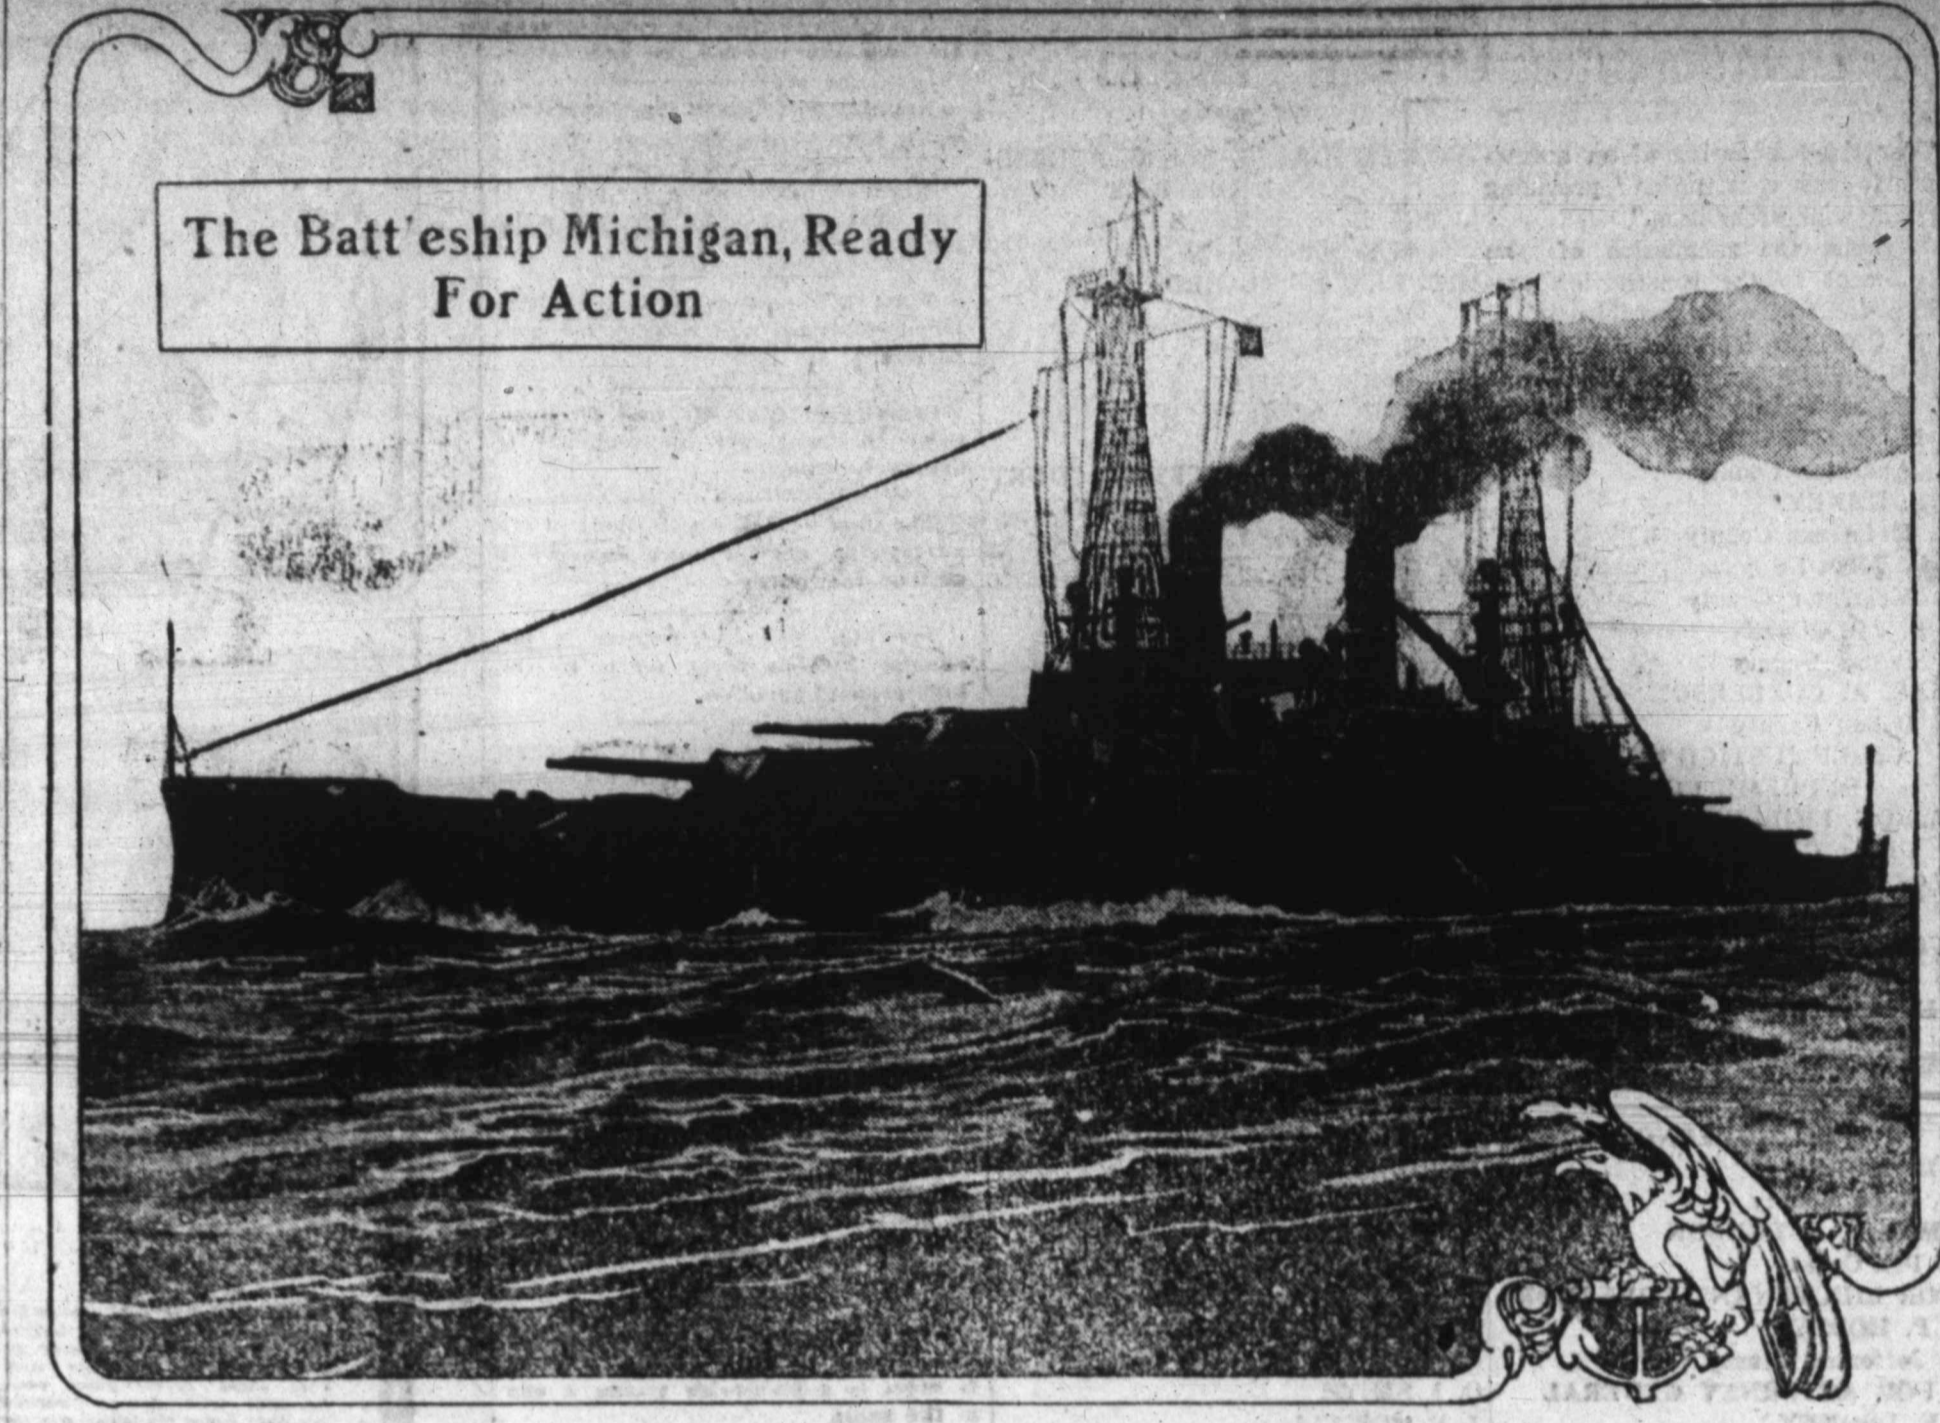

"Survival of the foolish" is the way the Dallas Evening Journal looks upon the time honored custom of formally notifying the presidential nominee of his selection months after he has accepted.

Callan of the Star-Telegram says: Of course, we are not going to shut up our chickens. Take your flower bed in the house.

Which is as sensible and many Canyon poultry fanciers talk.

The submarine up Salt Creek leaves promptly at seven o'clock Saturday night. Randall county will have a number of passengers—but none of them expect to go.

Candidate Parker says "let's bury the progressive party" and start one not on personality, but on principle.

which is talking unkindly about the formerly chief Bull Mooser.

Villa seen—or was it his ghost.

McLean pulled off a big celebration on Tuesday and Wednesday.

The McLean News has been advertising its building for sale. Thought perhaps Arthur found so much pleasure in loaning money at that new bank job he has considered selling the house and letting Mrs. R. publish the News in a tent. But last week's paper announces the completion of a new brick printing plant building.

Quite a bunch of candidate pictures will go the "hell box" Saturday.

The Dalhart Texan complains about too many "soda pop" bottles being thrown in the roads around that town and ruining auto tires. Perhaps they are not all in the "soda pop" class.

President Wilson has nominated to the supreme court Hon. J. H. Clarke, of Clarke. New York "is now without a representative on the supreme court," as put by the Associated Press. Why should N. Y. more than any other state be entitled to a supreme court justice all of the time?

Why should the state say that insurance companies must invest its money in any particular place, more than it can make the same demands from individuals?

J. Bull, owner of the ocean, let one slip by him, and now more are coming.

Canyon City Club Notice.

At the last meeting of the stockholders of this club it was determined to collect from all members who were in arrears for dues above \$6.00. Notices to that effect were sent such members. This is to inform them that, without further delay, suits will be instituted against each such delinquent for said dues and for foreclosure of the corporation lien on their stock. This is the very last word. By order of the Board of Directors. H. W. MORELOCK, Secretary-Treasurer

Build the Home Fair.

(A. M. HOVE) The fairs in the Panhandle have been so arranged this year that the owners of registered herds of cattle, hogs and other live stock will be able to show at many fairs. This will give everybody in the Panhandle an opportunity to see prize winning live stock without great expense for travel. This is important in a section so favored by nature for the production of meat and dairy animals.

But the home part of the county fairs is yet to be made. Everything that grows has a place in the local fair and the younger people should especially be given a chance to show what they can do in the way of production of everything. The pig, the colt, the calf, every variety of poultry is entitled to a place in the local fair. Everybody needs take a hand to show what the country can do. The management will look after the entertainment.

Book Club Programs Out.

The News has just completed the Woman's Book Club program booklet, which gives the course of study for the year 1916-7. The Club will study this year Shakespeare's Antony and Cleopatra. The first meeting will be held on September 13, which will be a social meeting with Mrs. S. L. Ingham hostess.

The following are the officers of the club: Mrs. E. A. Stafford, President. Mrs. J. E. Winkelman, Vice Pres. Mrs. J. B. Gamble, Secretary. Miss Almada Wiley, Treasurer Mrs. L. G. Allen, Librarian.

Mrs. R. B. Cousins, Parliamentarian.

The Club was organized in 1906 and has been prominent in the social life of Canyon.

Santa Fe Insurance Plan.

Every employe of the Santa Fe Railway in the service two years or more has after July 1st this year the advantage of life insurance without cost. The benefit goes directly to the family of the employe. The lowest amount to be paid is \$250 and the highest \$3,000. It is figured on the pay of the employe and the number of years in the service of the com-

pany. The longer the service the greater amount of the benefit.

The plan is not philanthropic. The purpose of the company is to give its men safe insurance in exchange for faithful service and ability to stay on the job, as the employe as a rule becomes more valuable as he becomes older in service. The matter has been under consideration for nearly two years and the system effective July 1st will be given a fair test.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor "bugging in head." Remember the full name and look for the signature of E. W. GROVE, INC. COME TO CANYON TO LIVE.

FEUD AND FINISH

By CATHERINE CRANMER.

"If you really need me, Aunt Virginia, I'd gladly abandon my plans, but it does seem such a dreadful waste to spend one's whole life in Granby."

"But I dislike the thought of your having an office just as a man would and depending upon that for your very living." Miss Carlisle followed this remark by a careful scrutiny of the tiny stitches in the monogram she had embroidered on Virgie's rough linen artist's apron.

"By the way, Aunt Virginia, tell me the cause of that old feud between our family and the Pollards." "Now what made you think of that?"

"The news that Stanley Pollard III, has bought back the old family place, and, according to the gossips, is over there now instructing his tenant and signing up his bargain."

"But tell me, Auntie, what was the cause of that quarrel?" "Oh, a mere matter of a disputed boundary line between lands in the first place. Old Mr. Pollard was adamant. Grandfather Carlisle would not budge from his position either."

"Why, last week, when I went up to the office building to inspect the office I'd rented, I got out of the elevator and went down the corridor to the corner room facing the river."

"After I had left orders for my office walls to be tinted buff," she continued, "I imagine my rage when I walked into that room and saw workmen doing those walls in a bilious yellow. A tall young man who stood there as if he had all sorts of authority, scarcely deigned to notice me, but I swept into the room, exclaiming: 'Stop work at once until I've seen the manager!'"

"The young man who rose at her entrance," smilingly advanced a step toward her and then paused, looking at her expectantly. "Mr. Pollard?" she began icily, but Mr. Pollard twice removed from the family feud was coming nearer, with a boyishly frank smile on his honest face.

"Yes, Miss Carlisle, and I'm going to be your neighbor part of each year. May I hope that we shall be neighbors in truth and forget the unhappy relations of our forefathers? Will you accept my apology for whatever folly was on my family's side and my forgiveness for any folly that may have been on your family's side?"

Fine Cattle at Pashandle State Fair.

At a meeting of the Fair Association in Amarillo last week the secretary was instructed to write to all important cattle breeders within two hundred miles of Amarillo, and urge on them the benefits to be derived from showing cattle at the Fair; also the importance of making entries at an early date.

Pres. Hazlett of the American Hereford Breeders Association will be at the Fair with an exhibit of pure bred Hereford cattle from his ranch at Eldorado, Kansas, and J. R. Kenser, secretary of the Association, together with many prominent members from Kentucky will pay the Fair a visit.

Nearly 200 entries from the Boys and Girls Club are in up to this time. It is stated that one of the surprises at the Fair will be the many entries in the Swine Department. Two years ago this department was very small, now it ranks next to the Cattle Department.

In fact, the Fair is going to be larger and better in all departments. Let the people of the Pashandle and Plains country unite in making their Fair one of the best in the west, for there is no better medium than the Panhandle State Fair for assembling their vast resources and showing them to the world at large.

An immense crowd gathered at the hospitable home of H. E. Wesley and wife July 8th to celebrate the marriage of their youngest daughter, Miss Ella, to Mr. Fred Hex, with a six o'clock ice cream social. The marriage took place in Canyon on the same date. Quite a number accompanied them to Canyon. Everyone enjoyed the occasion.

Quite a number of cars from Wayside attended the Tulia annual picnic. S. C. Sluder and sons, Ernest, Roy and Guy from Hereford, visited W. J. Sluder and family the 18th. L. B. Rogers and wife of Grapevine with Mrs. S. J. McGehee and Merle Jenkins of Canyon are visiting and visiting the Wayside kin.

Mother McGehee and her family spent Sunday with J. M. McGehee. Verner Gilham, Odell Gilham, Jno. Currie, J. C. Payne, Miss Mattie McGehee and J. S. Sluder are among the delegates leaving Happy Sunday for Austin to attend the farmers institute.

"Damaged Goods for Canyon." "Damaged Goods" the great problem play and moral uplift will be shown in Canyon next week. This is a powerful and convincing picture in seven reels, showing the terrible consequences of vice and the physical ruin that follows abuse of the moral law.

It is a stirring plea for a pure life before marriage, in order to make possible the transmission of hereditary taints to future generation. Rev. Ernest C. Mobley, of Amarillo, said: "It is the greatest lesson of its kind ever presented on any screen and every woman and man in Amarillo should see it."

Wayside News.

Protracted services will begin the 4th Sunday at Wayside, conducted by Rev. J. A. Bell of Silverton, assisted by Rev. Shearer of Tulia with Wiley Fort of Silverton as singer.

The weather is extremely warm, light showers have fallen in places, but is much needed at present. Lightning set fire to grass in Payne Bros' pasture a few days ago, burning off about 25 acres of grass. Showers of rain falling soon after assisted the men in putting out the fire.

Lem Fisher and sister, Miss Sybil, came in the 4th of July from Oklahoma. Mother Bradford's health is much improved. She is able to work in the garden and enjoys it. Is able to ride and visit quite a bit.

The wheat crop is harvested and will soon be threshed. Some have finished threshing. Yield is not so good as past year, but the grain is exceptionally fine. Turned out much better than was thought possible earlier in the season.

Reeves, Silas and Miss Willie Evans formerly of Armstrong county but now of Nenna, N. M., camp in and helped with the harvest around Fairview.

Remove over-active cockerels to a separate yard. Clean up the incubator, remove the lamp and throw away the wick. Soft fresh dirt is an insurance against leg weakness in chickens.

Add to the grain feeds with a mixture such as bran, shorts, and corn meal. Do not keep unnecessary male birds. An extra hen eats no more and may lay eggs.

When range is limited spade up the runs or move the brood coop a short distance daily. Spoiled or decaying flesh, if eaten, will surely cause limber neck. Burn or bury the dead.

Watch for head lice on the chicks. If found rub top of head with a small piece of lard free from salt. Avoid crowding by keeping in small flocks and by providing roomy coops. Thin out if there are too many.

Among the unique affairs of the season was a sunrise breakfast Sunday with Miss Mabel Rowan as hostess, given in honor of Miss Martha Gulike of Amarillo. Those who were recipients of the pleasing compliment were Misses Martha Gulike, Mamie Conner, Bina Cochran, Mary Grundy, Ira Cochran, Ruby Ballard, Ermee Conner, Corine Hamill, Charlotte Ingham, Mary Dorcus Cullum, Inez Arrington, Elva Fronabarger, Mildred Roberts, Messrs. Morgan Caraway, W. Buicher, Jack Figh, H. B. Gamble, Ernest Reid, Dunlap Lester, Remer Ballard, Robert Donald, Rector Lester, Clarence Thompson W. D. Howren, Edgar Roberts, Wayne Cousins, John Toles, with the hostess who were assisted by her father and mother in entertaining.

This week is the last week of review for the summer Normal students. The last series of examinations begin next Monday. Messrs. Moreland and Reid spent Wednesday afternoon in Amarillo. Mr. Hill motored to Amarillo Tuesday afternoon.

Next Sunday afternoon at 2:30 the Young Men's Christian Association will have an open meeting. All are invited—both men and women. Following is the program: Opening prayer—Mr. Hill. Scripture reading—Donald Baucom. Quartet, arranged by Cleveland Baker.

Address—Social Life and the Individual—Martin L. Peterson. Last Monday was canyon day for the Normalites. Several groups spent the day in the canyons. Miss Fannie Locke, a sister of Margaret and Frank Locke, is spending the week in Running Water.

President Cousins made a trip to Miami the middle of the week. Billie Biggers, who was called home last Saturday, has returned to school. Card from Herbert Miller.

The News has the following word from Herbert Miller, one of our force, who left last week for the Mexican border to join his troop: We arrived at San Antonio Thursday morning and are joined with 17 more troop "B" men that have been run in since the call. Troop B at Laredo will be here about 4 o'clock and we will all go to Morfa, Texas, so please send me a last week's R. C. News to address. We have had fine treatment. We just had mess and they gave us an extra large feed as this is our last feed in this camp: Bill of fare, all the light bread we wanted, 2 spoonful of navy beans, 1 spoonful of tomatoes, 1 spoonful of slaw, and an onion. We were vaccinated yesterday morning for smallpox and got about a pint of typhoid juice shot in our arms. The vaccination is not sore, but the other is swelled up nearly as large as my leg. We have three more shots coming to us which will be about two weeks apart, I think. We also had our physical examination. Nobody failed. We got two full suits of brand new clothes and new equipment yesterday and are all ready to go.

HERB. Every thought marks a line on your brain. The more you think it, the deeper you sink it. Think the same thing often enough and it eventually becomes a groove—an instinct. When good thinking, clean thinking, efficient thinking become habits, they automatically lead to good work, clean living, and efficient methods. Success is a consistent, persistent mental attitude.—Herbert Kaufman.

CLASSIFIED ADS

For Sale—Old school building at Ralph. Sealed bids will be opened Saturday, July 29 at 3 o'clock p. m. Mail or hand bid to Wm Schmitz. p1
