

W. T. S. N. C. GROWTH HINDERED BY LACK OF ROOMING FACILITIES

The State Legislature Should Pass Appropriation for Building a Large Dormitory for The Needs of This Institution

The West Texas State Normal College at the end of the first week has an enrollment of 709 in the regular college and 163 in the Training School making a total of 872. Students are arriving on every train and there is every prospect of an enrollment of 800 or more college students. On account of the late closing of schools, many teachers were unable to arrive for the opening and this explains the continued arrival.

Boarding facilities are taxed to the limit and it is apparent even to the wayfaring man that something must be done in the very near future to accommodate the rapidly increasing student body. The institution has facilities in many respects adequate to take care of 1000 students, but it has reached its maximum size until living conditions can be expanded and improved. Students are now living in considerable numbers one and one and one-half miles away from the college. Some of them have been compelled to crowd into small and unsatisfactory quarters and a few have left because of a lack of satisfactory boarding accommodations. It would seem that the only solution is a system of state owned and operated dormitories. At one time the legislature made appropriation for a dormitory, but the measure was vetoed by Governor Colquitt. This is one case in which the Governor's veto power was exercised very much to the detriment of the public welfare. With an investment of nearly a half million dollars here it seems false economy to fail to make these facilities available to all who wish to make use of them.

With the opening of the summer session there has been considerable change in the personnel of the Normal College faculty. Several teachers are away for a leave of absence, and some places which have been vacant for several months have been filled:

Supt. Lee Clark of Wichita Falls, formerly Sec'y of Conference of Education in Texas, arrived Monday and will have charge of physical Education for men.

Miss Edith Cousins, daughter of former president R. B. Cousins, an active worker in the Y. W. C. A. of the University of Texas, will be Y. W. C. A. Secretary for the summer session. Miss Abbie Graham is off for the summer working for the Y. W. C. A. Southwestern headquarters.

Miss Annie McDonald, of Amarillo, is taking the place of Miss White in the training school. Miss White is taking the place of Miss Lamb, who went to her home in Colorado, to spend the summer.

Miss Sibyl Brown will be supervisor

of art and drawing, taking the place of Miss Aiken who will travel this summer. Miss Brown was trained in Columbia University of New York, and has been doing art work in the public schools of San Antonio.

Superintendent B. F. Sisk, of Vernon, Texas, M. A., educated in Columbia University, formerly member of the faculty of the University of Texas and author of several text books will teach in the Department of English.

Mrs. Frank Anderson of Howard Payne College, Brownwood, is taking the place of Miss Mary Morgan Brown. Mrs. Anderson was trained in Emerson College of Oratory of Austin.

Supt. B. M. Harrison of Childress, an A. B. from the University of Georgia, formerly Superintendent of the Plainview and Hereford Schools will teach mathematics.

L. F. Hill of Berkeley, Calif., has just received an A. B. degree from the University of California, will teach in the history department. Studied the past year under Dr. Dolton, formerly of the University of Texas faculty.

Miss Frederika Swartzlander, of Omaha, Nebr., A. B. of the university of Nebraska, will take the place of Miss Michel, in charge of physical Education for women who has gone to Chicago to study.

Supt. L. M. Fertsch of Hereford, University of Texas man, who has had wide experience in school supervision will take up instruction work in Science department.

Miss Sula Cook is taking the place of Miss Hibbetts in the primary grades of the training school. Miss Cook is a graduate of the W. T. S. N. C., and has had wide and successful experience in primary teaching. Miss Hibbetts has been elected to the faculty of Peabody College, Nashville, Tenn., a school nationally famous.

Miss Hamah Smith, who has been absent about a year doing graduate work in the University of Texas, will return to the Department of English this summer.

F. E. Savage, principal of Johnson Street School in Amarillo, for seven years superintendent of the Floydada schools, will teach mathematics this summer. He will be superintendent of the Tulsa schools this fall.

Miss Ruth Stafford, daughter of E. A. Stafford, who has been teaching in the Fort Worth schools, will teach reading and spelling.

J. K. Wester, Superintendent of the Ralls schools, will teach several subjects in the Normal this summer.

Randall County Is a Coming Dairy Section

MATERIAL PROOF OF THIS IS SHOWN BY INCREASING CREAM CHECKS

Those who have tried dairying in Randall county, even though, on a small scale are of one mind that this will be a leading dairy country at no far distant date. Every day we meet and talk with farmers who are receiving cream checks which go a long way towards paying their farming expenses, and when they harvest their crops the returns will be left intact.

One day this week we had an interview with Rev. A. B. Haynes, who has been farming and dairying on a small scale for several years. He states that at present he is milking seven cows a day, three of which are grade Holsteins and one a thoroughbred. He is raising eleven heifer calves and his cream checks amount to from \$4.00 to \$4.40 a day. These cows have averaged as high as 40 pounds a day at their best and one is giving 44 pounds of milk a day.

Mr. Haynes has a registered Holstein bull and intends to build up a large dairy herd. He has no doubts

Precipitation Is Very Heavy Over the Plains

UPWARDS OF 20 INCHES HAVE FALLEN AT CANYON SO FAR THIS YEAR.

It seems that the year 1919 is destined to be a wet one from start to finish. The year opened with heavy rains on the ground and the spring has been filled with almost daily showers and in no case has a week passed by without precipitation. Probably no less than 20 inches have fallen in Canyon this year. No accurate record was kept before April 1st, as the rain gauge man was away from town. Since April 1st, 10 1-2 inches have fallen. One-half inch fell Monday evening, five-eighths inch fell on Tuesday evening and one-half inch fell Wednesday evening, of this week.

On grazing sections and along the country roads, prairie grass has grown like alfalfa and farmers have been mowing it for hay. Cattle graze for a few minutes in the morning and are to be seen lying down for the rest of the day, all sleek looking and contented.

There have been steady winds and cool days until what little rust has accumulated on the small grain crops

RED CROSS WILL STAGE "HOME COMING" EVENT THE FOURTH OF JULY

Every Family in Randall County Is Urged to Come to Canyon and Make it a Day for The Returned Soldier

OLYMPIC THEATRE CHANGES HANDS

W. J. Wooten has purchased the Olympic Theatre in Canyon from Dye, Ford and Rogers of Amarillo. Mr. Wooten is from Happy and formerly conducted a mercantile business at that place. He will move to Canyon at once. C. R. Tate will continue in his present position at the theatre. He stated to a News representative yesterday that the high standard picture service would be continued and only the latest films featuring stars would be shown. We welcome Mr. Wooten to Canyon and wish him success in his new venture.

If the plans of the joint committee of the Red Cross and Townspeople are realized, Canyon will see one of the greatest celebrations in its history on the Fourth of July, in honor of the Randall county boys who were in the service of their country during the war.

The committee has been quietly at work for several months arranging for a celebration for the boys, but the time and events were not given out until yesterday.

Every man who has been enlisted in any department of war work within reach of Canyon is expected to be present. It is asked that they wear their uniforms where it is possible. A parade under the management of R. A. Terrill will start at eleven o'clock a. m.

Every family in the county and town of Canyon is expected to be present, and everybody is expected to help the entertainment along on that day in any way they can. All should bring dinner to the court house lawn at 12:30 o'clock. T. C. Thompson will be the manager for this dinner. Don't forget to bring plenty of chuck for this feed.

There will be canteen service in the court house for the soldier boys under the management of R. A. Terrill. In the afternoon there will be sports stunts and contests of all kinds, and probably two ball games during the day. Any Panhandle Plains team aspiring to the championship had better beware on that day. Canyon will have a team in the field at that date. (We also believe a team can be organized on the west side of the square which can wallop anything that can be gotten up on the east side.)

A good band will be on hand all day, efforts are being made to bring the New Mexico Military Institute band here for that date.

There will also be entertainments at night.

This year the Fourth will have greater meaning to the American people than ever before, celebrating a great historic victory for freedom of an oppressed people and a recent victorious struggle to preserve Democracy, to the world. On this day the whole nation will do homage to the boys who have served the cause, and Canyon should lay aside all its business worries and not pretend to do anything but put on the greatest celebration Canyon has ever had. Let's count the days!

New Equipment Added to Agriculture Dept.

THIS SCHOOL WILL SOON SUPPLY NEED OF WEST TEXAS FOR A. & M.

A News representative inspected the equipment of the agricultural department of the Normal College Monday evening and was surprised at the development this new feature of the school is making. The implement barn now contains a wagon, side delivery hay rake, corn binder, two-row tractor cultivator, grain drill, three-section harrow, fan mill, and a new tractor is to arrive some time this week for use in breaking 135 acres which will be leased, adjoining the campus. At present there are only about ten acres available for experimental field work. This fall the school will probably have the use of one light and one heavy tractor.

Two incubators and one coal brooder are now in use in the poultry department. Prof. Fred H. Ives in charge of the agricultural department stated that he expects to ship in some thoroughbred dairy stock this fall. At present there are two hundred students taking subjects in the agricultural department.

It is the belief of many prominent visitors to this school that the state should enlarge the agricultural department of this school by giving it the land and equipment and in this way fulfill the need of West Texas for an A. & M. College, saving the state many thousands of dollars which the building of a separate institution would cost.

CLASS ROOM SCENES IN THE DOMESTIC SCIENCE DEPARTMENT OF THE NORMAL COLLEGE.

McMillan Geography Is Adopted in Texas

PUBLISHERS WRITE TO COUNTY SUPERINTENDENT FOR VIEWS OF COUNTY

County Superintendent of Schools, Judge C. R. Flesher received a letter this week from the McMillan Publishing Company, stating that their geography had been adopted as a Texas text book and asking for cuts of Randall county alfalfa fields and views of the Palo Duro canyons for use in their new geography. These cuts and pictures have been supplied. This will be quite an advertisement for Canyon and the adjoining country. Particularly will favorable publicity be given the beautiful scenery in the canyons, little of which is known about them by the people of the East.

METHODIST ENTERTAINMENT POSTPONED.

"A Trip to Germany", a delightful evening's entertainment being planned by the Methodist Ladies for June 16 has been postponed indefinitely, because of difficulty encountered in wiring the school building properly for the lights for the entertainment. Other arrangements will be made and the entertainment will be given at a later date.

STORK SPECIAL.

Born Saturday, June 7th, twins, a girl and a boy to Mr. and Mrs. E. J. Hamerick.

SIXTEEN PAGES IN THE NEWS EVERY WEEK FROM NOW ON

The News' readers will probably be surprised to find an extra eight pages in their paper this week. We are going to surprise them every week, for the News will issue sixteen pages until further notice, indefinitely if the readers like it. By special arrangement and at considerable expense, we have been able to add a second section to the News giving reading matter of human interest which space has forbidden carrying before. There will be pages of women's styles, sporting news, news in picture, farm development information, and with this issue a new serial is beginning. The News will be the only paper in this section to carry this feature. We have bought it for our readers and hope they will like it. The subscription price of The News will be the same as before, \$1.50 per year in advance, in addition giving the Southwest Plainsman. Tell your friends about this offer. We want every one in this section of the Plains and Panhandle to take The News.

THRESHER SOLD FOR \$1,000.

The thresher separator advertised for sale at public auction Monday by John A. Wallace was bid in by W. J. Hill, a party living near Amarillo for \$1,000. The sale was well attended by parties from all over the Panhandle. Mr. Hill has an engine and will run a threshing outfit this summer.

as to this being a natural dairy country. His checks and net returns are proving it.

In addition to this dairy herd, Mr. Haynes is raising this year 25 acres of wheat, 6 acres of oats, 14 acres of barley and five of alfalfa. The yield from this acreage will be immense. He will plant the rest of 140 acres in row crops.

REAL ESTATE AND CATTLE TRANSACTIONS.

A. B. McAfee has sold his interest in the McAfee and Dobbs ranch, lying northwest of Canyon to Mr. Dobbs his partner, who resides in Kansas. The deal embraced 13,295 acres of ranch land with a considerable of \$270,000. This is one of the largest ranch deals made in this section in some time.

August Menke has sold his farm thirteen miles northwest of Canyon to a Mr. Matthews.

Mrs. W. F. Thurman has sold her ranch consisting of four sections to Robt. Proide.

Jim Smith has sold his place north of town, to a party whose name we were unable to obtain.

George Foster sold a house and lot in the southeast part of town to D. Thomas.

B. S. Arnold sold an oil lease on 80 acres in Block 131 to Miles G. Bivins, this week for a consideration of \$1,600.

J. A. Oden has purchased 1,000 head of two-year-old steers from a party at Odessa, and shipped them to his Glenrio, N. M. ranch.

has been eliminated. Crop conditions on the Plains this year are undoubtedly as ideal as any one would dare hope for.

Wheat and oats are now waist high and above, all with heavy heads, and even stand. We have seen fields of oats on the valley land just north of Canyon which will probably yield 75 bushels to the acre. There are many fields like this and much of the wheat will run thirty bushels to the acre.

Some fields are already beginning to turn and binders will probably be in the field in two weeks. That the farmers are preparing to harvest a record breaking crop is shown by the fact that one local firm has sold over 40 binders and harvesters in the past month and over 25,000 pounds of binder twine. There will probably be a shortage of harvest hands. The government labor bureau is endeavoring to place harvest hands needed in this section. In some localities the merchants have agreed to close up an hour or two early and go to the fields and work until dark. If necessary, this can be done in Canyon, to handle the county's million bushel wheat crop.

CANYON GIRL RECEIVES B.A. IN UNIVERSITY OF TEXAS

Among the graduates of the University of Texas receiving the A. B. degree was Catherine Ada Terrill of Canyon.

Luther and Ford Fronbarger came in the first of the week, from Camp, having received their discharges.

U. S. EMPLOYMENT BUREAU PLACES 65,263 MEN

Incomplete returns on placements by the United States Employment Service through its 494 officers for the week show that 65,263 secured employment or 63.4 per cent placed of those applying for jobs. During the week 103,047 registered with the Service seeking aid in securing employment, 94,009 were referred and 65,263 reported back as having actually been placed.

Of those placed 13,051 were females and 52,202 were males. Of the male placements 10,792 were discharged soldiers, sailors and marines.

During the same period employers placed requisitions with the United States Employment Service for 110,446 workers.

REPRESENTATIVE SATTERWHITE HERE

The Hon. Lee Satterwhite, state representative from the Amarillo legislative District and editor of the Panhandle Herald of Panhandle, Texas, was in Canyon Wednesday morning and spoke in chapel to the students of the Normal college. He expressed surprise at the rapid growth this school is making and pledged himself to do all in his power to further the interest and growth of the school. Mr. Satterwhite went from here to Austin to attend the special session of the legislature. At this session appropriations for needed improvements in the W. T. S. N. C. will be passed upon.

NICARAGUA ASKS AID OF UNITED STATES

LANDING OF AMERICAN FORCES TO PREVENT THREATENED INVASION REQUESTED.

TOOK OUR FRIENDLY ADVICE

Concessions and Help Given During War Cited as Grounds for Request for Assistance.

Washington.—Nicaragua has asked the United States to land forces there to cope with a threatened invasion from Costa Rica. The state department is investigating the situation.

The Nicaraguan delegation here, declare that following the collapse of the revolution in Costa Rica, President Tinoco has massed large forces on the frontier.

Tinoco, whose brother, as minister of war, is at the head of the Costa Rican army in the field, has charged that the Nicaraguans aided the revolutionists. The Nicaraguans have denied the charge and cited that it was the liberty party in Nicaragua, members of the old Zelaya regime, that went over to Tinoco.

"We believe that the time has arrived when the United States, in view of the friendly attitude that Nicaragua has manifested in giving that country the option for building the canal through Nicaragua and for the cession of the two naval passes, and also bearing in mind that Nicaragua entered the war against Germany in harmony with the United States and to aid the allies, should take a hand to protect Nicaragua against her foreign foes.

"The presence of a hostile army on our border is a constant menace to the peace of Nicaragua. In accordance with the plan by which the United States gives us friendly advice, we think that the United States should give us the moral and material protection of a sufficient guard on our frontier to prevent an invasion."

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine "Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Telegraph Operators to Strike.
 Chicago, Ill.—A nation-wide strike of telegraph and telephone operators who are members of the Commercial Telegraphers' Union of America was ordered to take effect during this week. The order was issued at general headquarters of the union here on telegraphic instructions from S. J. Koenekamp, international president, who was in Pittsburgh on his way to Chicago.

Mexican Laborers Will Be Admitted.
 Washington.—Following a conference between Senator Morris Sheppard, J. S. Cullinan, president of the Texas chamber of commerce, Secretary Wilson of the department of labor, and Commissioner General of Immigration Caminetti, the department of labor authorized an extension of the period for admitting Mexican labor into Texas for agricultural purposes.

Wilson May Leave in Ten Days.
 Paris.—President Wilson, it is now regarded as probable, will leave France for the United States within ten days or two weeks.

Cuts Army Bill \$400,000,000.
 Washington.—As reported out of the house military committee the 1920 army bill carries only \$810,000,000, a decrease of \$400,000,000 from the estimates made by the war department.

Discharged Men Entitled to Mileage.
 Washington.—Men discharged from the navy and naval reserve who have mileage claims against the government may obtain payment under an order issued by Secretary Daniels.

REJECTION OF GERMAN PROPOSALS ASSURED

ALLIED PEACE DELEGATES WILL HAVE REPLY READY BY END OF NEXT WEEK.

Paris.—Positive instruction have been issued by the council of four to all commissions working on the reply to the German counter-proposals to complete their reports as soon as possible.

Premier Lloyd George, because of a division of opinion and differences among the British experts working on reparations, is acting as his own expert and is attending the meetings of the reparations commission.

The Italians are showing great uneasiness over the unsettled Adriatic problem, as Premier Orlando insists that it must be settled before the Italian parliament meets June 18.

A general drive along the line for a speedy completion of the reply to Germany has been noticeable for the last two days. The experts have been meeting constantly and there is a general disposition to wind up differences, which a member of the American delegation said would be reconciled speedily.

In French official circles there is a growing conviction that Germany will not sign the peace treaty. The reply will be submitted as an ultimatum with a short time limit in which Germany will either have to take or leave the conditions as offered them.

The most important modification under consideration, namely, the question of reparation, probably will not involve any material changes in the treaty as originally presented.

The instructions to the reparations commission in the proposed supplementary agreement would enable the Germans to know at once the amount of reparations due under certain "categories" of reparations, such as pensions, separation allowances, maintenance of war prisoners and the destruction of ships at a fixed figure per ton.

It is understood that the question of a plebescite in Upper Silesia practically has been decided affirmatively. No change with regard to responsibilities, punishment of the former emperor or the disposition of the German colonies is regarded as probable.

"I am convinced that our treaty project violates none of my principles," President Wilson is quoted by the *Matin* as having said when he was made acquainted with the German counter proposals to the peace treaty.

The members of the American peace delegation, disturbed by the reports that copies of the German peace terms have reached New York, is undertaking to check up all the copies issued in order to ascertain if they are missing.

It is understood that the Berlin government is sending photographically reproduced copies of the peace terms to every United States senator and representative.

Harvest Help From Mexico Wanted.
 Dallas.—Reports received from 53 of the leading commercial associations throughout the state indicate an increasing shortage of farm labor. With the exception of six localities, the demand for more help is general. In several instances it is said that returning soldiers show a disposition not to accept work on the farm. The action of the Texas chamber of commerce in contemplating steps for the abridgement of the immigration laws affecting Mexico is in most cases indorsed.

6,000 of 36th and 90th Disembark.
 New York.—The *Madwaska* delivered the first contingent of the ninth, the draft division from Texas and Oklahoma, consisting of 22 officers and 305 enlisted men, and the Von Steuben brought in units of the thirty-sixth division. The Pretoria docked with the entire 144th infantry. Three thousand men and officers of the ninth were landed from the Santa Cecilia at the Bush terminal piers. All units have gone to Camp Mills, L. I.

West Texas Asks for Trucks.
 Stamford, Texas.—Porter A. Whaley, general manager of the west Texas chamber of commerce, has telegraphed the Texas delegation in congress requesting their assistance to obtain assignments of army trucks for west Texas to assist in the harvesting of the grain crop. The suggestion made a short time ago by C. C. Gumm, chairman of the executive board of the west Texas chamber of commerce, that these trucks should be used has not met with enthusiastic approval in west Texas.

Daniels Urges Greater Navy.
 Annapolis, Md.—Secretary Daniels, in an address at the graduating exercises at the United States naval academy declared that the closing of hostilities did not mean the United States navy could "rest on its oars," but that it must surpass its great war record by a greater record in peace.

Bolshevik Leader is Executed.
 Munich, Bavaria.—Levine Nissen anarchist agitator and one of the leaders of the Munich communist soviet regime, has been executed at Stadelheim.

Kell to Represent Millers at N. Y.
 Frank Kell of Wichita Falls was chosen as the representative of Texas millers at the conference to be held in the offices of the United States Grain corporation, New York June 10.

Take Care of Your Horses

We are glad to have an opportunity to reproduce the following spring circular sent out by the Boston Working Horse Relief Association. Observation of these recommendations will benefit both the horse and his owner:

1. Do not fail to provide clean, warm quarters in which your cows, ewes and mares can bring forth their young. Navel ill comes from dirt.
2. It is dangerous to expose young stock, especially foals and colts, to spring rain-storms. A day's exposure, if not fatal, may stop a month's growth.
3. It is bad policy to turn the stock to pasture before the grass has well

started—bad for the pasture and bad for the stock.

4. When the pasture season begins, turn the stock out at night, instead of in the morning. Then they will feed through the night, and not lie down until the sun has warmed the air and the ground.

5. Get your horses into condition for spring work—the young horses especially. Many a colt has been ruined by being put to hard work without preparation. It is the same with green horses.

6. In warm weather, thorough grooming is almost as important as feeding. Without it, dried sweat, dead skin and dirt clog the pores, make the horse uncomfortable and affect his health.

7. Look out for sore shoulders and backs, especially in plowing. Be sure that your collars fit. A collar too big is as bad as one too small. If the collar rides up, use a martingale, or a girth running from trace to trace back of the forelegs.

8. When the horses are at work on a warm day, lift the collars now and then to wipe off the sweat and dirt with a bunch of grass.

9. Wipe off the harness marks on your horses when you stop work at noon and at night, and clean the inside of the harness, the collars especially. The salt sweat, drying on the skin and on the harness, is what makes the trouble.

10. If the skin is wrinkled under the collar or saddle, bathe it with diluted vinegar or witchhazel. If the skin is broken, bathe it with clean warm water containing a little salt. Fix the collar, with padding or otherwise, so that it will not touch the sore spot the next day. A little carelessness at the beginning may cause a lot of trouble to you and suffering to the horse.

11. Clean your horses at night, water them, give them a good bed, and water them again after they have eaten their hay so that they will not be thirsty all night. Let them rest an hour or more before they are grained. The observance of these simple rules will not cost you a cent and will make a big difference in their condition.

Rheumatism Relief—25c.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you must give you prompt relief and satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

HOLLAND DRUG CO.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Turning the Turkey Trick

Few turkeys develop to marketable size in less than six months. Provide them with ideal environment and it may be done. Certain phases of the weather, such as long drouthy or repeated drawn-out storms, directly hinder the young bird's growth. The earlier the eggs can be hatched after May 15, the longer the period of growth before the first holiday demand. A marked difference in size exists between turkeys with ages varying but by two weeks, nor does the discrepancy ever seem to be overcome. Eggs should not be kept too long and it is very difficult this spring to get eggs of any kind.

Their vitality depreciates rapidly. The little turk, issuing from the egg set as soon as laid, is noticeably sturdy. If, in addition, the eggs are the product of hens two years old or more, the young have a double heritage of strength. In recognition of this fact, most growers set surplus turkey eggs under ordinary hens. As soon as the turkey hen shows a decided intention of keeping her nest, she should be given her eggs. Incubators can be used, but one runs less risk of tampering with the vitality of the unhatched bird by entrusting it to a hen or turkey. Thus is uncovered one secret of the successful raiser—a sturdy hatching.

Why are turkeys generally considered difficult to raise? Chiefly because those who engage in the venture are hampered by their knowledge of the habits of chickens. The similarity of young fowls to turkeys is merely superficial. On vital points they differ radically. Turkeys are voracious without a chicken's ability to assimilate great quantities. They require a certain amount of exercise as an aid to digestion, yet too much running wearies them to the point of exhaustion. Little ones confined lack sufficient roughage—supplied by green food, such as alfalfa, clover, rape, etc.—with sad consequences, unless generous provision is made in each meal. Their rapid feathering drains their vitality heavily. Witness the dragging wings of weak, eight-day turkeys. Already they are lagging in the race.

Ventilation is a vital necessity, but drafts on turkeys court trouble. Soured food, which a chicken might eat with impunity, works havoc with their digestion. In short, to rear them with a measure of success, one must studiously avoid offending their habits with which by observation we may easily become acquainted. Failure with turkeys, aside from mishaps, springs from the attempt to force them to conform to an unnatural regimen. There are diets a plenty. The chief difficulty is in selecting a diet easily and cheaply prepared, and best suited to their needs. The list is diverse and lengthy: Meal and bran mash, meal and middlings mash chickfeed, curd, boiled wheat, boiled rice, baked cornbread, rolled oats, bread crumbs soaked in milk.

Whatever is used in the way of a cereal, chopped green feed, such as alfalfa, onions, garlic, lettuce or fennel, should predominate. This lessens the danger of digestive disturbance. Hard-boiled egg is the factor common to all diets. Mashers are excellent, but require the exercise of good judgment in the quantity given. If the last particle is not eaten at night, it is apt to sour by morning, and trouble ensues. The best all-round feed for young ones after the first week is a good chickfeed with chopped onion tops, hard-boiled egg and curd, if available. Chickfeed cannot ferment unless it becomes wet. Black pepper is a good stimulant given occasionally to counteract any tendency to diarrhoea.

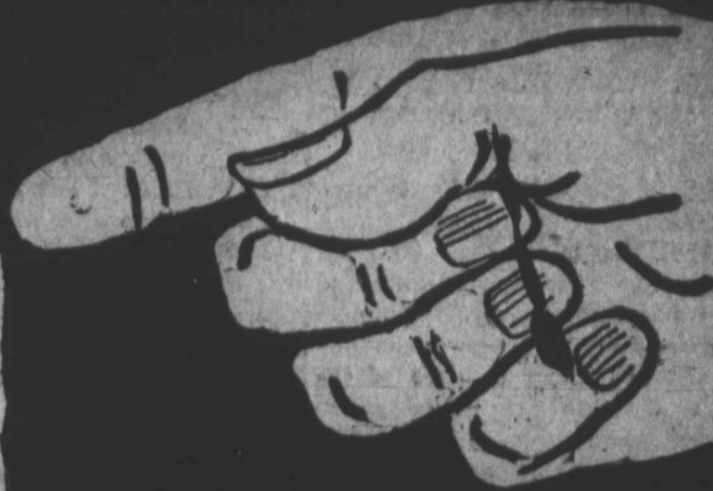

Every ranch presents its own problem as to the proper place for the

Why Do We Sell Nettleton Shoes?

Try on both kinds as these: "Will wear as long as a Nettleton," "As stylish as a Nettleton," "As well made and well finished as a Nettleton." "Very well," said we, "if Nettleton Shoes are the standard of quality, we want them for our customers." Experience has justified our decision.

THE FAMOUS AMARILLO, TEXAS

material is being put on the ground for both.

Near Glenrio there are several drilling contracts and actual work is expected to begin on some of them soon.

There is considerable leasing activity around all the locations and in fact leases are changing hands all over this section of the Plains at good figures.

A new oil company has been formed in Amarillo, and will be known as the Goodnight Oil company with office over the First National Bank. This company owns about 2235 acres of land in Armstrong county and their capital stock is \$85,000.00. A deep test well will soon go down on section 145, block B-3, being part of the 2235, about one-half mile from the Goodnight home. This well will be drilled with a California rig and Standard tools, and the contract calls for 3000 foot well unless oil or gas

is found in paying quantities at a lesser depth.

W. A. Turner of Fort Worth is president of this company, and he is considered one of the most successful operators in the Burk Burnett field. Col Goodnight, one of the oldest citizens in Armstrong county, is vice-president. R. L. Yates of Wichita Falls, secretary and treasurer, will have charge of the office here.—Southwest Plainsman.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

PERSONAL MENTION

S. J. Moore of Hereford was in Canyon last Sunday.
Vins Skypala of Umbarger, was in town yesterday on business.
C. P. Hileman left Friday morning for New Mexico to visit a son.
Herb Miller spent the week-end in Big Spring, visiting with friends.
Jim Redfearn is serving on the federal jury in Amarillo this week.
Miss Alice Prichard returned home Saturday from Lockney where she had been visiting friends.
Otis Truelove, attorney of Amarillo, was in Canyon the first of the week, on legal business.
Dave Hamlin, E. L. O'Neal, Prof. W. E. Reeves, all of Wayside were in town yesterday on business.

Mr. and Mrs. B. C. Taylor and family and Miss Tenie Thompson visited relatives in Hereford Sunday.

Mrs. Elkins left Friday for Portland Oregon, where she goes to make her future home with her mother.

Mrs. Chas. Thatcher, and Charles, Jr., of Amarillo are here this week visiting W. E. Thatcher and family.

Mrs. W. L. Browning and Mrs. Fred Luke were in Amarillo Tuesday attending the Spring Musical Festival.

Mrs. Myra Smith came in from Littlefield Sunday and will resume her old position in the sheriff's office.

W. A. Chaffe of Garber, Oklahoma, has been here this week looking after a section of land he owns southwest of town.

Ben Scott and bride of Enid, Okla., stopped off in Canyon Friday, on their honeymoon. Mr. Scott formerly lived in Canyon.

We still have two 12-foot McCormick Push Machines, complete with binder attachment for sale.—Thompson Hardware Company.

J. E. Bates of Greenville, has been in Canyon this week looking after business interests and visiting with his father, W. E. Bates.

Mrs. F. E. Gano left for Dallas last Saturday to attend the bedside of her son-in-law, Mr. Wilson who was seriously ill. He afterwards died.

Prof. T. P. Guenther made a trip to Austin this week to represent the Normal school in a conference with the State Superintendent of Schools.

Marguerite Goode and Zerah McReynolds left yesterday for Eastland Texas, where they will take positions with the Pipkin Grocery store at that place.

Mrs. M. R. Sewell of Vernon, Texas, has been here the past month visiting with her daughter, Mrs. Grady Holland, and returned home yesterday morning.

W. F. White of Amarillo was in Canyon yesterday on business. He recently bought a section of land adjoining his 5-section pasture southeast of town.

Mr. and Mrs. Levi Angel returned Tuesday morning from Mineral Wells where they have been spending the spring months for the benefit of Mr. Angel's health.

Ervin Allen, lately discharged from the army was here the past week visiting with his sister, Mrs. C. A. Higdon, and has now gone to White Deer to make his home.

W. J. Flesher returned Tuesday morning from Austin where he went last week on a business trip. While in Austin he attended a class reunion and meeting of the Alumni Association of the University of Texas, of which he is a member. He reports excellent crops all over the territory he has covered, but none so good as those on the Plains. South Texas is seeing some hot weather.

TRACTOR DEMONSTRATION AT THE NORMAL MONDAY

Under the direction of the Agricultural Department of the West Texas State Normal College, the Kibbe Tractor Company gave a demonstration of the Cleveland tractor. The demonstration was well attended, and the bystanders were enthusiastic over the work done by the little tractor that is built like a war tank. Five acres were listed, double listed and planted to row crops by this tractor. L. G. Kibbe of Dallas, head of the company and E. B. Mullenaux, manager of the Amarillo branch were present. The tractor was driven by J. C. Hales, instructor in the 13th division of Motor Transport Corps. He was severely wounded in the fighting in France, by a shell explosion which killed twenty-eight men, and has just been released from the hospital.

OUR GRANDFATHERS

drenched horses for colic. That was the old way which was uncertain and unsafe. Farris' Colic Remedy does away with drenching—is applied on the horses tongue with a dropper which comes packed in each bottle. Get it today. We guarantee it.

W. H. HICKS.

S. B. McClure, J. A. Hazlewood and N. C. Browning were in Pampa yesterday on business.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

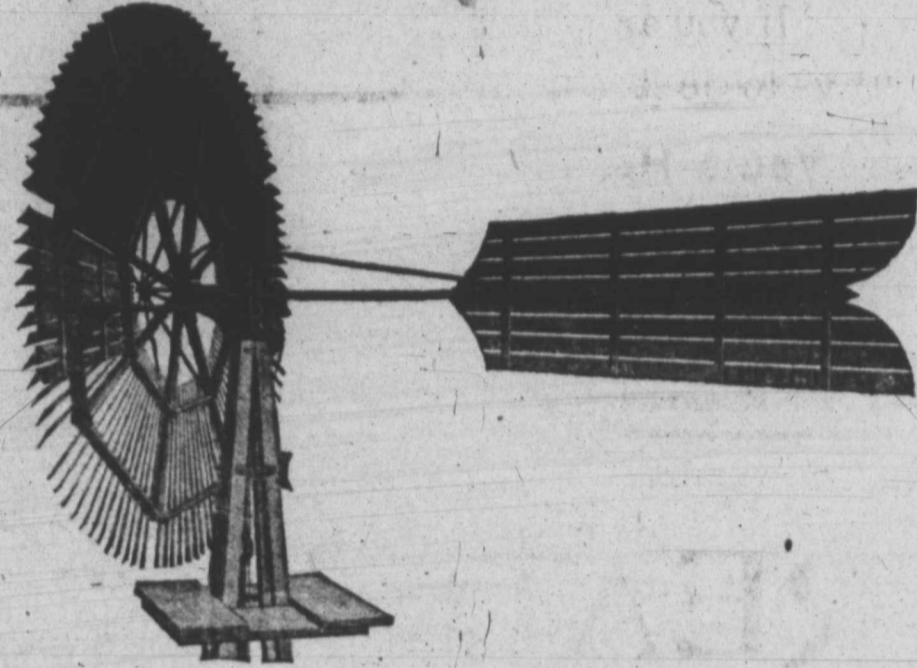

Mrs. Dell Nixon and daughter, Miss Hazel left Sunday for Eureka Springs Arkansas, where they will spend the summer for the benefit of their health. Mr. Nixon will join them later on.

President J. A. Hill has been called to Austin to appear before the Senate Finance Committee on Monday-morning of next week.

J. W. Reid went to Crosbyton on the fifth of June where he delivered the commencement address of the Crosbyton high school. Crosbyton has a very progressive school. Mr. Reid returned very enthusiastic about crop conditions in the vicinity of Crosbyton. He states they will harvest crops this year which the state will talk about.

Mr. Schee, vice president of the First Joint Stock-Land Bank of Chicago, came in today from Des Moines, Iowa, to look after business interests and visit with his father, Nathan Schee.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles, and you can get instant relief itching Piles, and you can get restful sleep after the first application. Price 50c.

Eclipse Wind Mill

The Old Reliable which has long been tested and never denied being the longest life and most dependable and least of upkeep. All repairs kept in stock. Have in stock all sizes 10 to 16 foot.

THOMPSON HARDWARE CO.

RURAL LIFE CONFERENCE ON TUESDAY AND WEDNESDAY

President Hill has just received the program of the Rural Life Conference which will be held with the West Texas State Normal College Tuesday and Wednesday of next week under the direction of the State Superintendent of Public Instruction, in cooperation with the National Bureau of Education.

Miss Annie Webb Blanton will make an address on Tuesday morning at 9:30 on "Educational conditions in Texas." She will be followed by Miss Julia Wade Abbott, a kindergarten specialist of national renown, who will discuss "The Kindergarten and Modern Education." In the afternoon of the same day, Miss Blanton will conduct a round-table upon the reconstruction of Rural Education. At night, Tuesday, there will be two addresses—one by Miss Edith Lathrop of the Bureau of Education, at Washington on "Rural Education a National Emergency," and one by Dr. J. L. McBrien, also of the National Bureau, on "The Ideal Teachers."

On the morning of Wednesday the 18th, Miss Lathrop will conduct a round-table on "Rural Education and Country Life."—Dr. J. A. Francis, also of the Bureau of Education will address the morning conference and in the afternoon Dr. McBrien will conduct a round-table on "Rural Education and Country Life." At night Dr. Francis will give an illustrated lecture on "School Gardens." All programs will be interspersed with music by the Department of Music of the College.

It is the earnest desire of the State Superintendent that as many people as possible attend these meetings. It is particularly important that school trustees, county superintendents, and those interested in the general development of rural life should be present.

A NEW CORRESPONDENT
We are adding a new correspondent to our list of contributors this week. It is from a territory which has not been covered by a correspondent for some time—the north end of the county. Mrs. Jim Foster will furnish news from the Lake Side community from now on. Any one having news of interest in this section will please phone her. We welcome Mrs. Foster as a contributor. We have wanted to cover the news on the north side better than we have in the past. We also want contributors from every community in the county. The paper is sent free to contributors in addition to stationery and stamps. Make your community a live one by publishing the social and industrial developments in the Randall County News.

LAKE SIDE SCHOOL NOTES.

Nice rain last night and was greatly appreciated by the farmers, it was needed to make wheat fill out and to bring up the row stuff.

The George Groves home was visited last week by his father and family of Texola, Okla.

Mrs. F. E. Haynes received a message yesterday conveying the sad news of the death of her mother in Pennsylvania. Mrs. Haynes decided to not go as it is such a long journey.

Misses Alice Richards and Zona Foster visited in Amarillo Saturday and Sunday. Friends brought them home Sunday afternoon.

Mrs. George Graves and son started for Gainesville overland in their car to visit her grandmother who is 93 years old.

Fred Foster and family, also Garfield Trent returned home to Burk Burnett after a few days visit at the parental Jim Foster home.

Miss Ruth Foster is visiting with relatives at Burk Burnett and Chilli-cothe and will go to Medicine Mound before returning home.

We understand that G. R. Walls, one time good neighbors, are enroute from New Mexico to be again in our midst. We welcome them back.

Mrs. Mary Bradley and mother, Grandmother Foster are visiting Mrs. W. H. Foster at Happy this week.

WAYSIDE WARBLINGS.

Ground beginning to get dry, farmers have made good use of the time in planting row crops. Some complain of having to plant over—now beginning to rain, June 9, p. m.

A number had been breaking sod and were obliged to stop on account of getting too dry.

Mesdames Emily Rity and Myrtle Helms and little daughter of Tucumcari, N. M., are visiting with W. T. Helms and family.

Mr. and Mrs. W. Mudd of Tulia visited with her sister, Mrs. J. H. O'Neill Saturday and Sunday.

Mr. and Mrs. S. W. Reeves of Clarendon, Texas visited the parental J. H. O'Neill home Saturday and Sunday.

Miss Lorine V. McGehee went to Canyon to attend the Summer Normal.

Mrs. R. L. Haney, living near Lubbock is with her parents, Mr. and Mrs. J. H. O'Neill and will probably spend the summer here.

Mr. and Mrs. W. Haney of near Lubbock visited with J. H. O'Neill and family the latter part of the week.

Willis Fisher met Corp. Guy Carter in Amarillo Monday and brought him out home.

A great number of relatives and friends and neighbors met at the home of Mrs. Lou Gillham Sunday to celebrate the return of Mack, who reached home last Tuesday from over seas. The dinner was sumptuous and abundant, served in picnic style. Everyone rejoiced with the happy mother and soldier.

Last Wednesday morning J. M. McGehee was taken seriously ill. He suffered intensely. A doctor was called who gave a hyperdermic. His brother M. D. McGehee hastened to Canyon and brought the doctor out and he pronounced his trouble as inflammation and congestion of the stomach and bowels, also locked bowels. The doctor relieved him so as to go to Canyon where he is now spending the time with his mother and sister and thinks he will soon be able to return to Wayside.

Mrs. S. J. McGehee and daughter, Miss Sallie of Canyon visited J. M. McGehee Wednesday, returning Thursday.

A social at E. P. Wesley's Friday night was reported a great success.

HAPPY HAPPENINGS.
The White Sox crossed bats Tuesday afternoon with Kress on the home grounds resulting in a score of 9 to 1 in favor of the "Sox". Kress not being satisfied with this, played the second game, which (of course) give the "Sox" another victory, the score standing at 14 to 5. The Kress boys put up a hard fight, but all in vain. The Sox wore their new suits presented to them by the business men so they could do nothing but win to express appreciation of the suits.
Mrs. Tom Bandy left last week for points in Georgia to visit friends and relatives for some time.
Mr. and Mrs. H. L. Holland and son of Texhoma came down Thursday to visit the parental J. M. Evans home.
Mrs. Geo. Lash is able to sit up after a two weeks illness.
Miss Esta Banard entertained a number of her friends Saturday night with a party. A large crowd was present and all report a fine time.
Mrs. E. F. Miller and Mrs. Ethel Black and baby of Canyon were Sunday visitors at the Chas. Dison home. Ruth Dison returned to Canyon with them and is spending the week with friends in Canyon.
Frank Miller of Millett, Texas, is here visiting his brothers, J. M., Gus and John. He will stay and work thru the harvest.
Tuesday night we had another rain which was of untold benefit.
Charlie Waite came in Sunday night from Amarillo. He had an attack of appendicitis.
Several of Miss Gladys Neff's friends from Turkey motored up Sunday and took dinner at the Neff home, taking Miss Gladys home with them. She will visit at Ft. Worth and Dallas and other points before returning. She will be gone three weeks.
Mr. and Mrs. M. B. McManigal and children spent Sunday on the canyons. P. J. Neff is building a new office and will put in new scales, getting ready to take care of the grain crop.
Miss Eva Maples of Laneville, Texas is here visiting her sister, Mrs. E. A. Logan.
Mr. and Mrs. N. W. Uselding and Misses Viola and Francis Thill were shopping in Amarillo Thursday.
Ervin McManigal went to Amarillo Wednesday where he combined pleasure with business.
The Happy White Sox went to Tulia Wednesday to match bats with the Tulia boys.
Mr. and Mrs. N. W. Uselding and Misses Viola and Francis Thill spent the day Sunday visiting friends in Nazareth.
Mr. and Mrs. Earl Smith and son of Amarillo visited Saturday at the parental E. J. Smith home. Lester returned with them, he having been there going to school.
Mrs. Charles Innis was sick last week.
HAPPY B. Y. P. U. PROGRAM.

WHAT ONE CLASS IS DOING

Ten per cent of the weekly collection of the Loyal Men's Class of the South Dallas Christian Sunday School is put into a sinking fund by investing it in War Savings Stamps. The accompanying picture of the Class was taken Easter Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night. The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lines of church work.

What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed at any time and which can always be secured—with interest—on ten days' notice to the postmaster.

SOLDIERS AND DEPENDENTS TO FORD DID NOT FORGET THEM

Mt. Clemens, Mich., June 12.—The fourth week of Henry Ford's \$1,000,000 libel case against The Chicago Tribune was devoted entirely to testimony intended to batter down the charges made in the now famous editorial "Ford Is An Anarchist." Sentence by sentence the attorneys for the plaintiff took up the statements made in The Tribune.

Men who left the Ford plant to serve the nation in camps at home or in the trenches overseas took the stand to testify that their jobs had been open until their return. Dependents of these men swore that they had received assistance from the Ford Motor Company. Sheafs of admitted to prove the sums of money which were actually paid over to needy families and finally, to make clear the workings of the educational departments of the company, men in charge of that department were called and testified in detail as to the workings of the profit sharing plan which makes the Ford workmen the best paid in the world and to the methods of the social workers who endeavor to guard the men and their families against exploitation and to assist them in raising their standard of living.

Explaining the Ford educational system which attorneys for The Tribune endeavored to represent as an interference with employes private affairs, Dr. Samuel S. Marquis, head of the department and formerly dean of St. Paul's Episcopal cathedral, Detroit, said:

"The duty of the regular advisors is to visit the homes of our employes to ascertain housing conditions, to advise regarding matters of thrift, sanitation and so on; that in general the work of the regular advisor.

"Special advisors are also used. We have, for example, an advisor whose duty it is to visit the homes of those who require assistance from the company—where there is illness, say; to personally take the check from the company to that home and to determine whether the assistance that is being rendered should be increased, diminished or discontinued.

"We have a special advisor—and it may seem rather strange to say so—whose duty it is to look after men who have peculiar nervous diseases, the epileptic and insane; work which is very necessary as we draw no lines against a man because of physical disability. We try to keep the same portion of lame, half and blind in our work force as there are in the community at large. In fact we are required by Mr. Ford to do that. We want to bear our share in proportion to the number of men we employ, in supporting the burdens of the community. We also try to keep the community portion with regard to the nationalities of the men we employ. That is, we wish our organization to be in every respect a cross-section of the community in which it works."

Supervision, it was explained, is dropped when it is shown that a family is living according to American standards. It was also developed that the Ford "turnover" of employes is a fraction over 2 per cent a month, the lowest in the country. Tribune counsel attempted to obtain an admission from Dr. Marquis that the Ford employes who suffer from mental and nervous troubles were thus afflicted because of the conditions of labor in the Ford factory. Dr. Marquis denied this, stating again that many of these men were

hired with full knowledge of their condition, knowledge obtained thru the medical examination which every new employee is required to take, and that the number of men contracting these troubles after being employed was only the normal number.

The star witness of the week for the plaintiff was probably James A. Connors, a man who had never been employed by the Ford Company and who had served on recruiting duty with the Michigan national guard at the time The Tribune editorial was printed.

Mr. Connors testified that he had read of the case in the newspapers and had offered his testimony to the Ford Company because he felt it would be material.

While a lieutenant in Battery C, Michigan National Guard, doing duty at the Light Guard armory in Detroit, Mr. Connors was approached, he stated, by several Ford employes who asked whether their jobs would be held open and their dependents provided for in case of a call to the border.

"I called up Frank L. Klingensmith, treasurer of the Ford Motor Co., on June 20," said Connors, and asked him whether the men's jobs would be held for them. He replied that they would.

"I then told him it was likely that some of the recruits would have families and asked him what the Ford Motor Co. would do in the case of soldiers with dependents. He replied that it was the policy of the company always to care for the dependents of employes away for reasons of that kind. He said he was not sure whether any special provision had been made or not but the regular provision was sufficient anyway.

"He said, however, that John R. Lee, another executive officer, would probably know more about it and that I had better call him up. I did so, and received the same assurance both with

regard to the jobs and the dependents. Mr. Lee added that any stories to the contrary were malicious lies."

The significance of this testimony lies in the fact that the National Guard recruiting office in Detroit knew on June 20 that the Ford Motor Co., would provide for its employes and their families, while The Tribune editorial was published on June 23.

"Family Day" brought several women into court who testified as to the aid received from the husband's employer. The testimony of the women made an impressive part of the case. The keenest strategy of the best brains failed to shake their stories or ruffle their composure.

Investigators from the educational department took the stand and testified as to the process of their labor showing that in some cases it was necessary to trace dependents and that in others no application for assistance was made, but that in every instance where support was necessary, it had been forthcoming as soon as the fact could be ascertained and the machinery of relief set in motion.

Legal controversy over whether the alleged libel has been uttered 400,000 times—once for every paper published by The Tribune on May 23, or whether it had been uttered only 207 times—once for every paper circulated in Detroit—were an interesting feature of the discussions of the libel law

which come up from time to time. The question is one which the jury must decide.

The plaintiff's depositions, produced with the intention of showing a connection between the Chicago Tribune, Standard Oil and the International Harvester Company and to show also that the motive for the newspaper's attitude on the Mexican question was inspired by these big business interests were admitted by the court.

50,000 Soldiers Want Land

More than 50,000 soldiers have signed the applications for the government land which will be available after congress has passed the bill containing the recommendations of Secretary of the Interior Lane.

SUMMER COLDS

Many have their worst colds during the warm months. A very little of

Who Is Best Man To Do Your Work?

The best way to have anything is—do it yourself. The best way to get ahead in the world is—save regularly and invest wisely. Your children may be buying Thrift Stamps but the nickels and dimes and quarters they are able to save won't buy a home or a new automobile or a new cultivator. The money to do that will not be saved—unless you save it.

It's easy enough to save if you do it the W. S. S. way. Quarters planted in Thrift Stamps grow into War Savings Stamps and the interest makes them grow like rain does a summer weed. Save for that happy opportunity. If you're not in a War Savings Society—get in one. Be with the crowd. Save.

Have you bought your Thrift Stamp today?

Farmers Find Easy Method of Saving

Farmers who are making a habit of getting a few Thrift Stamps every time they market anything from their farms are finding that they are able to save regularly and that they do not miss the small amounts invested. The average farmer in this section of the country depends largely on his "money" crop, which he harvests once a year. Almost every one of them, however, grows something else which he markets at odd times.

An occasional load of hay may be taken into town and sold. The thrifty farmer also plants peas, beans, okra, lettuce, beets or some of the other vegetables which thrive in the Southwest and for which there is a ready market. Butter and eggs form staple articles to be marketed between seasons. By buying just a few Thrift Stamps each time the farm-wagon makes a haul to town, the farmer or his wife is providing a fund which will be able to turn to good account later on, for when these Thrift Stamps are exchanged for War Savings Stamps, they increase in value automatically, and may always be turned into cash on ten days, written notice to the postmaster, although the longer they are kept the more they earn.

Have you bought your Thrift Stamp today?

THRIFT MESSAGE WTEK.

The purpose of Thrift Message Week is to center the attention of the people upon the Savings Campaign and to show them how they can get ahead by saving and investing regularly in Thrift and War Savings Stamps.

Hall Hit Follett Farmers

Follett did not get any of the storm Saturday night but some of the farmers lost about 70 per cent of their wheat by hail.—Follett Times.

CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the Sheriff or any Constable of Randall County, Greeting:

C. A. Elder, Administrator of the Estate of Elsworth Dillin, deceased, having filed in our County Court his Final Account of the condition of the Estate of said Elsworth Dillin, deceased, numbered 92 on the Probate Docket of Randall County, together with an application to be discharged from said administration.

You are hereby commanded, that by publication of this Writ for twenty days in a Newspaper printed in the County of Randall you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on or before the 7th day of July, 1919, of said County Court, commencing and to be held at the Court House of said County, in the town of Canyon—on the first Monday in July A. D. 1919, when said Account and Application will be acted upon by said Court.

GIVEN UNDER MY HAND and Seal of said Court, at my office in the town of Canyon this 7th day of June A. D. 1919.

(SEAL)
O. W. GANO, Clerk, County Court, Randall County.

I HEREBY CERTIFY that the above and foregoing is a true and correct copy of the Original Writ now in my hands.

WORTH A. JENNINGS, Sheriff, Randall County.

Good Wheat in Swisher County
Last Friday afternoon Messrs. H. G. Ware, S. C. Graham, M. D. LaVelle and ye editor gladly accepted a kind invitation, freely extended by Mr. R. Rowley, and in his Ford drove out to Mr. Rowley's farm, north of Tulia.

We were driven over for a view of 150 acres of the finest wheat of which it has ever been our privilege to see. Truly Mr. Rowley is a farmer who knows his business. There was not a single weed in the field, neither was there any rust on the wheat. The wheat was almost of uniform height, and ranged from four to four and a half feet high.

An inspection of the wheat showed that with but few exceptions, there were thirty meshes to the stalk. It was freely predicted that the wheat would not make less than thirty, and maybe forty, bushels to the acre.—Tulia Herald.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

Nature and the Indian

The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he dug papoose root for her, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

JACKSON, Miss.—"Dr. Pierce's Favorite Prescription is a good medicine and I have recommended it many times to women who suffer. This medicine was a great comfort to me after motherhood. The doctor seemed unable to give me any relief or help, but I had very prompt relief as soon as I started to take the 'Prescription.' It cured me of my trouble and restored me to a perfect state of health, and that is why I do not hesitate to speak a good word for Doctor Pierce's Favorite Prescription whenever I have an opportunity."—Mrs. K. G. SUTHERLAND, 509 Boulevard Street.

Dropped Dead While Linting.

Friday evening, May 30, at about 5:30 o'clock; J. C. Leckliter, a highly respected farmer of the Anchor community, while linting his land fell from his lister dead. His death is supposed to have been caused by a third stroke of paralysis. He suffered the first stroke, seven years ago last October, and the second stroke, one year ago last September. Otherwise he, seemingly, was enjoying better health than for the past 17 years. —Hale Center Record.

Canadian Will Pave

The contract has been let for the paving of the principal business streets and as soon as the details of the transaction are arranged it is expected that actual paving work will commence in Canadian.—Canadian Record.

Happy Mothers Prepare in Advance

A Wonderful Influence For Expectant Mothers.

Mothers for over half a century have used with the utmost regularity the time-honored preparation, Mother's Friend, before the arrival of baby. Here is a truly wonderful penetrating application for the abdomen and breasts. It softens and makes elastic the muscles, rendering them pliant to readily yield to nature's demand for expansion. By its use the anxious months of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and the use of Mother's Friend brings restful nights and happy anticipation, for the nerves are not drawn upon with the usual strain.

By its regular application the muscles expand easily when baby arrives; the time is less at the crisis and naturally the pain and danger is less.

Mother's Friend is on sale at every drug store. It is for external use only, is absolutely safe and wonderfully effective.

Write the Bradford Requinator Company, Dept. C. Lamar Building, Atlanta, Georgia, for their interesting Motherhood Book, free to users of Mother's Friend, and obtain a bottle of Mother's Friend from the drug store and begin this grateful treatment.

Savings Campaign Is Boon To Women

The average family in Texas, Louisiana, Oklahoma and New Mexico is not wealthy enough for the "lady of the house" to have all the little conveniences she wants. Through Thrift and War Savings Stamps, however, the Government has provided a way for the housewife to fit up her kitchen, paint the house, furnish her spare room or embellish the parlor.

Those women who were so wise as to begin saving systematically early in 1918 have nice little sums invested in War Savings Stamps by this time. Eleven War Savings Stamps, some of which cost as little as \$4.12 apiece, will buy a first class kitchen cabinet. In many instances, the housewife would not have saved anything to speak of, had it not been for the War Savings Stamps.

Some of the banner Savings Societies in the Eleventh District are in women's clubs or church societies. Women are quick to grasp the benefits from habits of Thrift. Numerous reports have been received at District Headquarters of the Savings Division at Dallas of women who have started in by putting quarters in Thrift Stamps and who have been enabled to buy desired articles to brighten up their homes. As soon as a War Savings Stamp is bought, it begins earning more money. War Savings Stamps are ready money. They are redeemable with accrued interest at the post-office on ten days' notice, but the longer they are held, the more money they make for their holders.

Have you bought your Thrift Stamp today?

The First Thousand Is Hard To Get

When a man gets \$1,000.00 saved up there are always opportunities for a good investment. It is hard to place much less than that. That is why wealthy men who are self-made advise young men to begin early and save the first thousand.

Until we went to war, it was hard to get started toward that \$1,000.00 unless at least one dollar could be put away at a time. Small change was restless and acrobatic and kept jumping out of our pockets into somebody else's.

Now, however, there is an easy way to get that first thousand. The answer is Thrift Stamps. They cost only a quarter apiece and can be converted into War Savings Stamps. The Government of the United States backs these War Savings Stamps with a guarantee of 4 per cent interest, compounded quarterly. Save and Succeed.

Have you bought your Thrift Stamp today?

Work or Go to Jail at Vernon

"Work in the harvest fields or be arrested for vagrancy and placed on the road gang" is the slogan adopted by Sheriff W. A. Ish with reference to the many transient men who are loafing on the streets of Vernon demanding exorbitant prices for labor. During the last few days a great many men have drifted into Vernon, attracted by reports of a large harvest and big wages. The reports are true but it seems there is a difference of opinion as to what should be considered as "big wages," Mr. Ish says. —Vernon Record.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver, and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food, and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

THE STATE DEPARTMENT OF HEALTH

By C. W. Godard, State Health Officer. Paper read before the Texas State Medical Association at Waco, May 14th.

In attempting to discuss this subject, it necessitates calling your attention to the several divisions or Bureaus connected with the Health Department.

When I assumed the duties of State Health Officer, January 21st of this year, the Health Department was composed of the following: Bureau of Vital Statistics, Bureau of General Diseases, Bureau of Rural Sanitation, Bureau of Sanitary Engineering, Laboratory Department and Coastal and Border Quarantine. I desire to say here that my appointment to the job of State Health Officer was not so much a political appointment as had been the case heretofore, but was largely due to the influence and good will of many of the leading doctors of the State Medical Association. This fact makes me doubly appreciate the honor which has been conferred upon me, and I take this opportunity to say that the Texas State Medical Association has the right to expect the good will and fullest co-operation of the State Health Department.

My predecessors in office by their arduous labors had built up a good basic organization, or in other words, a good foundation upon which to build a real Health Department. We at once began to study closely the conditions as they existed and to devise plans to develop this basic organization, and to extend our system to cover every phase of public health.

We began to co-ordinate the work of the several bureaus one with the other, making each one assist the other in every way possible and at the same time avoid duplication.

After a careful analysis we found that only a small per cent of the people were being reached, and that the Health Department was so small when compared to the size of the State, and with the number of people to be reached by it that it was somewhat bewildering to even attempt to serve all the people.

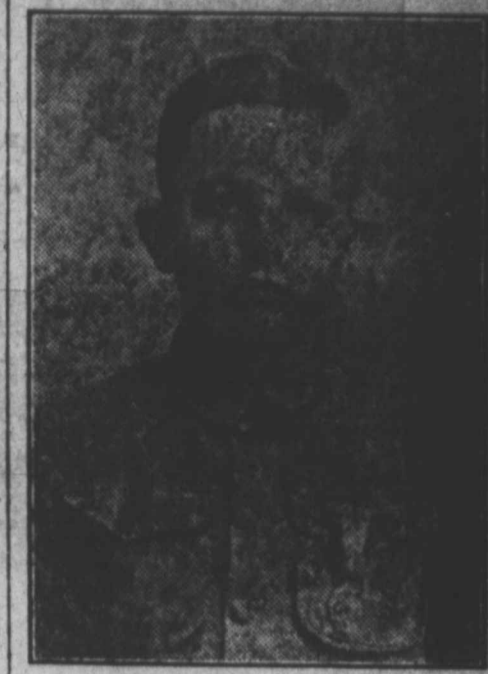

The first thing taken into consideration was the facilities for disseminating from the office and to do this at a minimum expense. To accomplish this I found first that it was very necessary to get into communication with the people. With this idea in view, we began accumulating a mailing list to add to the good work already being done by Dr. H.C. Hall, Director of the Bureau of General Diseases. We are now compiling from the birth certificates the name, age, race, occupation and address of the father of each new born baby, beginning this list with the birth certificates of January, 1918, and when completed up to the present time we will have a list from this source alone of approximately 160,000 families.

This list will be increased by approximately 12,000 per month. When this list is completed to date we will begin sending literature to the mothers of nearly every baby in the state teaching her how to protect the health of her baby and prevent disease in her family. With this literature we will send a questionnaire requesting her to furnish us with the names, ages and conditions of health of each member of her family and also the names and addresses of all expectant mothers who reside near her, explaining to her that the object of this request is to be able to send to these expectant mothers at the expense of the state wholesome literature which will be helpful to them, and at the same time all doctors will be circularized and requested to send us the addresses of all expectant mothers coming to their attention.

We estimate that this procedure will add to our mailing list more than 100,000 families. Under this system we will have accumulated a list of more than 300,000 families, and in less than one year we expect the list to reach one-half million families, or more than 2,000,000 people. (Continued Next Week).

Grove's Tasteless chill Tonic destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 60c.

Scouts Decorated For Selling W.S.S.

JOYCE COX

Every Boy Scout in the Eleventh Federal War Savings District can wear a Treasury Achievement Button, an Ace Medal and have bronze, silver and gold palms on his medal ribbon, if he will do as much as Joyce Cox, a Boy Scout of Cameron, Texas. Joyce had sold almost \$6,000 worth of War Savings Stamps up to May 1, 1919.

The Achievement Button represents sales of War Savings Stamps to twenty-five individuals. The Ace Medal represents total W. S. S. sales of \$250. A bronze palm represents an additional \$100, a silver palm an additional \$1,000 and a gold palm an additional \$5,000 in War Savings Stamps sold. "I'd like to see every Boy Scout in the District wearing gold palms on his medal ribbon by the end of the year," said Frank M. Smith, Federal District Director of the War Loan Organization. "What one boy has done others can do. One of the best War Savings Societies in the District is in the Boy Scout Troop at Tallulah, La. There ought to be a Savings Society in every troop."

Have you bought your Thrift Stamp today?

Fraternal Orders Strong For Saving

Fraternal orders should take an active interest in the 1919 Savings Campaign in the opinion of Pat M. Neff of Waco, Grand Chancellor of the Texas Grand Lodge, Knights of Pythias. Another enthusiast over the Savings Campaign is J. W. Chancellor of Bowie, Grand Master of the Texas Grand Lodge, Independent Order of Odd Fellows.

"In the Savings Campaign," Mr. Neff said recently, "the Government has placed the stamp of its approval on the fraternal idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it. Many of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their share."

"Texas Odd Fellows had a number of strong War Savings Societies last year," Mr. Chancellor said, "and most of them made excellent records. Wherever possible, it would be a fine idea for the members of the lodge to form themselves into a Savings Society again this year, if they have not already done so."

Numerous lodges of various orders over the Eleventh Federal District not only have Savings Societies but are securing sinking funds by investing in War Savings Stamps as a lodge. The members of these lodges are also buying W. S. S. individually.

Has your lodge been organized?

Successful Dollar Is One That Works

The dollar that goes to work is the successful dollar. The idle dollar is a failure.

The successful dollar brings back another dollar with it. It makes itself a dollar and something—two dollars and something—a whole family of dollars.

The careless dollar goes off somewhere and is never seen again.

A Texas man the other day lost a life-time's savings—\$786.00. His dollars had gone off in the pockets of two fake stock promoters. He had not taught his dollars to keep good company.

Hundreds of years ago a man to whom a handful of dollars had been trusted buried them in a napkin. He got no increase—he did not even keep what he had. One might as well have nothing as keep an idle dollar.

The dollar that succeeds is energetic—and careful. War Savings Stamps do more than save your dollars. They put them to work at 4% interest. And they never fail. Your Government guarantees every one of them.

More Value for Your Money

Beginning with this week The News is adding an eight page section to its regular edition of the paper. This second eight page section will furnish The News readers with live reading matter which is not furnished by any other paper in this territory. It will carry stories of the human interest happenings from all over the world, and particularly here in our Great Southwest. There will be a page devoted to women's styles and favorite recipes. Another page will be devoted to better farming and good roads development. There will be a sporting department keeping the readers posted in story and photograph of the happenings in the sporting world, particularly in baseball. Beginning with this week's issue, is a newly published serial story, "Jacqueline of Golden River." It is a story of love, adventure, fighting and treasure. Read the first paragraph and we are sure your interest will be held until the last installment. The whole paper will be illustrated with excellent actual photographs and artist's sketches

THE SUBSCRIPTION PRICE TO THE RANDALL COUNTY NEWS WILL CONTINUE TO BE \$1.50 PER YEAR

And in addition we will continue to give with the News free of charge, one year's subscription to **The Southwest Plainsman.**

Can You Beat It?

We want every one in this section of the Panhandle and Plains to take the Randall County News and we want to give them a paper they like. We are always glad to receive kindly criticisms to this end. Our patrons must be satisfied.

PRINCE ALBERT

the national joy smoke

Tasty red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in each perfect condition.

PUT it flush up to Prince Albert to produce more smoke happiness than you ever before collected! P. A.'s built to fit your smokeappetite like kids fit your hands! It has the jimmidiest flavor and coolness and fragrance you ever ran against!

Just what a whale of joy Prince Albert really is you want to find out the double-quickest thing you do next. And, put it down how you could smoke P. A. for hours without tongue bite or parching. Our exclusive patented process cuts out bite and parch.

Realize what it would mean to get set with a joy'us jimmy pipe or the papers every once and a while. And, puff to beat the cards! *Without a comeback!* Why, P. A. is so good you feel like you'd just have to eat that fragrant smoke!
